SUCCESS HASN'T SPOILED HASKELL'S RALNA ENGLISH

RALNA AND GUY HOVIS
... Husband and wife team on Lawrence Welk Show

The following is an excerpt from the column "Channel Fare", by Naomi Caddell, published recently in the Sunday, April 12th edition of the Lubbock Avalanche Journal, concerning Haskell's own Ralna English and her husband, Guy Hovis.

Success may have spoiled "Rock Hunter", but it hasn't hurt Ralna English a bit.

Ralna and her husband, Guy Hovis, both vocalists on the Lawrence Welk Show, came to town this week to renew old acquaintances and to let her friends meet Guy.

Friends found her to be the same vivacious, folksy little girl-grown up who sang with the Ad-Libs, a group of her classmates who had their own musical combo in Lubbock High School.

After gaining experience from junior high school days on into her Texas Tech days, she was chosen for the Campus Revue at Six Flags Over Texas.

Prior to becoming a regular member of the Lawrence Welk show, Ralna was booked for a number of engagements which brought her to attention of ad agencies.

Ralna says "the entire Welk organization is one big happy family." With the Welk show a three-week engagement, June 9, then Guy and Ralna have a couple of Fair show engagements on their own in July.

Lawrence Welk and company will be at Lubbock Coliseum on September 7th.

EDITOR'S NOTE: "Guy and Ralna" visited in Haskell recently with her relatives. She is the granddaughter of Mrs. W. D. Kemp, and the niece of Mrs. Giles Kemp and Willie Mae Fouts.

Naomi SS Class Holds Business, Social Meeting

The Naomi Class of the First Baptist Church had their regular social and business meeting Monday night at the Educational Building. The atmosphere of spring was felt throughout the room which was beautifully decorated with arrangements of iris.

Mrs. Dewie Wester's group was hostess and served a delicious salad supper. Mrs. Hassie Couch gave the invocation.

After the supper, Mr. and Mrs. Clyde Bland showed their slides of their trip to London, England. They commented on each picture, telling what it was and where it was located. This was very interesting and certainly enjoyed by the group.

Members present were: Hassie Couch, Stella Trice, Edna Burnett, Iola Henshaw, Claudia Mae Bland, Betty Jo Clanton, Elyse Eastland, Ruby Smith, Sadie Payne, Grace McKelvin, Freda Carter, Helen Oates, Dewie Wester, Ethel Lou Shelton and two guests, Jan Eastland and Clyde Bland.

Meeting Held At Rice Springs Care Home

Monday night, April 20th, the staff of Rice Springs Care Home met for a special program on fire and tornadoes. The program was held in the Care Home with eight members of the Haskell Fire Department participating. The firemen discussed what to do in case of a fire at the home and also in case of tornadoes.

A question-and-answer period followed the program. This was very informative and beneficial to all. Besides the Rice Springs staff, those present were Tom Watson, E. J. Stewart, R. V. Black, Billy J. Ray, Chester Hodgins, Jack Medford, Wayne Waincoat and Desmond Dalaney.

Refreshments of coffee, punch and cookies were served following the close of the program.

HASKELL FREE PRESS

HASKELL, TEXAS 79521, THURSDAY, APRIL 23, 1970

NUMBER SEVENTEEN

HASKELL AREA AFFECTED BY LOW LEVEL FLYING ROUTES

The world wide commitments of the 516th Tactical Airlift Wing (TAW), Dyess AFB, require continuous low level flying training. The highest possible degree of proficiency must be maintained and the 516th TAW aircrews must be current in all modes of aerial delivery. As a result, C-130 Hercules and C-7A Caribou aircraft are flown at low level altitudes over the "big country" on a daily basis.

These low level flights may be scheduled between 8 a. m. and midnight, Monday through Friday, and less frequently on weekends. Daylight missions are flown at an altitude of 500 feet above the terrain while night low level activity are conducted at least 1,000 feet above any obstacle, man made or geographic, within three miles of the prescribed track of the aircraft. Airspeeds will vary from 115 to 290 miles per hour.

All flights are made along specific routes which are approved by the Tactical Air Command, only after coordination with the Federal Aviation Administration and local airport managers. Minimum disturbance of farms, ranches and communities is the primary consideration in selecting low level routes. Towns, local airports, resorts, hatcheries and stock pens are avoided when planning the routes and will not be overflown by C-130 or C-7A aircraft under any normal circumstances. 516th officials would like to emphasize that, even though training must be conducted at low altitudes and high airspeeds in order to be realistic, all possible precautions are taken to prevent disruption of local agriculture and community activities.

The areas affected by these training flights are: Abilene, Merkel, Rotan, Hamlin, Aspermont, Stamford, Throckmorton, Haskell, Rule, Winters, Ballinger, Coleman, Talpa Cisco, Carbon, Comanche, Eastland, Albany, Anson, Nolan Christoval, Paint Rock, Tuscola, Tye, Sylvester, Roby, Girard, Buffalo Gap, Baird, Lueders, Seymour, Benjamin, Knox City and Old Glory.

SPACE AND CANCER

Surveys have been conducted in many lands to find out what newspaper headline people would most like to see. Almost invariably their choice was: **CANCER CURE FOUND.**

After the tremendous scientific triumph attained when men walked on the moon, many people asked a pointed question: Why can't the same resources be devoted to finding a cancer cure? The American Cancer Society has told the nation that we are in a delicate and critical period in the history of cancer control. The Society has warned that the leveling off of government expenditures for cancer research is placing a heavy demand on the Society for increased research support.

At the same time scientists have frankly indicated the difference between reaching for the moon and seeking the conquest of cancer. All the basic scientific knowledge was available when the moon project was undertaken. It became a matter of applying maximum technology and effort to the goal...and the goal was reached even before the scheduled time.

With respect to cancer, much of the scientific information is still to be discovered and unraveled. The innermost secrets of life processes are involved. Much has already been found and that's why one of the three cancer patients is now being saved. The doctors tell us that with present knowledge it could be one of two saved if the cancer is diagnosed in time and properly treated.

But the difference between the moon project and the scientific war against cancer only points up the importance of getting our priorities straight. The American Cancer Society says that the cancer control effort is in jeopardy in two vital areas—in the need of speedier and more effective application of research results to the cancer patient, and in the development of cancer research itself.

The Rochester 4-H Club had a Community Food Show Friday, April 18, 5:30 p. m. in the home of the adult leader, Mrs. B. O. Roberson. The girls had worked for a few weeks on the Food Project to compete locally and in the county show in Haskell.

Individual table setting, a daily menu, and a tempting recipe. Questions were asked by the judges about nutrition and the preparation of the recipe. Each girl had actually prepared her own recipe and the judges tasted the food as a part of the judging. Red ribbons and blue ribbons were awarded at the end of the show.

LETTERS TO THE EDITOR

"PLEASE TAKE FIVE MINUTES AND READ THIS!"

To anyone in Haskell that cares! My name is James Powell. I have been a newcomer in Haskell the past four years. I believe Haskell is the most wonderful place I have ever lived. The people are the best in the world. So, what is this all about? It's about a place called The West Texas Rehab Center at Abilene. I have been appointed chairman for the Center ever since I moved to Haskell County. Now there's not any use telling you what kind of shape the Center is in, you know. All I'm doing right now is BEGGING for help, not for me or my family. Thank God, my boys are healthy and we don't have to use the Center. But I have lots of little buddy boys and girls that do have to use the Center, and even you, grown ups. It's there for you, too.

I don't know what to do. Do any of you? Should we shut the Center down? Or will some of you get in your cars, drive to Abilene, see what the Center is doing? Won't some of you preachers help? Won't some of you Ladies help? Won't some of you fine young boys and girls help?

I'm not asking for a lot. If each person just gave one dollar, we could keep the doors open. In this area, we have had help, but not enough. I have said I wouldn't beg, but I'm begging now.

Search your heart, then answer. There's some little boys and girls leaning on crutches, in wheel chairs, and some can't talk, saying, "Help me—Help me." Won't you please help them? How about it?

Golfers couldn't you have a tournament with the proceeds going to the Rehab? Bridge players, couldn't you have a tournament with the proceeds going to the Rehab? Domino players and Forty-Two players, couldn't you have a tournament?

So far this year we have done our share—but we need more.

Mr. Jim Strain donated a calf. Lots of farmers and ranchers have donated at the auction two different times.

The Haskell Lions Club donated \$100. Mrs. Bland donated money. But we need more to keep the doors open this year. After the end of the year, we don't know.

Thank you for reading this

Rhineland, Both teams made it to Consolation, but both lost there. Winners, Men, Munday first; Seymour, 2nd; and Rule, consolation. Women, Goree, 1st; Rule, 2nd; and Abilene's Luskey's, consolation.

A Family Reunion Relatives visiting in the home of Mr. and Mrs. Wilmer Smith and family of Milano, were her four sisters, Mr. and Mrs. Donald Griffis, Dorinda, Donna and Darla, of Weinert; Mr. and Mrs. Travis Solomon Jr., and Leisha, of Haskell; Mr. and Mrs. Donnie King and Larry Don, of Abilene, and Mr. and Mrs. David Malone, Christy and Kathy, of Abilene; her parents, Mr. and Mrs. J. L. Reid, Jr. of Rochester; her nephew, Mr. and Mrs. Donnie Muhle and Veronica, of Stamford, and their son, Mr. and Mrs. Roger Smith and Terry Dale, of Dallas. Also while there, other relatives of Mr. Smith came by to visit.

While there, Donna Griffis celebrated her fourth birthday. Everyone enjoyed a fish fry and picnic lunch Sunday before leaving for their homes. On the way home, the Griffis family and Mr. and Mrs. Reid stopped at Eastland and visited relatives.

Other Junior High winners include, Larry Short, 2nd in 7th and 8th Spelling; Dickie Greenwood, 2nd in 5th and 6th Spelling, and Susan Stegemoeller, 2nd in Ready Writing. Several fourth place ribbons but they don't collect any points.

Do you put a higher price on an Olds than we do?

Our own surveys indicate that quite a few people think an Olds costs a lot more than it really does. Result? Many people buy an ordinary car and end up with a lot less car and value for their money.

It's so unnecessary, too, because Oldsmobile has many models that are priced right down with so-called low-priced cars. See your Olds dealer. He'll prove that you're closer to Olds than you think.
