AUSTIN — The North Central Texas Municipal Water Auth-ority's request for another \$775,-000 of Texas Water Development backing was granted last Thursday, but the board told NCTMWA's consulting engineer, Jim Nichols, to see if he can't cut down the size of the proposed reservoir and project

The state board agreed on April 25, 1969, to loan the authfoot reservoir on Miller's Creek so water sales could help retire

Now, Nichols said, the cost estimate has gone up to \$6 million and the Authority asked the state board to increase its loan commitment by \$400,000,

and increase its purchase of storage space to 33.25 per cent. Some of the cost increases resulted from realigning district boundaries when the city of Rule voted against participation, and Knox City voted to join the Authority. Under the present service plan water from the reservoir would supply Munday, Has-

kell, Goree and Knox City. Nichols said that Seymour might join "in future years when some of the political pressures are off" so that would be another possibility for sale of

Your past participation in our Flag Progress is very much appreciated. It has made possible the purchase of protective fire fighting clothing for all the firemen and additional equipment on the trucks. At present as summer, She feels one of as summer. She feels one of the most intriguing things at Fairbanks, is to see the beautiful sunrise so far in the South, at approximately 9:45 a. m. and make only a short circle and it is sunset again, at 1:26 p. m., making a total of 3 hours and 42 minutes of daylight on De-

Alaska was experiencing a warming trend, and she only got to see the temperature drop to a minus of 20 degrees. She was amazed to see the children bundled up in boots and parkas playing outside, riding snowmo-biles and going about their us-ual activities.

The flight from Fairbanks to Anchorage gives one a wonder-ful view of beautiful Mc Mc-Kinley, towering at a height of 21,000 feet, the highest mountain in the United States. In Anchorage, Mrs. Johnston visited another son, the Roy Johnstons and also a grandson, Eric G. Johnston, who is attending Alaska Methodist University.

The days are a little longer in Anchorage, where they have some five hours of daylight. The ice crystals that form when the temperature and atmosphere are just so, are something to see, leaving trees and shrubs shrouded and shimmering in magnificent beauty. A visit was made some 40 miles down to Alieska, a skiing resort with two large lodges to accommodate the skiers and spectators, of which there were many.

From Anchorage, a flight to thriving Seattle, Washington, enabled her to enjoy a visit with her brother, the Calvin Boeing Aircraft Plant where

she viewed the 747 Jumbo Jet. From Seattle to Long Beach, California where she many places of interest in the company for her brother, Alvin Putnam, a retired Naval officer. She went aboard the USS mine sweeper, "Pledge" quite modern from the World War II mine sweeper.

Mrs. Johnston will return to her executive duties as administrator of Rice Springs Care Home on February 1, following a six-month leave of absence

This year, 4,018,000 NSLI policy holders across the nation will receive \$244 million in dividends averaging \$61 each, compared to \$53 in 1969

The 173,200 holders of USGLI will receive \$20 million in dividends. These checks will average a little more than \$115 per policy, compared to an average of about \$97 last year.

Larger interest earnings in the USGLI and NSLI funds made this year's increased divi-dends possible, the VA Regional Office Manager said. He pointed out that dividend

payments will be automatic, and consequently there is no need to write to the VA to receive them.

The probability of a worker remaining with the same employer varies by his age and length of time on the job. For both men and women, retention rates were highest for those in their thirties and forties and lowest for those over 60 years

Heart Disease: A Local Problem

The heart problem isn't a distant and nebulous national problem of concern only to medical centers, physicians and research scientists. It is a local problem ... one which casts its ominous shadow over every home in this community.

If you are skeptical, just note the frequency with which the words "heart attack," "stroke" and "heart disease" show up in the obituary columns of this newspaper. Here, as elsewhere throughout the nation, approximately half of all deaths are caused by a cardiovascular disease. Cancer is a distant second, while accidents are third.

In these circumstances, it is vital that we give our full support to the Heart Fund, which makes possible the research, education and community service activities of your Association.

Over the past 20 years Heart Fund dollars have speeded virtually every advance in cardiocascular medicine. These gains are reflected in a 20 per cent decline in the cardiovascular mortality Precinet offices, the trio of rate for those aged below 65.

But much remains to be done. This year more than a million Americans, including a number from this community, will die office before. The new candid-from cardiovascular disorder. (Terry)

So give generously when your Heart Fund volunteer rings your doorbell late in February. Give ... so more will live!

Tax Questions And Answers

(This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q-If I file my 1969 return by the end of January, can I for-get about the fourth installment of my estimated tax?

A-You do not need to make a January 15 estimated payment if you file your 1969 return by February 2 (January 31 is a Saturday), and pay any balance due at that time. But don't forget that 1970 declarations must be filed by April 15. and asking for Form SS-14.

Q When should I be getting W-2 statement?

A-The law requires employers to issue withholding statements by January 31 (February 2 this year because the 31st is on a Saturday). Most companreturns early.

Q-Is the new Farmer's Tax Guide ready yet? A-Yes, contact your local

IRS office or county extension the points were scored for both agent for a free copy. Q-I was given some share of

stock this year as a gift. Will I have to pay tax on their value? A-The person who receives a gift does not have to pay any Federal income tax on the value of the gift. Any income you earn on the gift, such as dividends on stock for instance, should be reported by you for income tax purposes.

The giver of a gift may have to file a Federal gift tax return depending on the value of the stock. This rule generally applies when a person makes gifts of more than \$3,000 to any one person during a year.

Q) Other than the fact that color makes the form look nicer, is there any advantage in having red, white and blue tax forms

A) It is expected that color will draw the taxpayer's attention to those areas on the tax form where errors are made which lead to delays in processing returns and issuing refunds. The instructions for using the pre-addressed name label and signing the return, for example, are highlighted in
