## County Goal Is 70 Pints

# First Bloodmobile Visit Tuesday

Charles Thornhill, Blood Chairman for Haskell County, under the Red River Red Cross Blood Center of Wichita Falls, held the final organizational meeting of his committee Monday evening at Haskell National Bank's community room.

Haskell County's quota is 70 pints of blood. Each Donor Recruiter has an appointment

sheet. When you contact them to list your name, you may give a convenient time you wish to be at the van—it will be in Haskell at the Community Room of the bank between 1:30 and 6:30 Tuesday afternoon, May 23—and if at all possible, this time will be made available to you, so that you will not be inconvenienced by waiting. Ap-

pointment sheets need to be in the hands of Charles Thornhill by noon Saturday.

Donor recruiters—people who's work is vital in getting a list for use to set up appointments for donors before arrival of the giant Bloodmobile van—were appointed from each town in Haskell County.

Every resident of the County is urged to consider this—our

acceptance into the Blood Center—which already is approved—means that the TOTAL BLOOD NEEDS OF HASKELL COUNTY WILL BE MET by the Wichita Center. Because of this, every resident is urged to call or contact one of the donor recruiters, and list their name with them. If you are not eligible to give blood, this will be ascertained quite simply on

the first arrival of the Bloodmobile van, by competent registered nurses who travel with it. Only in this fashion, though, will the Blood Chairman be able to compile an adequate list of donors.

Haskell Donor Recruiters include Mrs. R. C. Couch Jr., Rev. R. D. Williams, Mrs. T. C. Redwine, Mrs. Mary Watson, Rev. Troy Culpepper, Alfred Turnbow, Mrs. Pat Hale, Mrs. J. W. Wallace Jr., Charles Thornhill and Clydene Comedy.

In Weinert, Harlan Weinert and Eddie Sanders serve. In Rochester, R. A. Shaver Jr., and Jalea Glover are Donor Recruiters; and in Rule, the list includes Mrs. W. G. Bishop, Mrs. R. H. Coker, Mrs. Clyde Grice, A. D. May and Mrs. Frank Campbell. Mrs. Delbert LeFevre serves Sagerton; Mrs. Johnny Reid and Mrs. J. O. Brothers serve O'Brien; and David Mims is Donor Recruiter for Paint Creek.

It is very important that Haskell meet its 70 pint quota this trip. A dependable safe blood supply is possible only if each person who is able to donate will accept blood donation as a personal responsibility. It is easy, painless and requires only a little time. Those unable to donate can be a volunteer worker. Each worker and donor is a very important person.

## June 15th Is New Opening Date on Lake Bids

# Time Extension Asked By Engineers

"It's merely a matter of saving money," reported Jim Nichols to the Board of Directors of North Central Texas Municipal Water Authority in Munday, Tuesday night. The meeting, called by manager Pete Beecher when Freese, Nichols & Enders engineering firm of Fort

Worth asked for a 24-day extension on the bid-opening date, was for the purpose of hearing a first-hand explanation of why they asked for the time extension.

The Munday Water Authority board has been assured, over and over, that they have met

every requirement to every state and federal agency, on the preparation of the lake-building project.

"The extension of the bid opening date to June 15 is requested for a very simple reason—to save some money on the cost of the over-all project," Nichols explained. "We did not get the needed approval from the state and federal agencies soon enough to give the bidding contractors time to consider their bids properly. We can save some money by waiting for the simple reason that, if the bidders are rushed and don't have time to check all costs involved, they will automatically give

a higher bid than might be necessary, for their own protection. By giving them this additional time, their bids can be more accurately figured, and the Water Authority's costs can be lower."

Beecher had been called to the Fort Worth offices of the engineering firm last Monday to go over all phases of the project. One minor factor had needed to be dealt with. It was, and was approved by all agencies. But at this time, the engineers had asked for the time extension. Wanting to know the clear reason, since all the NCTMWA requirements

## Mrs. Bennett Named Queen

The festive Frontier Days Queen Pageant got underway Tuesday evening in the Barnyard Theatre at the Fair Grounds with 24 lovely women dressed in costumes of yesterday vying for the crown. Mrs. Mildred Bennett, sponsored by the Business & Professional Women's Club, was named 1972 queen and Mrs. A. C. Richardson handed over her crown. First runnerup was Mrs. Abe Turner, sponsored by the Personality Shoppe. Second runnerup was Mrs. Sammy Larned, sponsored by Lyles Jewelry Store.

Fantastic costumes, in every vein of life on the frontier, were modeled as emcee Mrs. Frances Lane gave a back-

ground of the history of Haskell County.

Frontier Days Queen Mildred Bennett wore a white satin gown, fashioned in a two-layer long skirt with a hint of a bustle. She carried a white umbrella, wore a small white hat, and white gloves.

Mrs. Turner wore a hoop-skirted gown symbolic of plantation days, fashioned in pink with deep maroon trim. Mrs.

Larned chose to model an old-fashioned bathing suit, complete with red and white candy stripe bloomers with a demure overskirt. Her bathing cap, of the same material, was typical of that day, gathered into a full ruffle around her face.

Top ten, other than these three, included Mrs. Giles Kemp, Mrs. John Kimbrough, Kay Croft, Mrs. Snuffy Mor-

## Cavalcade Begins Frontier Days; Rice Springs Rodeo Set Tonight

Haskell Frontier Days got off to a rousing beginning on Monday night, with the giant Frontier Cavalcade of talent, at the Barnyard Theatre.

Done cleverly as a remote TV broadcast, the TV screen was directly beside the theatre

stage. Rustic decorations of hanging red lanterns, wagon wheels and cattle horns were used to theme the show. Frontier style. Emcee Rex Felker broadcast the show as talent marched to center stage to perform.

First came Haskell's good friend, Charles Dickey of McMurry, who traditionally begins a show with a rousing organ rendition of beautiful music. Next came Miss Karen Pippin, Miss Hey Day, who's musical talent entertained the audience with songs of yesterday. Dressed in a bright yellow satin costume, she held her audience spellbound.

Bob Connel then entertained with western songs, accompanying himself on the electric guitar.

Miss Beverly Hill, also a local talent, sang soul-stirring renditions of old plantation songs, such as "Swing Low, Sweet Chariot", "Nobody Knows

## Cancer Crusade Reaches Goal

Royce Williams, President of Haskell County Unit of the American Cancer Society, said Haskell County surpassed its goal of \$4,000.00 for the annual American Cancer Society.

Listed by communities, contributions were: Haskell, \$1,687.25; Weibel, \$382.44; Rochester, \$466.80; Sagerton, \$224.00; O'Brien, \$321.50; Paint Creek, \$193.00; Rule, \$301.32; Memorials to date, \$567.55, making a total of \$4,143.86.

The American Cancer Society thanks each worker for their time spent and for their efforts in behalf of the Crusade against cancer; it also thanks each contributor for their gift to help wipe out cancer. If it is done in our generation, each of you will have helped.

## Demo Convention Names Delegates

The Democratic Precinct Convention held in the district courtroom May 13, saw 24 qualified delegates attending; elected Royce Adkins as permanent chairman; Dr. William J. Kemp permanent secretary; and named seven delegates and seven alternates to the state convention.

They passed four resolutions. First, that Senator Edward Kennedy not be nominated by the Democratic Party for the office of President; second, that they go on record as endorsing all nominees of the Democratic Party in the November General Election; third, that in future all referendums submitted on the ballot be clearly worded to express the true feelings of the voter; and fourth, that the seven delegates from Haskell County be instructed to cast all seven votes for the presidential preference for Senator Hubert H. Humphrey on the first free ballots and thereafter be uncommitted.

Delegates include Mr. and Mrs. R. W. Herren, Melba Howard, Bruce McCain, P. G. Kendrick, Janice O'Neal and Al Hinds.

Alternates include Clyde Grice, C. W. Dunnam, Mr. and Mrs. John Kimbrough, Peggy Chapman, Norman Nanny and Francine Norman.

## Extension . . .

(Cont. from Page 1, Sec. 1) had been met, Beecher then went to Austin on Wednesday with Jim Nichols, to discuss the extension with authorities there.

Given the same reasons as those given by Nichols, Beecher felt that the Water Authority board members needed to be told, first hand, of the request from Nichols, and invited him to meet with the board Tuesday evening to report, and request the time extension.

At the same time, all editors of the newspapers in the towns involved were invited to the meeting, to get a first-hand report to publish for their readers.

Aaron Edgar, publisher of the Munday Courier, and Clyde Comed, editor of Haskell Free Press, were both present for the meeting. Knox City's editor was unable to attend.

When the reasons had been clearly outlined to board members, they voted unanimously to extend the bid opening date to June 15. This, in the estimation of Jim Nichols, figuring an 18-month construction time on the dam, will give a completion date in time for the completed reservoir to catch the spring rains of 1974.

"That bid-opening on June 15 will be the biggest thing that has happened in Munday in a long time," predicted Jim Nichols.

## Lone Star Gas Asks Rate Increase From Cities of Haskell, Rule

Lone Star Gas Company today asked the city of Haskell to increase local residential and commercial natural gas rates by approximately 8.57% to enable the company to earn a reasonable rate of return on the fair value of properties used to serve the public.

The application for rate increase cost of buying gas, higher property and equipment

costs, increased costs for employee compensation, higher interest rates on borrowed money and increased taxes as primary reasons for the income deficiency.

In addition, stated Bob Philpot, manager of the Haskell distribution office, "Lone Star has a commitment to its customers to vigorously compete for supplies of natural gas to keep its reserves in a favorable position. While other sections of the country are experiencing some shortages of natural gas, Lone Star has maintained favorable supplies. The gas cost adjustment portion of the application placed before the City Council today," continued Philpot, "will help Lone Star maintain its favorable gas supply position and assure our customers of natural gas service for the future."

Approval of the company's application would increase the average monthly residential gas bill by approximately \$ .85 per month. Lone Star serves more than 1,450 customers in Haskell.

Lone Star Gas Company today asked the city of Rule to increase local residential and commercial natural gas rates by approximately 10.0% to enable the company to earn a reasonable rate of return on the fair value of properties used to serve the public.

Approval of the company's application would increase the average monthly residential gas bill by approximately \$ .68. Lone Star serves more than 474 customers in Rule.

## Cavalcade . . .

(Continued from Page 1, Sec. 1) the Trouble I've Seen", and "His Eye is on the Sparrow."

1971 Frontier Day Queen Becky Richardson, with husband, A. C. Richardson, perfectly performed a skit of a newlywed couple going out west, and finding disappointment. Becky sang, "Let the Rest of the World Go By" and "Buttons and Bows".

The Country Squares, called by Leon Ivy, got the audience in the mood for more entertainment, dancing difficult calls, such as "Shindig in the Barn." Dancers included the Elbert Johnsons, the Jimmy Brownings, the Raymond Stewerts, the Sonny Reynolds, the Ken Lanes, the Leon Jones, the Abe Turners, the Waymond McBrooms and the Virgil Cobbs, all decked out in festive square dance costumes.

"The Frontier Doctor" skit, performed by Messrs. and Mmes. Sonny Reynolds, Elbert Johnson, Raymond Stewert and Jimmy Browning, almost stole the show.

Clarence Meier and the Melody Boys, a country and western singing group, sneaked in talented pianist, Mrs. James McFadden, to help entertain to such an extent that they got a rousing request from the audience for more.

James Powell, local auctioneer, performed a skit of a country school box supper auction, trying to get new basketball uniforms, with pretty Nancy Middleton modeling the outdated uniform. He got rid of three luscious cakes, donated by The Sweet Shop bakery, and the audience had a lot of fun bidding.

Members of the 1928 All-Area basketball team were introduced and recognized, including Sam Johnson, Marvin Baird, Albert Hanns, Sach Lusk, Otis Johnson, Red Ivy, Mansford Reid, Alvis Byrd, Bud Clark, Clois Ivy, and Babe Medley, deceased.

Then came a knee-slapping rendition of "Madame Charlene Desquesne," the Prairie Night-in-gale, done hilariously by Charles Dickie.

Pat Harris, Haskell's entry in the 1972 Miss Texas Pageant, sang two beautiful songs, followed by more from pretty Miss Beverly Hill, and more western music from Clarence Meier and The Melody Boys. Good old-fashioned fiddling by C. B. Rhea ended with an audience request of "Cotton Eyed Joe," to bring on the end of the evening's entertainment.

A more perfect "finale" could not have been found for a grand night's entertainment than the beautiful Haskell Sheriff's posse, riding through the barn on perfectly matched golden palominos, horses and riders outfitted identically, bringing in the colors.

Each rider carried a flag, and the horses ridden in unison, to stand perfectly still, while Karen Pippin sang, "Battle Hymn of the Republic," to end the show.

Words fail us when we try to express the gratefulness of our hearts to our friends for each act of kindness shown us during our recent loss of our little loved one. For the concern shown, every prayer offered, cards, floral offerings, and memorials, we want to thank you. The many kind deeds for Beverly during her stay in the hospital were greatly appreciated. May God's richest blessings be with each of you. Mr. and Mrs. Gregory Kuehler, the Jack Stewart Family, and the Earlene Kuehler Family. 20c

# Becky's Cook - Off Recipe

From over 5,000 recipe entries received in the Texas Grain-Fed Beef recipe contest, local homemaker, Mrs. A. C. (Becky) Richardson was one of 24 state finalists in the contest, and one of 7 finalists in her Gourmet Meat category.

Becky received a \$50 cash prize, and an all-expense paid trip to Austin last weekend for reaching this far in the contest. She and her husband spent the weekend in Austin so Becky could compete in the finals.

Saturday at 1 p. m. in the Civic Electric Center, Becky, along with the other finalists, was supplied with the ingredients of her recipe, and required to cook it for the judges. She didn't win the cook-off, but "had a marvelous time at Austin and enjoyed entering and going as far as she did" in the contest. Becky's recipe follows:

### BEEF TARRAGON

- 2 individual size top sirloin steaks, 3/4" to 1" thick
- 1/2 cup clarified butter or margarine
- 2 tablespoons flour

- 1/2 cups light cream
- 1 1/2 tsp. leaf tarragon
- 1 tsp. lemon juice

### Engagement Announced

Mrs. Juanita B. Harper of Corpus Christi, announces the engagement and approaching marriage of her daughter, Elizabeth Ann, to Terry Lynn Sanders, son of Mr. and Mrs. Alton Sanders of Weinert. Beth's father was the late Rev. W. O. Harper.

The bride-elect is a graduate of W. B. Ray High School of Corpus Christi, and is finishing her freshman year at Hardin-Simmons University in Abilene.

Mr. Sanders is a graduate of Weinert High School, and a graduate of H-SU.

They plan an August 19 wedding in Morgan Avenue Baptist Church of Corpus Christi, with the Rev. W. H. Colson reading the vows.

The couple will live in Haskell where he is pastor of the Southside Baptist Church.

In a heavy skillet, drop some of the butter and sear steaks on both sides. Cook over medium heat until desired doneness. Remove steaks and keep warm. In the skillet, reserve 2 tablespoons butter, add flour, cream, tarragon, salt and pepper. Stir until thickened, adding the lemon juice just as the sauce begins to thicken. Ladle sauce over steak and serve with rice and a green salad.

### Happy Mother's Day Enjoyed By Mrs. Z. Brown

Mrs. Zephyr Brown of Stamford was surprised and honored on Mother's Day by having all of her six daughters and families meet her in front of her church to attend services with her, for the first time in many years.

Her daughter, Mr. and Mrs. Sam Cartwright of San Antonio, went to her home and picked up Mrs. Brown for church. When they arrived, the other five daughters and their families were waiting. This was the first time all her children had been together at the same time in about 15 years, and the first time all had attended services together since they were children. The group included six daughters, five sons-in-law, seven grandchildren and two great-grandchildren.

After church, the caravan headed for Haskell and the home of Mr. and Mrs. Weldon Turnbow, for dinner and an afternoon of picture making, visiting and reminiscing.

Joe and Dub Stem, Steve and Belinda of Odessa; Bertie May and Robert Dumas and Bill of Haskell; Roberta and Don Bartley, Keith and Laura of Midland; Ruthie Lee Vassar, Jean and Brenda of Knox City; Daisy and Sam Cartwright of San Antonio; Helen and Doyle Whitworth of Avoca; Estebelle and Weldon Turnbow of Haskell; Roger and Joyce Vassar and Leslie of Abilene; Billy Bob Shaw; Fay and Floyd Self of Haskell; Lillian and Jess Micker of Paint Creek, all were on hand for the visit.

Mrs. Brown said this was the happiest Mother's Day she could ever remember, and the family agreed.

Williams, Mr. and Mrs. Charles McCauley and Mr. and Mrs. Joe Davis opened their homes for the tour. The Young Homemakers thoroughly enjoyed it and certainly appreciate their hospitality.

### Haskell Garden Club Installs New Officers In Final Club Year Meeting

Haskell Garden Club, in its final business meeting of this club year, met Thursday, May 12 in the home of Miss Nettie McCollum and her mother to see the new officers installed. Mrs. Ed Fouts, president, gave a summary of the year's work and the club heard a financial report from Mrs. Moore, noting that this was a most successful year.

The club welcomed one new member, Mrs. C. O. Holt, and enjoyed one guest, Mrs. McCollum.

New officers are Mrs. W. P. Trice, president; Mrs. R. C. Couch, Sr., vice president; Mrs. C. B. Rhea, 2nd vp; Mrs. Norman Bevel, 3rd vp; Mrs. C. G. Moore, corresponding secretary and treasurer; Mrs. T. B. Roberson, recording secretary, and Mrs. Norman Nanny, reporter.

Hostesses were Mrs. Ed Fouts, Mrs. C. B. Rhea, Mrs. W. P. Trice and Miss McCollum.

In challenging new officers, the following poem, "God's Garden", by Wendell Austin, was used:

I tarried alone in the garden,  
All burdened with worry and  
and care;  
I yearned for a friend in the  
garden,  
And, lo! He was standing there.  
For God seemed to be in the  
garden  
Where flowers and butterflies  
play;  
And happiness came to me in  
the garden  
My worries and cares went a-  
way!  
The birds in the treetops as-  
sured me  
That Heaven's as near as the  
air;  
And beautiful visions of nature  
Call gently my spirit to prayer.  
'Consider the lilies,' said Jesus  
For even a lily can teach;  
And I, in the heart of God's  
Garden,  
Hear sermons that men never  
preach.

The new officers were then challenged to have Faith, Courage, Hope, Patience and Service. "A great deal of the joy of life is doing perfectly, or to the best of one's ability, everything which he attempts to do. There is a sense of satisfaction and a pride in work which is round, full, exact, and complete in all parts and in every way. It is this conscientious completeness which turns "Work" into "Art", for the smallest thing, if it is well done, becomes artistic."

Each new officer was presented a sprig of evergreen, as a symbol of perennial growth.

### Elliott Places 4th; 7th At State Meet

Miss Mary Ann Elliott, a state contender in two events at the track meet in Austin over the weekend, returned home late Saturday night, a tired but happy girl.

Mary Ann placed 7th in the triple jump at Austin with a 35' 1" jump. Top length was 36' 6" for the winner. She jumped higher than she ever had, outdoing herself in this event.

In the high jump, she placed 4th in state with 5' 3"; also higher than she had ever jumped. 5' 3" won the meet last year; this year 5' 5" placed first.

Coach David Burson was more than pleased with her effort. "She did better than she has ever done in track, which is all or more than you should expect in this area. We are very proud of her, and know that everyone in Haskell feels the same way," he said.

Mary Ann expresses her thanks and appreciation in a "letter to the editor" in this edition. She was very proud of all the support and encouragement she got, and the proclamation sent her by her hometown was "just great".

Attending the track meet from Haskell were Coach Burson and Mary Ann, Mr. and Mrs. Jean Elliott, Mrs. Wilbert Klose and Pam. Mr. and Mrs. John Phillips, her sister, of Lampasas, and Mr. and Mrs. Jim Brock and Craig of Amarillo, also went to see Mary Ann and support her.

## Society Plans For Several Activities

The Christian Missionary Society met May 11 in the home of Mrs. Jack Young with 12 members present.

Mrs. David Brackus, president, opened the meeting with a poem entitled, "Three Precious Words" in keeping with the thought of Mother's Day, and concluded with a prayer.

Several items were discussed during the business session. They concerned future meetings and an all-church fellowship supper honoring high school graduates of the church.

The group sang a hymn to open the program, followed by the devotional presented by Miss Virginia Pitman. It was entitled, "The Power of High Might" and the scriptures were taken from the books of Deuteronomy, Psalms and Ephesians. This was followed by prayer and the group singing of a hymn.

Mrs. Lynn Pace, Jr., program leader, gave reports of mission work in Japan by dedicated Christian missionaries.

Mrs. Young served refreshments after the repeating of the Missionary Benediction in unison, which concluded the program.

## New Methods of Brush Control Being Tested At Texas A&M University

Rough, thorny Texas rangeland presents its own problems to ranchers who are trying to control brush with ground-spraying equipment. "Conditions often prevent aerial spraying, yet very little ground spraying is done because of the lack of equipment tailored to withstand the rigors of rangeland," says Harold Wiedemann, Texas Agricultural Experiment Station engineer at Lubbock.

He is part of a Texas A&M University brush control team of scientists who are studying and testing different and safer methods of improving rangeland conditions. One of Wiedemann's jobs is to develop a practical ground-spraying system suitable for rough, remote range country. This would be a follow-up procedure to control sprout growth of mesquite, whitebrush, weeds and other range plants after large scale brush control.

"Flat tires have been our most serious problem," says the engineer, "but they have been significantly reduced by using a special rear tractor tire with a steel innertread." This type tire is widely used in the logging industry, but appears suitable for rangeland. "A set of logger tires, used in conjunction with our research studies at the Spur Headquarter Ranch in Dickens County, has been in continuous operation for more than a year, with only one flat," the researcher reports.

Flats on front tractor tires have been reduced by using old high-ply truck tires as outertreads. The truck tire's bead and small portion of the sidewall were removed to aid the installation. Airplane or solid laminated tires will also work. A bulldozer blade mounted on the tractor has been found to be very useful in moving logs and knocking over trees which block the tractor's path while spraying.

Most large, modern tractors are equipped with both 1,000 and 540-rpm power take-off units. Since spraying requires very little horsepower, the tractor engine can be operated at half its rated speed; then the 1,000 rpm unit power take-off can operate a standard 500-rpm spray pump. In tests, the researchers have found this can save up to 30 per cent on fuel consumption.

"A heavy-gauge metal, canopy-type sprayer with a three-inch channel iron frame and flexible wings has withstood the rigors of rangeland exceptionally well," Wiedemann says. The unit looks like a 15-foot shredder and can deliver ultra-low volumes of herbicide.

"But further testing is necessary to rate the unit's effectiveness," he warns.

Although few ranches own a small crawler-type tractor, this type of equipment with a bulldozer blade on the front has proven successful in ground-spraying studies.

Improvements in low-volume application will allow economical brush control on remote land. This will ease the problem of high expense and lost time required to move large volumes of water and diesel to these sites. Experiments in 1970 at Spur showed that five gallons per acre of herbicide solution were usable on mesquite.

Research this past year evaluated cluster-nozzle, mist-blower and air-operated sprayers at volumes ranging from one-half to 20 gallons per acre with two different herbicides. Complete results will not be available until 18 months following the treatment, but Wiedemann reports good top kills and adds that the tests also show the need for complete spray coverage of the plants for satisfactory results.

The engineer emphasizes that all the methods being tested are attempts to develop a trouble-free, relatively inexpensive ground-spraying system for use on rangeland.

The research is supported by individual ranchers and the Brush Control and Range Improvement Association.

## NEW YEAST BAKING TECHNIQUE MAKES BREAKFAST BREAD EASY

The latest news in yeast-baking techniques...freezer doughs! That is, doughs that can be made at home and frozen for future baking.

On bread-making day, simply mix, knead and shape the dough, then freeze it immediately...for as long as a month. Whenever the occasion calls for freshly baked yeast breads, it's a simple matter of letting the shaped dough thaw and rise, then baking it.

Freezer doughs make fresh-from-the-oven yeast breads possible for even the busiest homemakers. They save time and energy since larger quantities can be made at the same time. And frozen doughs take less storage space.

Here is one of the newly-developed freezer doughs to introduce you to this easy, convenient method of yeast baking. A rich sweet bread swirled with cinnamon, this Cinnamon Bread is irresistible as a breakfast bread.

For more freezer dough recipes plus breads made by other convenient methods, write for the new "Fleischmann's Bake-Easy Yeast Book". This exciting colorful 64-page booklet, containing over 100 recipes in all, is available free from: Fleischmann's Yeast, P.O. Box 2695, Grand Central Station, New York, New York 10017.

- CINNAMON SWIRL LOAVES**
- 1 cup milk
  - 2/3 cup sugar
  - 1 teaspoon salt
  - 2/3 cup Fleischmann's Margarine
  - 3/4 cup warm water (105°F-115°F)
  - 3 packages Fleischmann's Active Dry Yeast
  - 3 eggs
  - 7-1/4 to 8-1/4 cups unsifted flour
  - Melted Fleischmann's Margarine
  - Sugar
  - Ground cinnamon
  - Confectioners' sugar frosting
  - Scald milk; stir in 2/3 cup sugar, salt and 2/3 cup Fleischmann's Margarine. Cool to lukewarm. Measure warm

This cinnamon yeast bread is prepared by a new technique—freezer doughs. That is, doughs made at home and frozen for future baking.

water into large bowl. Sprinkle in Fleischmann's Active Dry Yeast; stir until dissolved. Add lukewarm milk mixture, eggs and 4 cups flour; beat until smooth. Stir in enough additional flour to make a stiff dough. Turn out onto lightly floured board; knead until smooth and elastic, about 10 minutes.

Divide dough into 3 equal pieces. Roll out each piece to a 14 x 8-inch rectangle. Place each on an ungreased baking sheet. Brush with melted Fleischmann's Margarine. Cover sheets tightly with plastic wrap. Freeze until dough is firm. Remove from baking sheets. Wrap tightly with plastic wrap, then with aluminum foil. Keep frozen up to 4 weeks.

Remove from freezer; unwrap and place on ungreased baking sheets. Cover; let stand at room temperature until fully thawed, about 1 hour.

Sprinkle each rectangle with a mixture of 3 tablespoons sugar and 1/2 teaspoon cinnamon. Beginning at an 8-inch end, roll dough tightly as for jelly roll. Pinch seam to seal. With seam side down, press down ends with heel of hand. Fold underneath. Place each, seam side down, in a greased 8-1/2 x 4-1/2 x 2-1/2-inch loaf pan. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour and 45 minutes.

Bake at 375°F. about 25 to 30 minutes, or until done. Remove from pans and cool on wire racks. Frost with confectioners' sugar frosting. Makes 3 loaves.

**To bake without freezing:** Shape as directed above but do not brush with margarine. Let rise in warm place, free from draft, until doubled in bulk. (Unfrozen dough will rise faster than frozen dough.)

# CONSERVATION POINTS

YEARY, JR.  
Conservationist

by crediting the ideas and objectives outlined in the National Association of Conservation Districts report on the "Future Districts" developed by a Special Committee on District Outlook. It sets forth a modern approach to soil and water conservation, envisioning the use of computers and the latest management techniques to help build a better America for all her citizens.

In brief, the framework plan: —Establishes quality in the natural resource base for sustained use, quality in the environment, and quality in the standard of living as the objective toward which all soil and water conservation work will be directed. —Emphasizes the roles of systems of conservation practices that work together to achieve benefits for landowners, communities, and the public at large. —Looks toward the use of new monitoring and measuring

techniques to translate physical soil and water accomplishments into meaningful data reflecting the improvement of the environment.

The goals and objectives contained in the framework plan represent the ways in which SCS will work with conservation districts to intensify programs of land use planning, installation of conservation work on farms and ranches, inventories of soils and other resources, assistance to urban communities, protection of watersheds, and regional conservation projects. But the emphasis is on how this all contributes to more jobs, more attractive communities, more places to hunt and fish, and the stewardship of land, water, forest, and wildlife resources for future uses rather than evaluating efforts simply in terms of acres of crop rotations, miles of terraces, or the number of ponds.

It's an exciting approach, and the implications will unfold over the years directly ahead. As SCS Administrator Kenneth Grant says, it's a plan for "action, not reaction."

You will be hearing more about the framework plan in this column in the future, especially on how it applies and effects the Haskell area.

## Yeary Cited With Safe Driving

J. C. Yeary, Jr., District Conservationist, Soil Conservation Service, Haskell, received a coveted 15-year safe driving award this week from Paul F. Larson, Area Conservationist, SCS, Abilene.

"This kind of outstanding

safe driving record doesn't just happen," Larson said in presenting the award to Yeary.

"It's the result of careful, defensive driving. You have set a day-to-day driving example that all of us should try to follow."

Larson also gave the Haskell Work Unit an award for not having a preventable vehicle accident during the period of 1967 through 1971. The work unit has not had a lost-time per-

sonal injury from any cause during the same period.

The awards for the excellent safety records were approved by Clyde W. Graham, SCS State Conservationist. The Soil Conservation Service is cooperating in the "ZERO IN ON Federal Safety" program whereby Federal agencies are placing emphasis on eliminating major causes of employee injuries during calendar years 1971 and 1972.

The Haskell Work Unit gives local California Creek area technical assistance on Con-Wichita-Brazos Soil and Water conservation matters through the Conservation Districts.

### Pecan Casebearer Measures Advised

Judging from pecan nut casebearer moth emergence and grove observation indications are that the best time to spray for the pecan nut casebearer in Haskell County will be during the period May 13 to 19. To determine the best time for applications of controls for the pecan nut casebearer on a particular tree, observation of the ends of the nutlets for eggs of the pecan nut casebearer is most reliable. Generally spray applications should be applied 4 to 5 days after eggs are first

found. The newly laid eggs appear light green in color. As they mature the eggs take on a reddish cast and after eggs begin to exhibit this red appearance, control measures should be applied the following day. Another good indication that it is time to spray for the pecan nut casebearer is to inspect the nutlets on the pecan tree daily and apply the control application immediately after the first nutlet entry by the pecan nut casebearer larvae is observed. One of these two methods should be employed by larger pecan producers in their orchards.

The insecticides that can be used for control of pecan nut casebearer are Guthion, Thiodan, malathion and taxaphene. Use these insecticides according to directions given on the label. Thorough coverage is essential for control of the casebearer. Be sure that the sprays are applied to the tree to the point of run-off.

For most effective control a second application of insecticides may be needed. This can be determined by observing the nutlets for newly laid eggs several days after the first application. When observed a second application of insecticides should be applied 7 to 10 days following the first application. For further information on control of pecan nut casebearer, contact your county agricultural agent.

Comedian Bob Hope received the award last year for his continuous concern and work in sight conservation and eye research.

### Town & Country Meeting Has Record Turnout

A steering committee meeting of the Town and Country organization that has recently been organized in this county, was held Friday night, May 12, in Stamford. A record turnout crowd attended to hear the group make plans to elect a board of directors from the 17 towns involved in this area, and to make further plans.

They hope to charter the organization, which has been set up to improve the economy of this area. Not organized to help any one town, the purpose of this group is to help the entire area. To keep this aim, the 25 directors to be elected to the board will come from all 17 towns involved.

Next meeting will be held in Sagerton, June 6, at 8 p. m.

### Draft Cut-Off Number At 35

Austin, Texas—Colonel Melvin N. Glantz, the State Director of Selective Service for Texas, is instructing Texas Draft Boards to issue Induction Orders to all 1972 First Priority Selection Group men with Lottery of 35 or below.

Under the Uniform National Call procedure, the "Induction Cut-Off Number" was announced by Acting Director of Selective Service Byron W. Pepitone. Induction Orders will be issued to all fully acceptable registrants in the United States with Lottery Numbers of 35 or below who are members of the 1972 First Priority Group. This Priority Group is made up basically of men born in Calendar Year 1952.

The Defense Department asked Selective Service to induct 15,000 men in April, May and June. The National Director previously established a Lottery Cut-Off Number of 15 for April and May, and has raised the Lottery Number to 35 for the June Induction call. Each registrant to be inducted is given at least 30 days notice before his Induction Reporting Date. All Induction Orders for June will be issued by May 31, 1972.

Glantz said there is no quota of men for Texas, but he expects the June Call to result in approximately 650 inductions in Texas.

Glantz also said men in the 1972 First Priority Selection Group with Lottery Numbers of 75 and below could expect orders for a Pre-Induction Physical Examination in June or July.

Mr. Jack E. Edwards, Chairman of Local Board No. 77, said 2 Induction Orders will be issued in Jones, Haskell and Shackelford Counties for the June Call. There are also 3 men who will be issued orders for Pre-Induction Physical Examinations soon.

Miss Patti Minefee and Miss Carol Stulir served guests punch and cake from a serving table covered with a yellow cloth with a lace overlay. An arrangement of yellow and white daisies and glad-

olus was centered on the table. The bride is a student at Rule High School. The bridegroom is a graduate of Weinert and attended Tarleton State College. The couple will make their home in Old Glory where he is employed in farming.

## Guard Against Poisonous Plants

While vegetation helps sustain life, some common plants, trees and shrubs are potential killers, says the Texas State Department of Health.

We eat herbs and the fruits, leaves and roots of many plants in our daily diet, but some plants we deliberately cultivate are deadly.

To the average person, the term "poisonous plant" usually brings to mind visions of poison ivy, or some similar plant that poisons or irritates upon contact. But most poisonous plants are harmful only when they are eaten. In fact, more than 700 species of plants in the United States are known to have caused death or illness. Every year about 12,000 children in this country chew or swallow potentially poisonous plants. A study conducted several years ago revealed that 10 per cent of all child poisonings were caused from eating toxic plants — yet over half of the parents were unaware of the dangers of the plants. Eighty-five per cent of all poisoning cases involving poisonous plants involve children.

It is difficult to believe that one leaf of the graceful poinsettia could kill a child, or that tea made from mistletoe berries has killed adults. Who would expect that the beautiful oleander bush — grown indoors and outdoors all over the country — contains a deadly heart stimulant, similar to the drug digitalis? So powerful is this poison that a single leaf of an oleander can kill a child. And many people have died merely from eating steaks speared on oleander twigs and roasted over a fire.

It's easy to be deceived by plants, for one part may be edible while another is poisonous. All parts of the buttercup, rhododendron, and laurel are harmful. In other plants, only certain parts are toxic. A classic example is the rhubarb which has a perfectly edible stalk, but the leaf contains a deadly poison.

In the strict sense of the word, poison ivy and its cousins are not really poisonous. They contain no poisonous substances and are termed "allergens" because, like goldenrod, they affect only persons who are allergic to them. But over 50 per cent of those who handle these plants will develop mild to severe dermatitis, or skin irritation.

The "poisonous" plants do contain toxic agents which can cause direct harm when in contact with the skin or absorbed

by the body. Poisonous saps and juices of some plants cause severe irritation on contact, actually burning the skin. However, most poisonous plants must be eaten to cause adverse effects.

A free leaflet on common poisonous plants is available from the State Health Department upon written request.
