OFF TO DISTRICT—Haskell Little League All-Stars brought home the Area Championship last week, and leave today for Seymour to play tonight in district competition. Pictured, left to right, are Manager Dr. R. E. Colbert, Rex Pittman, Nati Escobedo, Nathan Frierson, Chris Colbert, Steve McConnell, Jimmy Browning, Robert Rodriguez, Richard Amaro, Ricky White, Eddie Klose, Lynn Wheatley, Jeff Frierson, Mark Wallace, Vonnice Hise, and Coach Jerry Sorrells. Assistant Coach Sammie Larned, not pictured, will also be with the team.

LL All-Stars Win Area Crown

Haskell Little League All-Stars came home tired but happy, from Stamford Friday night. They brought with them the Area IV Championship crown. And they weren't one whit happier about it than

coach Jerry Sorrells, manager Dr. R. E. Colbert, their parents, or a host of followers.

The first game of competition was against Stamford Thursday night at 7:30 and was won by an 18-7 score. It was really a ball game to see, with Nathan Frierson going down on the record books not only as winning pitcher in the game, but in knocking a home run, Rex Pittman also scored a home-run in the game and Chris Colbert did what all Little Leaguers dream of. He hit a grand-slam homer to rack up four rbi's for his team.

The All-Stars came back Friday night to defeat Rule in the 7:30 game with a closer, 9-4 score. Chris Colbert was winning pitcher in this one, and no home runs were recorded although the team got in enough runs to take the title.

The boys, along with their coach and manager, will go to Seymour tonight to compete for the District title. Their game is set for 7:30 against Knox City. At 5:30 this evening, Area

I and II will compete. Then, Friday night at 7:30 the winners of the two Thursday night contests will play for the District title.

District winner will compete in Regional, time and date have not been announced at this time.

Let's all go to Seymour tonight and back our Little League All-Stars against Knox City.

Austin Meeting Attended By Haskell Men

Another meeting with the College Coordinating Board at Austin was attended by interested Haskell residents last Thursday. The series of Austin trips is in regard to Haskell's getting an extension to West Texas College of Snyder. Thursday's meeting was the regular quarterly meeting of the coordinating board of Texas College and University System.

Attending the meeting from Haskell were J. B. Gipson, H. T. Wilkinson, Royce Adkins, Leonard Weiser, Abe Turner and Bill Comedy. H. O. Abbott flew some of the men to Austin early Thursday morning; others drove down Wednesday afternoon.

The consideration by the board of the extension for Haskell was brought up under division six of the quarterly agenda: "Consideration of Coordinating Board operating budget for fiscal years ending Aug. 31, 1973 and '75."

During the discussion, Haskell's application for the college extension was postponed for further study until September of this year.

Appropriations for the extension were put into the proposed budget by Gov. Preston Smith earlier.

Big Store Opening

Women were lining the sidewalks as early as 7:30 Thursday morning, waiting patiently for the all-new, ultra-modern Ben Franklin store to open. The pace never let up. Crowds thronged in beneath the gaily-colored flags and balloons that decorated the awning above the front doors all day.

Shoppers received free orchids, ivy, Cokes, balloons, bubble gum, bottle sealers and pencils all day, and the lines before the check-out counters stayed long, till closing time that night.

A holiday atmosphere prevailed all throughout the Grand Opening. People visited and looked, admired and investigated, as they shopped in the beautiful new store.

The entire Jack McAdoo family, and a host of employees, stayed busy greeting guests and shoppers. "It's been a wonderful day, but a long one," remarked a tired but happy Mrs. Jane McAdoo, late in the day as she visited with customers.

Their preview opening Wednesday evening hosted hundreds of people, from 5:30 to 8

p. m. Refreshments were served, as their guests toured the new store, and enjoyed viewing the colorful displays.

One hundred orchid corsages were presented to the first hundred women who entered the store Thursday, and two free \$20.00 gift certificates were awarded daily throughout the Grand Opening Thursday, Friday and Saturday.

"We are more than pleased with the wonderful reception our new store has been given by the shoppers in our trade area," said owner Jack McAdoo, "and we pledge to give our customers the best in merchandise, prices, and good service. My entire family extends its heartfelt thanks to everyone who helped in any way to make our opening the success it was. We especially appreciate our good customers down through the years, and look forward to serving this area for many years to come."

OOPS! LET'S TRY THAT AGAIN—This could well be the scene during the action of the Donkey Ballgame, sponsored and starred-in by the Haskell Jaycees themselves, when "Play Ball" is shouted Friday night, July 28, at 8:00.

Baseball Tournney Underway

The Teen-Age Baseball Tournament got underway here last night with the Haskell Warriors, coached by Skip Lane, meeting the Rotan team from the Western Cotton Belt at 7 p. m. The game ended after press deadline, and score will be in next week's paper.

Frank Jircik's Haskell Indian team drew a bye in District I and will go directly to the state playoffs the first week in August, at Sweetwater.

Tonight, two big games are scheduled. At 6:00, Sweetwater will play the Big Country team, and at 9:00, the losers of the

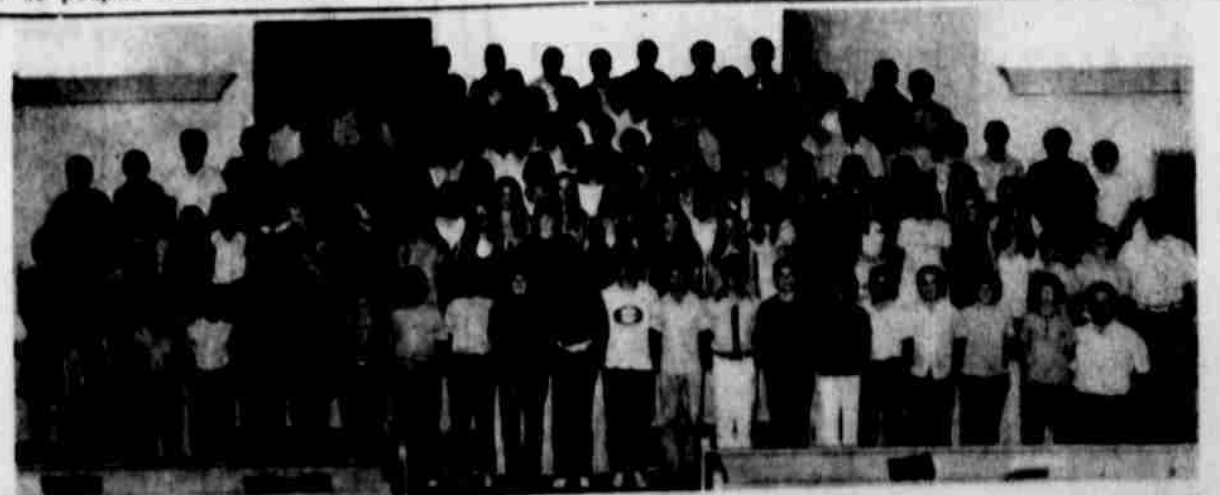

first two games will be matched.

Friday night, two games are also scheduled. Winner of Game 1 and Winner of Game 2, will meet at 6 p. m., while winner of Game 3 and loser of Game 4 are scheduled to meet at 9:00.

Saturday night at 8 o'clock, more games will be scheduled, if necessary, in the double-elimination tournament for Championship title of District I. And this winner will earn the right to represent the District in state competition in Sweetwater, the first week of August.

Donkey Ballgame Set Friday Night

They're at it again! Yes, the Haskell Jaycees have recovered from all those black and blue marks left by their last donkey ballgame, and they've scheduled another.

The Jaycees will pit their riding and baseball skills (many and varied) against the All-

were played, and the group sang some songs. Next meeting will be August 1 at the home of Stella Josselet.

Stars—and against a lot of stubborn donkeys. Friday night, July 28, at the Rodeo Grounds. It's the only available place in town big enough to hold the Jaycees and the donkeys, and not damage any more property than necessary.

It'll be better than a rodeo and funnier than a circus, and you won't want to miss all the thrills, spills, and action. Tickets will be available at the gate, and there's plenty of space for parking.

Nickell, Anders Wed In Double-Ring Vows

Marriage vows were exchanged Saturday, July 22, at 8:00 p. m. in the First Baptist Church of Rule by Miss Mary Ann Anders and Jim Nickell. Rev. Leonard Malone, pastor of the Alice Avenue Baptist Church of Waco, officiated for the double ring ceremony.

Parents of the bride are Mr. and Mrs. Norris Anders. Mr. and Mrs. A. E. Nickell of Irving, are the bridegroom's parents. Organist was Reba Jackson of Hamlin, and soloist was Mrs. Wayne Porter of Dalhart.

Given in marriage by her father, the bride wore a princess style gown of candlelight organza over satin. Applied lace panels down the front and down the detachable train were accented with seed pearls. Organza lantern sleeves had wide lace cuffs topped with lace cap sleeves. Her waist length veil of silk illusion was held by a cluster of candlelight flowers

accented with pearls and crystal drops. She carried a bouquet of roses, baby's breath and a white orchid over a Bible.

For something old, the bride carried a 77-year-old baby ring of Mrs. Jessie Parmely. Something new was her dress. Something blue was a blue garter made by Mrs. Pete Kitticy, and something borrowed was her mother's diamond earrings.

Matron of honor was the bride's sister, Mrs. Jerry Epely. Bridesmaids were Mrs. Lyndel Norwood of Canyon, Mrs. Gary Dular of Irving, Mrs. Roy Hall of Commerce and Mrs. Larry Peters of Little Rock, Ark. Attendants' gowns were of light blue voile flocked with butterflies, cap sleeves, scoop neck, and Empire waists. They wore picture hats and carried nosegays of spring flowers.

Candlelighters were Nathan Thane of Midland and Charles

Townsend. Flower girl was Lisa McGaughey of Bangs. Best man was A. E. Nickell, father of the bridegroom. The groomsmen were Bobby and Steve Anders, brothers of the bride, Eddie Boggs of Cleburne and Larry Nolen of Garland. Ushers were Stanley Chambers of Rochester, Bryan Boggs of Cleburne and Gary Creswell of Lewisville.

A reception was hosted by the parents of the bride in the banquet room of the First Baptist Church following the wedding.

The bride's table was covered with a blue satin cloth with a white net overlay with sequined wedding bells. A blue and white floral arrangement centered the table. Serving appointments were crystal and silver. Serving guests were Mrs. Larry Nolen of Garland and Miss Keri McGaughey of Bangs. Handing out rice bags were Miss Colleen Townsend and Miss Karla Gammill of Midland.

The groom's table was covered with a brown cloth with a beige organza overlay. A gold floral arrangement in a gold bowl and gold candles in gold candlesticks were on the table. Serving appointments were of gold flatware and a gold coffee service. Serving guests were Miss Becky Smith and Mrs. Eddie Boggs of Cleburne. Other members of the houseparty were Mes. Cleo Gann, Clifton Rinehart, J. A. Lisle, Jr., Festus Hunt, James Andress, Bill Chambers and Miss Martha Nell Chambers.

Mr. and Mrs. A. E. Nickell hosted the rehearsal dinner in the home of Mrs. Jessie Parmely.

Following a trip to Acapulco, Old Mexico, the couple will be at home at 932 W. Rochelle, Apt. 282, Irving, after July 29.

The bride is a graduate of Rule High School and East Texas State where she received her B. S. degree. She was a member of Kappa Delta, Alpha Chi, Alpha Lambda Delta. She was formerly employed by the Childress High School as Home Economics teacher.

The groom is a graduate of Irving High School and attended Stephen F. Austin College. He is employed by the Irving Police Department.

Dr. Sarles Moves To Coleman

By Clydene Comedy
In just five short years, Dr. and Mrs. Harry Sarles have captured the hearts of Haskell county people. Although he was pastor to the Presbyterian people in Haskell, Rule and Throckmorton; he is much, much more than that to all who know him. He and Mrs. Sarles will move to Coleman after August 1, and he will serve as pastor of the First Presbyterian Church there. He has served here in that same capacity to Haskell, Rule and Throckmorton.

Unofficially, you might say Dr. Sarles has been 'Mr. Toastmaster' during his years in Haskell. He lives each day of his life to the fullest, and 'with a twinkle in his eye'; seemingly enjoying every minute of each one. After being called on to serve as emcee for a program early in his Haskell pastorate, he was never forgotten when another was needed—for any civic or service group.

Dr. Sarles has the uncanny knack of saying the right thing—at exactly the right time. He also has the master touch of gently ribbing the most staid and sober of us all—and making us like it. His 'career' of emceeing Haskell county events has put a little gaiety into all our lives, while at the same time, he subtly drops a few hints for an insight to happier living.

Few Haskell residents have missed the pleasure of getting acquainted with Dr. Sarles during the past five years. His duty to his parishioners got him in touch with that number; his sincere love and enjoyment of all people acquainted him with the rest.

His wife is not overshadowed by him in this trait. She also loves people and shows a sincere interest in the events of her hometown and its people. They are often seen walking, and always have the time to stop and chat with those they meet.

His career in the Presbyterian ministry began in San Antonio, after receiving his undergraduate degree from Trinity University in Waxahatchie and

completing his study for the ministry at McCormick Seminary in Chicago. Pastorates in his career include, San Antonio, Port Arthur, Dallas, Abilene, Haskell, and on September 1, in Coleman.

He also recorded a colorful career in the service during World War II with the 112 Cavalry, serving in the South Pacific, the Philippines, Leyte, Japan and Manila. He was awarded the Bronze Star during that time.

When queried on his thorough enjoyment of people, Dr. Sarles explained, "I like the openness of West Texas and West Texas people. I never look back, but I've never before hated to leave quite so much as I do these people of whom I am so fond. I do look forward to getting to know the people of Coleman, though."

Methodist Youth Bake Sale Set

If you wish to make a special order with the group, you may do so by calling 864-2802 or 864-3532.

assumes the duties of his pastorate in Coleman. And Haskell, we're sure all years, would agree, is a better place for having been blessed with their journey.

The program, given by Ken Hurley and Mike Elder of Lubbock, agents of Aetna Insurance, discussed the case for no-fault, and a lively question and answer period following the program delved into the pro's and con's of the subject. A thank-you note to the club from Bob and Ollie Gary of City Cafe was read to the membership. The Lions Club will move their meetings to Haskell Steak House, beginning Tuesday, August 1.

Paint Creek Community News

Mrs. Gene Overton

Paint Creek farmers have had a full week to fix fence weeds are seeding just fine. I do some mechanic work on tractors and plows this week. The fields have been too wet to do much plowing. I hate to write that, when so many parts of the county still need rain. We had 1 1/2 inches July 15, and some of the farms east of here had 2 inches and over. Granddad Overton used to tell about the man who wanted to have a patch of Johnson grass for grazing, so he wrote to the seed people for some seed plants to start his pasture. He received one little shoot of Johnson grass with instructions to plant it and then start trying like the devil to kill it and he would soon have all the

grass he needed.

Paint Creek visitors Saturday evening for the Griffith-Reel wedding were Mr. and Mrs. Steve Livengood, Mr. and Mrs. Jim Vaughan, Mr. and Mrs. Bennie Sawyer, Darrel Hill and Brenda's uncle and family of Abilene, Mr. and Mrs. Tom Horton of Wynnewood, Okla., Rev. and Mrs. Jimmy Griffith and sons of Weinert, Mr. and Mrs. Phil Coleman of Rule, Johnny Mansell and Mr. and Mrs. Larry Sanders of Lubbock, and several others whose names I don't know.

Mrs. Della Dean enjoyed having two granddaughters, Doris and Cindy, and their families visit her during the Grand Reunion Sunday. The girls' mother, Hazel, was here, too, and Rev. and Mrs. Truett Kuenstler and Lee Ann from Jayton. About 54 people attended the reunion.

Bill Overton of Abilene, and Mrs. Lennis Jones of Rule, spent Saturday with Mr. and Mrs. Gene Overton and Walter. Bill returned Friday from a 6 weeks tour of Europe.

Rev. Hubert Thompson representing the Ed Robb Evangelistic Team, had the Sunday morning service at the Methodist Church. Rev. Truett Kuenstler of Jayton had the devotional service at the Grand reunion Sunday.

Week of July 29
Mr. and Mrs. Bruce McCain were hosts to six couples from Old Glory last Sunday.

Janice and Jeannine Isbell were in Wall last Thursday until Sunday for the wedding of Janice's former roommate, Patricia Dierschke to Allen Hohensee. Janice was a bridesmaid and Jeannine was a mem-

Garbage Truck Needed By City

Mayor Belton Duncan presided over the regular meeting of Haskell City Council Tuesday evening. Present were councilmen Carl Anderson, Jimmy Browning, W. O. Holden and Loraine Johnson, Water Supt. Marvin Collins, and City Secretary Ira Hester.

Loraine Johnson gave the prayer and the minutes of the last meeting were read and approved.

Councilman Holden reported that seal coating of some 86 or 87 blocks of the residential area is almost complete. Public drive-up mail boxes will be put up as soon as the Postmaster gets them, with one going on the southeast corner of the square.

Mayor Duncan reported on a very successful Airport Dedication and that enough donations were given to take care of the breakfast and the barbecue lunch served that day.

The council accepted the resignation of Floyd Lusk as City Judge; decided to open the alley between S. 8th and S. 9th running east and west; decided to have Joe Williams re-check the dog ordinance and update it where necessary; and approved bills.

The new no-burning of garbage was discussed at length by the council. A new garbage truck, to handle increased pickups over the city, will need to be bought. Pickups are going as fast as the trucks can handle them, and citizens have found they need to have an extra garbage can in some instances, to handle their garbage until the trucks can pick it up. Garbage pickup costs were increased, effective July 15, from \$1.25 to \$2.50 in residential areas and for most downtown businesses. This increase will help defray expense on a new truck, and the pickups will be increased as soon as possible.

Brownwood Is Site of Reunion

The family of Mrs. Dovie Gregory met for their annual family reunion July 14 through the 16th at Mountain View Lodge at Brownwood Lake. They started gathering on Friday from all points in Texas, and one granddaughter and her family came from Oklahoma City.

J. Gregory of Hurst, and Gilly Gregory of Stamford. Activities included boat riding, skiing, fishing and games, such as pitching horseshoes, dominoes and bridge.

One of the highlights of the reunion was showing movies taken at reunions the past two years. Everyone enjoyed seeing themselves in different situations.

A devotional on prayer was given by Thelma Peterson on Sunday, and the small children sang some special songs. Good food, fun and fellowship was enjoyed by all.

Prospects for dove hunters look promising this year. The sporty birds are found readily around sunflower patches, dead mesquite brush, on harvested wheat fields and during the late afternoon, coming in to stock tanks. Their swift, erratic flight presents a real challenge to not only the amateur—but also the avid shotgunner.

According to Bob Connel, school coordinator and minister of the Haskell Church of Christ, approximately 40% of the students have participated in the program in the past. "We offer a four-year program which takes the student from basic music through advanced harmony," Connel said.

Students from out-of-town are kept in the homes of Church of Christ members. Classes begin

During the two week school, several special activities were planned including swimming parties and weiner roasts. July 15 several students attended a recording session in Abilene.

Last Friday's program was the last presentation of the students. After the program, almost every student showed a reluctance to leave. Promises were made to meet each other again next year.

State Rep. Charles Finnell of Holliday announced today that Wichita Falls has been chosen as the site for the 1972 Pre-Legislative conference, sponsored by the West Texas Chamber of Commerce. Finnell serves as Secretary-Treasurer of the West Texas Delegation in the Texas House of Representatives. The conference, to be held on Dec. 1 and 2, will be attended by all legislators from the 132

LETTERS TO THE EDITOR

Dear Editor:
I would like to thank the following merchants for remembering me with beautiful flower arrangements while I was at the Miss Texas Pageant: Lyles Jewelry, Bassing Jewelry, Dad 'n Lad, Fincher's, Hassen's, Fouts, Cahill and Duncan Agency, Christine's Beauty Salon, Lane Apparel, Oates Drug Store, Johnson's Pharmacy, Sherman's Interior Decorating, Haskell Free Press, Chamber of Commerce, Hey Day, Haskell National Bank, Baird's Cleaners, Personality Shoppe, Furrh Lane Agency, Hale Farm Supply, Frazier's Radio and Record Shop, M-System Super Market, Lane-Felker, Co-fields, and City Floral.

personal check in the amount of \$6.30 for one year's subscription to the Haskell Free Press. We always enjoy receiving the Free Press on Fridays, and hearing from our friends in Haskell. It is our main source of the "goings-on" in Haskell, since we moved to Houston a little over a year ago.

We are enjoying Houston, as such a big city is a challenge, even to get around to different places. There is always plenty to do here. Being close to the Astrodome City makes Astro fans of us, even though we don't get to see very many of the games.

I am enjoying my work with Union Texas Petroleum very much. Gary has recently begun to work for the Wyatt Division of U. S. Industries. His new job provides payment on his college education. He is plan-

ning to go to college here in Houston and work at his new job. Possibly he will take 8 to 10 hours a semester. We have enjoyed having Milton Schmidt with us for the summer. Milton is working for Hurricane Fence Company.

We had such a nice surprise Sunday, July 2. Our other son, Robert V. (Bob) Black, Jr., flew in to Houston unexpectedly. It was the first time we had seen Bob in 28 months. In that time, he had been stationed in Hawaii, Japan, then the past four months in Vietnam. Bob is now a Captain in the U. S. Marine Air Corps. He is assigned and flies in the F-4 Phantom Jet, which is one of the "hottest" fighter bombers used in the war zone. He has flown between 65 and 100 missions of combat over North Vietnam. After a week's leave, he had to return to combat. This time, he will be flying from Thailand. He has four months to go in

Thailand, before returning to the States for re-assignment, or for discharge. He is planning to make a career of the Marines at the present. For those who may be interested in Bob's address, it is:
Capt. Robert V. Black, Jr.
457-700-620
VMFA 232, MAG 15
C/O San Francisco, Calif.
94002

It is needless to say that we are proud of Bob and his accomplishments, while in the Marines. He has received war decorations, which I would not have known of, if I had not seen him taking the ribbons off his uniform, as he never breathed a word concerning anything while in combat, unless he was asked.

We miss seeing our Haskell friends very much, even though we have made many new friends here. It is harder to make friends in a City. It was so hard to not greet persons

that you would meet on the street, when we first got here, with a friendly Haskell "howdy" and "how are you."

Your friends,
R. V. Ivonne and Gary Black

Construction of new livestock export facilities at Houston, Del Rio and Eagle Pass is underway, and an appropriation for possibly two more was in the 1972-73 budget adopted in the recent special session of the Texas Legislature.

The appropriation for \$450,000 is believed adequate for two more of the sheltered facilities. Reeves of Haskell, moved to Brownfield in 1952 after his graduation from H-SU.

The Scholarship Fund was started shortly after his death in June 1971.

Son of the late Mr. and Mrs. R. C. He was selected the Outstanding Teacher of the Year by the Lubbock Music Teachers' Association.

Several people from Haskell helped start the scholarship fund.

Liquid Humus Available

"Humus unlocks the food value in soils and makes fertilizers available to the plant," so says one Texas agri-business expert.

Five Accidents During June

The Texas Highway Patrol investigated five accidents on rural highways in Haskell County during the month of June, according to Sgt. Frank Jirek, Highway Patrol supervisor of this area.

The rural traffic accident summary for this county during the first six months of 1972 shows a total of 25 accidents resulting in one persons killed, and 29 persons injured.

The rural traffic accident summary for the 60 counties of the Department of Public Safety Region 5 for June, 1972 shows a total of 527 accidents resulting in 29 persons killed and 347 persons injured as compared to June, 1971 with 524 accidents resulting in 10 persons killed

without humus is like planting without plowing. The soil needs processing before it can produce; fertilizers need humus to make the nutrients available to the plants."

Experts may disagree on how to express it, but they generally concur that humus is the circuit between fertilizer nutrients and the plants. Consequently, in soils weak in organics or humus, plants grow slowly and produce weak roots and have sallow color. These plants usually are poor in nutritional value. Now that humus is available in concentrated liquid form, so easy to handle, and inexpensive — every gardener, farmer and rancher needs a "sense of humus."

The fact is, everything that grows needs the action of humates. Tests have shown that all growing things—flowering plants, shrubs, trees, grass and marketable crops—benefit dramatically from humus.

For example, a 1971 Demonstration Report from Texas A&M involves four types of tomatoes. Those treated with a product named "Energizer" (a concentrated liquid humus) produced in excess of 31% more pounds of tomatoes than those harvested without. A solution of 8 tablespoons per gallon of

benefits to the plants were not so great.

With concentrated liquid humus, however, there is very little weight or waiting. It's available in plastic bottles, cans and drums—is used in a highly diluted form—and gives immediate results.

Healthier, more productive plants result when they are treated with "a sense of humus."

Your local Garden Supply dealer or County Agent can supply information about liquid humus.

Price of Beef Not High ...?

WACO—(Spl)—Texas Farm Bureau President J. T. (Red) Woodson said that the American consumer needs to understand that beef prices are not high in relation to other consumer items.

"As a matter of fact, the remarkable efficiency of the American cattlemen has helped hold down the price of beef to the consumer," Woodson said.

He pointed out that farmers and ranchers have increased beef production by 2 1/2 times in the past 20 years—this at a time when the population was increasing by about a third.

"Normally, this situation would have depressed beef prices, except for the extraordinary demand for beef—particularly good American beef," the farm leader said. "In the past two decades, beef consumption per capita in this country has doubled."

Woodson, who raised purebred Hereford cattle on his livestock, grain and cotton farm in Fannin County, said there are several factors for this increase in per capita consumption. He said major factors are:

- (1) The rising standard of living of the American family
- (2) Substantial increases in the food stamp program.
- (3) Widespread boosts in welfare payments.

Woodson pointed out that beef prices to the producer are up to about the same level of the early 1950s. The difference in price at the retail level is a result of the inflation of the past 20 years, he said.

The farm leader said that only a fair price will keep an adequate supply of beef coming to the meat counters in the stores.

Capt. J. W. Johnson and daughter, Mrs. John A. Couch, have returned from an extended visit to Mr. and Mrs. G. W. Andrus, at Rotan. Talk up the public tabernacle. A few hundred dollars will build a good one, then we can entertain the people who come to Haskell in the good old summer time.

Mrs. T. R. Gordon and daughter, Edith, were on their way to town Saturday eve when the horses became frightened and ran away, throwing Mrs. Gordon out of the buggy. We are glad to say that neither of them were seriously hurt. G. H. Martin and family of Ballew, W. M. Narton and wife, Jim Wheatley and wife, spent Sunday with J. P. Wheatley.

WASHINGTON, D. C.—Given time the Federal Government will attempt to make perfect all the imperfections of man and machine. Thus it was a year and a half

George Moeller of the east side was in town Monday. He had his hat decorated with an open boll of cotton from his field, which was the first cotton open brought to town this year. So far as we know, this is the earliest cotton ever produced in this county. We understand that there are other fields with open bolls.

3,300 votes were polled in the county in Saturday's Primary election.

Miss MayBelle Taylor left Monday morning for Dallas where she will join her sister, Mrs. Tom French, on an extended trip on the coast at Houston, Galveston and Corpus Christi.

According to the latest tabulation of the vote in Saturday's primary made by the Texas Election Bureau last night, Mrs. Miriam A. Ferguson's lead over Governor Ross A. Sterling for the Democratic nomination for governor was near 100,000 as scattering returns from the primary trickled in.

Mr. and Mrs. Delma Williams of Rule visited Bob Culberth and family Friday.

We had a good rain last Thursday. The crops are looking good. The feed crops are making good and we will make a good cotton crop if the worms do not get started.

The Haskell Motor Company reports the delivery of a new Ford this week to Mr. Chas. Letz of Old Glory, rural mail carrier of that place.

ago that the Congress passed the Occupational Safety and Health Act. The law went into effect on April 28, 1971. Employers and employees have been struggling to comply with the law and its regulations since that time. It may be another year or two before any appraisal can be given to the law's effectiveness. In the meantime, there are many complaints about the requirements and some think it is too sweeping and detailed in its regulations to be workable. In many instances it is something like the little boy who had to write a book report on a 400-page volume dealing with penguins. His report was summed up in one sentence: "This book told me more about penguins than I really want to know." Experience suggests that there is more "law" in the Safety Act than is needed. Like a great many other pieces of legislation, the law

was passed on sobering statistics picturing conditions in need of correction. Figures presented showed some 14,500 persons died and more than 2 million suffering disabling injuries in industrial accidents in the year 1970. An estimated 250 million man-days of work were lost. The conclusion is that many employers have been negligent and many workers have been careless.

Granted all this, there is growing evidence that industrial safety requirements are developing into a lawyer's dream and an engineer's nightmare. Figures now show that of the 22,000 inspections made by safety inspectors of the Labor Department, penalties have been recommended in 40 percent of the cases, adding up to about \$1.5 million in fines. Some have been in the nature of rather trivial charges. All sorts of reports come in, such as an electric extension cord not secured in a certain way, a hard hat not precisely the approved weight, a toilet seat not exactly so many inches off the floor, and an appropriate receptacle not provided for cups at the water container.

Under the law, the burden of maintaining safe conditions is entirely the responsibility of management and if an inspector finds a worker bareheaded when he should have on a hard hat, the employer is socked with a penalty.

Small employers are protesting that the heavy burden of record-keeping is impossible for them but statistics to a government agency are like cud for a cow. Of course, the Labor Department is charged with the enforcement of the law passed by Congress and can't be too much to blame but on the other hand it seems that unless fault is found the inspector may not be doing a good

job. Accidents cost money but so does safety. Any of us who might be an operator of a large piece of machinery, such as an earth mover, would like to have a roll-over bar for greatest protection. Something like 70,000 machines of this type are produced annually under the law each must be equipped with a new roll-over bar at an estimated cost of \$2,000 each. This represents \$140,000,000 increased cost, which somehow must be paid for. Like clean air, clean water, pure food and non-flammable nighties, there is no question that greatest precautions should be provided and sanitary conditions be maintained in industrial plants. Industry and science have come a long way in improving conditions where people work but usually there is room for further improvement. Except in surgical oper-
