trouble at all. Next problem
was to hit the runway on the
right glide path. With much
pilot skill, the final approach
was to runway 38, and what de-
veloped from that point on will
long be remembered by those
passengers.

There below, about 150 feet
down the north end of the run-
way was a mother cow with
her baby calf! The pilot touch-
ed the runway at the last 542
feet, with no margin for error.
The final stop was 58 feet
past the north end, making a
total of 600 feet from touch to
stop.

As recalled by the passengers,
after a meal in town, the air-
port is well worth the money
put into it. And as things de-
veloped, the real hair-raiser
was that poor little calf—when
last seen, its tail was straight
up and it was making tracks.
Nobody knows how the pair
got onto the field in the first
place.

Pilot and passengers left
Haskell by car about 10:30, still
thankful that Haskell has an
airport!

SCIENCE SYMPOSIUM: L. to R.: Miss Patti Simpson, Lavon Beakley and Miss Linda Simpson. Miss Patti Simpson, Rule High School student, left, has been selected to attend the 12th Texas Nuclear Science Symposium for High Schools at the University of Texas in Austin, June 5-8. Walton Wooten, 17-year-old
son of Mr. and Mrs. Wallace
Wooten, was killed and three
others suffered slight injuries
in a one-car turnover on US
Highway 277 near Wooten's
home about one-tenth of a mile
North of Haskell city limits
Tuesday night about 8 p. m.
Texas Highway Patrolman
James Davis investigated the

accident, assisted by Police
Chief T. P. Barnett. The 1969
Chevrolet, driven by Wooten,
was traveling south toward
town when he apparently lost
control of the car on a curve.
It overturned about four times,
according to Davis, and came
to rest at the side of the high-
way upside down. Young
Wooten was thrown from the
car, and was pronounced dead
on arrival at Haskell Memorial
Hospital, from internal injuries.
The other passengers, Phillip
Josselet 18, Wayne Davis 19,
and Walter Blair 19, were
treated for minor injuries and
released.

DID YOU KNOW?

Did you know that...
The proper way to dispose of
the American flag, after it has
been worn out, is to burn it?
Anytime the American flag
touches the ground, it should be
burned. The stars are first cut
away from the stripes before it
is burned? By doing this, it is
no longer a flag, at the time it
is burned?

In case you do not know these
things, the Haskell Girl Scout
Day Camp (better known as
Camp Nature Haven) is plan-
ning a special "Flag Burning
Ceremony", to better inform
the public of this patriotic act.
The ceremony will be held this
evening (Thursday), June 1, at
7:30 p. m. on the camp site two
miles northwest of Haskell, on
the Maurice Gannaway farm.
Tonight has been designated as
Parent's Night, and they are in-
vited to visit the camp site be-
tween 7 and 8 p. m.

The American Legion, under
the direction of Commander L.
L. Hise, will be on the site to
assist the girls in the special
ceremony.

The American flag is being
raised in a special flag cere-
mony each day at the camp site
by the Girl Scouts.

Respecting the American flag
is IMPORTANT, and these
scouts, composed of girls from
Haskell, Stamford and Hawley,
are helping to emphasize this.

**Record Number
Competes In
Trap Shoot**

A record number of shooters
turned out for the Haskell Gun
Club traps for the competition
Sunday, according to Wallace
Wooten, president. A total of
8,200 registered targets were
thrown in six hours.

James Dodson of Graham
won first prize in the handicap,
with 27 competing. The weather
was beautiful; the sun was shin-
ing; and very little wind was
blowing, to give the competitors
the full benefit of their skills.
All scores in the 16 yard events
were very good.

Wallace Wooten took the
Class A competition with the
near perfect score of 99x100.
Class B went to Dick Lindsey
of Graham with 98x100, miss-
ing two of his last 25. John
Richardson of Abilene won
Class C with 97. He missed two
of his last 25.

Class A doubles won by
Curtis Gallehon of Abilene.
Class C doubles winner was
Stephen Ellis of Haskell with
76x100.

High overall was scored by
Bud Mercer of Iowa Park,
breaking 272 of 300.

The next shoot sponsored by
Haskell Gun Club will be held
June 25. They are offering this
option—with proof that you are
a new shooter, and with the
application to sign up with ATA,
you will be able to shoot all
three events at half-price.

In case of a husband and
wife team, the husband will pay
full price, and his wife half-
price. The same with a father-
daughter or father-son team.

ABSENTEE VOTES

42 absentee votes have been
cast for the June 3 runoff elec-
tion in Haskell County, accord-
ing to Lee McKelvain, County
Clerk. Deadline closed for vot-
ing absentee in this election at
5 p. m. Tuesday.

None have been cast for the
June 6 special election.

**Voters Urged To Stay In Primary
Where They Voted; Can't Switch**

AUSTIN—Voters in the June
3 runoff elections were warned
Tuesday by Secretary of State
Bob Bullock to "stay in the
party primary where they voted
on May 6."

"Judging from reports sev-
eral county clerks are receiv-
ing, it looks like many Republi-
cans are being tempted to
switch over and vote in the
Democratic runoff on June 3,"
Bullock said.

"Every voter needs to know
that if they voted in the Republi-
can primary on May 6, they
cannot vote in the Democratic
runoff. And if they voted Dem-
ocratic the first time, they can-
not switch and vote Republican
on June 3."

"We want the public to know
that this action violates Article
240 of the Texas Election Code
and is punishable by a fine of
from \$100 to \$500."

"We know that this type of
voting has taken place in the
past. A survey by State Senator
Oscar Mauzy in 1968 showed
that there were some 1,300
crossover voters in his district
alone.

"Certainly, any crossover vot-
ing would distort the true
strength of a candidate in the

**Vacation School
At First Baptist**

The First Baptist Church of
Haskell will conduct Vacation
Bible School beginning Monday,
June 5, and continuing through
Friday, June 9. The Bible
School will be held each morn-
ing from 8:30 to 11:30. A car-
avan of cars, advertising the
school, will parade through
Haskell starting from the First
Baptist Church at 9:30 a. m.
Saturday, June 3. The parade,
as always will be led by the
Haskell Fire and Police De-
partments. Registration will be
at the church immediately fol-
lowing the parade. Refresh-
ments will be served following
registration. All children, ages
3 through the 6th grade level,
are cordially invited to attend.

The youth of First Baptist
will conduct a Night Vacation
Bible School June 5 to 9 for the
children at Haskell Independent
Baptist Church. This school will
begin each evening at 7 p. m.
at the Independent Baptist
Church.

other party. I think the low-key
campaign by the Republicans
lends itself to making a Republi-
can want to switch over, if
only for excitement's sake.

"We hope that public aware-
ness will discourage this type
of voting. If we find that it still
takes place, we will have no al-
ternative but to pass this in-
formation along to the proper
prosecuting authorities," Bul-
lock said.

"We want election officials
to know that there is a law be-
hind them and they should not
permit this practice. This will
be the only way we can pre-
serve the integrity of the Texas
election process."

Bullock said he wanted the
voter to know that it is also a-
gainst the law for a voter to
cast a ballot in two different
precincts, even within the same
party.

"We know that there were in-
stances of this reported during
the May 6 primary. Like cross-
over voting, this dual voting
practice is against the law and
simply cannot be tolerated.
"I want the local election of-
ficials to bear down and make
sure this doesn't happen in the
runoff," Bullock said.

to Charlie E. The initial emphasis, a few years ago, was on guar's use as a forage cover crop and soil builder. During World War II, researchers found that guar seed contained a high content of a product used for the manufacture of mucilage—a product that had to be imported. Guar seed also was found to have a high protein concentration. Thus, guar producers had another crop that produced commercially valuable seed. Since the 1940's, the uses of guar seed products have become numerous. Guar meal is an excellent source of protein supplement in livestock rations. Guar gum is used by paper, tobacco, petroleum, mining, textile, food, cosmetic, and pharmaceutical industries.

The important varieties for Haskell County are Hall, Mill and Brooks. The Brooks variety is high yielding and has a fairly high resistance to bacterial and wilt diseases.

Herbert Partridge of Munday, field representative for the guar industry, stated that Texas ac-

reage last year was approximately 125,000 acres in the Rolling Plains area alone. This acreage produces 40 to 45 percent of domestic guar seed needs. Another 5 to 10 percent is produced in South and far West Texas. The remaining needs must be imported, mostly from India and Pakistan.

The Texas A&M University Vegetable Research Station at Munday harvested an exceptionally high yield of 3000 lbs. per acre last year on sandy and sandy loam soils.

During 1971 guar seed was contracted for \$5 per 100 lbs. Haskell County yields have ranged all the way from a low of 800 lbs. to 1500 lbs. Irrigated yields, of course, have been much higher.

We aren't without production problems, though. The use of our conventional combines results in a 10 to 30 percent loss during harvest. Inadequate cultural methods and lack of weed control may reduce yields another 10 percent.

Guar is relatively free from insects, but this situation can change drastically as it did in 1969. In 1969, guar producers in Haskell County were plagued with "guar midge" infestations. Again in 1970 local producers were hit with a gall producing midge that attacked the late maturing guar with little economic importance.

Despite the recent midge problem, guar appears to be here to stay. It has a bright future as a legume, the plant is an excellent soil builder. Just about any crop that follows guar in the cropping rotation experiences a 20 to 40 percent yield increase. It may be farmed on set-aside acres. It grows and produces seed under drought conditions that are unfavorable to other crops.

Cotton planting time and guar planting time fall together. Plant your set-aside acres to guar for soil improvement purposes and strengthen your total conservation program. If you have need of further information concerning planting rates, etc., contact us at the Soil Conservation Service office in Haskell.

vote FOR **robert s. CALVERT**

VOTE FOR PERFORMANCE

There is no margin for error in an office that must guarantee the biennial fiscal solvency of the state—balancing billions in receipts to payments each year. Bob Calvert has built a tax accounting system that is considered a model for study by other states. During 23 years as Comptroller, he has an unblemished record of remarkable public service.

VOTE FOR EFFICIENCY

Bob Calvert has continually modernized operations to provide greater service at lowest cost. The electronic data-processing equipment he installed is recognized as one of the most sophisticated and efficient computer systems in the nation.

VOTE FOR CONFIDENCE

Under Bob Calvert, the Comptroller's Office has returned \$450,776,028.09 to 692 Texas cities since their sales tax was enacted. Every penny has been accounted for. His records are verified by the State Auditor's Department to insure absolute accuracy. The Texas Research League has proclaimed Calvert's office one of the most outstanding in the country in accounting and administration.

VOTE FOR INTEGRITY

The only things "old fashioned" about Bob Calvert are the virtues of honesty and integrity which he considers vital for a person in a position of such public trust. On the other hand, his runoff opponent, who has had six marriages, four divorces and one annulment, was fired from the Comptroller's Department last November after being convicted of aggravated assault on a female.
