Kim Hager Shows Grand Champion

GRAND CHAMPION STEER of the 1973 Haskell County Junior Livestock Show was exhibited by Kim Hager. Show judge Joe Wise of Crosby County picked the animal first in competition with 76 other steers. Kim is the daughter of Mr. and Mrs. W. R. Hager of Weinert.

Kim Hager, daughter of Mr. and Mrs. W. R. Hager Jr., of Weinert, exhibited the grand champion steer at the 1973 Haskell County Junior Livestock Show held last Friday and Saturday at the County Show Barn.

The show opened Friday morning with judging in the sheep competition. Jim Ballard, son of Mr. and Mrs. Preston Ballard of Rochester, exhibited the grand and reserve champion lambs. Lanny Ballard, son of Mr. and Mrs. G. L. Ballard, showed the grand and reserve champion ewe lambs.

Jim Ballard also showed the grand champion market barrow. The reserve champion market barrow was shown by Kraig Kupatt, son of Mr. and Mrs. Fred Kupatt.

Cindy Thomas, daughter of Mr. and Mrs. C. A. Thomas, Jr., of Haskell, exhibited the grand champion heifer opening Saturday's judging. Reserve Champion heifer was shown by Stanly Hager, son of Mr. and Mrs. W. R. Hager Jr.

Joe Wise, County Agent of Crosby County, judge of the show, said the steers in this show were the best he had seen all year.

the Texas "open meetings" law and the proposed "shield statute."

A "strong" open meetings measure—which will make it difficult for any "public" body to hold a closed meeting—was approved by the House State Affairs Committee recently and was sent to the House floor without amendments.

H. B. 10, the newsmen's privilege bill, or "shield" bill, was introduced by Rep. Dave Allred, and was assigned to the House Judiciary Committee.

Robert Strauss, new chairman of the National Democratic Committee, will also address TPA on his new role as head of the Democratic Party.

So, Bill and I—and possibly Don—will be at all sessions of the TPA convention, and will bring back reports for next week's paper.

GED Tests To Be Given In Rule

The Rule School will administer the General Educational Development Test (GED) January 27, beginning at 8 a. m. in the Rule High School Library.

Additional information may be obtained at the superintendent's office. Fee for the five tests is \$10.00.

If a person passes these tests the Texas Education Agency will issue a certificate that is equivalent to a high school diploma. The certificate will be accepted by most employers as a high school education for employment. Also some colleges will accept this as entrance requirement.

HM Board Approves Plant

"An industry in our city is up to the people of Haskell now," said Royce Adkins, president of the Haskell Industrial Foundation. Adkins made the statement shortly after he was notified that the board of directors of Herman Marcus, Inc., had approved a plan to locate a garment plant in Haskell.

"Our immediate problem is raising \$50,000.00 to start the project," Adkins said. A concentrated effort to raise the money will begin immediately. Abe Turner will serve as chairman of the committee to raise the funds.

Board approval is a big step

'73 Heart Fund Chairman Named

Mrs. Buck Everett will head the 1973 Heart Fund Campaign in Haskell, it was announced today. The campaign will be conducted here and throughout the nation during February, declared American Heart Month by an Act of Congress.

The Heart Fund chairman cited the urgent need in the forthcoming campaign. "More than 875,000 Americans will die this year of heart attack, the number one killer in the nation," she said. "The drive will seek to raise funds to reduce death and disability from heart attack and other heart and blood vessel diseases. Give generously to support Heart programs when your Heart Fund volunteer calls."

According to Mrs. Everett, Heart Fund volunteers will visit all residential areas during February to distribute heart-saving information and collect funds to support research, educational and community service programs of the Haskell Heart Association.

toward the signing of agreements which will formally locate the plant in Haskell. The agreements should be signed in the near future.

A training program will begin as soon as possible so that qualified personnel will be available by July 15, which is the target date for opening the plant. The program will be conducted by the Industrial Foundation in conjunction with Herman Marcus and the Texas Industrial Commission.

A committee has been named to select a building site and is currently in the process of purchasing five acres west of the Texas Highway Department building from Carl Anderson.

Dennis Yarbrough of Herman Marcus said that Herman Marcus officials are very excited about locating the plant in Haskell. "Our production people decided on Haskell because they believed your people will

do the kind of job we want," Yarbrough said. He said the plant would strive to be a part of Haskell and would be vital interested in the progress of the entire area. "We definitely need the production capacity and are very pleased with Haskell's potential," he said.

Work toward locating the plant in Haskell began some four months ago when Richard Petree, Area Development representative of West Texas Utilities met with members of the Haskell Industrial Foundation. For almost two months, Industrial Foundation officials did not know what company was considering locating a plant in Haskell. After obtaining extensive information on the physical capabilities, the Industrial

Foundation conducted a labor survey. The survey met with much success and representatives of Herman Marcus conducted job interviews with about 300 people.

"Barry Henry of Hank Dickerson Industrial Realtors in Dallas was instrumental in all phases with Herman Marcus," said Adkins.

A meeting was held Wednesday night in the Community Room of the Haskell National Bank to discuss the many problems which now face the Industrial Foundation. After discussing how to raise \$50,000.00 to start the project, members discussed a plan to begin the training program and what should be included in the agreements with Herman Marcus.

Council To Take Bids On New Truck

The regular meeting of the Haskell City Council was held Tuesday night with Mayor Belton Duncan presiding.

Councilman Loraine Johnson gave the prayer and minutes of the last meeting were approved.

The council voted to have Postmaster Sam Rosser place mail boxes on the southeast corner of the square. The mail boxes will enable motorists to mail letters from their cars.

The council is also advertising for bids on a new 1973 truck which can be fitted with a garbage packer. The bids will be opened February 13, and specifications are available at City Hall.

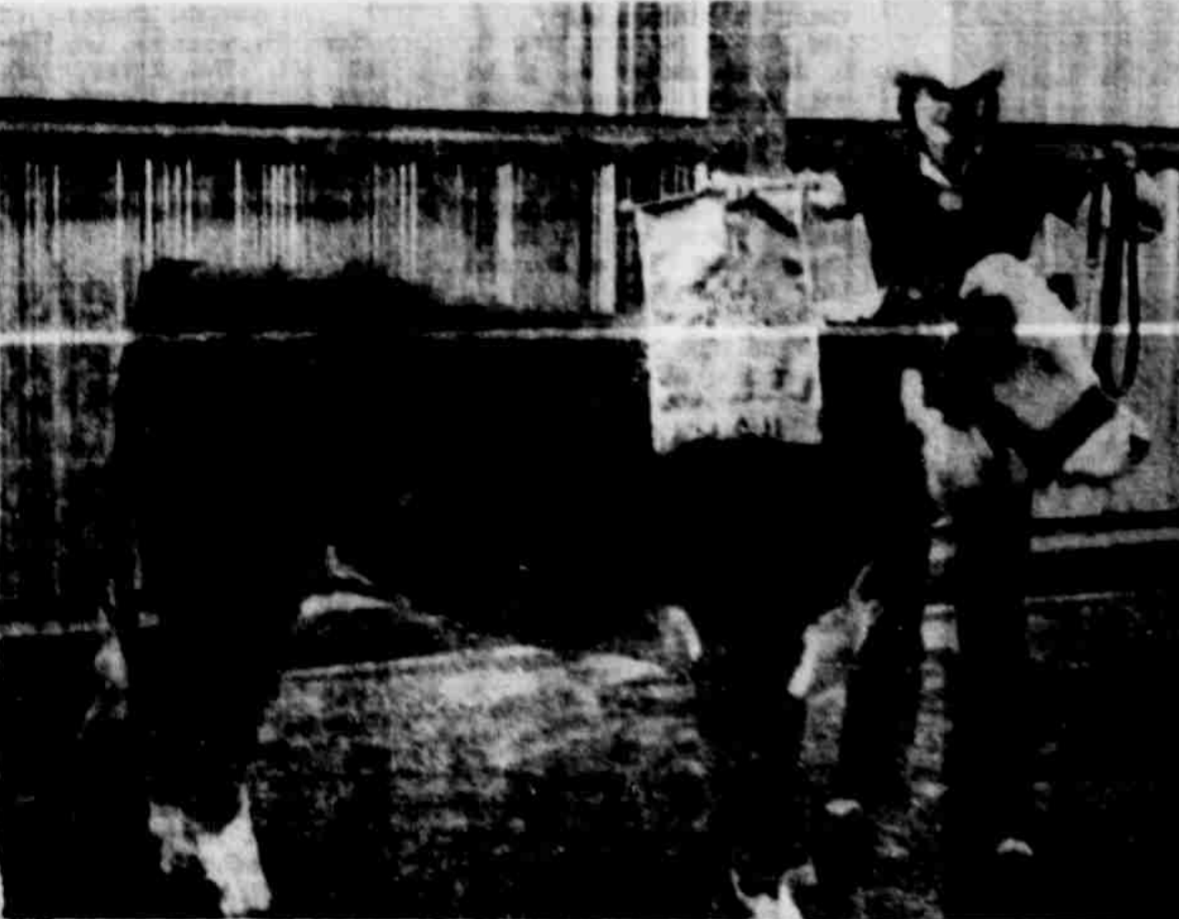

Bills were approved and the meeting was adjourned.

PREMIUM SALE for the Haskell County Junior Livestock Show was held Saturday afternoon at Haskell Livestock Auction. James Powell served as auctioneer. Money from the sale, largest in history, totaled \$19,682.85. (Staff Photo)

Conserving Time Is HDC Program

Members of the Evans Home Demonstration Club met January 16, with Mrs. Georgia Wade presiding.

Four visitors were recognized in the persons of Mrs. Barbara Elliott, Mrs. Layton Robertson, Mrs. Adella Villa, and Miss Aurora Hernandez. Mrs. Ethel Phea gave a meditation and members read the THIDA prayer. Roll call was answered with "How I save time and money".

Mrs. Elliott gave the program on "managing your time." She told the club members to learn to recognize the important points and solve problems. Decide how to use your time to the best advantage. To organize and eliminate some ideas that are not as important as others should be done to conserve time. Allocating responsibilities to other members of the family helps conserve time according to Mrs. Elliott.

The next meeting of the club will be held February 20.

Joe Thigpen Receives Degree

Joseph Emmitt Thigpen, son of Dr. and Mrs. Joe E. Thigpen of Haskell, received his law degree from the Texas Tech University School of Law at the end of the fall semester.

Thigpen received his Bachelor of Arts degree from Abilene Christian College in May, 1970.

Forty-four Doctor of Jurisprudence degrees were awarded at the conclusion of the fall semester in Texas Tech's School of Law. The school is one of six colleges and two schools at the university, including Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering, Home Economics and the Graduate School.

Texas Tech's fall enrollment of almost 21,500 set a record high for the institution which will conduct its fiftieth anniversary observance from 1973 to 1975.

Weinert Matrons To View Film

The Weinert Matrons Club met January 18 in the home of Mrs. J. W. Liles with Mrs. W. A. King presiding.

During the business session, club members discussed the upcoming Mesquite District Convention of Texas Federated Women's Clubs. The convention will be held March 27-28, in Abilene.

Mrs. W. B. Guess reported on the progress being made to build the "Big Thicket" from being destroyed.

Mrs. J. A. Mayfield was director for the program on clubs in other lands. Mrs. Mayfield and Mrs. R. J. Rainey gave interesting talks on those clubs. The Club Collect was read in unison by 11 members. The next meeting will be February 1, in the dark room of Weinert High School. Members and guests will view a film, "Depicting the Emerging Woman."

ABE TURNER
Silver Beaver
Turner Receives Scout Award

Abe Turner was presented the Silver Beaver award Tuesday night at the annual banquet of Chisholm Trail Council Boy Scouts of America. The banquet was held at St. Paul Methodist Church, Abilene.

The Silver Beaver is awarded to men in the local council for "distinguished service to boyhood." The Chisholm Trail Council can bestow no greater honor on one of its own.

Turner became an Eagle Scout in 1951 and since that time has been active in the Scouting program as an adult. He served as a member of the Chisholm Trail Council executive board for five years, and for the past two years has served as vice president of the board.

For the past two years he has been Scoutmaster of Troop 31 in Haskell. He has also served as a leader in the First Baptist Church youth department and as a Sunday school teacher. He has served two terms on the Haskell School Board, three terms as president of the Haskell Chamber of Commerce, three terms as Jaycee President and is a member of the Rotary Club and West Texas Chamber of Commerce.

Free Consumer Guide Offered

"Buyer Beware" has become a popular slogan in recent years, yet most people still buy at full retail prices, during the wrong seasons, and in the wrong places, according to a new "Retirement Consumer Guide" published by the American Association of Retired Persons and National Retired Teachers Association.

Offered free as a public service of AARP-NRTA, the Guide notes that recent studies on consumer buying habits reveal that:

- * Most supermarket shoppers shop at only one market, and about half of them never use a shopping list;
 - * Charge account customers purchase three times as much cash customers;
 - * Failure to read and follow instructions for mechanical goods accounts for about 40 percent of all service calls.
- To help consumers improve buying skills, the booklet offers money-saving tips on foods, such as meats, eggs and milk, and advises shoppers to compare nationally advertised brands with house brands of most grocery chains. "Many shoppers could save at least \$200 a year by buying house brands," the Guide states.

The 46-page booklet also includes information about buying new and used automobiles, clothing, mobile homes (retired people purchase 25 percent of them!) and borrowing money for these acquisitions.

For those troubled with legitimate consumer problems, the Guide details complaint procedures and ways to make complaints most effective.

For instance, the Guide advises that you "keep copies of all documents, sales slips, receipts and correspondence concerning a purchase and have them handy when you talk with persons who sold you unsatisfactory goods or services."

Prepared by AARP-NRTA consumer experts, the booklet is one of a series of "Better Retirement Guides" published by the 4.5 million-member Associations.

If you would like a free copy of the Retirement Consumer Guide, write: Consumer Guide, AARP-NRTA, 1225 Connecticut Ave., N. W., Washington, D. C. 20036.

Convert Tax Refunds To Savings Bonds

An unusual opportunity to convert 1972 Federal income-tax refund checks into U. S. Savings Bonds was announced today by Rex Brack, State Chairman for the Bond Program and Vice President of Brant International.

"The Treasury is estimating that this could be the largest tax-refund year in history," Mr. Brack said, with \$22 billion going to some 58 million recipients—an average of nearly \$400 apiece.

The U. S. Savings Bonds Division, through the cooperation of the Internal Revenue Service, provides immediate opportunity for those recipients to convert their refund checks into Bonds. A special Bond Application Form is being mailed, with instructions, along with each tax refund check. Persons wishing to turn their refund checks into Bonds, need only fill out the form, taking it along with the check to the nearest Savings Bonds issuing agent—most likely the bank. There, Bonds in the specified amounts will be issued promptly.

"This timely opportunity," Mr. Brack continued, "permits individuals to buy Bonds in the amounts desired, in a manner convenient for both the purchaser and the issuing agent. We encourage the citizens of our state and elsewhere to use their tax refunds to add to their future security, buying Series E Savings Bonds, which draw 5 1/2 percent interest, when held to maturity."

Girl Scouts Help Count Library Book Circulation

Last Thursday a group of Girl Scouts from Troop 464 had fun and helped their community at the same time. Fifteen girls met at the Haskell Library to help Mrs. McGee with her annual chore of counting book circulation for the year.

Thanks to their help, the job was done in three hours. Mrs. McGee said she thinks when the final figures are done, the circulation will go over last year's 10,000 mark.

The girls from Troop 464 assisting Mrs. McGee were Kim Lane, Sharon Turner, Janet Phillips, Lynn Weatherly, Jackie Mayfield, Kelly Croft, Elsa Flores, Leah Ary, Lynelle Billington, Alicia Miller, Cheryl Conner, Terri Lowlor, Sonja Tidrow, Renae McBroom and Janet Wallace. Renae Dodd and Duke Lowlor also helped out Thursday.

Mrs. McGee also said several people in the community had been of great help to her in this time-consuming yearly task and she was grateful for their help.

Farmcast
A Weekly Report Of Agri-Business News
Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Up, up and away! Sheep on feed decline - Rise Quota Vote Set - One Million Visitors. At first glance, it may appear that farm prices are "up and away". Although prices to farmers do show increases, production costs are also rising so the net result is not as rosy for agricultural producers as it could be. Remember, too, income in rural areas is still about a fourth under the rest of the economy.

The Texas Crop and Livestock Reporting Service notes that Texas farmers received price increases for almost every commodity recently. Only calves and sheep are above effective parity, however.

Call prices at \$47.40 per hundredweight are \$1.60 per 100 pounds above parity. Sheep at \$12.30 per hundredweight are \$1.20 per 100 pounds above parity. Beef cattle at \$34 are \$4.20 under effective parity. Hogs at \$29.50 are more than \$2 under effective parity.

Crop prices show an even greater parity discrepancy. Cotton at 21.2 cents per pound compared with an effective parity price of 27.20 cents per pound. Grain sorghum at \$2.79 is below effective parity by 65 cents per 100 pounds.

Egg prices at 50 cents per dozen are up eight cents from a month ago, but still almost eight cents below parity.

The index of all farm products was 29 points above last month and 13 percent above a year ago.

Farm production index prices paid by farmers was up 7 percent from a year ago.

A 22 percent decline in sheep on feed is noted in Texas. Drylot sheep feeders with a lot capacity of 2,000 head or more had 30,000 sheep and lambs on feed for slaughter on Jan. 1. This is 22 percent under a month ago, but 5 percent above the number on feed this time last year.

Current intentions to market are: January, 50,000; February, 32,000; and March, 8,000. Marketings during December were 38,000 head.

Commercial slaughter plants in Texas produced 194,000 lbs. of meat during November, which represents a decline of 6 percent from the previous

month, but 8 percent above the total produced in 1972.

Nationwide, production of red meat was 1 percent above a year earlier.

Rice allotment for Texas for 1973 is 516,132 acres. Nationwide, the rice allotment was increased 10 percent. A referendum will be held among producers Jan. 25 to 26 to determine if marketing quotas will be in effect. Two-thirds or more of the rice growers voting in the referendum must approve the quotas to make them effective.

Cotton Classing

MUNDAY dry enough for cotton harvest. Sample receipts remained in the area serving very slow as fields were not iced by the Munday Cotton

Classing Office, reports Sidney Ferrell, Officer-In-Charge. According to the USDA's Agricultural Marketing Service, gathering operations are approximately 88% complete.

Quality statistics for the week ending Jan. 19, 1973, remained about the same as the previous week. 9% of the cotton was classed as Strict Low Middling (41), compared to 17% last week. 9% was Low Middling (51), 36% was Strict Low Middling Light Spotted (42), and 28% was Low Middling Light Spotted (52). 38% of the cotton classed was reduced in grade due to bark or grass, compared to 25% a week earlier. The staple length showed 19% staple 30, 49% staple 31, and 29% staple 32.

The micronaire readings were improved with 83% reading in the desirable range of 3.5-4.9. 16% read 5.0 and above.

The Pressley fiber strength tests conducted by the USDA's fiber laboratory at College Station shows that the average strength for the week was 76,000 pounds per square inch, compared to 78,000 pounds per square inch a week ago.

Cotton markets continue to

be fairly active with farmers offering moderately. 19 to 27.00 cents per pound was paid for most grades offered with staple lengths of staple 29 through staple 32.

The Munday Office classed 6,921 samples this week, bringing the season's total to 93,713.

ABILENE

The 1972-73 cotton harvest was curtailed for a second week because of wet cotton fields. Only 13,000 samples were graded at the USDA Cotton Classing Office at Abilene for the week ending Jan. 19. This brought the season total to 338,000 samples, which is more than twice the number of samples graded by this date last season. B. B. Manly Jr. estimates the harvest to be 75% completed.

Samples graded during the period of this report was 21% white, 69% light spotted, and 8% in spotted grades. The predominant grades were grade

42 at 44%, grade 52 at 14%, 32 at 11%, and grade 31 at 11%. Bark in samples was the cause for grade reductions of 38% of the samples.

Staple lengths have been longer than usual for this area all season. Staple lengths 31 and 32 were 35% and 46% of the samples graded.

An increase of low micronaire readings was probably due to increased harvesting of late planted cotton. Only 48% was within the premium micronaire range, as compared to 71% the previous week. 3% of the samples were high mike, and 49% was in low micronaire ranges.

The Agricultural Marketing Service reports that the price range for grade 4232, premium micronaire cotton was 23.95 to 26.20 cents per pound. Grade 5232 cotton brought from 21.00 to 22.50 cents per pound. Micronaire discounts were about 4 cents per pound for cotton in the 3.0 to 3.2 micronaire range. Cotton that miked from 2.7 to 2.9 was discounted from 6 to 6 1/2 cents per pound.

LETTERS TO THE EDITOR

Dear Sir: On January 4, we were with a group of University of Missouri students headed for a canoe trip down the Rio Grande. Around 2 a. m. that morning we realized our school bus was very low on gas and we could not find an open station.

We drove into the town square of Haskell and the patrolman there was very helpful. He contacted Wallace Bird who opened his service station for us and enabled us to continue on our way. We really appreciate their generosity and want to thank them.

We found Texas to be a very friendly state and are especially grateful to those people in Haskell who aided us during those early morning hours.

Thank you. Sincerely, Kristin Olsen, Bob Perry, Students at U. of Missouri, Columbia

Mrs. Pat Hale Receives 5 Yr. Pin

Highlight of the West Texas Girl Scout Council annual meeting held in Lamesa Thursday night was the speech by Dr. LeMoine Lewis, Professor of Bible at Abilene Christian College. His topic was "Today's Vision - Tomorrow's World", the National Girl Scout Council theme for the Triennium 1973-1975.

Mrs. Marshall Parham presented awards to those individuals who had done an outstanding service to Girl Scouting.

Local volunteers receiving certificates of appreciation were Mesdames Bob Connel, Hoie Harrell, Dale Burris and Miss Karen Pippin.

A tenure pin denoting five years as a registered Girl Scout was presented to Mrs. Pat Hale.

Larry Hartsfield In ACC Production

ABILENE—Larry Hartsfield, son of Mr. and Mrs. H. H. Hartsfield, will play "Mr. Oshira" in the Abilene Christian College production of "Teahouse of the August Moon."

Hartsfield, a 1971 graduate of Haskell High School, is a junior drama major. He was seen as Dr. Einstein in "Arsenic and Old Lace" and Mendel in "Fiddler on the Roof."

"Teahouse of the August Moon" is being presented for the school's first dinner-desert theater production of 1973. It will be presented for two weekends in Swell Theater, Feb. 13, and Feb. 18-19.

The ACC Drama Department presented "Fiddler on the Roof" as its first major production during the 1972-73 season and will conclude the year with a double feature, "The Apple Tree" and "Spoon River Anthology" in March and April.

Conservationist
YEARY, JR.

The Boards of Directors of the California Creek and Wichita-Brazos Soil and Water Conservation Districts are encouraging producers to continue the application of needed conservation measures. Technical assistance for design, layout, supervision of installation, and final checking of such measures is still being furnished by the Soil Conservation Service technicians.

The installing of conservation measures using SCS and SWCD standards and specifications apply to any conservation measure regardless of who pays the bill. Any practice worthy of installing for the conservation of soil and water is worthy of being installed properly. Improperly installed conservation practices can result in costly losses of soil and money.

Several producers have already indicated their desire to carry out the needed conservation work on their lands. SCS and SWCD's urge producers with completed systems of terraces or unfinished waterways to contact us for the necessary technical assistance to assure a high quality of work. We will furnish this technical assistance whether or not it is cost-shared.

The Great Plains Conservation Program is not effected by the Executive Order that terminated REAP. All producers under GPCP Contract will be expected to continue the planned schedule of application outlined in their respective GPCP Contracts.

Brazos West Is Rotary Program

Members of the Haskell Rotary Club and guests met at the City Cafe at noon, January 18, for a regular weekly luncheon meeting with president Bob Philpot, presiding.

Roy Wiseman, program chairman for the day, introduced Rev. Joe Alabue, pastor of the Lutheran Church of Sager-ton and chairman of the recently organized Brazos West Association, as his program. Rev. Alabue gave an interesting and informative talk on the work being done by the association and pointed out some of the things that are happening to the rural towns and communities unless a concerted effort is made by the business leaders.

He noted the rapid decrease in population of several counties in this immediate area due to the fact that farming operations are now on a large scale with one man cultivating hundreds of acres of land where several families in the past had lived and farmed the same amount of land. Lack of jobs for the young people in their home communities is forcing them to migrate to the industrial towns to find employment.

The invocation for the meeting was given by Rev. H. O. Abbott and the song session led by Bob Herren with Rene Abbott providing accompaniment.

Guests were introduced by R. C. Couch Jr.; Jack Thompson, Raja Hassen, Mrs. Roy Wiseman and student guests from Haskell High School, Paula Middleton and Linda Gale Chapman.

**Holiday On Ice
Dates Revealed**

The 1973 edition of Holiday on Ice International returns to the Taylor County Coliseum for five performances from March 8 thru March 11. This all new skating extravaganza features new skating stars, a completely new look in costumes, new production and musical staffs, Arthur Park to a nostalgic tip in a glittering "Riverboat" finale.

The immitable "SNOOPY" will be around for his second season to help set the stage for another great Holiday on Ice Spectacular.

As usual there will be ample comedy for everyone. In addition to the antics of "SNOOPY" the zany humor of Little Lito will be on display. A very new novelty touch will be on hand with the addition of Soule's famous "Poodles of Paris," one of the finest of all canine acts.

The new production staff will be headed by Bob Shipstead who earned his spurs as an ice show producer under the guidance of his father, Eddie Shipstead, of Ice Follies fame. Helen and Bob Maxson, two of the best known choreographers

in the history of ice shows, will supervise the skating routines. Stanaley Kahn has the job of staging the production and Helen Colvig, noted costume designer, is the person responsible for the unusual and elegant wardrobe. Created at a cost of almost \$500,000, it gives the 27th edition of Holiday on Ice a look that is young, bright and beautiful.

Holiday on Ice of 1973 is an American show steeped in the tradition of American entertainment. American music sets the theme including the original compositions by Holiday's own

composer and arranger, Dick Friesen.

Original numbers composed by Dick Friesen are "The New Ice Age", "Shoo-Fly Crow", "Town Meeting", "Tip Your Hat to a Carrot", "Honey Be My Little Honey Bee", "Soil, Seed, Sun and Rain" and "Tender Loving Care".

The 1973 Holiday on Ice is a combination that has been molded into one of the great entertainment spectacles of this or any other year. It's "The New Ice Age" that gives Holiday on Ice that "New Look".

 In junior high play, the Kittens hosted Paint Creek Jan. 15, and won both games. The boys score was 41-26 and the girls score was very close, 26-24. Junior high is entered in a tournament at Knox City, Jan. 26-27, and Feb. 1 will play Rochester there.

DEAN'S LIST
 Three students from Rule attending Texas Tech have qualified for the Dean's Honor List for the 1972 fall semester. To qualify a student must be enrolled in 12 hours of courses, and have a 3.0 grade point average.
 On the Dean's Honor List in the College of Home Economics is Caron Cloud, daughter of Mr. and Mrs. Joe B. Cloud. In the College of Agricultural Sciences were: Winston G. May, son of Mr. and Mrs. W. G. May and Robert Keith Whitaker, grandson of Mrs. J. N. Boykin.

AROUND TOWN
 Mr. and Mrs. E. B. Teaff of Lamesa visited last Tuesday

ceding the program, Mrs. C. E. Franklin and Mrs. Loyd Futch were presented special membership pins. These pins are given in recognition of service to the society and a donation is given to missions in honor of these individuals. With the presentation of these pins, all ladies of the WSCS now have their membership pins.

ROTARY CLUB
 Speaker for the Rule Rotarians at their noon meeting on January 15th was a fellow Rotarian, Weldon Norman. Novis Ousley led the opening prayer.
 Mr. Norman presented slides and commentary of a trip taken to Africa, last October. These particular slides were of the country of Tanzania. The Lake Manyara game preserve, Serengeti National Park and Ngorongoro Crater, were some of the places visited. Various wild life abounded in these regions and Mr. Norman commented this part of Africa was more like we in America might picture it, with the various natives and their native dress. Tanzania is the only truly socialistic country in Africa. Also people of Africa feel a responsibility for their families and kin folks. As long as one of them needs help, they respond.
 The slides were very interesting and Rotary members enjoyed seeing the large amount of wild animals that abound in this particular part of Africa.
 One visitor was present from Haskell, Mr. Carl Anderson.

PHILADELPHIAN CLUB
 "Educate for Parliamentary Procedure" was the theme for the day when the Rule Philadelphian Club met for their regular meeting Jan. 18. Director for the day was Mrs. Frank Campbell.

Cholesterol is a fatty material blamed for clogging up arteries and so causing heart attacks. An Anti-Coronary Club in New York of 814 men, age 40 to 59, followed a low-fat diet for seven years with only seven of the men dying of heart attack. Of a control group of 420 men who kept their old diets, 12 died of heart attack in the same period — three times the rate of the low-fat diet group.
