

Hey Day Plans Nearing Completion

Haskell Hey Day plans are nearing completion, with the show set for 8:30 p. m. Tuesday evening in the Texas Theatre, according to pageant chairman, Mrs. R. A. Lane. Entries and sponsors for both shows are gratifying, and are listed in another section of this edition.

Dress rehearsals for the show are set for 8:30 Monday evening in the theatre, and all sponsored senior girls and their escorts are asked to be at the theatre at that time. Rehearsals will be held to a minimum time, but all girls and escorts are asked to remain at the theatre until they are dismissed, then go directly to the Coke party, sponsored by the Progressive Study Club, to be held at Haskell Country Club. It will be an informal party, planned to treat the girls and their escorts after rehearsals. Entertainment at the Coke party will be by Tommy Mojica, youth director of First Baptist Church.

The Tea, sponsored by Business and Professional Women's Club, will be held Tuesday afternoon from 2:30 to 5:30, also at the Country Club. All entries in the Miss Hey Day show must be there during these hours, and will meet the judges for an interview. Don Dunoon, director of Miss Abilene Universe, will supply the judges from Abilene.

The show promises some changes this year, with the reigning Miss Throckmorton, Pat Harris, to entertain during interval segments. She will be joined during some of the entertainment by Tommy Mojica, Miss Katie Darnell, Miss Hey Day of 1970, will emcee the show, with initial introduction by Chamber of Commerce Manager, Rex Felker.

Little Miss Hey Day plans, under the direction of Mrs. Gene Fischer, are also nearing completion, and that show date is set for Thursday evening, July 1, also at the Texas Theatre. These pretty Misses create a show of their own, and show full well that they will make great entries in the senior show in years to come.

Rehearsals for the Little Miss Hey Day show will be held on Tuesday, June 29, at 9 a. m., and all entries and their escorts, plus all former winners of the show are asked to be at the theatre at that time. The Young Homemakers will give a Coke party during rehearsals. Don't miss either of these beautiful shows.

Free Press Hosts Dinner, Seminar

Approximately forty business owners of Haskell were guests of the Haskell Free Press Monday at noon for a steak dinner, and to hear guest speaker, Lou Capone of Oklahoma City, conduct a business seminar.

In addressing the business people of Haskell, Capone stated, "The right to criticize should be limited to the ones who have the heart to change." To build a better image for our city, he suggested working toward creating a town that is pleasant to look at. Clean it up, then get out of a rut, and operate our town like a shopping center, with an exciting atmosphere every weekend to bring people to town.

He suggested that the Retail Trade Committee be run like a group of stockholders — everyone should be involved. Everyone should have the success of their town at heart, and do their share to make it successful.

During the seminar, questionnaires were given each one attending. They were asked to fill them out with their opinions of what the town needs to be a bigger success than it already is. In this way, many new and fresh ideas can be gleaned from every business owner, that might pave the way for better trade center operations and improvements to our town.

Mr. Capone's final thought for those attending was to steadily build up momentum for shoppers to our town, by consistently advertising and promotion of our assets. By letting the people of the surrounding trade area know of Haskell's desire to be the Trade Center of West Texas, we will have taken another step forward in becoming just that.

"Little League Field" Scene Of Impressive Dedication Service

It has been said a "man never stands so tall as when he stoops to help a boy". These were the words Joe Williams, city attorney and former Little League president, spoke so adequately describing the late Volly Ivy. A man who gave of his time and talents to work with over 224 boys for 16 years as manager of the Tiger Little League team.

The Haskell Little League field, Saturday afternoon, June 19, 1971, was the scene for the dedication of the permanent grandstand and mahogany granite plaque honoring Volly Ivy, 16 years of unselfish devotion to boys were reviewed by Mr. Williams.

Fire Truck In "The Red"

The new rural fire truck has been completed, but approximately \$1200 is still needed to pay for the total expense of this valuable piece of equipment.

For several months, week-after-week, The Free Press published news articles pointing out the need of the new truck, and listed the names of the contributors. The truck is valued at some \$8,000.00 and only \$1200 is needed to complete payment.

Those who might wish to "kick-in" a little extra on the fund, or maybe there are some who failed to make a contribution, may still do so... and it would be greatly appreciated.

Contributions may be made to any fireman, or direct to the Haskell Volunteer Fire Department.

Setting for the film was in a locality where the Mexican bandit, Pancho Villa, was most active prior to World War I.

NATION'S FASTEST—The Big Bend, fastest entertainment ride in the nation, is shown in the foreground of this artist's rendering. The huge ride stretches over a large area at SIX FLAGS Over Texas. The new ride, built in Europe, will carry passengers in toboggan-like cars at speeds up to 50 mph.

AT SIX FLAGS OVER TEXAS

FASTEST FUN RIDE DEBUTS

Arlington, Texas—The fastest entertainment ride in the United States makes its public debut this weekend at SIX FLAGS Over Texas. The big theme park located midway between Dallas and Fort Worth.

Called "The Big Bend", the massive tubular rail ride carries passengers over more than a half mile of curving, spiraling track at speeds up to 50 mph... 20 mph faster than the Park's popular Runaway Mine Train.

Streamlined, toboggan-like cars climb a 50-foot tall spiral under power of their own electric motors. At the top of the spiral they become free-wheeling and begin a breathtaking trip around a series of curves with banks up to 78 degrees. At the midpoint of the ride there is another climb up a spiral tower, followed by a plunge during which the cars hit a speed of 50 mph.

SIX FLAGS Over Texas

Vice President and General Manager Robert W. Freeman said the new ride, costing more than \$600,000 was built in response to suggestions from guests that another thrilling, high-speed ride be added to the huge family entertainment complex. He added, "We had originally called the ride, The Jet Racer, but we feel the new name, The Big Bend, fits perfectly. Just like our state's famous Big Bend country, the ride is big, spectacular and plenty rugged."

The Big Bend was purchased from Intamin AG in Zurich, Switzerland, and was fabricated at the Schwarzkopf plant near Munich, Germany. It can carry more than 2,000 persons each hour. The big cars, weighing 1,850 pounds each, will be coupled in trains of two cars. Each train will carry twelve persons.

The installation at SIX FLAGS Over Texas is the first in the Western Hemisphere. There are smaller versions of the ride in Germany, France, and Spain.

More than 220 tons of steel were used in the manufacture of the 2,660 feet of rails and the supporting columns. More than seven miles of wiring was used for the ride's electrical controls, which include elaborate electronic safety devices.

Freeman said the engineers who designed the ride estimate that passengers will feel a maximum gravitational force of two G's during the 2 minute 15 second ride.

He said, "The Big Bend was designed specifically for SIX FLAGS Over Texas and, as a result, we have been able to fit it into the park's landscaping with an absolute minimum loss of trees and foliage. Most of the ride," he said "is at treetop level. You see a lot of real estate in a very short time."

Haskell Will Begin Reaping The Benefits of National Publicity

Haskell this year will begin reaping the benefits of new national publicity as a prime tourist destination because of its location on the new Conquistadores Trail.

The trail, a 4,000-mile designated route through the western two-thirds of Texas, New Mexico, and Arizona, is the seventh in the system of regional Heritage Trails established under the aegis of the American Petroleum Institute.

A \$100,000 promotional fund is being used to acquaint American tourists with the tri-state trail. Contributing to it are the three states, the A.P.I., Eastman Kodak, Texas International Airways, Six Flags Over Texas, Budget Rent-A-Car and Rodeo-ways Inns. Also, the cities of Amarillo, Corpus Christi and San Antonio.

"We are delighted to be teamed with our Southwestern neighbors in this extremely worthwhile promotion," said Frank Hildebrand, executive director of the Texas Tourist Development Agency and chairman of the Conquistadores Trail Coordinating Committee.

"For we have long felt that the romance of our common history makes our region one of the most attractive magnets on the domestic travel scene. And, increasingly, regional promotion is necessary if we are to compete successfully for our share of the \$45 billion travel market."

From the Tucson-Phoenix-Grand Canyon area on the west, the trail extends as far east as Corpus Christi, San Antonio, Austin and Fort Worth.

Among the other highlights of its 2,000-mile Texas segment are: El Paso, the new Guadalupe Mountains National Park, Davis Mountains State Park and Fort Davis National Historic Site, the Texas Highway Department's Judge Roy Bean Visitor Center at Langtry, Big Bend National Park, Amistad, Reservoir, and Brackettville's Alamo Village.

Also the Texas Hill Country, Padre Island National Seashore, Presidio La Bahia at Goliad, Gonzales, Aquarena Springs and Wonder World at San Marcos, LBJ National Historic Site, and the Highland Lakes.

Also, the new Dinosaur State Park at Glen Rose, Six Flags Over Texas, Chondor Gardens at Weatherford, Fort Richardson State Park at Jacksboro, Amarillo, and Palo Duro Canyon State Park and the outdoor drama, "Texas".

"The Spanish Conquistadores (Conquerors) were the first white men to see many of these

sites during their 16th and 17th Century explorations of Texas and the Southwest." Hildebrand noted. "Thus it seemed appropriate to dedicate this exciting new trail to their memory."

The Conquistadores Trail is expected to complement the four-year-old system of Texas Travel Trails since it crosses, and follows, segments of eight of them: the Mountain, Pecos, Hill Country, Tropical, Independence, Lakes, Forts and Plains Trails.

Hildebrand said that nearly two-thirds of available promotional monies are being invested in production of a color film, A Trail For All Seasons. Produced in both 35mm and 16mm versions, the film will be released through movie houses and televisions by early autumn. It will highlight major attractions throughout the tri-state region.

Already released is a descriptive 16-panel pamphlet in four colors. It features San Jose Mission National Seashore, Big Bend National Park, the Highland Lakes, and Six Flags Over Texas.

Major distribution of the 500,000 copies initially printed is being made through nationwide American Automobile Association offices and oil company tour offices.

The trail is also being promoted through a colorful eight-foot exhibit in the Discover America Showcase. The showcase, under auspices of the Discover America Travel Organizations, Inc., is appearing in 36 covered multi-type shopping centers through Mid-America this year.

Representatives From 18th District PTA Participate In Seminar At Austin

The 18th District PTA representatives, five of whom were from Abilene and two from Snyder, were among the more than 350 participants at Texas PTA's leadership seminar held June 13-16 on the University of Texas campus in Austin.

Local, council, district and state PTA leaders met to discuss ways in which PTA can become meaningfully involved in today's issues.

The seminar was keynoted by Mrs. Jean Harris of Agua Dulce, Texas PTA state president, in a speech underlining PTA's need for an awareness of community problems. Particular emphasis was placed on this year's state program theme, "Who says we can't move beyond confrontation to shared problem solving?"

Four main program areas—were the subject of a panel presentation by several educators and a minister. The panel was concerned with PTA involvement in the following areas: (1) The Family—Beyond Conflict to Communication; (2) The Community—Beyond Vestigial Interests to Concerted Action; (3) Education—Beyond A System to Individual Learning and (4) Human Relations—Beyond Alienation to Understanding.

Gardens Of The Week Selected

Despite the drought, the gardens of Haskell are a beauty to behold!

The Haskell Garden Club has selected for the week of June 13-20, the following gardens:

Most outstanding garden, Mrs. Raymond Burson, Rule Highway, tall pecan trees, deep velvety lawn.

Second place: Mrs. Jack McAdoo, spacious well-groomed lawn.

Third place: Mrs. Hayden McDonald, 1161 N. Ave. H, beautiful cannas.

Garden Club member, garden of the week, Mrs. Ira Davis, beautiful lawn and a variety of flowers for color and beauty.

Mrs. T. W. Williams, beautiful coral yuccas, masses of white daisies, well-kept lawn.

Garden Club theme is "A Thing of Beauty is a Joy Forever."

But shrubs, trees and plants are more than mere beauty. Grass is nature's wonderful anti-pollutant. Grass, trees and shrubs filter and dust pollen, reduce noise and glare, supply oxygen and lower temperature as much as ten degrees.

Tip: Use mulches and ground covers around trees to cut down on hand clipping and edging.

Four months of picnic food is no picnic.

Get central gas air conditioning and bring back meat and potatoes.

Some days you wouldn't even boil an egg. Let alone cook a meal. But with central gas cooling you can cook a banquet. Without heating up your home.

With central gas air conditioning, it only costs a little to add a lot to your living.

We give you a special low rate for central gas air conditioning during those sweltering summer months. When you need central air cooling the most.

So go ahead. Have central gas cooling installed. And save the picnic food for the great outdoors.

First of all, you'll save in installation costs. Because you just add a cooling unit to your existing central gas heating system. But that's just part of the savings. Gas costs less to use than electricity. And

AREA MAIL PROCESSING TO BEGIN IN ABILENE

The newest innovation of the United States Postal Service—area mail processing—is to be installed at the Abilene, Texas Post Office and Sectional Center Facility July 6.

Announcement of this new mail plan was made by Postmaster, Clyde E. Grant.

"The program is intended to speed the ultimate delivery of the mail and to gain maximum efficiency and economy through full utilization of Abilene's modern and recently mechanized post office," Mr. Grant said.

The Abilene Post Office, under Grant, is a Sectional Center Facility which, under the new Area Mail Process program, will process the mail for 17 smaller associate post offices in the Abilene area.

The Abilene Post Office has an electronic cancelling machine equipped with an edger-stacking machine capable of facing and cancelling a total of 30,000 letters per hour.

The Abilene Post Office is being considered for a letter sorting machine which would be installed when determination is made that such an investment would be profitable, Mr. Grant explained.

Area Mail Processing is a plan whereby virtually all mail originating within a Sectional Center Facility area, including the associate offices of the Sectional Center, will be consolidated at the SCF for complete preparation and processing for outgoing dispatch.

Outgoing mail originating from all selected First Class associate offices of the Abilene Sectional Center will be collected in the respective offices.

From there the mail will be dispatched directly to the Sectional Center for culling, facing, cancelling and distribution preparatory to dispatch, Grant explained.

Small Business Administration To Host Meeting July 1st At WF

The Small Business Administration will host a July 1 meeting in Wichita Falls to explain the agency's drought disaster loan program for small businesses.

Fred S. Neumann, SBA Regional Director in Dallas, said the session—scheduled for 2:30 p. m., Thursday, July 1, in the auditorium of the Fedway Department Store in Wichita Falls—will "bring to the local level the agency's economic injury disaster loan (EIDL) program to assist small business firms suffering substantial economic injury because of the effects of the prolonged drought on farmers in sections of Texas and Oklahoma."

Some 28 Texas and Oklahoma counties within the Wichita Falls trade area will be included in the meeting. The Texas counties are Arch-

The Oklahoma counties are Comanche, Cotton, Greer, Harmon, Jackson, Jefferson, Kiowa, Stephens and Tillman. Neumann said the SBA can provide EIDL assistance up to a maximum of \$500,000 to small firms to provide working capital or to pay debts, except bank loans, which the borrower would have been able to meet had he not lost income because of the drought.

VA Questions And Answers

EDITOR'S NOTE: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative

queries. Additional information may be obtained at any VA office.

Q—I'm a veteran and would like to purchase a mobile home. If I obtain a guaranteed mobile home loan through VA, can I later get a regular GI home loan?

A—Yes, after the mobile home has been paid in full, you

fashion points Suiting The Issue

WHEN SPRING COMES IN LIKE A LION, suit the issue with two looks that answer the what-to-wear question. One idea: the pant-and-coat suit that are having a love affair this year. Long hair pants are worn under a long-length coat — both herring-boned within an inch of their lives. Shaped softly in lightweight wool, it's a fit that's as warm as a hug. Coat details to watch: set-in sleeves, slightly puffed, deep-notched collar and a wide leather belt holding the whole look together. THE WELL-SUITED WOMAN wears the long silhouette this year. A below-the-knee length skirt zips up the front . . . unzips to show a

will then have full home loan guaranty entitlement available for a conventionally constructed house.

Q—I'm a veteran of World War II and will soon reach my 65th birthday. Will I be entitled to a Veterans Administration

pension?

A—You may be eligible for a pension from the VA at age 65 if your income from all sources does not exceed \$2,300 a year if you are single, or \$3,500 a year if you have one or more dependents. A wife's income and the size of her estate are factors which must also be considered. For further information and assistance, check with your nearest VA office or your local Veterans County Service Officer.

Q—I know a veteran who served on active duty during WWI and WWII. Will a burial allowance of \$250 be paid for each period of service?

A—No. A single payment, not to exceed \$250, is payable toward the veteran's burial expenses.

Q—A friend gets maximum disability compensation from the VA because of war injuries. He works for the state at a good salary, and sells insurance at night. A fellow employee has challenged his entitlement to disability payments. Is he entitled to them?

A—Yes, if he is receiving compensation for a service-connected disability. Outside income has no bearing whatever on this type of compensation. The law does not penalize a veteran who through special

Tax Questions And Answers

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q: If I made a mistake in my return and I haven't paid enough tax, how long does the IRS have to make the adjustment or correction?

A: Generally, the IRS can assess additional taxes up to three years from the due date of the return or the date of filing, whichever is later. If 15% or more of the gross income was omitted, the time limit is six years. In the case of fraud or failure to file a return, there is no time limit for assessment.

Q: My employer withholds tax from my regular salary. But I occasionally do outside work which is not subject to withholding. Must I file a Declaration of Estimated Tax?

A: You must file a Declaration of Estimated Tax if your estimated tax due at the time your return is filed is \$40 or more and if your estimated gross income for 1971 includes more than \$200 in income not subject to withholding. However, instead of filing a declaration you may increase with holding by dropping exemptions being claimed or having additional sums withheld.

LACK OF NITROGEN OR IRON CAN YELLOW LAWNS

A deficiency of nitrogen can cause the grass in a lawn to take on a general yellowing appearance, says Al Novosad, Extension pasture and turf specialist. Iron deficiency is characterized by yellow bleached spots in turf.

Spray applications of iron effort overcomes his handicap. The fellow employee must have confused compensation with pension—the latter being based on permanent and total disability, but not service-connected. Pension—not compensation—is affected by outside income.

Q—I am a Vietnam veteran recently discharged due to a service-connected disability. Due to an accident, I am totally disabled. Can I apply for a VA pension?

A—Yes. Veterans of the Vietnam Era with 90 or more days of service, or those separated from such service for a service-connected disability, who become permanently and totally disabled from reasons not traceable to service, may be eligible for VA's nonservice-connected disability pension.

FOLLOW INSTRUCTIONS FOR AUTOMATIC DRYERS

Homemakers can usually get better results from their automatic clothes dryers if they simply follow the care and use instructions that come with the machines, explains Mrs. Barbara Elliott, county home demonstration agent.

To assure good drying results, Mrs. Elliott offers some reminders.

Use recommended drying heats and time settings for the various fabrics to get best results.

Overloading can hamper effective drying. Items should have space to tumble freely to achieve wrinkle-free results.

Wrinkling can also be prevented by removing clothes from the dryer as soon as they dry. This is especially important if you want to avoid touch-up ironing for durable-press articles.

Avoid overdrying. Wrinkles and harshness can result.

To determine whether an article is dry, stop the machine and remove the garment to check for dampness. You must remove the garment completely from the dryer or you will be influenced by the moisture from the dryer.

If durable press garments are allowed to cool in the dryer, wrinkles will set. They can be removed, however, by dampening or sprinkling the article, then tumbling it briefly in a heated dryer.

Turn pill-prone garments inside out to dry. Pilling is the formation of small balls of fibers on the surface of the garment.

chelates or iron sulfate are corrective suggestions for the iron deficiencies. Early spring and fall applications of a balanced fertilizer plus ammonium nitrate or ammonium sulfate applications at 4 to 6 week intervals during the growing season should correct nitrogen deficiencies, says Novosad.

TAX MAN SAM SEZ
 Most of the sweet young brides that are taking the fatal step this June won't take this piece of advice. However, we'll tell them anyway.
 If you are getting married during this year, you have to get your name changed on your Social Security card. If you don't get your name changed, come tax refund time next January or February, the IRS computer won't know who Mrs. John Doe is. It will question why Jane Smith's social security number got on a tax return for John and Jane Doe.
 Yes, girls, we understand that you have lots of things to do, but you will be glad if you go ahead and change your Social Security number now.
 \$105 million were reported for the 5 month period of 1971, compared to \$101 million exchanged during 1970.

manager." The young man liked it. Immediately the morale of the organization went up. The staff came earlier and worked with a better will, simple as were the things the "big boss" had done.

In Prattler's estimation it is just human nature for everyone to want a little pat on the back now and then. The old saying goes... "You can lead a horse to water, but you can't make him drink."

letters, but such a big message. If we would set an example in our daily thinking and action, if we would govern our lives more by the Golden Rule... if we, in other words, would practice what we preach" this would be a much, much better world. No, I am not trying to preach a sermon... but just thinking how careless sometimes we are in the example we set.

By example... just nine little

Life is a ladder. Some mistake it for a stairway and try to run up it two or three steps at a time; but they usually take a spill, landing at the bottom a little worse for wear, and perhaps a little wiser. Life is a ladder... and you take a ladder one rung at a time. And always between steps there is the reaching up... it is the reaching that makes the progress. You stand firmly upon the rung where your feet have been planted today; then you stretch out the hand and reach for the thing above you. Your hand closes upon it, and the very force of your grip draws you up to attain it. The reaching is important, but the hold is important too. If you desire to rise enough not to let go, you will rise.

It is easier to climb a ladder than to descend one, for the thing ahead is seen more readily than the thing behind. It is wise to keep on climbing... going back often means disaster. And standing still sometimes means disaster too.

Did you ever stand on a ladder? Presently the world seems reeling about you, your foothold such a slender thing, and suddenly you seem to be falling. And sometimes you do fall... just because you were unwise enough to stop climbing.

LETTERS TO THE EDITOR

Mr. Al Hinds
Haskell Free Press
Haskell, Texas
Dear Al:

Glad to read that you're up and about again after your surgery. Missed your "Prattler" section while you were away.

Attached is a news item regarding Thornton's graduation from the Academy. You should have that last picture of him still on file there.

He had to report to Stanford this week so as soon as we receive his new mailing address we will send it to you so you can send his copies of the Free Press to California instead of his old address at the Academy. In the meantime, just hold his copies there instead of mailing them until we send you his new mailing address.

We were through there on Wednesday, June 2nd, for about a couple of hours on our way to Colorado for the June Week activities and graduation. Was glad to see that you all had just received some rain and hope you get more. We saw quite a bit of rain on our trip, but returned home here this week only to find that we hadn't received a drop.

As you know we are very proud of Thornton's accomplishments, but it is hard to realize that these past four years have passed so quickly.

Best regards,
Lorna Gilmore

SAGERTON NEWS

Mrs. DELBERT LEFEVRE

There will be a cemetery work-day at the Fairview Cemetery north of Sagerton next Saturday morning, June 26th. Everyone that has relatives there and those that remember what the old-timers did to settle this part of the country should come and help, because there are some buried there who have no close relatives living near here. She asked, "What kind of package would you like to be?" One that is frayed at the corners, one that is neat with a simple decoration, or one that is tied with ribbon and a pretty bow? This was in preparation for their dress revue where they will model the garments they made on June 29th in the home of Mrs. Harvie Jordan, at 2:00 p. m., and on July 20 at the Haskell Elementary School for the County Dress Revue.
