**JACKIE YOUNG** puts the ball in the air during the Rotan game last Friday. After completion of the first round of district play, Young had started in all five games and had a 12.8 points per game average.

## First Round Completed

Tuesday night games in Ham- lin ended the first round of district play. The second round, which begins Friday in Anson, will end Feb. 4, after which the winners of the two rounds will meet to decide the district winner.

Friday night the boys defeat- ed the Rotan Yellowhammers by a score of 54-50 led by Joe Kretschmer with 16. Jackie Young had 9, Tim Pringle had 6 and Bobby Cobb, Jim Mick- ler and Frank Jirek all had 5.

It was a close game through- out and neither team ever led by much margin.

The Maidens also won their game by a score of 44-14. Mary Elliott led the winners with 17, followed by Margie Kretsch- mer with 10, Glenda Chapman with 8, Marsha Berry with 6 and Terry Walton with 3.

The B team also won, mak-

ing it a clean sweep for the night. The 63-52 win was com- prised of 16 from Randy Ivy 10 from Kippy Grand, and 11 from James McCoy.

Tuesday night in Hamlin the Indians and Maidens were de- feated. The Indians fell by a score of 62-56 led by Young and Kretschmer with 13 each. Prin- gle had 11, Robin Colbert had 4, Joe Mickler, Cobb and Jim Mickler all finished with 2.

The Maidens fell by one point, 45-44. One point during the second quarter and 15 less free throws were major causes of the defeat. For the Maidens, Elliott had 22, Pam Colbert and Chapman both had 9 and Wal- ton had 4.

The B team scored the only win posting a 54-53 win over the Hamlin team. Ivy led the B team with 19, followed by 16 by Grand and 11 by McCoy.

## Suit Filed Against WTU

Hearing on a suit filed by a group of Haskell County farm- ers and the County of Haskell started fast and lasted about 20 minutes in 29th District Court with Judge Ben Charles Chapman presiding, last Tues- day morning.

The suit was filed against West Texas Utilities Co. for what the farmers say is the un- necessary building of an elec- tric line. County officials be- lieve the utility poles will in- terfere with road maintenance.

Just prior to court proceed- ings, defendants (WTU) filed a 'plea of privilege', a legal procedure which would move court proceedings to Taylor County. 'Plea of privilege' allows the defendant to move proceedings to his county of residence. WTU has general offices in Abilene

and are expected to try to have the suit moved to Abilene.

Because the defendants filed their plea of privilege only 30 minutes prior to the scheduled starting of the hearing, Dis- trict Attorney Royce Adkins asked for and received a postpone- ment to study the plea.

Monday, January 24, the court will hear the plea of privilege at 10:00 a. m. and if it is over ruled, the hearing

**GAIL BARNETT AND CLINT MELTON** were chosen to be the all- regional band in Iowa Park January 7. The following day the band practiced and that night presented a concert. Other Has- kell students competing were Helen Mary Cadenhead and Cheryl Bennett.

## Livestock Show Plans Finalized

Plans have been finalized for this year's edition of the Has- kell Livestock Show which is slated for this Saturday. The full day of events will begin at 9:00 a. m. with the judging of poultry and rabbits and will be climaxed with the sale held at Haskell Livestock Auction at about 4:00 p. m.

The membership drive is well underway and any person in- terested in joining is asked to contact Max Stapleton, C. A. Thomas Jr., W. R. Hager, R. B. Townsend, Wallace Allison, Ivan Rowan, Bill Comedy or Duane Gilly for information.

Memberships are the only finances received by the stock show and this money is used for upkeep on the County Barn, to purchase needed supplies and pay premiums to the show. All membership money is used for the benefit of the county 4-H and FFA members who participate in the show.

## Record Number Of Shares Vote

A record number of shares were represented at the annual stockholders meeting of the Haskell National Bank an- nounced Royce L. Williams, Vice-President.

13,729 shares were represent- ed in person and 4,294 shares were represented by proxy, making a total of 18,023 shares. This is just 1,977 shares short of the 20,000 shares of stock in the bank.

In a reorganizing meeting the following directors were elect- ed: Dr. T. W. Williams, Chair- man; R. W. Herren, Vice Chair- man; Royce Adkins, R. C. Couch, H. T. Fillingim, Abe Turner and Royce L. Williams.

Officers elected by the stock- holders include Abe Turner, President; H. T. Fillingim, Sr., Vice-President; Royce L. Wil- liams, Vice-President; David Conner, Cashier; Carolyn Ever- ertt, Assistant Cashier, and Pauline Couch, Assistant Cash- ier.

### WEATHER

Official weather observer Sam Herren recorded the minimum reading this week at 8 degrees and a high of 77 degrees.

**JOE MICKLER** and Grand Champion Steer of the 1971 Haskell County Junior Livestock Show.

Show animals from all over Haskell County will be featur- ed which represent many hours of hard work done by the 4-H and FFA members participating.

Everyone is urged to attend

the judging and the sale at Has- kell Livestock Auction to sup- port the 4-H and FFA mem- bers.

The livestock and prize money are the only means of

showing a profit on their proj- ect records which are kept as a part of the project. At the sale, livestock buyers buy the 'floor' which means they will pay a given price for each animal. When the animal goes through the sale ring, individ- uals may bid on the animal which is sold to the highest bid- der. The bidder then has the choice of keeping the animal and paying the full price per pound that he bid or sending the animal to the 'floor' and paying only the difference of the floor price and the purchase price. By buying an animal and letting it go to the floor, the purchaser is donating money to the individual who showed the animal.

Livestock prices were high when most of these animals were purchased and without the support of everyone, most of them will lose money on their project, which is the only compensation they receive if their animal does not place in the top of its class.

## Hospital Anesthetist Named

Haskell Memorial Hospital Administrator Alfred Turnbow has announced the employ- ment of Gerald Owen as anesthetist effective March 1. Turnbow said, "The Hospital Board and I were impressed with Owen and are looking forward to his arrival."

Haskell doctors, members of the Hospital Board and Turn- bow all feel that Haskell is for- tunate to find such a person to fill the position. Owen and his wife, Pat, applied for the same position in Anson which was al- ready filled, and were sent to

**GERALD OWEN** Anesthetist

Mrs. Owens grandfather was born in Haskell where he was employed by his father, Tom McDaniel, who owned a cotton gin.

In a letter to Turnbow, Owen stated, "I look forward to play- ing golf and some hunting. My wife enjoys sewing and needle work. We are looking forward to our move to Texas." They have certainly picked the right place.

The Chamber of Commerce and Hospital Board are cur- rently looking for a three bed- room house for the couple.

## New Trainee In County HD Office

Miss Vicki Cavender, a 1971 graduate of North Texas State University, is currently train- ing in the Haskell County Ex- tension Office, according to Mrs. Barbara Elliott, County Home Demonstration Agent.

Miss Cavender, who is from Dallas, will be in the county for three months training in County Extension Work. Upon completion of her training she will assume the position of Young County Home Demon- stration Agent.

Miss Cavender is a 1968 gradu- ate of Brian Adams High School in Dallas. She holds a Bachelor of Science Degree in Vocational Home Economics from North Texas State Univer- sity.

Her parents are Mr. and Mrs. Herbert Cavender of Austin, Texas.

Haskell, Owen said that he and his wife had decided to raise a family in a small town in this part of Texas and were very much impressed with Haskell.

Owen was born in Michigan and raised in Tennessee. After graduation from college he en- tered the Air Force and was stationed at Wichita Falls and San Antonio. He is currently enrolled at Memorial Hospital School of Anesthesia, Panama City, Florida.

Mrs. Owen was born in Cali- fornia and graduated from Aus- tin College in Sherman. She worked for the American Red Cross at Lackland AFB where the couple met and married.

PROCLAMATION

Mayor H. V. Woolard today proclaimed January 16-22 as Jaycee Week in Haskell and asked local organizations to cooperate in the observance.

He said the purpose of the week is to focus attention on young men and the work they are doing, and emphasize that the Haskell Jaycees have done an outstanding job in the fields of community development.

Prior to the Jaycee Week observance here, the U. S. Jaycees will recognize America's Ten Outstanding Young Men in 1971 in Indianapolis, Indiana.

The week celebrates the founding of the Jaycees in 1915, when Henry Giessenbier saw a need for a young man's civic group and organized the first chapter in St. Louis. The movement spread so fast that in 1920, the U. S. Junior Chamber of Commerce was formed with 24 cities represented. The Haskell Jaycees were formed in 1958. The name of the national organization was changed from U. S. Junior Chamber of Commerce to the U. S. Jaycees in 1965 at the national convention of the young men's civic group.

Built on solid foundation of creating opportunities for leadership training through community betterment projects, the Jaycees today, over 300,000 strong, are active in 6,400 communities in the United States. The organization's headquarters is located in Tulsa, Oklahoma.

Haskell High Happenings

BY HENERITA HENDERSON

With mid-term tests Thursday and Friday, there wasn't very much fooling around for the students at Haskell High last week. As a result, school was just a little bit on the quiet side, but there were a few things that were just too funny to forget.

Just before third period on Thursday, there were three Junior girls sitting in front of their lockers with the heads smothered in American Literature books. It wouldn't take too long to guess who they are. Don't you all know that you are supposed to study the night before a test?

NEWS FLASH!! There were a few that passed the Chemistry mid-term exam!

Friday afternoon, the MYF gave Karen Felker a going-away party at Mrs. Pat Henry's house and Mr. Henry must have set a record on eating sandwiches. Everyone lost count at twenty! We were really sorry to see Karen leave the reservation. We want to wish her all the luck in Gainesville, and we also hope she will keep in touch with us every now and then.

Tickets will soon be on sale for the Senior play, which will be held on Thursday, Jan. 27. Be sure to plan to attend.

Karen Toliver, what did you say the other day in homemaking about an octopus?

Bobby and Jackie, we know two girls who would like to know the real truth about Sunday.

Question of the week: What's wrong with Junior girls dating Sophomore boys?

Joe D., did you ever find that girl you were looking for at the Merkel game?

Haskell Lions Hear Headstream

Haskell Lions Club met in regular luncheon session Tuesday noon at Haskell Steak House with Lion Bud Pogue, president, presiding for the meeting.

Dr. Troy Culpepper gave the invocation and Charles Thornhill led the singing, accompanied by Ellen Walling on the piano.

Lion Garth Garrett introduced Aubrey Headstream, who presented a very informative program on the Haskell Mental Health Clinic. Headstream gave details about the drug program offered at the Vernon Center and locally at the Haskell Clinic.

Headstream also announced that Pattie Couch, daughter of Mrs. Jessie Couch and niece of Garth Garrett, has accepted a position as a drug counselor at the Vernon Center. Pattie and her two daughters, Leah, 6, and Sonya, 2, have already moved to Vernon and Pattie started to work last Tuesday. They live at 1819 Mesquite.

Mrs. Bud Herren was introduced as the only guest.

The club discussed sending a handicapped child to Kerrville. Anyone with knowledge of such a child has been asked to contact Oscar Tooley.

J. R. Harless

Word was received in Haskell this week of the death of J. R. Harless, a former Haskell resident, of Visalia, Calif. He died January 17 in California, and funeral services are being held today.

He was a carpenter and brick layer, and was the brother-in-law of Eula Crow of Haskell.

TAX SEASON

Income Tax season is upon us and the folks at H&R Block are well into the groove of filing out tax returns. Elsewhere in this issue an advertisement appears with information about the company.

Market Buyers Are Appreciated

Several Haskell merchants and employees are in Dallas at market now or will be going soon. In years past when merchants went to market in January to make summer selections it seemed ironic to think about buying short sleeve shirts and bathing suits but the mild weather witnessed this winter changes irony to accepted fact.

Merchants make selections while at market that dictate styles of the next season and a bad decision on the part of the merchant not only hurts business but is seen as bad judgment on the part of the businessman.

Throughout the year Haskell shoppers have available from local stores the most stylish and best made merchandise available anywhere.

Merchants in Dallas this week include Viars Felker of Dad 'n' Lad, Bill Lane of Lane Apparel, Raja Hassen of Hassen's, and Gene Long of Boggs & Johnson.

Merchants going to market Jan. 22 are Edith Wheatley and Mrs. Jimmie Darden of C&B Store, Mrs. Viars Felker and Mrs. R. A. Lane of Lane-Felker, Mrs. S. Hassen of Hassen's, Mrs. Stanley Furrh and Mrs. Opal Adkins of Personality Shoppe, Mrs. Hardin Cofield and Mrs. Bobby Rogers of Cofield's.

While shopping in these stores, tell them that you appreciate their judgment.

County Bale Count Soars Over 25,000

The cotton harvest finally has gotten into full swing, with county gins working around the clock to keep the yard clear enough of trailers for more to move in.

Good weather the past two weeks has made the total bale count soar to 25,378 with many more bales still on the yards, and still in the fields.

The county ginning report from the office of County Agent Max Stapleton as of January 18 included the following bale count from all gins:

Haskell: Farmer's Co-op Gin, 1985 bales; Haskell Co-op Gin, 1486 bales; Dunean Gin Co., 1024.

Recheater: Paymaster Gin Co., 1081 bales; Reeves Gin Co., 710 bales; Farmer's Co-op 4065.

O'Brien Co-op, 4275.

Sagerton Gin, 1200.

Rule: Rule Co-op Gin, 3840; Lisle Gin, 1910.

Weinert: Paymaster Gin, 1837; Weinert Gin Co., 1935.

Zoning Group Holds Hearing

A called meeting of the Planning and Zoning Committee found four residents on hand Monday night to discuss the rezoning of blocks O and P of the Johnson Addition and C and D of the Carney Addition.

Lou Allie Tibbitts, Cynthia Ann Foster, Emma Poeschel and Opal Dunnam were four of the fifteen people notified who appeared at the hearing. They registered no complaint to the proposed rezoning which now will be decided on by the City Council.

The Zoning Committee is comprised of Elbert Johnson, Bill Comedy and Bob Philpot.

Sonny Irving Fund Started

W. O. (Sonny) Irvin Jr., a lifetime resident of Haskell, is ill in Hendricks Hospital in Abilene. He has been there for the past two weeks, and before transferring to the Abilene hospital, was in Haskell Memorial Hospital for about one month.

He is an employee of Queen Roofing Company, and has been for about five years. A fund has been set up for him there, and persons wishing to contribute to it may do so, or may call Queen Roofing to notify them of their desire.

The Haskell Jaycees have also started a fund which they began with a \$100.00 donation. Persons may also contact any member of the Jaycees with their contribution.

Persons wishing to send him a card or write, may address correspondence to him at Hendrick Hospital, Room 345, Abilene, Texas.

The minutes of the preceding meetings were read and approved and the Commissioners voted to pay all approved bills.

The Commissioners voted unanimously to place all County officials on a salary basis for the year of 1972 and set salaries for the year. A schedule of salaries appears in the Commissioners Court Minutes in the Court House.

Lou Shelton as Deputy County Treasurer and approved bond.

The building between Jones Cox & Company and Dick's

Barber Shop will be home of City Cafe. The building is already remodelled and as soon as possible, they will re-open.

Cotton Cotton

(Cont. from Page 1) cere and grain has been bred into generations of strong, healthy women; their integrity handed down by men who's handshake was the deal; their knowledge life is as much as the boots and wear.

They are our salt of the earth. They will be show this weekend on their ranches.

We welcome them to shop during our big Dollar Day weekend. Our livestock has its own dimensions and progressions of all, we welcome neighbors... glad Throckmorton!

Legislative Outlook For 1972

The following is a review of some of the pending legislation of particular interest to Farmers Union.

STRATEGIC STORABLE COMMODITIES ACT (H.R. 1163). This would establish a national strategic reserve of wheat and feed grain and increase the price support loan on wheat and feed grains by 20 percent for the 1971 and 1972 crops. The House has passed the measure. Senate Agriculture Subcommittee unanimously reported the legislation just before the recess. Hearings by the full Agriculture Committee have not been set but action is expected on the bill shortly after Senate reconvenes on January 18.

AGRICULTURAL BARGAINING ACT (S. 726, H.R. 8886) AND AGRICULTURAL MARKETING ACT (S. 727, H.R. 8887). These bills provide for collective bargaining by farmers either through new legal channels patterned after the National Labor Relations Act or by tendering marketing orders to all commodities under the Agriculture Adjustment Act. The House Agriculture Committee held hearings September; no further action is scheduled at this time. The Senate Agriculture Committee has also held hearings but it is expected to wait until the House passes a bill before taking further action.

FEDERAL ENVIRONMENTAL PESTICIDE CONTROL ACT (H.R. 10729, S. 745). Under this legislation the Federal Environmental Protection Agency would classify and regulate the use of agricultural pesticides. The House has passed a pesticide control bill and the Senate has held hearings. A Senate Sub-committee will hold further hearings on the House-passed version of the bill.

THE HEALTH SECURITY ACT (S. 3, H.R. 22) would provide a comprehensive National Health Insurance Program. The House Ways and Means Committee held 5 weeks of hearings on National Health Insurance in October and November. The Committee is expected to report the bill to the full House early in the session—perhaps February or March. The Senate Finance Committee has held preliminary hearings. It will await further action in the House before taking the measure up again.

ECONOMIC OPPORTUNITY AMENDMENTS (S. 2007). Although President Nixon vetoed an OEO bill last session, Congress did extend existing OEO programs to June 30, 1972 through special legislation. A similar OEO bill, minus the controversial Child Development Program, will probably be reintroduced. The previous bill would have provided a new program of loans and grants to farm and non-farm rural cooperatives to replace the Rural Economic Opportunity Loan Program. The House Education and Labor Committee and the Senate Labor and Public Welfare Committee plan to take up new OEO legislation early in the year.

REORGANIZATION OF THE DEPARTMENT OF AGRICULTURE. President Nixon's withdrawal of his recommendation to abolish the Department of Agriculture has left the four reorganization measures somewhat of a state of limbo. It is expected that the Administration will submit new legislation on reorganizing the Department. The House Government Operations Committee has set tentative dates of January 26 and Feb. 7 and 8 for hearings on the bill to create the Department of Human Development. Some functions of the Agriculture Department would be transferred to such a new department.

REVENUE SHARING (H.R. 11950). A bill introduced by Rep. Willard Mills (Ark.) as an alternative to the Administration's Revenue Sharing bills would make available \$3.5 billion to local governments each year for 5 years. It also would provide \$1.8 billion to the states each year for 5 years. It includes incentives for the states to make better use of individual income taxes. The Mills' proposal will be the first of business for the House Ways and Means Committee when Congress reconvenes. Rep. Mills is Chairman of that Committee. The Senate will take no action until the House has passed a revenue sharing measure.

## Jr. Garden Club Notes Arbor Day

The Haskell Junior Garden Club met Tuesday, Jan. 11, at the Railroad Museum to observe Arbor Day.

Four East Texas pines, donated by Mr. and Mrs. Jodie Kennedy and a desert willow, donated by Mrs. O. E. Linton, were planted during the meeting.

Planting trees is a big step toward 'a cleaner, greener land', National Council theme. Since trees convert carbon dioxide to oxygen, filter odors from the air and release moisture, they are a great aid in fighting air pollution.

After the meeting, refreshments were served in the home of Mrs. E. L. Wyche to the following members: Sarah Cox, Edwyna Medford, Vickie New, Vickie Daniels, Leisha Solomon, Cynthia, Tamera and Jackie Scott.

A concept of gold instruction dealing with a careful analysis of the physical layout of the course itself and each individual hole is offered in a new booklet, "Guide to Strategic Golf."  
 Written by Phil Galvano, PGA, the guide maintains that careful planning of each shot in relation to the terrain can help both the beginner and the advanced golfer chop three or four strokes from his score.  
 The 30-page illustrated booklet emphasizes playing position, green strategy, how to map out each hole on the course you play regularly and how to approach a new course.  
 Copies of the booklet, at no charge, are available by writing to Seagrams, Dept. A. 375 Park Avenue, New York, N. Y. 10022.

MILDRED BENNETT Administrator

### Leisure Lodge Administrator

Clearview Lodge, a Leisure Lodge, Inc. owned Nursing Home, is proud to have as its new administrator, Mrs. Mildred Bennett.

Mrs. Bennett came here from Snyder, Texas, where she had been assistant administrator for the Snyder Hospital-Nursing Home for 2 1/2 years. Prior to her association with the nursing home in Snyder, she spent one year as director and coordinator for a special volunteer grant for the aged program, granted to the Big Spring State Hospital, through the Governor's Committee on Aging. This involved working with the County Judges, Commissioners, Doctors, and city officials of five counties to educate and determine the needs of the geriatric populations. Through this program she was able to work with both nursing homes and the state hospital to achieve the program's goals.

She has had also some six years experience as assistant business manager and medical records librarian in hospitals at Lexington, Ky., and Corpus Christi, Texas.

Mrs. Bennett received her provisional nursing home administrator license July 1, 1970, when a Senate bill became effective which required that all managers and administrators be licensed. At the completion of 200 hours courses in Nursing

Home Administration, taken at Cisco Jr. College, she took and passed a two day state board examination held in Dallas on July 30 and 31, 1971, which enabled her to receive her permanent Nursing Home Administrator license.

Mrs. Bennett has worked closely with the senior citizens for years, and their care and well being has always been her primary interest.

She and her two daughters, Cheryl, a junior student at Haskell High, and Elizabeth, attending TWU in Denton, moved to Haskell in late September and now reside at 506 S. Ave. E, where they are enjoying life in Haskell 100 percent.

 Jan. 1, 1913—U. S. parcel post service began. Farmers Union had sought this addition to mail service since 1906. In 1910, NFU presented petitions and resolutions to Congress representing 3 million farmers in 39 states.

### CONSERVATION VIEW POINTS

J. C. YEARY, JR.  
 District Conservationist

Between now and the beginning of the growing season for native grasses, about the first of April, livestock farmers and ranchers need to take a close look at the available forage left on their native pastures. Proper use of these areas of

Proper use of native pastures at this time of year consists of leaving sufficient plant cover to protect the plant roots from freezing and leaving enough plant cover to prevent the erosion of soil by water and wind.

Proper use is generally based on a key site within the grazing unit. The key site is the site that receives a significant amount of grazing use and one that produces the kind of forage taken as first choice by livestock. It makes up a large enough portion of the pasture to affect the management of the pasture. In many instances, the

key site will be the entire acreage within the pasture.

Proper use is also based upon a key species of grass. This key grass is the species that receives the most grazing by choice of the grazing animals, and therefore will be overused first. When a pasture is properly used, no other important species will be overused.

Proper use results, finally, in having more grass for use the next grazing period. When grass is properly used, it will produce more tonnage of desirable forage per acre.

ed in the U. S. a century ago in Nebraska on April 10, 1872.

Gov. Smith's Arbor Day message emphasized the importance of trees as an essential raw material in Texas' growth and development.

"Trees are a renewable renewable resource, Gov. Smith's message reads, which provide Texans many products and services when properly managed. They are not only refresh-

ing objects of beauty but they help prevent soil erosion by wind and water, provide food and cover for wildlife, help purify the air and produce life-sustaining oxygen.

"Trees," Smith's proclamation continues, "need to be protected from their natural enemies—forest fires, diseases and insects and, under forest conditions, need to be managed so as to produce the maximum wood volume to meet the growing needs of an increasing population."

Witnesses at the signing of

Gov. Smith's proclamation were Nolan Atchley, (left) president of the Texas Forestry Assn., Livingston, and Texas' state forester, Paul R. Kramer, director of the Texas Forest Service, College Station.

"Your Federal Income Tax" was written by the Internal Revenue Service and contains many examples to illustrate how the tax law applies to actual situations. A special feature of the booklet is the sample, filled-in return, Form 1040, keyed to pages where explanations can be found for each entry on the return.

The 160-page booklet will be on sale until April 15th and costs 75 cents a copy.

"By selling this booklet at postal facilities in the Haskell area we are offering a convenient service to our customers," Postmaster Rosser said. "We are participating in a nationwide program to make the tax booklet available to the public in 15,000 postal facilities."

According to the USDA's Consumer and Marketing Service, 9,461 samples were classed this week bringing the season's total to 29,931.

Quality statistics for the week ended Jan. 14, 1972, show 12% of the cotton was classed in the white grades, unchanged from the previous week. 10% Middling Light Spotted was up 4 percentage points over last week. 38% Strict Low Middling

Light Spotted, 26% Low Middling Light Spotted, and 41% in the Spotted grades were about the same as last week. 45% of the cotton classed was reduced in grade due to bark or grass compared to 38% last week. ### 4 Haskell Women To Attend State Convention

"Ten and Then..." "Ten" signifying ten years of work and growth, and "Then" heralding achievements to come, is the theme of the 1972 convention of the State Association of Young Homemakers of Texas, January 21-22, in the St. Anthony Hotel, San Antonio.

Members of the Haskell Chapter of Young Homemakers of Texas who will be attending

the meeting are: Mrs. Mary E. McCollum, Mrs. Edie Connel, Mrs. Grace Hannsz, and Mrs. Janice Phillips.

The Rev. Mouzon Biggs, Jr., dynamic associate pastor-administrator of First Methodist Church, Houston, will be main speaker for the opening session Friday morning. Rev. Biggs' topic will center on the Christian family and home life.

The annual Young Farmers-Young Homemakers Awards Luncheon will be held at noon Friday at San Antonio Convention Center.

Entertainment feature will be El Curro, the well-known flamenco guitarist. He will be joined by members of his fam-

ily in a program of guitar music, dancing, and singing.

Young Homemakers of Texas Achievement Awards will be presented during the luncheon program. The Outstanding Chapter, the Outstanding New Chapter, and the State Little Sister of YHT will be recognized.

The Outstanding Chapter and New Chapter awards are presented annually to chapters judged to have contributed most toward the growth of individual members and the community.

The State Little Sister Award is given to a Future Homemaker of America who has been outstanding as a member of her family, school, church, and

community, and who plans to become a home economics teacher.

Highlighting the Friday afternoon general session will be a look at the past ten years in Young Homemakers with former state presidents and state officers taking part in the program. A gala "fiesta" tenth birthday celebration is planned for Friday night.

This year's convention will emphasize developments from 1961 to the present time. Young Homemakers of Texas, organized in 1961 with two chapters, is a state association of young women not over 35 years of age who are interested in improving their knowledge and skills related to homemaking. The association now has approximately 229 chapters and 3,881 members. Homemaking Education, Texas Education Agency, sponsors the organization. Homemaking teachers serve as chapter advisors.

### Eggs No Threat To Good Health

Does eating too many eggs really cause high cholesterol levels?

Several recent reports have cast serious doubt on this idea, said Dr. David B. Mellor, Extension poultry marketing specialist at Texas A&M University.

"Cholesterol is a normal body compound produced in the liver and found in all body cells," Dr. Mellor said. "It's especially abundant in brain and nerve tissues. The normal person forms cholesterol constantly, with little effect from the diet."

In fact, in Framingham, Mass., a recent study involving heart disease and diet caused researchers to conclude that diet had no effect on the incidence of heart disease.

Another recent development indicates that sugar, not cholesterol, may be involved in atherosclerosis—a form of heart disease, Mellor reported.

New York internist and diet specialist Dr. Robert C. Atkins stated recently that the volume of sugar and other carbohydrates in Americans' diets is doing the most heart damage.

The internist said that 63 percent of his patients show a reduction in their cholesterol level, even though there's no attempt to limit their fat or egg intake.

"The real 'cause' of heart disease is not known," Dr. Mellor said. "Several factors besides diet play important roles. Certain populations are more susceptible than others. Some families have a genetic trait which causes abnormally high cholesterol levels. Statistics also indicate that men are more susceptible to atherosclerosis than women."

Mellor asserted that eggs do contain a relatively high level of cholesterol. "However, a normal healthy person may produce six to eight times more cholesterol each day than the amount contained in an egg. So it doesn't seem logical to remove eggs from the diet in the light of present knowledge. The egg is one of the best and most economical sources of protein which our bodies need daily."

### Cost Of Words To Rise Again

New long distance telephone rates postponed by the wage-price freeze went into effect on Wednesday (Dec. 29) after approval by the Price Commission, according to L. L. Porter, traffic director of General Telephone Company of the Southwest.

Porter said the new rates which benefit the customer who dials his own long distance calls within Texas and takes advantage of special calling periods were originally scheduled to become effective September 1. The changes were delayed as a result of the wage-price freeze because the lower dial-it-yourself rates were coupled with higher rates for operator assisted calls such as person-to-person.

"The change in rates brings customer dialed station-to-station calls within the state in line with already established lower dial-it-yourself rates and calling periods for interstate calls," Porter explained.

He emphasizes that the new lower DDD rates also apply to customers in towns where DDD is not yet available.

Charges for operator handled calls are higher under the new rates.

Other changes include new rate periods for day, evening, night and weekend calls within the state which are the same as those now in effect for calls going outside Texas, and addition of Labor Day and July 4 to the reduced rate schedule during holiday periods.

Also a one-minute period between 11 p.m. has been established during other periods for a three-minute period as has been the case with state calls.
