SYMPHONY CLUB ENTERTAINMENT

The Symphony Club, is composed of some of the talented wives and daughters of Haskell. They have announced an entertainment they propose to offer the Haskell public, and we wish to say that they are going to give something in the way of music, in choruses, solos, duets and quartets, that will find a response in the heart and soul of every lover of music. The repertoire of this club is replete with both classical and popular selections. The lovers of the classics will have a treat, and the lovers of the popular sentimental songs will have their very souls stirred and made to vibrate in delightful waves, as the trained voices, with instrumental accompaniment, sweetly render the selections. It is going to be the topic of conversation. If you miss it, you will regret it, when you meet your friends that did attend, and you hear what they have to say of it.

The date of this entertainment is next Friday, May 21st. We understand that in addition to the musical program a one-act playlet will be rendered. The ladies have been rehearsing the program almost daily for the past two weeks or more, and each is well-versed in her part.

AN ADDRESS TO PEOPLE OF TEXAS

TO THE PEOPLE OF TEXAS:

So many inquiries have come to me with reference to the attempt now being made to change the insurance laws of Texas that I have concluded to make a public declaration of my position on this question. The following is a letter recently written to one of my enquirers, which fully sets forth my views on this subject:

Austin, April 26, 1915.

Mr. T. J. Mosley,
Georgetown, Texas.

Dear Sir:—

I am in receipt of yours of April the 24th, asking me to oppose the proposed amendments to the Robertson Law. I, as a member of the Lower House in 1907, wrote the Committee report recommending the passage of the Robertson Law. This bill was amended in 1909 by a vote of 118 to 1 in the House, and 23 to 4 in the Senate. This Act of 1909 is the present Robertson Law. It is one of the best pieces of legislation on our statute books and should not be changed.

In 1907 the big insurance companies, which afterwards left the State, had before the Legislature the most insolent, arrogant, brazen, impudent, powerful and insulting lobby fighting this bill that ever assembled in the Capitol of Texas. They outraged the decency of that legislative body and defiantly declared and proclaimed that if the State of Texas passed a law, which she had a right to do, and which our Legislature thought she ought to do, that they would leave the State.

They never questioned the power of the State to pass such a law. They admitted, and have by their failure to attack the provisions of this Act in the courts continued to admit, that it was and is a legitimate exercise of the police power of the State, which is the very essence of sovereignty.

When the law was passed they left the State, but from that good hour until this they have persistently and assiduously sought to return to Texas, but always at the sacrifice of her honor and dignity, and at the expense of her people. They have continually and constantly retained their lawyers in Texas, who are the same lawyers who represented them when they persistently and with such brutal effrontery declared that they would leave the State. They have never ceased for a minute in their efforts to return to Texas, but they have never expressed the purpose nor the desire to return here "according to law." They have spent enough money trying to get back into Texas by destroying our insurance laws to have enabled them to have complied with those laws. They have, however, learned that the people of Texas cannot be bullied or brow beaten by a lot of big financiers; notwithstanding that they have heretofore contributed millions of dollars to the wealth of those financiers. Realizing this, they have abandoned their old spirit of braggadocio, and are seeking in covert and insidious ways to undermine and destroy this magnificent piece of legislation. They have sowed this State down with fallacious arguments, fabricated statistics, improper premises and erroneous conclusions, all designed and purposed to bring about their own re-entry into Texas at the expense of our

pride, our honor, our dignity and our financial welfare. They have scattered all over this State their "opinion builders," scouts, emissaries and dark-lantern men with a view of insidiously coercing the repeal of this law.

There has never been a demand from any source to repeal this law that did not have its proximate or remote origin with these companies. They have succeeded in convincing many good men that this law should be repealed. The author of the Gibson Bill, in my judgment, is one of the best men in the public life of this State. He is as honest as Paul, and therein lies the danger. The fact is Senator Gibson has approached this law from a very erroneous viewpoint, and those who honestly agree with him are considering the law from an angle that necessarily involves dangerous and unsound conclusions.

The Robertson Law is an Insurance Law and not a "Money Changers' Act." Considered as an Insurance Law, involving safe and economic insurance with the incidental right of the State to collect a reasonable revenue therefrom, it is unassailable. The purpose of the statute is to secure to the policyholder safe and economic insurance, and the only incidental purpose other than this that can be considered under the police power is the right of the State to assess and collect taxes.

The cost of insurance is the premium paid by the policyholder plus the earning on the reserve properly invested by the

Calomel Dynamites A Sluggish Liver

Crashes into sour bile, making you sick and you lose a day's work

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and it doesn't start your liver and straighten you up better than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

Federated Clubs

The delegates from Haskell to the District Meeting of the Federated Clubs, held at Quanah last week, made the following report which was published in the Quanah Tribune Chief:

Madam President, Ladies of the First District:

The Magazine Club of Haskell begs leave to submit the following report:

We have a membership of thirty active and ten associate members and as others are wanting to come in, the membership has been extended to thirty-five.

Our study for the year has been Brander Matthews' Development of the Drama; Masterlinck's "Blue Bird" and the Twelve world Pictures.

We have had a Better Baby Contest with one hundred entries, (which was quite a success) The Traveling Arts Exhibit of Chicago three days. From this we made \$30.00 with which we bought Rembrandt's "Syndies," Thos. Sully's "Torn Hat," for our club room and Corot's "Spring Morning" for the High School. Our superintendent co-operated with us in this exhibit sending the teachers in turn with their rooms. The town people were also pleased with this exhibit.

We made \$61.00 from a Trade Display, \$200.00 from a Christmas Sale, \$4.00 from a sale of Texas calendars, \$5.00 from a benefit "42" party, \$20.00 from an ice cream supper, \$4.00 from a per cent of picture show and each lady invested ten cents and made a dollar.

We have paid out for different causes this year: \$22.00 Endowment Fund, \$1.50 Founders' Roll, \$1.00 State Library Committee, \$1.00 Girls Delinquent Home; gave \$25.00 to a destitute home. We paid cash for a building for our club room and library, which is located on the southwest corner of square, same being furnished with piano, library table, reading table, chairs, five book cases, with over eight hundred volumes of books; nice curtains, shades, pictures and rugs.

We have made in all this year \$525.61 and paid out \$497.02

The club members in turn keep the library open two afternoon of the week; we have forty regular readers and have the Story Hour every Saturday for the children; we have had Mrs. Buchanan with us, who gave a talk that has done lasting good. We had Mrs. Burnside with us at our House Warming.

Our Club Extension Committee met with County Institute and have co-operated with the teacher in their work, have organized a club at Rule and furnished magazines to the country people. A sketch of Haskell County was written for the Texas' History by a High School girl and a membership card to the library and a year subscription to a standard magazine were given her by the club. A scholarship to Simmons College and Haskell High School have been given.

We have had in a social way, a party for the club husbands, New Year's reception, House Warming entertained the graduating class and a party on Winner's Day.

The delegates from Haskell were, Mesdames, J. U. Fields, J. F. Posey, A. J. Smith and Miss Lois McConnell. Mrs. J. U. Fields was elected as First vice president of the First District, Federated clubs.

Respectfully submitted
 Mrs. J. U. Fields, president.
 Mrs. J. F. Posey, Delegate.

Underground Silo A Success

That where there is no danger of water seeping into the silo, the underground silo can be made a practical success is the opinion of J. W. Ridgway, professor of Dairy Husbandry at the A. M. College.

This type of silo is much cheaper than the above ground silo, Mr. Ridgway says, as they can be excavated and plastered with a cement plaster at a cost of one and a quarter dollars per cubic ton capacity.

The objections that silage is difficult to remove from an underground silo can be overcome to a great extent by using a windlass and a large box which can be transferred to a truck.

Hupmobile

CAR OF THE AMERICAN FAMILY

Ask the Woman Who Drives

One woman who drives a Hupmobile, spoke for all others when she said: "I feel when I am driving the Hupmobile as though I were a part of the car—or as though it were a part of me."

She meant, of course, that the Hupmobile responded immediately to every impulse or direction she gave it.

She meant that it is always as easily and completely under her control as her own movements.

She meant that she always feels safe and sure and secure, because she always knows exactly what the Hupmobile will do under any and all circumstances.

A woman knows, for instance, that the Hupmobile motor will not stall—and because it can not, therefore it's safest.

She knows the turning radius of the Hupmobile is remarkably small for a car of its length. That makes it easy to handle.

With a wheelbase of 119 inches, the Hupmobile will circle in a 40-foot street.

The motor is so flexible that she gets along with a minimum of gear shifting.

The steering is so easy that a child can guide the car almost without effort.

The driving seat is made with a scientific regard for her comfort—with a high, restful back, and the seat cushion tilted at precisely the right angle.

She gives no thought to emergencies which might require repairs, because she knows that repairs are so few and far between that they can safely be forgotten.

The Hupmobile is always a source of pleasure to the woman who drives—or the woman who rides.

That's why in every Hupmobile home there's a woman who is a Hupmobile enthusiast.

Let us give the Hupmobile merit-test at your convenience.

Baseball in Haskell

Haskell is now well represented with a good baseball team, and it is our prediction that the boys will give a good account of themselves in matters baseball ere the season for the National pastime is over.

On Tuesday of this week there was a game between the Haskell team and a team from McConnell, but as the Haskell team is a young organization and just a little shy as to publicity, we will not take up the game in detail, and also refrain from mentioning the result. On Thursday afternoon a game was scheduled with a team from Hamlin, but as the game takes place so near our press hour, we are unable to give an account of same in this week's paper.

Demand Accounting for American Lives

Washington, May 12.—The United States Government, in a note to Germany today, formally demands of the imperial government a strict accounting for the loss of American lives in the sinking of the Lusitania and violations of American rights in the war zone. It also asks guarantees that there will be no repetition of such events or practices.

With the plain intimation in it that the United States is prepared to meet any eventuality that may arise from a non-compliance, the communication, phrased in unmistakably emphatic language, was prepared to be cabled to Berlin by nightfall.

HASKELL, TEXAS, May 15, 1915.

We had a splendid advertising patronage last week, and the job work was above normal. We certainly do appreciate the business and patronage the merchants are giving us. We have other nice things to be grateful for. Many of our subscribers are paying up back dues on subscription accounts, and our former friends have made themselves conspicuous by the nice things they say to us, when they meet the editor. It is a real pleasure that awakens our gratitude, when we are shown appreciation.

"The Berlin newspapers today proclaim in headlines of colossal type the torpedoing of the Lusitania, and declare that Germany has registered a new triumph for her naval policy. The editorial comment generally declares that England received what she deserved."—News Item.

Later reports show that the school children of Germany were given a half-holiday to celebrate the sinking of the Lusitania. They may celebrate now, but the time of atonement is as sure to come to Germany as there is a moral force actuating civilized humanity.

The whole world was shocked and outraged, when the news reached them of the sinking of the Lusitania, with two thousand men, women and children, by a German submarine, last week. The ship was out of New York, and was sunk near the Irish coast. While the Germans are rejoicing and celebrating the barbarous act, that sent more than 1200 human beings to their death, the balance of the world is nursing pent-up wrath, and resolves of vengeance and a determination to destroy the culture and the race, if necessary, that advocates, and rejoices, in such despicable and barbarous methods of warfare. It has been said "the wages of sin is death." We hope to live to see it verified in the life of the nation that defies God Almighty and all humanity, excepting the unspeakable Turk. It is useless to argue with such people. Get a gun and join the Allies. Ship more and better ammunition and longer-ranged and more powerful guns, "seven days in the week." Quit "praying for peace one day in the week"—as long as there is one living human or inhuman being who justifies the sinking of the Lusitania.

On another page will be found what State Senator McGregor has to say about the "Amendment of the Robertson Insurance Law." We believe the Senator is right in his opposition. Let the Robertson Law alone, and in ten years Texas will not have to go to foreign insurance companies to borrow money. Nobody wants the law amended but the insurance companies that run out of the State, in an effort to black-mail Texas. Let 'em stay out.

The Quinine That Does Not Affect The Head
Because of its tonic and invigorating effect, **QUININE** is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of **E. W. GARDNER, Inc.**

"This represents not merely piracy, but piracy on a vaster scale of murder than any old-time pirate ever practiced," said Theodore Roosevelt after learning details of the sinking of the Lusitania. "It seems inconceivable that we can refrain from taking action in this matter, for we owe it not only to humanity, but to our national self-respect."

We agree with the Colonel. Every prominent citizen of every country on the globe should condemn such murderous work of Germany's submarine service.

The tenant problem in Texas has been made a live topic by the adverse criticism of Frank P. Walsh, Chairman of the U. S. Commission on Industrial Relations. Nearly everybody is jumping on the Chairman. He is also in trouble with John D. Rockefeller, Jr. over the question of Rockefeller's guilty knowledge in the Colorado mine troubles. The Commission must be something real live. It may commit mistakes, but it sure is a live wire.

Out of a total of 185,294 reporting share tenant farmers in Texas in 1910, 114,197, or over 61 per cent, had been on the farm they were then occupying one year or less; 51,896, or over 27 per cent, had been on the present farm from two to four years; 13,254, or about 7 per cent, had occupied the present farm for 5 to 9 years, and only 6,447, or less than 4 per cent, had been on their present farm for 10 years or more. The percentages run about the same in the case of 24,650 cash tenants, i. e., 55 per cent, 28 per cent, 10 per cent and 6 per cent, respectively.—Furnished by University of Texas.

Citation by Publication.

The State of Texas.
To the Sheriff or any Constable of Haskell County, Greeting:
You are hereby commanded, that you summon by making publication of this citation in some newspaper published in the County of Haskell for four weeks previous to the return day her of, T. B. Griffin, whose residence is unknown to be an appear before the Honorable District Court, at the next regular term thereof, to be held in the County of Haskell at the court house thereof, in the city of Haskell on the 24th day of May 1915, then and there to answer plaintiff's first amended original petition filed in said court on the 18th day of April A. D. 1914, in a suit numbered on the docket of said court No. 1735, wherein J. M. Hanna is plaintiff and J. C. Bland, C. D. Long, T. B. Griffin, Mrs. Ida May Sherick, executrix of the estate of A. C. Sherick, deceased, and W. D. Joiner are defendants.

The nature of the plaintiff's demand being as follows:
Suit for debt and foreclosure of Vendor's lien under allegations in said petition substantially as follows, to-wit:

That heretofore, to-wit, on the 2nd day of September, 1908, the defendant J. C. Bland made, executed and delivered to the plaintiff nine promissory notes payable to his order, all bearing date September 2, 1909, and designated as number one, number two, number three, number four, number five, number six, number seven, number eight and number nine, each bearing interest at eight per cent per annum, payable annually, each providing that all past due interest shall bear interest from maturity thereof until paid at the rate of ten per cent per annum, said notes having been given as part of the purchase money for the land hereinafter described, each contains the following provision: "It is understood and agreed that failure to pay this note or any installment of interest thereon when due, shall at the election of the holder of them or any of them mature all notes this day given by me, J. C. Bland, to said J. M. Hanna in payment for said property" and each of said notes does also contain the following clause and provision, to-wit: "And I hereby specially agree that if this note is placed in the hands of an attorney for collection or if collected by legal proceedings, to pay ten per cent additional on the principal and interest as collection fees" and the said note number one is for the principal sum of two hundred and seventy two dollars but became due and payable November 15, 1909. Notes number two, number three, number four, number five, number six, number seven, number eight and number nine are each for the principal sum of \$271, and by their face and terms they are due on the following dates, respectively, November 15, 1910, November 15, 1911, November 15, 1912, November 15, 1913, November 15, 1914, November 15, 1915, November 15, 1916, November 15, 1917.

Plaintiff alleges that he became on the date of the execution and delivery of said notes as aforesaid, the legal and equitable owner and holder of the same and that he is now, and has been continuously ever since the date of said notes, the legal and equitable owner and holder of the same, that no part of either of said notes has ever been paid and that said notes number one, number two, number three and number four by their face and terms have long since become due and payable and that the annual interest upon each and all of said notes for four years has long since become due and payable and the defendants have each and all failed and refused to pay the same or any part thereof. By reason whereof the plaintiff has exercised his right of election to declare each and all said notes due and payable, and has so declared, and each all said notes are now and have long since become due and payable, and the plaintiff further alleges that after each and all said notes had become due and payable as aforesaid the said notes were placed in the hands of W. T. Andrews and H. G. McConnell attorneys at law for collection with instruction to institute this suit with the agreement and understanding between plaintiff and said attorneys that they, said attorneys, should have ten per cent of the amount of principal and interest of said notes as their fee for collecting same which plaintiff alleges is a reasonable and proper fee to be paid said attorneys for the service to be rendered by them under said employment and plaintiff alleges that though he has often demanded payment of said notes of the defendants they have totally ignored such demands and have each failed and refused to pay same or any part thereof to plaintiff's damage \$3500.00.

That contemporaneously with the execution and delivery of the notes above described, the plaintiff J. M. Hanna joined by his wife Lula G. Hanna, made, executed and delivered to the defendant J. C. Bland his general warranty deed whereby he conveyed to the said J. C. Bland the following described property, to-wit: All that certain tract or parcel of land situated in Haskell County, Texas, same being a part of the John Husband survey No. 73, abstract No. 158, certificate No. 3646-3747 patented George Hooper on October 14, 1856 by patent No. 524, Vol. 11, the part thereby conveyed being described by said notes as follows: Beginning at a point 1390 vrs. N. 1°, 40' E. of the S. E. corner of the W. G. McDaniels survey, said beginning point being also

the N. W. corner of a tract theretofore conveyed by plaintiff and his wife to I. G. McDonald; thence No. 175 vrs. to the S. W. corner of a 431 1-2 acre tract off the N. end of said Husband survey then owned by M. S. Pierson for the N. W. corner of this tract; thence S. 1° 47' W. along the N. line of the said McDonald tract 820 varas to the place of beginning, containing 161 3-5 acres of land. The plaintiff alleges that the notes above described were executed and delivered as aforesaid as a part of the consideration for said deed and that said deed that vendor's lien was reserved to secure the payment of each and all of said notes and that the plaintiff is now the legal and equitable holder and owner of said vendor's lien and the said notes being due and unpaid the plaintiff is entitled to a foreclosure of said lien to enforce their payment, and this deed is now duly recorded at page 611, vol. 41 of the deed records of Haskell County, Texas.

Plaintiff alleges and charges that it was also a part of the consideration for said deed that the defendant J. C. Bland did assume the payment of \$200 as balance due upon a note for \$284 dated January 15, 1904, executed by C. D. Jefferson payable to the order of S. W. Scott due January 15, 1909 with interest as therein specified from January 15, 1904, but plaintiff alleges that this last mentioned note has been fully paid, satisfied, discharged and cancelled and that same does not now exist either as a claim against defendants or as an incumbrance against said property.

Plaintiff alleges that thereafter on the 29th day of April, 1909, the defendant, J. C. Bland joined by his wife, Myrtle Bland, by their deed in writing, bearing that date, did convey the above described property to the defendants C. D. Long and T. B. Griffin and as part of the consideration for said last named deed the said C. D. Long and T. B. Griffin did assume the payment of each and all of the notes above described and in addition thereto they executed their own three certain promissory notes each for the sum of \$500 payable to the order of J. C. Bland, bearing eight per cent per annum from date, providing for ten per cent additional as attorneys fees and bearing even date with said last named deed and did deliver said three notes to the said J. C. Bland which became due and payable in one, two and three years from their date respectively and in said deed the vendors lien was reserved to secure the payment of all the above named indebtedness, but plaintiff alleges that the lien reserved in said deed last named is secondary and inferior to the lien reserved in the deed first hereinafter mentioned and that said deed last named is now duly recorded at pages 408, 409 and 410, vol. 48 of the deed records of Haskell County, Texas.

Plaintiff alleges that thereafter A. C. Sherick in his life time became the owner of the three notes of \$500 each executed by said C. D. Long and T. B. Griffin fully described above by purchasing the same from the defendant J. C. Bland and that thereafter the said A. C. Sherick his suit in the District Court of Haskell County, Texas, for the recovery of the amount then alleged to be due upon said three notes for \$500 each and for foreclosure of the vendors lien reserved in the deed from J. C. Bland to C. D. Long and T. B. Griffin to secure payment of the same, the said suit being styled A. C. Sherick vs. C. D. Long, et al. and numbered 1383 upon the docket of said court, and thereafter on the 27th day of May, 1913, the said Mrs. Ida May Sherick did appear in said District Court and in the said cause filed a written suggestion of the death of said A. C. Sherick, alleging that he had died on the 29th day of April, 1912, and that she, the said Mrs. Ida May Sherick, had been appointed and was then the duly qualified executrix of the said A. C. Sherick, deceased, and in writing prayed that she be made plaintiff in said cause and be allowed to prosecute the said suit in her name as executrix of the estate of the said A. C. Sherick, deceased, and thereafter the said cause was by the said Mrs. A. C. Sherick as such executrix prosecuted to final judgment against the defendant, J. C. Bland, C. D. Long and T. B. Griffin which was entered in the minutes of said District Court on the 8th day of June, 1913, awarding said Mrs. A. C. Sherick, executrix aforesaid, judgment for the sum of \$2200.50 with interest from said last named date at ten per cent per annum besides all costs of that suit, awarding also to the said Mrs. A. C. Sherick, executrix aforesaid, foreclosure of the vendor's lien reserved in the deed from J. C. Bland and wife to C. D. Long and T. B. Griffin above mentioned, and in said judgment it was provided that order of sale should be issued at any time after January 1, 1914, directing the proper officer of Haskell County to seize and sell said land under execution and no sale of said land under said judgment has yet been made and this judgment is recorded at pages 334 and 337, book 4 of the minutes of the District Court of Haskell County, Texas.

Plaintiff alleges that he was not a party to said suit above mentioned as cause No. 1383, and that all the rights acquired by the said Mrs. A. C. Sherick, executrix aforesaid, under said judgment are secondary and inferior to the rights herein asserted by the plaintiff and that said judgment rendered in said cause No. 1383 is in no wise binding upon this plaintiff for the reason that the notes herein declared upon constitute and are the first lien upon the property above described while the notes declared upon by the said Mrs. A. C. Sherick executrix in said cause No. 1383 are secured only by a second lien on said property. The plaintiff alleges that all the deeds herein mentioned and described are in the possession of the defendants in this cause and they are each hereby notified to produce the same upon trial of this cause or else secondary evidence of the contents of said deeds will be offered by plaintiff upon said trial. Plaintiff also alleges that under the judgment above mentioned, rendered as aforesaid in favor of the said Mrs. Ida May Sherick, executrix, an order of sale was issued out of this court on the 5th day of February, 1914, under which the sheriff of Haskell County, Texas, did seize and take into his possession the premises above described and did sell the same to the defendant, W. D. Joiner, and he, the said W. D. Joiner, is now claiming some kind of right, title or interest in said property, which is inferior to the title of the plaintiff evidenced by his vendors lien aforesaid.

Wherefore the plaintiff prays that citations in terms of the law be issued and served upon all of the defendants, requiring them, and each of them to appear at the next term of this court and answer this petition and that upon final hearing the plaintiff have judgment as follows:
1. Against defendants J. C. Bland, C. D. Long and T. B. Griffin for the full amount of the principal, interest and attorneys fees upon notes sued on in this cause as provided for in said notes as well as all the costs of this suit.
2. That he have foreclosure of his vendors lien as it existed on the 21 day of September 1908 against all defendants in this cause.
3. That it be provided in the judgment to be rendered in this cause that the order of fore-

closure provided for in the judgment rendered in said cause No. 1383 be cancelled, abrogated and held for naught and that the title of W. D. Joiner, the purchaser under the order of sale issued out of said court further provide that the proceeds derived shall not be sufficient to pay all the costs of this suit and the judgment to be rendered herein, that then the plaintiff may have his execution against the defendants, J. C. Bland, C. D. Long and T. B. Griffin for any balance of said judgment remaining unpaid as well as execution against all defendants for the collection of the costs of this suit, and the plaintiff further prays for the issuance of a writ of possession in favor of the purchaser of said property at such sale.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said court, at office in Haskell, Texas, this 10th day of April, A. D. 1915.
E. W. LOE,
Clerk, District Court Haskell County, Texas.

We want to say to those who owe us by account or on subscription, that we are very much in need of what is due us. We have in contemplation the outlay of about \$2500.00, for a linotype, in order to meet the increased demand for space in the Free Press. If we can make reasonable collections, we will feel justified in making the investment in a linotype. We also appeal to all of the business men in Haskell, to give us their support. For some reason there are some strong business firms that have not given us any support. If all the business men in town did this, there would be no paper published in Haskell. We do not think it is because they do not like the Free Press or the management, that we do not have the support of some firms, but it is a peculiar conservatism, and lack of appreciation of opportunities, the Free Press offers as an advertising medium. Let the West side, the North side, the East side, and the South side, all give us a reasonable amount of patronage, and we will give the town a good local paper that will be a pleasure and a pride to us all. We have always had the most hearty support of the country people. They have been loyal to the Free Press, have subscribed and paid for the paper, and have shown us more respect and difference than we deserve.

WHAT MR. TAFT SAYS OF WILSON

Philadelphia, Pa., May 11—Former President Wm. H. Taft urged patience and calmness in the present international situation and called on the citizens of the country to stand by President Wilson in an address at Union League here tonight. Referring to the sinking of the Lusitania, Professor Taft said the "inhumanity of the circumstances in the case press us on, but in the heat of even just indignation is not the best time to act, when action involves such momentous consequences and means untold loss of life and treasure."

"There are things worse than war," Mr. Taft declared, "but delay due to calm deliberations cannot change the situation or minimize the effect of what we finally conclude to do. With the present condition of war in Europe, our action, if it is to be extreme will not lose efficacy by giving time to the people, whose war it will be, to know what they are facing."

The President, he said, was acting like Washington, Lincoln and McKinley in trying to avoid war. In the present situation it was imperative that he should know the opinion of the country, without regard to prejudice.

"The task of the President is a heavy one," Mr. Taft continued. "He is acting for the whole country. He is anxious to find a way out of the present difficulty without war."

"Before party, before ourselves, we are for our country. That is what he is working for. Shall we not stand by him in it? He will not surrender our country's rights. It may be necessary that for a hundred lives and the method of their taking, we should lose thousands and hundreds of thousands of lives. The national honor and interests may ultimately demand it, but time for serious thought and clearly weighing the consequences will not prejudice the justice of our cause or the opportunity of vindicating it, and this the President may be counted on to secure."

"It is the people's cause, not his alone, and he does well, when quick action is of no critical importance, to ally excitement and to await the regular and studied action of the peoples representatives."

At the conclusion of his address Mr. Taft proposed a toast to "the President of the United States." This was drunk standing and amid a great outburst of enthusiasm.

In ever communication from the Germans, to our Government there is the most contemptuous and supercilious, reflections on our president and Secretary of State. Their expressions of sympathy for the sinking of the Lusitania is the most insulting mockery. It is useless to deal with the Germans as if they had any sense of right or wrong, or respect for any other nation, or to deal with them on the theory that they had any capacity in world state craft. They will not conceal the fact they have no diplomacy, or have any idea of consequences that flow from their fool policies toward the balance of humanity. In their egotism, they have cultivated race hatred, and contempt for all other people except their Ally, the unspeakable Turk. There is no use arguing with them. Mr. Wilson, had just as well await the result of the argument the Allies are making to the only argument that will appeal to the Teuton.

THE COLONEL HAS SPOKEN TIMELY

Syracuse, N. Y., May 11.—Former President Theodore Roosevelt tonight made a plea for prompt action by the United States on account of the Lusitania disaster while commenting on President Wilson's speech of last night to a gathering of naturalized Americans in Philadelphia. Mr. Roosevelt was particularly interested in that part of the President's speech in which the latter referred to "such a thing as a man being too proud to fight" and "a nation being so right that it does not need to convince others by force that it is right."

"I think that China is entitled to draw all the comfort she can from this statement," Mr. Roosevelt said, "and it would be well for the United States to ponder seriously what the effect on China has been of managing her foreign affairs during the last fifteen years on the theory just enunciated."

"If the United States is satisfied with occupying some time in the future the precise international position that China now occupies, then the United States can afford to act on this theory if it desires to retain or regain the position won for it under Washington and the men who in the days of Abraham Lincoln wore the blue under Grant and the gray under Lee."

Wants Prompt Action
"I very earnestly hope that he will act promptly. The proper time for deliberation was prior to sending the message that our Government would hold Germany to a 'strict accountability' if it did the things which it has now actually done."

"The 150 babies drowned on the Lusitania, the hundreds of women drowned with them—scores of these women and children being Americans, and the American ship, the Gulfight, which was torpedoed, offer an eloquent commentary on the actual working of the theory that it is not necessary to assert rights, and that a policy of blood and iron can with efficacy be met with a policy of blood and water."

"Without twenty-four hours' delay this country should, and could, take effective action that by declaring in view of Germany's murderous offenses against the rights of neutrals all commerce with Germany shall be forthwith forbidden and all commerce of every kind permitted and encouraged with France, England and the rest of the civilized world."

Things Worse Than War
"This would not be a declaration of war. It would merely prevent munitions of war being sent to a power which by its conduct has shown willingness to use munitions for the slaughter of unoffending men, women and children."

"I do not believe that the firm assertion of our rights means war, but it is well to remember there are things worse than war."

"Let us as a Nation understand that peace is of worth only when it is the handmaiden of international righteousness and national self-respect."

No doubt, the lords of Germany, thought that in a republic with a possible million German votes, the leaders of the different political parties could be split up on a foreign policy. The support that ex-President Roosevelt and Taft are giving Mr. Wilson, is most patriotic. No doubt the Kaiser and his lords are disappointed again.

Most people put more money in their experience than they ever get out of it.

The Sea Wolves of Germany.

All in all, German's ocean wolves have done less damage than the Alabama alone did in our Civil war, but they have supplied a welcome note of the picturesque. Vivid naval war correspondence has been conspicuous by its absence in this conflict. What a pity that a Kipping' a Stephen Crane or a Joseph Conrad was not aboard the Emden, the Eitel Friedrich; the Kronprinz Wilhelm or that unquitting sea prowler, the U 28. After all, when a man wants romance, he still turns to the sea, and finds the old lure not deadened, but quickened by horse, lubberly steam and sputtering, lurking wireless.—Gregory Mason in the Outlook.

Typhoid fever will be less prevalent when we learn how to avoid this dreaded disease. It is now known that this fever breeds in filth and that if the breeding place of disease germs are destroyed there will be no disease. The germs breed in filth, then get in the food or the water and are in this way taken into the body. Let every precaution be taken to remove any danger of this disease. We can stamp out typhoid if we will. It is certainly worth while.—Farm and Ranch.

Hubbard Had A Pardon.

Washington, May 9.—Elbert Hubbard, the writer, believed to have been lost on the Lusitania, obtained a pardon from President Wilson just before sailing for Europe, it was learned today, in order to have his civil rights restored and thus obtain a passport.

Hubbard pleaded guilty in Buffalo N. Y. to a charge of misuse of the mails in 1913 and was sentenced to pay a fine of \$100. The matter objected to appeared in Hubbard's magazine. The conviction automatically deprived Hubbard of the rights of citizenship.

A Haskell Interview

Mr. Tucker Tells His Experience

The following brief account of an interview with a Haskell man four years ago, and its sequel, will be read with keen interest by every citizen.

W. M. Tucker, Haskell, gave the following account of his experience in February, 1911. He said: "I suffered from an extreme lameness in the small of my back and there was a sore spot over my kidneys. When I was working hard, my back got so sensitive, that I couldn't straighten. Nothing seemed to help me until I got Doan's Kidney Pills from Collier's Drug Store, (now the Corner Drug Store). They gave me relief."

On April 8, 1915, Mr. Tucker said: "I haven't felt any need of a kidney medicine since using Doan's Kidney Pills and my kidneys have remained in good shape. I still think highly of this fine medicine."

Isabelle Lagardes (His Wife).....
.....Miss Iva Shepard.
Fernand Lagardes (Their son).....
.....Mr. Harry Springler.
Gondoin (The Detective).....
.....Mr. Geo. De Carlton

By Dorothy Donnelly

Gondoin, the detective with a quiet smile of triumph on his face, is about to slip the handcuffs on the wrists of Fernand Lagardes, the weak young fool, who, fascinated by Marie Louise, is willing to go to any lengths to win a smile from her. Horror struck by the seemingly overwhelming proof that their adored and only son is the mysterious thief, Raymond Lagardes and his family stand agast. Marie Louise Voisin the beautiful young wife of Richard Voisin, the banker, watches with burning eyes as Fernand is about to be led away. Suddenly she breaks away from her husbands restraining arms and shrieks hysterically:—

"It is I—I who am the thief! Fernand is innocent. He would sacrifice himself for me!"

This is the intensely dramatic climax of a situation that begins inevitably when Marie Louise, despite her large allowance finds herself desperately in debt to dressmakers, milliners and modistes. Her desire to retain the lasting love of her husband, who fairly worships her when she wears a becoming creation, and demands that she be the best dressed woman in their set, has led her to steal in the first place. The habit once established, it becomes dreadfully easy to her to seize the chance to purloin whenever the opportunity offers. She grows bolder and more desperate as the ring she has forged about herself grows tighter. Fernand, crazed by his calf-love for the woman of the world is suspected by Inspector Gondoin the shrewd detective, who has been called in to solve, if possible, the long series of baffling thefts.

Gondoin is taken into the house as an apparent guest. He shadows Fernand and becomes convinced that the love-sick youth is the thief. Marie Louise escapes suspicion, except by her husband. But even he is on the wrong track, for he attributes the mysterious source of the money that pays for her elaborate gowns to an intrigue. Furiouly in their bedroom at night, after they had returned from a gay party, he tries to wring the truth from her. Fernand learns that Marie Louise is the real thief, but fatuously to prove his love allows the guilt to be fastened upon himself. It is only Marie's sudden revulsion of feeling that makes her bare her soul at the eleventh hour and declare the truth. Richard, learning it, forgives her and they turn their faces toward South America and a new life together.

Where His Paper Goes and is Likely To Go

You can never tell where the country newspaper goes, says an exchange. Some of them are like the editor who wrote a catalogue house for some advertising. They replied that they would be glad to use his space, but would like to know what territory his paper covered, whereupon he told them: "This paper goes from New York to San Francisco, from Canada to the Gulf, and it keeps me working until two o'clock in the morning to keep it from going to hell."

Boys' Club Work

Boys' club work which at the outset covered only the production of corn has been placed on a much broader basis and now covers practically every phase of diversified farming. This work is carried on under the joint direction of the Extension Service of the A. & M. College, and the United States Department of Agriculture. H. H. Williamson is Agent in charge of this work.

There are now 10,000 Texas boys engaged in growing corn, the grain sorghums, peanuts, cotton, and raising pigs and calves.

Agricultural club boys in Orange and Brazos counties have organized cooperative savings and investments on the part of the boys. Stock holders pay their subscribed stock by small monthly payments.

Made-In-Texas Exhibit Big State Fair Feature

Dallas, Texas. — A Made-In-Texas Exhibit at the State Fair of Texas October 16-31 in which will be shown manufactured products from various sections of the state is now attracting a great deal of attention. One of the largest buildings at the grounds will be utilized for the purpose. To interest Texas people in patronizing home made products by showing them what is made in Texas and convincing them that Texas made goods are just as good in quality as those made outside the State is the main purpose of the exhibit. Several large manufacturing institutions have engaged space. S. L. Munger, director of the manufactures, is behind the movement. Mr. Munger declares that Texas has the raw material, cheap fuel, transportation facilities and the local market to become one of the greatest manufacturing states in the Union. "The Made In Texas exhibit will give a big impetus to the manufacturing industry which will be wonderfully beneficial", says Munger.

Noted Flyer Will Appear At The State Fair

Dallas, Texas—Art Smith, the famous aviator whose achievement at the Panama-Pacific Exposition have won him world-wide fame and have placed him in the first rank as an aviator, will entertain visitors at the 1915 State Fair of Texas, October 16 to 31. Smith has a record of 30 consecutive loops in one flight. He went to San Francisco from Chicago to become exposition flyer following the tragic death of Lincoln Beachey. Soon after his arrival at the exposition grounds, he demonstrated by his daring that he was a worthy successor to the intrepid Beachey. He has been in the flying game since 1910 and in connection with his regular flights gives a demonstration of what he terms "aerial insanity" that, it is declared, out does anything ever attempted by any aviator before in the country.

According to the contract closed Smith will give several flights each day during the Fair. On six nights during the 1915 meeting he will give his wonderfully spectacular night flights. On these occasions his machine is brilliantly illuminated and as he makes his sensational loops he throws into the air fireworks of many different colors. The effect is exceedingly beautiful and promises to be a big feature.

It took many years to convince congress that the farmers in remote rural districts needed parcel post. For many years special intrests were able to defeat a parcel post and deprive farmers of a chance to market their products by mail and to buy from whom they pleased. Even now the parcel post law is but a compromise with the express companies, yet it will be improved and made more serviceable as experience shows how. It is hoped that we will not be forced to fight against special interests to secure a rural credit law. Surely the loan, sharks and other special interests will not be able to prevent legislation on rural credit the next session of congress.—Farm and Ranch.

Poor Mrs. Dolby

By M. QUAD

Copyright, 1915, by the McClure Newspaper Syndicate.

"When Mr. Dolby sat down for the evening he had his newspaper on his knee and Mrs. Dolby was sitting 'Rock of Ages' and clearing away the supper table. He had been reading for a quarter of an hour when she quietly entered and sat down and said: "Samuel, I don't want to disturb you nor make you feel bad, but I feel obliged to ask you a few questions. Last night at midnight Mrs. Watkins saw a light movin' around in our backyard. It was a light which bobbed up and bobbed down and dodged this way and that and when it finally went out gave a great wink and a splutter. It was what they call a ghost lantern. Samuel, and it meant that there would be death in this house within a week. It'll be my death, of course. I've got twenty-seven different ailments, with heart disease thrown in, while you are as healthful as a cowhide. You'll be me, but I'm not weepin' over it. I'm sittin' right here as calm as camp, but I want to know some few things."

Mr. Dolby must have known of her presence, but he was so deeply interested in his paper to recognize it. He had found an article which said that a spider could be boiled in water for four hours and then come out with its ambition undaunted.

"I shall go to heaven when I die, of course," continued Mrs. Dolby, as her voice broke a little. "I order ge there. Any woman who has whitewashed the cellar every spring for twenty years, besides makin' soft soap, cuttin' carpet rags, dyin' over old clothes and makin' one skirt last her for thirty years, will go to heaven. What bothers me, however, is how I'm goin' to act arter I git there. You know how company allus frustrates me. If three or four of the neighbors come in I'm most sure to fall off my chair or knock over sunthin. How's it goin' to be when I git up there and meet a hell pasture full of angels? There'll be millions of 'em, Samuel."

She paused to wipe the tears from her eyes with the palm of her hand, but as she had asked no direct question Mr. Dolby finished the bug article and turned to one on the cure of clotheslines.

"I don't want to be looked at as p'inted out and made fun of up there," said Mrs. Dolby, as she sat with her eyes on the carpet.

"I may git up to heaven in the night, when all the angels are asleep, and I'll slip in all right. I hope that'll be the way, because it'll give me a chance to kind o' git used to the place before daylight. Do you think they have any breakfast up there? Mrs. Watkins says they don't, but I don't really see how they git along without it."

Mr. Dolby heaved a long sigh and seemed about to speak, but no words came. He had finished with the clotheslines and struck an article about the reasoning powers of the cow, and the most direct question from Mrs. Dolby would have passed unheeded. Her tears fell for two or three minutes, and then she asked:

"And how about the beds up there? You know we've slept on a feather bed ever since we were married, and I've allus bin particular to smooth it down from head to foot. I've got used to feathers, and if I changed off I'd just lay there and kick around all night long. Do they hev beds, Samuel or do they keep on flyin' around all night long and singin'? Seems to me that flyin' and singin' all day would be enough unless I feel stronger than I do now. You orter tell me so I know what to depend on. If one of my headaches comes on unexpectedly I want to know that I kin hev a cup of tea. Mrs. Watkins says they don't drink tea in heaven, but I don't see how she kin know."

Mr. Dolby was not directly appealing to, and as he was reading that a cow had been known to feign death to avoid having a crowbar thrown at her, he made no sign.

"Waal, I've made up my mind to a few things," said Mrs. Dolby, as her silence grew painful. "I'm goin' up to heaven to do the best I kin. I'll be naturally with all the angels I meet and let 'em understand that I don't want no more'n my share of harp and wings and things. If I don't find any thing to eat or any beds to sleep on I shan't raise no fuss nor go into hysterics. Yes, I'll put up with things as I find 'em and make the best of 'em. I won't be jealous if a few of 'em hev better clothes on or kin sing better than me. That's how I'll act, Samuel, and then if they pick on me they'll git as good as they give. I kin be smacked and picked on jest so fur, but arter that they want to look out. Would it put you out any, Samuel, if I died at night instead of in the daytime? As I said, if I died at night I could slip into heaven without any fuss, but if it's goin' to make any extra trouble I'll perish by daylight. What will be the most convenient hour for you?"

There was deep silence. Mrs. Dolby's tears made no thud as they fell upon the carpet, and Mr. Dolby was reading with bated breath that an earth-trich covers thirteen feet of ground on every stride when in full flight. The clock ticked, the silence grew deeper, and the cricket on the hearth fell into a doze. Then Mr. Dolby suddenly laid aside his paper, stretched his arms and legs, with a "Hohum!" and looked around to find Mrs. Dolby asleep in her chair. She hadn't gone to join the angels—not yet!

Webb and Charley McDaniel, whose residences are unknown, to be and appear before the Hon. District Court at the next regular term thereof, to be held in the County of Haskell at the Court House thereof, in Haskell Texas, on the 24th day of May, A. D. 1915, then and there to answer a petition filed in said Court on the 22nd day of April, A. D. 1915, in a suit numbered 2321 on the docket of said court, wherein J. M. Ross is plaintiff and Mrs. M. M. McDaniel, G. R. Couch, S. A. McDaniel, Jno. McDaniel, Bettie Clark and her husband R. F. Clark, Liddie Hendrix and her husband S. W. Hendrix, Maggie Weaver and her husband C. P. Weaver, Rosie Rose and her husband Oscar Rose, Effie Rose and her husband Allan Rose, Eddie Flowers and her husband, K. J. Flowers, Willie Webb and her husband George L. Webb and Charley McDaniel are defendants. The nature of the plaintiff's suit being as follows, to-wit:

Suit for cancellation of the vendor's lien reserved in a deed of conveyance by W. T. McDaniel and wife, by which they conveyed to G. J. Graham and T. G. Williams on the 1st day of October, 1907, the following described property to-wit:

Situated in Haskell County, Texas, being parts of survey No. 61, Block 1, H. & T. C. R. R. Co., land, located by virtue of Certificate No. 586 and situated about seven miles north, 86 degrees west from the center of the county and a part of survey No. 60 in block 1, H. & T. C. R. R. Co., land, abstract No. 494, certificate No. 950, described by metes and bounds as follows: Beginning at the N. E. corner of survey No. 61; Thence west 1452 varas to stake in the N B line of survey No. 61; Thence south 1396 varas to stake for corner; Thence east 710 4-10 varas to stake in the west line of a tract heretofore conveyed to J. P. Ashley; Thence north 1210 varas to stake the N. W. corner of the Ashley tract; Thence east 741 6-10 varas to stake for the N. E. corner of survey No. 60, and the S E corner of survey No. 61; Thence north 186 varas to the place of beginning, containing 200 acres of land. And in which deed the vendor's lien was reserved to secure payment of two notes, both dated same day of said deed, one for \$247.77 due January 1, 1908, the other for \$2504.00, due January 1, 1909, bearing interest at eight per cent per annum from January 1, 1908, and providing for attorney's fees in the usual form.

Plaintiff alleges that thereafter on the 22nd day of November 1907, the said G. J. Graham and T. G. Williams and their wives did convey the above described premises, by general warranty deed, to the plaintiff in this case, part of the consideration for which was that the plaintiff would assume the payment of the two notes above described. Plaintiff alleges also that said two notes have long since been fully paid off by him and that said W. T. McDaniel failed and neglected to execute to him a release of said vendor's lien. Plaintiff also alleges that all of the defendants are the sole and only heirs at law of the said W. T. McDaniel, who is now deceased, except that the defendant G. R. Couch was formerly administrator of the estate of said W. T. McDaniel, deceased, who died in estate subsequently to the payment of said notes; that said administration has been closed and that the said G. R. Couch as such administrator has been discharged; that there is now no administration pending on said estate and no necessity for any; the failure to find upon the records a release of said vendor's lien casts a cloud on plaintiff's otherwise good title to said land, and that the defendants are claiming some sort of interest in said land by reason of the fact that no such release was executed, and plaintiff prays for cancellation of said vendor's lien; for removal of said cloud from his premises.

The State of Texas. To the Sheriff or any Constable of Haskell County—Greeting:

You are hereby commanded, that you summon, by making publication of this Citation in some newspaper published in the County of Haskell for four weeks previous to the return day hereof, S. M. Baker, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be held in the County of Haskell at the Court House thereof, in Haskell on the 24th day of May, A. D. 1915, then and there to answer a petition filed in said Court, on the 20th day of April A. D. 1915, in a suit numbered on the docket of said Court No. 2319, wherein Mrs. W. R. Kelly and husband, W. R. Kelly, are plaintiffs and S. M. Baker is defendant. The nature of the plaintiff's demand being as follows, to-wit:

That, heretofore, to-wit, on or about the 2nd day of January, A. D. 1914, plaintiff, Mrs. W. R. Kelly, was lawfully seized and possessed of a certain tract of land hereinafter described, holding the same in fee simple, and that on the day and year last aforesaid, the defendant unlawfully and wrongfully and forcibly entered upon said land and premises and ejected plaintiffs therefrom and is now wrongfully withholding the said land and premises from plaintiffs to their damage in the sum of \$1200.00, and the defendant has ever since continued such wrongful possession taking and receiving the fruits and profits of said land and premises to the value of \$300.00.

The land and premises so wrongfully entered upon and withheld by the defendant from plaintiffs is described as follows, to-wit: All that certain lot or parcel of land situated in the county of Haskell, State of Texas, known as lot No. 10 and a part of lot No. 11, in Block N of the Courtwright and Smith addition to Haskell, Texas, being a part of subdivision No. 86 of the Peter Allen survey of 2-3 league and labor, abstract No. 2, described by metes and bounds as follows: Beginning at the N. W. corner of lot 10; thence east 81 1/2 feet to the N. E. corner of lot 10; thence on East 18 1/2 feet; thence South 130 feet; thence West 18 1/2 feet to the S. E. corner of said lot 10; thence on West 81 1/2 feet to the S. W. corner of said lot 10; thence North 130 feet to the place of beginning.

Plaintiffs allege that the deed Mrs. W. R. Kelley and husband, W. R. Kelley, dated Dec. 13, 1911, is in the possession of the defendant and the defendant is hereby notified to produce said deed upon the trial of this cause, or secondary evidence will be introduced to prove its contents.

Wherefore, plaintiffs pray that citation issue in terms of law requiring the defendant to appear at the next term of this honorable court and answer this petition and that upon final hearing hereof they have judgment against said defendant for the title and possession of said land and premises, for all damages, and for their rents, and all cost of suit, and such other and further relief, general and special, which the law and facts will authorize.

Herein Fail Not, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Whooping Cough.

"When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs. I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a bottle and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well," writes Mrs. S. F. Grimes, Crooksville, Mo. Obtainable everywhere.

The State of Texas.—To the sheriff or any constable of Haskell County, Greeting:

You are hereby commanded to summon the heirs of J. H. Harvin, deceased, and the heirs of Enoch Robinett, deceased, whose names are unknown, to appear at the next regular term of the district court of Haskell county to be held at the court house in the city of Haskell on the 24th day of May, 1915, then and there to answer the first amended original petition, filed in said court on the 22nd day of March, 1915, in cause numbered 1867, wherein August Teichmann and Frederick Franke are plaintiffs and the Unknown Heirs of J. H. Harvin, deceased, the Unknown Heirs of Enoch Robinett, deceased, and Geo. W. Thomason, R. P. Williams and Olin D. Harvin are defendants.

Plaintiffs sue for partition of the Enoch Robinett survey situated in Haskell county, Texas, claiming ownership by fee simple title of a 350 acres undivided part as the property of said Teichmann, a 28-30 undivided part, less said 350 acres, as the property of said Franke and a 2-30 undivided part as the property of said Unknown Heirs of J. H. Harvin, deceased; and that defendants, Geo. W. Thomason, R. P. Williams, Olin D. Harvin and the Unknown Heirs of Enoch Robinett, deceased, are setting up some pretended claims to some part or parts of said survey, the exact nature and extent of which is unknown to plaintiffs, but which casts a cloud upon plaintiffs' title.

That plaintiff, August Teichmann, purchased the said 350 acres by metes and bounds as herein-after described and has placed valuable improvements thereon; and that plaintiff, Frederick Franke, has made valuable improvements upon other parts of said survey; and that said improvements can be set apart to plaintiffs without detriment to their co-tenants.

That plaintiffs and those under whom they claim have had peaceable, continuous and adverse possession of said lands and premises, an undivided interest of 28-30 for for themselves and an undivided interest of 2-30 for said Unknown Heirs of J. H. Harvin, deceased, being known as the Enoch Robinett survey situated in Haskell County, Texas, and described by metes and bounds as follows:

Beginning at a set rock 671 vrs. east of the S. W. corner of Thos. Early survey; thence south 3000 vrs. to stake for S. W. corner; thence east 666 vrs., the center of the railroad track, 933 vrs., a branch, 2777 vrs. a stone mound for corner; thence N. 0° 8' E. 3006.7 vrs., a stake 2 1/2 feet south of a stump; thence S 89 degrees, 52' W. 2784 vrs. to place of beginning, containing 1479.4 acres of land, cultivating, using and enjoying the same for more than 10 years after the cause of action of all the other defendants accrued and before the commencement of this suit, taken and held under written memoranda of title specifying the boundaries of said tract and duly recorded 10 years before the filing of this suit in the deed records of Haskell county, Texas, as follows: (a) A deed from J. E. Parker and wife, Nettie C. Parker, to I. E. Wood, dated July 1st, 1898, recorded in Book 20, Page 528, said deed records; (b) A deed from John C. Roberts to Ira E. Wood, dated Nov. 16, 1896, recorded in Book 18, Page 274; (c) A deed from Ira E. Wood to W. H. Wood, dated October 11, 1898, recorded in Book 20, Page 530. (d) A deed from Ira E. Wood to T. N. Wood dated January 31, 1902, recorded in Book 22, Page 408. (e) A deed from Terry N. Wood to Ira E. Wood, dated Nov. 9, 1903, recorded in Book 22, Page 495. (f) A deed from Terry N. Wood and wife, Mamie Wood, to Ira E. Wood, dated Feb. 25, 1905, recorded in Book 27, Page 19. (g) A deed from Ira E. Wood and wife, S. E. Wood, and W. H. Wood and wife, Electa Wood, to Frederick Franke, dated Aug. 11, 1906, recorded in Book 35, Page 113. (h) A deed from Frederick Franke and wife, Dora Franke, to August Teichmann, dated Dec. 11, 1907, recorded in Book 43, Page 53.

That plaintiffs and those under whom they claim have had peaceable, continuous and adverse possession by an actual inclosure of said lands and tenements, claiming and holding the same, a 28-30 undivided interest for themselves and a 2-30 undivided interest for the Unknown Heirs of J. H. Harvin deceased, cultivating, using and enjoying the same for 10 years after the cause of action of the other defendants accrued and before the commencement of this suit.

That plaintiffs and those under whom they claim have had and held peaceable, continuous and adverse possession of said lands, claiming an undivided 28-30 interest therein, cultivating, using and enjoying the same under deeds duly registered and paying all taxes thereon for more than 5 years before the filing of this suit, and after defendants' cause of action accrued thereon.

That plaintiff, August Teichmann, has had peaceable, continuous and adverse possession of said 350 acres out of said Robinett survey, Beginning at S. E. corner of said survey; thence, West 2093 vrs. to stake in E. B. line of Right-of-Way of P. & G. R. R. Co.; Thence, with said right-of-way N. 14 degrees, 45' E. 1049 vrs. to N. W. corner this tract; Thence East 1827 vrs. to stake in E. B. line of said Robinett survey, Thence South 1013 vrs. to beginning; cultivating, using and enjoying the same, claiming same under a deed duly registered and paying all taxes due thereon for a period of more than 5 years after the Defendants' cause of action accrued and before the commencement of this suit.

Plaintiffs pray for partition, appointment of commissioners and that improvements made by each be set apart to him, for judgment clearing their title from the cloud cast by the pretended claims of said Unknown Heirs of Enoch Robinett, deceased, and of Geo. W. Thomason, R. P. Williams and Olin D. Harvin.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I strengthened up, and grew so much stronger in three months, I felt like another person altogether."

Enid Eastland May Queen.

Enid Eastland, queen, and Forest Farmer, king, will be crowned at the May Day exercises to be held at the West Avenue Grammar School.

The act of crowning the queen will be performed by the king, who receives the crown from the crown bearer and places it on the head of the May queen seated on her throne. The two royalties were chosen by the work in the class and are the two who had the best record in the high seventh grade—the highest at the school.

The school children meet in the building at 8:30 and form the body guard for the royal pair and then march to the east side of the building, where the throne is located. After the queen has been crowned and acclaimed as the royal lady of the realm to the multitudes, the heralds will announce the games for the entertainment of her majesty and her royal consort. The first performance is the Hansel and Gretel dance, after which the Tantoli, clap and ribbon dances will be performed. Completing the program the May pole dance will be given and a song by the West Avenue School Glee Club, composed of girls of the school.

Refreshments will be served at the close of the program, in the form of ice cream, candy and other light eatables.—The Waco Morning News.

A MERCHANDISE TRIUMPH!

MISTROT BROS., of Stamford Talk to the People:

The farmer, the mechanic, the merchant, the blacksmith, in fact, all mankind outside of lunatic asylums should be interested in appreciating the value of the dollar they have earned by the fruit of their labor. This is an economic question that should interest everyone who toils for his money. If you spend a dollar and pay the regular price you have done well, but if you see an opportunity of saving money on your investment and don't investigate it you have perhaps lost a good chance of saving a dollar out of \$5 at least, often it is a dollar saved out of a \$3 purchase. It is worth while to look into a matter as serious as this. Have you noticed around people riding in automobiles and living like kings? If you save money on purchases you might as well own the autos yourselves. It is easy money if you try it. Perhaps you bought that suit on credit, or that hat, or that pair of shoes and paid a good profit, good enough to pay for a part of that automobile. The surest way is spend your cash—buy when a big sale is on.

MISTROT BROS., of Stamford, are saving the people hundreds of dollars every week. Ask those who are attending these sales daily and they will tell you of their big savings. It is this way—-one man pays \$1.50 for a \$2.50 hat, another pays \$1 for a pair of 75c overalls, another man buys a \$15 suit of clothes at \$7.50. Another has bought a \$1 overall for 75c. It is a saving here and there on every purchase. The lady buys shoes, graniteware, hosiery and lots of other things and she saves here and there until she has saved enough to buy a house and lot. This truth stares you in the face and there is no getting around it. It is easy money for you.

Our big sale is the talk of the county everybody is attending---in fact our store is the **LIVELIEST SPOT** in Jones County.

Too Much For Her

Unobserved and unannounced the president of a church society entered the composing room of a newspaper just in time to hear these words issue from the mouth of the boss printer:

"Billy, go to the devil and tell him to finish that 'murder' he began this morning. Then 'kill' William J. Bryan's Youngest Grandchild, and dump the 'Sweet Angel of Mercy' into the hell-box.

Then make up that 'naughty Parisian Actress' and lock up 'The Lady in Her Boudoir.' Horrified the good woman fled, and now her children wonder why they are not allowed to play with the printer's Youngsters.—Philadelphia Public Ledger.

MRS. CHERRYHOLMES' FAITH IS SHAKEN

Unshaken faith in her dead husband's integrity, unanswered prayers for the vindication of his reputation and punishment of those who she believed murdered and slandered him and a hope that her prayers have been heard and that God in His own way and at His own time will give His answer, are voiced in a letter received by J. B. Fitts of this city from Mrs. G. T. Cherryholmes, widow of the court house guard who was killed in the shooting at the Graham court house for which the defendants were acquitted here recently.

The one is in reply to one written by Mr. Fitts expressing his belief in the integrity of Cheryholmes. It will be remembered that in the closing moments of the trial Mrs. Cherryholmes kneeled beside her chair in the court room and lifted her hands as if in prayer. The scene was one which those who saw it will never forget.

The letter from Mrs. Cherryholmes follows:

"Allow me to thank you from the depth of my heart for the kind words you wrote in your letter; they were indeed a balm to a tortured soul; also to think that all people there did not believe my husband could take part in the thing they swore he did. I feel doubly wronged, yea more than that; I thought when I saw him die and the bruised blood gush out of his poor mouth that nothing worse could be on earth, but I find men don't only kill but they slander the dead who stood on duty regardless of life and his own pocketbook. He was a bonaman, yet he stood.

"He said to me: 'I did my duty,' and I, a wife, know where that duty lay yet they called me down

and never let me swear that on the stand and I returned home, broken in spirit, feeling, knowing that this wrong can never be righted on this earth. I fling out my helpless hands, asking for, what I don't know. I thought I was a Christian before I went to the trial, I trusted, prayed and believed. I came home, shaken in body and mind, an old woman before my time, I am without a future. I have no father, I never had a brother or sister, I tried to find all in God. Oh, how I wish He had heard me.

"It's an easy matter to be happy and good when the wheel of Fortune turns one's way but I have drunk the dregs of life and must still try to live, because I have no one to leave my children to. I am thankful that I find some like yourself who are good, like those of old who have not bowed the knee to Baal. All my neighbors have been most kind in calling to assure me of their faith in my husband, which goes far to relieve the tortured spirit of a wife. I once heard a preacher preach on 'and they stood in their place, every man round about the camp,' and as I sat by the open grave and looked at the casket of my husband, I thought that he had stood in his place and had gone to a reward for the faithful.

"A favorite song of his contained these words: 'When I reach the gates, the gates of gold, I believe they'll open wide, I'll pass through its portals free, I went up to that trial as David with his sling, in the name and strength of the living God I prayed that the jurors might wash their conscience as Pilate did his hands and render their verdict, 'I find no fault in this man, let his blood be on them,'

I didn't get what I asked so I crave in the future that God did hear me and will give me even better than I could in my shortsightedness know how to ask. We are told Jesus must first suffer all things and be rejected of that generation. My husband received his wound among and the Savior was crucified with them.

"Now I wish to again thank you for a kindness shown to a woman with a broken heart, hoping when trouble comes your way somebody will help you bear the load of it, and you can say, I tried to lighten the load that pressed hard on the shoulders of

Mrs. G. T. Cherryholmes.

ita Falls who had faith in Tom, I thank them for that faith. It was a faith founded on a rock for a foundation."—Wichita Daily Times.

THE UNIVERSITY SCHOOL OF JOURNALISM

Learning the mechanical side of the newspaper business.

This photograph shows a linotype machine in use in the School of Journalism of the University of Texas. Recognizing the importance of newspapers to the commonwealth, realizing that the press is the most potent molder of public opinion, and that a free and enlightened press is an important factor in all progress worth while, the regents of the University of Texas established last year a School of Journalism, where the youth of the state of journalistic ambitions might receive competent instruction, be grounded in the best traditions of journalism, and inspired with the highest ideals of service. The school enrolled fifty students during the first year. Considerable stress is put upon the mechanical and business side of newspaper publishing, with a view to being of service, particularly to the rural and small town press of the state.

"The Wonder Car"

Only a Blindfolded man would buy an automobile today without looking the Maxwell over

There's no excuse today for any man who is "jollied" into buying a car before he looks over the 1915 Maxwell.

We give you the *two vital things* in this Maxwell Car and then the 17 new features that have made the 1915 Maxwell the most talked-about car ever produced.

Here are the two vital things that any sane man wants when he buys an automobile

In the first place

—a handsome, real automobile that he can be proud to ride in.

In the second place

—a powerful, fast, economical automobile that will take him anywhere and bring him back.

We give you these two vital things, and then just about every other detail of refinement, comfort and endurance that you can think of.

Take power and hill-climbing ability, for example—when you buy a 1915 Maxwell you buy an exact duplicate of the stock Maxwell cars in which "Wild Bill" Turner and "Billy" Carlson broke two World's Records in two of the toughest, roughest moun-

tain hill-climbs ever made—Mt. Hamilton and Mt. Wilson.

Take speed and endurance, for example—when you buy a Maxwell you buy a car made by the same designers—the same chief engineer—from the same Maxwell Laboratory, heat-treated, tested steel, that was used in the Maxwell Racers in which Barney Oldfield and "Billy" Carlson both broke the 300-mile non-stop race records in Corona and San Diego.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

Attractive Streamline Body

Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

A High-Tension Magneto

Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

Left Side Drive—Central Control

Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

Three-Speed Sliding Gear Transmission

All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

Double-Shell Radiator with Shock Absorbing Device

The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

The Roomy Full 5-Passenger Body Adjustable Front Seat

The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—so fit no one.

Low "Up-keep" Carburetor

The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tours conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

Irreversible Steering Gear

The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

Heavy Car Comfort

What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

One Size of Tire—Anti-Skide on Rear

The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3 1/2 inch tires are used all around. A famous make of "anti-skid" tires are supplied on rear wheels.

A Dependable Electric Starter

For \$55 extra, you can have your Maxwell delivered equipped with the famous Simms-Huff electric starter. This starter is efficient, trouble proof and easily operated. And the Maxwell is completely equipped from the clear vision, ventilating windshield at the front to the spare tire carrier at the rear.

Bailey Will Not be Candidate

The Houston Post has printed a formal statement from Joseph Weldon Bailey saying he will not be a candidate for the Senate next year. He is quoted as saying:

"You can say for me that I will not be a candidate for the Senate next year. I now hope to be in Texas in a little more than two months, and having waited this long I would wait until I could come home and confer with my friends before announcing my decision except for the fact it has reached a point where it is simply impossible to answer the letters, which are coming to me from the State on this question without neglecting matters in my office. I am therefore compelled to announce a decision which I would have gladly discussed with my friends before making it final, and which I do not believe any discussion could have altered."

A Poor Marksman

Sergeant, (disgusted, to Private Jones):—Stop! Don't waste your last bullet. Nineteen are quite enough to blaze away without hitting the target once. Go behind that wall there and blow your brains out."

Jones walked quietly away and a few seconds later a shot rang out.

"Good heavens! has that fool done what I told him?" cried the sergeant, running behind the wall. Great was his relief when he saw Private Jones coming towards him, "Sorry, sergeant," he said apologetically; "another miss."—Boston Transcript

Free Paint

Paint half your job Devoe; paint the other half whatever you like.

If Devoe doesn't take less gallons and cost less money, no pay. The cost of putting it on is about two-thirds of the job.

If Devoe doesn't wear a year or two years or three years or four years longer—distinctly longer and better—we'll give you enough to do it again.

But we warn you how it will all turn out. The best half of your job will cost you so much less than the other half, and wear so much better, too, that you'll never divide it again.

You won't get your paint free, you'll get what is better: You'll know Devoe; You'll know strong paint, you'll know weak paint; and the question is settled.

The meeting started on time with the singing of the beautiful song, "We Shall See The King Some Day." The Scripture lesson was read by our president, Mrs. Reynolds. Prayer, Mrs. Scott gave a synopsis of the 9th chapter of the Acts; Mrs. Johnson of the 10th; Mrs. Paxton of the 11th; Mrs. Ellis of the 12th, and Sister Groom the 13th. These talks were certainly inspiring, and an uplift to any child of God. Many nuggets of gold were brought out of each chapter. The treasures of the Bible are plentiful, if we but search and find them. Our president reported a ready response to the call for help for the storm sufferers. The vote was unanimous to put an arc light in front of our church. Committee on beautifying the church: Mrs. A. J. Smith, Mrs. Paxton and Mrs. Bowman.

Committee to get individual Communion Set: Mrs. Groom

and Mrs. McFatter. The other committees were all continued. Our next meeting, Monday evening at 4, is a Missionary program. Don't miss this chance to learn of the work of the meek and lowly Jesus. Mrs. John Couch will be our leader. Sister Groom gave us her name for membership and the president, in her charming way welcomed Sister Groom to our midst, and also into our Society, and in her sweet response we all felt it was indeed good to have her as one of our number. Don't forget to come. Reporter.

Spring Cleaning Hints

"Now is the time to begin the fight against disease", says Dr. O. M. Ball, Professor of Biology at the A. and M. College. "If you want to insure good health in your family during these spring months you had better begin now to clean up. Cut the weeds and rake and burn them. Fill up water holes, drain the ditches. Mosquitoes, flies, and other pests and diseases lurk in these places. Don't let trash accumulate on your premises. Not every one can have a beautiful home with splendid grounds; but all can keep the premises clean.

"The mosquito and the fly are death dealers. Much of the spring sickness is due to the work of these winged pests. The best way to insure against these disease spreaders is to destroy their breeding places. They multiply rapidly. They breed in weeds, long grass, empty cans, trash piles, ditches, and flies especially in old manure piles. A little oil and a little lime with a little work in spring cleaning beats a big doctor bill."

How Mrs. Harrod got Rid of her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

Insects in Cabbage

"If you are troubled with insects eating your cabbage, spray with arsenate of lead at the rate of two and one-half pounds to fifty gallons of water," is the advice of E. J. Kyle, professor of Horticulture at A. and M. College, to gardeners. "For cut worms I would suggest that you poison clover or some green succulent plants by dipping it in arsenate of lead and scattering it through the patch; another plan is to sweeten it with molasses and then add a teaspoonful of Paris green and London purple and scatter it in your garden near the plants. Chickens should be kept away from this poison.

Recent heavy rains over a wide area of Texas and Oklahoma should emphasize the importance of drainage and terracing to save land. The annual loss in fertile soil caused by washing rains is very heavy even in the Southwest where much of the land is level. Erosion has ruined many farms and driven many farmers farther west and caused many to live in town and hinder progress as an urban citizen. Let us save the soil and make it richer instead of poorer.—Farm and Ranch.

Best Thing for a Bilious Attack.

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets, and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C. AN ADDRESS TO PEOPLE OF TEXAS

(Continued from page 1)

proposition, inasmuch as it limited insurance to local companies. So, later on, different countries passed different laws to meet conditions, and the State of New York, in order to hold and gather money to New York, provided for the investment of certain reserves to be made in New York securities. The idea of the New York law, under which these big companies have grown up, and by reason of which they have been enabled to carry so much money to New York, is the underlying principle in the Robertson law. For years and years the West and South had been drained of their money, and it had gone to New York, where it had been invested in watered stocks, and so juggled with by the captains of high finance, that it brought about what is known as the Armstrong Investigating Committee, which has shown the rottenest conditions of affairs ever disclosed in the financial matters of this country. Insurance laws at that time stood like a great cow, feeding, flourishing and fattening, with her head in the fields and plains of Texas, with her udder, distended, in Wall Street, where the captains of finance "milked her forty times a day." While the Robertson Law did not have the effect of turning this cow around so that she would be fed in New York and milked in Texas, it did have the effect of driving her home to this great State, where

she would be milked by the people who fed her. These are the elements of consideration under this statute, and I, therefore, repeat that the Robertson Law is an Insurance Law and not a "Money Changers' Act." * * * T. H. MCGREGOR, State Senator, 20th Texas District.

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as an assertion that inferior baking powders made of alum or phosphate of lime are as good as Dr. Price's, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Dr. Price's Cream Baking Powder is as pure and wholesome as the grapes in the vineyard, from which cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphates is because their cost is less to the manufacturer.

Without Trouble— For the First Time in Ten Years

This is what a brick manufacturer in Illinois said when he had used one barrel of Texaco Crater Compound for the heavy gearing of his brick-making machinery.

Before this we have had to buy new gears every spring because the difficult work imposed upon them caused them to wear out very rapidly.

I do not know just how much longer these will last, but we won't need any new ones this year, and that saving will pay a good many oil bills.
