Talk about rationalization!
My husband can really convince himself about something. Only thing is, he ends up half-way convincing me too.

Since January 2nd I've been on a diet, working hard to take off weight. Thomas, too, was on one...not so strict, but he needed to shed a little from the middle.

So, I haven't put any food in the house. You can't eat what isn't available, my theory was.

And I really thought it was going along pretty well...until the other night.

We had consumed our 300 calories worth of frozen diet food (yuck) and settled down to watch a movie on television.

I didn't pay much attention to Thomas leaving the room, going out the back door to the garage and utility room. I just wasn't paying that much attention.

After a long while though, I got up and headed for the kitchen for some iced tea...and met my spouse returning from the garage with a spoon in his hand.

"What are you doing with a spoon?" I queried, still unsuspecting.

"No telling how long this spoons been out there" he replied.

We sat back down to watch the movie. But I noticed he had a guilty, funny look on his face.

Finally I said "Okay, what's going on here". The fact is, Thomas is totally incapable of telling lies. He just can't do it. His face gives him away even if he's fibbing as a joke.

He turned red. He dropped his head and grinned that Cat-At-Canary grin.

Then he fessed up. It seems that his sweet tooth had gotten the best of him. Unknown to me he had smuggled a half gallon of ice cream in to the freezer out in the garage. When he became hungry he was just taking a little stroll out to the wash room, and standing there eating ice cream from the carton!

"Honey," he maintained "it's so it wouldn't be a temptation to YOU".

He's told me that so many times now that he almost has me believing that his real motive was to keep me from falling off of MY diet.

What happened to HIS diet, though, tell me that, huh?

Oh well, he's the one whose waist line won't be shrinking. I tell myself that every time I think about that cold, delicious ice cream, just waiting out there! Somehow, it doesn't help much. What does help is that guilty look on his face when he got caught with the spoon in his hand!

Culinary Heart's Course To Be Offered In Bogata

The American Heart Association will be offering a Culinary Heart's Course the last two Tuesdays in April and the first four Tuesdays in May at the Bogata Methodist Church at 9:30 a.m. Cost will be \$7.50 or \$12.00 per married couple. A pre-class data form will be sent upon registration, and it is preferred that you pre-register.

The Culinary Heart's Course helps teach people how to put dietary recommendations for reducing the risk of heart disease into practice, so you don't have to have high cholesterol to attend.

The American Heart Association recommends a balanced diet including all the major food groups. And many of your favorite recipes can be modified to reduce cholesterol and saturated fat content, states Virginia Brock, Certified Home Economist, Red River County Agent-HE.

One common misconception is that the AHA diet doesn't include red meat.

That's not true. Lean red meat, fish and poultry are all recommended.

Following a healthy diet is simple. Build your diet around the basic food groups and their recommended servings, four or more servings of fruit and vegetables, four or more servings of bread, cereal and starch foods, two or more servings of low-fat milk, cheese and dairy products, six ounces of lean meat, fish or poultry; limit fats and oils to 5-8 teaspoons; limit whole eggs or egg yolks to no more than 3 per week.

For more information, call Virginia Brock, Red River County Agent, Home Economics at 427-3867 or stop by the County Extension Office at 407 E. Main in Clarksville.

Last year's group had a member that lowered their cholesterol 182 points, ten weeks after the course as well as a person that lost 22 pounds. Each class builds upon the preceding class information.

New Test May Identify Blocked Or Narrowed Arteries

A special kind of electrocardiogram (EKG) taken during exercise tests may help identify people with blocked or narrowed coronary arteries, a condition that can lead to heart attacks, cardiologists at the University of Wisconsin Medical School have found.

Signal-averaged electrocardiograms may be able to detect coronary artery disease at least as well as standard EKGs and with more precise numerical readings, according to Dr. E. Wayne Grogan, Jr., UW Medical School assistant professor of cardiology and director of cardiac electrophysiology at UW Hospital and Clinics. The procedure, which involves no risk or discomfort to the patient, may help physicians determine who should be tested further.

"Exercise tests detect only about 75% of all patients with coronary artery disease," Grogan said. In addition, the standard EKG is affected adversely by medications the patient might be taking and other heart conditions unrelated to coronary artery disease, problems which do not appear to affect signal averaging, he added.

Although another more precise test, the thallium test, can detect up to 90% of these patients, it is expensive and involves injecting a small amount of radioactive substance into the body.

So Grogan and cardiology fellow Dr. Dirk Ver Steeg, UW Medical School clinical instructor, used a signal-averaged EKG to see if it could analyze the effects of exercise and determine which people have coronary artery disease.

American Cancer Society Drive Begins

The Red River County unit of the American Cancer Society will conduct its residential drive in the Bogata area April 16-May 16.

Contributions to the Cancer Society come back to Red River County in the form of free services available for cancer patients. Those include items for loan, hospital beds, side rails, wheelchairs, walkers, etc., gift items, nylon pillows, bed pads, gowns, towels, sundries, rehabilitation, laryngectomy, mastectomy, ostomate, cansurmount and "I Can Hope" groups.

1989 was another banner year for American Cancer Society Communications volunteers in Texas. Print coverage of local, state and national American Cancer Society activities resulted in 17,701 published news stories, features, ads and photos in newspapers with a combined circulation in excess of 5.5 million. The electronic media aired thousands of American Cancer Society public service messages and broadcast news stores on local events and programs.

Everyone is invited to take a closer look at the work being done by

American Cancer Society volunteers. The results are worthy of support...and the support of the thousands of Texans each year who invest in its work with a contribution to the American Cancer Society.

If you would like to help with the residential drive, contact Kim Kelsey, local chairman, at 632-4168, or Bonnie Huddleston at 632-5238.

The American Cancer Society is a nationwide community-based voluntary health organization dedicated to controlling cancer through research, education and service.

Cuthand 4-H Club Meets

The Cuthand 4-H Club met April 8 at the Cuthand Community Center with 15 members present and six visitors.

They discussed saving pull tabs for the Kidney Dialysis patient. For every tab, someone receives three minutes of dialysis.

The members received their 4-H jackets and everyone enjoyed an Easter cake and punch to celebrate April birthdays.

The next meeting will be May 13 at 3 p.m.

KIM KELSEY, left, gives Sherry Cheatwood the packet from the American Cancer Society, in preparation for the annual residential drive in the Bogata area. The drive will begin April 16 and

continue through May 16. Contributions to the Cancer Society come back to Red River County in the form of free services available to cancer patients. (Staff Photo by Keye Lee)

At ConTEL, we know how important a properly functioning phone system is. Sometimes, it can literally be a matter of life or death.

Unfortunately, not everyone understands. Every month--especially in the spring--numerous phone cables are cut in ConTEL's local serving area due to digging.

ConTEL posts warnings on telephone line pedestals and along cable routes indicating where cable is buried in the area. A toll-free 24-hour telephone number (1-800-628-2DIG) is printed on those warnings so that anyone planning to dig can call ConTEL. We will

immediately dispatch someone to mark the exact cable location, free of charge.

Please, call ConTEL before you dig. Because when you cut a phone line, it is more than just inconvenient. A lot more.

Rebel Sports Report

Rivercrest Softball Team Loses Opener

The Rebelettes lost their season opener to Sulphur Springs, 11-5, on April 9.

The Rivercrest Rebelettes traveled to Prairiland on April 4 for a practice game. The girls returned with a big win, though no official score was kept.

The team traveled to Sulphur Springs on April 9 for their first season game. The first inning saw Shane Webb, Jerilyn Russell, Kristie Brooks

Tonya Hawkins get a base hit and score. Krista Weatherall also scored after taking the walk to get on base. Patches Raines was left on base, sending the girls to the outfield with

a 5-0 score. In the bottom of the first inning, Sulphur Springs could only score one run. Outstanding fielding and pitching of Jerilyn Russell saw the girls hold the score 5-1, until the bottom of the fifth inning. Pitcher Jerilyn Russell began showing signs of fatigue at that time and the fielders were unable to cover Sulphur Springs' base hits, allowing them to score three runs, bringing the score to 5-4, Rivercrest.

Unanswered hitting by the Rebelettes saw the sixth inning begin with Tonya Hawkins on the mound for the Rebelettes. Again base hits and costly fielding errors cost the Rebelettes

seven runs. The top of the seventh inning and the last, saw the Sulphur Springs pitcher allow only four batters to the plate. Sulphur Springs won following a hard-fought game by the Rebelettes, 11-5.

Pitchers Jerilyn Russell and Tonya Hawkins sent six batters to the bench with strike-outs, total fielding errors numbered nine. The Sulphur Springs team had 10 strike-outs and five errors in the field.

The Rebelettes will compete again on Monday, April 16 and everyone is invited to come out and support the girls and boys baseball and softball teams.
