First runnerup in the pageant was Shannon Renee Lusk, daughter of Mr. and Mrs. Bobby Lusk of Rule, and 7 years old. Second runnerup was Mikeanna Wilcox, 7 years old, and the

Top ten in the pageant of 23 entries included these three, plus Lisa Kay Baird, Leann Turnbow, Lesa Medford, Julie Lynette Matthews, Melaine Lynette McGhee, Kristi Wilson and

Emily Kaye Thornhill.

Dairy Cream sponsored the winner; Furrh-Lane Agency the first runnerup; and Farmer's National Bank of Rule the second runnerup.

The show, beginning at 8:30 p. m. in the Texas Theatre, followed a "Queen's Fantasy" decorating theme, and the girls were escorted across a beautifully decorated stage centered with the imperial Queen's throne.

After a welcome by Chamber manager Rex Felker, Miss Joan Caddell of Weinert, 1972 Miss Hey Day, took over the duties of emcee. During the judges' deliberations, entertainment was provided by solos by Beth Lowrey, and a trio consisting of Susan Gilleland, Joan and Lorina Caddell.

Judges were Mrs. Betty Albus, Mrs. Kay May and Mrs. Mary Counts, all of Knox City.

A refreshment party followed rehearsals for the show Wednesday and was sponsored by the Haskell Young Homemakers at the theatre.

Three Home Burns In Sunday Fire

The Haskell Fire Department answered a call at 5 a. m. Sunday morning at the J. W. Threet home, about 15 miles southwest of Haskell, only to get there in time to see the home in the last stages of burning completely to the ground.

The Threet family was not at home, and by the time someone saw the fire at the dairy farm, and called the department, the house was too far gone to save.

The family lost everything in the fire including a kidney machine used by Mr. Threet.

Invitation Given By Rule Methodist

Evangelist Joe Carmichael, associate pastor of First United Methodist Church at Enterprise, Ala., will bring the messages each evening Sunday, August 19 through Thursday, August 2 at Rule First United Methodist Church.

Al Hinds Is In Abilene Hospital

Al Hinds, longtime newspaper man, suffered a heart attack at his home Saturday morning and was taken to Haskell Memorial Hospital, where he stayed until Wednesday morning when he was transferred to West Texas Medical Center in Abilene.

Hinds worked on newspapers in Coleman, Paducah and Haskell, and served the Haskell Free Press as editor from 1963 until his retirement Sept. 9, 1971.

Although he no longer is associated with the Free Press, Al keeps busy as rural news correspondent for both the Abilene Reporter News and for the Wichita Falls Times-Record News.

Al returned to Haskell Wednesday afternoon and is recuperating at his home at 603 N. Avenue H.

Three R's To Begin Mon.

Past are the long, lazy days when boys and girls could sleep late, eat a leisurely breakfast, and call a friend to meet them at the swimming pool, or at the old swimming hole, whichever the case may be. School is just around the corner, with classes starting Monday. Some consolation to the kids might be that their teachers had to begin one week earlier than they did, though.

Teacher In-Service work, a general faculty meeting, school registration and other items on the agenda drew all our county teachers into their classrooms or to teaching discipline Monday morning, August 13, and they've been busy ever since.

So, as the impending shadow of the school bell looms on the horizon, it'll mean the city park and swimming pool will be empty for the most part of each day, and a lot of households will be quieter. At the same time classrooms will be beehives of activity, and the normal classroom work will get to

be a routine quickly. Football boys and band students already have begun their schedule of training, as football practice and band practice began Monday. All students have registered by now, and did so August 13 and 14.

Kids can start back to school with one holiday looming on the horizon, though—September 3 is the Labor Day holiday.

And football fans can get ready for a brand new season.

The season tickets will go on sale Wednesday, Aug. 22 at 8:30 a. m. at the high school office for those people who held season tickets last year. Last year's season ticket holders will have until Aug. 28 to pick up their tickets. Aug. 29 at 8:50 a. m. any remaining reserved seat tickets will go on sale at the high school office.

First scrimmage for the Indians will be Aug. 24 when they go to Coahoma.

Some folks just don't seem to understand Texas' ranching problems.

Jim Harwell, head of the Texas Industrial Commission, who spoke at the recent West Texas Press Association meeting, enjoys telling this story:

In a meeting this year in southwest Texas between militant ecologists and hard-pressed ranchers and sheepmen, a lady environmentalist was expounding on the beauty of the coyote, his plaintive wail and how important it was to preserve this vestige of the old West.

She explained to the not-so-patient ranchers present that, to help control the coyote they might try 'neuralizing' the males.

"As you say down here," she explained, "castrate them."

One old timer, impatient with the impractical demands of environmentalists, jumped up to hastily interfere:

"Lady, Lady," he protested, "you just don't understand our problems down here. The coyotes ain't raping our sheep and cattle, they're eatin' 'em!"

Donkey Ballgame

City Council Meets Tuesday

Haskell City Council had a busy night at their regular meeting Tuesday, and covered a lengthy business agenda. Present were Mayor Belton Duncan, councilmen Guy Kennedy, Buster Gholson, Carl Anderson, Jimmy Browning, Walter Supt. Marvin Collins, city secretary Desmond Dulaney, and two visitors: Robert Terry of Abilene Linen Supply and Wallace Campbell of Hershey Meter Company.

Guy Kennedy gave the prayer, after which the minutes of the last meeting were read and approved. Terry offered the services of his company to the city in the form of rental clothing. No action was taken.

Campbell, representing the meter company, offered the meters to the City for a price of \$25.75 each—less than was paid for the last meters bought. And, facing price raises around every corner he also offered to take orders now for the needs of the city for a year, at the present price, with shipments every other month. The city would still retain the right to cancel a shipment if their needs were not as much as estimated at that time, or to delay a shipment for the same reason. The councilmen voted to place an order for 612 more meters at this price, and have 102 shipped every two months. This order will hold off any price increase during that time.

Buster Gholson reported that the city has ordered seven new pieces of beautiful park equipment, using the revenue sharing money, for a total of \$2,852.00 plus freight. The new equipment will be placed in the park as soon as it arrives.

Guy Kennedy reported that he and Mrs. Kennedy had ridden all over town, and found 140 blocks of streets that needed resurfacing, and this also will be done in the near future.

In other business, the council raised the Fire Marshall salary from \$23.19 per month to \$50.00 per month; O. K.'ed a tool box for the new city pickup; and discussed the needs for a night dispatcher at the City radio; and approved all bills to August 14.

Haskell Co. Falls Far Short Of Blood Drive Goal

Haskell County fell sadly short of their goal during the Red River Red Cross Bloodmobile's trip to town last Thursday. Only 25 pints of blood were received in the 5 1/2 hour stay in Haskell, at the bank's Community Room.

Bloodmobile chairman Charles Thornhill registered these pint donors last Thursday:

Vows Read For Local Couple

MRS. TIMOTHY ROY EVERETT
... formerly Paula Sue Terrell

Miss Paula Sue Terrell became the bride of Timothy Roy Everett August 10 in the First United Methodist Church of Haskell. The Rev. H. O. Abbott read the double-ring ceremony. She is the daughter of Mr. and Mrs. V. P. Terrell and his parents are Mr. and Mrs. Buck Everett, both of Haskell. Mrs. Nelda Lane accompanied Mrs. Jo Nell Terrell, at the organ as she sang traditional wedding music.

Given in marriage by her father, the bride chose a long gown of white silk organza and lace. The fitted bodice was of re-embroidered Alencon lace with a high crown collar and short puff sleeves. The full skirt had a deep pleated flounce at the hemline with a wide band of scalloped lace above, and fell Chapel length. Her mantilla of imported English illusion had appliques of lace and was bordered in scalloped lace. She carried a bouquet of pink roses, baby's breath and English ivy. Keith Everett served his brother as best man and groomsmen were Gary Fike of Denton men were Gary Felker of Denton and Mike Irons of Big Springs. Ushers were Johnny Jasscet of Brownfield, Riley Middleton of Haskell and Mike Kernaigan of Monahans. Monty Moeller, nephew of the bride, was candlelighter.

Reception was held in Fellowship Hall of First United Methodist Church.

The bride is a 1958 graduate of Haskell High School, and a 1971 graduate of McMurry College in Abilene.

The groom is also a Haskell High School graduate, and attended Cisco Junior College and North Texas State University in Denton. He graduated from San Angelo State University this year.

After a wedding trip the couple will be at home in Sweetwater where both are employed by the Sweetwater Independent School District.

Dr. Clinton, Mr. Roberson Of Western Texas College, Speak

Dr. Robert L. Clinton, president of Western Texas College at Snyder, and Dr. Gene Roberson, Dean of Occupational Education, were welcome guests of Haskell Lions Club at their Tuesday noon luncheon meeting.

Dr. Clinton was introduced by program chairman Bill Comedy and he brought Lions up to date on the courses offered by the college in Haskell this fall.

In explaining the difference between an Extension Center and Extension Classes, Dr. Clinton explained that with extension classes, Scurry County tax money can not be used in Haskell; but they can allocate some of the college's state money for these classes—as much as 65% of the costs in Haskell. He emphasized that if the community will provide the facilities, the classes can be taught here, hoping for an average attendance of 20 in each class offered. Then, once the extension classes are started, other opportunities through the college can become available.

In surveying the results of the class survey ran in a recent edition of Haskell Free Press, Dr. Clinton felt that evening classes can be taught from 6:30 to 9:30 when the school is available, but much depends on what the survey shows. A student, for \$35.00 can take one three-hour course that is fully accredited. Then, for each additional course, the cost would be \$5.00. These classes will be taught one night a week for each course, for a total of 15 weeks. Mr. Roberson then explained the courses offered in the survey and said they would have to rely on the school for some equipment such as typewriters. An informative question and answer period followed Mr. Roberson's part in the program.

Lion Doyle High led the invocation; president Gene Long presided over the short business meeting; George Fouts led the

song and pledge; and Rev. Dudley Bragg, pastor of First Baptist Church, was welcomed as a new Lion.

Lion O. W. Tooley gave a report on the breakfast board meeting which set the annual Lions Club pancake supper for Nov. 9, during Homecoming, as before the Haskell-Stamford football game. Sept. 18 there will be a Lion zone meeting in Knox City.

Guests—John Yearly and Jim Johnson were introduced.

Sept. 4 Meeting Set For Retail, Wholesale Food

The United States Department of Agriculture, Food and Nutrition Service, will conduct a meeting with all retail and wholesale grocery firms in Haskell, Stonewall, Jones and Knox Counties, according to Carl Speegle, Officer-in-Charge of the Abilene and Wichita Falls Field Offices. The purpose of the retail-wholesale grocery meeting is to familiarize the business owner-managers with the procedures and public laws which they will be expected to abide by once they are authorized by the U. S. Dept. of Agriculture to accept USDA Food Stamps. Mr. Speegle encourages all retail grocers, bank representatives, and Dept. of Texas Welfare personnel to attend this meeting. Retail information kits have been mailed to retailers. All retailers who have received these kits are encouraged to bring them to the meeting. The meeting will be held Sept. 4, 1973, District Court Room, Haskell, Texas, at 7:30 p. m. It is important that all retailers and wholesalers in Haskell, Stonewall, Jones and Knox Counties attend this meeting.

WASHINGTON
"As it looks from here"
OMAR DURBLESON
Congressman
17th District

WASHINGTON, D. C.—What ever is done to hold down inflation with wage and price controls under Phase IV, the chance of any great degree of success is in doubt unless there is a dramatic reversal in current Government spending.

There is general agreement among the economists that increased inflation during the first half of this year can be attributed to an over-stimulation of the economy through Federal deficits, excessive expansion of money supplies, a general world-wide inflationary trend and a shortage of some agricultural products due to large exports and unfavorable weather.

There is nothing to do about the weather and nothing directly to be done for high and increasing prices world-wide. There is something to be done with the other factors.

First and foremost, we should make up our minds that we cannot continue to spend beyond our means. Even with a ceiling on fiscal year 1974 expenditures, a deficit in the neighborhood of \$12 billion is in prospect. Common sense tells us that this sort of spending of more than is taken in from revenues is a key to higher prices.

Controls are having the effect of reducing production and particularly in critical agricultural commodities.

The principle established in Phase III that exceptions should be allowed where necessary to "prevent gross inequities, serious market dislocations or localized labor shortages" should definitely continue in Phase IV. In too many instances, however, this provision has not been effectively applied in Phase III. The result has been to create an imbalance of prices related to productivity. Anything that hinders production and especially farm products is self-defeating. Shortages are occurring which could have no

CARD OF THANKS
We would like to express our thanks and appreciation to all our friends, the Leisure Lodge, staff and doctors for the kindness shown during our sorrow at the loss of our brother, Luke Proctor. LODY BEEF CATTLE PICTURE
A number of things are leading the beef cattle picture as a time when production should be increasing, says a livestock marketing specialist for the Texas Agricultural Extension Service. Consumer meat boycotts, a slowdown in marketing, adverse weather, a ban of DES, price ceilings and increased pork exports are affecting production. Higher feeder cattle prices and feed prices are limiting the fed beef output. Overall, red meat supplies may be less than anticipated this year.

FARM TAX-SAVING TIPS
Farmers can save on income tax during the summer by paying their children for farm work and combining vacation and business trips, says an economist for the Texas Agricultural Extension Service. Child wages can be deducted and the children still claimed as dependents if a farmer provides more than half their support. A child will not have to pay income tax if he earns less than \$2,050. Business-related expenses from a business-vacation trip are deductible as long as business is the primary purpose of the trip. Only the farmer's expenses, not those of the entire family, are deductible.

but so is responsibility. Back to controls on our economy, there is no question that if they are made workable they also should be abandoned at the earliest possible time before we become accustomed to them and accept them as a part of our economic system.

**LETTERS TO
THE EDITOR**

Dear Editor:
I am writing to you concern-
ing a Steves Grant Antoine who
told me that he was raised up
and attended school in your
city. He passed away here in
Los Angeles July 22, 1973. His
family plot, so he said, was in
Evergreen Cemetery in Paris,
Texas.

I do not know if you knew
him and family or not but he
told me the name Antoine is—
or was—well known in Haskell.
I believe he spoke of an uncle
there now who is his father's
brother. And I also understand
his father had the same name
as his son, Steven Grant An-
toine.

Anyway, his body is being
held here in the County morgue
as they are trying to locate any
relatives, or next of kin, and
if he had assets.

Mr. Antoine spoke to me of
having several sons, perhaps
you may know their names and
where they are living. I don't
know his uncle's given name,
but I imagine you know any
Antoines living around your
area. So you could tell them or
perhaps put the item in your
paper, about his death here.

Mr. Antoine was born in 1908
August 15, so he told me, and
altho he didn't say where, I
presume it was in Haskell.

I was a friend of his but had
only known him about two years
so I don't know his son's names
or where they could be located.

He did say he was an only
child. I never asked him any
questions. Anyway, I do hope
you know or someone there
knows, of his next of kin so
they will know that he passed
away here. I believe he said he
had been living here since 1932.

The Public Administrator
called me about his passing, as
he had my name and telephone
number in his wallet, but he
also had written to please no-
tify the Haskell Times or Tri-
bune in case of his death or ac-
cident.

I hope that some one of his
relatives will know where to
locate his sons. He also spoke
of his mother's sister living in
Oklahoma but I don't recall the
name of the town, but he said
40 miles, I believe, across the
Texas line and when I said
'Texarkana, Texas,' perhaps, he
said yes, that sounds like it.

I do not know the lady's
name.

Anyway, I wanted to write
and let the people know of his
passing and perhaps it might
help to locate his relatives or
sons.

As so many people die out
here and no one knows any-
thing about it unless they have
continued to keep in daily touch
with each other, their relatives
or friends. He was a good man
and I hope you can locate his
relative there.

Oh yes, he said his mother
passed away 4 years ago here
and was buried in Forest Lawn
here in Glendale. And he spoke
of his uncle there wiring flow-
ers out here for her funeral at
that time.

Thank you for anything you
can do and if you have time
would you please let me know
if things work out. Mr. Antoine
spoke of having a farm close
to Breckenridge, Texas and
said it was rented out to a
couple. I don't know if they
were relatives or not. He men-
tioned no name. Hoping to hear
from you.

Thank you,
Sincerely,
Mrs. B. Rawski
5512 Lexington Ave.
Los Angeles, Calif. 90038.

P. S. I would not have bother-
ed you concerning this matter

SAGERTON NEWS

by Mrs. Delbert LeFevre

There will be an awards dinner sponsored by West Texas Utilities Company for all Sagerton residents in honor of the second place we won in the Texas Improvement Contest this year. At this time the award money will be given to the committee chairman, Joe Clark, and a short program will be held. They will bring all the food and entertainment for the evening, Friday, Aug. 17, at 8 p. m.

The committees for 1973 and 1974 met last week at the Community Center and began making plans for coming events. Reece Clark will be the new chairman next year; Leland Thane, vice-chairman; Joyce LeFevre, secretary; Verlene Corzine, treasurer; and Jean Meiers, reporter. The various committee chairmen will be announced later. On this year's committee were: Joe Clark, John L. Brooks, Lewis Corzine, Billie Kupatt.

As a part of the Community Improvement Campaign, the Community Teens, with Mr. and Mrs. Allen Meiers as their

sponsors, have started a new project. They will collect aluminum cans each Saturday morning at the Community Center at 10:00 a. m. All residents are asked to bring their cans there, and the young people will see that they are taken to the collection center and sold, with all the money going toward the community improvement fund. This is a chance for young and old to take part and get some good walking exercise at the same time.

There will be a community picnic with fun and games for all ages at the Herman Baitz Park next Sunday afternoon starting at 6 p. m. Come bring a picnic lunch for your family and enjoy good old-fashioned games such as watermelon eating contest, seed-spitting contest, and others. If you just want to sit and watch, bring your lawn chair.

Sign-up in the Haskell County Boll Weevil Control Program has been completed in the Sagerton Community and plans are being made to put the program in motion. The area covered in Haskell County in our area is bounded by the Santa Fe Railroad west to the Stonewall County line and north to the Knox County line. This includes 19,045 acres signed up in this county, representing well over 90% of the cotton acreage. In our area, there are only three farms that refused to participate.

This is a three year program, that hopefully will cut down and eradicate the boll weevil from our area. The spraying will begin Sept. 1 through 5, and the area will be gone over three times. This took a lot of study and work to get organized, but as always proves true, when people work together, much can be accomplished.

Alice Lewis, supervisor of the Rule High School lunchroom, recently attended a workshop with some of her other workers at Big Spring.

Pictures were taken Monday and Tuesday of this week for the pictorial directory of Faith Lutheran Church. They hope to have all the families of the church in this directory.

The residents of our community were shocked and saddened Saturday night. First, at about 10:30 p. m., Mrs. Annie Mathis passed away at Teakwood Manor in Stamford. Then, another one of our old-timers, Chris Woisch, who had been living in Rochester for several years, fell dead on the stage as he finished playing at the Saturday night musical in the Community Center.

Later on that night, the home of Mr. and Mrs. Willard Threet, northeast of here, burned to the ground. They were not at home, and the cause of the blaze is not known. Nothing was saved, everything was lost, including the kidney machine that Mr. Threet used before he received his kidney transplant recently.

We extend our sympathy to these three families in their times of sorrow.

Mrs. M. D. Ross, mother of Barney Ross, and a former resident of our community underwent surgery Saturday morning at Stamford Memorial Hospital for a broken hip. She came through the surgery fine. Her children, Mr. and Mrs. Harlan West of Dublin, Mr. and Mrs. Marine Ross and Mr. and Mrs. Bill Ross, were all here.

Paul Niennast, another of our former residents and an old-timer is a patient at the Haskell Hospital, after suffering a heart attack recently.

Mr. and Mrs. Grady Laughlin of Fort Worth visited residents here last week and were dinner guests of Mrs. Cliff LeFevre Saturday. Other guests were: Mr. and Mrs. Delbert LeFevre, Jill and Larressa.

Mr. and Mrs. M. Y. Benton enjoyed an outing at Possum Kingdom Lake at their son's cabin last week from Tuesday

Leading Congressmen Meet With Cost of Living Council August 1st

WASHINGTON, D. C. — Congressman Omar Burleson along with nine U. S. Congressmen, including the Speaker and Minority Leader of the House of Representatives, met Wednesday with Secretary of the Treasury George Shultz and Cost of Living Council Director, Dr. John Dunlop, to express concerns over the effect Phase IV controls are having on domestic oil and gas exploration and production.

The House Members noted that foreign imports have increased to approximately one-third of domestic consumption and that price of foreign products has far surpassed that for domestic energy supplies.

Shultz and Dunlop were told that there continues to be a sharp decline in domestic exploration and production due to uncertain government policy, and lack of incentives to attract risk investment capital.

Rollback of crude oil prices to the May 15 level, along with other factors, further discourage domestic production, and will force shutdown of many stripper and marginal producing wells, and dispersal of the crews, according to the Congressmen.

They said that this will further decrease domestic supplies and will make even higher prices probable because America will be at the mercy of increased foreign imports.

Shultz and Dunlop assured the House Members of the awareness of the problem of Administration, and they pledged to study the numerous com-

ments received from the industry and Members of Congress.

Shultz and Dunlop emphasized that the regulations were published in such way as to elicit comments. A further decision on crude oil prices will probably be made around August 15 after a thorough review of the comments.

The Congressmen said that the hardest hit segment of the industry is the independent producer who is responsible for 75 percent of domestic exploration and who relies to a large extent on outside investment capital, incentives, and a stable policy.

Attending the meeting with Congressman Burleson were Speaker Albert (D-Okla.) and Minority Leader Ford (R-Mich.), Cong. George Mahon (D-Tex.), Garner Shriver (R-Kan.), Joe Waggoner (D-La.), Richard White (D-Tex.), Happy Camp (R-Okla.), Clem McSpadden (D-Okla.), and James Jones (D-Okla.).

Two students from Haskell and one from Weinert are scheduled to receive degrees Friday night at Hardin-Simmons University.

Steven Roger Livengood, son of Mr. and Mrs. Homer Livengood of Route 2, will receive a bachelor of arts degree.

Betty Jo Davis of 1005 N. Ave.

Arch Ragan Mayfield, son of Mr. and Mrs. John A. Mayfield of Weinert, will receive a master of arts degree.

About 80 students will receive degrees at the commencement, which begins at 8 p. m. in Bohrens Chapel. Honorary degrees will be conferred on Mary Costa, star of the concert stage, movies and the Metropolitan Opera, and Professor Otho Polk, veteran head of the H-SU Physical Education program.

Miss Costa will sing a solo concert to replace the traditional commencement address. The program is open to the public.

Shackelford, Stephens, Stone-wall, Taylor and Throckmorton. The West Central Texas applications were among 52 for more than 4 million dollars considered by the CJC Executive Committee July 13.

Many veterans are unaware of the fact that they may be eligible for dental care at Government expense after they are released from the Armed Forces. This announcement was made today by C. H. Herren, Veterans Service Officer for Haskell County.

Under the current Veterans Administration dental care program, a veteran qualifies for one episode of dental care, provided he applies to the VA within one year following discharge or release from military service. 'One episode' for this purpose means the veteran may receive a dental program only once, sufficient to correct all cavities and other dental defects revealed by the dental examination. Dental care for eligible veterans may be rendered by a private dentist in the veteran's home town. An exception might be the veteran who lives within easy commuting distance of a VA dental clinic, in which case the work would be done by a VA dentist.

When a veteran is discharged or released from military service, and he finds that dental care is needed, he should report to his local Service Officer and file an application with the VA. If he is found to be eligible, the Veterans Administration will authorize the necessary examination and treatment. The veteran should not obligate himself for any dental care expense, since the Veterans Administration will pay for any service which is authorized.

Dental care at VA expense is generally available, without any time limit, for former prisoners of war. The Government may also provide care when a dental condition is aggravating a service-connected medical disability.

Two of the awards, totaling \$54,270, go to WCTCOG. A \$35,801 grant is for continued operation of the regional law enforcement teletype network, providing participating agencies with access to computerized data at state and national levels. The system presently serves 19 agencies. Brown and Fisher county sheriff's departments will be added under the new funding.

An \$18,469 award to WCTCOG will continue support of the regional law enforcement training academy, providing basic certification schools for 40 recruit officers by contract with Texas A&M University. An additional 100 officers will receive instruction in the new Texas Penal Code in five 24-hour schools in the region, with material developed by the State Bar of Texas. Advanced schools in investigation and supervision will be provided for another 100 officers.

Brown County was awarded \$9,360 to create a one-man probation department to serve juvenile offenders.

Counties served by WCTCOG are Brown, Callahan, Coleman, Comanche, Eastland, Fisher, Haskell, Jones, Kent, Knox, Nolan, Mitchell, Runnels, Scurry,

Shackelford, Stephens, Stone-wall, Taylor and Throckmorton. The West Central Texas applications were among 52 for more than 4 million dollars considered by the CJC Executive Committee July 13.

WASHINGTON, D. C. — Congressman Omar Burleson calls attention to the fact that the President has just signed a bill clarifying the collection of user

fees by the Army Corps of Engineers at lakes and reservoirs.

Last February the Corps of Engineers announced its intention to charge fees at undeveloped projects within its control which had not previously been designated as fee areas. This would have included several lakes and recreation areas within the 17th Congressional District. As expected, public reaction was unfavorable. Burleson and 22 other Congressmen co-sponsored legislation designed to end the controversy and prohibit the collection of fees at these undeveloped areas.

The new law, P. L. 93-81, est-

ablishes requirements at projects in order for fees to be collected. User fees may not be charged for access to or use of any campground which does not include the following: showers, flush restrooms, paved or dust-proofed access, visitor protection controls, picnic tables and fireplaces, designated tent or trailer spaces, refuse containers and sanitary disposal stations, and potable water.

Sunday's activities for the two former schools were held at the Haskell Country Club. Ober Johnson gave the opening prayer, and a reading, "Be Friendly", was given by Mrs. W. E. Johnson, 94, who was also honored as the oldest ex-student attending the reunion. Mr. and Mrs. L. D. George traveled the longest distance to attend, all the way from Blythe, Calif.; and the W. H. Wiseman's were recognized for having the largest family present. Their eight children attended with them.

Ex-teachers of the two schools who attended included Mrs. Freddie Johnson Potts of Austin; Mrs. Alma Sprawls Jetton of Rochester; Mrs. Erma Briden of Rule; and Mrs. Thelma

Last February the Corps of Engineers announced its intention to charge fees at undeveloped projects within its control which had not previously been designated as fee areas. This would have included several lakes and recreation areas within the 17th Congressional District. As expected, public reaction was unfavorable. Veterans Now Eligible For Dental Work

Under the current Veterans Administration dental care program, a veteran qualifies for one episode of dental care, provided he applies to the VA within one year following discharge or release from military service. 'One episode' for this purpose means the veteran may receive a dental program only once, sufficient to correct all cavities and other dental defects revealed by the dental examination. Dental care for eligible veterans may be rendered by a private dentist in the veteran's home town. An exception might be the veteran who lives within easy commuting distance of a VA dental clinic, in which case the work would be done by a VA dentist.

When a veteran is discharged or released from military service, and he finds that dental care is needed, he should report to his local Service Officer and file an application with the VA. If he is found to be eligible, the Veterans Administration will authorize the necessary examination and treatment. The veteran should not obligate himself for any dental care expense, since the Veterans Administration will pay for any service which is authorized.

Dental care at VA expense is generally available, without any time limit, for former prisoners of war. The Government may also provide care when a dental condition is aggravating a service-connected medical disability.

National and International Leader . . . Poultry Declines Noted . . . Vaccinate Horses Now.

Texas, already recognized as a giant in agricultural production in the nation, will become a major factor in international agriculture in the years ahead. With exports becoming an increasing part of this nation's agriculture, Texas will be a key state in supplying farm products as well as providing facilities from which commodities will be shipped.

Texas has excellent port facilities along the Gulf Coast. The Port of Houston was utilized in shipping the 400,000,000 bushels of wheat to Russia. Texas now has excellent export livestock pens which will increase the state's dominance in the livestock industry.

The pens are already in use in Houston, Del Rio and Eagle Pass. Additional pens are to be built soon at Brownsville, El Paso and Laredo.

The pens have specially designed loading and inspection chutes, concrete floors throughout, offices for laboratory space, a new hydraulic-type multi-vat for dipping animals as well as other accessories which exceed federal regulations. The pens are also covered.

"Through use of these pens, you can be assured Texas will be a leader in the world in international agriculture affairs," Texas Agriculture Commissioner John C. White said.

The Texas Department of Agriculture is responsible for operating the pens. Texas livestock business this year is expected to exceed \$40,000,000.

Throughout the nation, Texas continues to be the number one livestock state. Texas has more than twice as many cattle and calves than the second place state. It has almost three times more beef cows than the second ranking state.

The cattle and calf production population for Texas as of Jan. 1 this year is 15,350,000 head; this is an increase of about 2,500,000 head from 1972.

Beef cows—the factory of the livestock business—numbered 6,320,000 in Texas; this compared with second place Oklahoma's 2,283,000 head.

Texas is also first in the nation in cattle on feed and first in the nation in number of sheep and lambs.

THE MAY hatch of egg-type chickens in Texas is down nine per cent from a month ago. The May hatch of broiler chicks is down two per cent from a month ago. The total turkey poult hatch was up eight per cent from a month ago.

Egg production in Texas during May was seven per cent below a year ago, but four per cent above a month ago.

Nationwide, egg production during May was three per cent below a year ago. Layers on hand declined four per cent from May a year ago and two per cent below April.

Young Men Still Must Register, Although There Is No Draft Now

AUSTIN—Colonel Melvin N. Glantz, the State Director of Selective Service for Texas, reminded young men that they still must register with Selective Service even though there is no draft.

Glantz urged those men who have not registered to do so promptly, saying: "Failure to register is a violation of Federal Law and could result in prosecution by the Department of Justice."

The President's authority to induct men into the Armed Forces expired on July 1, 1973. The Nixon Administration does not plan to seek an extension of this authority, and the Defense Department is relying on volunteer enlistments to supply military manpower.

Glantz emphasized that only the authority to induct expired. All other provisions of the Military Selective Service Act remain in force. The annual lottery will be held, young men will continue to register, and their local boards will continue to classify them as to their availability for possible military service should Congress authorize the resumption of inductions in the event of a national emergency.

The State Director said the law requires all male persons, except certain non-immigrant

aliens, to register with Selective Service within 30 days before or after their 18th birthday. He said: "Young men have three legal obligations: 1) they must register at age 18, 2) they must notify their local draft board when they change address, and 3) they must carry their draft cards with them until their liability for service expires, for most men this is age 26."

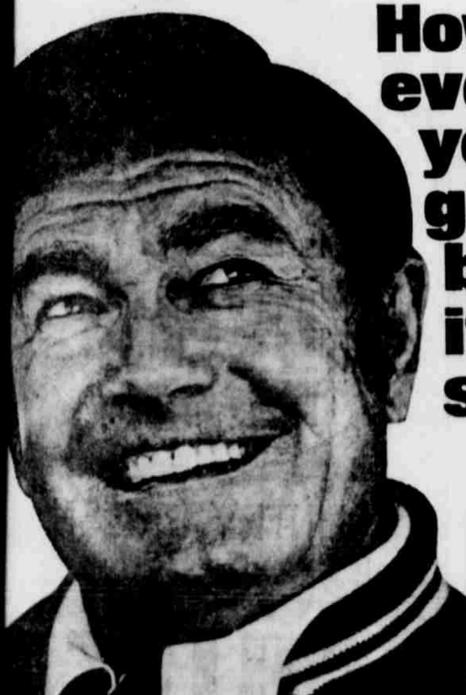

The Colonel explained that Selective Service is undergoing a major reorganization and that as Selective Service goes into a standby operation, no inductions are taking place. Many local board offices are being relocated, with the result of fewer draft board offices in Texas. Glantz said there are places of registration provided in each Texas county for the convenience of young men in registering.

The registrars for Local Board No. 77 are:

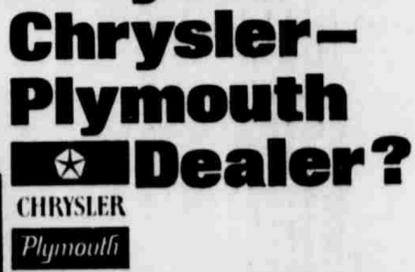

- B. O. Roberson, Co. Judge, Haskell
- Mrs. John L. Brooks, Post Office, Sagerton.
- Mr. Phil R. Simmons, High School, Rochester.
- Mr. R. S. Sanders, Post Office, Weinert.
- Mr. Daniel R. Walsworth, Post Office, O'Brien.
- Mr. Felix E. Frierson, Post Office, Rule.
