By Nanalee Nichols

Somewhere in Mexico there is a "turista" whose hair has turned snowy white from terror. Somewhere in Mexico is a young Mexican man whose nerves haven't quit trembling yet. And somewhere in East Texas are a couple of folks (namely Thomas and myself) who are still alternately laughing and shaking our heads over the driving habits of Mexico.

We took our vacation last week and flew down to the Yucatan peninsula. There, amid palm trees, beautiful beaches and tropical breezes we enjoyed ourselves...and got acquainted with the Mexican attitude of driving.

We've all heard stories about the all-out, no-holds-barred-driving in Mexico...and it isn't an exaggeration!

Our first experience occurred when we decided to take the local bus around town. For about 60 cents you can ride all over. Our first bus driver, like all drivers we encountered, knew one speed only - full tilt. It was the second bus driver however, who created the "Bus Ride From Hell". Before we could be seated this man had yanked out the clutch and was zooming down the avenue. Another bus was parked in the road...did our driver slow down...nope, instead HE took the sidewalk! Skidding back down onto the pavement he began beeping his horn at a poor tourist on a little scooter. This young man glanced over his shoulder in utter horror, whipped the scooter sideways and missed being hit by about four inches. The bus driver grinned amiably and never hit the brake. I'll swear the poor tourist hair turned snow white in fright! At last after several more of these little incidents, we arrived at our hotel, where we literally leaped off, as the bus was already in gear and moving by the time we could get up from our seats.

Taxi drivers had the same attitude. Drivers didn't seem particularly angry or tense...it was all like a jolly sort of game of bizarre tag!

Finally, on the morning that we were to fly home, our driver was late...so late that we were in peril of missing our flight. He arrived, apologized, assured us he would get us to the airport in time and screeched out the front gate of the hotel. Pedaling to work at that unfortunate moment was a young Mexican man who gazed in horror at the bumper of our vehicle. I swear he grazed the bicycle as this poor boy threw himself out of the way. As we sped off into the morning the cyclist was stock still on the sidewalk looking after us with a wide-eyed, stricken look. We ran eleven red lights...I counted them. Our speed reached 70 or 80 several times. We made a 35 minute trip in 20 minutes and caught our flight.

Our driver got a big tip...but not just because he put so much effort into getting us there on time.

You see, this man was not in the least concerned about hitting a bicyclist, running red lights, passing on the right hand side of the road or breaking the speed limit.

The only time he ever really hit the brakes and stopped was when a poor mama dog wandered out into the road way. Then he honked...stopped and patiently made sure the dog was safely on the other side. A good man...without doubt! I confess that I like our driving habits around here much better...I just don't quite have the attitude necessary to survive down south of the border!

VANDALISM-the birdbath was put back up after being dumped over, but the flagpole is

empty once again at the Bogata Cemetery, thanks to vandals who invaded this past weekend. (Staff Photo by Judy Screws)

## A letter from the Editor

Dear Readers,

I was called today to go out and take a picture of a bird bath which had been knocked to the ground and a flagpole without a flag. Both were the result of vandals who invaded the Bogata cemetery over the week end.

As I drove back to the office, I thought of every scathing, disgusting word that I could use in my report of this incident, but as I thought about it, I realized that the person or persons who did this, thought so little of themselves and their abilities that this was the only thing their poor minds could come up with to do to get attention. Can you imagine being that dull witted?

My first picture of the culprits was poor, dirty, juvenile delinquents, but we all know that sleaze isn't choosy. It shows up in every family from the very "Elite" to the very poorest. It also shows up in just plain old middle class households. We are sometimes tempted to say that if a child is raised right, he or she will turn out just fine. This is not necessarily true. In other words, my picture may not be accurate...we don't know who or what these vandals may be.

Those of us who chose the Bogata Cemetery as the final resting place for our loved ones, consider it to be sacred, at least I do. I know that the flag will be replaced and the birdbath is no worse off for its having been knocked over. I also know that the people who did this, have such empty lives that they will do it again, because they apparently aren't capable of doing much else. If we didn't know that they should be pitied, it would be almost scary.

I am asked to remind people to try and keep notes of anyone you may see entering the cemetery after dusk and before dawn, because there is a city ordinance prohibiting this, and it is punishable by a fine. Perhaps, with people observing things closely, this vandalism can be stopped.

Thank you,  
Judy Screws

## Papers Win Nine Awards At NETPA

Thunder Prairie Publishing has once more captured a wide range of awards at the North and East Texas Press Association's annual convention. Two seconds, two thirds and five fourths were given in April to the Deport and Bogata Papers. Contest rules dictate that the three other papers cannot be entered in this contest under certain circumstances.

In Division Six, which is for Weekly Newspapers under 2,000, The Deport Times won Second place with their editorial concerning the annual Chiii Cookoff.

The Bogata News won Second Place in Advertising, crowding out the Deport Times, which won third place.

The critique reports that "The Bogata News was in close competition with first place in this division. Ads are a little crowded but of a nice variety."

The Deport Times' critique read "Good whoing in this division, even though third place. Overall these ads are better than many entries in large division".

The Bogata News won third place in Feature Writing with the story of Jack Lucas being "found".

The Critique said "Quick moving story with good detail and use of

quotes. Could have been a very "sappy" story, but writer held back using too much sugar and let the sources tell it. Guess that makes it "naturally sweet". Writer keeps good control of the story.

The Deport Times claimed fourth in Features with the story about Geneva Norwood's journey to Russia. "The phone call sets the scene nicely in lead. Good contrast imagery used. Nice use of quotes and detail".

The Deport Times won Fourth in Photography, with the critique that they had "Nice Accident Shots...watch the sky on some photos as it is washing out". Sports photos needed to be "sharper".

The Deport Times also won fourth in Newswriting, for which there were no critiques.

Nanalee Nichols' "Nichols Worth" Column won fourth also. There were no critiques on that division either.

The Bogata News did not receive an award for their coverage on the "AIDS Story" but comments were: Good job in trying to be a calming factor in the community when this became such an important part of your community, especially with the major media blitz and focus on your

### Country Cooking

By Judy Screws

On Saturday, I visited with Cathy Reed and her daughter, Krystal, at her sister, Carolyn Maynard's home in Detroit.

Cathy said that she has been a single parent for four years and has in that time created several original recipes that are quick and easy to prepare.

She has recently moved to Detroit from Dallas, and has enrolled at PJC for the Summer Semester to study Office Management. She plans to get an Associates' degree in applied science (AAS) A Professional Secretary Degree.

Cathy attends the St. Joseph's Catholic Church in Clarksville. She lists her hobbies or pastime activities as researching Texas Folklore, and Plastic Canvas needlework.

Cathy has been to college already and majored in English Literature, but she wants the working degree in order to pursue her ultimate goal, which is writing.

The personable young lady says that she enjoys cooking international

and ethnic foods, more casseroles than meat and potatoes. When fixing desserts, she searches for quick and easy recipes. She likes to make ice-box pies.

Cathy said that her favorite cookbooks are The Frugal Gourmet, and My First Cookbook (a children's cookbook that she has had since she was a small child). It features the Bialosky Bears in its illustrations.

Cathy is sharing her Strawberry Upside Down Pie, her Cheat-N-Win Spaghetti, Cathy's Corucopia Pie, and her Italian Chicken recipes. She also gave me a recipe from her brother-in-law, Bob Gower, for Cabbage Soup. I'm going to hold the soup recipe until I have more space, but I hope you enjoy the others. They look delicious.

I want to thank Cathy and Carolyn for letting me visit. We had a really nice visit, even if I did go up the wrong driveway and have to back up about 59 miles to keep from getting stuck.

Everybody have a good week.

**Lore Bush will Compete in Austin**

Lore Bush will compete at the University Interscholastic League state academic spring meet. The meet will be held at Thompson Center on the University of Texas campus in Austin on May 7. She earned eligibility by placing second in Newswriting and third in Headline Writing at Regionals in Tyler on Saturday, April 24. She will be accompanied by her advisor, Mrs. Ann Roberts.

"Although the UIL is more often associated with athletic competition, more students compete in the academic contests," said Dr. Bailey Marshall, UIL Director. "In fact, the League began as a debating league in 1910 and then later merged with a track and field association to form the basis for the current organization. Each year, more than a third of the total participation in UIL activities involved academic contests."

Turn on energy savings by switching to high efficiency lighting

Brighten your home — and the outlook for your energy budget — by replacing your ordinary light bulbs with compact fluorescent bulbs. They use only one fourth of the electricity and last about 10 times as long as incandescent bulbs.

Lighting typically isn't a home's biggest energy user, but you still can reduce your total energy needs by making the switch — particularly on lights that are used more than two hours a day.

For more ways to save energy, call or visit your local Texas-New Mexico Power Company office and ask for the free brochure, "Energy Management Guide."

tions, and for the remainder of their lives, makes me feel good about my contribution to our communities. I am proud to live in Talco- Bogata CISD, and I am grateful to God for His allowing me to be a teacher at Rivercrest. I know we have an outstanding school system and an exemplary student body, and I am proud to be a small part of it all."

Mrs. Russell has Bachelor of Arts and Master of Education Degrees from ETSU in high school English and Business Administration, as well as elementary education certification. She is a lifetime member of Texas State Teachers' Association and an active member of Calvary Baptist Church, Talco, where she is the Church organist and a Sunday School teacher.

A Service of  
Transamerican Diagnostic Services  
(Providing Mammography Services For Over 5 Years)

**1-800-633-6452 FOR APPOINTMENT**

According to the American Cancer Society, one out of nine women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate.

A mammogram can detect a cancer this small, even before it can be felt.

Guidelines For Screening Mammography Established by the American Cancer Society.

I. 35-40 years of age-One baseline mammogram.

II. 40-50 years of age-A mammogram every 1-2 years depending on breast type and risk factor.

III. 50 years of age and over-An annual physical examination and annual mammogram.

IV. A symptomatic woman under 50 years of age with significant high risk factors should be examined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

V. A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast pain.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$60.00. The Unit accepts cash, check, Visa, Mastercard and American Express.

Clean up Precinct #1 Program has Begun

On Saturday, May 1, the Bogata Lion's Club began it's Clean up Precinct #1 project. Their first objective was to get all the trash off of "Rabbit Lane".

Bright and early Saturday morning, Lion's Club members; David Rozell, Mack Howison, Ray Hohenberger, Tommie Corbell, and Johnny Ragsdill showed up with their pickups and trash bags. Don Roach is not a member of the organization, but he brought his pickup and worked with them. It seems that the amount of trash the picked up on just one country road was unbelievable.

They will meet again on Saturday morning, May 8, at 7:30 at the Community House. If you are physically able, please come out and help these men. If you are unable to help with the actual work, please make a donation to help with the expense of renting the trash containers.
