Nursing Home Administration To Be April 1, At PJC

The second part of a nursing home administration course, scheduled to begin earlier, has been postponed to April according to Nancy Jackson, facilitator for continuing education health programs at Paris Junior College. Persons interested in becoming nursing home administrators in the state must take a 200 hour, fourpart course to meet state requirements. They make take any part of the course first, Mrs. Jackson said, so anyone interested in becoming a licensed administrator should enroll in

Tuition for the second portion is \$100, which should be paid by mailing a check to Mrs. Jackson, Box 217, Paris Junior College, or going by her office in the Downtown Center.

Instructor for the course is J.W. Ashmore, who has been chairman of the Division of Business and Management at PJC for 11 years. The course is required before application for state licensure examinations and is applicable toward an associate degree in nursing home administration. Classes will be from 9 a.m. to 4 p.m. for seven Thursdays in the Alford Center at PJC.

The Southwest's Leader in Exciting Energy-Saving Domes!

Residential • Commercial • Church

Geodesic Domes and Homes has been supplying energy-efficient domes to the dynamic Southwest since 1957. Designed by leading architects, our domes can provide 30-50% savings in energy, are easy to assemble, and are completely engineered to meet building codes with the classification of frame structures. We have plans from 400 to 4,000 sq. ft. . . . and larger. Freight savings will result from our convenient location in the Southwest. Send today for your complete information package. The low price of \$12.50 includes dozens of floor plans, costs, and general information on domes. This price is completely refunded with the purchase of any kit.

GARDEN

From My Garden

Depending upon where you live, the vegetable gardening season is underway or just around the corner. If you have even a small amount of space available, this is the year to set aside all excuses and discover the enjoyment that comes with planting a seed or dropping a plant that may be watched day-to-day until such time as it provides the centerpiece for a family meal.

There is great satisfaction in being able to say, "This garden," whether the subject is tomatoes, peppers, peas or beans. What you can do in the backyard is limited only by the space you have to work with and the quality of the soil. You space limitations, but you can improve soil quality as will tell you how easy it is to take a soil sample for an analysis to determine which amendments are needed to make the soil productive.

Texas is a large and geographically diverse state . . . but this can be a drawback. With 644 miles of coastline and a 1200 mile border with Mexico, Texas has become a haven for drug smugglers.

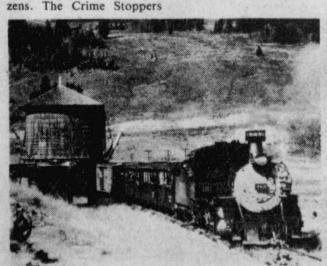

Airplanes, boats and land vehicles enter Texas daily, carrying tons of drugs and leaving countless victims behind, making drug trafficking the number one crime

problem in Texas. Law enforcement officers cannot adequately battle these cunning criminals without the aid of concerned citi-

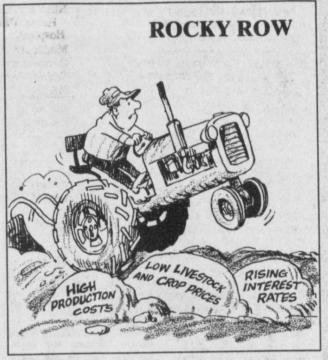

Advisory Council is ready to help bring a screeching halt to this lucrative drug business in Texas.

For the month of March, the Council will focus the "Crime of the Month" on drug smuggling. Any citizen smuggling and trafficking operations is asked to call the anti-crime hotline at 1-800-252-TIPS. Cash rewards are leading to the arrest and indictment of these criminals. Citizens do not have to reveal their name, just their information, and they will be given a unique code number

for identification purposes. Governor Clements and the Texas Legislature have provided tough new laws to fight drug trafficking, but they cannot do it alone. Call 1-800-252-TIPS today with any information you may have on drug smuggling in Texas. Help shut down this menace to our state.

ONLY GOD KNOWS

February 28, 1982

Devotional Reading: Psalms 119: 113-125.

The latter portion of Mark 13 is one of the hardest portions of the gospels for us to understand. Jesus warns of both dark days ahead and "the Son of man coming in clouds with great power and glory" (13: 26). The vision is concluded with this picture: "And then he will send out the angels, and gather his elect from the four winds, from the ends of the earth to the ends of heaven" (13: 27).

What is really confusing to us is the statement that: "this generation will not pass away before all these things take place" (13: 30). How shall we understand this? We know that "these things" have not taken place yet, let alone within 'this generation," (referring, of course, to those who heard him).

Only The Father On the basis of those words many Christians have claimed to know precisely when the promises were to be fulfilled. To date, all proven to be in error, although almost every day we read of another group or prophet warning us of the eminent demise of the

We can spend hours and hours speculating and arguing over these words or we

can concentrate on the words we do understand: "But of that day or that hour no one knows, not even the angels in heaven, nor the Son, but only the Father" (13: 32). Lest You Be Found Asleep

The proper activity of the follower of Christ will not be passive waiting upon some mountaintop, but active discipleship and witness after the example which Christ set before us. We are to be vigilant "lest he come suddenly and find you asleep" (13: 36). To be found "asleep." is not to be physically asleep, but spiritually. If we are spiritually awake and alert, we will be found by him in the midst of the work of his of these predictions have kingdom. We will be ministering to the needs of others; we will be witnessing, not to the bad news of Armageddon, but the Good News of God's redeeming love in Christ Jesus.
