A Big Land Deal

J. D. Kinnison left Sunday evening for Fort Worth to close up a big real estate deal. He intends to visit the black land belt and bring out some land buyers. He has sold his insurance business to Chas. E. Rutledge, and will devote all his time to the land business. He says his advertising in the Free Press all summer is bringing results. He supplemented this handsome compliment to the Free Press with a \$20 bill, to be applied to more advertising. In view of the splendid conditions in this country, and the fact that Mr. Kinnison is going after the land buyers, where they have

surplus money, we look for him to sell a large number of fine farms in this county this summer and fall.

We wish him every success, for Haskell county needs more good farmers from the black belt. If all the land agents will get busy, we believe it will bring them many good commissions. We hope when business opens up they will cooperate. Get in touch with your own customers and let the other fellows alone. This is the only way to succeed.

Rufe Smith, J. R. Johnson and Jno McGregor went to Wichita Falls Tuesday, on business for the Farmers Union.

SYMPHONY CLUB PROGRAM GOOD

Musical Feature, as Well as Playlet, Was Well Received by Pleased Audience.

The ladies of the Symphony Club on last Friday night won new laurels for themselves, at the same time furnishing an evening of most pleasing entertainment for those of the Haskell citizens who attended their program of musical numbers and the playlet, entitled "American Beauties." The attendance was not large, nothing like the ladies deserved, but this fact was, no doubt, due to the warm weather. However, those who did attend were well pleased and all spoke in most complimentary terms of the manner in which the program was rendered, the artistic rendition showing that much time and study had been put into the preparation of the same.

The ladies realized a fairly neat sum from the sale of seats, and the same is to be applied to the piano fund of the Symphony Club.

The first number on the program was the chorus, "Carmena," which was heartily encored, the ladies responding graciously.

Next came an octette, "Blow, Balmly Breeze," by Mesdames Bernard, Bailey, Lewis, Cogdell and Cahill, and Misses McConnell, Kinnard and Neathery. This number also was encored, the ladies responding with "My Old Kentucky Home," which was a rare treat.

After the octette came the playlet, "Six American Beauties." This was a one-act play, the scene being a living room, and the time the present. The cast was composed of Mesdames Richard Nolen and J. E. Bernard, and Misses Gladys Wright, Lois McConnell, Vera Neathery and Elma Kinnard. This feature of the program was highly pleasing, and involved some real comical complications. American Beauties also amply demonstrated that Haskell is not lacking in the art histrionic.

The chorus "Pond Lilies," by the club, received warm applause, the ladies again responding to an encore.

Then came the sextette, "My Japanese Lady," by Mesdames Cahill, Codgell, Long, Nolen and Misses Vera Neathery and Gladys Wright. This was one of the hits of the evening. In this number the ladies were attired in Japanese costumes, and the stage setting was in accord, making this feature quite charming.

The solo, "Sonny Boy," by Mrs. Scott Key was a highly pleasing feature, as was the closing chorus, "Pine Tree Fairies," by the club.

Mrs. O. E. Patterson was accompanist for the evening, and Miss Yettie Cummins assisted on the violin.

This write-up would be wholly incomplete without mentioning the playing of Miss Ruth Walden, at the piano, between numbers, and the piano duets by Misses Walden and Mary Steadman, which received generous applause.

The ladies of the Symphony Club are to be congratulated on the success of their offering of Friday night.

HASKELL WINS AND LOSES, TOO

Last Friday's Game Easily Won by Locals--Monday's Game is Another Story.

Haskell 5, Stamford 2.

The Stamford Baseball Nine journeyed over to our city last Friday; likewise they journeyed back the same day, with defeat hovering around the cars that conveyed them—they had had a session with the Haskell nine. However, it was a good game, and well enjoyed by those in attendance, and Stamford has a good team, if they did fail to beat Haskell, and the Stamford boys intimate that they expect to retaliate at some future time, at a time when they get the Haskell team on their home preserves.

Patty, on the mound for Haskell, was invincible, Stamford only securing one clean hit off his delivery, that being a single by Thomas. Many fans declare that he pitched by far the best game witnessed on local grounds this season. He struck out 17 men during the game.

Wyatt started in to do mound duty for Stamford, but was unable to get his spitter working properly. In the third frame, Patty, first up for Haskell, got a clean single over second base. Lemmons was safe on a fielder's choice; Dial booted Stanton's infield hit, which filled the bases, and a hit by Donaho put the game on ice for Haskell in this inning.

Following is the box score of the Stamford-Haskell game:

And—Another Story

On Monday afternoon there was another game, this time Haskell's opponents being the Rule team. In this game Haskell was defeated, the score being 3 to 1. Quattlebaum was the pitcher on duty for the Rules, and his work proved efficient. Patty worked again in this game for Haskell, and did good work, but the Haskell boys were unable to overcome the "jinx" that seemed to be hovering around their camp, hence the result, as above stated.

Carload of Mitchells Unloaded.

W. A. Whatley, who is local representative of the Mitchell cars, on Monday of this week received and unloaded a carload of Mitchells. Mr. Whatley reports the sale and delivery last week of a Baby Six Mitchell to Mr. J. H. Steele of Anson.

Guy Hemphill, of Sweetwater, was here last week attending county court. He visited his parents, Mr. and Mrs. Jacob Hemphill while here.

B. Y. P. U. Social

A Social was given at the home of Rev. and Mrs. Wm Groom for these members and their friends of the B. Y. P. U. on Friday evening. A most delightful time was spent in playing various games. Several of the guest furnished music for the evening. Refreshments which consisted of punch and cake were served. The guests departed at a late hour expressing themselves as having spent one of the jolliest evenings of the season.

Are Optimists

Courtney Hunt and Jim Fields, were over from Haskell Tuesday and spent the evening conferring with Elmer Wall, manager of their house here. Courtney Hunt and Jim Fields belong to the optimistic bunch—two of those who have endeavored to look into the future and are of the opinion that the present year is going to be one of the most prosperous Haskell county has ever experienced. That this conviction is sincere is evidence by the fact that they are constantly adding to their Rule store. Read the ads in this and future issues of this paper.—Rule Review.

Boy Scouts on Long Hike

Haskell Patrol No. 1, Boy Scouts of America, left on Monday afternoon for a cross-country hike to California Creek, about thirty-five miles distant. There were about twenty boys in the patrol and they were under the leadership of Scoutmaster T. C. Williams. The boys walked the entire distance, and a wagon-load of provisions accompanied. They will spend a week in camping out, fishing and other sports that are dear to the hearts of Young American

Local Nimrods Among Finny Tribe

Wallace Alexander and Chas. Parsons left on last Wednesday to spend a week's outing, in an endeavor to get a close interview with members of the finny tribe. They were well equipped, having a bountiful store of provisions, fishing tackle and a boat aboard their wagon when last seen before departing. It is our prediction that they will return with the "goods" in the shape of a good catch of fish.

Yeomen Picnic

A big picnic was scheduled for Thursday by the local Homestead of the Brotherhood of American Yeomen. This event took place so near our press time that we were unable to give a detailed account, but a fuller write up will appear next week.

Mr. M. R. Smith of Sagert on, is visiting in this city.

New Seasonable Dry Goods, Linens, Notions; Ladies' Children's and Men's Furnishings; Dresses, Middy Blouses and Summer Millinery. This is a wonderful opportunity to buy all your summer requirements and save a very substantial sum. You have the opportunity of choosing from the biggest and best stock we have ever assembled, and you may absolutely depend upon the quality and style of every article.

Ladies Ready-to-Wear

We carry the largest stock of waists, skirts, silk dresses, tub dresses and suits in Haskell county. These goods must go regardless of prices. While attending the big sale in St. Louis we picked up some unusual bargains in ladies and childrens dresses.

Summer Millinery

Now is the time to purchase your mid-summer millinery. We have a large stock at this season, and we bought the very latest summer shapes. All the millinery, ready trimmed go in this sale

One Half Price

Shapes that you may select and have trimmed while you wait, will be priced at the lowest price possible. We dont expect to carry over any summer millinery, and if prices will move goods, we want have a shape left.

Men's Clothes

Nothing like it ever offered the Haskell trade. While in the St. Louis market we found a manufacturer with 75 summer suits left on his hands, and was very anxious to turn them into cash rather than carry them over another season. We made him a cash offer and he scratched his head awhile and said you may have them but your customers will think you stole them if you sell them at the price you say you will sell them at. Each suit has the manufacturer's retail selling price on the sleeve, and we will leave it up to you if the reductions on these suits want move them out quickly.

Maxwell

"The Wonder Car"

16 Great Service Branches—54 Maxwell District Offices—More than 2,000 Maxwell Dealers are always at the Service of Those Who Drive Maxwell Cars

When you buy an automobile you buy two kinds of service. First:—The service given and guaranteed by the car itself. Second:—The service given by the maker and the dealer while the car is in use.

The service the Maxwell car gives is known. 38,000 satisfied Maxwell owners have given the car the rough and tumble acid test of fully eighteen months' service. The Maxwell has shown that it is able to stand up under the severest use. In cities, over country roads, through mud and sand and up the steepest mountains, the 1915 Maxwell has made good for 38,000 owners.

THE SERVICE THAT THE MAXWELL MOTOR COMPANY GIVES

The service that the Maxwell car gives cannot be questioned. Any automobile owner from time to time requires service

from the maker of the car he drives. He sometimes needs new parts, adjustments, etc.

16 GREAT MAXWELL SERVICE BRANCHES

The Maxwell Motor Company takes care of Maxwell owners by maintaining 16 great Maxwell Service Branches. These branches are in great cities which have been selected in such a manner as to thoroughly cover the United States. They can deliver parts to any Maxwell dealer or Maxwell owner within a few hours.

54 MAXWELL DISTRICT OFFICES

54 Maxwell District Offices are maintained in leading cities. This means 54 District Managers, each with a corps of assistants. A great big part of the work of this army of skilled men is to see that Maxwell dealers give real Maxwell service to Maxwell owners.

MORE THAN 2,000 MAXWELL DEALERS ALWAYS AT YOUR SERVICE

Each of the Maxwell dealers in the United States and Canada is an automobile expert. Anyone of them stands ready at all times to give advice and assistance to any Maxwell owner. You can tour all of the United States and Canada and should your car require the attention of an expert you will find a Maxwell dealer near at hand. If you need a replacement part, and the dealer does not have it in stock, he can get it for you from the nearest Maxwell branch within a few hours.

Maxwell owners never have their cars out of service for days or weeks at a time waiting for replacement parts.

The \$695 Maxwell "Wonder Car" is the greatest real automobile value ever offered. The service that the Maxwell Motor Company gives is not surpassed by the service given by any other automobile manufacturing organization in the world.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

Attractive Streamline Body
Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

A High-Tension Magneto
Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

Left Side Drive—Central Control
Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

Three-Speed Sliding Gear Transmission
All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

Double-Shell Radiator with Shock Absorbing Device

The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

The Roomy Full 5-Passenger Body Adjustable Front Seat

The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—so fit no one.

Low "Up-keep" Carburetor

The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tests conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

Irreversible Steering Gear

The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its adjustment over any other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

Heavy Car Comfort

What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

One Size of Tire—Anti-Skids on Rear

The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 29 inch x 2 1/2 inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

A Dependable Electric Starter

For \$25 extra, you can have your Maxwell delivered equipped with the famous Simms-Hug electric starter. This starter is efficient, trouble proof and easily operated.

And the Maxwell is completely equipped with the clear vision, ventilating windshield at the front to the spare tire carrier at the rear.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

Farmers' Institute Meeting

The newly organized "Farmers and Business Men's Institute and Co-operative Marketing Agency," which was organized at Haskell on May 15th, will hold its regular monthly meeting on Saturday, June 5th.

At this meeting the delegates to the Farmers State Institution will be elected and program and other standing committees will be appointed.

It is important that all enrolled members attend this meeting. As the number of delegates which we can elect and depend upon the number of members of the Institute, it is hoped that each will bring as many new members as possible. If your neighbor is too busy to come on that day get him to consent for you to add his name to the list of members, and if you can not come write a postal or a letter to the clerk and give him the new names you have secured.

The new marketing feature connected with this Institute should make it valuable to every person who expects to sell or buy any produce or live stock. Explain it to your friends and they will join.

Come prepared to present or discuss any question of present importance to the farming interest. As harvest time for small grain is here, it would be interesting to discuss questions relative to the care, etc., of wheat and oats after harvest, also the preparation of the stubble land for another crop together with what will be best or most profitable to plant on the stubble. The State Department of Agriculture is especially interested in these Institute meetings, being anxious that they be kept up so that the department can communicate information through them to the largest possible number of farmers.

Two Different Effects

The quality of food is very largely determined by the ingredients in the baking powder with which it is made. Cream of tartar baking powders, such as Dr. Price's, add only healthful qualities to the food.

The cream of tartar of Dr. Price's Cream Baking Powder as used in food has the same wholesome effect on the digestive system as the cream of tartar in grapes, from which it is derived.

In like manner it is in evidence that the unwholesome effects of alum, which is a mineral acid salt, exist in food made with alum baking powder.

There is a clause on baking powder labels which names all the ingredients. Read it and let it guide you.

Was Generous.

A correspondent writes that a Russian commander took a horse he liked from a German farmer and remarked that, to prove the Russians were not so black as painted, he would pay him for it. Thereupon he handed the farmer a ruble (51 cents), which later proved to have been out of circulation for many years.

LIV-VER-LAX

All the Effectiveness, Not the Effect, of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a long time medical experts, realizing the harmful effects of calomel, have been striving to find a liver cleanser that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound, designed solely for the treatment of liver complaints. The immediate favor it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated and skin sallow, don't delay until it becomes dangerous, nip the trouble in the bud with LIV-VER-LAX. Insist on the genuine, bearing the signature and likewise of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Corner Drug Store.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking

GARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Womans Co-Operative

The Womans Co-Operative met in the Baptist Church Monday May the 24th with a good attendance.

After the business session an interesting program was heard. Mrs. T. E. Bowman gave a splendid report on State Pure Food Inspection. Mrs. Hutto's report was from the State Agricultural Department and was very interesting.

Mrs. Paxton read a good list of "Don'ts" on civics.

The reading by Mrs. Groom was enjoyed by all.

Mrs. Key presented the lesson the "Child at Work for Jesus" in a very impressive way.

This concluded the study course for the year, by a majority vote it was decided to have a program on Civic Improvement, the fourth Monday in June.

Every lady that is interested in a cleaner Haskell is urged to be present at this meeting.

Ask yourselves the following questions and come prepared to offer some suggestion or criticism, that will be helpful.

1st What does Haskell most need in the way of Civic improvement?

2nd How can we best meet this need?

3rd Can we accomplish a great deal to make our town sanitary and attractive?

4th If not, why not?

5th What can each one do to help along the movement for a Cleaner Haskell?

6th What will each one of us do in this cause?

Mr. A. F. Pagan,
C/o The Texas Company,
El Paso, Texas.
Dear Sir:

Confirming conversation with you regarding use of "Crater compound" on our kiln gears, beg to say that for two years we tried to lubricate them with grease and other black oils without much success.

At that time, two years ago, you put in your "Crater" and I doubted the advisability of attempting to run the main girth gear any longer, but am pleased to say that the wear was stopped almost completely by the use of "Crater". The same gears are running today with promise of a long time yet. You can see the value of this, as this gear and pinion cost us about \$600.00 without expense and loss of time in replacing.

Our gear lubrication on kilns and coolers was reduced in cost over 50% by use of "Crater" in addition to the above benefits.

Yours truly,

UNIVERSITY OF TEXAS IDEALLY LOCATED

By popular election in September, 1881, the University of Texas was located in Austin. The wisdom of this selection becomes increasingly apparent as the years go on. Three regions typical of a vast extent of the state lie contiguous to Austin: (1) the picturesque hills of the Edwards Plateau to the west, a typical ranching country; (2) the rolling prairie to the north and east, a sample of the great blackland cotton belt of Texas; (3) to the south the Colorado river bottom, a region of large plantations, reminiscent of the earliest settlements of Texas, when colonists sought the rich bottom lands, and similar to the very productive sections on the Brazos, the Trinity, and other smaller rivers. It is particularly fitting that the State University, the head of the public school system of the state, where thousands of students, rich and poor, from every portion of the state come early for instruction, should be located in a section that sums up in itself such a vast extent of the commonwealth which it serves.

Lake Austin from the craggy side of Mt. Bonnell.

The above photograph was taken a few miles above the University boat-house on Lake Austin, where the magnificent lake, thirty-five miles long, and over a mile wide in places, invites the hardy young Texans to wholesome outdoor sports when the drill of class and laboratory instruction for the week is ended.

Texas Pharmaceutical Association

The thirty sixth annual convention of the Texas Pharmaceutical Association will meet in Houston, Tuesday, Wednesday, and Thursday, June 15, 16 and 17. Houston druggists are co-operating with the Chamber of Commerce of that city to give this convention the greatest line of entertainment ever handed out to any state association meeting. Every member will be feasted, treated, given auto and boat rides, a trip to Galveston, if you want to go, and for every hour of your time, when the association is not in session, something worth while will be provided.

If you are not a member make up your mind to join now, if you are a member begin to arrange your affairs for your annual outing and come to Houston.

Write to E. G. Eberle, Dallas, or O. C. Lang, Houston, for information.

Crops Not Affected By Moon.

Scientists are now convinced that the moon has no more influence on crops than it has upon the temperature or the amount of rain or the winds or any other weather elements. The growth of plants depends upon the amount of food in the soil and in the air that is available for them and upon temperature, light and moisture. The moon obviously does not affect the character of the soil in any way, neither does it affect the composition of the atmosphere. The only remaining way in which it could influence plant growth, therefore, is by its light. Recent experiments, however, show that full daylight is about 600,000 times brighter than full moon light, yet when a plant gets 1-100th part of normal daylight it thrives little better than in absolute darkness. If 1-100th part of normal daylight is thus too little to stimulate a plant it seems quite certain that a 600,000th part can not have any effect at all. It is therefore a mere waste of time to think about the moon in connection with the planting of crops. The moon, say the scientists, has nothing more to do with the building of fences, the time for killing hogs, or any other of the innumerable things over which it was once supposed to exert a strong influence.—News Letter, United States Department of Agriculture.

The Cigarette

"In ten years from today a man or boy who smokes cigarettes will be unable to secure work," said County Superintendent Pringle last Saturday. Thousand of large corporations and industrial concerns are following the action of the Edison and Ford companies in refusing to employ cigarette smokers already. The Ford automobile company added to their anti-cigarette notice the following reasons: "We have two objects in interesting ourselves in this matter. First, to help the men and boys; second, we believe that men who do not smoke cigarettes or frequent the saloons can make better automobiles than those that do."—Marlin Democrat.

Dog Breaks Man's Leg

Frank Hille, a farmer near here has the distinction of being the victim of the most peculiar accident that has ever met a man in this county. A few days ago while walking around in the field his attention was called to his dog running a rabbit in his direction, and thinking he would assist the dog, he ran across and headed the rabbit; but the dog did not see the rabbit when it turned and kept its course straight ahead and ran against Mr. Hille, knocking him down and breaking his leg just below the knee.—Rochester Express

She Had Already Dined

She was a little girl and very polite. It was the first time she had been on a visit alone, and she had been carefully instructed how to behave. "If they ask you to dine with them," papa had said, "you must say, 'no thank you, I have already dined.'" It turned out just as papa had anticipated. "Come along Majorie," said our little friend's father, "you must have a bite with us." "No, thank you," said the little girl with dignity, "I have already dined."—Boston Globe.

Arkansas was awarded the flag of merit for having done more toward civic improvement last year than any other Southern State. HASKELL SUMMER NORMAL

Some Information Regarding the Opening of School on Monday, June 7th.

Numerous questions are being asked in regard to the Haskell Summer Normal. The following information may, therefore, be of interest to the readers of the Free Press:

Work in the Normal will begin Monday, June 7, and will continue until July 20. This gives students who enroll at the beginning of the session the opportunity of writing at both series of examinations.

The tuition fee has been fixed at eight dollars (\$8.00) for the full term, or for any fraction thereof.

Board and rooms:

Some of the best homes in the city have been thrown open for the accommodation of the summer students. Excellent board and room may be had at prices ranging from four to five dollars per week.

Primary Children:

In connection with the Normal there will be conducted a class in Primary work. The object in conducting this class is to demonstrate the best of modern METHODS of Primary instruction. It should be distinctly understood that the instruction given will not change the grades of the children as given at the close of the public school term. However, the work of this class will be both interesting and profitable, and only a limited number of pupils can be accommodated in this class. Parents interested will be furnished details in the near future by Supt. H. H. Guice of Stamford who is to conduct the Normal.

Grammar Grades and High School Pupils: The Summer Normal is primarily a place for prospective teachers. The work undertaken is of such a character as to assist candidates for certificates. Therefore, it is useless to say that pupils desiring to make up work in which they have failed in the public schools cannot be taken into these TEACHERS' classes with the idea of making public school GRADES.

We are informed by Conductor Guice that the prospects are good for a large enrollment in the Haskell Summer Normal, and it is hoped that all local teachers who are interested in attending a normal this summer will plan to attend. The fact that the classes will not be over crowded will make it possible for the members of the Faculty to give much personal assistance to the members of their classes. This feature will appeal very strongly to the average candidate for certification. Full information can be obtained by addressing Supt. H. H. Guice, Stamford, Texas.

Following is a list of the faculty: H. H. Guice, Conductor, Stamford, H. E. Bell, Haskell, A. L. Duff, Benjamin, T. L. Hiner, Aspermont, N. S. Holland, Woodson, Miss Julia Lipscomb, Marlin.

"WHO PAYS?" PHOTOPLAYS

Splendid Series of Out-of-the-Ordinary Pictures Begun at Dick's Theatre.

According to previous announcement, the new series which the management of Dicks Theater has secured, was begun on Wednesday night. This is a series of pictures, entirely out of the ordinary; different from the usual run of serial pictures, in that each installment, which consists of three reels, is a complete story with itself. The title for the "Who Pays?" series on Wednesday night was "The Price of Fame" and was a fine production. The title for next week will be "The Pursuit of Pleasure."

It will be of interest to know that the stars in this series of photoplays (and they are good ones, too) are Texas people. They are Miss Ruth Roland, who was raised at Belton, Texas. These two stars' work is extra good, and Mr. Nolan is being congratulated on every hand for his enterprise in having secured the "Who Pays?" series of pictures.

Mr. Nolan also announces that he has secured the Mutual Master pictures, which will begin in this city on the 8th of June. This is also a noted series of photoplays, in which such stars as Robert Edson, Dustin Farnum, William S. Hart and many other notables appear.

No Reason For It

When Haskell Citizens Show A Way

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who found relief. Read what a Haskell woman says.

Mrs. C. H. Foote, Haskell, says: "My back was very weak and sometimes I couldn't get around to do anything. I suffered badly from rheumatic pains in my limbs and often they became swollen. Doan's Kidney Pills, that I got from the Corner Drug Store, relieved me right away. My back was strengthened and the pains and swellings went away after I had used about six boxes of this medicine."

Price 50c, at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills — the same that Mrs. Foote had. Foster-Milburn Co., Props., Buffalo, N. Y.

An editor recently received the following letter: Please send me a few copies of the paper which had the obituary and verses of my child about a week or so ago. Also publish the enclosed clipping about my niece's marriage. And I wish you would mention in your local columns, if it don't cost anything, that I have two bull calves to sell. Please send me a couple of extra papers this week. As my subscription is out, please stop my paper, as money is too scarce to be wasted on paper.—Ex.

Wait Paint

There are painters and waiters. Which am I going to do? Paint or wait?

Which is better? How much am I worth with property waiting? How much if I paint? Will my house be worth more or less if I paint?

Say it costs \$2 a gallon Devoe — I wouldn't paint any other — and \$3 or \$4 more for putting it on. That's \$50 or \$60 a 10-gallon job.

The money is gone. Is it in the house? Suppose I were selling; What should I get for it needing paint? I wonder why men paint before selling!

Devoe John W. Pace Co. sells it.

"The Store of Quality"

B. W. M. W.

Monday at 3 o'clock a number of ladies, by invitation, met with the colored sisters in their Mission society, in the colored Baptist church. It did us all good to be there, and realize with what earnestness that they were struggling to be a blessing to their race and to honor our Great God and Father. May we never miss an opportunity to lend a helping hand in the glorifying of our Master.

At 4 o'clock the Co-operative meeting met in our church and it was certainly a pity for any one to be absent from this good meeting.

Next Monday we will have our devotional meeting. Religion does not set aside the common avocations of life; but while it allows or enjoins the employment it sanctifies the motive, that are to govern in their performance and says do this not with the views of the thoughtless worldling but do all to the glory of God. Let your industry, diligence reflect honor of the gospel.

God sees thee in the day of fain, knows thy every secret sorrow, He sees thee in thy cheerful hours and knows how these hours are spent.—Reporter

Pleasant Surprise

Lucille was a carefully brought up little girl of five, and she returned in high glee from her first party. "I was a good girl," she announced, "an' I talked nice all the time."

"Did you remember to say something nice to Mrs. Applegate just before leaving?" asked her mother.

"Oh, yes, I did," responded Lucille. "I smiled at her and said: 'I enjoyed myself very much. Mrs. Applegate. I had lots more to eat than I 'spected to have.'"—Chicago Register.

Contentment in the home is largely responsible for success in farming and for higher ideals of citizenship. No man who hasn't the confidence and co-operation of his family in whatever he undertakes is likely to succeed. It takes family co-operation to succeed in farming. There is work for all, burdens for all and rejoicing enough for all. No life is fuller of pleasure and has greater possibilities for useful service than farming, but people must like it to succeed.—Farm and Ranch.

Head of Waco Printers Dies

Waco, May 26—Succumbing to acute dilatation of the heart which became apparent last Saturday, W. J. Stillwell, aged 34, president of the Waco Typographical Union, died suddenly this morning. He was an officer at one time in the State Printers' Council. His widow and father survive. The body was sent to Rogers today for burial.

Elks' Anniversary Reception

Haskell Lodge, 1158 B. P. O. E. celebrated their sixth anniversary on Tuesday evening, May 25th with a reception. Dancing was the order of the evening, and refreshments were served to those who were present. This was an enjoyable event.

The Fort Worth Record in commenting on the death of a man at a Dallas hotel, says that the dead man registered at a hotel, and death is believed to have been due to heart failure. We have known for some time that a fellow with a weak heart had better be careful where he registers when in Dallas.—Fearl County News.

Young Friend, Poverty is no Barrier, You Can Succeed

The one thing absolutely necessary to success is the rugged determination that makes a fellow grit his teeth, clench his fist, and say, "I can because I will!" Your place in the world depends not upon circumstances but upon you. Whether or not you will attain a high position in the work of your choice; whether you will give orders or only take them; whether your pay will be "wages" or "salary"—all this depends upon your determination. First, last, and all the time, he wins that turns a resolute face to the grim old world, and answers its challenge with an unflinching "I can succeed." Every man that wills it can be a success.

The supply of "average" workmen is usually greater than the demand. That is why the unskilled live so often in dread of idleness, with its specters of humiliation and discouragement. The market for untrained help grows narrower with every invention of a labor-saving machine, and with every "examination" safeguard adopted by states or employers. The demand of today is for trained men—men qualified to answer satisfactorily the world's unavoidable "What Can You Do?" Every busy business office demands the keeping of books, the handling of cotton, the filling in of contracts and other legal documents, shorthand, typewriting, or the operating of a telegraph key. Young man, young woman, can you do these things for which the business world offers to pay handsomely? Say to yourself, "I can succeed, I will succeed," and write for catalog today, asking for credit plan if necessary. State confidentially your financial condition, and the course you are interested in. Make the start. DO IT NOW. Tyler Commercial College, Tyler, Tex. America's business training university.

WHEN driving a binder it's aggravating to have to stop because "the twine went wrong."

Sometimes the trouble is a bad spot in the twine—sometimes a tangled ball. Such delays are the real price you pay for cheap twine.

PLYMOUTH TWINE

speeds up the work—cuts down the costs. Plymouth is stronger and ties more bundles than any other brand. The quality never varies and the balls don't fall down. If you want an easy and economical harvest, get your twine from us. And take our advice, order Plymouth EARLY.

EDITOR VISITS WEINERT; OBSERVATIONS OF TRIP

The editor boarded the Wichita Valley train Tuesday morning, and went to Weinert, where we spent a most pleasant and profitable day. We made the round of the city, visiting the Weinert State Bank, where we found the Cashier, Mr. A. R. Couch, the successful and promising young banker, was in charge. Next was the general store of J. E. Robertson. This business is in a substantial brick building owned by the proprietor and has a grocery and dry goods department. In the absence of Mr. Robertson, who with Mrs. Robertson attended the Baptist convention at Houston last week, and is spending this week at Galveston, we found Mr. John McCullough in charge. The next business on the south side visited was the City Market owned by Dr. E. E. Cockerell; then came the hotel, owned and managed by E. Meyer, who is one of the progressive German citizens of that city. The Cockerell Drug Co., in charge of Mr. Dunn, and the postoffice presided over by Mrs. Cockerell, was one of the prosperous and prominent places in the city on the north side. Next came the Weinert Mercantile Co., under the management of E. Meyers, then the tansorial parlor presided over by Homer King, who has earned an enviable reputation as a tansorial artist. As we passed the restaurant of Mr. Thomas, the savory odors, caused hunger and a profuse flow of saliva. Jud Frost in his fruit and confectionery store was busy with a big run of trade. McNeill & Smith Hardware Co., under the management of N. I. McCollum, was the next place visited and they were putting out binder twine, furniture and hardware. It looked like prosperity was in full blast with their customers. We then visited the house of the Weinert Elevator Co., where we found Jud Ridling. This house put out two thousand pounds of binder twine during the day. Mr. Ridling stated that his company shipped about 100 cars of oats last season and 40 cars of wheat, and that during the cotton season, they weighed 7,000 bales of cotton. Next we visited D. J. Jones, Groceries. Mr. Jones has a good business and made our visit a most pleasant one. W. J. Howell was the man who bought the poultry and dairy products, and is doing a thriving business. Weinert has three gins of the most modern design and efficiency. Mr. Moore, a typical blacksmith, was kept busy by the farmers sharpening the plows, that is to bring continued prosperity to this city and environs. S. P. Black is in charge of the station for the Wichita Valley, and meets all passengers with a smile.

Last Saturday two severe and small hail storms visited Weinert. Mr. H. Weinert had two hundred acres of the best wheat ruined, and W. J. Fairis lost a big field of fine wheat. One of the hails came at three and one at six o'clock. At the hotel we met several of the ranchmen, C. T. Jones, Henry Jones from Arizona, Dud Boone and H. R. Rich. Messrs. Rich and Boone got back from San Antonio last week with a bunch of five hundred head of cows and calves. They are on grass in the old Morton pasture that will put the flesh on them. We also met Elmer Heath at the Hotel and he gave us his subscription to the Free Press.

We gathered the personal that Mrs. F. A. Buchanan of Altus, Oklahoma is visiting her parents, Mr. and Mrs. W. L. Farley.

Jno. E. Robertson and wife are in Galveston. G. H. Taylor and wife were in that city shopping Tuesday, and visited with Mr. and Mrs. Jno Fouts. Mr. Bettis of Walnut Springs, vice-president of the Weinert State Bank, and a stock farmer, was in the city. I. N. Furrh and wife were in the city. By courtesy of Mr. J. W. Collins, we returned to Haskell in his auto, with himself, C. D. Long and Jud Ridling. We got a splendid view of the country from Weinert to the Collins Ranch and between there and town. In the thirty years we have been here, we never saw such crops and fine pastures.

June 10, 11 and 12 According to all reports Corpus Christi is preparing to set a new record in the way of entertainment for the Texas Press association which meets in the "Under-towless City" June 10, 11 and 12. A good business program is offered for the meeting, hotel accommodations are ample and railroad rates are satisfactory. It looks very much like any newspaper man who stays away from the Corpus Christi meeting—unless detained by sickness or urgent business—will do so just because he's too mean to get out and enjoy himself.

DICK'S THEATER

Look Here

I want to tell the people of Haskell county that I have the largest stock of paints and wall paper that ever has been in Haskell county, and I bought them for you. So don't send off like some of our business men in Haskell have done to buy your paint and paper without first coming around to Whitman's Paint Store and examining his paints and paper and get his prices. He carries different brands of Paints. Sherwin-Williams the best paints on the market and the only paint that has its ingredients of what it is made of printed on each bucket and can. We also carry Southern DeVoes and Rogers and will sell you Southern DeVoes at \$1.55 per gallon and Rogers at \$1.75 per gallon, and will sell you nice wall paper for \$1.00 a room 14 ft. square.

Hail Does Damage

Denton, May 23.—According to reports here today hail did much damage Friday night in several parts of the county. At Justin W. H. Harris, W. E. Pafford and S. T. Coleman suffered heavily from severe damage to about 700 acres of wheat. East of town, in the Lloyd section, hail covered the ground to a depth of five or six inches, and much damage to cotton and garden stuff is reported. In places in this section entire field of cotton will have to be replanted.

Lame Back.

Lame back is usually due to rheumatism of the muscles of the back. Hard working people are most likely to suffer from it. Relief may be had by massaging the back with Chamberlain's Liniment two or three times a day. Try it. Obtainable everywhere.

Oil Craze Strikes Bell County

Belton May 23.—The oil craze has struck Bell county with irresistible force, and so great has been the rush within the past three weeks to record oil leases in the office of the county clerk that extra help has been employed and half of the time of the entire force has been devoted to that line of work. The leases cover thousands of acres of land scattered all over the county and the work of securing additional leases continues. Companies are being organized and one of the latter has started drilling near Salado.

Prospects Near Rule.

The report is that within sixty days it is likely that operation will begin within a few miles of Rule by oil men. Prospects on the J. H. Ellis place are exceedingly promising and it is likely that a well will be drilled there, as it is believed that if oil is found around Rule it will be near the Ellis place. —Rule Review.

Says Grain Prospects Are Good

J. L. Hudson, of Stamford, who represents the Pierce-Fordyce Oil Association in these parts, was a Haskell visitor Tuesday. Mr. Hudson is one of the real live wires of the traveling fraternity. To a representative of the Free Press Mr. Hudson stated that he had been a close observer of the grain crop this season, and that the crop is exceedingly good, especially in the Haskell country. He is of the opinion that, barring hail storms or other mishaps, that a bumper crop will be realized this season. Mr. Hudson named one crop in particular as being extra fine, being a field of beardless wheat west of Haskell on the Rule road.

UNIVERSITY OF TEXAS DOMESTIC SCIENCE LABORATORY; FUTURE HOUSEWIVES LEARNING FOOD VALUES

Statisticians estimate that \$9,000,000,000.00 is spent annually in the United States to satisfy the primary wants of man; food, shelter, clothing. Women spend three-fourths of this vast sum. Is it not the part of wisdom for the state to see to it that they are equipped to spend this money judiciously? To teach the future housewives of Texas this important art is being attempted with splendid success by the University of Texas, at Austin, through its department of domestic economy. Girls are here afforded scientific instruction in all that pertains to home-making. The student is taught to judge textiles properly, the elements of dress-making, home decoration, the value of home-furnishings, food values, cooking, and so on. In short, girls are given a thorough course in the science and art of home-making.

HASKELL, TEXAS, May 29, 1915.

In Germany one in 213 goes to college; in Scotland, one in 520; in the United States, one in 2,000 and in England, one in 5,000. —Star Telegram.

Courts and their adjuncts, the bar, consume more taxes and ruin more people than they protect, under the present system. Yet the personal qualities of the judges, and many of the lawyers are above reproach. Can there be no relief from such a system?

There is no mistake about there being an extensive prejudice among people who have not had the school advantages of an education, and who are lacking in the proper home training against the refined, educated young men and women from the colleges. We frequently hear remarks made evidencing this prejudice. Many parents who have been deprived of the proper opportunities make criticisms in the presence of their children, and keep them from getting any advantage of the training the state provides in the public schools. They destroy in this way the influence of the training and cultural influence of the teachers. It is the

same old fight against ignorant prejudice and culture. Have parents the right to be a stumbling block to their children?

We met a friend on the street a few days ago and we asked him if he ever read any of our editorials, and he said, no, because they did not suit him. His reply produced what we think is a good philosophical idea in our cranium, and we replied "that we wanted him to read what we said and then go off and ask himself seriously if we were not right after all." And we promised him to reciprocate and go off and ask ourself if he was not right and if we were not a fool for writing them. It has occurred to us that this practice would make us all broader and more tolerant.

Texas Bankers To Finance Cotton Crop

Waco, Texas, May 26, at the annual meeting of the Texas Bankers Association in this city recently resolutions were unanimously adopted condemning the past methods of marketing cotton in Texas and pledging the financial and moral support of the membership of the organization in perfecting a system of successfully marketing future cotton crops of Texas.

The resolutions advocate the organization of bankers, farmers and other business men in every county in the state for the purpose of carrying on educational work in order to bring about an intelligent plan of selling the staple.

The meeting was attended by bankers, from practically every county in the state and the membership went on record as favoring the present warehouse law and pronounced the warehouse receipt, issued under this law a bonded, negotiable and safe instrument. The resolution as adopted states that the selling price of cotton, should at all times be based on the price of production and upon the law of supply and demand.

Definite plans for handling the 1915 crop are now under way and will be made public in the near future.

Alleged Flag is Misused

The attorney general's department is receiving information to the effect that the Thirty-third legislature prohibiting the act of the Texas flag for advertising purposes is being violated, the information being that the flag is used on stationary of certain persons and concerns, that it is used on labels and brands of certain articles of merchandise and in some places is painted on business signs. It seems that this law has been in effect since July 1, 1914 and was construed by the attorney general's department to prohibit the use of the flag for any character of advertising, under severe penalties for its violation. The attorney general's department will doubtless direct the local county attorneys over the state to this law and to the reports in regard to the violation thereof.—Farm and Ranch.

NEVER BEFORE A SALE LIKE THIS

**THE GREATEST SALE EVENT
IN THE HISTORY OF THE TRADE**

STARTS FRIDAY AT GRISSOMS'

Beginning Friday, May 28th and continuing through Saturday June 5th, we place on sale our great purchases from the Ely & Walker Dry Goods Company's Two and one-half Million Dollar Sale. Last week during this big sale our buyer was on the spot and among the first to make selections from this mammoth sale of new seasonable goods. This sale is the culmination of one of the most remarkable scoops in modern merchandising in which \$2,500,000 worth of choicest seasonable wares were involved. ELY & WALKER DRY GOODS CO., of St Louis purchased for cash at a discount vastly below their appraised value the entire stock of the HARGADINE McKETTRECK DRY GOODS CO., of St Louis, amounting to \$1,500,000, to which they added \$1,000,000 worth of merchandise of their own, embracing full assortments of all classes of silks, dress goods, cotton goods, hosiery, underwear, muslin wear ribbons, laces, embroideries, waists, skirts, etc.

These were placed on sale in St. Louis on May 17. Ever on the alert to give our patrons the benefit of every profitable trade opportunity we purchased many of the choicest lots. The purchase of the Hargadine McKettrick Dry Goods Co. WAS THE SURPRISE OF THE COMMERCIAL WORLD, as Har-

gadine McKettrick Dry Goods Co., was one of the leading jobbing concerns of America for the past 80 years. This momentous sale event will be conducted simultaneously by the foremost stores of the country and will be ushered in here, **Friday, May 28th**. It promises the people the greatest values on honest, dependable, standard high quality merchandise ever known in this community. Come prepared to supply your wants for the entire summer, you will find it fully worth your while. Read the items below. This is only a partial list. Many, many others can be had in the Store. **NOTICE—This is for CASH. No Exceptions.**

Look at Me I am Well.

"I cannot say too much for Peruna. It has entirely cured me of my trouble. My eye lids were thick and red nearly all the time. My eyes were especially sensitive to light. Catarrh was my trouble. I had had my eyes treated and took a great deal of medicine, but nothing seemed to help me until I tried Peruna. I always use Peruna when my family need it. Always find it very good; it helps wonderfully. You can use my testimonial anywhere you wish to." So says Mrs. C. Skehan, No. 514 S. Leavitt St., Chicago, Ill.

46 Hail Losses

These losses were to growing grain crops in the State of Texas and were reported from the following agencies: Fredericksburg, Comport, Talpa, Lueders, Stamford, Boerne, Burleson, Iowa Park, Electra, Wichita Falls, and Lockney.

The vast scope of country affected gives an idea of the extent of these destructive storms. The losses that were insured are rapidly being adjusted. We have seven adjusters at work, and each claim is given prompt and careful attention.

Below is a statement made in the "Talpa Post" under date of May 7th, 1915.

This article is written and published for the benefit of folks that hesitate to insure their crops because they believe they will not receive their insurance money should their crops be destroyed by hail. Last Friday at 2 P. M. the hail came. On Monday I came before the local agents, J. W. Sayre and J. C. Lewis, and placed my claim for damages. They telegraphed Cravens & Cage General Agent, about the claim; they wired E. B. Henly of Brownwood to come up and adjust the matter. He arrived here Wednesday night and Thursday came to my place and settled my claim at once, and to my entire satisfaction. Some of my acquaintances doubted that I would ever receive any damages, and rather made light of my insuring my crop. I want to say that I am glad that the hail hit me instead of them, for if it had been otherwise, they, with out the insurance would be weeping and wailing against their luck, when in fact they would only be to blame for the lack of business judgement. As a "Poor Farmer Friend of the Unlucky" I want to advise all parties that have crops that are liable to be destroyed by hail to call at once and take out the necessary insurance to protect them against "Bad Luck." Remember the hail falls on the just and unjust alike.—E. I. Bedell

Married at Abilene
Miss Helen Gaanett, one of the teachers in the Haskell public schools, left the city on the 19th, for Abilene, and on the evening of the 20th was married in that city to Mr. William Meyers, of near Pecos. The ceremony was performed by the Episcopal Rector, of Abilene. Following the ceremony the happy couple left for Pecos, where they will make their home. We extend congratulations.

S. G. Dean, President of the State Post Master's Association left Sunday for Waco, where that body was called to meet in annual session.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

Best Thing for a Bilious Attack.
"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets, and the next day I felt like a new man," writes H. C. Bailey, Editor Carolina News, Chapin, S. C. Mrs. John Couch Entertains
Mrs. John Couch entertained the ladies of the Magazine Club at the beautifully appointed club room, on Wednesday afternoon, May, 19, from 4 to 6 P. M., with an informal reception, and "42", honoring her guests, Mrs. Roy Browning of Rotan, and Mrs. Andrus of Blum. The room was beautifully decorated with cut flowers, and over the doors and windows trailed the sweet-scented honeysuckle. Dainty pink baskets filled with roses were suspended from the windows. Mrs. W. H. Murchison gave a gracious welcome at the door.

Mrs. Couch was assisted in receiving by Mesdames Geo. Andrus (Blum), Roy Browning (Rotan), Henry Johnson, J. U. Fields, Courtney Hunt and Robert Reynolds.

A delightful feature of the afternoon was the musical program which lent a new zest to the enthusiastic games of Forty-Two, which followed.

Mesdames Earl Cogdell and O. E. Patterson rendered with rare artistic interpretation Carl Koelling's Hungarian Rhapsody. The following numbers were rendered in a truly delightful manner:

At dawn, Cabman—Mrs. Scot Key.

O, That We Two Were Maying; Nevin—Mesdames Werther Long and Buford Long.

"Rustling of Spring," Finding; "Humoresque," Dvorack—Mrs. O. E. Patterson.

Dainty score cards were passed by Misses Delores Daugherty and Pauline Glasgow. After eight games had been played, a delicious ice course was served by Mrs. Couch, Miss Lee Couch and Misses Daugherty and Glasgow.

Invigorating to the Pale and Sickly

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c

The Free Press does high grade job printing, and at prices you can afford to pay. Give us your next order. We will guarantee to please you.

Good Receipts by J. W. Neill
The following recipes, by J. W. Neill, of the Agricultural Department, are handed the Free Press for publication by County Clerk R. R. English. These are valuable recipes, and we would suggest that you clip them out and preserve to a time when you might wish to use one or more of them:

TO POISON RATS.
Place a large box 3 or 4 feet long on the barn floor, near the door and about 3 inches from the wall; this makes a good runway, cut out at the bottom a 3 in. strip to allow the rats to go into the box, make an opening in the top of the box and through these openings put in a bait, consisting of oat meal made in the form of dough, toasted bread moistened, ordinary bread and butter, meat scraps, fish scraps, barbecued rabbit cut into small particles, the baiting should be continued for several days, or until you think you have them all coming there. Then put out poison bait, using Barium Carbonate (Chemically pure) by spreading it over the scraps or mixing it with the dough at the rate of 1-8 part of the mineral to 1 part of the bait, this has neither taste nor smell and creates a burning thirst for water, which will cause most of them to leave the premises to die, or use arsenic or strychnine the same way, when the Carbonate can not be had.

TO POISON SPARROWS
Dissolve 1 oz. strychnine in 2 pints of water, stir 1 teaspoonful saccharine into the poison, add 1-2 pint salt, stir well, then add slowly 3-4 pint of fine flour stir it while adding it to the poison, heat slowly and stir thoroughly let dry and use after the baiting for a second poison, dissolve 1 oz. arsenate of soda in a pint of warm water, pour into a fruit jar, put in chops of corn or grain keep it well shaken and tightly closed for

To Drive Out Malaria And Build Up The System
Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

24 hrs, this can be put around droppings on the street or place some straw on the ground weight it down with a weight to prevent blowing away and sprinkle some of the poison mesh around it.

TO KEEP FLIES AWAY FROM STOCK

Dissolve 1 lb. hard soap in 1 gal. boiling remove from the fire and pour in 2 gal. kerosene and stir vigorously for about 15 to 20 minutes, or until it forms a creamy mass. Add 27 gal water (1 to 9) Now boil 1 lb. strong tobacco in 1 gal. water, strain into the mixture spray on stock with a spray carrying a pressure of about 65 lbs. repeat every 2 or 3 days.

How Mrs. Harrod got Rid of her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

Card of Thanks
We wish to express our heart felt thanks to those who helped us in the erection of our home and those who have denoted bedding, clothing and money or any thing toward our personal comfort or relief. We feel grateful to our friends and neighbors. Mr. Mrs. T. A. Pinkerton for taking us into their home and caring for us in their kind and good manner.

May the Lord's richest blessings rest up in this family and all others who contributed to our relief and comfort. While the cyclone has caused us great temporal losses yet these losses in no wise can compare to the sweet spiritual blessings that has been ours in these misfortunes.—Mr. and Mrs. J. P. Ashley and Family.
