EVERY VISIT TO OUR YARD MAKES A FRIEND

Sad and Sweet

Of all sad words that pen has writ—
The saddest, we think are "please remit"
And the sweetest words of all, by heck!
To read in our mail—"Inclosed find
check."

Business has no self-starters—you
have to crank it.

The British will soon have the road
from Jerusalem to Jericho so that a
man can pass from one to the other
without falling among thieves.

If you are punctual to keep the exact
hour set apart to meet those who have
promised to be on time, you will find
yourself to be a great time waster.

A country editor once wrote that the
country newspaper was the biggest
trust on earth. It trusts everybody,
gets cussed for trusting, and if it busts
for trusting, gets cussed for busting.

A Haskell mother was asked the other
day if she did not wish she knew as
much as her children thought she
knew. "No," said the mother, "I wish
I knew as much as my children think
they know."

People often misunderstand what you
say or write as in the case of the doctor
who told the patient to drink water
an hour before each meal. Two days
later he asked the sick man if he was
carrying out these instructions. "Well,
not exactly," said the patient, "you see
I drank for twenty minutes doctor, but
I was so full that I couldn't hold any
more."

H. T. Hamlett of Fayette county
writes in the Farm and Ranch of last
week that one of his famous Rhode
Island Red hens laid an egg 9 3/4 by 7 3/4
inches, which contained another perfectly
formed egg inside; and that she had
laid another egg nearly as large but he
had not examined it to see what it con-
tained and he made the statement that
it was just about time for the hen to

lay another egg. Either Hamlett or
the hen is getting things mixed up, but
as Hamlett vouches for his part of the
story, it must be the hen.

A dashing city man remarked to a
farmer friend:

"The other day we autoed to the
country club and golfed all day, then
trolleyed back to town and danced till
morning."

The farmer "got back" in this language:

"I've been having some time myself.
Yesterday I muled to the field and ge-
hewed till sundown. Then I suppered
till dark and piped till nine. Then I
bedstedded till five o'clock, then break-
fasted till it was time to go mulling
again."

Someone Must Take the Lead

Someone must take the lead in every
section of the country when it
comes to taking up or introducing new
things. Someone buys the first mowing
machines or self binder, the first cream
separator, or the first washing machine.
These people are often the subject of
ridicule by others who are not pro-
gressive enough to see the advantages
that are bound to accrue to the invest-
ors. But this feeling of ridicule is
of short duration, for it is but a little
while until the things have proved their
worth to the owner. And others will
follow in the footsteps of progression,
because they see those things are money-
makers. They realize that the sooner they
get in line the better off they are.

We would have you apply this same
rule to the raising of pure bred poultry.
Be a leader in your community.
If possible, at any rate get in line with
some pure bred stock. The cattle,
sheep and hog men have merged from
the scrub into the pure bred stock and
have proven beyond a doubt that pure
bred stock is a paying proposition.
Knowing from observation and experi-
ence, the superiority of pure bred live
stock over the common stock of the

country, we are led to believe that poultry
will do the same thing. When the
proof is set forth that good chickens
like good live stock, are of more value
to the breeder than the mongrel, the
people will be ready to fall in line.

A wide-awake poultryman is a boon
to any locality. It is not necessary for
him to get out and preach the doctrine
of pure bred poultry, his signal success
stands out boldly, telling the tale of
success more effectively than words
could express it. Have you such men
in your community? Do not close
your eyes or turn a deaf ear upon
his progressive work, don't let jealousy
keep you out of the same boat. Get in
line at the earliest opportunity.

BALLEW

Everybody is busy putting up their
land or handling water. Water is cer-
tainly scarce in this community.

The German measles are entertaining
most every family in this community,
glad to say though they are not so bad
as we expected.

We have organized a Red Cross Aux-
iliary at Ballew and will have our first
meeting Friday afternoon. Mr. J. C.
Holt donated his little house for the
work to be carried on in, so we are to
have a regular R. C. room. Mrs.
Leona Josselert presented a machine,
Mrs. J. H. Cunningham a stove—it is
needless to say our entire community
is interested. We welcome visitors ev-
ery Friday evening.

Mrs. J. C. Holt received the news of
her grandson, James Patterson, getting
kicked by a horse at his parent's home
in New Mexico. Mrs. Holt left immedi-
ately for that place. We have since re-
ceived word from her that his jawbone
was broken but he is improving rapidly.

Our Sunday school is growing every
Sunday. Come next Sunday.

Mrs. Mabel Toliver is still very sick
and is improving slowly.

Walter Holt came in Tuesday from
Pueblo, Colo., for a visit with his
parents.

The party given by Tom Robinson
Saturday night was enjoyed by all present.

I'll be going.

The party at G. M. Sim's Saturday
night was enjoyed by all present.

Bro. Walthall preached a fine ser-
mon Sunday. We had a good Sunday
school too. A large crowd was present.
All come again.

Singing was enjoyed at the home of

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, ... and the pains were very severe. A friend told me I had tried everything else, why not Cardui? ... I did, and soon saw it was helping me ... After 12 bottles, I am strong and well."

TROUBLE COST HER A THOUSAND DOLLARS

Was Confined to Her Home For Four Years—Goes to Movies Now and Enjoys Life

"When my friends and neighbors see me going out to the movies with my daughters and enjoying life once more they tell me they can hardly believe I am the same bed-ridden woman they have known me to be for the last four years," said Mrs. G. A. Andrews, of 1111 1/2 Street in Park, Haskell, the other day.

"I was laid up for more than 4 years with rheumatism so I was unable to leave my house, and fully half the time I lay flat on my back in bed unable to move. My body and limbs were so swollen they seemed to be twice their natural size and my face was puffed up so I could hardly see. My back hurt all the time and I could lie on neither side with comfort. My kidneys gave me no end of trouble, my head ached all the time like it would burst, and my feet and finger tips tingled like they were asleep. My nerves were all on edge so I would go all to pieces at any little noise and what little sleep I got did me any good. My appetite failed and I got so I had to force myself to eat enough to keep alive.

"I had spent all of a thousand dollars trying to get well, but nothing did me any good and I was about to give up hope when I heard of Tanlac. I was actually amazed to find I was getting better from the first two doses. I have taken three bottles so far and the swelling has entirely disappeared. My nerves are all right and I can sleep all night with comfort. I am so hungry I can hardly eat enough to satisfy my appetite and I have so much life and energy I want to keep on the go all the time. I help with the housework and the sewing and I signed my name today for the first time in four years. I could not have believed it possible for any medicine to do so much good in so short a time as Tanlac has done for me."

Tanlac is sold in Haskell by Reid's Drug Store; in Rochester by H. G. Ramby; in Weibert by E. E. Cockerell; in Rule by Golden Rule Drug Store; in Sagerton by W. W. Martin; in Nabors by Mrs. L. A. Bouldin, and in Whitefield by T. B. Higgenbotham.

The Optic Disc, or Blind Spot in The Eye Easily Demonstrated

Hold this paper about a foot from your face, cover the left eye, and look with the right directly at the cross. At the same time you will be conscious of the presence of the black dot at the right of where you are looking. Now slowly move the paper nearer and farther from your face, always keeping your eye upon the cross, and you will find that at one position the black dot will entirely disappear, leaving the paper of an unbroken whiteness.

This is only because the rays from the black dot are now falling upon the Optic Disc and therefore produce no sensation. Draw the paper nearer and the dot will again appear; carry the paper back and it once more disappears; continue to draw the paper away and the dot again becomes visible. Be sure to keep the left eye covered.

Can you explain why the blind spot is no inconvenience to us?

Some Indications of Eye Strain

Headaches, eyes tire easily, light hurts them, type gradually or suddenly blurs and becomes less distinct, holding reading matter more than 14 inches from the eyes, holding it nearer than this point, seeing better a little to one side, squinting, sleepy sensation upon reading a while, etc., etc.

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

WOMEN'S WORK DEPARTMENT.

One of the most important branches of Red Cross work which has been taken up by the Women's Department is that of providing clothing for the thousands of refugees in the districts that have been covered by the war. At present it is the French and Belgian refugees for whom the most clothing is being made. The various pattern companies have published a list of the garments, and many of our Red Cross Chapters have taken up the work of making the clothing.

It can be done at home, as the garments made must above all be durable. It is useless to send articles made from flimsy materials that cannot stand the very hard wear that is to be expected. For this reason do not ask for secondhand goods. Partially worn garments should be kept for the poor in this country, and we should send abroad things made of new strong materials.

For outer garments should be dark colors. They may be striped or plain colors, preferably black, gray or navy blue—never very little green. The French have a dislike of bright colors, and at this time, when the family is in mourning, they particularly inappreciate, even clothing for the little children should be dark, excepting, of course, for the babies. It is almost impossible to get laundry work done dry. There is no soap to be had, little hot water. All these conditions must be considered in selecting materials for the clothing.

There is need for about twice as much underwear as outer garments, this holds true in all ages. There is special need for clothing for the men from 1 to 3 years of age. If local stores do not have the Red Cross patterns they may be ordered from your Red Cross chapter, or supply service at 517 North Broadway, St. Louis.

Among the most wanted articles are the following:

Men's petticoats, made with a waistband. McCall pattern 100-A is for a year-old child, 100-B is for a 2-year-old, 100-C for 4 years old, and so on up to 100-H for a 12-year-old. The

Honoring Mrs. Sanders

On Tuesday eve, at the home of Mrs. R. C. Montgomery, Mrs. P. D. Sanders, as the retiring president of the Missionary Society, was the guest of honor. Mrs. J. U. Fields and Mrs. Montgomery the hostesses.

About 45 ladies, all co-workers with Mrs. Sanders, were present.

As the guests entered they were greeted by Mrs. O. E. Patterson and presented to the receiving line, which consisted of the hostesses, the four charter members of the society, and the honoree.

After all the guests had arrived, the hostesses passed little booklets among them, and each one was requested to write a life history of the person whose name was written on the first page of the book. Of course that name was Mrs. P. D. Sanders, and many and beautiful were the tributes paid; written as if one thought was in the minds of all—a life of loving service.

Each could point to some loving act, some sweet sacrifice, some words of cheer spoken, as neighbor, or as president of the society, as teacher in the Sunday school or as mother in the home. For Mrs. Sanders learned long ago that joy comes of loving service and that righteousness is the fruit of love itself.

Her life has been a busy one, having at some time during her stay here, filled every office in the gift of the society; busy in the work of loving deeds, joyful about doing good; making another's burden lighter by helping to carry the load; making the child's heart glad by leading it over the rough places and making the home happy by living those truths which prove the Fatherhood of God and the brotherhood of man.

Mrs. S. R. Rike, in a very interesting manner, gave a short history of the society from its organization to the present time.

She stated that much of its success, both spiritually and financially, was due to the untiring efforts of Mrs. Sanders.

Mrs. Westbrook of Rule, a former neighbor of Mrs. Sanders, came over to be present on this most pleasant occasion.

Mrs. Fields, speaking for herself and Mrs. Montgomery, told of the many, many ways in which the honoree had influenced their lives and by advice and example had led the way to loftier heights for them to attain.

As a token of their love and appreciation the hostesses presented to the honoree a beautiful sterling silver cake knife.

Mrs. Sanders responded as only a heart full of love can, and when all joined hands and softly sang, "Blest be the Tie that Binds" our hearts beat in unison and our silent prayers were that God would spare to us the woman we loved and honored, for many, many years.

And when she has climbed to the pinnacle of life's mountain, may she look back the pathway and see the guide posts she has planted, steering the traveler in the paths that lead to Glory.

Lovely refreshments were served during the afternoon and each guest declared Mrs. Fields and Mrs. Montgomery were ideal hostesses and the evening one of the most pleasant they had ever spent.

George Glass left Wednesday night for Abilene where he will make his future home.

Methodist Auxiliary

Twenty-four women were present for Bible lesson, which proved one of spiritual uplift, and also very instructive. Perhaps everyone does not know that the word God does not occur in the Book of Esther. This finishes the book. Mrs. Fields asks that we read the book again as we are to review the whole next time.

The Auxiliary has a membership campaign on and every woman in the Methodist church is asked to join. If you do not wish to join you are welcome to come any time. If the woman knew what they were missing in the wonderful Bible lessons, and other good things, every woman in the church would come as often as possible.

Met Monday evening in the church. We were delighted to have Mrs. Murchison, county chairman of the W. S. Stamp Association meet with us. The Society went into the organization of a Thrift Club, and Mrs. J. M. White was elected president and Mrs. Herbert Arbuckle, secretary. This is the first Thrift Club to be organized in Haskell county.

The motion carried to invite the District Meeting of the West Texas B. W. M. W. to meet in Haskell this year.

The study this evening was "Home Mission Work." Miss Minadel Davis explained the work. Mrs. A. J. Smith in her interesting way told the "Heart to Heart" letter of one of the Indian Missionaries.

Next Monday will be on Mexico Missions and it's to be hoped every member will be present.

Your Letter Went Astray

Because you forgot to address it.
Because you forgot to stamp it.
Because you forgot to put the town or state on it.
Because you put only two cents on letter and one cent on postal card.
Because you did not put street number, (in city).
Because you used a revenue stamp instead of a postage stamp.
Because you wrote the address so badly that no one could read it.
Because you wrote the address too near the top of the envelope and the postmarking and cancelling stamp obliterated it.

In addition to the above mistakes, you neglect to post your mail until a few minutes before time to close windows at the office, and then pile in a large per cent of the day's mail, hence the force in the office is worked like "fighting fire" to get it off that day, and some insist that we still take in mail after that time, which is impossible for us to do.

The Postmaster General has recently asked all postmasters to request patrons of their office to post a good portion of their mail by noon, so there will not be such a congestion of the mail toward the closing hour.

The war has caused such increase in the amount of mails, that it is almost impossible to handle it without extra expense unless this is done, and he asks this of the people as a matter of patriotism.

Please preserve this for future reference and it will keep your letters from going astray, and save you and the postoffice force a great deal of annoyance.

Respectfully,
S. G. Dean, Postmaster.

in a short time these gallant young men, whose parents, brothers and sisters, wives and sweethearts are your own neighbors, will be IN the front line trenches, under the ferocious fire of enemy artillery, and going "over the top" to meet the sweeping hail of machine guns and the bayonets of the Huns.
If these soldier boys—YOUR soldier boys—were three miles away instead of three hundred yards, you would bend every energy, exhaust every resource, make every sacrifice, and be sure that they were fed, clothed, armed and equipped as no soldiers ever were before.

S. Thrift Stamps Save Lives and Shorten the War

There is one thing you can do, every day, to help the Government provide the ammunition, food, clothing and other supplies which our soldiers and sailors need to win the war, win it quickly, and come safely home again.
Go today to any bank, any postoffice, or any store where you see the W. S. S. (War Savings Stamps) sign displayed.
For 25 cents you will receive a U. S. Thrift Stamp and a card to paste it on. The card has spaces for 16 stamps, costing you \$4. When it is full, exchange it—with a few cents additional in cash—for a War Savings Stamp, for which the Government will pay you \$5 January 1, 1923.
These War Savings Stamps are as safe as U. S. Bonds. They are the safest investment in the world because they are backed by the entire resources of the country, and the profit you make on them amounts to four per cent interest, compounded quarterly if held till January 1, 1923.
Buy a U. S. Thrift Stamp with every quarter you can possibly save. Every stamp you buy to stamp out autocracy. Every stamp saves priceless American blood. Every stamp is a blow for Liberty. Every stamp will help bring peace to the world—a permanent peace, grounded in justice and righteousness.

CIRCLE LADIES

THANK THE W. O. W.

Red Cross Notes

This has been a very busy and important week at the Haskell Chapter of the Red Cross. Mrs. Isadore K. Kahn of Dallas has been here instructing a class in surgical dressings.

Mrs. Kahn has a class of twenty ladies, and there were many more applicants than could be accommodated. She says that Haskell is fortunate indeed in having such beautiful workrooms, and they should be filled by workers all the time.

"The slogan of the Red Cross is: 'Do as you are told and ask no questions,'" said Mrs. Kahn. She further said, "We must not waste valuable time in useless questions, nor in social conversation, for the work rooms are for work, and we must always remember that we are helping win the war, and must serve as efficiently as the soldiers in the trenches.

"We must lay aside all personalities and realize we are not working for one another, but for humanity.

"There must be no children, dogs, or cats in the workroom, and all of those who have sickness at home should be excluded. It seems necessary to repeat again that gauze dressings should be made in a room devoted to this purpose, that workers must have the hair and street clothes covered, that gauze must not be taken into homes to be cut or to be made, that gauze must not be exposed either before or after being made into dressings, and that every workroom must have a qualified instructor.

"Let us continue to stress, new members, more auxiliaries, more donations, and the cause will grow and prosper every day."

Those who compose the class are: Mesdames Lewis, Murphy, Dunn, C. B. Long, John Oates, H. E. Fields, Maynor, Lee, Courtney Hunt, Biedsoe, Morgan, Misses Hoyt, English, Fields, Walthall, Hallmark, Fitzgerald, White.

The letter given below so voices a noble and patriotic sentiment that we are publishing it in full, hoping some of our other citizens who have moved away will follow this admirable example of Judge Foster:

All donations are appreciated and mean a great deal to our soldiers whom we must support in every way possible. This is the best way to keep the morale of our army irrefragable.

"Rule, Texas, March 8, 1918.
 To Haskell Chapter of American Red Cross:—

"For many years I have given at least one-fourth of my income for various charities, Christian causes, and Christian institutions, such as Missions, (Home and Foreign), orphan asylums, various work of the church, pastors salary, incidental expenses of the church,

Christian education, etc., and now as we are in the midst of a great war, in which the American people are engaged fighting for liberty, humanity, democracy and the very life and stability of our country, there are many things to support, and among them is the great work of the Red Cross. We have only one boy and he is now in the Army, having volunteered in May, 1917, and he is now doing his bit for his country, and while I am too old and physically unable to shoulder a gun and enter the trenches, yet I shall do my bit to the best of my ability, by giving of my substance to support those in the trenches, by buying war bonds, giving to the Red Cross work at several places, but we now desire to assist the work in our old home where we lived for more than 24 years, so we enclose check for \$20.00 for that purpose.

Yours truly,
 Mr. and Mrs. Arthur C. Foster."

TEXAS VULCANIZING PLANT IS STILL IMPROVING

W. A. Whatley, manager of the Texas Garage, states that the Vulcanizing Plant recently installed in the new building across from the garage, is running in full blast, with enough work on hand now to keep them running for some time, and more coming in every day. He also states that they keep a man on the road all the time, boosting Haskell and this up-to-date garage and vulcanizing plant.

New stock shelves, tube racks, and office furniture has been added, and you are invited to call and inspect this model plant.

DEBATE AT FOSTER CREATES INTEREST

The subject, "Resolved, That All Nations Should Abolish Monarchical Form of Government at the World's Peace Conference at the Close of the War", was debated by Taylor White of Brushy and Guy Taylor of Foster on the affirmative and Elmer Watson of Post and John Lee Smith of Rose on the negative at Foster schoolhouse last Friday night, in which the negative were victorious. Those who witnessed the contest report a hard fought battle and the boys proved themselves to be equal to the task of presenting their side very forcibly. The young men are all teachers and were able to make the subject very interesting and instructive to all.

Library Notes

Everyone seemed to thoroughly enjoy the "Open House" Friday night, and many remarked that the talks given on Chinese Curios by Mrs. Key and Korean Curios by Miss Mildred Smith were better than any talks they had heard given by Missionaries. The Library is to be open every Friday night and you will be welcomed.

The Library has received books this week from Mrs. Gaylord Kline of Corpus Christi, Mrs. Potts of Stamford, and "Carolyn of the Corners" sent by Dodd, Mead & Co. After reading this book you will be in sympathy with Carolyn's philosophy, and it's influence for happier living.

Representative Marvin Jones sent the following pamphlets: U. S. Map, Diseases of the Horse, Diseases of Cattle, 1916 Year Book, and Congressional Directory.

The Library is very glad to get books and pamphlets and thank those who have sent them.
