

All Around the Town

by Mary Ann Sarchet

Apologies to those whose news items have been left out of recent editions of the Briscoe County News. We have been having more news than we have advertising to support.

This week we sold some space to an advertising agency, Kasum Communications (Kas-Com), Inc. of Tulsa, Oklahoma, for their Town & Country Review, and this necessitated the printing of extra pages which has allowed us to "catch up" and get in the news that was delayed last week. Kas-Com wrote, edited and copyrighted all of the advertising for the Town & Country Review.

Next week will be the annual Graduation Issue which will contain all the pictures and achievements of the Class of 1975 of Silvertown High School. Their Class Will, History and Prophecy will be included in that issue.

For several years Mrs. D. H. Davis has been raising Texas Bluebonnets in the yard at her home. She has more than ever this year, and if you haven't seen them you should drive down South Braidfoot and see these beautiful state flowers in bloom.

TEXAS TALK

by Danny Green

After the Rough Riding was over, Teddy Roosevelt spent a lot of time making what he hoped would be remembered as profound statements. One of those is proving itself more every year . . . "We cannot afford to lose that preeminently typical American, the farmer who owns his own land." Many theories abound. Robert Aubrey lists it as a manifestation of what he calls the "Territorial Imperative." Others observe simply that a man will work harder for himself than for someone else. Undoubtedly true, but another, immeasurable factor is involved . . . pride. American farmers are proud to be able to each produce enough for themselves and 50 others. And they're smart. Smart enough to use the right portions of ecology, mechanization, chemical know-how and management to make the same land produce more every year. In 65 years production per acre has increased more than 620 percent. The Rough Rider was right, we can't afford to lose the family farmer.

MOTHER

It is so important that a child feel secure and loved the first weeks and months of its life. Our foremost authorities say that if a child's spiritual and emotional welfare is neglected in the early weeks of life, there is a great chance of permanent damage to its personality growth.

Therefore, on this day, we honor not only the beloved mothers of our adults and youth, but the very young mother who has both the tremendous responsibility and the precious opportunity to mold the life and character of the very young child. May she seek early God's help, who in the person of the Son, said, "Suffer the little children to come unto me."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

WIND EROSION IS AREA'S GREATEST CONSERVATION PROBLEM

Wind erosion is the greatest conservation problem in this area—it's a problem continually with us year after year. We need to keep in mind that wind erosion occurs anytime strong winds come in contact with dry, loose soils—regardless of moisture conditions. The worst effect that wind erosion has on soils is that of removing the silts, clays and organic matter. This leaves the soils more sandy, less capable of forming clods and less resistant to erosion. When the fine materials are lost, much of the fertility, water holding capacity and nitrogen are lost too.

However damage from dust storms goes much farther than just soil itself. Wind erosion also

damages crops, buildings and fences, and creates health problems and traffic hazards.

The best methods of reducing wind erosion is to carry out sound management practices on your farm.

Stubble mulching is one of the most effective ways to control wind erosion. Stubble mulching is the management of plant residues for year-round protection of the soil surface.

Cover cropping is a management practice that can be carried out to prevent soil erosion. It is usually planted for protection when regular crops are off the land.

Stripcropping can also be practiced. This is when crop strips are run straight and at right angles to the prevailing winds.

A system of crop rotations is commonly used to help reduce wind erosion also.

Shelterbelts affect wind erosion in two ways. First, they lower windspeed enough to keep the soil from moving. Second, they reduce field length and, consequently, soil avalanching.

Hauled-in-mulches can be used to control wind erosion also. Cotton burrs applied at five tons per acre and manure at 6 to 8 tons can effectively control wind erosion.

Where soil erosion still persists emergency tillage can be performed. Emergency tillage helps create a rough, cloddy soil surface to resist the force of the wind.

For further information contact the Soil Conservation Service at Silvertown.

Riley Harris, president of the 4-H Adult Leaders Organization, presided over the meeting which was held April 24, 1975 in the P.C.A. community room.

The June 6-7 rodeo was discussed by 4-H representatives, Calvin Shelton, who represented the Silvertown Young Farmers, and Bill Rampy, sponsor of the F.F.A. chapter.

Ages of contestants will be 19 and under, and all contestants' entry blanks must be notarized.

Adult tickets will be sold for \$2.00 each, and student tickets will be \$1.00 each and will admit all school students.

Belt buckles will be given to the three youths turning in the most money from sale of rodeo tickets. These will be extremely nice buckles, according to Ted Strange and Guinn Fitzgerald, who were appointed to select these prizes.

A calf scramble for children under six years of age will be held June 6-7 during the rodeo. A \$2.00 prize will be given each night to the youngster who re-

CRAIG CULWELL KATHY GARRETT

To Marry Soon

Mr. and Mrs. Dwain Garrett of Kress announce the approaching marriage of their daughter, Kathy Elaine, to Craig Alan Culwell, son of Mr. and Mrs. Dallas Culwell. Plans are being made for a May 31 wedding at 7:00 p.m. at Vigo Methodist Church, Vigo Park. Friends and relatives of the couple are invited to attend.

Culwell is a 1974 graduate of Silverton High School. His fiancée is a junior at Kress High School.

Former Silverton Resident Initiates Special Ceremony

C. H. (Punch) Wright, under whose administration as Precinct 2 commissioner land for Seven Seas and Arlington Stadium was originally purchased, came in for "red carpet treatment" at the sea-life park recently.

Feverishly prepping for its rebirth and 1975 "new look," Seven Seas expressed its appreciation to the Arlington native, now retired. Among those honoring the man for whom "Punch Wright Park," which includes all the entertainment complex, is named, were the sea lions and dolphins, joined by the park's new operating chief, George D. Millay.

A former Silverton resident, Ben Bingham, an employee at Seven Seas since the original groundbreaking and a long-time personal friend of Wright, initiated the ceremony honoring Wright. Bingham is assistant maintenance superintendent and water quality manager.

Wright, who was reared on a farm close by the Arlington entertainment complex and whose father was buried in 1901 in nearby Watson Cemetery, served as commissioner for 20 years, retiring in 1971. Because his 81st birthday is on May 16, a sea lion delivered him a cupcake on her nose. A sea lion and a dolphin shook his hand.

Dear Charlotte,

Do you know the price of a one-way ticket to Africa? If I can find the money, I'm leaving! First the kindergarten goat invades my house—now ANTS!

It all began with strange sawings and hammerings in Bill, Jr.'s upstairs domain. Upon inquiry, I found that he and David Kent were building an ant farm for the Science Fair. "Where are the ants?" I innocently asked. "In those three big jars; but they can't get out, Mamma," came the answer.

—Two lovely spring days later I was called to the telephone at bridge club to hear, "Mamma, Mamma, come home quick; Betty Ann took the lids off the ants and they're everywhere!" And everywhere they were!

A call to John Bourgeois and the East Texas Exterminating Service (who rids the house of everything except one 6-year-old and one scientific 14-year-old!) Before John arrived David and Bill had replenished the jars with new ant families and with mashing pencils embellished each jar with "Poison Do Not Touch" (as if Betty Ann could read!)

They needed a drug store coke after all their efforts, so they were away when East Texas Exterminating arrived!—You guessed it—the jars were sprayed along with the beds, stairs, and Betty Ann—

Have you ever searched for ant hills by flashlight at 10 p.m.?

Why the CO-OP farmer holds more of the future in his own hands.

"Only the farmer has to sell at wholesale, buy at retail, and pay the freight both ways." You've heard that bitter adage many times.

But 45 years ago, a group of determined men decided they didn't want to put up with that problem forever. These farmers and ranchers began to manufacture some of the essentials they needed for their agri-business: petroleum products first, then feed, batteries, fertilizer, paint, steel products and much more.

The idea behind this was simple but sound: Manufacture things yourself. Sell them to yourself. Share in the savings. And, put a little aside to build still more factories and facilities.

From this idea grew today's double-circle Co-op, an organization put together by farmers and guided by farmers. Each local association owns a share in an even larger organization, Farmland Industries, operator of the CO-OP factories, oil wells, pipelines, and other facilities. In 1974, this farmer-owned organization produced and distributed over \$1.2 billion in farm and ranch supplies.

Double-circle cooperatives and Farmland Industries have now expanded into meat packing, turkey processing and frozen foods, so that some of what farmers produce is farmer-managed all the way to the supermarket.

Yes, a lot is being done to reverse that old problem of "buying at retail and selling at wholesale." That's been the CO-OP idea from the very beginning... farmers and ranchers doing together what they couldn't get done alone.

JOHN WILKERSON FORD-MERCURY, INC.

John Wilkerson - Owner

Economic progress is like a wheel. When it loses speed it wobbles, and when it stops it falls. Kerplunk.

To keep our economy rolling, Americans must not be afraid to buy what they want and need. Demand means production; more production means more jobs, stronger businesses, and more revenues for our towns and cities, our states and the nation. It adds up to prosperity, and everybody gains.

The automobile is basic to America's economy. It accounts for

one-sixth of our Gross National Product. Thirteen million jobs—one in every six—and 800,000 businesses, from steel companies to the corner service station, depend on the automobile.

Right now is the time to buy a new car. Used car values are high. Operating costs on the 1975 Fords are reduced, and less scheduled maintenance is required. New cars are a good buy—and buying keeps the wheel of progress rolling.

In this 1975 Review we, the editors, offer our praise to this well-

liked dealer who has served this area honestly and faithfully, and suggest to our readers that they make the John Wilkerson Ford-Mercury, Inc. at 901 Northwest Sixth in Tulia, Phone 995-3537, their headquarters for new and used car purchases. A fine service and parts department gives the added plus. These men don't guess at any problems, for with their experience they know the answers to your service problems. John Wilkerson Ford-Mercury, Inc., for the best buy!

tomers are often in a hurry and they make it a special point to take care of their needs just as quickly as possible.

This firm has enjoyed good business because they are on their toes and they handle the best grade of products. You can depend on quick service and complete understanding of the job. They don't have to be asked to check the oil

and tires. These are some of the many services that make up this first rate service station.

The drafters of this 1975 Review unhesitatingly suggest to our readers that they make a point of depending on this reliable service station, L. D.'s Exxon, for their auto service needs.

Top Honors Won In 4-H Judging Contests

Seventeen Briscoe County 4-Hers participated in the April 26 District 2 elimination contests. The 4-Hers represented Briscoe County well, winning many top honors. The Senior Dairy Cattle team, consisting of Jo Jarrett, Brent Brannon and Earl Jarrett, won the right to compete at State 4-H Round-up in June at College Station by placing second. Jo Jarrett was high-point individual overall in the contest.

Mike Cornett, Rose Lee Perkins, Bryan Burson and James Alan Patton, were members of the first-place Junior Dairy Cattle Team. Mike Cornett was high-point individual, and Rose Lee Perkins was second high point individual overall in the contest.

The Junior Horse Judging Team also placed first in the District competition. Members of that team were Cam Forbes, Walter Perkins and Shane Smith. Cam Forbes was third high-point individual overall, and Walter Perkins was high-point individual in performance judging. The team won first in performance judging and second in halter judging.

4-H Finances Reviewed At Leaders Meeting

DELAYED FROM LAST WEEK

At the April 24, 1975 meeting of the 4-H Adult Leaders Association, it was recommended that a financial statement for a one-year

period be publicized for the benefit of those 4-H parents who are often called on to support fund-raising activities.

At this time there are three 4-H accounts at the First State Bank in Silvertown. These are the 4-H Adult Leaders Account, the 4-H Livestock Account and the 4-H Horse Club Account.

The following is an indication of some of the expenses involving the 4-H Adult Leaders Account. Clothing, \$30.00 (includes decorations, expenses for ribbons and awards for Dress Revue and gifts for judges); Food Show, \$45.00 (includes ribbons, awards, cafeteria clean-up and gifts for judges); General, \$610.60 (includes things like Electric Camp, Leadership Lab, Achievement Banquet, gifts, expenses of concession stands and insurance for 4-H members. There is also a \$500.00 obligation to be paid to the State 4-H Center at Brownwood. This Center is now open and Briscoe County will be represented at the 4-H Center at

"Round-up" which will be held in June. Briscoe County pledged \$1,500.00 to the Center and this was to be paid in a three-year period. \$1,000.00 has been paid and the remaining \$500.00 is due by August, 1975.)

The 4-H Livestock Fund is self-sufficient and does not rely on the Adult Leaders Fund for financial support. The 4-H Livestock Fund is maintained by entry fees for the county show and concession stand during the local livestock show. Expenses of the Livestock Fund include ribbons and awards, stock show judge, building maintenance and improvements. The Silvertown F.F.A. is also supportive of the County Show Barn and is sharing the expense of the insurance.

The 4-H Horse Club Fund is also self-sufficient and does not rely on the Adult Leaders Fund for financial support. The 4-H Horse Club is financed by specific Horse Club fund-raising projects, such as the recent light bulb sale and entry fees to the horse shows. Expenses include meals for the trail rides, judges for horse shows, ribbons and awards for horse show contestants. This year the Horse Club is financing its first Invitational Horse Show.

If there is anyone who is being called on as a 4-H parent to support fund-raising efforts and their child is no longer a 4-H member, they should call the County Extension Office and request their name be removed from the 4-H membership roll.

Parent support of the 4-H program is a definite necessity in order for a 4-H program to be alive, according to 4-H Specialists at Texas A&M University.

A treasurer's report April 24, 1975 indicated the Adult Leaders Fund had a balance of \$21.00 Proceeds from the concession stand

ORGANIZATIONAL MEETING HELD AT KINGDOM HALL

An organizational meeting was held by Jehovah's Witnesses this past weekend at the Kingdom Hall in Haskell, according to Rex Tiffin, presiding overseer of the Quitaque congregation, which also serves Silvertown and the surrounding area.

The Circuit Overseer, Frank Nicholson, discussed assignments for the 16 departments required for the operation of the assemblies held twice each year by the 25 congregations comprising this area's circuit. "Actually," said Tiffin, "we will have two sets of assignments, because of the division of the circuit due to continuing increase in attendance. Each section will have its own convention. The various departments are made up entirely of volunteers who give of their time in order that the assemblies may run smoothly, as well as to provide for the essential needs of all of the delegates." Mr. Tiffin serves as an overseer of one of the departments.

The purpose of all this effort, stated Mr. Tiffin, "is to provide another opportunity for the witnesses to become better equipped in their door-to-door ministry and in conducting the free home Bible studies available to all in the community, as well as for all in attendance to benefit from the Bible discourses."

The forthcoming conventions will be held in Arlington, at the Assembly Hall of Jehovah's Witnesses, which was recently acquired and remodeled for the use of several circuits in central Texas. The Quitaque congregation will meet there June 7 and 8.

Mrs. Gracy Adcox and her grandson, Paul Ingram of the United States Navy, have been visiting their sisters-in-law and aunts and

at the recent rodeo totaled \$286.80. Expenses of the concession stand had not been paid, but were estimated at \$70.00. The Silvertown F.F.A. chapter has accepted responsibility for the concession stand at the June 6-7 rodeo.

If there are any questions or comments from 4-H parents concerning the financial statement or 4-H activities, they may be discussed with the County Extension Agents or at the scheduled Adult Leader meetings.

HIGH POINT INDIVIDUAL—Jo Jarrett was high point individual overall in the 4-H Dairy Cattle judging held in Lubbock recently.

their families, Mr. and Mrs. Pat Cogdill and Mr. and Mrs. George Seaney, this week.

DELAYED FROM LAST WEEK

Mr. and Mrs. Berton Hughes and Mrs. C. O. Allard attended services at the First Baptist Church in Sanford on Thursday night, where Dr. Neil Record of Plainview was conducting a revival. Rev. Randy Hughes is the pastor of the church.

Amy Lynne Hughes came home with her grandparents for a visit. They returned her home Sunday.

SAVE \$300 A BAG

You can save \$3.00 a bag on your choice of two excellent Pioneer® brand sorghums — 8417 or 820. It doesn't happen often but right now you can have both ... high quality seed at a bargain price!

PIONEER brand 8417
This versatile yellow endosperm sorghum is a champion yielder in the medium-late maturity class, for irrigated or non irrigated land. It has large open heads, uniform head height, strong stalks for easy threshing and good tolerance to smut.

PIONEER brand 820
This top notch full-season hybrid is a consistently high yielder. Excellent drought resistance and standability plus good roots and stalks make it a good choice for irrigated or non-irrigated farming on the Plains.
