SENATOR WEINERT HERE PAST SATURDAY

Delivered Highly Instructive and Entertaining Address at the Court House

Senator F. C. Weinert was a Haskell visitor last Saturday, spending the day here greeting friends and forming new acquaintances. The Judge is quite well known in this section. The primary purpose of his visit at this time was for explaining the workings of the new cotton warehouse law.

In the afternoon Judge Weinert delivered an address to a fair-sized audience in the district court room at the court house. What the audience lacked in number was more than made up for in interest and enthusiasm by those who heard the talk. Mr. R. E. Sherrill introduced the speaker, making some well-chosen and timely remarks.

Judge Weinert is a convincing and forceful speaker and his address of last Saturday was a treat to those who heard him, being both instructive and entertaining. In a most concise manner he went into details of the warehouse plan, and related many things of the utmost interest to cotton producers. He showed how in various ways the cotton producer is robbed of the benefits of his crop that should justly accrue to his interest. He characterized as outrageous the manner in which cotton raisers are imposed upon by buyers, in the matter of sampling, etc.

The address by Senator Weinert was timely, and it is a great pity that more of the cotton producers of the county were not present to hear the speech.

Judge Weinert's home is at Seguin, but for several years past he has been located in Austin, serving in public capacities. He is a man of great prominence over the State, and doubtless is one of the best informed men in the country on the cotton industry.

Mrs. Fannie Ferguson Dies at Salado

Mrs. Fannie Ferguson, mother of Mrs. F. M. Morton of this city, died at her home at Salado Monday night. Mrs. Ferguson was well known in Haskell, having spent a great deal of time in this city. She has a large host of friends here who will be grieved to learn of her demise. Mrs. Morton was at the bedside when death occurred, having left here Saturday night for Salado when she learned of the serious illness of her mother. Mrs. Morton's brother, Governor Jas. E. Ferguson, was also at his mother's bedside when she passed away. Mr. Morton also left Monday morning for Salado, in response to a message that Mrs. Ferguson could not survive. The funeral was conducted at Salado Tuesday afternoon.

Mrs. Ferguson was born at Tuskegee, Ala., in 1839. With her father, Alvah Fitzpatrick, she came to Victoria County, Texas, in 1841. She married the Rev. James E. Ferguson at the home where she died in December, 1855.

Meeting of Woman's Co-Operative

There will be a call meeting of the Woman's Co-Operative Thursday, Oct. 7, at the Presbyterian Church, for the purpose of electing officers and deciding the course of study for the year.

There has been much discussion as to what will be the most helpful subject to undertake. A few of the suggestions are, "The Call of the World," a book edited by the Laymen's Movement describing the condition of the world in its need for Christ; "Comparative Religions," without any specialized text book; Household Economics and Civics, which offers continuous object lessons in our own homes and town.

After a summer of rest, it is hoped that a rousing clean up campaign, headed by our city officials can be carried to a satisfactory result. If this is well done it will largely prevent the breaking out and alarming spread

of small-pox and other contagious diseases.

A rat crusade is much needed and can be carried out, provided there is co-operation.

Those who are interested in these moves come out next Tuesday and help us put them through. We need and want every woman in Haskell and urge you to come join us and help us to have a CLEANER HASKELL. This is your work. It touches or should touch every home and place of business in the town. Let us all feel a pride not only in our own homes but in our neighbors homes, our business houses, and our entire city: If you think conditions are not as they should be, come out and help us to make them better. They certainly will never improve unless we can cooperate and work for a continued improvement.

ARDMORE IS WRECKED BY EXPLOSION

Ardmore, Okla., Sept. 28.—The death list as a result of yesterday's gasoline and dynamite explosion was brought up to fifty-five this afternoon when the bodies of a man and two small children were found on the site of the destroyed Santa Fe railway freight depot. Of the dead, thirty-six are white and nineteen negroes. Two hundred persons were injured.

The property loss will reach more than \$1,000,000, it is estimated.

The explosion which shook Ardmore to its foundations occurred Monday afternoon when a tank car containing 3,000 gallons of gasoline exploded. For a radius of six blocks in each direction from the Santa Fe freight and passenger depots buildings were destroyed.

Railroad men, including switchmen who were in the yards at the time of the explosion, state that the car of gasoline which caused the disaster was shunted to a siding on account of its being in "bad order." The car was leaking to such an extent that a pool had formed on the ground. When switchmen refused to move the car further, an inspector was called.

Ira Woods, 40, car inspector, according to the story of those who saw him, mounted the car, un-

screwed the cap, and peered in. Just as he did this, the gasoline became ignited and Woods, the car, and every loose piece of material within a hundred yards was hurled through the air. Six hours later a mutilated body was found more than a hundred feet from the scene. It was beyond identity, except that one finger carried a ring on which Woods' initials were engraved.

First reports that there were two explosions were confirmed early today. A quantity of dynamite in the freight storehouse was set off by the concussion of the gasoline explosion. This second explosion came within a second after the first.

Ardmore, Okla., Sept. 28.—A survey today of the damage resulting from yesterday's gasoline explosion reveals more widespread destruction than at first reported. The entire retail district is in ruins and fully a week will be required for repairs before any of the shops and stores may be reopened. For many of them a longer period will be required.

Probably the best estimate that can be placed on the property damage is that practically every brick business house will have to be rebuilt, owing to the brick walls having warped. Merchants Monday afternoon commenced to board up the fronts of buildings. Special policemen were appointed Monday to guard the business section during the night.

The Santa Fe freight depot was demolished and not all of the occupants accounted for. Among those who are known to have escaped is the telegraph operator who sent out the first report of the accident.

So violent was the explosion that the roof of the passenger station, 300 yards away, was blown off.

At the Zoo. A very stout lady at the zoological gardens, says the Philadelphia Record, was seeing the lions fed for the first time, and was rather surprised by the limited amount of meat that was given them. "That seems to me to be a very small piece of meat for the lion," she said to the attendant. The man looked at her with a glimmer of amusement in his eye. "It may seem a small piece to you, mum," he said, "but it's heaps for the lion."

Preserving Patent Leather Shoes. Patent leather shoes should be carefully wiped off with a soft cloth when they are removed and then a few drops of oil should be rubbed into them. This will keep the leather soft and prevent them from cracking.

The Biever Motor Car Company,

Gentlemen:-
I am enclosing report of test of your Maxwell automobile recently made in our laboratory.

I should like to add the following comments:

1. RELIABILITY OF TEST.

A preliminary test was made on April 19th, using a new car which was rather stiff. The showing was so good that we decided to make a second test. This was made on April 30th, using same car. On this test, the car showed less stiffness and the performance was better than on the first car. The second test was supervised by our most careful experts, and the results, I believe to be perfectly reliable.

2. MILEAGE.

The efficiency of the Maxwell automobile as indicated by the number of miles on a level road, is exceptionally high. This mileage record is better than that of any one of forty automobiles tested in our laboratory to date.

3. MOTOR PERFORMANCE.

The efficiency of the motor and carburetor as indicated by the pounds of gasoline used per hour per horse-power at rear tires, is exceedingly good, and indicates very perfect carburetor action over the whole range of speed and load. This record like that on mileage per gallon, is the best one that we have had.

Very truly yours,

E. H. Lockwood

New Orleans Is Storm Swept

New Orleans, La., Sept. 30, via Wireless to Mobile.—Ten persons are known to have been killed, 150 injured, and property loss exceeding \$1,000,000 caused by the destructive West Indian hurricane which struck this city at 6 o'clock last night.

At intervals the gale swept through the city at a velocity of 120 to 130 miles an hour, according to figures of the local weather bureau. The average velocity between 5:30 and 7 p. m. was in excess of eighty miles an hour. Many schools and churches were damaged. The famous French market has been partly demolished and the Masonic Temple is a partial wreck, the roof of the tower having collapsed. More than 8,000 telephones are out of order.

Owing to precautions taken on receipt of weather warnings yesterday, damage to shipping is slight except to small craft. The downtown hotels and public buildings were filled with residents seeking refuge from the gale, who were marooned there throughout the night.

At 9:30 the hurricane had subsided.

Railroad and wire communication out of this city has been cut off and telephone, electric light and trolley service discontinued in the city. All railroads have annulled trains from New Orleans.

Wireless communication from New Orleans was interrupted by failure of the electric plant, but messages were sent from the steamship Creole, anchored below New Orleans in the Mississippi River, to Mobile.

Ink Stains Remo. ed.
Ink stains on garments can be soaked out with a mixture of salt and milk. Use a teaspoonful of salt to nearly a half-glass of milk. The solution can be used for either white or colored fabrics; but if the ink has been allowed to dry it will be necessary to soak the stained part in the milk for an hour or two.—Ladies' World.

County Court Adjourns
 County Court adjourned Wednesday afternoon for the term and the jury was dismissed. All this week the court was occupied with the trial of jury cases on the civil docket. During this session of county court quite a heavy docket was disposed of.

Methodist Missionary Society
 The Methodist Missionary Society met Sept. 27th, at the church. The lesson was the first in this years bible course, with Mrs. Turrentine, teacher.
 Sept. 21st, Mrs. Bells gave the first lesson in the missionary study course. The Society is exceedingly fortunate in getting Mrs. Turrentine and Mrs. Belle. Each member shows her appreciation by being present with a well prepared lesson each meeting.
 The next meeting will be Oct. 4. A business session will be held at the church at 4:00 P. M.

You Are Cordially Invited
 To visit our interesting and instructive exhibit at the Texas State Fair, Dallas, and La. State Fair Shreveport. We invite all our former students, their friends and those contemplating entering a business training school to visit our booth in the Exposition Building, and see our splendid exhibit which has won first honors at these state fairs. Our exhibit will be more extensive than ever before; it will be interesting and educational to old and young. We will have demonstrations on some of the most modern office appliances which are taught in our school. Speed demonstrations in Stenotypewriting, exhibit of student's work in Bookkeeping, Business Training, Shorthand, Typewriting, Business Administration and Finance, Penmanship, Cotton

Classing and Telegraphy. A visit to our exhibit will show you why we have the largest school of the kind in America, when you are shown clearly why it is that we can make you a more practical and through stenographer in three and one-half months with the famous Byrne Simplified Shorthand or Stenotypewriting than other schools teaching other systems can in seven months, and why it is with our original copyrighted systems of Bookkeeping and Business Training that we give you both, in less time than other schools can give you a mere course of Bookkeeping, and why it is that our practical department of Telegraphy, the largest in the U. S., with a loop of the Cotton Belt train wire, giving every message to our students that goes from Mt. Pleasant to Waco; every station blank and record book that is used by Western Union or Cotton Belt R. R., turns out practical operators and station men; and that we place our graduates into good positions.
 From present indications we will easily enroll 2000 students this year.
 Whether you are going to attend one of these Fairs or not, write today for catalog and read what we guarantee to give you, what our former students say we have given them, and what their employers say of their efficiency. Address Tyler Commercial College Tyler, Texas.

Prospectors Here This Week
 Messrs. W. G. Smith, Jack Smith and Frank Joiner, all of Bartlett, were here this week, prospecting. Mr. Joiner was here some two months ago and states that he has never been satisfied since left here until his return this trip. They most all feel that way, if they will admit it, after seeing the wonderful crops here and the possibilities of the future. These gentlemen are old friends of Deputy County Clerk J. B. Smith, and other former Bell County folk, of whom there is a large representation in Haskell County

New Service Station
 Just as soon as the preliminary arrangements are taken care of, the Haskell Garage, W. H. Starr manager, will be the Hupmobile service station in Haskell. In addition to this, the Haskell Garage will be a service station for Maxwell and Ford cars. Mr. Starr announces that he now carries a line of Ford supplies, also.

Examine Your Flues
 Reports to the State Fire Marshal from December 10, 1910, to Sept. 10, 1915, show that 3766 fires, or 15 per cent of the total number that occurred in dwellings, private boarding houses and other like occupancies were due to unsafe flues. Assuming that the same proportion of fires reported, "Cause Unknown," is due to unsafe flues, the total number is 4580, or 20 per cent of all such fires. Unsafe flues cause a larger number of fires than any other one thing to which fires are attributable. The saddest thing about this fact is that all these fires are preventable. They occur by reason of carelessness and indifference that almost amounts to criminal negligence. The season when fire must be had for warmth and comfort is almost here. HAVE YOU EXAMINED YOUR FLUES? The rules for ordinary prudence and business sagacity require that everyone make a careful examination of all flues in his property at the beginning of each season before fire is permitted in them. This precaution is absolutely imperative at the beginning of this season, and more especially so in the Gulf Coast country and that portion of the State passed over by the recent hurricane. The high winds of that storm left in their wake a veritable chaos of unsafe flues; if not put in order will cause the

fire demon, with hellish glee, to follow the storm and take a fiendish delight in completely destroying what the wind only damaged. Again we ask: HAVE YOU EXAMINED YOUR FLUES AND PUT THEM IN GOOD ORDER? If you have not, DO IT NOW. If you do not, and a fire occurs by reason of your negligence, destroying property of your own and perhaps that of your neighbor's as well, your conscience will rightfully accuse you as responsible for a fire that you could have prevented by heeding this warning to EXAMINE YOUR FLUES.

 State Fire Marshall.

Plaster of Paris Coats Renovated.
 Casts of plaster paris, which have become soiled, can be easily cleaned by melting some whiting in water. Dissolve a little whiting in warm water to prevent it from rubbing off. Stir the liquid well, and apply to the plaster with a soft camel's hair brush.

Why Elephants Are Hard to Kill.
 To shoot an elephant and bring him down at once is a highly delicate and dangerous proceeding. The hunter must send the bullet straight into one of two or three spots on the animal's body or run the risk of losing his life. One is the hollow just above the elephant's trunk. A shot through the eye, however, when the purpose is effectually to kill is safer one to try.

Rochester News Notes

(From the Express)

The gins have been kept busy this week ginning a large number of bales of cotton.

Mrs. F. L. Busey came down from O'Brien Sunday to visit at the home of J. D. Johnson.

Mrs. J. D. Burson and children came in Monday night. She will remain here with Mr. Burson.

Bryant Links & Company have moved to the new brick building of which they as well as all Rochester, should be proud.

The City Hotel building was sold last week to J. T. Mullendorp. Mr. Farley will continue to run the hotel until Jan. 1st.

Mr. and Mrs. R. A. Greenwade returned Friday morning from their honeymoon trip, which included visits to Fort Worth, Waco and other points.

The party who visited the plains in Mack Wilsons car returned the latter part of the week. They report having seen some pretty country and good crops along the trip.

W. B. Lee returned home last Wednesday from Alpine where he was summoned as a character witness in the Griffin murder case. He says that country has had fine rains this week.

Miss Fannie Clemer left Tues-

day morning for Hamlin, where she is going to spend the winter in the Central Nazarene University. Felix Graham will leave next week for Hamlin and will enter that school.

The gloomy clouds of sorrow gathered about the home of Frank Hilley Saturday night when the death angel came and took away the life of Mrs. Hilley. She had been suffering some time with a complication of diseases, and she knew the end was near. She was buried Sunday in the Rochester cemetery.

Isham B. Loe departed last week to take his summer vacation which he spent at Haskell. He returned the next day. He was to have visited in Wichita Falls and other points, but Mr. Lee was summoned to appear in court, in the Griffin murder trial at Alpine last week and called Isham over the telephone and requested that he return and look after the bank while he was away.

HASKELL, TEXAS, Oct. 2, 1915.

Are you a booster?

With us again—summer.

Haskell, the cotton market of the West, invites you, Mr. Cotton Kaiser, to bring your staple here.

Judging from all indications, in certain quarters the coming world series of baseball games is creating more interest than the European war.

Headline: Kaiser to move headquarters to Western Front. We take it, in that case, that the scene of hostilities must be on the eastern front.

Judge F. C. Weinert in his address in this city last Saturday had many things of interest to say to the cotton farmers. The pity is he did not have a larger audience.

We see where W. J. Bryan will shortly deliver a peace lecture in the Texas metropolis, Dallas. We hope that he will not again be Hobsonized, as was a recent experience of his in Kansas State.

According to reports in the dailies, the Germans suffered quite a set-back in a big battle with British and French soldiers this week. It looks like nip-and-tuck to us: One day you read where the allies are repulsed; another day and the story goes the other way.

With four of the best and most complete gin plants to be found in the West, Haskell is thoroughly equipped to handle the cotton crop this season. And it is rolling in rapidly, too. Also, don't lose sight of the fact that this is the best town to market in the country.

A Dallas judge has announced a plan of inviting prospective divorce-seekers to attend court and hear divorce cases that are on trial. He desires that the prospective ones hear something of the trouble of others and also to find out what a questioning they must undergo to establish their right to separation.

We are in receipt of two copies of the song, "Corpus Christi, Texas, on the Bay." This a new song composed by W. J. Hartz and dedicated to the Corpus Christi Commercial Club. It is a catchy bit of verse and the music is inspiring. The writer, having spent some two years in the beautiful city on the bay, admits that looking over the song makes us slightly home-sick.

According to a Dallas prophet, all wars will cease in the year 1916. We sincerely trust that the present great conflict will be history several years old before that time. But, then, maybe he meant that there would be no more desire for war by that time. The daily stories of slaughter and carnage of which we have to read now should cure all desire of war in future.

One of the worst disasters in the history of Ardmore, perhaps of the entire State of Oklahoma, was that of Monday when a huge tank car of gasoline exploded, snuffing out many lives and doing upwards of a million dollars' worth of damage. One version of the explosion is that it was caused by a workman striking the tank with hammer a spark from the blow igniting the huge tank of the oil. Ardmore is a beautiful, as well as progressive city, and Monday's disaster is truly deplorable.

Next week has been designated as "Dress-up Week," down Fort Worth way. We were contemplating a trip that included the Panther City next week, but fear we will have to renig, as our clothes are not calculated to go in dress parade. Were we to make the trip during such a notable occasion, we fear that when calling to see the editors of Fort Worth's splendid papers we might be taken for a "Bo" print in search of a field for panhandling operations. That would be embarrassing. And we could not make the trip with out making the calls.

Five of the defendants in the Nueces County election cases have been convicted and sentenced. The sentences were severe, three of the convicted gentlemen being assessed fines of five thousand dollars and a year and a day at Fort Leavenworth, while the other two were fined in sums of half the above amount and six months in jail. A sad aspect to the whole affair is that at least two of the convicted gentlemen are past the age of sixty years and are pioneers of Corpus Christi. That the convicted men still hold the esteem of their fellow townsmen was attested by the demonstration that was accorded them on the eve of departure for the Victoria jail. According to news stories in the Corpus Christi Caller, there were several hundred citizens at the station to shake hands with the convicted ones and to wish them an early return to their homes.

HOPE FOR THE KNOCKER

It's hard to decide which does some men the most good—a knock or a boost. Some men are waked up to energy and purpose by a knock; other men are made egotists or fools by a boost.—Fort Worth Star-Telegram.

A knocker, provided it isn't a knockout, is apt to stimulate an energetic man to greater effort. On the contrary, the one who receives nothing but boosts is likely to rely on the boosters, and do nothing to help himself. As between the two, the man who gets the knocks is the more fortunate, though a distribution of both, with a suitable parity observed, is the more ideal.—San Antonio Texas Republic.

The Y. M. B. L. movement is not moving along as auspiciously the past week as we had hoped for. Here's still hoping.

LARGER YIELDS

As we turn our thoughts to preparation of the soil for next year's crops we should be impressed with the importance of a rational system of soil management that will improve the soil and increase the yield year after year till every acre of the farm is rich enough for a maximum yield. This is possible; it is highly desirable, if we meet our opportunity in farming.

A fertile soil is the greatest concern of the state and nation. At the rate which our population is increasing it will require more acres every year to produce food for the nation unless the yield of each acre is increased. Yet most of our soil suitable for farming is already in cultivation. That the yield of our food crops is not being increased, but on the contrary decreasing, is the plain but discouraging truth of statistics. Yet our average yields are so low that increase could be obtained and at profitable prices.

In continuing the system of diversification of crops every farmer should have as his object an increase in yield, not at the expense of the plant food already in the soil, but by adding manure, fertilizer, turning under cover crops, by draining, irrigation, terracing and other ways of soil improvement. Not every farmer will be able to do the things next year that he knows should be done to improve his soil, but every manager, large or small, may make plans for the future, begin a system of rotation of crops, get livestock to consume more of the surplus crops and begin for progressive farming. This is the time for definite plans. Those who determine to grow larger crops and get better prices than those who are satisfied with their former yields. The farm can be made richer and more profitable. Why not try it?—Farm and Ranch.

Haskell County Association

The Haskell Association has just closed its annual session with Salem church. It was in some respects the best session in the history of the Association. The Holy Spirit was made manifest from the beginning. We count it one of the great things in the history of the church. There were souls saved from the second night of the meeting on through the entire session. And on Sunday evening our beloved pastor led four happy converts into the water and buried them in baptism. One father with grown children made the surrender at the water and was baptized there and then. Also, two strong men made surrender to preach the glorious gospel of Christ during the session. So you see we are happy in our labors. Blessings on the Evangel and all the Kingdom interests.—W. E. Brown, in Western Evangel.

Exchange Chat

Some editors affect to sneer at the buy-a-bale movement of last year, yet the influence of that movement is reflected in the prices paid for cotton this year.—Fort Worth Record.

Yes, and the buy-a-bale movement has been vindicated. We carried a new story last week wherein a local bank paid ten cents for a bale when the price was below six cents. That bale was sold last week, netting the banking institution a little better than nine per cent on the investment.

The Rusk County News says cotton seed is bringing \$25 per ton in Henderson, and gives the oil mill there credit for maintaining the price.—Hamilton Herald.

That sounds good, does twenty-five simoleons—but, right here in the city of Haskell we beat that by five dollars per ton.

The Haskell Free Press has acquired a linotype. You beat us there, Brother Woodward, but give us a little more time, we'll have one some day.—Baylor County Banner.

Here's hoping you will acquire one soon, Bro. Harrison. Take our word for it: the Linotype way is the only way, and we speak advisedly, eleven years experience.

Cotton is reported as selling in Haskell, Monday for 11½¢ which is above the market price. Why should Haskell pay such a price?

There is only one answer and that is to draw trade and even though they may pay above the market price they will more than make it back with the increased value of business. It is necessary to offer some inducements in order to attract the trade of the people whose custom you desire. If this trade is worth so much to Haskell, is it not worth as much to us?—Throckmorton County News.

Haskell has an established record for paying the highest prices at all times, and we draw the trade

too. The merchants and business men here, long since have learned that it pays to pay the producer well for what he has to sell, and the producers, likewise, have discovered that it pays to do their buying and selling in Haskell.

One day has been set aside at the Central West Texas Fair and Exposition, Abilene, next month as Haskell County Day. Will Haskell county be represented there with an exhibit? We have to date heard no such intentions expressed. Haskell this year by all means should prepare for exhibits at both the Abilene and Dallas Fairs.—Haskell Free Press.

Abilene is very glad to have an opportunity to include Haskell county in the list of special days. The kindest of feeling has always existed here for Haskell, and an exhibit would be greatly appreciated. It would be of much value to Haskell county, we are sure, and therefore, the benefit would be mutual.—Abilene Reporter.

At the Sanders Gin

Both the gin plants of F. T. Sanders are now running, the second plant beginning operations Tuesday morning. Up to Tuesday noon, with just one plant running, Mr. Sanders had ginned upwards of two hundred bales, which is good showing, considering the recent rains and the fact that the cotton has been just a little late in opening this season.

Before the opening of the present season, Mr. Sanders built a new gin plant near the site of his other gin, which makes his facilities for handling the staple excellent.

Best Paint

What is it? Devco. How Devco? It's 160 years old; but that isn't how.

It has long been the best; but that isn't how.

It has been developed by use and study; by study and use; that is how; and approved by experience, many years; that's how.

It commends itself by long lasting and small paint-cost; not cheap by the gallon, but cheap by the job and cheap by the year and ten years, cheap by the lifetime.

That's how.

A. Tonn's Blacksmith Shop

The writer on his rounds Tuesday of this week had occasion to visit the blacksmith shop of A. Tonn. While we knew Mr. Tonn was a live one and all that, yet we did not realize that he had such an up-to-date shop right here in Haskell. Fact of the matter is, it was our first visit to his place of business. Mr. Tonn has recently added to his shop equipment the latest improved electric blowers, which in addition to the other machinery he has, indeed makes a first-class shop.

HEALTH PAST FIFTY

Careful diet is of utmost importance to men and women past fifty years of age; it keeps up their strength, and the oil food in Scott's Emulsion is a nourishing food, a curative medicine and a sustaining tonic to regulate the functions. It contains the medicinal fats of pure cod liver oil and science proves that they furnish twice as much energy as other foods—then too, it creates pure blood, sharpens the appetite, relieves rheumatism, strengthens the body and alleviates the ailments due to declining years. Scott's is free from wines, alcohol or harmful drugs. Beware of substitutes.

Girls! Girls! Try It! Stop Dandruff and Beautify Your Hair

Hair stops falling out and gets thick, wavy, strong and beautiful

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use, when you will actually see new hair—fine and downy at first—yes—but really new hair, growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

J. A. McKee Improving

The many friends of J. A. McKee are glad to note that he is again improving and able to get down town, with the aid of crutches. This good man has been rather unfortunate of late in the matter of broken limbs. On June 19th he had a leg broken in a runaway, which disabled him a long time. He was just getting to where he could get around good when, on August 13th, he suffered the accident of having his other leg broken. The latter accident was caused by the caving in of a sand pit.

Health and Happiness Depend on Your Liver

That sluggish liver with its sluggish flow of bile is what makes the world look so dark at times. Dr. King's New Life Pills go straight to the root of the difficulty by waking up the action of the liver and increasing the bile. Dr. King's New Life Pills cause the bowels to act more freely and drive away those "moody days." 25c a bottle.

Commissioner's Court

The county commissioners court met again last Saturday in special session, to further perfect plans for the establishment and maintenance of the county road gangs. At this session the contract for making tee harness for use was awarded, going to J. M. Whitman of this city. The commissioners also, at this session, bought some of the mules for the work. The court was in session again Thursday of this week to purchase the remainder of the teams that will be needed for the road work.

A Wonderful Antiseptic

Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c., 50c. The \$1.00 size contains six times as much as the 25c. size.

You're Bilious! Let "Cascarets" Liven Liver and Bowels

Don't stay headachy, constipated, sick, with breath bad and stomach sour

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

The Newson Gin is Busy

We had occasion the latter part of last week to call at the gin plant of W. T. Newson, in the northern part of the city. Here we found everything running smoothly, with a large force busy. Prior to opening for the season the plant was thoroughly overhauled and put in ship-shape. The plant seems to be receiving its full quota of the ginning business, and within another week's time doubtless will be running overtime to keep up with the rush.

Farmers Union Gin Becoming Busy Place

The Farmers' Union Gin was visited by the writer Tuesday afternoon of this week. We found everything in tip-top condition at this busy institution.

The Farmers' Union Gin, with the improvement made there just prior to the opening of the current cotton season, is now perhaps one of the very finest gin plants in the entire west. This gin has a daily capacity of something in the neighborhood of one hundred and fifty bales. While for the past several days the gin has been rather busy, yet they have not as yet run to full capacity. The manager, E. F. Lamm, however, anticipates that within a few more days the plant will be running to full capacity. The rains of the past week put the picking of the staple behind to some extent.

It is quite an interesting sight to visit this plant and see the fine new machinery there in operation.

Christian Church

It is the earnest desire of my heart, that each member of the church will make a special effort to bring some one to church next Sunday, whose conditions make it inconvenient for them to attend the services. Thus you will render a service which will lighten the heart of another, and at the same time strengthen your own life.

Babies Convention Will Be Unique Affair

Dallas Tex.: Dallas is known as the Convention City, but there is to be a gathering here in October that promises to be the most important in the history of Dallas. This gathering is to be known as the Babies Convention, and it will be held forth at the State Fair each day. A. Caswell Ellis of the University of Texas, is now busy with details of this important meeting. As one of the principal subjects for discussion will be that of baby diet, it is very probable that those in attendance at this important meeting will manifest the usual interest.

Mr. Ellis, who is director of extension work at the University of Texas, will be in Dallas within the next ten days. Registration for the Better Babies Convention is not yet open, but those who wish to register their children are requested to write Mr. Ellis at Austin. Preference will be given first to those who were in the contest last year, so that the result of previous work may be checked. "There will, of course, be room for a good many new babies," writes Mr. Ellis.

The convention at the fair this year will be under the immediate direction of Dr. L. R. Arms, Professor of Preventative Medicine and head of the Division of Human Conservation in the University department of Extension.

Bad Cold Quickly Broken Up

I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms." For sale by West Side Drug Store.

Orchids.

Among plants nature's imitations are much more numerous than in the animal kingdom, says a writer in Gas Logic. There are several species of orchids, for instance, bearing popular names which suggest the likeness of the flower to some member of the animal kingdom, among them being the man orchid, the bee orchid, the spider orchid and the lizard orchid.

Treating Wheat For Smut

Wheat time sowing has come again, and it is time to prepare the seed for it. One of the important things to do is to treat your seed for smut. Results show an increase in yield even though the seed is known to be free from smut, the treatment killing all other disease germs, the increase paying well for the trouble and slight expense.

The seed should first be thoroughly cleaned of all defective seed and all foreign seed to prevent sowing your field with other men's weeds which may give you trouble for years to come. This is of much more importance than it generally receives.

Then mix one pound of forty per cent formalin with fifty gallons of water (or 40 gallons if you want it stronger). Cut a barrel in halves to use for the water. Put the wheat in a fruit basket or some wire basket that will let the water in freely. Dip the grain and thoroughly stir it, skimming off all smut grains and all else that floats. Continue to stir and scour it around for several minutes. It can then be taken out or left in the water a short time, after which it should be taken out drained well and planted. The damp earth will act as a blanket. It may be dried out but is usually best to plant at once. The treatment may proceed as the planting is done.

Formalin treatment is better than bluestone, but bluestone may be used, and 4lbs. to 25 or 30 gallons of water is a good proportion, and 6 lbs. of lime should be used with this, the lime and bluestone thoroughly dissolved in water in separate barrels, and afterwards mixed. A great deal of care should be taken in the mixing, else good results may not follow. Expense will be very light.

Proclamation By the Governor

We are living at a time in the history of our country when the question of preservation of resources, natural and otherwise, is receiving a great deal of attention and one of the vital problems that claims the thoughtful study of our people is the waste of energy and resources all over the country by fire. It is, therefore, eminently fit and proper that we should direct our attention to the unnecessary loss of property and life from such source.

Statistics gathered by the Fire Marshall's Department of Texas indicate that the annual fire loss in the state is more than twelve million dollars. Besides this, fire claims as an annual sacrifice many human lives. The waste thus occasioned, represented in terms of human life, money, labor and time is absolutely and irrevocably lost. Property may be replaced but it cannot be recreated. This waste is a tax upon our people for which they receive absolutely nothing in return. If the tax were raised by a direct per capita assessment, every man, woman and child in the state would contribute more than three dollars, or fifteen dollars to the average family. If it were raised by an ad valorem assessment on taxable values, it would require about forty cents on the one hundred dollars which would produce some three million dollars more than the legislature appropriated for the present fiscal year, to be expended by every department of the State Government, every eleemosynary institution and every state educational institution, including the one million dollars appropriated for the benefit of our rural schools. The mere proposal to raise this enormous loss tax by either a per capita or an ad valorem assessment would no doubt subject the proponents of such a measure to a deluge of criticism. And yet our people, all of them pay this tax no less certainly than it one of these methods were used to secure it. Let no one be deceived into the belief that because, perchance, he does not pay insurance premiums and has not suffered an individual fire loss, that he has escaped this tax. In modern business the fire tax is a part of the cost of every article of trade and commerce consumed by either man or beast. The significant and interesting feature of the fire loss problem is that easily fifty per cent of it is preventable.

NOW, THEREFORE, I, JAMES E. FERGUSON, Governor of the State of Texas, in view of these facts, and to the end that our people may be aroused to the necessity of becoming more actively interested in fire prevention as the best means of ending in so far as possible, the drain upon our energies and resources caused by fire, do hereby proclaim that Saturday, the 9th day of October, A. D. 1915 be known as "State Fire Prevention Day," and I earnestly recommend that our people observe it by a general cleaning up and re-

moval of rubbish, trash and waste from their premises.

It is especially recommended that the Mayors of the cities, towns and villages throughout the State let their proclamations issue calling upon their people to observe this as general clean-up day. That all heating apparatus, electrical wiring, chimneys and flues be carefully gone over and placed in safe condition for winter use, and all public and private institutions, hotels, asylums, factories and theatres be carefully looked over on that day and all changes effected that will tend to the protection of such buildings and their occupants.

It is urged that the various boards of education throughout the state and the teachers of all public and private schools impress upon the school children under their care the importance of using every precaution to avoid fire, and that those having the responsibility and care of children, especially in the public schools, on that day inaugurate fire drills, or practice those heretofore inaugurated, and give such instruction as may impress upon those in their charge the ordinary fire hazards and the methods of fire prevention and rescue work.

Let all commercial and civic organizations lend their hearty moral support to a proper observance of said day, and assist the local authorities in securing united action of the entire citizenship upon this important form of conservation of our resources.

IN TESTIMONY WHEREOF I have hereunto signed my name and caused the Seal of the State to be affixed hereon at my office in the City of Austin, Texas, this 20th day of September, A. D. 1915.

Jas. E. Ferguson, Governor of Texas.

Flight of the Fly.

It has been observed that a house fly can mount almost directly upward to a height of 45 feet or more. The time of day appears to influence the dispersal of flies, as, apparently, when set free in the afternoon they do not scatter so well as when liberated in the morning.

Biliousness and Constipation

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Pock, Gates, N. Turkey Red Wheat at a Bargain

Some of the Turkey Red wheat shipped here from Nebraska and sold at \$3.75 per bushel, was not taken and was sold by the bank. We have it and will furnish what we have at \$1.50 per bushel, less than half the price at which it was sold. This is supposed to be genuine Turkey Red wheat which has been a great drought resister in the northwest and is in great favor here. It is at the Elevator. Come at once if you want it.

We have also the red May wheat, Nicaragua wheat, Mediterranean and common mixed wheat for seed.

A small lot of genuine Mebane Triumph cotton seed from the Mebane Co. recommended by him himself, for exchange for common seed, one for three bushels. This is a chance for highest grade seed easy.

Millet and oats and other seeds as needed.

Early Martial Music.

Almost from time immemorial our soldiers have marched to battle to the tune of the drum or the skirling of the pipes, London Tit-Bits says. Perhaps however, the most interesting of the early records of martial music is the concerning an episode in 1333, the date of the battle of Halidon hill, when "the English mynstrilles beaten their tabors and blawen their trompes, and pipers pipedene loud and made a grea schowte upon the Shottes."

College Attendance In Texas Is Large

Austin, Texas, Sept. 23.—The colleges and universities of Texas are all opening, according to reports received here, with larger attendance than ever before, and this in spite of the entrance of a new university, the S. M. U. of Dallas, into the field. The enrollment at the A. & M. College, notwithstanding the more strict entrance requirements, will most likely total over 1,000 students. The normals are all showing an increased registration over last year, while the University of Texas enrollment will show a total of over 2,500 students at the Main University in Austin before the session is a month old.

The fact that new institutions of higher education are springing up every year or two and draw immediately splendid patronage, while the old established institutions are nevertheless increasing enrollment, is taken by authorities at the University to mean that there is a steadily increasing demand for higher education in Texas.

Dr. A. C. Ellis of the Extension Department, commenting upon this situation said that Texas is simply repeating the experience of other states in this matter.

"Higher education," he said, "creates its own demand. Who had ever heard of the University of Illinois until the great University of Chicago was established? Both institutions grew up together much faster than either one would have grown alone.

"Millions upon millions of dollars have been invested in the University of Chicago, and it has flourished and is doing a great work, and yet the legislature of Illinois last year appropriated \$5,000,000 for the University of Illinois, a record appropriation so far as state universities are concerned.

"California furnishes another example of a state university which began an era of splendid development with the establishment of another great university within the state's border."

LIV-VER-LAX

All the Effectiveness, Not the Effect, of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a long time medical experts, realizing the harmful effects of calomel, have been striving to find a liver cleanser that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound, designed solely for the treatment of liver complaints. The immediate favor it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated and skin sallow, don't delay until it becomes dangerous, nip the trouble in the bud with LIV-VER-LAX. Insist on the genuine, bearing the signature and likewise of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Corner Drug Store.

Moving to Abilene.

Mrs. Theo Wright left Monday evening for Abilene, where she will make arrangements for moving to that city. Mrs. Wright was for many years owner of the Wright Hotel of this city, and the many friends of the family will regret their removal from this city. We understand the move will be made this week.

Breaks a Cold in Few Hours—Try It

First Dose of Pape's Cold Compound relieves all gripe misery

Don't stay stuffed-up!

Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

Excitement at Rochester

Quite a little excitement was created in the town of Rochester last week over the supposed mysterious disappearance of a man. The sheriff's department here was notified and Sheriff W. C. Allen went over for an investigation. Quite a large crowd of men made a diligent search for the lost man, and all kinds of wild rumors as to foul play, etc., were current. However, a few days later the supposed lost man put in his appearance at a neighboring town and the mystery was cleared up.

Ugh! Calomel Makes You Deathly Sick

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel, and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Women of Sedentary Habits

Women who get but little exercise are likely to be troubled with constipation and indigestion and will find Chamberlain's Tablets highly beneficial. Not so good as a three or four mile walk every day, but very much better than to allow the bowels to remain in a constipated condition. They are easy and pleasant to take and most agreeable in effect. For sale by West Side Drug Store.

Open Until 8 P. M.

Beginning Monday, Oct. 4th, the Shaving Parlor will remain open each evening until 8 o'clock. 40-2tp

Constipation and Indigestion

"I have used Chamberlain's Tablets and must say they are the best I have ever used for constipation and indigestion. My wife also used them for indigestion and they did her good," writes Eugene S. Knight, Wilmington, N. C. For sale by West Side Drug Store.

W. W. Reeves Improving

W. W. Reeves, a substantial citizen of the Rose Chapel community, who three weeks ago happened to the painful accident of having his thigh broken, is now reported as improving nicely. Mr. Reeves was riding in his pasture when his mount fell, pinning his thigh to the ground, and quite a bad fracture was the result.

Every Home Needs a Faithful Cough and Cold Remedy

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimonial before but, I know positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c & \$1. 1

Haskell Gentleman Is An Inventor

R. M. Whiteker last Friday returned from St. Louis, where he has been for several weeks, looking after the interests of a recent patent he has perfected. Mr. Whiteker states that during his trip he visited a number of places in the states of Missouri and Illinois, and that nowhere did he find any country that came up to Haskell county. He says that in his opinion the crops and general conditions are much better here.

The invention which Mr. Whiteker has recently perfected is one that gives promise of revolutionizing at least a portion of the cotton industry—that of picking the staple. His invention is to be known as "The Adjustable EZ Sack Dumper." The improved sack consists of many novel features, all of which will make the work of picking and sack-emptying much easier.

The writer has been informed that the new sacks will be manufactured in Haskell, and it is thought the industry will prove a profitable one to the parties interested, as no doubt the sacks will be universally adopted where introduced.

Mr. Whiteker now has a patent pending upon his invention.

Open Until 8 P. M.

Beginning Monday, Oct. 4th, the White Front Barber Shop will remain open each evening until 8 o'clock. 40-2tp

The May Apple Liver Tonic

May Apple is an old time liver medicine. Its active principle (Podophyllin) is sometimes called Vegetable Calomel. In Po-Do-Lax May Apple is combined with other well-known liver remedies, making Po-Do-Lax the ideal liver medicine. It arouses the liver, increases bile, does not gripe, has no nausea and one feels fine generally. Get a 50c bottle, take a dose tonight and notice how much better you feel—you cannot afford to get along without Po-Do-Lax. "The Liver Tonic with Vegetable Calomel." 50c. 1

C. W. Carmean Was Here

C. W. Carmean, who lives at Hickory, was in the city the latter part of the week past, coming here in the interest of his property holdings in this county. Mr. Carmean thinks Haskell is looking mighty good and thinks the outlook here is very promising. He has been for a number of years a reader of the Free Press, and while here this time called. We are always pleased to greet this good man.

None Equal to Chamberlain's

"I have tried most all of the cough cures and find that there is none that equal Chamberlain's Cough Remedy. It has never failed to give me prompt relief," writes W. V. Harner, Montpelier Ind. When you have a cold give this remedy a trial and see for yourself what a splendid medicine it is. For sale by West Side Drug Store.

County Buys Stable

While in special session last Saturday the board of county commissioners made the deal whereby the county purchased the J. L. Baldwin stable, just south of the square. The barn will be used by the county for keeping teams and equipment for the road gangs. The stable is this week undergoing many improvements and will shortly be ready for the county's use.

Worth Their Weight in Gold

"I have used Chamberlain's Tablets and found them to be just as represented, a quick relief for headaches, dizzy spells and other symptoms denoting a torpid liver and a disordered condition of the digestive organs. They are worth their weight in gold," writes Miss Clara A. Driggs, Elba, N. Y. For sale by West Side Drug Store.

They All Demand It

Haskell, Like Every City and Town in the Union, Receives It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Haskell evidence of their merit:

P. S. Arnold, farmer, Haskell, says: "My kidneys were disordered and didn't do their work as they should. I often became dizzy and specks seemed to be passing before my eyes. Learning of Doan's Kidney Pills, I got a supply from the Corner Drug Store and they corrected these ailments. I used about three boxes in all and haven't noticed any return of the ailments to amount to anything since. Others in my family have also found Doan's Kidney Pills beneficial."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Arnold had. Foster-Milburn Co., Props., Buffalo, N. Y.

Early Morning Wedding

Last Friday morning, at 3 o'clock, Deputy County Clerk J. Bruce Smith was awakened from his peaceful slumbers, to come down to the courthouse and issue a marriage license to Mr. L. S. Bartlett and Miss Nora Liles. The service of Judge Post was also requisitioned and the Squire came down and tied the nuptial knot for this early morning wedding. The contracting parties live at the northern edge of the county.
