AEROPLANE MAKES LANDING HERE SATURDAY MORNING

An aeroplane from Call Field, Wichita Falls, made a landing in the city Saturday morning on its way to Stamford to attend the Red Cross Rally. The plane was sighted about 10 o'clock in the morning, coming in from the northeast and began circling around to make a landing. The people were quick to note the object of the plane and soon a large part of the people of the city were on their way where the plane was descending, near the East Ward school building. When the plane had safely landed a large crowd were soon on the ground, coming from all parts of the city. The plane was in charge of Lieut. Earnest S. Mason, a Young county boy who grew to manhood in the town of Olney. He is now test pilot of all machines at Call Field and is one of the most daring and skillful pilots at that place. C. H. Rehberger of Seattle, Wash., was the machinist accompanying Lieut. Mason on this flight. They made the landing for a fresh supply of oil and gas and spent about an hour here that our people might get acquainted with all the parts of the machine. These young men were very courteous, answering all questions and showing and explaining its working parts of the machine to interested parties.

The boys were given ice cream, daily papers and other tokens of appreciation for their visit, and were asked to make the landing often, but it was explained that this was so far from headquarters they would not pass this way only on special occasions. This machine was called the practice plane and was one of the small types. They made the trip from Wichita Falls to this place in about two hours, which was at the rate of about fifty miles an hour, but Lieutenant Mason said that on one occasion he had made 210 miles in 200 minutes.

They took on their supply of gas and oil and made the ascension into the air with as much ease as starting an auto, and they were soon lost to sight making their way toward Stamford. They returned back late in the evening but made no halt on the return trip. We all enjoyed the visit and hope these young men will pay us another visit soon.

We are forced to come out with only four pages of the Free Press again. We have had serious sickness and a death in the family of some of the force and that, with other conditions, are responsible for our small paper. We trust to soon get back to normal conditions and give you the service we have given you in the past.

With the Red Cross

Our work in all departments is splendid and the following report for May is given by the Chairman of the Women's Work.

An average of eighteen women have been present in the local workroom each day through the month. We have shipped from the county during the month 43,720 articles. This does not include the work of the auxiliaries, however, as the chairman of the Refuges work is out of town and we shall have to give their report later. Sixty-one knitted articles have been sent out by the committee.

A class in surgical dressings has been taught in Rochester by Mrs. Fuller of Abilene. New auxiliaries have been organized at Center Point, Sayles, and New Mt.

Miss Willie Younger has charge of the Juniors' at present and they are doing some excellent work under her guidance. Children are happiest when sewing with others, and most of them welcome this chance to do their part. We feel too, that it is an opportunity for our young people to learn the lessons of unselfishness and at the same time have training along lines that will prove most helpful to them later in life. The seriousness of the present war situation impresses us forcibly that we cannot lessen our efforts, but rather redouble them. The workroom is open every day.

A Card of Thanks

We take this means of thanking the good people of Haskell for their many kindnesses shown during the illness and death of our beloved wife and mother. May Heaven's richest blessings rest on all who so faithfully assisted us in this dark hour of sorrow. B. F. Pate and children.

NOTED LECTURER ON TEMPERANCE ENDORSES TANLAC

Mrs. Martha Stone Was For Years Associated with Founder of W. C. T. U.

One of the features that distinguishes Tanlac from all other proprietary medicines is the large number of prominent people who everywhere are giving it their unqualified endorsement. Among the statements recently received at the Tanlac office is one in particular that is sure to arouse widespread interest throughout the country, having been made by Mrs. Martha R. Stone, of 7225 Third Ave. North West, Seattle, Wash., noted temperance lecturer who for many years was associated with the late Frances E. Willard, founder of the W. C. T. U. In relating her experience with Tanlac, Mrs. Stone said:

"I think it is the duty of everyone who has been relieved as I have to do what they can to help others; therefore it gives me much pleasure to tell of the benefits I have derived from the use of Tanlac."

"I was a great sufferer for many years with nervous trouble, which became so bad that I had to take to my bed, where I lay for six weeks entirely helpless and unable to move. The least little noise would upset me and I was not allowed to see anyone for fear it would excite me, and I was told that my entire nervous system had suffered a total collapse. You see, I had passed through the great San Francisco fire in which I lost everything I possessed, and the experience was a severe shock to my already overwrought nerves. When at last I was able to get out of bed I would have such awful dizzy spells that everything in my room seemed to spin around as though I was in the center of a whirlpool. My stomach was so weak and my appetite so poor that I hardly ate a thing and what little I forced down soured and formed gas that pressed up into my throat and in my chest and made me so hoarse that it was an effort for me to speak. I also suffered much pain in the lower part of my body from this same gas-pressure. My liver, too, was all out of order and my kidneys gave me no end of trouble."

"When my son-in-law saw that the medicines I was taking were doing me no good, he induced me to try Tanlac as he said it had done him so much good he believed it would help me too. To oblige him I got me a bottle and the first few doses soon convinced me that it was just what I needed, and my first bottle put me right on my feet. I am now on my second bottle and am in splendid shape, for my nerves are practically in a normal state for the first time in all these years, which I consider a remarkable thing. I have a fine appetite and can eat most anything I want without suffering any unpleasantness afterwards. Tanlac is fast helping me to overcome my troubles, and I feel that I am getting on just fine ever since I began taking it."

Tanlac is sold in Haskell by Reid's Drug Store; in Rule by Golden Rule Drug Store; in Rochester by H. G. Rasby, in Weinert by E. E. Cockerell, in Sagerton by W. W. Martin in Nabers by Mrs. L. A. Bouldin, and in Whitesfield by T. B. Higginbotham.

MRS. ED ROBERTSON'S RESIDENCE DAMAGED

A small blaze occurred at the home of Mrs. Ed Robertson in the northwest part of the city Thursday about 1 o'clock in the afternoon which caused slight damage to the wallpaper and kitchen furniture. The fire boys were called out, but the neighbors responded and had the fire under control when they arrived. The fire originated from an oil stove, but fortunately Mrs. Robertson was in the room and gave the alarm and some near neighbors rushed to her assistance and applied water from a bucket brigade, which saved the building and its contents from the flames.

HOWARD

Conditions have changed in the Howard community since my last communication to the Free Press by reason of a good inch and a quarter of rain which we received last Friday night. One cannot realize the change—last week everything was so dry and every body discouraged, and all kinds of farm work was so disagreeable and crusty that the farmers were gradually slowing down, in fact, some had quit. But, my! my!—how different now—every body going in high gear—all kinds of crops and weeds and grass green and growing. All varieties of feed crops growing fine and a large per cent are large enough to plow. Lots of cotton up to a good stand from one end of the row to the other, and with a few other rains we will make a "war crop". In fact, Haskell county has always done its part, along all lines. We do not know what it is to live anywhere else. But we have noticed the fact when we had the pleasure of visiting other counties that the statement that our home was in Haskell county always created a good impression.

Your Howard correspondent assumes the authority of every man, woman and child in the Howard community to extend congratulation and commendation to the editor of the Free Press and its entire force for its Red Cross Edition. We are pleased, yes, we are delighted, for it is certainly grand—its editorials are simply immense—its county correspondence greater than any other paper we ever saw—its mechanical make-up extremely neat—in fact perfect. Its advertisements liberal and of

Everybody is pleased to note that the Free Press went "over the top" in the Texas Press Association convention in the State Meeting at Fort Worth week.

FROM THE FIELD

By W. M. FREE

Monday morning we took passenger friend Jesse Collier to Rochester, where we spent the afternoon before the north bound train came along going to O'Brien. We boarded in company with W. H. Murchison, and we were soon on our way. The people who were to be on the train began to gather for a while. We had not long to wait. Judge W. H. Murchison made a talk on the American flag, and when contribution had been collected for it required two dollars and Martin, to take as fast as they were given. The people were very liberal and gave very liberally. They showed their patriotism by taking into consideration the stricken condition of

a very pleasant afternoon and at the close of the day we went to the home of W. P. and spent the night. We think to thank these good people and we enjoyed our stay. Mr. Hitchcock is a good farmer and makes a living at home on good teams and farming some crops growing. He has fine cows and has lots of butter to go with his corn. He is not worrying about the war and other things. They are living at home. Mrs.

Hitchcock has lots of chickens and some of them were just about ripe.

We attended the singing at Mitchell, and there is one place we got our money's worth, listening to the good singing, and eating a good dinner. We noticed quite a lot of other fellows there who were in our class too, and they showed when they reached the table on which this good dinner was spread that they were not amateurs. They had been there before. Mitchell could have had as many more people and then had dinner left. We are glad we attended the singing at Mitchell, and we will be on hand the next Fourth Sunday in May, a year from this time if we are living and we hope to be able to be there and enjoy again another day like the one just passed.

We went out to the home of our friend, W. P. Kinnison, and spent the night. Billie is another farmer who is living at home and boarding there too. He has some good feed crops growing and some cotton planted, hogs in the pen, and meat in the smokehouse, corn and maize in the crib and feed in the stack, good milk cows and a yard full of Indian game chickens. We would have been glad to have spent the summer with W. P., but we had to report back to town, if we expected our salary, so we took passage with Mr. Kinnison and Orion Morgan for Haskell but stopped over in the town of Rochester until Jesse Collier returned with the mail in the afternoon and reached Haskell about 2:30 p. m. We enjoyed the trip and we are under many obligations to the good people all along the line for their kindness and favors.

Buildings enhance the value of your property out of all proportion to the cost.

Buildings add to their comfort, save crops, feed, keep cattle healthy, keep implements in repair. But these are every day concerns.

Right now there are special reasons why you should build. It is patriotic to erect buildings so you can store your grain, so that a bushel will be lost, to shelter your cattle so they will not lose weight; your implements so that the steel supply may be conserved.

It takes 2 seconds to apply "Gets-It"; it dries at once. Then walk with painless joy, even with tight shoes. You know your corn will loosen from your toe—peel it off with your fingers. MITCHELL

We had another light shower Thursday night.

Quite a number of the Mitchell people went to Haskell Wednesday to see the boys leave for Camp Cody. It was rather sad to part with them, but we are proud that we can do our bit in that way. The boys who are going now are universally regarded as the flower of American manhood.

While we were in Haskell we met Mrs. Wellen and daughter of the Roberts community. We also had a chat with the Roberts correspondent, and consider her a charming young lady.

The Annual Singing at Mitchell last Sunday was acknowledged to be the best in many years. Everyone who has expressed his opinion says it was a success. People from all over the county were there. The dinner was a special delight to all.

Tom Cooner, R. M. Gooch, and W. F. Wyatt of Albany were at Mitchell Sunday and helped out in the class singing, but their best singing was done on duets, trios, and quartets.

W. M. Free of Haskell was at Mitchell and helped greatly with the singing. There were many more good singers here and we give them all a pressing invitation to come to our regular Sunday evening singings on the 1st and 3rd Sunday evenings.

The Mitchell school was out Friday. The school rendered a short program Friday night which was enjoyed by all present.

Miss Audra Mathison returned to her home at Weibert Friday night after the concert. Her sister, Mrs. Emory Mayfield, came after her. We were sorry to give up our school teacher, as she had become quite a favorite among our girls. Everyone thinks Miss Audra did good work among the little folks.

Grandma Adkisson who has spent quite a while with one of her daughters in Oklahoma, has come to make her home with her daughter, Mrs. Frankie Underwood.

Mr. Blakeley went to Knox City Thursday and had a tumor removed from his right cheek.

Julia Standby, who formerly lived in the Mitchell community, but who is now living east of Rochester, visited Jewel and Blanch Willis Saturday night and Monday.

Congressman Marvin Jones

CONGRESSMAN MARVIN JONES MAKES STATEMENT

To the citizens of the Eighteenth Congressional District:

I shall be a candidate for reelection to Congress from the Eighteenth District.

My term of office began March 4, 1917, just a little more than one year ago. I have attended the sessions regularly, and have attended strictly to the duties of the office. I am in full sympathy with the plans and purposes of the administration in this emergency and shall support it in a vigorous prosecution of the war. I shall favor the subordination of all other issues to the one great task of winning the war in the shortest possible time. That is my creed and the creed of every loyal American citizen.

I have answered two hundred and six roll calls, have dodged no issues and have supported every administration measure that has been presented as the record shows, and I respectfully ask that anyone interested to examine the record.

This is not time for partisan politics. Civilization is in a death struggle. I don't believe the people desire that large amounts of money, time and energy be spent in a political campaign during a war crisis.

In this hour it is the duty of every good citizen to serve wherever and in whatever capacity his government may assign him. Russia is now out of the fight. A heavier task, therefore, falls to our lot. Every available soldier is being and should be sent across just as soon as he can be equipped. Everyone here should be willing to consecrate his material resources to the country's cause. Each, all, everything should be fused into the common purpose. All that we have all that we are, is at stake. Democracy, liberty, humanity, are face to face with autocracy, avarice and brutality. The issues are unclouded. Everyone can assist. Everyone who possibly can should contribute to the Red Cross. Everyone who possibly can should buy Thrift Stamps and Liberty Bonds. Everyone, regardless of how much property he possesses, should do some useful work. In the rigid economy of the present, there is no place for the idler. The rich and the poor, the high and the low, each, all, should melt in a common sentiment, and stand shoulder to shoulder and heart to heart, to the end that our declared purposes may be speedily accomplished, a complete victory won, and a lasting peace secured.

I desire to thank the people of this district for their many kindnesses and expressions of continuing confidence. I may add that I shall be pleased at any time to have the views of any constituent on public questions or pending legislation.

Respectfully yours,
Marvin Jones.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADAMSON E. LYNCH, 160 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment. Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

HOT CAKES

For a family of five.
1-2 pints of sour milk, enough of meal or any of the substitute flours to make a thin batter. Just before cooking add about one teaspoonful of soda (this depends on the sourness of the milk) and one egg. Beat all together well.

RYE MUFFINS

Mix with sweet milk.

RAISIN LOAF CAKE

Wash and cook one cupful of seeded raisins in sufficient water to leave one cupful of juice when drained. Add one tablespoonful of shortening half a cupful of sugar and half a cupful of corn syrup (4 used molasses), and cool. Sift together one cupful rye flour and one cupful rye flour, four teaspoons of baking powder, one half teaspoonful nutmeg and half a teaspoonful of cinnamon, and add them to the first mixture. Mix well and put into a greased loaf pan and bake in a moderate oven for forty minutes.

MOLASSES CAKE (With Maize Flour)

1-2 cup lard,
1 cup sugar,
Cream lard and sugar together,

Cream sugar, syrup and shortening, warm, add hot water gradually, and a little salt.—Mrs. R. E. Sherrill.

Below we give a clipping from the Dublin Progress, which tells of the success of a former Haskell county teacher who taught eight years in the county before going to Dublin.

Miss Viola Humphreys, who taught as Principal of Wards in the Dublin schools last year with such satisfactory results, was elected during the past week as teacher of the seventh grade, now a part of the high school. About the same time Miss Humphreys was elected teacher of history in the high school department at DeLeon. Miss Humphreys has chosen to accept at De Leon in view of preferring the history work and also in consideration of the larger salary for that service.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI

The Woman's Tonic

She writes further: "I am in splendid health. . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.
