## Death and Funeral of Mrs. Jack Dyer

We regret to announce the death of Mrs. Molly Dyer, wife of Mr. Jack Dyer who lives on the Ballew road three miles north of town. The deceased lady had been suffering with tuberculosis for about a year, and succumbed to the disease last Monday night, leaving a husband and four young children to mourn her untimely loss. Mrs Dyer was born at Plano in Collin county in 1879. She married in Collin county and came to Haskell eight years ago and had gathered around her a large circle of friends by her kind and worthy disposition. As a young woman she had united with the Baptist church and lived a gracious and consistent life. The funeral services were held at the residence and graveside by Rev. Wm. Groom on Tuesday afternoon, and were attended by many from town. The cortege was met at the Willow Cemetery by the Womens' Order of the Woodmen of the World which deceased had been a member. Officers of the order acted as pall-bearers and covered the grave with beautiful flowers. We join in the widespread sympathy expressed for the bereaved husband and motherless children.

## Ground Soaking Rain Falls Here Saturday

Commencing early Friday morning and continuing on through Saturday night, Haskell county, and perhaps all West Texas enjoyed a thorough ground soaking rain. 3.55 inches fell all told, which almost insures another good crop year. The rain came most to late to be of any great help to wheat and oats, although we hear some say that it will do them good, and that they will yet make a good crop of both. The ground is in excellent shape for spring planting, which has begun in earnest, and Haskell county is now a very busy spot.

## Young Man, Young Woman, Be a Chin Upper

You do just four things. You think; you remember, you imagine you act. When you learn to think better, remember better, imagine better or act better, you are increasing your efficiency, and, therefore your income. You may feel you are successful now. Suppose you are; it isn't a question of what you know, but of how beneficial a practical business education will be to you in addition to what you already know. Did you ever stop to think that eight-five per cent of the men of this country are only earning \$15 per week or less? That ninety-two per cent fail in business between the ages of 40 and 50? That ninety-five per cent have no money at the age of 60? You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all of the laws of business means complete success. Our aim is to help you to observe a higher per cent of the laws of business, and, therefore, enable you to be nearer the maximum success. The late Prof. James, of Harvard, declares that the average man only used ten per cent of his brain power. Suppose you are twice as capable as the average man? Even that would mean you are only using twenty per cent of your maximum possibilities. The purpose of our course is to produce a maximum of proficiency with a minimum effort. The business world wants thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year but only few worth ten thousand a year. Be the latter kind of a man you can if you will. We know that a man is worth only about \$2.00 a day from chin down, selling muscle, but as high as a hundred thousand a year from the the chin up, selling brains. Be a chin upper and the higher type of brains; you can't afford to be a chin downer; there's no room for such a man in the high salaried class. We have been very successful in getting men out of eighty-five, the ninety-two and the ninety-five per cent class. Why not let us help you? We have been marvelously successful in raising salaries, as is conclusively proven by the letters in our catalogue from former students. Take our thorough practical course

## Recital Last Thursday Night Pleasing Event

The joint recital of the Haskell Symphony Club and Miss Esther Davenport of Stamford, teacher of violin, was one of the decided musical features of the season. The mere mention that the Symphony Club is to render a program is guarantee sufficient to all Haskell folk, as well as all others acquainted with that organization, that a treat is in store. Miss Davenport is likewise well known to a large number of music-lovers of this community, and her appearance in the recital here was a rare treat. Her violin numbers were greeted with a storm of applause, and to each number she, in her charming manner, responded to encores. Miss Davenport is a violinist in the strict sense of the term. Her playing is exquisite. Her renditions of "Souvenir" and the ever-beautiful "Traumerei" could not have been improved upon.

The 'Symphony' Club acquitted itself on last Thursday evening in a manner of which the membership as a whole should be justly proud. Their recently-acquired club room in the McConnell building, artistically decorated, and a profusion of pot-plants, afforded the scene of what will be a pleasantly remembered event in musical circles. There was a good audience out for the evenings entertainment, and if applause and enthusiasm count for anything, that was indeed a pleased audience.

One of the real features of the program was a vocal solo by Mrs. Cahill, "A Rose in Heaven" - - - H. Trotter's. As the name would imply this number was one of exquisite beauty, and we can think of no one that could have rendered it in a more charming manner than did Mrs Cahill on this occasion.

Mesdames Woodward and Lewis rendered a vocal duet, "Wanderer's Night Song" - - - Rubenstein, that delighted all present,

The quartet rendition of the ever beautiful "Old Kentucky Home" was simply beautiful.

Mrs. Adams gave a splendid reading holding the audience enrapt, and she responded to an encore with a most appropriate and amusing reading.

The piano duet, "Strauss Waltz," by Mesdames Cogdell and Patterson, was a rare treat to the lovers of music.

Mrs. Patterson rendered with rare artistic interpretation "The Erl King" - - - Schubert-Liszt.

The following numbers were rendered in a truly delightful manner: Piano duet, "Spanish Dance" - - - Moszkowski, "La Poloma" - - - Yrodier, Mesdames Long and Bell

Quartette, "Blow Balmy Breeze" H. E. Warner - - - Mesdames Cahill, Woodward, Bernard and Lewis.

The Symphony Club closed the program with a beautiful chorus, "Birth of Spring."

Since the recital the ladies of the Symphony Club have been besieged with compliments and requests for repetitions of like events. In the Symphony Club Haskell has an organization that is composed of as splendid music talent as would be possible to find anywhere. The chorus work of the club is all that could be desired or expected, and each individual member is an accomplished musician. Haskell should be, and is, quite proud of the Symphony Club. May we have many repetitions of last Thursday evening's musicale.

## One Week School of Home Economics

The Magazine Club will bring to our city from the University of Texas, a one week school of home economics, commencing Monday afternoon, April 24th, ending Friday afternoon, April 28th. All women of the town are urged to attend, and a special invitation is extended to the rural ladies.

Modern conditions have taken the industries from the home, and scattered them throughout the length and breadth of the world. Food and clothing which used to be produced by the home maker are now the products of a thousand factories. Practically all of our great industrial commercial systems are the outgrowth of the modern methods of providing food, clothing, and shelter for the family. Health laws, too, are made and enforced in the endeavor to, not only have a sufficient food supply, but an uncontaminated one as well. The clothing, too, must be protected from unsanitary factory conditions and exposure to contagious diseases in factories and shops through people afflicted with them, so that the family health may, in every way be safeguarded. For the same reason, streets, alleys, side-walks, and all public buildings must be, likewise, safeguarded.

Owing to the changed conditions, the function of the home has changed materially, and modern housekeeping has changed with modern conditions.

It is no longer an isolated unit, sufficient unto itself. The women no longer produce practically all the food and clothing necessary for herself and family. Under old conditions, the most efficient housekeeper was the one who remains in the home "to attend well unto the ways of her household." Under the new conditions, the efficient home-maker is the one who follows the industries from the home, and studies the conditions under which they are produced and marketed, so that she may know that the food and clothing used by her family are wholesome and sanitary, and that she is getting the full value of her money. She must concern herself with the health of the community, for she realizes that no matter how carefully she may safeguard her family, they can not be safe if exposed to disease. She, as a consumer, realizes that long hours, low wages, and unsanitary working conditions, are responsible for low moral conditions, and that the unintelligent consumer has been a factor in bringing about these evils. She must, in fact, be a community housekeeper if she is to be an efficient home-maker.

Home-making today has become one of the most complicated of all professions. To be an efficient home-maker requires a specific education as thorough and broad as is given the boy in fitting him for his life work. It requires a knowledge of the arts and sciences and their application to the most important of all professions-home-making.

## The Eight Weeks Summer Normal

An eight weeks summer normal will begin in Haskell on the 5th of June. The City Supt. of schools is in receipt of a letter from the State Supt. of schools approving the normal. Advertising material has been mailed to many teachers and prospective students.

Knox, Haskell, and Throckmorton counties will have representation on the faculty. Prospects indicate that there will be at least one hundred in attendance. This will mean much for Haskell. The average person spends more than fifty dollars during a period of eight weeks of normal work. An attendance of one hundred will give Haskell merchants more than five thousand dollars of additional trade during the summer months.

Persons who desire to take boarders during the summer normal are requested to report to R. J. Turrentine. Many teachers prefer to secure only a rooming place and take meals at the restaurants. Persons who would rent furnished rooms are also requested to report their names.

The citizens of Haskell are urged to co-operate with those in charge of the normal and assist them in making the normal successful. The citizens of the town can do much towards making the normalites well pleased with their eight weeks "stay" in Haskell and they can assist in advertising the normal by writing their friends who may be interested in normal work.

HASKELL, TEXAS, April 8, 1916.

Since the big rain, everybody's  
smiling.

The farmers of this county are  
assured a bumper crop. The price  
is the thing now. Diversify.

Never stop a man running with  
a hat box in his hand. It may be  
his wife's hat that he is trying to  
get home before the styles change.

Secretary Lansing would have  
the United States be as strict with  
England as it is with Germany,  
and therefore is not fully in ac-  
cord with President Wilson.

A great deal of interest was  
manifested in the City election,  
held last Tuesday. In all there  
were 300 votes cast, being the  
largest ever cast here in a city  
election. Now that the election  
is over, let harmony prevail, and  
all work to the best interests of  
Haskell.

### THE LEGAL TRUST

I have formed very definite opin-  
ions regarding the Administration  
of Justice and I wish to prevent  
one of the causes which has seri-  
ously impressed me as contribut-  
ing largely toward defeating Jus-  
tice.

In my opinion the business in-  
terests of this State have been vic-  
timized by a ring of corporation  
attorneys and politicians. To be  
more specific, some of the leading  
corporation lawyers have Texas by  
the throat and are strangling the  
life out of industry and of govern-  
ment, and menacing the liberties  
of the people. It is not the cor-  
porations or the business men, but  
dishonest and ambitious lawyers  
who are throwing society into con-  
vulsions and threatening the life  
of the nation. In this conclusion,  
I am sure I have the endorsement  
of worthy members of the bar who  
feel keenly the reproach brought  
upon their professions by the im-  
moral conduct of their disreputable  
brethren.—J. S. Cullinan.

### A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect  
their aches and pains and suffer in  
silence—this only leads to chronic sickness  
and often shortens life.  
If your work is tiring; if your nerves are  
excitable; if you feel languid, weary or  
depressed, you should know that Scott's  
Emulsion overcomes just such conditions.  
It possesses in concentrated form the  
very elements to invigorate the blood,  
strengthen the tissues, nourish the nerves  
and build strength.  
Scott's is strengthening thousands of  
mothers—and will help you. No alcohol.

### High Class Memorials in Marble and Granite

I am now representing the  
National Marble Mills, At-  
lanta, Georgia, and will be  
glad to call on you at your  
convenience, should you be  
interested in any size or style memorial.

#### Reasons Why You Should See Me Before Buying

- 1 The Company that I represent believe in their work and furnish a written guarantee to each customer.
- 2 The prices I quote are the lowest consistent with finest quality work and absolutely highest grade of stone.
- 3 Georgia Marble and Winnebago Blue Granite are the two finest monumental stones in existence. Their beauty, combined with their lasting qualities make them second to none.
- 4 We never have—and never will—send out a monument with a sandstone or limestone base or bottom base. The bases are of the same stone as the die.
- 5 I allow the freight and personally supervise the setting up of all monuments sold.

### MAKING OR BREAKING A TOWN

It is easy enough to kill off a  
town, but how are we to rejuvenate  
a community that has been  
literally choked to death by the  
very people who should be its best  
friends and protectors—its own  
people?

This community is by no means  
dead, but it has had some solar  
plexus blows from people who  
should have been pushing instead  
of shoving.

Let us suppose two pictures,  
and the story will have been told  
so plainly and so graphically as to  
be readily understood by any per-  
son of any degree of intelligence  
whatever.

#### PICTURE ONE

This is a thriving country town  
community.

It has modern improvements,  
many stores well stocked with  
goods that are sold at close mar-  
gins of profit, is clean, sanitary,  
and attractive in many ways.

Business is good, money is plen-  
tiful and in constant circulation,  
society is active, and life is more  
than worth living.

Farmers find a ready market for  
their products, and those that are  
not consumed locally are purchas-  
ed by shippers at the highest  
market prices.

The town has a good name  
abroad, new people are constantly  
moving in, real estate is on the  
move, farm values are high and the  
demand for them is heavy.

It is a successful town, but it is  
so only because the people of the  
community trade with their home  
merchants and are loyal to home  
institutions and home people.

The community produces more  
than it consumes, and since the  
people trade at home the profits  
and surplus are naturally kept at  
home, with the result that the fi-  
nancial condition of the communi-  
ty becomes better day by day.

This is what loyalty to home in-  
stitutions does for you and yours.

#### PICTURE TWO

This is known as a mail order  
town and community, and it looks  
it.

There was a time when this was  
a prosperous community of people  
with many stores well stocked and  
business generally on the boom.

Then the mail order man came  
along with his handsome cata-  
logues and his alluring advertise-  
ments of "something for nearly  
nothing" which did not always  
pan out as expected, and many of  
the people fell for his stunt.

And each year they fell a little  
often and a little harder, and the  
home merchants sold less goods  
and had to reduce their stocks,  
and some of them became disgust-  
ed and moved away, and the town  
just naturally hit the slippery  
place on the toboggan and slid  
down to the bottom and has stuck  
there ever since.

Yes, it is just a mail order town,  
and looks it.

Pride is gone, business men are  
apathetic, trade is dull, money is  
scarce and hard to get, social life  
is dead, real estate is dead, and  
farm values have shrunk until  
they are the dearest of all.

Many farms are for sale, but  
there are no buyers. Nobody wants  
to live or invest in a dead commu-  
nity.

tired of living in a cemetery and  
move on to other and more pro-  
gressive communities, or to the  
big cities.

Older ones would like to go, too,  
but they cannot sell their property  
and of course there is nothing left  
for them to do but stick around  
and stagnate with the rest of the  
victims of the mail order man.

This is what patronizing the  
mail order man and neglecting the  
home merchants and home institu-  
tions does for you and yours.

**MORAL:** The community that  
patronizes home institutions will  
live and prosper. The one that  
clings to the mail order man more  
often faces certain commercial dis-  
integration, stagnation and death.

**ANTIDOTE:** Resolve today  
that you will never again deal  
yourself and your community a  
body blow by sending your money  
away to the mail order man. Stick  
to home and home will stay by you  
and your combined energies will  
bring victory from defeat and  
prosperity from disaster.

### ENGLISH ON FIRE PREVEN- TION

Spasmodic efforts at reform im-  
mediately following disasters and  
conflagrations, such as have recent-  
ly occurred in Texas, are not suffi-  
cient to place our house perman-  
ently in order for the prevention  
of similar visitations. Each city  
and town in Texas should adopt  
and rigidly enforce a building law  
prohibiting the erection of combus-  
tible structures, particularly in  
or adjacent to the heavy value dis-  
tricts, and one that will perman-  
ently banish from the corporate  
limits the tin and brick-on-edge of  
flues, and the wooden shingle roof

### MAN'S INHUMANITY TO MAN

The Scottish bard, Robert  
Burns, said, "Man's inhumanity  
to man makes countless thousands  
mourn." Twentieth century  
civilization has wrought wonder-  
ful changes in many respects, but  
humane nature in the days of  
Kipling is about the same as in  
the day of the Scottish bard.

A cultivated habit of watching  
for the faults of others blinds one  
to all that is good in his fellows.  
Selfish motives are attributed to  
the various acts of kindness and  
benevolence. If the benefactor  
should be a merchant, his acts of  
benevolence are attributed to his  
greed for gold; if he be an office  
holder, he is seeking for popular-  
ity among his fellow constituents;  
if he be a minister, his acts of  
kindness are attributed to his de-  
sire to stand well with his parish-  
ioners from whom he draws his  
support. Thus "Man's inhuman-  
ity to man makes countless thou-  
sands mourn."

Injustice in thinking, leads  
to injustice in actions. To think  
straight is to act straight. Man's  
attitude relative to his intentions  
and acts of his fellows is sure to  
determine his own attitude to the  
world at large.

Regarded from the viewpoint of  
the psychologist, as well as the  
moralist, thought and action go  
hand in hand, and the former  
must proceed the latter. Newton's  
law in physics might be well ap-  
plied, "To every action there is  
an equal and opposite reaction."

It is not given to man to de-  
termine with any great degree of  
accuracy the motives which  
prompt the actions of his fellows.  
A misjudgment might lead to  
sad ends and results in a demon-  
stration that "Man's inhumanity  
to man makes countless thou-  
sands mourn."

## It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in  
writing of her experience with Cardui, the woman's  
tonic. She says further: "Before I began to use  
Cardui, my back and head would hurt so bad, I  
thought the pain would kill me. I was hardly able  
to do any of my housework. After taking three bottles  
of Cardui, I began to feel like a new woman. I soon  
gained 35 pounds, and now, I do all my housework,  
as well as run a big water mill.  
I wish every suffering woman would give

a trial. I still use Cardui when I feel a little bad,  
and it always does me good."  
Headache, backache, side ache, nervousness,  
tired, worn-out feelings, etc., are sure signs of woman-  
ly trouble. Signs that you need Cardui, the woman's  
tonic. You cannot make a mistake in trying Cardui  
for your trouble. It has been helping weak, ailing

**The Presbyterian Society**

The Women's Society of the  
Presbyterian church met Mon-  
day with a large and interested  
attendance. The society voted  
to join the Presbyterial, which is  
composed of all the women's so-  
cieties in a Presbytery. Mrs.  
Roy English was elected dele-  
gate to the Presbyterial which  
meets in Fort Worth. April 12th  
and 13th. Mrs. R. E. Sherrill  
was chosen alternate.

This secretaries of the various  
causes of the church were elect-  
ed as follows:  
Foreign Missions—Mrs. J. D.  
Smith.  
Assembly's Home Missions—  
Miss Minnie Ellis.  
Local Home Missions—Mrs.  
Walter Meadors.  
Education and Ministerial Re-  
lief—Miss Eugenia English.  
Young People and Sunday  
Extension—Mrs. Robert Robert-  
son.  
The Devotional was led by Mrs.  
Bryson.  
A Volunteer Prayer Band was  
formed.  
Mrs. R. E. Sherrill conducted  
a very interesting lesson, and  
Mrs. Scott Key gave a short talk  
on Raphael's Transfiguration.

We are hoping and praying to  
bring our Society to the highest  
standard of excellence. Our aim  
is every woman in the church be  
an active worker for Christ, and  
His kingdom on earth. We can  
not do this without the help of  
each. Come out and meet with  
us and you will see that Christ's  
work is not work but the great-  
est of privileges.

# TAKES THE PLACE OF DANGEROUS CALOMEL

**New Discovery! Dodson's Liver Tone Acts Like Calomel But Doesn't Grip  
Salivate or Make You Sick—Don't Lose a Day's Work—Harmless Liver  
Medicine for Men, Women, Children—Read Guarantee!**

Ugh! Calomel makes you sick. It's horrible!  
Take a dose of the dangerous drug tonight and  
tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes  
necrosis of the bones. Calomel, when it comes in-  
to contact with sour bile crashes into it, breaking  
it up. This is when you feel that awful nausea  
and cramping. If you are sluggish and "all  
knocked out," if your liver is torpid and bowels  
constipated, or you have headache, dizziness, coated  
tongue, if breath is bad or stomach sour, just try a  
spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store  
and get a 50 cent bottle of Dodson's Liver Tone.  
Take a spoonful and if it doesn't straighten you  
right up and make you feel fine and vigorous  
want you to go back to the store and get  
money. Dodson's Liver Tone is destroying  
sale of calomel because it is real liver medicine  
entirely vegetable, therefore it can not salivate  
make you sick.

I guarantee that one spoonful of Dodson's  
Tone will put your sluggish liver to work,  
clean your bowels of that sour bile and consti-  
pated waste which is clogging your system and  
you feel miserable. I guarantee that a bottle  
of Dodson's Liver Tone will keep your entire  
feeling fine for months. Give it to your child.  
It is harmless; doesn't gripe and they like its  
ant taste.

# BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

The Best Remedy at Home—128 Teaspoonful for 50 cents.

Nothing was sold in as liberal and generous as the below named drug—Expectorant, absolutely no complaint or dissatisfaction arise from anyone. These arise from the remedy—Buy a bottle of this remedy for Bronchitis, Whooping Cough, Croup or any Affection, and we will return you, just the same as we do with our famous Asthmador, if it gives satisfaction, or if not found remedy ever used for any ailments. Why not take advantage of this guarantee and try this and get your money back, rather than buying another purely on the strength of testimonials from and run the chance of getting worthless and also wasting money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonful, because 50c worth makes a whole pint (128 teaspoonful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by Jno. W. Pace & Co.

## Sagerton Orient Depot Burns

The Orient depot at this place was destroyed by fire on last Friday afternoon, entailing a loss of several thousand dollars. The fire had its origin in a defective flue and so rapidly did the flames spread that it was impossible to save the furniture and fixtures and even most of the papers were burned. It is claimed that when the fire was first discovered just a few buckets of water, rightly used, would have extinguished it, but those few buckets of water were lacking; hence this heavy loss. Box cars are now being utilized as a depot and all business is being handled by the agents as though nothing unusual had happened.—Sagerton Dairyman Farmer.

## Watch Child's Cough

Colds, running at the nose, continued irritation of the mucous membrane if neglected may mean Catarrh later. Don't take chances—do something for your child! Children will not take every medicine, but they will take Dr. King's New Discovery, without bribing or teasing. It's a sweet, pleasant Tar Syrup and so effective, just laxative enough to eliminate the waste poisons. Almost the first dose helps. Always prepared, no mixing or fussing. Just ask your druggist for Dr. King's New Discovery. It will safeguard your children against serious ailments resulting from colds.

## The Aches of House Cleaning

The pain and soreness caused by bruises, over-exertion and straining during house cleaning time are soothed away by Sloan's Liniment. No need to suffer this agony. Just apply Sloan's Liniment to the sore spots, rub only a little. In a short time the pain leaves, you rest comfortably and enjoy a refreshing sleep. One grateful user writes: "Sloan's Liniment is worth its weight in gold". Keep a bottle on hand, use it against all soreness, neuralgia and bruises. Kills pain. 25c at your druggist's.

## Fire Boys Hold Meeting

The fire boys held their regular meeting Monday night at Rube Brewer's tailor shop. The regular business coming before the boys was attended to, and ways and means of fighting fire were discussed. A committee was appointed to find a place to keep the new fire truck and hose which is expected to arrive here about the 15th of this month.

After the arrival of the fire truck, when a fire alarm is turned in, the fire boys will go to the fire, and not have to carry the hose as heretofore, as the fire truck will be driven direct from the garage to the fire.

## Insomnia

Indigestion nearly always disturbs the sleep more or less, and often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. For sale by the West Side Drug Store

## For County Attorney

This week we place in our announcement column the name of Tom Davis as a candidate for the office of County Attorney. Mr. Davis is a young man, and has been practising law here for the past year. He is a graduate of the Law Department of the University of North Carolina, and later attended the University of Texas, and was admitted to practise law in this state. Mr. Davis stands high among the business and professional men of Haskell, and we have heard men high up in this profession remark that Mr. Davis had all the qualifications necessary to make an excellent attorney. We know him to be honest, conscientious, and energetic, and believe that he would make Haskell county a good County Attorney. It is his intention to see each voter and personally solicit his support. We ask that you give him and his claims serious consideration.

## Why Constipation Injures

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets. For sale by the West Side Drug Store.

## Have the Paige Agency

Mr. R. F. Taylor, representing Gray and Reardon, of Dallas Texas, who are the State Distributors for the Paige Automobile spent several days in Haskell this week in the interest of the Paige Car and while here placed the agency for same with J. L. Robertson, and W. N. Huckabee, who will handle this famous line of cars in Haskell, Knox and Throckmorton Counties. They have a demonstration car here and it looks to be one of the best and swiftest cars we have seen.

## Girls Auxiliary Club

The Girls Auxiliary club met April 4, 1916 at the Club rooms. A number of girls were present and interesting roll calls were given. The following artists were studied: Giorgione, Correggio, Lintoretto and Veronese. 1477-1588.

The Club adjourned to meet again the third Tuesday in April. All the girls are urged to be present as officers for next time are to be elected and a 50c fine will be imposed on all who are not present.

**Backache, headache, dragging pains, Nothing relieved me until I took Peruna**

Thousands of the best women in the world are bearing the burden of backache, headache, dragging pains, a miserable half-dead, half-alive condition, produced by chronic internal derangements. Mrs. Joseph Lacelle, 124 Glenora Ave., Ottawa East, Ontario, Canada, is one of the fair women of America who has had her experience with this sort of a burden. Her experience is similar to the multitude of other women whose letters are recorded in the "Ills of Life." A copy of this free booklet ought to be in the hands of every housewife in the United States. Read what Mrs. Lacelle says:

**"I suffered with backache, headache and dragging pains for over nine months, and nothing relieved me until I took Peruna. This medicine is by far better than any other medicine for these troubles. A few bottles relieved me of my miserable half-dead, half-alive condition. I am now in good health, have neither ache nor pain, nor have I had any for the past year. If every suffering woman would take Peruna, they would soon know its value and never be without it."**

## Home Economics Week

Beginning Monday April 24, Home Economics week will be observed in Haskell, under the auspices of the Magazine Club, two ladies from the Extension Department of the State University will have this in charge. There will be two lectures and demonstrations each day for five days, a fee of \$1.00 for the entire course or \$0.25 for one lecture will be charged to help pay the expenses. There will be no admission charged the rural ladies and High school Girls. This is an opportunity for the ladies of Haskell, and every lady in Haskell County is urged to attend these lectures for they will be both instructive and entertaining.

## Spring

Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying the Chamberlain's Liniment. For sale by the West Side Drug Store

## Safe Medicine For Children

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, cold and croup. **THE WORLD'S TWO BEST TWO-ROW CULTIVATORS**

**BACKED BY AN UNQUALIFIED GUARANTEE**

**The P-O Two-Row Cultivator**  
covers every essential feature for perfect work, ease of adjustment and adaptability of all conditions of soil. The simplest and strongest Two-Row Cultivator made. "It's the way we build them". Frame as strong as a bridge. Axles of improved construction prevents wheel widening in front; make light draft. Fine depth adjustment; each gang controlled independently. Four levers do the work of six on other styles, as the inside levers control the inside gangs independently, and also raise or lower the gangs in pairs. Easy working adjustable foot levers. The wheels can be pivoted alone or in connection with the lateral gang movement. The pressure springs are center hung, insuring proper tension in all conditions of the ground and in any position of gangs. The parallel movement of gangs insures each shovel cutting the proper width and depth. Furnished with any style gang.

**No. 27 2-Row Lister Cultivator**  
We make a complete line of DRY FARMING tools, prominent among which is the No. 27 Lister Cultivator, which has many superior features, consisting of two sets of gangs mounted slidingly on a trussed spreader pipe. Turn table construction evenly distributes weight on the gangs, holding them level and preventing one side from going in deeper. Each gang follows its own row. Roller connection between the gangs and spreader pipe. Gangs can be raised as a unit, or shovels can be raised separately. Frame balances with tongue when raising gangs. Easy change from first to second cultivation. Extra high clearance for large corn, with long shield for small corn. Eight shovel attachments can be furnished when ordered.

**WORKED HIS WAY THROUGH UNIVERSITY OF TEXAS**

That there is no boy in Texas so poor who, having the ambition, the health and the will, cannot obtain a University education, is demonstrated by J. G. Grissom, whose photograph in reproduction appears above. Mr. Grissom will receive this year two degrees from the University of Texas, the degree of Bachelor of Arts and the degree of Master of Arts. He has earned himself every penny he has spent at the University. But for the munificence of the state in supporting a University it would be impossible for poor boys to secure a University education. Handicap young Grissom, for instance, with a payment of \$200 per year for tuition, and he would be unable to attend the University. The founders of the Republic pointed out this fact, that whereas the rich can send their sons and daughters anywhere, to the East, to Europe, or to the Orient, to secure an education, the children of the poor must depend upon state supported institutions of higher education. Therefore, the University of Texas has been truly called "the poor man's school," since above half of the students within its walls are either in whole or in part self-supporting, and fifty per cent of the remainder would be unable to attend a university that demanded tuition-fees.

Any comprehensive scheme for rural school improvement in Texas must include a provision for the training of teachers to teach them. Herein is a great service of the University of Texas, which institution alone furnishes above 400 well trained teachers to the common schools of the State.

The University of Texas is the largest institution of learning in the South. It has graduated above 4,000 students, while the roll of its ex-students and graduates include the names of over 20,000 individuals.

**Lectures to Magazine Club Last Monday**

The Magazine Club has recently completed an English course from the State University, under Dr. Royster. The course being a condensed study of Modern Tragedy by Ibsen, Souderman, Pinero, Rostand, Maeterlinck, D'Annunzio, Stephen Phillips, Yeats, Synge and Josephine Peabody.

The study of Drama by these writers has been one of the social and political life of the nation to which they belong.

On last Monday morning Dr. Royster gave a lecture informally at the club room to members of the Magazine Club. The Club followed Dr. Royster with the liveliest interest and the many questions asked, showed what splendid enthusiasm the members had perused the study course.

In the afternoon Dr. Royster spoke at the Baptist church on the subject of Modern Poetry. Though at considerable expense to bring a University man to our town, the Magazine Club was only too glad to make this lecture free to the public.

Seats were reserved for the Faculty and High School, who attended in a body, and also the Board of Trustees.

The High School is to be complimented on their appreciation of Dr. Royster's lecture, shown by their perfect attention.

Dr. Royster brought out the fact that in spite of what is thought generally to the contrary, good poetry is being written today and worthy a place in our schools, poetry which would be more general in its appeal to young people than the older classics.

Mr. Turrentine, Superintendent in introducing Dr. Royster stated that only a small percent of our people could go to the University but that through the Extension Department the University could come to the people, which is so true that we hope to see this Department enlarged that it may meet all the demands and come to all the people.

**Two PURE Cinnamons— One strong, the other weak— Why?**

Cinnamon is the bark of a tree. It gets its flavor from a volatile oil in the bark—the more of this oil the better and stronger the flavor.

The amount of oil varies according to the age of the tree, the soil, climate and the cultivation of the tree itself. Later, the handling of the bark must be such as to preserve the oil from evaporation, and finally the grinding must be so done that loss of oil will not occur during that process.

Thus you see that from the very start it is much more than purity that must be preserved for you—it is flavor and strength which can be lacking even in perfectly pure Cinnamon.

White Swan Cinnamon is made of high-grade, relatively high-priced and most carefully selected bark from young trees. In every step of handling and manufacture the greatest care is devoted to keeping the strength and flavor (the oil) intact. It is packed with the same care. We recommend it and guarantee its flavoring strength to be at least four times that of ordinary "pure cinnamon."

Ask your grocer—he can tell you what White Swan means to quality.

**John H. Kirby**  
ON BILL OF RIGHTS.

We should dedicate ourselves anew to the maintenance forever of the vital forces of the Bill of Rights, which was largely due to the wisdom of Jefferson and Madison that the first ten amendments to the Constitution of the United States were added; in fact they were added almost concurrently with the Constitution itself, and for these amendments the Constitution would probably never have been ratified by a sufficient number of states to put it into effect. These ten amendments often referred to as the Bill of Rights, because they are a guarantee of the maintenance of human liberty, representative government under our federal system, well as in some respects constraining the Constitution itself as to the character of government created under it and the principle to be maintained by it.

In them we have religious freedom and freedom of speech or of press, and the right of petition; protection against unreasonable searches and seizures; no person to be deprived of life, liberty or property without due process of law; the right to a speedy and public trial by an impartial jury; the enumeration of the constitution of certain rights shall not be construed to deny or disparage others retained by the people. This amendment to the Constitution, which is one of the most vital things in the Bill of Rights, so far as the maintenance of the autonomy and independence of State Government is concerned, has been the victim of more amendments by political quacks than all the other provisions of the Constitution combined.

From the beginning of the government there have been those of type of Alexander Hamilton, aristocratic in their tendencies and with faith in the capacity of the people for self-government, who have advocated a strong central government, concentrating its powers at Washington and controlling the liberties, properties, rights and habits of the people of this great central power house. And likewise there has been another type of political thought in this country holding the principles of Thomas Jefferson who preached the doctrine of individualism, who held that all men were created free and equal, that all governments derived their just powers from the consent of the governed, and that the people were abundantly able to direct the energies of government in every department thereof and could safely be trusted to do so. Jefferson's theory of the separate independence and capacity of the citizen was likewise extended to the separate sovereignty and capacity of the states. He believed in local self-government; in selection of the people of representatives to carry on the affairs of government, legislative, judicial and executive. He fought with all the power of his great brain the Hamiltonian idea of a centralized power to direct the affairs of the people, especially in local state matters, and believed earnestly in efficiency and wisdom of both the ninth and tenth amendments to the Constitution.

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Haskell evidence of their merit.

P. S. Arnold, farmer, Haskell says: "My kidneys were disordered and didn't do their work as they should. I often became dizzy and specks seemed to be passing before my eyes. Learning of Doan's Kidney Pills, I got a supply from the Corner Drug Store and they corrected these ailments. I used about three boxes in all and have not noticed any return of the ailments to amount to anything since. Others in my family have also found Doan's Kidney Pills beneficial."

# Maxwell

## "The Wonder Car"

Men who have driven other makes of cars for years—Men who have experimented—Men who have been "stung"—now drive Maxwells.

Right in this town—and all over the country—are men and women who have been driving different makes of cars for years, who now drive and swear by their Maxwells.

Each year they used to buy a different make, trying to find a car which would suit them exactly.

When the 1915 Maxwell "Wonder Car"—with its 17 new features and new low price of \$695, was announced—these "motor wise" men began investigating it.

They didn't take our word or any-

body's word for it—they looked into it themselves.

They found the Maxwell to be a handsome, powerful, easy-riding car.

They compared it with cars that sell at double the Maxwell's price. They found that the Maxwell contained every worth-while up-to-date high-priced car feature.

They tested the Maxwell on hills and on the level on really tough roads.

They made it prove its ability to run at low cost over all sorts of roads.

Then they began buying and talking about the Maxwell.

To-day 38,000 enthusiastic people are driving these Maxwells. Of these a great big percentage owned other makes of cars before they bought their Maxwells.

Use your common sense when you buy your automobile. Don't be talked into an extravagant car or a car that hasn't had the "acid test" of time.

Don't let them experiment at your expense.

### Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

**Attractive Streamline Body**  
Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

**A High-Tension Magneto**  
Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

**Left Side Drive—Central Control**  
Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

**Three-Speed Sliding Gear Transmission**  
All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

**Double-Shell Radiator with Shock Absorbing Device**  
The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

**The Roomy Full 5-Passenger Body Adjustable Front Seat**  
The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—so fit no one.

**Low "Up-keep" Carburetor**  
The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tests conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

**Irreversible Steering Gear**  
The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

**Heavy Car Comfort**  
What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

**One Size of Tire—Anti-Skids on Rear**  
The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3 1/2 inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

**A Dependable Electric Starter**  
For \$55 extra, you can have your Maxwell delivered equipped with the famous Simms-Buff electric starter. This starter is efficient, trouble proof and easily operated. And the Maxwell is completely equipped from the clear vision, ventilating windshield at the front to the spare tire carrier at the rear. When you buy a Maxwell you have nothing extra to buy.

**Something to Do.**  
"What has become of the Cheerful Idiot?" asked the Old Fogey. "I haven't heard of him for months." "Why, he is busy with a get-rich-quick scheme," replied the Grouch. "What is it?" asked the Old Fogey. "Someone told him that a queen bee lays 3,000 eggs a day, and he is trying to perfect a cross between a queen bee and a hen."—Cincinnati Enquirer.

**The Way of Going.**  
And after all it may be best, just to be the happiest, sunniest hour of all the voyage, while eager winds are kissing every sail, to flash against the unseen rock, and in an instant hear the billows roar above a sunken ship. For whether in midsea or 'mong the breakers of the farther shore, a wreck at last must mark the end of each and all. And every life, no matter if its every hour is rich with love, and every moment jeweled with a joy, will at its close become a tragedy as sad and deep and dark as can be woven of the warp and woof of mystery and death.—Robert Ingersoll.

**The School Lunch.**  
Some mothers today are providing their children at school with a set of white enameled water plate and cups for use at lunch hour. These things can be easily kept clean and their introduction does away with the breakage which so frequently occurs in the lunch-time frolics.

**Ink Stains Remedy.**  
Ink stains on garments can be soaked out with a mixture of salt and milk. Use a teaspoonful of salt to nearly a half-glass of milk. The solution can be used for either white or colored fabrics; but if the ink has been allowed to dry it will be necessary to soak the stained part in the milk for an hour or two.—Ladies' World.

**American Hospital in China.**  
Che-Foo has an American hospital which is slated to rank with the best in the larger cities of China. It stands in four acres of ground on Temple hill, overlooking the city and harbor of Che-Foo, and cost \$50,000 gold.

**Plaster of Paris Casts Renovated.**  
Casts of plaster paris, which have become soiled, can be easily cleaned by melting some whiting in water. Dissolve a little isinglass in warm water to prevent it from rubbing off. Stir the liquid well, and apply to the plaster with a soft camel's hair brush.

**As to the Courthouse.**  
The courthouse was not instituted entirely as a means of providing punishment for evil doers; indeed, its chief business seems to be to house men who collect taxes and punish people who do not pay up promptly.—Ed. Howe.

**Preserving Patent Leather Shoes.**  
Patent leather shoes should be carefully wiped off with a soft cloth when they are removed and then a few drops of oil should be rubbed into them. This will keep the leather soft and prevent them from cracking.

**A Woman's Way.**  
So determined is a woman to "look up" to the man she loves that if she married a worm she would dig a hole in the ground and crawl into it in order to be able to put her head on his shoulder and say: "Darling, how big and strong and tall you are."

**Flight of the Fly.**  
It has been observed that a house fly can mount almost directly upward to a height of 45 feet or more. The time of day appears to influence the dispersal of flies, as, apparently, when set free in the afternoon they do not scatter so well as when liberated in the morning.

**Poison That Destroys Mind.**  
The Mexican Indians derived from their ancestors, the Aztecs the method of making the poison of Talavatchi. It is a subtle drug, the constituents of which are not known. The peculiar effect of the poison is to destroy the mind, while only slightly affecting the body.

**Find Some Labor a Necessity.**

on one thing, if on no other. They all prohibit the sale of alum baking powders.

There must be a good reason for this. It is because alum was found to be unhealthful.

Dr. Price's Cream Baking Powder is made of cream of tartar, derived from grapes, a natural food product, and contains no alum nor other questionable ingredients.

### A Heart to Heart Talk

For fifteen years I have been giving my time to the cemetery work exclusively, and last month I resigned, or rather tried to, feeling that it was best to have someone else take my place, since I will be absent each year, a part of the spring and all of the summer months. The Cemetery Association refused to accept my resignation, I then published an article in the paper appealing especially to the out-of-town people who were interested in our cemetery to send in their assessments at once explaining that the money must be in the bank in order to keep the sexton at work during my absence. Four weeks have passed and only three out-of-town people have responded.

Perhaps someone will think that is enough to make me wish my resignation had been accepted and you are right about it. I wonder sometimes how those who leave mothers and fathers laid to rest in our City of the Dead, can so far forget the sacrifices those

### Citation by Publication.

The State of Texas.  
To the Sheriff or any Constable of Haskell County, Greeting:—

You are hereby commanded to summon E. P. Thompson and Francis E. Thomason by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the judicial District in which Haskell Co. is situated; but if there be no newspaper published in said judicial District, then in a newspaper published in the nearest judicial District to aid judicial District in which the said Haskell County is located, to appear at the next regular term of the District Court, of Haskell County Texas on the 29th day of May, A D 1916, then and there to answer a petition filed in said Court on the 31st day of March, A D 1916, in a suit, numbered on the docket of said Court No. 2404, wherein J. M. Radford Grocery Co. is Plaintiff, and E. P. Thompson, Francis E. Thomason and R. E. McDonald are Defendants, said petition alleging: that heretofore, to-wit, On December 12, 1913 the defendants, E. P. and Francis E. Thomason, sold, transferred and conveyed to the Defendant, R. E. McDonald, lots Nos one and two, in Block No. Twelve, of the Frisco Addition to the town of Haskell, Haskell County, Texas, same being a part of the Isidro Ramos League & Labor Survey, Abstract No. 351, Certificate No. 605, Survey No. 109, Patent No. 165, Volume 18, situated in the County of Haskell, State of Texas, and that as a part of the consideration for said premises, the Defendant R. E. McDonald made, executed and delivered to the Defendants, E. P. and Francis E. Thomason, his three certain promissory Vendor's Lien notes, all dated December 12, 1913, two for the principal sum of \$400.00 each, and due on or before December 1, 1914 and December 1, 1915, respectively, and one for the sum of \$90.00, due on or before December 1, 1916, bearing interest from date at the rate of eight per cent per annum, payable annually as it accrued and providing that failing to pay any note or any installment of interest thereon when due should at the election of the holder of said series of notes, or of any one of them, mature all of said notes, and they should become at once due and payable, and the Vendor's Lien retained in same to secure the payment shall become subject to foreclosure proceedings, and further providing that if the notes were placed in the hands of an attorney for collection, or is collected by suit, the Defendant, R. E. McDonald, agreed to pay the 10 per cent additional on the principal and interest due thereon as attorney's fees, whereby the Defendant, R. E. McDonald, became liable and bound to the Defendants, E. P. Thomason and Francis E. Thomason, and promised to pay them the sum of money in said notes specified, together with all interest and attorney's fees accumulated thereon according

## Postoffice to be Second Grade.

The business done by the Haskell postoffice is increased to a point to where the office will be raised from a third grade to a second grade postoffice. The change in the grade will probably occur the first of July. This grade postoffice is sometimes owned outright by the government, building fixtures, and all, and it is possible if not probable, that Haskell could have a new Postoffice building.

to the tenor and effect thereof.

That afterwards, to-wit, on the 12th day of December, A D 1913, E P Thomason and Francis E Thomason, by their duly executed transfer in writing for a valuable consideration, and before the maturity of said notes, sold transferred and conveyed the above described Vendor's Lien notes to the Plaintiff herein, and guaranteed the payment of same, whereby each and all of the Defendants became liable and bound to Plaintiff, and promised to pay Plaintiff the sum of money in said notes specified, together with all interest and Attorneys fees accumulated thereon according to the tenor and effect thereof.

That the first two of said notes are now past due and unpaid, and the Defendants, though often requested so to do, have hitherto failed and refused, and still fail and refuse to pay the same or any part thereof, and that Plaintiff has elected to mature the last of the said series of notes and here and now declares all of said notes, together with accumulated interest and Attorney's fees, due thereon, due and payable, and that by the reason of the failure to pay same, the 10 per cent Attorney's fees as mentioned in said notes, has accrued, and Plaintiff has been forced to file suit on said notes, and has placed same in the hands of G. W. Smith, an attorney, of Abilene, Taylor County, Texas, and promised to pay him the 10 per cent as provided for in said notes as attorney's fees, which plaintiff alleges to be a just and reasonable fee for such services.

That by reason of the provision in said notes granting the holder of same, or any part of them the right to mature any or all of said notes upon the failure to pay one, Plaintiff alleges all of said notes to be past due and unpaid, and the Defendants, though requested so to do, have failed and refused, and still fail and refuse to pay the same or any part thereof to Plaintiff's damage in the sum of \$1,800.00.

That said notes are secured by Vendor's Lien on the above described real estate conveyed to R. E. McDonald by the defendants, E. P. Thomason and Francis E. Thomason, and Plaintiff is desirous of having same foreclosed, and the property sold to satisfy whatever judgment is recovered in this cause.

Herein fail not, but have before said court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed same.

Witness—E. W. Loe, Clerk of the District Court of Haskell County, Texas.

Given under my hand and the seal of said Court, in the town of Haskell, this 31st day of March, A D 1916.

parents made for them, as to begrudge the pitiful sum of three dollars a year to care for their last resting places. Or the little ones taken from our arms forever. Is it possible when you spend so much for the living you would refuse such a small amount to have the weeds kept from their little mounds? Someday we are going to meet those loved ones face to face in another world. Let us all think of these things in the right light and make up our minds to do our duty in the future. Give us the small amount we ask for and we promise you the best kept cemetery in West Texas. We are willing to do all we can to help you and will make this proposition We know that many of you are so far behind in your assessments it would be hard to pay up in full and if you will start in right now and promise to send in your assessments regularly every year, we will cancel all past dues if you will begin at once to do your part in keeping up the work. Then we will consider the work a pleasure instead of a burden. I am leaving the 20th of April for Austin to be absent until September.

Again let me urge you to send me your assessments at once. In order that all may understand will say that those owning full lots are assessed \$3.00 per year, 1/2 lots \$2.25, 1/4 lots \$1.50, 1/8 lots \$ .75.

Will also state that the grave digging must be paid in cash to the sexton when graves are dug.

## Haskell County School Notes

On account of the all day rain Saturday, very few schools districts held the trustees' election. It would be a good thing for the districts for the people to hold another election in the districts that failed. The law does not provide for another election, but it does not forbid that it be done. It stands to reason a and common sense that the proper thing would be to have the election yet. The matter of selecting the trustees is an important one and each school should have the best and most capable men as school directors. Whenever the new board is selected the requires its members to meet and organize and report the same to the county superintendent by the first day of May if possible, the date of the beginning of the term of the new members.

School boards should begin to take up the matter of selecting teachers for another year. Teachers generally are located before the summer months, and the best of teachers are generally located first; so the school board that look after this part of the duties first will likely have the advantages of those who delay. The smallest school in the county is entitled to the very best teacher that the board can get. It is too often the case that the poorer teachers are selected in the smaller schools. As has been said before, the trustees render about 90 per cent of their services for the year in the one act of selecting the teacher.
