START YOUNG

TO TRAIN A CHILD into good habits. There is no habit that will add so much to the good character, the general happiness and thorough contentment of a life as the good habit of saving.

THE BEST WAY to start this habit is by opening an account with this bank for the child. The child will become as interested in watching this account grow as it would with a toy. This interest will harden into a habit and the habit into character.

YOU CAN START an account for the child with as little as one dollar if you like.

CYCLONE KILLS ONE, INJURES THREE

Much Damage Done to Property. Several Residences and Barns Destroyed.

A cyclone which swept through the north part of town last Sunday night, Leola killed Robertson, age 14, an adopted daughter of Preacher Washington; and seriously injured Preacher Washington's wife, all colored. Nathon Walker, colorer, had his leg broken, and his wife was badly bruised up about the face and body. Several residences, barns, windmills, etc., were completely destroyed, and many badly damaged.

The cloud which came up from the west Sunday night about 10 o'clock was indeed a bad looker, and was accompanied by a severe and very brilliant electrical display. About one inch of rain, with enough hail to damage crops, fell just before the high wind struck. Most people were in storm cellars.

That no more people were killed, or injured, and no more property destroyed, is due to the fact, some claim, that the cyclone followed the center of a street running east and west through the city.

Entering the west part of town, the barn at the place of Charley Irby was blown down; Garage of A. F. Woods destroyed and residence damaged; R. J. Paxton's barn wrecked, and pieces from it blown into residence; Barn at the J. J. Guest residence badly damaged, and waterfront destroyed; Residence of Mrs. M. M. Bryant was blown off the blocks and the front porch was torn away, and barn destroyed; The residence of Tom Alderson blown off blocks and badly bursted up; Barn of K. D. Simmons totally destroyed; Negro house just west of railroad track literally torn into splinters; Negro house just east of railroad track also totally destroyed; Residence of G. Baker blown off blocks, roof blown away; Residence of Judge Kinnard damaged by planks from the Baker house going through the roof; Residence of Ned Roberts was blown off the blocks and barn damaged; Barn at the Walter Roberts place destroyed; Tabernacle and school house at Roberts destroyed.

The negro house just west of the railroad is where Nathon Walker and wife received their injuries. Nathon Walker, who is a porter at the Shaving Parlor was blown 100 feet and sustained a broken leg. The injury to Nathon's wife is bruises on the face and body. The negro house just east of the railroad is where the negro girl was killed. She was found in a dying condition on a mattress, all that was left of the bed she was sleeping on. The girl's neck was broken. She was buried here Monday. The negro woman at this house is suffering from several broken ribs and other internal injuries, and also, one of her eyes were put out.

Haskell Telephone Co. will probably head the list of those damaged by the storm, as poles and wires are all down over town. The lighting system was also damaged.

Findings in District Court

Grand jury adjourned Friday after a session of five days, after 57 indictments, 27 of which were for felonies, and 31 for misdemeanors. The following is the list of names:

Grand jury has been in session five days, and has completed its work, and now asks to be discharged. We have found 27 felonies, and 31 misdemeanors, having examined 108 cases.

We have examined the jail and find the sanitary condition there very good. We think negroes and white men should be kept in the jail, but in order to keep the jail must be equipped with new locks. This matter should be done at once, as the locks now in use are ineffectual and have been picked. We find that the jail can make keys that will unlock the doors.

We find the court house badly needed in a very unsanitary condition, especially the toilet. We recommend that the court house be better kept.

We want to thank the County Attorney and Sheriff for having assisted us in our work. The evidence in the cases before us in shape for consideration. The evidence in the cases reduced to writing in the trials has been of very much assistance to us.

We return our thanks to the County Attorney and Sheriff for having assisted us in our work.

Off to Press Association

Editor Sam A. Roberts and wife of the Free Press, left last Sunday evening for the Texas Press Association to be held at El Paso this week. Mr. Roberts is treasurer of the North West Texas Association. In attending the Press Association, he feels that he is doing so in the interest of the Free Press, that it will be for the betterment of the paper in general. He will mix and mingle with the best newspaper men of the state, and all problems and things connected with the newspaper business will be discussed by them.

For Commissioner Prec. 4

We are authorized to announce the candidacy of D. M. Guinn for Commissioner of Prec. No. 4. Mr. Guinn lives at Sagerton, in fact, is one of the old settlers of the county, coming here about 12 years ago. He is well known around his home town, and his many friends there will attest to his ability and good service should he be elected. We commend Mr. Guinn to your consideration.

ants in most of the cases pleading guilty.

The State of Texas vs. Enos Sowell, violating local option laws, two cases, one dismissed, sentenced in other of 1 year in the penitentiary.

State vs. Chas. Monroe, burglary sentenced 2 years in penitentiary. State vs. Hilliard Griffin, horse theft sentenced 2 years in the penitentiary.

State vs. M. E. Collins, two cases horse theft, sentenced 2 years in one case and 5 years in the penitentiary in the other.

Four Injured in Auto Wreck

In an automobile smash-up last Saturday night, Geo. Metcalf has his side cut and a gash cut in the left leg, Bill Tysinger skinned knees and bruised shoulder, "Smoky" Joe Clemmons bruised back and Wirt Smith a bruised face and bone broken in his left foot.

The accident occurred on "speedway" near Newsom's gin as the party was returning from a trip to the Lake. It seems that the Metcalf car was passing another car driven by Jim Odell, and, to avoid a collision Metcalf turned suddenly out of the road, going too far, and wheeled back again when the car turned completely over, and it is reported turned over twice. Metcalf's injuries were caused by broken glass from the windshield, and the injuries of the others was by the fall, and Smith's foot was broken by the hub of the car.

All were brought in immediately and were attended by physicians. It was thought at the time that possibly an amputation of Wirt Smith's foot was necessary but at this time it is not thought that it will be necessary. The car was not damaged very much, outside a windshield and a broken wheel.

Christian Church

Account of Methodist Revival no service will be held at the Christian church next Sunday evening. The topic for the sermon to be delivered in the morning will be the "Two World Wars."

Public Library

The library will be kept open on Tuesdays and Saturdays from 4 to 6 o'clock hereafter.

Baby Josselet Dies

Herbert Jackson Josselet, baby son of Mr. and Mrs. Andrew Josselet, aged 16 months and 5 days, died of stomach trouble at the family home, about eight miles southeast of town last Wednesday, May 31st. Funeral services were held by Rev. Lipscomb of the M. E. church, with interment here, in Willow cemetery, Thursday.

The many friends of the family are joined by the Free Press in extending sympathy and condolence in the loss of their beloved baby.

This Week's Base Ball News Sad

We regret very much that we haven't any better baseball news to report this week—two victories and four defeats. But new players are being added to the team, which is just beginning to get limbered up, and beyond a doubt before long Haskell can indeed feel proud of it's ball team.

The new players added this week are: Jones from Boyd, catcher; Ezell from Albany, 2nd base; Scroggins from Winters, 3rd base, and Pollichick from Lueders, pitcher.

Last Thursday's game between Haskell and Rule resulted in a victory for Haskell by a score of 4 to 2.

Friday's game between the same teams was won by Rule with a score of 8 to 1.

Saturday's game was won by Rule by a score of 7 to 4. A great amount of interest was taken in this game and about 600 people witnessed it, which is the largest attendance had at the park so far.

Monday, Tuesday and Wednesday the team played the Aspermont team at Aspermont, losing Monday's game with a score of 5 to 0; winning Tuesday's game by a score of 8 to 3, and lost Wednesday's game by a score of 6 to 2.

In Memory of Our Baby, Richard S. Nolan IV

He came in the sunny month of May, a beautiful gift from God, to cast a ray of light and hope and joy in the hearts of those who watched so eagerly for his coming. He came and dwelt only one short week in our midst, entwining his little life into the hearts and souls of all about him, and forming a sweet bondage of parental love to lure them on to greater heights above.

The light of his life went peacefully out, but left its brilliant rays here on earth to radiate and inspire the lives and hearts of those who loved him so dearly.

Loving hands bore him away to his parental home and placed him mid a bower of blossoms, that he might reign in his own home one brief night and pass on to the pearly gates, leaving a sweet and cherished tie that would bind the father and mother closer to home and heaven.

May the tempest of grief that fills their hearts soon pass away leaving again the blue and cloudless sky.

Mrs. Mary S. Robinson, Wichita Falls, Texas.

The lesson was then turned to the teacher, Mrs. Groom, for the afternoon. Mesdames Bowman and Paxton commented on the subject.

We were delighted to have Bro. Groom visit us and give us an encouraging talk, expressing his pleasure at the way the ladies were going right on with the work.

Next Monday our subject will be "Redemption," with Mesdames Posey and Tucker in charge of the lesson.

Three Shot In Foard County

Last Sunday night while C. E. Atchison, a merchant of Foard City, was at the supper table with his family, a man fired a pistol through a window, the bullet striking Atchison in the head. He then rushed to the door and fired a shot at Mrs. Atchison, striking her in the hip. Then shot twice at Miss Hattie Peters, Mrs. Atchison's sister. Running a short distance from the house shot himself in the head and breast. It is thought all will recover. The young man gave his name as Lester Ivester against whom charges were preferred for the shooting.

Gene, But Not Forgotten

The Editor's gene and left us, and he likes to stay away.
For he's now at old El Paso with the Editors' array

Who have gathered at the State line for an outing over there,
Where the mind will cease from troubling and the spirits know no care.

Just to rest from all his labors and to meet with friends of old,
'Twas the reason why he left us, and the story is soon told.

He'll be coming home to greet us, we'll be glad to see him, too;
Then our toils will all be ended and the sweetest box lost to view.

LIV-VER-LAX

All the Effectiveness, Not the Effect, of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a long time medical experts, realizing the harmful effects of calomel, have been striving to find a liver cleanser that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound, designed solely for the treatment of liver complaints. The immediate favor it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated and skin sallow, don't delay until it becomes dangers, nip the trouble in the bud with LIV-VER-LAX. Insist on the genuine, bearing the signature and likewise of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Corner Drug Store.

Christian Women's Board Missions

The C. W. B. M. met Monday June 5th, in the home of Mrs. E. L. Adams, with nearly all members present.

This being the regular time for the annual election of officers the following were elected:

Mrs. Adams, president; Mrs. Lyle, vice-president; Mrs. J. B. Smith, secretary and treasurer.

After the business session, Mrs. Geo. Fields taught a splendid lesson, the central thought being the great need of trained teachers and missionaries, for both home and foreign work. Mrs. Robertson, Mrs. Lyle and Mrs. R. B. Fields had splendid papers. Misses Eza Cahill and Fannie Post delighted all with a duet. Mrs. Adams gave a reading which was enjoyed very much.

The social hour was a pleasant feature of the meeting. The hostess assisted by Miss Renell served delicious refreshments.

Forethought

People are learning that a little forethought often saves a big expense. Here is an instance: E. W. When we go on an extended visit we take it with us." For sale by West Side Drug Store.

Haskell Free Press and Dallas Semiweekly Farm News \$1.75

From the Field

We left the city early Tuesday morning going out the Rule road from Haskell, meeting W. H. Foster who showed us some cotton stalks, which had been beat up with the hail. He was coming to town for seed to replant his cotton crop.

We stopped at the splendid home of E. A. Hutchins. Mr. Hutchins was chopping maize in the field. Mrs. Hutchins told us of her nice garden and chickens and said they had been eating new potatoes several days. Mr. Hutchins has a large silo on his farm that was built last year.

We stopped with J. M. Tompson who was busy in his field breaking a young mule. We think Mr. Tompson knows how to break mules.

We stopped at the home of W. A. Eastland, a good farmer who has a variety of crops and stock. Mr. Eastland has some of the best wheat and he thinks it will make 20 bushels to the acre. He also has a small flock of sheep he is trying out.

We came to the farm of Dr. L. Taylor, where we spent the noon hour and took dinner with the family. Mrs. Taylor was away at Brownwood, but Mrs. Roy Rutland, the Doctor's daughter, and husband are living with the Doctor. Dr. Taylor is raising chickens and attending to the cows and is having splendid success.

We visited the home of J. H. Goodwin, meeting his daughter, Miss Jannie, who told us her father was plowing in the field and had splendid crop prospects. We noticed a yard of turkeys and chickens, both young and old, which told the story of prosperity to us.

G. E. Cearly a cotton farmer was called on, who was just getting ready to go to work. He has some nice cotton and the boys were plowing and chopping the cotton. Mr. Cearly has some nice milk cows and chickens and turkeys coming on to make the hearts glad later.

C. W. Bledsoe had just returned from Collin county, where he had been to attend the funeral of his father. Mr. Bledsoe is a good farmer and has a good crop prospect.

We stopped at the home of Paul Frierson, who was in the field plowing his nice cotton. He is a young farmer who is making a success.

We went to the home of M. J. Lain, a Denton county farmer, who moved to this county the first of the year, and is proud of his farm having plenty of grass for his stock and farm land to cultivate. He is breeding the Buff Orpington chickens and is well pleased with Haskell county.

We stopped a few moments with M. M. Roberts, a veteran farmer who is 86 years old, riding a cultivator and doing a good job plowing. We hastened on to the house where we had a pleasant talk with Mrs. Nevada Webster, daughter of Mr. Roberts, who is the mother of three sons who are all in the newspaper business. Grady L. Webster editor of Madill Times Madill, Okla., is well known to us.

We next stopped with R. C. Ware, who was plowing cotton near his home. He has been living in other parts of the state, but returned back the first of the year a better satisfied man. Mrs. Ware has some chickens just about ripe.

The home of A. D. Adams was visited but we failed to see him; as he was in the field plowing. He has a nice new house and a good crop prospect.

We spent the night with J. A. Ford, a Fannin county farmer, who has been here since the first of the year and is liking this county splendidly and has prospects for a good crop.

J. H. Lawson a prosperous

farmer, was called on. He has a large crop and is an experienced farmer with some excellent teams.

R. T. Adams, a good farmer was in our path. He was running what he called a Lizzard a new tool to us, but he was making things lively for the weeds and was to our way of thinking doing good work.

S. W. Treat was the next home to visit. He was plowing some nice cotton and has a nice home and well improved farm.

J. T. Conner was called on. He was planting over a little cotton where he failed to get a stand. has a beautiful level field and the cotton rows look to us a mile long. Mr. Conner came from Tennessee two years ago, and is satisfied with Haskell county as a farming country.

G. A. West was in Haskell when we stopped at his home, but his farm looked nice and his cotton was being chopped.

J. B. Bailey was our next place to visit. Mr. Bailey was helping his wife wash by keeping a fire under the kettle. Mrs. Baily told us she had 500 young chickens of the R. I. Red. We will try and call again later on, the chickens are a little small now.

N. H. Harrell, a young farmer, was in Haskell as we passed, but we noted some good work being done on his farm.

We took dinner with D. J. Kennedy, a good farmer with a lot of good teams most of his own raising, and Buff Orpington chickens which was looking fine. He said he had 17 cats and plenty of rats to feed them.

We came to the home of H. A. Self. He and his two sons were running three planters. The recent hail had knocked out his splendid stand of cotton.

Oscar Adkin was nearby replanting his cotton. His cousin, L. T. Adkins, was helping him with his team and planter.

W. J. G. Hall lost part of his cotton crop in the hail and his three sons were planting it over.

We called at the home of W. L. Deshago. He was away from home, but we noticed the nice Plymouth Rocks in his yard as we passed.

S. W. Vernon who has been living in the Pinkerton community thirty-one years was away in the field looking after the replanting of his cotton crop, which was ruined by the hail.

The home W. T. Perry and M. V. Brooks were called on, but they were away from home.

J. W. Wheeler was running three planters planting cotton seed. He had a fine stand of cotton, but the hail got it. His neighbors, Lawson and Newton were helping him. A brother in need is a brother indeed, as was manifested in that community.

J. W. Brasher was planting his cotton over across the road. We called on Mr. Brasher and made his acquaintance.

We caught up with R. A. Hays who gave us a ride on his wagon.

We stopped at the home of W. A. Vickers, a farmer with plenty of good teams and good crop prospect.

We spent the night with our good friend J. A. Wimberly and talked of old days in Ellis county having both lived in the same community at different times.

We stopped at the home of B. F. Yates. He was away from home and we failed to see him.

E. W. Andrews was plowing some nice cotton when we called on him and he is a splendid young farmer.

R. A. Bradley's home was called on, but he was away plowing his cotton. Mrs. Bradley showed us a nice garden and of course some Plymouth Rocks nearly ready.

E. M. Hays, a rushing young farmer, was called on while he

was plowing cotton on the Tubbs farm and he had forty acres of cotton chopped out. We noticed some wheat which will make a fair yield on this farm.

We went out where Charlie Frierson was plowing some real nice cotton. Chas. is a good farmer and he knows how to kill the weeds.

A. A. Frierson had just left home for Haskell to spend the day as we passed his home. Mr. Frierson grows peanuts as a feed crop. He has now on hand a lot of fine peanut hay and has several acres planted this year in peanuts.

J. W. Hutchens had come to Haskell on business when we passed his home and we failed to see him, but noticed he has a splendid crop prospect.

O. A. Hutchens was building a pasture fence, being up with his plowing until he chops his cotton. Mr. Hutchens is a young farmer and is paying the way to success.

This concludes our first outing and we are ready to say we never met a better class of farmers anywhere and were never favored more kindly than by

A Tactless Wooing

By EDWARD J. STEWART

The evacuation of Vera Cruz taken place, and the fleet was ready to sail. The surgeon in charge of the hospital approached the medical director to report that all invalids had been moved.

"There's a man," said the doctor, "who, I think, must have died with his death getting on to the list. He was dying yesterday afternoon, haven't seen him since and probably his body was removed. Conover has seen to it that the record is made."

"Well, there's no time now," said the medical director, "to investigate the case. We must go aboard."

So it was that when the ships reached the United States the name of Horace Morton, petty officer, was reported as "Died in hospital."

Now, it happened that the elimination of Horace Morton was very acceptable to Mrs. Martha Jones, mother of Ethel Jones, who had betrothed to the sailor before he parted for Vera Cruz. He had agreed to marry on, while Philip Thompson, plumber, who also wanted Ethel, made considerable funds in his business and was able to take care of her in good style. Mrs. Jones had set her face against her daughter's marriage to Morton, and to quiet the old lady she promised that if her lover lost his life in Mexico she would marry Thompson. After this promise there was peace in the Jones family, Mrs. Jones believing that the man who she considered in the way of her daughter's happiness would be snuffed out by a Mexican bullet.

But there was only a small chance of the landing at Vera Cruz, and Mrs. Jones' disappointment, that she was not among the killed. Then came the evacuation, and with it the made preparations to renew the matter of a son-in-law. When she read in a morning paper that Morton had died at Vera Cruz she uttered silent thanks and with a tearful expression of sympathy for the sad news to her daughter, while laying plans for a wedding the plumber.

Ethel shut herself up in her room a week, then came out with a sullen air, telling her mother that since her lover was dead she cared not who married and was perfectly willing to take the plumber or any one else, being the case, Mrs. Jones said Thompson word that the way was for him to win her daughter, he advised him to be very discreet and proceed slowly. She believed Ethel thought she loved another man, that the girl was deceiving her, a few weeks' courtship would do business.

Mr. Thompson, who was not at all in wooing a woman who had just left the man she loved, began by sending Ethel an invitation to a plumber. Fortunately, he sent it through Jones, who threw it in the fire with haste and wrote her daughter's acceptance on account of independence.

Mr. Thompson's next move was to bring a bouquet of flowers. Mrs. Jones intercepted them, separated the flowers and put them in a box and gave the box to Ethel as an offering of sympathy to the donor.

This was a beginning, and Mrs. Jones hoped that by carefully watching off the indelicate attentions of Thompson to bring the affair to a peaceful termination in due time. She took so much pains to protect her daughter's being ruffled by the plumber's want of tact is not plain, but Ethel was not in a state of mind to care whom she married. Her motive was looking to the future, also a question as to why Mr. Thompson was anxious to marry a girl whose heart was in the grave. He explained this to Mrs. Jones by saying that the man was better any day than one and Ethel was sure to find it. It must be admitted that there is wisdom in the explanation that Mrs. Jones gave in the statement.

All things have an end, and the plumber's courtship was no exception. The wedding day came round with it came a coincidence. The wedding party was assembling in the hall of the hotel when the navy regulations. And the no time for an investigation had walked out of the hospital room, and the party responsible had been looking for him up to the very moment of the sailing of the homeward.

Upon the appearance as a guest, pale and emaciated, there scattering of those present. The alone seemed to consider him as blood and, rushing toward him into his arms. He had been at Mrs. Jones' opposition to him as preference for the plumber; quietly he took in the situation and it being explained to him. "I reckon," he said, "that something is handy for a wedding as well have one."

Mrs. Jones, seeing that she had thrown up the sponge. The plumber marked that there were as good as the sea as ever were caught and away without any evident dissent. Ethel was presently upon to celebrate the wedding change of grooms, and when the son came in she was married sailor.

This is not the only case of being officially dead and buried at a time when he is not dead.

Impossible To Get So Much Motor Car Value For The Money

WE FIND this is the attitude of many people who come into our salesroom—before they know anything about the Maxwell.

Not until the Maxwell is shown and demonstrated to them—until they sit in it and examine the finish—until they ride in it—or perhaps not until they drive it themselves, do they realize what a tremendous value is offered in the Maxwell car.

It is not unusual that Maxwell value should not be known to everyone, because it is uncommon to find such a car for a good margin more than the Maxwell price.

The Maxwell stands absolutely alone in a highly competitive field, for the amount of value it offers for the price.

Appearance—The lines of the Maxwell are decidedly attractive. There is no break in the contour from the radiator to the back of the car. The fenders are gracefully shaped. All metal parts are enameled or nickel-plated. The upholstery is deep and well-finished. From any angle it is a car that the owner can be proud of.

Motor—The engine in the Maxwell car is not equalled by any other four-cylinder engine of its size. And we know of larger and more expensive cars that have less able power plants. The Maxwell engine carries its load through mud and sand or over the steepest grades without a falter.

Quality—The materials in the Maxwell car are the best that can be bought and the workmanship that turns them into finished parts is no less excellent. It is only the large production of the Maxwell factories that makes it possible to put such quality of materials and workmanship into a car selling at the Maxwell price.

Economy—With its other attractive features, the Maxwell is a most economical car to own. Owners get 22 to 25 miles per gallon of gasoline and 8,000 to 12,000 miles per set of tires. And the car is so durably built that repair expense is negligible.

We are sure you want a car such as we have described the Maxwell to be. If you will give us a few minutes of your time we are sure we can convince you that the Maxwell Car is an exceptional value. Come in today.

Some Haskell Ladies Think of The Anglo-American Mill Co's. "Midget Marvel" Flour.

I have tried the Midget Marvel flour thoroughly in biscuits, light bread and cake. I find it has more life and strength than other flours, and requires only about half as much soda or baking powder, which are really very unhealthy when used to excess. The flavor of all these bake-stuffs was very delightful. If one of these flours is put in here, it certainly will get my patronage.—Mrs. J. F. Mason.

The Midget flour is just splendid. I have never used any flour that made sweeter, better bread. I used it in both biscuits and cakes. The flavor can't be beat. I hope we will be able to get this flour all the time.—Mrs. D. Cummings.

My wife has tested the Midget flour in biscuits. She says it is just fine. The flavor is certainly superior to the bread we have been making heretofore. She will test it further in light bread and cakes.—N. McNeill.

My wife has used the Midget flour in biscuits and pronounces it O. K.—R. C. Montgomery.

I have used the Midget Marvel flour repeatedly in biscuits and find it to be all it is represented to be. The biscuits were delicious; the very best I ever ate. I would never want anything better than the Midget flour.—Mrs. P. D. Sanders.

Card of Thanks
We are at a great loss to know how to thank our many good friends for the loving kindness and sympathy shown us in the recent death of our beloved baby, Richard S. Nolen, IV.

You were kind and thoughtful to the last degree; every tender and loving service was shown both him and us that could be performed by human hands. We appreciate deeply these ministrations that came out of the very depths of your great hearts. The floral tributes were beautiful. It is our earnest prayer that when any of you are visited by a like sorrow that you may have as many sympathetic and tender ministrations rendered as did we. We pray God's richest blessings upon each of you.
Mr. and Mrs. Richard S. Nolen.

Methodist Church
The Women's Missionary society meets next Monday afternoon at the usual hour. This is a combined business meeting and "Voice" lesson, Mrs. Rike having charge of the study which will be taken from the June Voice.

From now on during the summer the women will meet but once a month. This month, however, the time was postponed one week in order that the delegates to Sweetwater might give their reports.

The last time the society met which was three weeks ago, the women had a very profitable and interesting discussion of the Latin American Conference which was held at Panama during February of this year. The current topics of interest to our church and all christianity are given monthly in the "Bulletin," and it is expected to make this study a prominent feature of our work during the coming year.

The Co-operative Plan
A Farmer Tries It on an Auto
By M. QUAD
Copyright, 1916, by the McClure Newspaper Syndicate.

I was driving across the country with a horse and buggy when I came to the wreck of an auto in the ditch, and a farmer was tinkering at it. He had a sledge, crowbar, an ax, a cold chisel and a screwdriver and had worked up a nice little state of perspiration.

"You appear to have a wreck here," I said as I drew in my horse. "Appear!" he shouted as he looked up. "If this isn't the damndest wreck anybody ever saw I'll eat my hat!" "How did it happen?" "How does anything happen to an auto with a fool driving it?" "Was it yours?" I asked, scenting a story.

"One-fifth of her was mine up to last night. Now the whole sad remains belong to me. Did you ever hear of the co-operative plan among farmers?" "Lots of times." "Want, then, this was co-operation in buyin' and runnin' an automobile, and this is one of the results of it. The other result is that I am about \$200 out of pocket and have lost a widdler who was goin' to be my wife. If you want to hear all about it I'll tell you, for I guess it hadn't any use to tinker any more at this blamed old thing."

The farmer took a seat on the mortal remains of the auto and drew a long breath and proceeded to say: "There was Tom Evans, Joe Baxter, Jim Williams and St Perkins. They are all farmers and live about here. They are all married men, and each one has a gang of children. As for me, I am an old bachelor, but I was a sparkin' of the nicest widdler woman in this county. The four men I have mentioned come over to my house one evening a month ago, and Tom Evans he asks if I would go in with 'em on the co-operative plan to buy an auto.

"How much?" says I. "A thousand," says he. "That's \$250 each." "Just so, Sam."

"And the auto was bought?" I queried. "She was, sir. She arrived here glisterin' like a star, and she excited the wonder of folks for ten miles around. We got a feller from town to show us how to run her, and in about a week we was all ready to glide around the country. Bein' I was a single man and mightily in love with a widdler, they said I might take the auto out first, which was very decent of them. I felt sure I could run the machine as good as any man in the state. It was a bright moonlight night, and the whippoorwills were singin' and the katydids chirpin', and that widdler woman should promise to be mine before we returned."

"And did she?" was asked as the farmer heaved a long sigh. "She didn't, stranger, and I'll tell you why. We had gone about a mile as steady as an old horse when the auto shied at a stone in the road, ran through a rail fence, wrecked the auto, and the widdler gave me fits."

"It gets interesting," I said. "Kinder interestin', stranger—kinder so. We got a machinist to tinker \$20 worth of tinker, and the old machine could run again. Then it was Tom's turn. He has a wife and five children, and they all piled in. They was clippin' along as happy as larks when they came to a crossroad. The auto was for keepin' straight ahead, Tom wanted to turn to the right and his wife to the left, and the result was that the machine run into and knocked over the guidepost and then tried to climb a fence. The whole family took a spill and was scattered for twenty rods around. No one was killed, and there was no broken bones, but the bruises are yet blue, and Tom still walks bent over like an old man on account of the jar to his spine. By this time we had all got skeery of the machine; but it bein' now Jim's turn and he not wantin' to be called a coward, he took out his family for a promenade. As the other accidents had occurred at night, Jim went out in the afternoon. He thought there might be somethin' in the night air that affected the old critter. There was seven in the family, and they was climbin' the hill beyond the red ridge when all to once the auto gave a snort and stopped in her tracks.

"What's the matter?" asked Jim's wife. "'Durned if I know, but she's got to go!" he answers. "And she did go, sir—she went backwards. There was screamin' and yellin' and swearin', and Joe's wife slapped his face, but nothin' did any good. That auto kept on goin' backwards until it dumped them all in the river, which was about three feet deep at that time. They was shook up and bruised and half drowned, but they were lucky for all that. They waded ashore and left the old auto lyin' on its back in the river."

"But you got it out again?" I asked. "Yes. We had to," was the reply. "It was in tryin' to get the old critter home ag'in that she suddenly bolted and run into a telegraph pole and wrecked herself as you see her."

"And she won't be tinkered up again?" "She can't be. There's nothin' left to tinker, unless the blacksmith thinks he can make five wise men out of the five fools who bought her and lost about \$200 apiece. I used to think co-operation of farmers was a beautiful thing, but dura my cats if I ain't through with it!"

Try It! Substitute for Nasty Calomel

Starts your liver without making you sick and cannot salivate

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place. "Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50c, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all next day like violent calomel. Take a dose of calomel to day and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

THE Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. DEVOE TOOK 9 1/2 GALLONS LESS

Judge I. D. Fairchild of Lufkin, Texas, had two houses painted, both same size. One was painted with a leading top-price paint, and took 25 gallons. The other was painted with Devoe's, and took only 15 1/2 gallons. The "leading paint" referred to is adulterated 15%, but is sold at the same price as Devoe's.

The most economical paint always is the one that takes least gallons and wears longest, and that's Devoe's.

A Haskell Interview
Mr. Tucker Tells His Experience

The following brief account of an interview with a Haskell man four years ago, and its sequel, will be read with keen interest by every citizen.

W. M. Tucker, Haskell, gave the following account of his experience in February, 1911. He said, "I suffered from an extreme lameness in the small of my back and there was a sore spot over my kidneys. When I was working hard, my back got so sensitive that I couldn't straighten. Nothing seemed to help me until I got Doan's Kidney Pills, at Collier's drug store, (now the Corner drug store). They gave me relief."

On April 8, 1915, Mr. Tucker said: "I haven't felt any need of a kidney medicine since using Doan's Kidney Pills and my kidneys have remained in good shape. I still think highly of this fine medicine." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Tucker had. Foster-Milburn Co, proprietors, Buffalo, N. Y.

W. A. Carlisle and wife motored over to T. K. Smiths south of Aspermont Sunday and brought Mr. and Mrs. J. H. Landers, their grand parents, back with them for a few weeks visit in Haskell.

Forethought

People are learning that a little forethought often saves a big expense. Here is an instance: E. W. When we go on an extended visit we take it with us." For sale by West Side Drug Store.

Organizing Military Company at Stamford

A letter from Chas. H. Boyd of Stamford, says: We have organized a company of National Guard in Stamford but on account of the influence of several Pacifists who have visited our town in the last month, also the noise the papers have been making about Mexico and along with the notes to Germany until they have turned most people here against preparedness.

We have 60 men enlisted and want at least 40 more. We would like to get the rest of our men from Anson, Hamlin and Haskell. We could certainly have a fine organization if we could get one or two squads from these towns.

The enlistment period is for three years and a man is required to drill 26 times a year. Everything will be furnished, guns, uniforms, and once a year the company will get to go to encampment for ten days being paid from the time we leave home until we return. It is a nice vacation and a chance to get some good experience at the expense of the Government. Now we do not intend to depend on the Government for all our amusement; for we have a nice hall here and occasionally we will give a blow out and allow the public to attend. We also intend taking part in the city and county affairs such as carnivals, fairs and other public doings.

On June 14th, we are going to elect some popular young lady as Sponsor to the company, we will arrange it so that each town represented will have a chance to elect a Sponsor from their town.

If you wish to know more of our organization and it is not convenient for you to come to Stamford, just write to Captain Ray Rector who will give you any information you wish to know in regard to our organization.

Remember June 14th. Get busy and elect a Sponsor from your town. There will also be maids of honor to be chosen or elected.

Come over Sunday and let's have a talk about it. We will gladly show you our hall and entertain you while here.

Haskell County School News

The Board of County School Trustees met in the County Superintendent's office May 30, with all members present. The new county board is composed of the following: R. E. Sherrill, W. T. Overby, J. C. Montgomery, I. S. Grindstaff, and J. E. Could.

Teachers have been elected at Roberts, Vernon, Irby, and Tonk Creek. Most of the schools have employed teachers.

Cooksprings and Foster schools closed the best session of schools last Friday that they have ever had. Both had excellent closing exercises. These schools are the largest high schools in the rural districts.

Roberts school house was destroyed by the cyclone Sunday night. The trustees are planning to erect a larger and better building. The old building was covered by insurance. The school will have two teachers another year. The trustees and people of Roberts are to be commended for the interest which they are taking in building up a high school for Roberts. This school received State aid.

Seven school districts are planning to erect new school buildings, and several old buildings will be repaired. The people are manifesting good interest in school affairs. The past session of schools

Pays Visit To Old Home

A. B. Mason left Thursday morning for his old home in Boston Mass. Mr. Mason came to Texas in 1880 and this is his first trip back to his old home.
