A MISTAKEN IDEA

Some people have an idea that in order to have a bank account, they must have a large sum to deposit; that the bank does not care to be bothered with small accounts.

This, however, is not true of our bank; This bank welcomes new accounts, whether of \$1 or \$1,000, and with the same courtesy and service is accorded the small depositor as those in more fortunate circumstances.

It is our object and wish to serve the public in financial matters in a manner that shall be satisfactory to the old or young, rich or poor.

We want your Banking Business and will be pleased to have you open an account with us.

Marshal Here Tuesday

City State Fire Marshal after looking over our improvements on Tuesday complimented on the improvements

made in the way of fire prevention since his last visit. With the exception of some bad wiring, and possibly a few other minor changes our city seems to be in very good shape. The fire Marshal also noticed the results of clean-up day, which is a very material aid in fire prevention.

Clean-Up Day Well Observed

Clean-up day last Saturday was pretty well observed, especially among the ladies of the town. Three wagons were kept busy all day hauling off trash that was piled in the alleys, and the services of several negroes that had volunteered their labor for the day were used on the alleys and vacant lots, where they made a good showing, indeed. Saturday being a very windy day it was not possible to burn trash, and the wind might have kept some from cleaning their premises, but in spite of this, a great deal of interest was taken in clean-up day which together with the success of Saturday will indeed make Haskell a clean town.

The City Council is considering the purchase of a mower to be used in keeping down the weeds in the alleys and on vacant.

Erecting New Engine at the Light Plant

The 250 horse power engine recently purchased at a large figure by the Haskell Ice and Light Company is being erected at their plant by the special erecting engineer of the makers of the engine. It is a Busch-Sulzer Type B. Diesel Engine, and operates with crude oil, something on the same principle as a gasoline engine, and develops 250 horse power. To this engine is connected direct a new 200 kilowatt generator, which will generate the current for their entire electrical system, and also furnish power for the ice machine. The engine is said to be the most modern and improved prime mover known, both from efficiency in service and economy in cost to operate. The company now has two complete generators and engines each separate and independent of the other, and are thus able to insure the very best of service.

Quarantine Account of Hog Cholera

The Free Press is in receipt of the following letter from the Live Stock Sanitary Commission of Texas:

"Sometime ago your county was placed under quarantine on account of hog cholera, and according to the provisions of this quarantine, no hogs are allowed to move from said county except on inspection by veterinarians authorized to so such work.

It is possible that some of the citizens there do not understand this, and we would suggest that you insert an item in your paper for their benefit so that they will not violate this quarantine.

Yours truly,
D. H. Cunningham
Chairman

For Sale or Trade

FOR THE CHILDREN

Shopping for the children—It's a great task. Here at The Big Store we have variety for the children as well as for the grown-ups.

Of all problems in children's wear, possibly the shoe problem is the greatest. Come and look at our layout and we assure you it will be the least of all. It will afford you pleasure to select them.

The BILLIKEN is by far the greatest child's shoe of America. This shoe can be bought nowhere in Haskell, except at our store. We have a host of styles, and if you want some other shoe, we have the largest assortment in the town, and they are selected with care. Take care of the little tots feet. We will help you do it. We take pleasure in fitting their feet, and at the same time we will give you good shoes at reasonable prices.

HATS FOR THE LITTLE BOYS

Here is another task. Hard to get the size and style for the little fellow from one and a half to three years old. We have a good number of styles, just what you want and in a long range of sizes.

Attempt to Break Jail Saturday Night

The three white persons lodged in the county jail a week or so ago charged with bootlegging attempted to break jail Tuesday night, but their work was discovered before they had succeeded in getting out. For the past few days several little noises coming from their cell had aroused suspicion, and upon investigation by the officers last night, they found that the prisoners had removed the piping from the wash basins, and had succeeded in prying loose several of the brads of the cage. They also had in their possession a saw about three or four inches long, and the use they made of these tools is remarkable. They had evidently been working on their escape for several days. The prisoners have been removed to another cell, and a blacksmith is repairing the damaged one.

Several New Ads This Week.

Beginning last week and this week the Free Press commences running advertising schedules for several of our merchants who have not heretofore used the Free Press to any great extent as their advertising medium. Your attention is called to these ads, in fact your attention is called to all our ads, and we earnestly hope you will read them, and patronize the advertisers. They believe it will pay them to advertise—we know it will. We also know that it will pay you to patronize them, for the merchant who keeps constantly advertising and selling his goods can sell on a smaller margin of profit, and his stock is always new and fresh.

City Election Next Tuesday

The City election, at which will be selected a Mayor, Marshal Attorney, Secretary and Treasurer, and three Councilmen will be held next Tuesday. The election is expected to be very quite this year compared with the interest usually taken in the city election. All the old officers, we understand, will be on the ballot for re-election, and so far as we know, none of them will have opposition, with the exception of the office of City Marshal. Dave Hughes, Byron Glasscock and Alex Edwards, the present marshal, are in the field for this office.

Recital Tuesday Night Well Attended

The pupils of Mrs. Waldin and Miss Odell gave a splendid recital Tuesday evening at the Baptist church to a large and appreciated audience.

Each pupil showed careful training and the work of the teachers to a good advantage.

The program was well selected and the rendition was all that could be desired.

The special number given by two of the little girls in the class, Thelma Williams and Lynda Robertson, was one of the most interesting features of the program.

Altogether the occasion was thoroughly enjoyable.

For City Marshal

We are authorized to announce Byron A. Glasscock as a candidate for the office of City Marshal. Mr. Glasscock has had considerable experience as a peace officer, having served in that capacity at various times. So well known is he, no introduction on our part will be necessary, but to those new comers who have not met Mr. Glasscock, will say that we believe the man to be fearless, kindhearted, and possesses all the qualifications that go to make a good peace officer. We commend him to your consideration.

Business School Opened Monday

The opening of the extension school of Hill's Business College of Waco, made last Monday a day of unusual interest to many young people of Haskell and vicinity, and their parents.

The attendance was very satisfactory and indicated the development of an interest in business training which promises to make Haskell school the equal of any heretofore organized.

The organization of the Hill Extension Schools is in the hands of Messrs. Darby and Collins.

The Haskell school is in charge of Prof. W. W. Darby, so well known throughout the Southwest, Mrs. Darby and N. T. Hensley, until the arrival of Prof. Farnsworth, now in Ballinger, who is due here in a few days.

We congratulate our people upon having brought into their midst the identical instruction in accounting and stenography that is offered by the biggest institutions of the country, with such a tremendous saving in money, time and other costs incidental to the course in a big city school.

Card of Thanks

The undersigned wish to thank the many friends of the family who so readily responded to the alarm March 21st, when our home was destroyed by fire. Thru your efforts most all of household goods and belongings were saved. And especially do we thank the ladies who looked after little details that might have been overlooked, but for them, and which are prized so highly. The home where we had raised our children where some of them were married and which had been to us, the place of many happy gatherings, was destroyed. But nearly all articles of value and nearly all things prized by the family were saved. And we take this method of heartily thanking all who were present and helped us in saving them.

Sincerely,
Mr. and Mrs. F. G. Alexander

PREPAREDNESS

Yes we are for preparedness, first last and all the time. Therefore we have gone through our already large stock of Spring and Summer goods, and filled every incomplete line. So now we are prepared to fill your every want. One of the prettiest lines of Summer goods ever shown here and the price is right. We have established the fact that we are always at the bottom in price. So no use to quote prices—just tell you what we have.

We have absolutely the largest stock of Men's hats and Oxfords ever shown in Haskell at prices within the reach of all. We also are prepared to clean and press your old clothes and make them look like new ones. We are fortunate to have a man upon whom we can depend, absolutely to clean the most delicate garment without injury.

We are also prepared to furnish you with Merchant trimmed hats, at prices far below the price you usually pay.

Come to see us, we will convince you.

HUNTS Store No. 2

The Store With the Goods

Buy It In Haskell

A town or a community that is good enough to live in, ought to be good enough to spend your money in. If there are to be any positions or jobs in our city, then money must be spent here among us, and not sent away. If you would stop to think that when a dollar leaves Haskell, and goes off on a two or three hundred mile trip, or hikes off somewhere else, then you might as well kiss it good bye, for it may be several years getting back home if it ever comes back. But on the other hand, mark your dollar and put some to work, and see where it will go. First you will gladden the heart of the laborer, next he will pay someone else, and in a few days it pays someone else, then perhaps this party will have a house to build where it will go to help pay the carpenter, who may have a wife and children, and of course they eat, and all buy shoes and clothes anyway, its spent right at home, and each fellow prospers. Buy it in Haskell, among those who help build the churchs, keep the schools going, sell to you on credit, pay their part for good roads, in other words buy it from your frienes, and keep your money at home.—Contributed

HASKELL, TEXAS, April 1, 1916.

March winds and war news are plentiful.

The coming primary election is not worrying very many people in this country as yet. The main question is, when is it going to rain.

This is a queer old world. The man who has lots of money complains of receiving threatening letters. So does the man without any money at all, receive threatening letters (to pay up).—Bartlett Tribune.

Abuse is not argument. If you can't meet the other fellows argument with one of your own equally as good, you will command more respect by keeping quiet. You are not bound to agree with him, but silly abuse on your part only wins him sympathy. All great men have been abused, Christ not excepted.—West News.

Wichita Falls has recently been waging a spirited campaign against undesirables. As neighboring towns will doubtless catch some of their raffraff we must assume a move on attitude to protect ourselves. Watch for them and report to your officers.—Monday Times.

Where are they supposed to stop? If they are not allowed a chance to stop long enough to find decent employment can you blame them for being tramps, or undesirables, or whatever else they may be?

HUMANE SUNDAY MAY 21ST

The American Humane Association is planning a nation-wide campaign of Humane Education for the week beginning Sunday May 21st, in behalf of God's helpless creatures—suffering little children, and abused animals.

True civilization in any country can only be measured by its protection and care of the defenseless.

The plan contemplates an appeal to the clergy of all denominations to preach a special sermon on kindness to children and animals on Sunday May 21st.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-fund in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.

Scott & Bowne, Bloomfield, N. J.

ADVERTISE IN TEXAS

As a farmer and friend of the manufacturer and merchant I want to suggest an "Advertise in Texas" movement. The manufacturer and jobber may blow loud blasts on the horn of patriotism, but if they will put an "ad" in the newspapers in their trade territory, making a business presentation of their goods, they will find it far more effective than waving the Star-Spangled Banner. The farmer is as much interested in the price of the things he has to buy as in the price of the things he has for sale, and the advertising columns of his newspaper are his price list. The price is the thing, and the farmer wants the figures in cold type.

The press is the most powerful agency for progress the world has ever produced. We have all sorts of days calculated to promote business and honor industry such as Trades Day, Labor Day, Bargain Day, etc., and why not have a press day, and all business concerns advertise the things they have to sell, and everybody subscribe to the local paper and all delinquents pay a year in advance. Nothing will contribute more toward the welfare of a community than the prosperity of the press.

REGULATE THE LAWYERS

The business interests have, during the past quarter of century felt the influence of two powerful forces, regulation and publicity. While both these agencies have been misused, they have made good, and I do not believe there are many honest men in business who would withdraw them. Their worth having been proved, I would apply them to the legal profession, as lawyers are public servants, and have as much of a monopoly on law as our transportation systems have upon traffic. The lawyer has been quite active in regulating business, and is no doubt more capable of working out the details of regulating his profession than a layman, but my first impression is that all lawyers should be required to keep permanent record of all their transactions, and report annually to some department of State the name of all clients, compensation received from such clients, and the character of service rendered in court or out, and the place where rendered, and that the public and the press be given access to these records.

MEN MUST GOVERN OR BE GOVERNED

Men may voluntarily elect to play no part in the control of the affairs which make up their daily life, and to play no part in the working out of the great questions upon which the prosperity of their country, the future of their children, and the welfare of the race depend; but they need not flatter themselves that these things are matters apart from them, or that they are leading free and independent lives. Abstention is impossible under the conditions of modern life and modern popular government. Men must either govern or be governed; they must take part in the control of their own lives, or they must lead subject lives, helplessly dependent in the little things of life upon the will and power of others.

Colds Quickly Relieved

Many people cough and cough—from the beginning of fall right through to Spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost instant relief. It checks your cold, stops the racking, rasping, tissue-tearing cough, heals the inflammation, soothes the raw tubes. Easy to take, Antiseptic and Healing. Get a 50c bottle of Dr. King's New Discovery to-day. "It is certainly a great medicine and I keep a bottle of it continually on hand," writes W. C. Jesseman, Franconia, H. H. Money back if not satisfied.

POLITNESS

A clerk in a village store, as he assisted a country girl into a farm wagon was heard to say, "Politeness does not cost much and goes a long ways."

Politeness is a distinguishing mark between cultured and the uncultured, between the learned and unlearned. He whose education is short in the manner of politeness is lacking in one of the cardinal virtues of intellectual attainments, he is not yet educated.

The complexities of civilization demand proper courtesies from man to man. Men in their former state of civilization were not so independent. They required less of all of the cultural elements which a complex civilization naturally imposes upon man. Formerly the public carrier was unknown, Man was his own manufacturer, the defender and high prices of his own household, and naturally developed a spirit of independence which made him impervious to the things which pertained to the interests of his fellows. Modern life life, however, has created new conditions. The telephone must be answered with proper considerations for the feelings of the person being conversed with. Goods are purchased from obliging clerks whose attitude of consideration is maintained by their knowledge of the fact that politeness is the principal asset which enables the merchant to hold his own with fellow competitors. Men are no longer ruled in the political realm by brute forces, but the governor rules by the consent of the governed, and his attitude towards the public determines the length of his political career.

Politeness, like all human virtues, is a matter of growth. It can not be attained in a day. Unless the training is begun in childhood, no great degree of efficiency can be reached. As the twig is bent so must the tree grow. See to it that the child is considerate with his fellow playmates and respectful to elders. A rude child is never an honor to the home.

Be polite in your dealings with your fellows and the reaction will make you a better and happier man. "Politeness does not cost much and goes a long ways."

John H. Renfroe.

THE NEGRO OR US

First of all we want to thank the Free Press on the article published a week or so ago in regard to lawless negroes. We feel that the time has fully come that law and order should be obeyed. And the individual who will not respect, and wilfully break State, County or City laws, is an intruder upon civil rights. It is true, that this country is dealing with some of the worst negroes of the state, who have no respect for white people or the better class of colored either. The negro who will come upon your streets in your allies or in your Box cars to commit crime ought to be punished, both male and female. One of a sound mine does not have to wait till night to see and hear.

We, who live in the country, sometimes come to town and we can see for ourselves that some things are in bad shape in town as well as in the country. We have unmarried couples living together as husband and wife, gamblers etc., all over the country. Lewd houses, grog shops and gambling ought to be stopped. Remove the cause and you remove the effect.

Respectfully,
Jas. Myart (Col.)
Weinert, Texas.

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Theford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles they went in on her, but one good dose of Theford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Theford's Black-Draught has proved itself a reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

RECIPE FOR GRAY HAIR

To half pint of water add 1 oz. Rum, a small box of Barbo Compound and 1/2 oz. of glycerine. Apply to the hair twice a week until it becomes the shade. Any druggist can put this up for you. You can mix it at home at very little cost. Full directions for making and use in each box of Barbo Compound. It gradually darkens streaked, faded hair, and removes dandruff. It is excellent for falling hair and will make hair soft and glossy. It will not clog scalp, is not sticky or greasy, and does not rub off.

1842 75 YEARS OF KNOWING HOW 1916

The P. & O. No. 111 Lister
This Lister is known by farmers all over the world as P. & O. No. 111, but the improved type is called No. 111 on account of the latest improvements.

There are more of them in the hands of farmers than all other makes combined—over 2,000,000 in one dealer, in one county in West Texas. The reason for this is its immense sale. Its use is not confined to the West. It is now almost universally used for plowing small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soil of the West from blowing away. The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the plow from running below the desired depth. The wheels are provided with dust-proof boxes, as in the case of the No. 111, to help in the sandy loam lands of the West. The feeding device absolutely deposits one seed as deep as any of the row crops, besides can be equipped for corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow the operator to empty the seed boxes without emptying the hopper. The Lister has embodied many other important features that will make you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This Lister has all the advantages of the No. 111 and in addition has rear wheels. This is desired in localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to conform to the ridge and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling, also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

High Class Memorials in Marble and Granite

I am now representing the National Marble Mills, Atlanta, Georgia, and will be glad to call on you at your convenience, should you be interested in any size or style memorial.

Reasons Why You Should See Me Before Buying

1. The Company that I represent believe in their work and furnish a written guarantee to each customer.
2. The prices I quote are the lowest consistent with finest quality work and absolutely highest grade of stone.
3. Georgia Marble and Winsboro Blue Granite are the two finest monumental stones in existence. Their beauty, combined with their lasting qualities make them second to none.
4. We never have—and never will—send out a monument with a sandstone or limestone base or bottom base. The bases are of the same stone as the die.
5. I allow the freight and personally supervise the setting up of all monuments.

BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Get the Best Remedy at Home—128 Teaspoonful for 50 cents.

Everything was sold in as liberal and as generous a manner as the below named drug-ger selling Schiffmann's New Compound Expectorant, absolutely no for complaint or dissatisfaction possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Croup or any other such Affection, and we will return you the money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found to be the best remedy ever used for any of the above complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer in the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonful, because 50c worth makes a whole pint (128 teaspoonful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Calomel-Salivates And Makes You Sick

Acts Like Dynamite on a Sluggish Liver And You Lose a Day's Work

There's no reason why a person should take sickening, salivating calomel when 50c buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak sick and nauseated tomorrow. Don't lose a days work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

New Machine at the Laundry

For the past six months the Haskell Steam Laundry has been adding new machinery, and in every way better preparing themselves to handle the home business and their large out-of-town business which comes from practically every town for fifty miles around. Their latest addition is a new model collar machine, that will iron collars without breaks or other defects, leaving them exactly like they were when new.

When Haskell People

Publicly Testify, It's Evidence Not to Be Ignored.

When residents of Haskell are willing to recommend Doan's Kidney Pills in this paper, is there any good reason to try a kidney, backache or bladder remedy that is not as well recommended?

Mrs. W. G. Bedford, Hughes St., Haskell, says: "Doan's Kid-Pills gave me prompt relief from a feeling of discomfort in my back and I have had no return of the trouble since. I have great confidence in this medicine and I am glad to recommend it, because I feel it is worthy of praise."

NATIONAL SLOGAN SUGGESTED BY PROMINENT MEMPHIS DRUGGIST

Would Remind the Public to Prevent Sickness by Removing the Cause

T. D. BALLARD
A prominent druggist of Memphis says: "Much sickness could and would be prevented if the people would only remember that constipation is one of the first causes. As a reminder, I would suggest the slogan. "Rexall Orderlies, the laxative tablet with the pleasant taste." "I suggest Rexall Orderlies as I know their formula and believe they are the best remedy for relieving constipation. They can be used by men, women or children."

Saturday afternoon: United States History, General History, Agriculture, and Algebra.

Dangers of Draft

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 55c, at your druggist.

Natorium Will Open In May

Chas. E. Rutledge, manager of the Opera House, informs us that he intends to remodel the old opera house building into a first-class bath house and swimming pool. There is already a large pool in the opera house, and this is to be thoroughly cleaned and used. Spring boards, shoot-the-shoot etc., to be added to it, making it an ideal swimming pool. He will also have private baths, dress rooms, hot and cold water, and in fact everything that goes with a first-class natatorium. The water for the pool is to be continually flowing, coming into the pool from the bottom and leaving through the waste pipe from the top, and will run day and night, which will insure good clean water at all times. We predict much success for the Natatorium.

Take Po-Do-Lax In Spring

In winter our blood gets thick, our pores close, we feel tired and dull when hot days come. What we need is a spring liver tonic, something to rid our system of winters accumulated waste. Po-Do-Lax will do it. It stimulates the bile, empties the bowels. The organs become more active and in a little while you feel like new. Don't neglect cleaning out your system. Take Po-Do-Lax and you will feel fine. 50c at your Druggist.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Children from sanitary homes advance more rapidly in school than those from dirty premises.

Notice of Sheriff's Sale

By virtue of an order of sale issued by the Clerk of the District Court of Bell County, Texas; for the 27th Judicial District of Texas, upon a judgment in Cause No. 9215 on the docket of said court, wherein M. S. Pope is plaintiff and J. I. Lamb, Charles S. Fisher, C. C. Hemming, R. H. Atchley, J. J. Kohaut and J. Z. Miller, Jr., are defendants, and wherein the plaintiff recovered of the defendant Chas. S. Fisher the sum of \$1339.58, with interest from Feb. 1st, 1916, on \$1217.80 of said amount at the rate of ten per cent per annum, and on \$121.78 of said amount at the rate of six per cent per annum—together with all costs of suit, and against all of the defendants above named—establishing and foreclosing a vendor's lien for the amount of said judgment on the premises hereinafter described, which said judgment was rendered on the first day of February, A. Western Union Announces

Extended Service

During the past few years the Western Union Telegraph Company has been in the van of public service corporations in putting out new services to meet modern business and social demands. The company now announces another invention for the benefit of its patrons. The Western Union Company annually transfers by telegraph an enormous amount of money and heretofore the senders of money have not been permitted to include in the transfers communication of a business or personal character to the payee, such information being required to be sent by separate message. Under the new arrangements, however, transfers between points in the United States may include such information and the same will be delivered to the payee at the time the transfer is paid. This surely represents an up-to-date service and one that should appeal to and be of much value to business houses and the public generally. Through it people will be enabled to transmit money quickly with proper instructions to meet banking obligations, pay insurance policies, guarantee purchases, accompany bids, purchase railroad, steamship and theatre tickets, pay taxes, assessments and bills of all descriptions, make remittances to traveling salesmen and pupils attending distant schools, etc. There is practically no limit to the purposes for which this service is available. The Telegraph Company is to be commended upon the manner in which it is broadening the scope and purposes of its various services in order to better meet the needs of the public.

The Presbyterian Society

The Missionary Society of the Presbyterian church met Tuesday afternoon at the home of Mrs. Bob Robertson. The meeting was of especial interest as Mrs. Paul Boch the president of the Fort Worth Presbytery was the guest of honor.

After a prayer and the reading of the fourth chapter of Hebrews, special music was rendered by Misses Frances, Carrie and Lena Sherrill and Adele Lloyd.

Our president, Mrs. Scott Key, introduced Mrs. Boch who spoke straight to the heart of those who heard her. She said that christian work should never be looked upon as a problem but always as an opportunity. She stressed the need of prayer and humility and the divine blessing in living close to God.

She also explained the womens work in the various causes of the church and urged that active measures be taken toward the support and growth of Foreign and Home Missions and education, ministerial relief, young peoples work and Sunday School extension. Her talk brought new inspiration to every one present.

A social hour was enjoyed and dainty refreshments were served by the hostess.

There is to be a special meeting of the Missionary Society at the church Monday afternoon at 4 o'clock. Important matters will be considered and every woman in the church is urged to be present. We each have our place to fill in God's work and no one can fill it for us. If we do not work for good we are unconsciously working for evil, for Christ said, "He who is not with me is against me." We have a hearty welcome for all. Come and see how interesting our work is and you will surely get a blessing.

For County Treasurer

Judge J. E. Pool announces in the Free Press this week as a candidate for the office of County Treasurer of Haskell County, subject to the Democratic primary election to be held in July.

Judge Pool has been so long and well known to the people of this county that no introduction of him is needed except possibly to some of our new citizens. He, in fact, ranks among the pioneers of this part of the state, having located in our sister county of Throckmorton in 1879, thirty seven years ago, at which time there was not a permanent settlement in Haskell county and not an acre of its fertile prairies in cultivation. He was County Attorney of Throckmorton for one term and its County Judge for three terms, becoming thoroughly familiar with all lines of county business.

It January 1893 he moved to Haskell and purchased the Free Press, with which his connection continued until the summer of 1905, when he disposed of his interest and retired from his editorial position. Following this he was for a considerable time secretary of the Haskell Board of Trade, where his efforts were directed as much or more towards the welfare of the county at large than to boosting the town. This same spirit and effort characterized his editorial work and writings. No opportunity was ever overlooked by him to say or do what he believed would benefit the farming interest of the country. Also he has always been a willing and enthusiastic worker in the numerous efforts made to secure railroads and other enterprises for the town. All of which shows that he has been an active and valuable citizen in the moral and material up-building of the town and county.

By both education and training he is amply qualified and fitted to handle the books and accounts pertaining to the County Treasurer's office correctly and, hence, to the satisfaction and advantage of the public. We are always glad to see competent and honest men offer to serve in public offices, for with such men we feel that the public interest is safe, and as such a man we commend Judge J. E. Pool to the consideration of the voters of Haskell county.

A Masquerade Party.

Mrs. B. F. Brown entertained a crowd of young people last Friday. There were several persons dressed in a very comical and amusing disguises and a numerous number of old maids. The time was spent in playing games and conversing with friends. When the clock tolled nine the merry party of young people was delightfully surprised by some nice, well prepared refreshments. Each and every one were loud in praise of Mrs. Brown as a hostess.

Family Altar League

The monthly meeting of the above movement, which is supported by all the churches, will be held at the Methodist church on Sunday at 3:30 and will take the form of a Sunday School Rally. R. E. Sherrill will preside and there will be a number of choruses, solos readings etc. The F. A. L. has done a good work in promoting happy religion in the home, and the good things scheduled for next Sunday afternoon are bound to attract a large crowd.

Why Constipation Injures

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. The Auto

The shades of night were falling fast,
When through a distant suburb passed
A lone man in a punk machine
That was propelled by gasoline.

The motor car was second-hand,
It bucked and coughed to beat the band.
The driver had just bought the car,
But had not run it very far.

Things had begun to happen quick;
Grave things that made the owner sick.

'Twas of the vintage nineteen-five;
You'd hardly know it was alive.
To go up slight inclines it tried,
And then it shivered and it died.

The man got out and grabbed the crank,
And gave the thing a vicious yank.
The old car woke up with a shock,
Then it was pierced with sudden pain,

And straightway it gaye out again.
He'd paid two hundred for the boat
And it transpired he was a goat.

He took it to an auto shop.
They looked it over, wheels to top.
They'd fix it up so it would run nice,
Ninety-eight dollars was their price.

He bought a stick of dynamite
And blew his auto out of sight.
He walks where'er he wants to go,
And he is saying wads of dough.

OUR PUBLIC FORUM

ON TEXAS ECONOMIC LEAGUE.

In assisting in the organization of the Texas Economic League, my motive was to help form an association that could voice the sentiment and promote the interests of those engaged in producing and distributing the products of the earth. Having belonged to this class all my life and having occupied various positions in business from laborer to manager and owner, I have come in personal contact with most of the hardships encountered by those engaged in productive pursuits and I feel that much of the suffering we undergo is preventable and that improved conditions can be easily brought about through a more active and intelligent citizenship. I have resided in Texas for eighteen years and during that time have actively identified with many lines of business, and in direct touch with the conditions of the state. It has been my aim to influence capital to give employment to labor and to see Texas institutions spread over the globe.

I have faith in the people and in the future of the State and I want to see who feel likewise and have a permanent interest in the State's welfare join me in this work. The only qualification is that Citizenship, Federal, State and Community in the order named, be placed above class interest, and a diligent study of the Declaration of Independence and the Constitution be pursued.

The men engaged in productive pursuits should manage civilization. Much of the incompetency and inefficiency in our public affairs is the result of indifference and inattention of the producing classes in dealing with important public problems, leaving their solution to the non-producing classes, who add taxes and orders from, and not give orders to, society. If business men, laborers and all factors in productive industry would discharge more fully the responsibilities of citizenship, many of the fundamental evils from which we suffer would automatically disappear, revealing a more capable and efficient commonwealth. I have unbounded faith in our system of government and believe that the serious difficulties which we encounter are due to incompetency and degeneracy of important branches of government and society over which the citizenship, as a whole, has neglected to exercise a proper supervision and has failed to demand a high order of efficiency and integrity. We should look to the Declaration of Independence and the Constitution of the United States for guidance and apply their principles to the problems of the day. As citizens we enter into a contract with government as the party of the first part and unless we perform the services agreed, we have no right to share the benefits of government and certainly no cause for complaint against organized society for evils which the performance of our duty as citizens would easily correct. We want to invite the people of Texas to study and discuss citizenship, determining our rights and privileges under government with a view of enjoying more fully the life, liberty and pursuit of happiness set forth in the Declaration of Independence and guaranteed by the Constitution of the United States.

Card of Thanks.

We wish to express our thanks and appreciation to our many friends who did so much for us during the sickness and death of our son Dewey, who was laid to rest in the Willow Cemetery in Haskell Texas March 22, 1916.

We shall never forget the tender hands and loving words of sympathy of Dr. Jim Alexander, and of the Alexander Sanatorium at Abilene where Dewey died having reached there too late for an operation to be performed. Our dear brothers could not have shared our grief and sorrow more than Mr. Alexander with his staff of physicians and nurses who worked hard to save Dewey's life but impossible, and may God bless Mrs. Burnes and Miss Long, the nurses in charge of Dewey. The tender care and loving words ex-

tended by them to Dewey and his mother shall never be forgotten, and can never be repaid by us.

We would be glad to mention the names of so many of our friends who rendered us so much assistance during the death and burial of our dear boy; but space will not permit and will conclude by saying that greater assistance could not have been performed nor more loving and tender words spoken than those performed and spoken to us by so many friends from the time Dewey became sick until he was laid to rest.

May God bless and save us all.
Mr. and Mrs. Geo. E. Courtney.

BANKERS URGED TO CO-OPERATE WITH FARMERS

SOUL MATERIAL HAS ENTERED THE BANK VAULTS OF THE NATION.

The Bank a Financial Power House to the Community.

By Peter Radford.

One of the greatest opportunities in the business life of the nation lies in practical co-operation of the country banks with the farmer in building agriculture and the adventure is laden with greater possibilities than any forward movement now before the American public.

A few bankers have loaned money to farmers at a low rate of interest, and oftentimes without compensation, to buy blooded livestock, build silos, fertilize the land, secure better seed, hold their products for a better market price, etc. The banker in contributing toward improving the grade of livestock; the quality of the seed and the fertility of the soil, plants in the agricultural life of the community a fountain of profit, that, like Tennyson's brook, runs on and on forever. Community Progress a Bank Asset.

The time was when money loaned on such a basis would severely test the sanity of the banker; such transactions would pain the directors like a blow in the face. A cashier who would dare to cast bread upon waters that did not return buttered side up in time for annual dividends would have to give way to a more capable man. This does not necessarily mean that the bankers are getting any better or that the milk of human kindness is being imbibed more freely by our financiers. It indicates that the bankers are getting wiser, becoming more able financiers and the banking industry more competent. The vision of the builder is crowding out the spirit of the pawnbroker. A light has been turned on a new world of investment and no usurer ever received as large returns on the investment as these progressive bankers, who made loans to uplift industry. The bankers have always been liberal city builders, but they are now building agriculture.

A Dollar With a Soul.

It is refreshing in this strenuous commercial life to find so many dollars with souls. When a dollar is approached to perform a task that does not directly yield the highest rate of interest, we usually hear the rustle of the eagle's wings as it soars upward; when a dollar is requested to return at the option of the borrower, it usually appeals to the Goddess of Liberty for its contractual rights; when a dollar is asked to expand in volume to suit the requirements of industry, it usually talks solemnly of its redeemer, but soul material has entered into the vaults of our banks and rate, time and volume have a new basis of reckoning in so far as the ability of some of the bankers permit them to co-operate in promoting the business of farming.

God Almighty's Noblemen.

These bankers are God Almighty's noblemen. Heaven lent earth the spirit of these men and the angels will help them roll in place the cornerstones of empires. They are not philanthropists; they are wise bankers. The spirit of the builder has given them a new vision, and wisdom has visited upon them business foresight.

The cackle of the hen, the low of kine and the rustle of growing crops echo in every bank vault in the nation and the shrewd banker knows that he can more effectively increase his deposits by putting blue blood in the veins of livestock; quality in the yield of the soil and value into agricultural products, than by business handshakes, overdrafts and gaudy calendars.

Taking the community into partnership with the bank, opening up a ledger account with progress, making thrift and enterprise stockholders and the prosperity of the country an asset to the bank, put behind it stability far more desirable than a letterhead bearing the names of all the distinguished citizens of the community. The bank is the financial power house of the community and blessed is the locality that has an up-to-date banker.

POLITICAL PRAYER MEETINGS

It is a sad day for Christianity when the church bells call the communicants together for a political prayer meeting. Such gatherings mark the high tide of religious political fanaticism, put bitterness into the lives of men; fan the flames of class hatred and destroy Christian influence in the community. The spirit actuating such meetings is anarchistic, un-Christian and dangerous to both church and state.

The success of the nation is in the hands of the farmer.

Work for the best and the best will rise up and reward you.

Tenant farming is just one thing after another without a pay day.

THE EVIL EYE

A Tale of the Sea

By DWIGHT NORWOOD

Jim Butterworth, a sailor, while ashore with a liberty party at Tangier got into a row with a Mohammedan snake charmer and had an eye gouged out. Jim was not overparticular about his looks, but tired of answering questions about how he lost his eye. The orifice left after the eye had been eliminated was certainly shocking to behold and caused every one who came near him to shudder. He wore a green patch over it for awhile, but found it very troublesome to keep in position. One day a shipmate said to him:

"Jim, why don't you get an artificial eye put in your face?"

"What's that?" asked Jim.

"Why, an eye made of glass painted to look just like a real eye. They make 'em so fine you can't tell 'em from the real thing."

"Where do you get 'em?"

"Oh, at any respectable port. They sell 'em in the shops."

The next port the vessel Jim had signed with stopped at was Naples. As soon as Jim was permitted to go ashore he took two or three of his shipmates with him, went to one of the shopping streets, and the party stopped at an optician's. The shopkeeper brought out a tray full of artificial eyes and set it before the sailors for selection.

Jim's single natural eye was a dark brown, but it did not seem to occur to any of the party that the artificial eye should be of the same color as the real one. One recommended a blue, another a steel gray, another a black with a superfluity of red in it. Doubtless the artist who had painted in the colors had done his best to make the glass resemble real eyes, but the best was by no means good. Indeed, some of them were soulless, some wild, and a number were well fitted to express insanity.

The shopkeeper, realizing that the sailors were about to make a mistake in the selection, picked up a brown eye, the nearest match to Jim's remaining eye, and offered it as the one best suited to the case. But Jim's mates scoffed at it.

"Wot?" cried one of them. "Put that thing into his head? You might as well give him an eye from a dead man."

"There's a dandy," said another, taking one of a greenish hue with a tinge of red from the tray and holding it up beside Jim's natural eye. "There's some expression in that eye. You'd clean out the sultan's harem with it, Jim. No woman could resist you."

Jim took it and stood before a mirror, holding it in position to see how it would look in its proper place.

"Mates," he said, "if you all agree that it's wot I wanted I'll take it, but I don't believe any of you would stand your ground at meetin' me wearin' it on the fo'c'sle on a dark night with the lightning playin' round."

"It's a jim dandy," replied one.

"A beauty!" cried another.

"It reminds me of the eyes of a gal I fell in with at Madeira," said another.

"Well," said Jim, "since you all agree that it's becomin' and I brought you 'ere for your opinions I reckon all I've got to do is to plank down the price."

The shopkeeper was willing to part with the artistic production for the sum of 10 lire, which Jim produced; the vendor adjusted it in Jim's eye, and the party departed to enjoy themselves in a neighboring wine shop.

When the men returned to the ship Jim found that his artificial eye attracted more attention than the empty socket. But when he asked his shipmates their opinion as to the looks of his "new eye" they all pronounced it "one o' the finest blinkers afloat."

The eye not having been put into the socket by a skilled surgeon was not very comfortable, and Jim soon sought relief in wearing it in his pocket instead of in his face. Then he fell to alternating between the glass eye, the patch and the empty socket. The crew gradually became accustomed to the "blinker," but the time never came when it ceased to excite comment. And whenever Jim went ashore, no matter at what port, his eye excited the astonishment and often the terror of the inhabitants. Children especially would flee from him, bawling. As to the girls, Jim never found a sweetheart in any land while wearing it, except on the African coast.

But a day came when all this was changed; when Jim's eye was an object of worship by both the officers of the ship and his messmates; when Jim was as proud of his glass eye as if it had been a decoration.

One day the Mary Robinson was sailing under a four knot breeze in the Malay archipelago, when the captain raised a glass and brought it to bear on a dhow on his starboard quarter. This archipelago has always been dangerous water, being a favorite region for pirates. The dhow under the glass did not improve. Captain Wainwright could see the decks crowded with copper colored men, who were leaning over the bulwarks to get a glimpse of the Mary Robinson. The interest manifested argued that it was of a coveted kind. The captain well knew that if the crew did not hurry they would

lose the ship they would not have paid any attention to it.

"Mr. Ruggles," he said to the first officer, "we're going to have trouble with that craft out there. Put on full sail. We may leave her behind."

"Aye, aye, sir," said the mate and gave the order as directed.

The Mary Robinson was a poor sailer, and there was a better breeze where the dhow was than with the other. The moment the ship hoisted all her canvas the dhow did the same and pointed to head off the Mary Robinson. It soon appeared that in this she would be successful.

The ship's crew soon saw what the upshot of the matter was and from the captain down were much frightened. They had no means of defense worthy of the name, a couple of six pound carronades and small arms. However, Captain Wainwright ordered the carronades loaded and provided with ammunition, of which there was a plenty, and the muskets and cutlasses brought on deck. It was not probable that the pirates had any extensive armament, but there were so many of them that the danger was they would overpower their opponents by force of numbers.

The pirate drew nearer, and in time the men on her decks could be seen brandishing their weapons and by their looks indicated that they were anticipating an easy prey. The crew of the ship showed no signs of what they felt within, which was that in case they were captured every man of them would either be cut down in cold blood or forced to walk the plank. Naturally every man felt that it was incumbent upon him to fight to the death. Every available weapon was brought into requisition, even to caldrons of boiling water. There were but twenty-six men in all for defense, including the officers.

The ship and the dhow were converging to a meeting. As soon as the latter got within range she opened a port, there came a puff of smoke, and a round shot went tearing through the bowsprit chains. Captain Wainwright had ordered his carronades to be placed on that side of the ship and replied, sending a shot into a crowd of copper colored villains standing against the gunwale. This opened the fight, the pirate craft edging constantly nearer, and men could be seen from the Mary Robinson getting grappling irons ready to use for boarding purposes.

This the white men dreaded on account of the superiority in numbers of the pirates. They might kill as many Chinamen as themselves and double the number would remain. Captain Wainwright would have sheered off if possible, but his ship was as close hauled to the wind as she could get without going about. However, when the pirate came within a cable's length the tiller was put hard down, and the Mary Robinson swung round and stood off at a right angle with the pirate's course.

The dhow followed this maneuver, though not at once. For awhile she kept on her course and since she was a faster sailer than the other gained leeway. It was evident that she would grapple the Mary Robinson on the next tack. Having made what gain she required, she swung round and sailed on a course to head off her enemy. Captain Wainwright, seeing that when the two met his ship would be boarded, called the crew aft and said to them:

"Men, if those cutthroats board us we are all doomed. See to it that the first man doesn't get aboard alive."

When the two vessels met their bows formed a right angle. Every man on the Mary Robinson was on the forecastle armed either with a cutlass or a loaded musket (if it were within reach) except Jim Butterworth, who preferred an ax. He took position as first man and waited with his weapon high in the air to cut off the hand or cleave the skull of the first would be boarder. A powerful Malay stood at the head of the pirates ready to jump the moment the ships touched.

Suddenly the advanced pirate was seen to shrink away as though he had seen something to take the stiffening out of him. Jim saw at once that it was his glass eye. Lifting a hand he removed it and made a motion to throw it at the Chinaman, who shrank back, pushing his followers to the rear. Jim returned the eye to the socket. Others among the Chinamen by this time had become impressed with what they considered the evil eye and those in front crowded to the rear.

"Give em a volley!" roared Jim.

Every white man dropped his cutlass and seizing a musket poured a couple of dozen bullets into the throng of pirates crowded on the forecastle of the dhow, dropping a goodly number of them. A cry was raised by the pirates which was not understood by the white men, but in English it meant: "The evil eye!"

Jim loosened a grappling iron that had been fastened to the ship's forward gunwale, and slowly the dhow sheered off, Jim staring at the pirates with his glass eye while every man of them was trying to hide himself from its evil influence.

The two vessels became separated and the pirates did not return. As soon as it was evident that the crew of the Mary Robinson was saved all hands crowded around Jim, those nearest to him embracing him. Then all gave way to Captain Wainwright, who, taking Jim by the hand, said:

"Men, the first man who cracks a joke at Butterworth's glass eye will receive punishment to the full extent of what maritime law allows me as master of this vessel. That eye has saved every mother's son of us from death at the hands of the yellow varnishes. He will hereafter be third mate and in future will be addressed as Mr. Butterworth, and don't you forget it."

Cheers greeted this speech and grog was served to the crew.

Prince Albert fits your taste!

Meets the fondest wishes of any man who likes to smoke because it has the *right flavor* and aroma and coolness. It's the most cheerful tobacco you ever did pack in a jimmy pipe or roll into a cigarette. And it's so good you just feel you never can get enough. The patented process fixes that—and cuts out bite and parch!

When you fire up your first smoke you'll decide that you never did taste tobacco that hits your fancy like

PRINCE ALBERT

the national joy smoke

For it exceeds in goodness and satisfaction the kindest word we ever printed about it!

Men, we tell you this tobacco will be a revelation to you. So, take this information at 100%, get out the old jimmy pipe from its hiding place or locate the makin's papers—and fall-to!

Your wishes will be gratified at the nearest store that sells tobacco, for Prince Albert is in universal demand. It can be bought all over the states and all over the world! Tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such excellent trim.

Haskell County School Items

It is important that every child between the ages of 7 and 18 be enrolled by the census trustee. It is the duty of parents to assist the census trustee in getting all the children enrolled.

Applications for transfers may be made any time between the first of April and the first of August. The privilege of transfer is extended only to those children whose home is not in the district in which the children desire to attend.

The State is anxious to increase the percent of attendance of scholars in the public schools this year. Last year only 55 per cent attended school; 45 remained out of school the entire school session. Parents are urged to keep their children in school until the close of the session. So far this year attendance has been a recordbreaker. It is hoped that the children in all the districts will remain in school until the close.

The session of the country schools of the county will be longer this year than last year. School board and parents are to be commended for their efforts in providing longer term schools. It is not too early to begin to plan for the next year's schools. The summer months should be the time for making improvements in buildings, and equipment.

The following schools have been visited recently: Mitchell, Hutto, Idella, and Rochester. These schools are in the northwest part of the county, in the sandy land, and the enrollment is greater than in any year during the past. These schools are doing excellent work this year. The teachers in this part of the county are doing high class school work.

Rochester has by far the largest school this year that it has ever had. If the term is extended a little longer the school will likely be raised from a third class to a second class high school. The country has become so thickly settled that more school room will have to be added to the seven room brick building.

School board for 45 common and 6 independent districts will be elected next Saturday April 1st. The men selected will have charge of the community's best and biggest business and it is highly important that each voter goes out and votes. At the same time three County School Trustees are to be elected. Each voter votes for three men, one from each of the precincts in which members are to be elected.

The following schools have received State aid: Pinkerton and Cottonwood. This makes 17 schools that have received State aid. Haskell County has received \$6,100 of the million dollar funds.

Safe Medicine For Children
"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, cold and croup. Stomach Trouble Solved

Most stomach troubles are not diseases. The stomach is simply weak. Tired out. The right kind of a tonic is what is needed. A few meals, well digested, will furnish natural strength. That is what a tonic will do for you. It will start the stomach going right. Then the stomach will take care of itself.

PE-RU-NA

Good the Year 'Round

Always Ready-to-Take There is no use of writing a new prescription every time a remedy is needed for a weak stomach. No use whatever. The old, well-tried remedies, put up on purpose for such cases, are a great deal better than an off-hand prescription. Peruna is the remedy that people have relied upon for a great many years. It is ready to take, composed of pure drugs, of uniform strength and composition. Not an experiment. Peruna is a substantial, household remedy, with forty years of splendid history behind it. In buying Peruna you take no risk. You know what you are getting.

LIV-VER-LAX

All the Effectiveness, Not Effect, of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a time medical experts, realizing harmful effects of calomel, have been striving to find a liver cleaner that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound, designed solely for the treatment of all complaints. The immediate relief it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated and skin sallow, don't lay until it becomes dangerous, the trouble in the bud with LIV-VER-LAX. Insist on the genuine bearing the signature and name of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale at Corne Drug Store.
