# It's Summer Now

HARVEST TIME is the summer time and you expect your summer's work and earnings to carry you through the winter. So it is with life-the summer days of youth, is the time to lay by the harvest to carry you through the winter of old age. There is no better way to accomplish this than by putting a part of each month's earnings into a Bank.

IN YEARS TO COME the competence thus saved will make the winter years of life all the more enjoyable. It's Summer Now and TIME to begin to save.

# \$75,000 Fire at the Oil Mill

The seed and hull houses and contents, of the Western Cotton Oil & Gin Co., and four freight cars of the Wichita Valley Ry. Co. were totally destroyed by fire Wednesday night, with an estimated loss around \$75,000. The origin of the fire was not learned.

The blaze was discovered in the seed house about 9 o'clock just as a gale from the north, blowing 50 miles per hour struck here, and being fanned by it, the fire spread very rapidly, and was beyond control almost from the beginning. The fire in the seed house bursted a large water main, and crippled the water system, and it was by hard work that the fire boys saved the mill proper which was not damaged much. The seed house, hull house, mixing machinery, warehouse, and about 700 tons of cotton seed and about 1,000 tons of hulls and several bales of cotton were destroyed. Four freight cars on the siding at the mill were also completely destroyed.

The residence of Mr. Cogdell was not damaged, and the houses just south of the mill were saved by hard work by the fire boys.

The fire at the mill is a big loss to Haskell, and will be a seriour blow to the farmers who needed seed to replant their cotton.

#### MASKELL, TEXAS, June 17, 1916.

One thing you can say about the Republican party's standard bearers, they both support a splendid crop of whiskers.

In your talking don't forget to say a good word for the big reunion and celebration to be held here the first week in July,

The question of state wide prohibition will be submitted to the voters of Texas in the Democratic primary on July 22, as a result of the action of the state Democratic executive committee at Dallas, Monday. This is the fourth time in nine years "submission" has been made to the people.

We wish to ask of our readers to send in appropriate notices of weddings or other social events. Do not neglect your friend when he or she gets married, for such an occasion is always interesting to a large circle of friends of the contracting parties. It is impossible for a newspaper to get all of the local news. We have to depend on voluntary contributions of friends for these interesting items. It is a misfortune when a worthy young couple get married and no one thinks to write it up and send it in to the home paper. In many instances the young know how to take care of a con- FOR JUSTICE, PEACF, Prec. 1. couple feels like they have been vention. A banquet at the Del neglected or discriminated against by the editor, when, perhaps, the editor never heard of the event.

The Free Press does not come up to the usual-standard this week from the fact that we went to press on Thursday afternoon and was forced to leave out a number of ads as well as several good news items. We regret having to do this-but we believe by coming out on time and getting the paper to the readers before Saturday it will be appreciated by our subscribers and our advertising patrons will get better results. We will appreciate it in the future if you have a news item or a change for your ad, if you will get the copy in the office by Wednesday

# Senatorial Contest

Last week at the meeting of the Texas Press Association at El Paso a straw vote was taken among the newspaper men on the special train from El Paso to Cloudcroft, New Mexico, on the Senatorial contest. Indicating by numbers how they thought the different candidates would finish in the first primary. The position of each candidate was figured on a percentage basis. The smallest number indicating the candidate in the lead

The following is the result:

Brooks 437 Colquitt 449 Culberson Campbell 467 602 Henry Riddle 850

The above votes were not the newspaper men's personal feelings but how they thought their respective counties would go in the election. If this can be counted as a criterion of the results, the final clash will be between Hon. S. P. Brooks and Hon. O. B. Colquit.

#### Texas Press Meeting

We have not throughly recovered from the effect of our trip to the Texas Press Association at El Paso last week and in the tuture whenever a person tells us that he feels anxious to get back to work atter a week's vacation, filled with the very best of good times. we will believe that if his tongue was examined a blister could be found. Personally if we were not forced to it, we would never go to work.

Abilene, which was run over the T. & P. line from Fort Worth to El Paso. The T. & P. is noted for the interest they take in the comfort and pleasure of their patrons and if we should write a full column praising this road we could not say enough.

El Paso is some town, and they Norte hotel, an automobile ride over the beautiful irrigated valley a trip to Jucrez and a special excursion to Alamogordo and Cloudcroft New Mexico, were included among the many features of the entertainment.

# RECIPE FOR GRAY HAIR.

RECIPE FOR GRAT MAIR.

To haif pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ½ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not reb off.

# Baseball News This Week Delightful

The Haskell baseball team has acq itted itself, and is again in the good graces of public opinion, by overcoming their jinx and winning the last four games play-

Last Friday the team played the O'Brien team at O'Brien, winning the score of 3 to 2, playing 10 innings. The batteries for Haske l were Clemons and Jones. A feature in this game was a home run in the 10th inning by Wooden.

Monday. Tuesday and Wednesday the O'Brien and Haskell teams played at Haskell to fair crowds.

The game Monday resulting in a victory for Haskell by a score of 11 to 2. Batteries for Haskell Wooden and Jones.

Tuesday's game also went to the local boys, a score of 12 to 4. Bacteries, Jones and Jones.

Wednesday's game was won by a score of 16 to 3, the O'Brien lads quitting in the 8th inning.

Friday and Saturday of this week the boys will go to Rule, and play the Rule team there. Next Monday, Tuesday and Wednesday the Haskell team will play the Aspermont team at this place.

Jones, pitcher, from Boyd has been added to the Haskell team.

We visited banker A. R. Couch and was royally entertained for a short time. Mr. Couch is a splendid business man with ability and he knows the banking business.

D. E. McDonald, a farmer of Route No. 1, was met and he reports everything in fine shape in his section.

D. J. Jones one of Weinert's successful merchants was called on. Mr. Jones is one of those prosperous business men who is satisfied with doing well.

County Commissioner, E. L. Ridling was accosted while sitting in an easy chair in the new justice court room and we found him a very pleasant gentleman. He has been in office for two terms and he declines to be a candidate for re-election.

M. L. Peters a barber with his shop located in the front room of the new court house, was called on. He is not shaving long faces now, for Weinert and the sur rounding country is very prosperous.

J. B. Ridling of the Weinert Elevator Company, said he had sold seven new binders and that the grain crop in that section was good.

Just as we started to leave Daddy Red" whispered to us that he paid out httle better than \$12,000 last year to the farmers of the Weinert country for turkeys, chickens, eggs, and butter; and "daddy" is making things lively this season.

Our stay was too short for us to see all the people there, but we have seen enough to give us an idea of the country and we are going to call on everybody in Weinert when we go there next time, which will not be long.

We drove west from the little city until we arrived at the splendid farm home of Wheeler Lee's. While Mr. Rutledge was talking business, we were invited to help ourselves to the peaches which were hanging from the treesred on both sides—we had some real enjoyment, thanks to those good people.

# Copper Mining in Haskell Count

F. H. McFarland, Millionar banker and stockman, of Re Worth, and owner of extense ranch and grazing land in western part of Haskell count and emerging into Stonewall com ty, was here a few days ago wif mining experts, making a geological cal survey. ascertaining the proable extent, area, the thickness value, and distribution of work able areas of the copper deposi found on his ranch ten miles wer of here. Their visit here is to b distinguished from a mere pro pecting trip, as the field has been looked over before, and this vis was to ascertain the advisibility installing machinery for extracting the ore from the earth and refer ing it, and selecting a location for

Mining experts proved by te that the average yield of pure cor per will be more than 20 per cent and the area and thickness of the rich strata thus far discovered w more than justify in installing complete machinery for mini and refining. Another great a vantage here is that this will be surface mining, and the heavy es pense of under-ground explor tion, opening of shafts, tunnel and underground passages are un necessary before active minin operations begin. Surface mining of ore yielding 20 per cent, is fa more profitable than undergroun mining of ore yielding 33 per cen under the most favorable and co venient circumstances ever know in mining.

Another distinguishable featur is that this mine is not being open ed up by stock company, with the usual delay of months or ver for the purpose of selling sul cient shares to get funds to work with, but on the other hand it to be owned and operated under the direct supervision of Mr. Mo Farland, himself who will finance the enterprise, which without mi hap, prove in a short time, not project, but a reality.

At the present time, Mr. M. Farland is in Fort Worth making arrangements to begin the wor at an early date. In the meantime 6 foot wells are being dug, on the site selected for the erection of the mining machinery.-Rocheste Express.

# The Co-operative Plan

A Farmer Tries It on an Auto

By M. QUAD

Copyright, 1916, by the McClure Newspaper Syndicate

I was driving across the country with a horse and buggy when I came to the wreck of an auto in the ditch. and a farmer was tinkering at it. He had a sledge, crowbar, an ax, a cold chisel and a screwdriver and had worked up a nice little state of perspira-

"You appear to have a wreck here," I said as I drew in my horse.

"Appear!" he shouted as he looked up. "If this isn't the durndest wreck anybody ever saw I'll eat my hat?" "How did it happen?"

"How does snything happen to an auto with a fool driving it?"

"Was it yours?" I asked, scenting a

last night. Now the whole sad remains

belong to me. Did you ever hear of the co-operative plan among farmers?" "Lots of times. "Waal, then, this was co-operation in

buyin' and runnin' an automobile, and this is one of the results of it. The other result is that I am about \$300 out of pocket and have lost a widder who was goin' to be my wife. If you want to hear all about it I'll tell you, for I guess it hain't any use to tinker any more at this blamed old thing."

The farmer took a seat on the mortal remains of the auto and drew a long breath and proceeded to say:

There was Tom Evans, Joe Baxter, Jim Williams and St Perkins. They are all farmers and live about here. They are all married men, and each one has a gang of children. As for me, I sen an old bachelor, but I was a sparkin' of the nicest widder woman in this county. The four men I have mentioned come over to my house one evenin' a month ago, and Tom Evans be asks if I would go in with 'em on

the co-operative plan to buy an auto. "'How much?' says I.

"'A thousand, says he.

" 'That's \$250 each." " 'Jest so, Sam.'

"And the auto

bought?" queried. She was, sir. She arrived here glis-

tenin' like a star, and she excited the wonder of folks for ten miles around. We got a feller from town to show us how to run her, and in about a week we was all ready to glide around the country. Bein' I was a single man and mightily in love with a widder, they said I might take the auto out first. which was very decent of them. I felt sure I could run the machine as good as any man in the state. It was a bright moonlight night, and the whippoorwills were singin' and the katydids chirpin', and that widder woman should premise to be mine before we returned."

"And did she?" was asked as the farmer heaved a long sigh.

"She didn't, stranger, and I'll tell you why. We had gone about a mile as steady as an old horse when the auto shied at a stone in the road, ran "One-fifth of her was mine up to through a rail fence, wrecked the auto. and the widow gave me fits."

"It gets interesting." I said.

"Kinder interestin', stranger-kinder so. We got a machinist to tinker \$20 worth of tinker, and the old machine could run again. Then it was Tom's turn. He has a wife and five children. and they all piled in. They was clip pin' along as happy as larks when they came to a crossroad. The auto was for keepin' straight ahead. Tom wanted to turn to the right and his wife to the left, and the result was that the machine run into and knocked over the guidepost and then tried to climb a fence. The whole family took a spill and was scattered for twenty rods around. No one was killed, and there was no broken bones but the bruises are yet blue, and Tom still walks bent over like an old man on account of the jar to his spine. By this time we had all got skeery of the machine; but, it bein' now Jim's turn and he not wantin' to be called a cow ard, he took out his family for a prome nade. As the other accidents had occured at night, Jim went out in the

afternoon. He thought there might be somethin' in the night air that affected the old critter. There was seven in the family, and they was climbin' the hill beyond the red ridge when all to once the auto gave a snort and stopped in her tracks.

"'What's the matter?' asked Jim's

"'Durned if I know, but she's got to

go! he answers. "And she did go, sir-she went backwards. There was screamin' and yellin' and swearin', and Joe's wife slapped his face, but nothin' did any good. That auto kept on goin' backwards until it dumped them all in the river. which was about three feet deep at that time. They was shook up and bruised and half drowned, but they were lucky for all that. They waded

ashore and left the old auto lyin' on its back in the river." "But you got it out again?" I asked. "Yes. We had to," was the reply. "It was in tryin' to get the old critter

and run into a telegraph pole and wrecked herself as you see her." "And she won't be tinkered up

home ag'in that she suddenly bolted

again?" "She can't be. There's nothin' left to tinker, unless the blacksmith thinks he can make five wise men out of the five fools who bought her and lost about \$230 apiece. I used to think cooperation of farmers was a beautiful thing, but durn my cats if I ain't through with it!"

# **Ever Salivated by** Calomel? Horrible

Calomel is quicksilver and acts like dynamite on your liver

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50c a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work.

Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't
