Joe Choate gave me a call Monday morning. He had a few things he felt needed saying, and after hearing him, I agreed wholeheartedly.

Joe pointed out that young people can get a bad reputation these days, when it is only a few of them who really cause the problem. And to illustrate his point, he told me about what happened at his Skelly station in Bogata last Saturday night.

One young man broke the big glass windows out of the station front, then ran off. There it is, right, another nasty incident to shake our heads over! Wrong...because a number of other teenagers chased the culprit down, brought him back to the station, called Joe and then kept the boy there until Joe arrived and called Red River County authorities.

Joe thinks that many of the young people who like to drive around town, even though they are a little boisterous at times, are providing some of the best law enforcement. Obviously, the county law officers are easily recognizable, but not so the patrol of responsible youngsters who may keep many incidents from happening just by being around!

Actions such as these deserve commending. Young people as a whole deserve our attention and understanding.

And although littering and noise can create a problem, it needs to be brought to mind that basically the majority of "kids" are not harming anything.

Growing up in today's world isn't easy....growing up never is. There is more freedom than ever, and today's youngsters have to resist temptations that never arose only a few years ago.

Please, let us try to remember this, and also remember the many good actions that go on, not just the bad!

New Talco Bank Holds Open House

By Joyce Alexander
Both customers and employees at Talco State Bank are enjoying the features and accessibility of the newly completed 5,000 square foot bank facility located at the corner of 5th and Broad Streets in downtown Talco. The bank celebrated the completion of its new home with an open house Sunday, July 10 from 1:30 until 4:30.

Also on hand for the ceremonies were numerous officers and employees of the Guaranty Bank of Mt. Pleasant as well as officers, directors and employees of the Talco State Bank.

The contemporary style air conditioned structure features a drive-through banking lane and night depository located on the

east side of the building. The lane provides cash and check deposits without having to leave the comfort of your vehicle.

Customers who prefer walk-in banking will find abundant parking space in both the front and west side of the building with easy access to three teller windows. All banking services, including a complete loan department are open from 9 a.m. to 3 p.m. Monday through Thursday and 9

The teller service windows are located to the east of the spacious lobby. Included in the waiting area is space for the secretary and assistant cashiers, adjacent to the lobby to the south is the loan department, to the west are the offices of the president, vice-president, assistant cashier and a small conference room.

The bookkeeping department is located to the

east and at the rear of the lobby. Also included at the rear of the lobby area is a large director's room which can be used as a community room, a lounge and restrooms are adjoining. The bank features two vaults, one of which has an enlarged safety deposit area.

Bank president Jones said that between 450 and 500 persons attended the grand opening. Mrs. Lula Whitney

eight cents guessing the correct amount. R.O. Webb of Mt. Pleasant won the

BANK OF CENTES

By Neil Rozell

In the past 20 years, there has been a complete turn around in the banks' deposit structure. In the 1950's, less than 10% of the banks' total deposits were interest bearing accounts and the average size of the deposit was \$1,000.00. In 1975, the interest bearing accounts, savings, C.D.'s, etc. represent over 60% of the total banks deposits and the average checking account is less than \$500.
