

NICHOLS' WORTH

By: Nanalee Nichols

Some seasons are so beautiful that it seems a shame they can't be held tight and kept for just a little longer. Right now, definitely, is such a

New England it may be more colorful, the snow may pile up and blush in the sunset in the Rockies, and the desert may be at its best right now, but it's hard to imagine a place with a more congenial climate right now than right here.

Mornings are cool and brilliant, with the slanting light gilding leaves and grass to weave a web of brilliance.

Heavy dews make diamond fields of meadows, and the sky is such a bright and glorious color it seems it could be cradled within one's hands.

Evenings linger on, long and lazy, putting the mornings to shame with their own brilliance.

It's a great time to do fall gardening chores, lawn work, take a walk, just do nothing...just so it's done outside.

Autumn is here, fall has fallen, the end of the year approaches.

As usual, most of us are appalled at just how fast the year has gone by. We wonder once more where the time went, what happened to summer, how Christmas can be so close!

Perhaps autumn cannot compete with the spring of the year in beauty. In the spring nature seems tired of winter and cannot wait to throw it off and don't its new spring blossoms.

Now, instead of that urgent, brazen green, the grass has mellowed to a dusky golden green.

But in the spring one thing is always apparent...that sense of urgency that autumn lacks.

In spring there is a hurry, work to be done, things to be planted, spring to be sprung!

Now there is a sense of melancholy, a little bit of nostalgic lingering to the days as they try to hold on a little longer, just to put off the grey and cold of another winter.

It is a slow, sweet time of the year. One which conjures up images of how good a fire will feel soon, and we can all relax just a bit...don't rush autumn...let it make its own way out of this year's life.

Locals Travel To Caribbean

Rick and Carlene Roberts, owners of Rick's Power Center in Talco, recently won a Caribbean cruise. The cruise was sponsored by the Snapper Lawn Mower Company. They won the trip by having a certain percentage of sales over last year.

There were several area business owners that also won. Carlene said that people from Omaha, Clarksville and Mt. Pleasant were there. Their table partners on the ship were from Center.

The Roberts traveled to DFW Airport with Mike and Regina Clark, who own Western Auto in Mt. Pleasant. They flew out of Dallas on a Tuesday to Atlanta. There they boarded a plane to San Juan where they spent the night at the El San Juan Hotel.

On Wednesday they boarded the luxury ship Cunard Countess. Thursday the ship docked at Tortola where they enjoyed sunning on the beach. On Friday they docked at St. Thomas. The Roberts and Clarks rented a car

and visited all the scenic stops St. Thomas had to offer. They enjoyed Mountain Top which is a beautiful scenic area. Another attraction they made was Coral World which Carlene said was the best of the scenic stops. On Saturday they traveled home.

This was the first time for Carlene to travel by plane or boat and she said she wasn't too sure about it all. But she said after they got going she was okay.

Snapper paid for most of the expenses of the trip. The only expenses the guests had to pay were the expenses they had port side and their way to and from DFW Airport.

Carlene said that Snapper went all out for their people on the cruise. The luxury liner had three lounges, a ballroom and disco, swimming pool, a small tennis court, several spas and just about anything you can imagine. When asked what she thought of the trip, she remarked, "Everyone needs to make a trip like this every once in a while."

"Play It Safe, Plan Your Escape" Is Theme Of Fire Prevention Week

This year's theme for fire prevention week, October 4-11 is "Play it safe, plan your escape." Some tips to prevent fires are:

Never smoke in bed. Never leave invalids or small children alone in the house, not even for a few minutes.

Never use flammable liquids for dry cleaning indoors.

Have periodic fire drills in your home to be sure everyone knows what to do in case of fire.

Keep easy to use fire extinguishers in your kitchen, cottage, back bedrooms and on your boat. Invest in smoke detectors, and be sure that they are kept dust free and in working order.

The telephone number of your fire department should be taped to every telephone in your house. If it isn't should a fire occur, don't waste time trying to find it; get out and call from a neighbor's house.

The Volunteer Fire Departments advise the following steps in reporting a fire in this area:

1. In Deport, call 652-3241; in Bogata, call 632-5234; in Blossom, call 982-5300; in Talco, call 379-3331. These are emergency numbers ONLY and should NOT be used for any other purpose.

2. Don't panic.
3. State: grass fire or house fire.

4. Give directions clearly.
5. Give the name of the owner of the property if you know it.

6. Give your name and the phone number you are calling from. If possible, have someone stay by that phone in case more information is needed.

7. It is important to have someone standing near the road to give directions when the fire trucks arrive. Such as gates and driveways.

8. Know where the nearest fire hydrant is to your house before a fire starts.

Time To Plant Clover

By Herb Brevard

Past experience shows that producers had better response from clover planted in October than in any other month, according to Dr. Sim A. Reeves, Jr., agronomist for the Texas Agricultural Extension Service.

Select the clover species best adapted to the land being planted. Reeves says that white clover does best in bottom land while arrowleaf, crimson, Subterranean and vetch do best on well drained upland soils.

Clover produces a high quality forage and, if properly inoculated, leaves enough nitrogen in the soil for use by summer forages to more than pay for the seed costs.

Four essentials of successful clover production includes a soil pH of 6 or better, adequate phosphorus and potassium, having the sod short, and properly inoculating the clover seed. To properly inoculate seed, a good sticker agent is needed to keep the bacteria next to the seed.

Clover can be planted in a sod by drilling or sowing. If broadcast, the area needs to be dragged or scratched to get the seed in contact with the soil.

Fall application of phosphorus and potassium is excellent for clover. However, do not apply more than 20 to 30 pounds of nitrogen per acre or the grass will overcome the young clover plants.

Rebels Take Homecoming Win

By Stan Anderson

The Rivercrest Rebels won their first homecoming game in four years, by defeating the Redwater Dragons 28-26 before a capacity crowd at Rebel Stadium last Friday night.

The Rebels utilized a complete team effort to overcome a larger Redwater team that in some positions outweighed the Rebel linemen as much as 100 pounds.

Rivercrest received the opening kick-off but found the interior line of the Dragons to be rock solid and were forced to punt on consecutive downs.

Redwater took over on their own 26-yard line and began a steady march downfield behind the running of sophomore Jeff Kelley and the arm of quarterback Scott Steed. The Dragons pushed the ball to the Rebel 17-yard line and on the first play from the 17 had a apparent touchdown, but an ineligible lineman downfield nullified the score. Several plays later Rebel defensive back Marvin Anderson stepped in front of a Redwater receiver to intercept the ball in the endzone, giving the Rebels the ball on their own 20-yard line.

The Rebel line began to use their quickness to take advantage of the slower Dragon team, as running backs Scooter Brown and Geary Savage ripped off 25 and 24 yards respectively for two first downs. A fifteen yard Dragon penalty helped push the ball to the 11-yard line. Five plays later, quarterback Bradley Wood sneaked over the goal line to put Rivercrest on the scoreboard first. The PAT kick was good and Rivercrest led 7-0 as time expired in the first quarter.

Redwater was unable to advance the ball on the Rebels and a fumbled punt attempt gave the Rebels the ball and good field position on the Redwater 35-yard line. One rushing attempt by Rebel back Marcus Savage netted Rivercrest one yard. Bradley Woods attempted a pass to Marvin Anderson, but was unable to connect. On his next attempt, he found Wade Smith alone on the two-yard line. Smith dodged one defender and stepped into the endzone for the second TD of the evening. Donald Combs made good on his extra point kick and Rivercrest led 14-0 midway through the second quarter.

Redwater took possession on their own 33 and with a good running effort by Jeff Kelley and an untimely Rebel penalty, found themselves on the 50-yard line with a first down. A 23-yard pass completion moved the ball to the Rivercrest 27-yard line. Two plays later Kelly ran through the Rebel defense for the last TD of the half with Rivercrest leading 14-6.

The Rebels came out smoking in the third quarter. They started their first possession at their own 11-yard line. A strong running effort by wingback Jimmy Lewis and back Scooter Brown, pushed the ball

steadily downfield. Quarterback Bradley Woods carried the ball into the endzone on the final play of the drive. The TD and extra point gave the Rebs a 21-6 lead.

But the Dragons still had some life in them. An alert Dragon defense pounced on a Rebel fumble on the Rebel 21-yard line. Six plays later, the Dragons scored again, the PAT attempt was not good and the Dragons trailed the Rebels 21-12 going into the final quarter.

Rivercrest opened the fourth quarter with another scoring drive of their own. Starting near mid-field, Rivercrest moved the ball to the Redwater 16, when Bradley Woods found receiver Marvin Anderson wide open across the middle for the Rebel's fourth TD. The PAT was good and Rivercrest led 28-12.

Nearing the 3:00 minute mark, the Rebs appeared to have a safe lead, but the Dragons began charging back. Dragon quarterback Scott Steed carried the bulk of the load, passing for five completions on the way to their third touchdown of the contest. The Rebs lead was cut to 28-18.

An on-side kick by the Dragons gave Redwater the ball again on the Rebel 48. Redwater used only one minute to score again. The two point attempt was good as Redwater pulled within two points, 28-26, with one minute left in the contest.

Rivercrest ran out the clock and went on to win 28-26.

Rivercrest amassed 257 yards of total offense. Bradley Woods passed for 75 yards and Scooter Brown led all rushers with 116 yards.

This week the Rebels open district play at home against Honey Grove. Kick-off is at 7:30 p.m. at Rebel Stadium.

The dark side of portable generators

Portable generators help keep your house bright during power outages. But there's a dark side to this convenience. If portable generators are not installed to meet the National Electric Code, they're dangerous to the public and to linemen working on power lines.

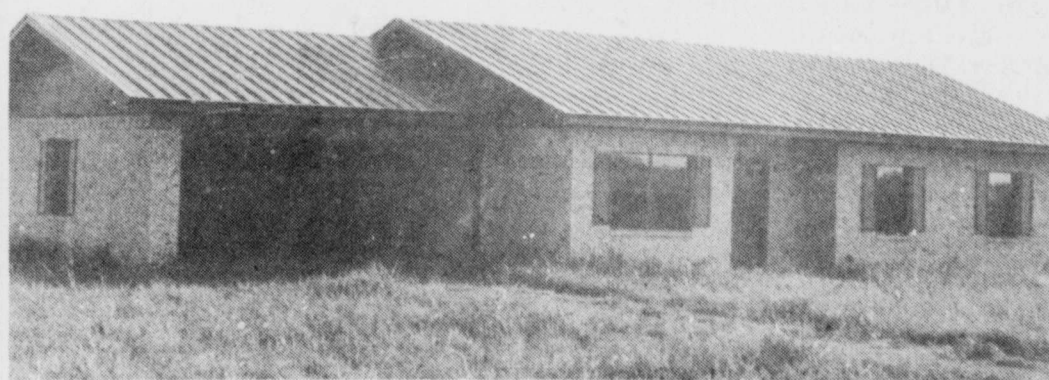

Improperly installed generators backfeed into power lines leading to your house and energize seemingly dead lines. This creates a hazard for linemen trying to restore service and to others who might come into contact with a line lying on the ground. Portable generators can also slow restoration efforts, and the generator itself can even be damaged when power is restored.

If you have a portable generator, please make sure that it is installed properly. If you have any doubts, don't risk a life by using it.
