

It's all the same, there's just more of it. Something we've all suspected, but finally have confirmed.

Mark Gale is a photographer for the Ft. Worth Star Telegram.

He's worked for newspapers in his home town of Baltimore, Maryland,, in Mississippi, Louisiana, and a number in Texas. He's worked for USA Today.

Sam and Margie Rice introduced him to us back when he was working in this area.

Saturday night we had the opportunity to look over several boxes of his work, which was great.

Thumbing through sports shots of otball teams taken in California, horse shots from an assignment at a racetrack, firebomb pictures, and people from Michael Jackson to George Bush, I got that feeling most weekly newspeople get....that we've missed a boat loaded down with glamour, fame and excitement.

While we are snapping away a high school football, these professional photojournalists are standing in a perfectly lighted stadium taking pictures of famous sports figures.

While we are covering Girl Scout Banquets they are covering presidential rallies.

The contrast is, at first glance, startling the gap too wide for clos-

But then, one begins to realize that it all boils down to the same thing. Indeed, it actually takes more skills to cover high school football than professional. The lighting and footing at high school games is pretty primitive compared to the layout at a pro game. The same can be said for

most sports contests ...

The events that generate those prize photos we all dream of: spectacular

at Talco-Bogata, it is time to begin thinking about football and all the other activities that involve the young people. This year promises to be a very good year for the Talco-Bogata School System.

Teachers new to the Talco-Bogata system are: Utley Nowlin, Counselor; Carol Cowley, Physical Education at Bogata; Charles Coe, Counselor; Henrietta Bass, Math; Anne Sawyer, Kindergarten; Shane Wilson, History and P.E. at Talco. The Talco-Bogata Schools will

hold the first day of classes for the 1988-89 school year on Thursday, September 1. Breakfast and lunches will be served in the cafeteria.

Rivercrest High School Principal James Smtih stated that the buses will make their regular runs on Thursday morning with students remaining in school the entyre day. Students should be ready and waiting for the bus a little earlier than usual. It will probably tone or two days to establish regular times for each bus student for any reason, please contact the appropriate building principal. Students living more than two miles

from their assigned campus and who are new to the district may contact the office at Rivercrest High School at 632-5204 for information regarding bus routes.

High school students may pick up their schedules on August 22-23. If a change in the scheduling is needed, the student must list the reason in writing and see the principal and counselor for change approval. All changes will ble made on August 22-23. It would be advantageous to the student to complete the schedule process prior to the first day of classes.

Principals Billy Joe Vickers at Talco and Frank Stubblefield at Bogata, want to remind parents that all students entering kindergarten must be five years of age on or before September 1 of the current year. Student sentering the first grade must be six years of age on or before September 1 of the current year. Kinder-

garten students must furnish a birth certificate before being enrolled. First grade students who did not attend kindergarten the previous year or who are enrolling in the first grade for the

Of course, being able to work in color would be nice, and only daily papers with large circulations can afford that luxury.

Like those of us on weeklies, the "big guys" have to cover plenty of assignments that have little or no possibilities for drama or creativity.

They get calls from people complaining that photos made them look old, look bad, were omitted, deliberately discriminated by cutting someone from the picture- all the complaints that simply go with the terri-

tory. They have one thing most weekly photographers don't have, however. That's a certain amount of respect. Photographs published in the New York Times obviously demand national attention. The person who is responsible for those pictures becomes well-known and well-paid.

They also have something else ... the luxury of doing one thing...photography.

When they go to take pictures they don't have to worry about getting down names, times, information or anything but the best shots they can get.

Then they can go back to a roomy kroom and process and print, with little thought to cost, their glossy color prints.

Weekly folks usually go back to a darkroom in a converted closet, and remind themselves with every print they make that "there went another dollar". They usually have several other people's film to process too.

After they get all that done they can go out to their desk and pound out the cutlines to go under the pictures, then write the story to accompany it.

Weekly people have something to compensate for most of that, though. That's the trust and, usually, affection, of the people in their commu-

There isn't much respect, no one considers that weekly people have any great talent, nor does a picture on the front page of a weekly have the same prestige (or pay) of a huge city daily.

But there is gentle jesting, trust that people's sorrow will not be used for sensationalism, and genuine welcome when the weekly "paper person" shows up. Offers to sit down and eat, join in the festivities, or there's just more of it!"

Adjusting the antenna for your favorite sitcom is not a laughing matter

Your favorite sitcom may be funny, but adjusting a television antenna to watch it is serious business. That's because antennae often combine two dangerous factors - they're near power lines, and they conduct electricity. If the antenna strikes a power line while you're holding it, the results can be deadly.

To adjust your antenna safely, please remember to make sure it is installed far enough away from power lines that it could fall without striking one.

For more information on power line safety, call or visit your local Texas-New Mexico Power Company office today.

have a bite of advanced technology

But you won't find this technology offer at your nearby grocery store. Rather, it's the kind of value you get with Contel local phone service. Each and every day.

And with that phone service comes the benefit of advanced technologies such as fiberoptics, digital switching and features that Alexander Graham Bell probably never imagined.

All for about 25 cents a day, or a bite of an ice cream bar.

Along with that technology investment, you also receive Contel's commitment to quality. And you're served by employees who care about you and your community.

Few companies can offer you such a comparison. But at Contel, you not only have the opportunity to take just a bite, you can enjoy the whole bar.

Telephone Service by Contel-Your best utility value.

drought whipped, along comes the Armyworm and that is bad news for the livestock producer. Several outbreaks of the grass loving worms

Agricultural Briefs

have been reported in the Sulphur Springs and Mt. Vernon areas and at least one spot in Lamar County.

Conditions are right for a serious outbreak of the insect. They prefer lush green grass that has been fertilized. Tha not to say that they will not eat unfertilized grass. Howe, the firs grass tha consumed he real lush fields. dult moth deposits the eggs and she has the ability to determine the best tasting grass.

Normally, the first outbreak of the worm can be found near a fence row,

75SP, 50% wettable Sevin and Sevin 80S. There are no instructons on the label indicating a period of time to keep off grass other than to allow the spray to dry.

Remember, that small armyworms are much easier to control than large ones. Check those highly susceptible areas often.

Some of the area corn crop contains high amounts of Aflatoxin and will not be saleable. Aflatoxin is one of the mycotoxins which are produced by rungi growing on organic substances such as corn which, when consumed have some undesirable effect on the animal. There is no way to take care of the fungi once present on the grain. However, there are a number of management practices that can help reduce theproblem. One should harvest as soon as possible. Dry corn immediately if moisture is greater than 13% as Aflatoxin production ceases at 13 percent. Aflatoxin is more prevalent in damaged kernels, so cylinder speed can be reduced and other adjustments made to prevent cracking and havesting damaged kernels. Fields that have been severely stressed by the drought are more apt to be contaminated with the Aflatoxin. These fields or areas may be harvested separate. As one can see, few options are available to thepro-Worm activity is not limited to ducer with Aflatoxin contaminated pastures and meadows. Fertilized corn, other than to bury it. Aflatoxin lawns and athletic fields can also be infested corn will have a greenish tint targets of the worm. Chemicals that to the kernels as opposed to a black

IALKABOUI PRESCRIPTIONS

Facts from the National Council on Patient Information and Education America's "Other **Drug Problem**"

America has a drug problem many people don't even recognizethe misuse of legally prescribed medications. Every year 800 million prescriptions fail to produce their desired results because they are used improperly, and that misuse can be dangerous. Studies show that up to 500,000 hospital admissions each year are related to drug reactions.

You can keep from becoming one of these statistics by being an alert consumer. The next time a medicine is prescribed for you, ask your health care professional these questions:

1. What is the name of the drug and what is it supposed to do? 2. How and when do I take it-

and for how long? 3. What foods, drinks, other medicines, or activities should I avoid while taking this drug? 4. Are there any side effects and

what do I do if they occur? 5. Is there any written information available about the drug? Getting the answers to the questions could help solve America's "other drug problem."

Johntown News

The Woodall family has had an exciting week this week. Last Wednesday they went to Dallas and returned Thursday with two guests who spent thi week with them, Pam McCarthy and her six year old daughter, Emily. It was a fun week, remembering old times, catching up on the various directions of their lives and getting to know each other's children. They had a wonderful time.

Morris Parker reports she spent part of last week with her son and his family in Houston. She traveled with her granddaughter, Robin Harville and great-granddaughter, Kyla Jo. They visited Mrs. Parker's son and his family, Charles Pirlte. She said the weather was much nicer than it has been here.

Mr. and Mrs. M.J. Davis were uests of Mr. and Mrs. R.W. Weisiner from Friday until Monday. The Davis family are from Luverne, Alabama and they were here to attend the 50th anniversary of the First Baptist Church in Talco.

Mary Belle Horn got an extra bonus when she visited last Tuesday with Mr. and Mrs. Jeff Morris of Clarksville. While there she was acquainted with Mrs. Jim McDowell of Clarksville. The two had not seen each other for 60 years. It was a wonderful reunion.

Mrs. Joyce Cox spent a day last week visiting her son, Eugene Cox and his wife, Pat, and their new granddaughter, Holly Abigail Bush, born last Monday to Pat's son, Wyatt Bush and his wife, Tammy.

Mrs. Dorothy Stevens has had the pleasure of her granddaughter, Kriston Kuhl's company this week. Kriston is seven and lives in Talco.

The Grady Dodd family attended a bluegrass festival in Canton last week. Mrs. Dodd reports they really enjoyed the music, so much that the heat didn't bother them much.

Mrs. Ora Pirtle reports that she and her daughter-in-law, Billie, visited her granddaughter, Kati, of Commerce last Tuesday.

Mr. and Mrs. R.W. Weisinger attended the 50th anniversary of the Calvary Baptist Church in Talco Sunday. Bro. Don Williams brough t the morning message and the afternoon service was led by Bro. Marion Coon. The Weisingers stayed for the reception afterwards.

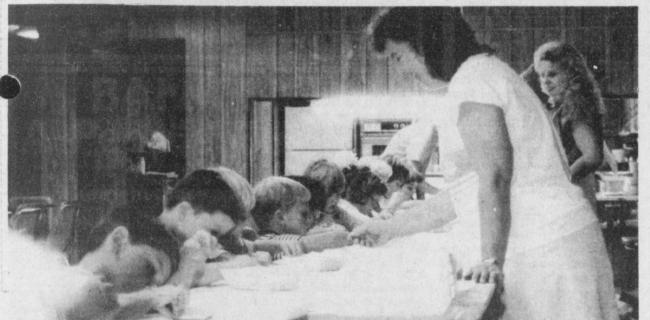

Mrs. Joyce Cates attended the wedding of her neighbor, Louis Hampton last week, whose new wife is from California.

Ida Kepler's daughter, Hazel Lamb, visited her Monday. Hazel is form Sunnyvale.

Mr. and Mrs. R.W. Weisinger visited Mr. and Mrs. J.T. Sells Sunday at St. Josephs Hospital in Paris, where Mrs. Sells is a patient.

Mrs. Roberta Watts had a busy week last week. Sunday she was visited by Tabatha Allums and her two children, Mark and Krisha. Monday, she was visited by a friend from Mt. Pleasant, Lillian Bowen. Wednesday, Teresa Alford visited her. On Saturday, she attended, along wit happroximately 35 othes, the birthday party for Shirley Allums, given by Teresa and Ray Alford. Mrs. Watts says the Mexican diner and two cakes were delicious and that Teresa outdid herself with rations. Mr. and Mrs. Erbach and family of Dallas were among the guests.

Mrs. R.W. Weisinger celebrated a birthday Saturday night. Mr. and Mrs. M.J. Davis, guests of the Weisingers, of Luverne, Alabama, entertained them at Catfish Village in Mt. Pleasant for dinner and a happy birthday song by restaurant employees. They were joined by Mr. and Mrs. Ray Hall of Mt. Pleasant. Mrs. Weisinger had also received a call that day from her sister, Mrs. Bertie Garrison of Bakersfield, CA.
