He was probing in the bottom of a post hole, as excited as if gold had been discovered.

The eight year was convinced that the water in the bottom was a newly discovered spring that would provide fresh, pure water.

He took "water samples" and kept a wary eye on the hole, convinced that a water well was imminent.

It provoked a flood of memories about those childhood discoveries most people made.

I remember being completely convinced that crushed blue glass I found in freshly hauled-in gravel simply HAD to be rare jewels.

Yet another time I remember thinking that the sparkling crystals in a chunk of rock were gold and I was going to be rich, rich rich...rich enough to afford the science set in the "Sears" catalog that I had been coveting.

Cindy, who works here at the office, recalls discovering a small limestone cave on her dad's ranch in Oklahoma. She was absolutely positive that it was Jesse James' hideout.

At another time she "invented" the world's best cleanser, and was going to market it for a fortune.

Naturally, it was made from abrasive cleaner, a popular brand, a popular brand of dishwashing liquid, bleach and various other ready-made, store-bought things.

Others recall thinking they could see germs without a microscope (dust particles in a shaft of sunlight), or having telepathic powers.

It's all a part of the learning process of childhood.

It's part of the desire to achieve something special, to gain recognition, and, most of all, it's a part of imagination.

The more imagination a child has, the more things "discovered". It's a wonderful thing, a special portion of childhood...and sadly, it ends up curtailed and clipped by knowledge and adulthood.

Still, we'd all be poorer people without the experience...and it's fun to share it with a child!

## Rivercrest School Board Approves Ball Program

The Rivercrest School Board met Tuesday night at Rivercrest. The board approved the minutes from the previous meeting and approved the budget changes, tax report and adjustments.

A bid on asbestos abatement was accepted. The work will be done this summer on the Rivercrest and Bogata campuses at a cost of \$296,425.00.

May 6 will be the School Board election and the first date to sign up is

determined to be February 20.

The board announced credit hours for board members and agreed to put up several items for sealed bids. These items will be run in the paper at a later date.

The board also approved a girl softball program. The teams will be from Rivercrest, Chisum, Sulphur Springs, Rains and Mt. Vernon.

The boys baseball program had previously been approved by the Board.

Principals contracts at Bogata, Talco and Rivercrest were extended until 1991 and the athletic director's contract was extended until 1991. The counselor's contract was extended for one year.

The next meeting will be March 7 at 7 p.m. at Rivercrest High School.

THE CHILI SUPPER at Rivercrest High School, sponsored by the Booster Club, was very suc-

cessful. Billy Jack Thompson of Sugar Hill won the Valentine

cake which was donated by Nancy Brown. (Staff Photo)

**What Is Farm Bureau?**

Farm Bureau through the years has become a voice for most of the producers in agriculture. More than four out of five farmers and ranchers are members of the Farm Bureau.

It is an independent organization of farm and ranch families who united to analyze their problems and act together to solve those problems. Farm Bureau is totally controlled by its members through majority decision and is financed by voluntary dues.

The Texas Farm Bureau has 326,167 member families in 216 organized counties. It is affiliated with the American Farm Bureau Federation which has a membership of 3.7 million member families in more than 2,800 counties.

Policies that guide Farm Bureau originate at the grass-roots level with each producer-member given an opportunity to participate. They are adopted after discussion and exchange of ideas at county, state and national conventions each year.

The structure assures membership control. Members originate policies, and through their delegates, control state and national policy formulation, and election of officers and directors.

Members get action on policies by expressing their desires to their

elected political representatives. Legislative staffs in Austin and Washington, DC keep lawmakers informed on Farm Bureau's policy, and call for membership action when necessary.

What is Farm Bureau? Here are some of the major accomplishments:

- Exemption for livestock, poultry and farm machinery from ad valorem taxation.

- Limitation on ad valorem taxes on agricultural land.

- A farm-to-market road system in Texas that is best in the nation.

- Exemptions from state sales tax for machinery, feed, seed and fertilizer.

- Refund of both state and federal taxes on farm-used gasoline.

- Reform of inheritance and gift tax laws.

- Improved feed, seed, fertilizer and insecticide laws.

- Better animal health programs to help reduce losses from brucellosis, hog cholera and screw worms.

- Price support programs designed to assist in orderly marketing of crops.

- State and federal funds for agricultural research and education.

- Alleviation of some burdensome regulations on health, safety and environmental standards.

**Roundball Roundup**

By Gary House

As the 1988-89 basketball campaign draws to a close, the Varsity teams of Rivercrest High School saw action on three nights last week.

Varsity Girls: The Rebelettes wrote the closing chapter of their basketball saga last week, with a win sandwiched between two losses. The ladies from Johtown finished with a season mark of 14-12, and a 6-6 District 17-AA standing. A cold second quarter in which the Rebelettes scored only one field goal and seven total points marred an otherwise good overall performance, as they fell to Wolfe City by the score of 66-60.

The distaff Rebs overcame an eight point fourth quarter deficit with balanced play to take a 54-43 advantage with 3:54 left to play, but could not hold onto it. Rosie Norman paced the Rebelettes with 19 points, while Amy Gladden had one of her better games with 15 points.

Two nights later, the Rebelettes returned to the friendly confines of Rivercrest to face a Cooper Bulldogette team which had embarrassed them earlier in the season. But this time, the Rebelettes, playing what may have been their best total game of the whole season, averaged that defeat with a 61-59 win over Cooper. After the Rebelettes went ahead 7-2 in the first period, they took a short nap, not scoring in the final half of the period. But senior Rosie Norman got a wake up call in the second quarter, to score 12 points, half of her leading 25 on the night. Teammate Amy Gladden added 10 more in that frame, as the duo accounted for the team's total second quarter point production by playing the inside-outside game, to take a 29-26 halftime lead.

Cooper edged ahead 53-47 with three minutes left to play. Norman then scored five of her 22 fourth quarter points, and when Tonya Hawkins made a steal and hit both ends of a one and one, the Rebelettes had reduced the lead to a single point, 54-53 with 1:30 left to play. Seven second slater, Krista Weatherall connected on a pair of charity tosses, the Rebelettes were 17 of 27 from the line, which gave the gals the lead for good. Hawkins hit her fourth consecutive free throw with six seconds left to ice the game. The entire Rebelette squad contributed to this win, as Coach Wake Wood substituted freely.

Besides Norman's 25 points and Gladden's 14, Kristie Stansell and

Krista Weatherall had eight each, and Tonya Hawkins had six. Angie Kay provided relief at the post, while D'Ann Stephenson, Jerilyn Russell and Kristi Brooks helped the Rebelettes make 13 steals from the Cooper gals.

The season finale for the Rebelettes came against the seventh ranked team in TABC basketball, the Honey Grove Lady Warriors, who came to Johtown with a 24-2 and 11-0 district record. Thi game closed the high school career of two Rebelette seniors, Rosie Norman and Julie Stewart.

The Rebelettes stayed close in the first half as they threatened to upset the highly touted warrior squad. But the third quarter spelled disaster for the Rebelettes as they failed to score a single point and ended the period trailing 38-24. No Rebelette scored in double digits in this one, as Rosie Norman and Amy Gladden had only eight each.

The final score was 52-36 in favor of Honey Grove. But the shot of the year for the Rebelettes came on the final buzzer of the season, when junior guard Tonya Hawkins hurled a shot from the opponent's free throw line, a distance of 75 feet, which found the net at the Rebelette goal and brought cheers from both sides of the large crowd.

The Rebelettes can look forward to next year when they field a veteran team, since they lose only a lone starter from this year; in addition, they will boast a strong bench which has gained valuable playing time this year. The Rebelettes are to be commended for their entertaining play, their consistent hustle and their overcoming of adversity during the year. Varsity Boys: Last week was a difficult one for the Rebs as they suffered three consecutive losses in District 17AA play. Each loss was due to an outstanding individual effort from a member of the opponent's team. The Rebs, although not out of the play-off picture, due to the balance of the league, must win their two games this week to finish 7-5, and depend upon a little help from the other teams. There is a possibility that four teams, Cooper, Wolfe City, Chisum and the Rebs could end up with five losses, forcing a play-off tournament for the runner-up spot, since Honey Groe has first place clinched.

Last week, the Rebs were forced to play three games in four nights due

to bad weather the previous week. On Tuesday, the Rebs made the long trek to Wolfe City, whee a 39-point effort by Wolfe City strongman Ron Wortham, coupled with rotten officiating, that's not sour grapes, just plain fact, led to a 89-54 defeat for the Rebs. Bradley Woods scored 11 of his team-leading 18 points in the first period to keep the Rebs close. But after forging to a comfortable third quarter lead, Wolfe City was able to quell any Rebel comeback; Wortham stilled any Rebel momentum with his three point efforts, of which seven found the mark.

Complimenting the Rebel scoring was the 11 point each of Jeremy Abshier and Jimmy Lewis.

Against the Cooper Bulldogs it was the same song, second verse. The muscle bound Bulldog squad, led by junio Byron Morris so controlled the boards that the Rebs were consistently limited to only one shot per trip. In-the meantime, Morris lit up the scoreboard for 29 points as Cooper defeated the Rebs in a make up game 77-68. The first quarter of this game emerged as a shoot out between Morris and Rebel senior Bradley Woods. Morris scored the first 14 Cooper points, going seven for nine, but Woods countered with 15 of his team leading 26 points in the period. The other Rebs in double digits in the game were Jimmy Lewis, 14; Galen Logan, 11 and Scooter Brown 10 as the Rebs shot 36% for the contest. In the second half, Cooper steadily increased its lead, forcin the Rebs to play catch up.

The Honey Grove Warriors, a team which has already clinched first place in District 17AA, now with a 10-1 record, (27-2 overall), brought a well-rested unit to Johtown Friday night, since they had coaxed a forfeit from their Thursday night opponent, while the Rebs had to play. Although the Rebs were weary, they played well, but the difference in the game was Homer Garner, a nemesis to the Rebs for three years. The league's MVP was unstoppable as he scored 31 points to lead his Warrior team to a 67-50 win. Bradley Woods and Branch could hit for only ten each, and effects of three games in four days showed.

The Junior Varsity girls, consisting primarily of freshmen, played their finale against Honey Grove, losing for their only defeat to a junior varsity unit this season. They closed their season at 17-5.

### Retirees Can Avoid Estimated Tax Payments

Many retirees have tax withheld from their pension and annuity payments. This may free them from having to make estimated tax payments, the Internal Revenue Service said. By having the payer adjust the amount of tax withheld from payments or distributions, a retiree can avoid having to make estimated payments during the year. If the retiree chooses to be exempt from withholding (have no income tax withheld), he or she may be required to make estimated tax payments on those distributions. The payer can instruct the retiree on how to make either election.

Tax withheld from periodic pension or annuity payments is based on marital status and the number of withholding allowances claimed on the withholding certificate Form W-4P, "Withholding Certificate for Pension or Annuity Payments," or a similar form provided by the payer. If a retiree does not give the payer a withholding certificate, the tax withheld will be determined by treating the retiree as a married person claiming three withholding allowances. If not enough tax is withheld, a retiree could be penalized for underwithholding.

If a retiree chooses not to have federal tax withheld, he or she should be careful that enough taxes are being paid and/or withheld on all sources of taxable income. A worksheet to help figure estimated tax is included on IRS Form 1040-ES, "Estimated Tax for Individuals."

Part of social security and equivalent railroad retirement benefits may be taxable, even though income tax is not withheld from these benefits. Retirees may need to make estimated tax payments or have more tax withheld from their other income, if they have such income. Generally, social security recipients may have to pay tax on part of their benefits if their total income for 1989, including tax-exempt interest and one-half of their social security or equivalent railroad retirement benefits, is more than:

- (1) \$32,000 if they are married and will file a joint return;
- (2) Zero, if they are married, file separate returns, and did not live apart from their spouses for the entire year; or
- (3) \$25,000 in all other circumstances.

Should a retiree be charged a penalty for underpayment of estimated taxes, there are provisions under which the penalty may be waived, such as casualty, disaster, or other unusual circumstances.

More information on estimated taxes can be obtained in the free Publication 505, "Tax Withholding and Estimated Tax." Forms and publications are available by using the order blank in the tax return package or by calling 1-800-424-3676.

## Valentine Banquet Held At Red River Haven Nursing Home

About 100 persons attended the annual Valentine Banquet held at Red River Haven Nursing Home Monday night, February 13. Musical selections were played by Becky White as residents, family and friends gathered in the chapel.

Tables were covered with white cloths and centered with red streamers, vases of red roses and white cradles in red heart-shaped holders. A red and white floral arrangement accented the head table. Each place was marked by a foil wrapped chocolate heart and a nut cup filled with heart-shaped mints. Each resident wore a red cut-out heart emblem.

A Valentine King and Queen were elected by the residents. The nominees were introduced by Family Council President Peggy Strain. They were Velma Brown, Lutie Fox, Ruth Harrison, Mac King, Beula Rodam, Iva Williams and Willie Wimer for queen. Stanley Bell, Howard Cooper, Oscar Elliott, George Estill,

Nappie Payne, Elzie Sales and George White for king. King George Estill and Queen Beulah Rodam were crowned by the 1988 King and Queen James Hancock and Jessie Hunter.

Crown bearers were Megan Horn, daughter of Mr. and Mrs. David Horn of Johntown and Cody Stanley, son of Mr. and Mrs. Charles Stanley of Avery. Alice Ann White sang "Love Me Tender" and "Let Me Call You Sweetheart."

Following the presentation, the invocation was given by Glen White. A meal of baked ham, potato salad, green peas, apple rings, hot rolls, strawberry cake, iced tea and coffee were served.

Arrangements for the banquet were made by members of the Family Council, which meets quarterly. The next council meeting will be held in the dining room at 9:30 a.m. on Wednesday, April 12. All family members are invited to attend.

## NE Texas FFA Convention Set For February 21

The Northeast Texas Future Farmers of America will hold their 42nd Annual Area VI FFA Convention in Tyler Junior College Auditorium on Tuesday, February 21. The convention will begin at 5:30 p.m. with Jeff Rash, Area VI FFA President from the Gilmer FFA Chapter presiding.

Approximately 1,000 Future Farmers, parents, vocational agriculture teachers and guests are expected to attend the meeting. The program will feature such FFA activities as parliamentary procedure, area and state officer election, presentation of National Foundation Awards and FFA talent contests.

One of the highlights of the day's events will be the selection and coronation of the Northeast Texas Future Farmer Sweetheart. There will be eight contestants competing. Two girls have been selected from each of the four FFA districts. The area selection will be made by voting delegates from the various FFA chapters attending the convention.

The Northeast Texas Future Farmers have repeatedly won top honors in both state and national FFA activities. The approaching convention will give the representative from the local chapter an opportunity to compete for the various awards and offices as a stepping stone toward state honors.

## School Counts

It is that critical time again when we need to ask all students to attend school every day. This is the second School Attendance Counting Period provided by the State of Texas. The Texas Legislature enacted a law in 1984 basing the Average Daily Attendance on the best four of eight weeks of student attendance. There were four weeks of counting in October, 1988 and now the spring counting is here. The spring attendance accounting period starts February 20 and will continue through March 24. During this time, Talco-Bogata schools will have their spring break, March 13-17. Since the spring break splits the counting period, parents are asked to try to schedule trips so your child will not miss a day of school.

Students should be in school since research clearly reveals that low and failing grades are directly related to school non-attendance. Drop-outs and potential drop-outs exhibit a poorer attendance record than their classmates who continue and graduate from public school. Other studies show that school attendance influences the rate of juvenile delinquency and job performance in later life.

A system of public schools is the cornerstone of a free society and educating is an art. The public schools in Texas belong to the citizens of the state. Talco-Bogata schools have outstanding students and supportive parents. Second, they have talented, caring teachers and administrators who are dedicated to educating all the young citizens. Third, this community has elected members to the

Board of Trustees who are recognized for their concern and leadership.

As a result of the cooperative efforts of these individuals, Talco-Bogata students are learning and achieving at a high plateau. Creative teaching is the norm in the Talco-Bogata schools. Talco-Bogata is unique in that it attracts quality applicants. When teachers are hired, their capabilities to teach the course are looked at, but also the type of relationship they might have with the students, whether they will be child or student oriented, and whether they have a real desire to be in the teaching profession. In Talco-Bogata schools, all students are winners and teachers know beyond a shadow of a doubt that they are making a difference in the lives of the children they touch.

From a financial standpoint, approximately \$3,432 per child will be spent during this school year. The State of Texas assists the district by allotting \$1,742 per child. This does not mean the school enrollment can be multiplied by that amount to arrive at allotted funding. It means the \$1,742 per child is paid according to the Average Daily Attendance. This \$1,742 allotted for each child averages \$87.10 per day per child during this critical 20 day counting period. This means each day a child is absent during the counting period, the Talco-Bogata I.S.D. will lose \$87.10. If attendance is low, this cost will ultimately be reflected back to the taxpayer or less school programs.

# Scudder Turning Dream Into Reality

By Jeff Morrison

When Scott Scudder was just a kid, he often dreamed of playing major-league baseball, as do many young boys. But unlike most of the youngsters, whose dreams never come true, Scott has a chance to turn his dream into reality.

Scott, a 1986 graduate of Prairiland High School, will report to the Cincinnati Reds' spring training camp in Plant City, Florida, February 18 with hopes of making the major-league roster.

At Prairiland, Scott played quarterback on the football team that posted the best record in school history. He was also the leading scorer of the basketball team. But it was on the pitcher's mound that he gained most of the attention.

The Blossom native was selected in the first round, the 16th pick overall, of the 1986 major-league draft, and has spent the last three years pitching in the Reds' minor-league system.

Scott knows that making the major-league squad will be a difficult task and says he will not be disappointed if the Reds assign him to their Class AAA team in Nashville.

"I'll be up there with the major-league team during spring training, but I don't know for how long," Scott said. "Probably the only way I'll stay will be if there's an injury to someone."

"But they said that at the end of the year when they expand their roster, I'll have a good chance of being called up."

A team carries 25 players on its major-league roster during the year, but at the end of the minor-league season can expand its roster to a maximum of 40 players. Usually a team brings up only six or seven players from its farm system instead of the allowed 15.

Scott spent his first minor-league season with the Billings (Mont.) Mustangs, the Reds' rookie-league team. In 1987, he pitched for the class A Cedar Rapids (Iowa) Reds.

Last season, Scott began the year in Cedar Rapids but was moved up to the class AA Chattanooga (Tenn.) Lookouts midway through the season.

The hard-throwing right-hander

had a 7-3 record at Cedar Rapids and posted a perfect 8-0 mark after being promoted to Chattanooga. His earned run average in 1988 was 2.93.

The Lookouts won the 1988 Southern League Championship. In his only playoff outing, Scott pitched Chattanooga to a 2-1 victory over the Memphis Chicks, a Kansas City Royals farm team.

Winning is not something new to Scott. At Prairiland, the lanky hurler helped the Patriots to a 30-1 record and a class 3A state championship his senior year.

Scott finished the year with an unblemished 19-0 record and struck out more than 200 batters. To show that he was not a one-dimensional player, Scott played first base when he was not pitching. On the offensive side, he posted a .398 batting average.

During the 1986 season, the Patriots had quite a following. Not only did Patriot faithful fill the stands at the Prairiland baseball field, but at times there were as many as 25 scouts, both college and professional, who lined the chain-link fence with notepads and radar guns.

Scott's father, Bill, who is the head coach at Prairiland, said that the 1986 season was quite an experience, and it would have been easy for Scott and the rest of the team to have gotten distracted by all of the hoopla.

"I was usually so wrapped up in the game that it was more exciting than nerve-wracking," Bill said. "I don't remember saying much before the games...just to play hard and don't worry."

Tony Duncan, a teammate of Scott's at Prairiland, remembers that Scott was very intense before each outing.

"Before the games, the rest of the team would be cutting up and joking around, but Scott always had his game face on...especially on days that he was pitching. You could tell how serious he was about winning," Duncan said.

Scott said his life has not changed a great deal since signing with Cincinnati, and he has learned that he must stay relaxed if he wants to succeed in the big leagues.

"Really the biggest change is just the fact of getting out and having a

place of my own," he said. "You've got to be laid back and relaxed. Since the team plays every night, you can't afford to be uptight."

Scott is generally away from Blossom from February through September, but he always comes home to the quiet and relaxed atmosphere. "It's a welcome to come home and not be traveling and all," he said. "I kind of look forward to coming back and just relaxing and not doing anything at all."

Those who have known him most of his life will say that Scott has not let success go to his head. He still enjoys the simple things in life, the things that are found in Blossom.

Scudder enjoys a hamburger at the local cafe with his grandmothers, Robbie Nell Scudder and Rosella Carter. He will quickly join in a pickup game of basketball, one of which can always be found, and he still enjoys a good fishing hole.

"He's still the same old Scott," Tony Duncan said. "You can tell that he has matured a lot by being out on his own most of the time. But he still acts the same and likes to do the same old thing she used to do."

However, Scott said that some people tend to treat him differently and to shy away at times.

"Some people treat me different, but they are the ones I really don't know well," he said. "I guess they think I won't talk to them or something. But the people that I know and the ones who know me treat me the same as they always have...they should, I'm not any different."

The people in Blossom may treat him the same, but opposing batters are learning that Scott is no ordinary pitcher.

Scudder said that the biggest thrill of his young career was a no-hitter he threw against the Wausau (Wis.) Mariners last season. Scudder threw two no-hitters while at Prairiland, both during his junior year.

It is only fitting that Scudder's brightest memory is of a no-hitter, since the pitcher he admires the most, Nolan Ryan, holds the major-league record with five no-hitters.

Ryan, who formally played with the Houston Astros of the National League, the same league as the Reds,

recently signed with the Texas Rangers of the American League, ending the possibility that Scott might square off against his hero. The only possibility now will be if they meet in the World Series.

"At one time, the Reds were talking about signing Nolan. We were really hoping that would happen and Scott would have a chance to play on the same team with him," Bill, who played college baseball at the University of Alabama, said.

Both Scott and Ryan rely on the fastball. Ryan holds the record for the fastest baseball ever measured at 100.9 mph. At age 20, Scott has been clocked at about 95 mph.

"One thing about Scott is that he has always been loose and flexible, that's good for a pitcher," Bill said. "But his ability to throw is just a gift from God. God blessed him with that."

Just as Ryan has left memories in major league baseball, Scott has left many memories around Blossom--the no-hitters, the pro scouts, the state championship--but the event that Tony Duncan remembers most happened during Scott's junior year at Prairiland.

We were playing Paul Pewitt; Scott was coming around third and Bill was pushing him toward home plate," Duncan recalled. "Scott turned around to go back to third base and he and Bill got tangled up."

"Both of them were rolling around on the ground...everyone on the bench was cracking up."

When and if Scott makes it in the big leagues, one thing is certain, there will always be a home instinct calling him back to East Texas.

"If I make it in the pro's, I'll probably live somewhere around Blossom," Scott said. "I'll come back here to the small-town life."

THEN and now....Scott Scudder, around age 10, playing for the Blossom Lions Little League...

and Scott now, as he appears on a Cincinnati Reds Baseball Card at Cedar Rapids.

**WHAT A NERVE**  
Some people experience a stabbing, burning pain and cramps, especially around the third and fourth toes, that is not relieved with massage. That is because this type of pain, which often moves toward the toes, is not a result of a muscle problem. Most probably, it is the result of a neuroma. This refers to thickened nerve tissue which develops as a response to constant pressure on the nerve. Most often, the site of this problem is the front of the foot. It is here that too-narrow shoes restrict the forefoot from spreading as a person walks. The resultant constriction and pressure causes nerves and bursas (fluid capsules in joint areas) to scar and thicken. In turn, they push against bones to produce pain. This condition should be attended to by the podiatrist. Restrictive fashionable shoes often lead to more trouble than compliments.

This has been presented as a public service to promote a better awareness of the benefits of podiatry by the office of MAX R. WEINBERG, D.P.M., P.C.
