

Nichols  
Worth

By Nanalee Nichols

Last Wednesday, when the presses were broken and our usually hectic schedule had gone beyond retrieval into the ludicrous, we wandered out to an antique store...not to buy anything, just looking while we killed the extra two hours in Paris we were faced with.

And while the rain roared down, I found myself swept back into childhood by the antique pictures that were for sale.

Still in their original frames, these prints, never expensive new, were bringing some pretty fancy prices. But as I looked at each one, it brought back memories of darkened hallways, lace curtains blowing gently at opened windows and elderly ladies exchanging gossip and lengthy tales!

For as a child I was taken with my grandmother to visit her many friends.

Not being interested in the gossip, I turned in boredom to the pictures on the walls, and studied them in every detail.

At least one of these prints could be found in those parlors with their stiff furniture and cold fireplaces. Many homes held the same pictures.

They must have been made by the millions, for they could be found throughout the nation in "old-fashioned" homes.

Annie G. Anderson had a print of the "End of the Trail", the classic Indian and his dejected horse, crowded out of existence. So did a distant relative at Bogata, whose name I can't recall.

Then there was the collie dog howling over a newborn lamb in a freezing snowstorm. I can't recall which lady had that one, but know it always worried me as a child. Was the lamb dead, and the dog howling in dismay? Or was he trying to get someone to come and help it? At any rate, that cold and snowy scene was melancholy and disturbing to me.

The little girl and boy crossing a bridge, guarded by a watching angel and the small girl listening to a bird singing were two more familiar examples.

The one that was always my favorite was on hand too, the wolf, standing on a hillcrest looking down at the lights of a small town. Was he hungry? Was he lonely? Or was he on the verge of extinction from civilization?

Those pictures were maudlin in the extreme by today's standards...but the sight of them recalled the scent of lemon on iced tea glasses, and the chatter of ladies who are long gone.

It's been a long time since I sat on a stool at my grandmother's feet, looking at those inexpensive, common prints.

But it was a clear as day when those antique-store pictures jogged my memory.

## Area Weather Produces Hail, Tornados, Heavy Rains

Rain, high winds, tornados and hail have characterized the past month's weather, leaving behind serious damage. And, according to weather reports, it isn't over yet!

Last Wednesday night high water resulted throughout the area from heavy rains, and a hail storm devastated the crops in the Cunningham, Taylortown area. Large hail there left fields looking like a shredder had run over them. Gardens, roofs and cars also suffered damage. Cotton plants about a foot tall were completely stripped of foliage. From Taylortown to Talco trees were uprooted and metal buildings stripped of sheet metal. Milo crops large enough to be in the boot stage looked as if a giant had twisted and torn the foliage away, leaving them totally destroyed.

Some farmers were in the process of applying fertilizer to the milo, which added to their financial loss. Cotton crops destroyed will have to be replanted in cotton because those in which certain herbicides had been

applied cannot be used for other crops, the chemicals not being compatible with anything but cotton. Generally, most farmers had put their major expenses into the ground, and that is now lost.

In Talco residents could only watch as a small tornado passed over their main street, but, fortunately, never touched down. 3 and 3/4 inches of rain fell in about one half an hour. Mt. Pleasant was not so lucky, suffering severe damage from twisters and high winds.

But the most wide-spread problem has been the rain. Construction workers, farmers and others in weather-affected jobs have been forced to watch as more and more rain fell. Although excellent for pastures, and, basically, crops, damage to roads and bridges have resulted from the unusually heavy downpours. Hay baling has been a "hit or miss" situation, with very little hay being put up that hasn't been rained on. Plow-

ing, gardening and other seasonal chores are behind.

To date there has been nearly as much rain in 1989 as there was throughout 1988.

In January of this year there were only 10 rainy days, with a total of 3.81 inches. February had 13 rainy days with 5.61 inches. March had 12 rainy days for a total of 5.16, and April was dry with 8 rainy days but a total of only 1.22.

Then, in May there were 13 rainy days and a total of 11.66 inches. In June, as of the 12th, there had been 10 rainy days and 7.20 inches of rain, with more still falling.

This adds up to 89 wet days and 34.66 inches of rain for the year!

Whether the rains will continue this pattern into the traditionally hot, dry months of July and August remains to be seen.

Meanwhile, the weather continues to remain a topic of conversation and a subject of concern.

## English Language Is Confusing To Children

By Mollie Williams

Have you ever stopped to think how confusing it must be for children just beginning to speak and understand the English language?

We are told that even for adults, the English language is one of the hardest languages to master, because of the use of words which are pronounced the same, but with different meanings. Just think about many of the phrases and slang words commonly used around many households.

It's a miracle that our youngsters ever learn which words go where. I was made aware of all these things recently as I was told the response of a three-year old to a visiting great aunt, who was concerned about who's eyes the child had inherited.

Instead of using the word inherited, the great aunt of the child asked, "Who's eyes does Kyla have?" The child then listened as those present discussed whether she had "gotten" her daddy's eyes or her mothers.

Finally, with much apprehension, Kyla proclaimed to them all, "My daddy has his eyes and my mama has her eyes and I got my eyes." Upon hearing of this event, I couldn't help but believe that in the child's mind she thought she was being accused of taking something that didn't belong to her and was trying desperately to set the record straight.

Many times we take for granted that children understand things we say, when in fact, they comprehend an entirely different meaning. For instance, my mother remembers that as a child in church she misunderstood the words, "It was the cross, the cross, I knew" and sang "It was the cross, the cross-eyed mule". I was near my teens before I realized I was singing Amazing Grace wrong. The correct words were "Amazing grace, how sweet the sound, that saved a wretch like me." All those years I'd been singing "That saved a witch like me". (A lot of folks probably thought my version of the song suited me best.)

The latest episode of this nature happened recently on the third birthday of Kyla Harville. She was given a five dollar bill by her aunt and uncle as a gift. The child's mother suggested she "put" the money on a cowboy hat for the rodeo that's coming up. Looking very perplexed, Kyla informed her mother that she didn't think the five dollar bill would look very good stuck on her cowboy hat.

The next time you converse with a small child, be careful to speak in terms the child can understand and then take the time to listen to their reply.

from Texas-New Mexico Power Company gives you budgeting convenience at no extra cost. The plan lets you average the highs and lows in your electric bill so that you pay about the same each month, regardless of the weather.

### Girls Softball Results

The Rookies girls, 10-12, met the Diamond Gems of Mt. Pleasant on June 6 on Edwards Field in Mt. Pleasant.

Pitchers Michelle Savage, Shaunda Jones and Jennie Bond performed well on the mound for the Rookie team. Home runs were hit by Jennie Bond and Michelle Savage. Girls getting three base hits were Julie Nolan, Michelle Savage and Jennie Bond. Tawala Padgett was left on base each time after being up to bat three times and on base three times. The Rookies won 19-11.

The Rookie team met the Mt. Pleasant Queens on Friday night. Dominant best describes the Rookies in this game. Every girl scored, a home run was hit by Jennie Bond, three base hits were made by Julie Nolan, Amanda Savage, Tawala Padgett, Michelle Savage and Natasha Goolsbee. The Rookies won 23-8. The Rookies returned to play their

final game in Mt. Pleasant against the Panthers on June 12. Again the Rookies showed their stuff, winning 19-0. Pitcher Jennie Bond struck out six batters and only walked two. Outstanding fielding and hitting made the game a breeze. The girls will finish the league year in second place and will go on to district play in July.

The Amateurs girls softball team, age 6-9, met the Hot Stuff team from Mt. Pleasant June 10. Pitcher Tanna Simpson struck out seven batters but with bases loaded and two outs, the girls couldn't pull the game out. They lost 6-5. Erin Stansell led the Amateurs with scores for the day.

Three games were supposed to be played Saturday by the Amateurs but the girls only got one. Chicken pox put them behind five games and Mt. Pleasant league president Sue Johnson said that due to league time limit these games will not be played.

*Card of Thanks*

We want to express our gratitude to the people of Talco and the surrounding area for the Talco Volunteer Fire Department and EMS benefit. We appreciate everyone who worked hard organizing the event and all those who made donations. The fund raiser made it possible for us to improve our radio equipment which is vital during fire and medical calls. We would also like to thank the musicians for an evening of outstanding entertainment. We are very proud to serve such a caring and supportive community.

Officers and Members of Talco Volunteer Fire Dept. and EMS
