Christmas cards are among a few of "my favorite things" and are a delight to many people.

What else can turn the daily trip to the mail box from a routine experience to a mini-adventure?

That's what Christmas cards can do for people.

Opening the mailbox, whether it's with a key at the post office or in a box at the end of the drive, one is greeted with the bright flash of blue or red or green envelopes, bearing return addresses seldom seen.

It's fun to sort those out from the regular bills and everyday things, to chunk the flyers and junk mail into the trash and then take time to savor the Christmas cards.

Each one will be different, dressed with those cheerful little animals, jolly santa's or appropriate nativity scenes.

Brightly colored, they say a lot about the sender's personalities as well as the Christmas season.

Within there may be a message, hastily scribbled or lovingly thought out, written in pen or pencil, in addition to the printed message.

Those messages vary from poetic to comic, but they all have one thing going for them...they are intended to convey affection, happiness and good wishes from the sender.

Then the names can be deciphered, whether hand written or stamped.

It's a rare person who doesn't feel a little flash of warmth and joy that they have been remembered by others during this special time of the year.

Of course, we like to advocate our Christmas greetings in the newspaper too...and reserve our Christmas cards that we send out for those far away or who we want to take time for a "special" remembrance to.

Either way, it's a time to express how we feel about people.

And every day, as we go to the post office, no matter what town it's in, we find people exclaiming over a message from a friend out of state, or showing someone a pretty colored card.

It's part of the Christmas season, and one that almost without fail makes a routine like checking for mail into a more pleasurable experience!

P.S. I don't often "tout" this type of thing...but if anyone has the chance to go to Marshall, Texas to see the light displays there...it's worth the drive! The historic courthouse, the new courthouse, the entire square is a delight of small white lights and specially created scenes, and well worth the time it takes to go.

State Comptroller Says Sales Tax Payments Reach \$125 Million

State Comptroller Bob Bullock said Friday that tax payments to Texas cities reached \$125 million this month, up more than 5% from last November's payments and over 9% higher than last year's total at this time. Checks to counties were up a healthy 7% over last November's payments.

"The economy is looking up for merchants in Texas and that means another good month for local governments," Bullock said.

Today's checks reflect local sales taxes collected in September by businesses that file monthly tax returns and taxes collected in July, August and September by businesses that file quarterly returns.

Businesses collect the state and local sales tax and sent it to the Comptroller's office along with their

tax returns. The state keeps its 6% share and returns the local sales taxes to local governments.

Cities and counties may levy a combined tax of up to 2%, Bullock said.

Locally, Blossom received \$3,363.87 for this period, a 2.41% decrease over the payment of \$6,500.96 in 1988.

Depoort received \$3,087.59 for this period, marking a 16.94% increase over last year's payment.

Paris received \$267,477.50 for a 4.81% increase.

Bogata received \$5,396.80 for a 13.55% increase of last year's payment of \$4,282.40 while Clarksville received \$25,556.98 for a 2.86% decrease.

Detroit received \$1,835.38 for a

23.33% decrease.

Mt. Pleasant received \$128,647.96, showing a 10.46% increase.

Talco received \$2,684.77 for an 8.42% decrease over last year's payment of \$2,706.88.

Houston received a check for \$22.6 million, which is 8% more than last November's payment. Dallas received the second largest payment at \$13.9 million, up 10% over last year's.

This month's payments to counties totaled \$11 million, compared to \$10.2 million last November. Bullock noted that the total payments to counties in 1989 show an increase of 43%. He explained that much of the increase is because 10 more counties started collecting tax in January of this year and another one started in April.

You can stop energy efficiency from going up in smoke

A fireplace can add to the beauty of your home, but it can also add to your heating cost. To prevent this heating energy from being wasted, remember to close the damper tightly to keep warm air from being pulled up the chimney when the fireplace is not in use.

A glass screen and a circulating system are other ways you can prevent energy waste.

For more ways to save energy with more common sense than dollars and cents, call or visit your local TNP office today.

Apple Topping:
3/4 cup low-fat margarine
2 teaspoons ground cinnamon
16 packets Equal® tabletop sweetener, sweetened with NutraSweet®
1/4 teaspoon maple flavoring
1/4 cup frozen concentrated apple juice beverage with NutraSweet® brand sweetener, thawed
4 cups 1/2-inch apple slices (2 to 4 medium)

Cake:
1 package rapid rise yeast
3/4 cup warm water (105 to 115°F)
8 packets Equal® tabletop sweetener, sweetened with NutraSweet®
1/4 cup shortening
1 egg
1/2 teaspoon salt
2 1/4 cups cake flour
3/4 cup raisins
1/2 cup chopped nuts

Method:
Begin with apple topping. Place margarine in small bowl.
Microwave uncovered on Medium-HI (70%) until melted, 45 to 60 seconds. Stir in cinnamon, Equal®, maple flavoring and apple juice beverage; pour into 2 microwave tube pans. Overlap apple slices on margarine-Equal mixture.
Dissolve yeast in warm water in 3 1/2 quart bowl. Add Equal, shortening, egg, salt and 1 1/4 cups cake flour. Beat 2 minutes on medium speed, scraping bowl frequently. Stir in remaining flour, raisins and nuts; continue stirring until smooth. Drop batter by tablespoon onto Apple Topping in 2 tube pans, spread evenly. Cover with waxed paper and microwave on Low (10%) 3 minutes. Let stand, covered, until dough has doubled in size.
Microwave uncovered on Medium-Low (30%) 8 to 10 minutes, until top springs back when touched lightly. Let cool 10 minutes on heatproof surface (do not use rack). Invert dish on serving plate; leave dish over cake a few minutes.

Beat-The-Clock Meals For Working Mothers

Working moms will love these hearty one-dish dinners that whip up in a jiffy. Both recipes call for convenient, nutritious Wispride sharp cheddar cold pack cheese spread and a few staples. Add a green salad to round out a wholesome meal.

Here's a recipe that takes 20 minutes to prepare and 40 minutes to bake.

Quick Beef And Pasta Bake (shown in photo)

- 1 pound lean ground beef
- 1/2 cup chopped onion
- 2 cups tomato juice
- 1-1/2 cups (4 oz.) uncooked rotini
- 1/2 teaspoon each basil, garlic powder, oregano and salt
- 1/4 teaspoon pepper
- 1 cup (8 oz.) Wispride sharp cheddar cold pack cheese spread

Saute beef and onion until meat is browned and onion is tender. Discard any fat. Stir in tomato juice and bring to a boil. Stir in remaining ingredients except cheese. Turn into a 1-1/2 quart baking dish. Cover and bake at 350°F for 25 to 30 minutes, until pasta is tender. Dot evenly with cheese and bake 10 minutes longer, or until cheese is melted. Garnish with fresh basil or oregano, if desired. Makes 4 to 6 servings.

Andrews-Wing Rodeo Bulls Shine At Las Vegas, NFR

From December 2 through December 10, Red River County was represented at the most prestigious rodeo event of the year, the National Finals Rodeo held at the Thomas and Mack Arena in Las Vegas, Nevada.

The Andrews-Wing Rodeo Company, co-owned by Sammy Andrews of Addielou and Jerald Smith of Bogata were chosen to send six bulls that would be in competition during the 10 go-rounds of competition at the NFR.

Of the six bulls that were drawn in

the competition, only one bull was qualified on, #557, Copenhagen Lolly, by Jim Sharp of Kermit, TX, and he scored 81 points to win third in that, the first, go-round. Sharp ended up splitting the average in the bull riding at the NFR with Tuff Hedeman of Bowie, TX.

Texas Twister, #10 was drawn to the final go-round of competition that was televised live on December 10, and Charles Sampson, former World Champion Bull Rider from California, failed to qualify on him.

Other NFR competitors that drew into the Andrews-Wing herd during the course of the NFR were Joe Wimberly (twice), and Marty Starnart (who was leading the average until the seventh go-round when he drew into the herd).

Bulls featured were #10, Texas Twister; #H53, Dark Alley; #557, Copenhagen Lolly; #70, Hard Twist; #183, Rickey and #98.

Sammy and Carolyn Andrews accompanied the herd to Las Vegas.

Wanda Vickers Honored At Retirement Party

Wanda Vickers was honored with a retirement party at the Talco State Bank on Tuesday, December 12. Mrs. Vickers has lived in Talco since 1945 and she graduated from Talco High School in 1949. She began working for the Talco School System in 1950 as a secretary and later became the school's tax assessor.

In January, 1966, Mrs. Vickers started her banking career as a book-keeper. She later was made secretary and served in that capacity until she was made Assistant Cashier 14 years ago.

Upon her retirement, effective last Tuesday, Mrs. Vickers says she plans to relax and babysit for her grandson.

Two out of three American women go on weight-reducing diets each year, but many of those diets are bound to fail, according to registered dietitian Audrey Blumenfeld. "Too many people choose diets that just don't work for long-term weight control," she says. "These diets are often restrictive, expensive, difficult to follow, have limited menus, or deprive dieters of their favorite foods. Many are actually unhealthy."

Blumenfeld

Caution: Some Diets May Hurt More Than Help

While some of these diets may be effective for a short time, they are hard to maintain for long. "When these 'quick fixes' don't work, dieters go back to old eating habits and regain weight," says Blumenfeld. "Since they gain back proportionately more fat than muscle, it's even harder for them to lose weight in the future." Dieters should be aware of diets such as:

SKIPPING MEALS: Some people simply cut certain foods out of their diets, or decide to skip meals such as breakfast or lunch. But avoiding needed foods can put you at risk of nutrient deficiency, says Blumenfeld. She cautions against skipping lunch or breakfast, since calories consumed earlier in the day are more easily burned off than those eaten at night, which are more

likely to be stored as fat.

She recommends that dieters try "grazing"—eating five or six small meals throughout the day, so they don't become ravenously hungry between meals. It also eliminates "eating by the clock" at predetermined times, so it helps break the cycle of routine eating.

SMOKING: Despite overwhelming evidence of the harmful effects of nicotine, some individuals (particularly women) actually start smoking because of its ability to control weight. And at least one-third of all smokers continue to smoke because they fear gaining weight.

Researchers at Memphis State University conducted clinical tests among women who had smoked for an average of 13 years and averaged 22.5 cigarettes a day. They found that chewing gum with PPA helped minimize weight gain during the critical first two weeks of smoking cessation: 53 percent of those using Stay Trim Gum lost weight, compared to only seven percent of those who did not use the gum.

FASTING: Fasting is a popular but dangerous dieting method. "Unsupervised fasting can lead to a loss of body fluids and electrolytes, vitamin deficiencies, even a loss of lean body tissue," says Blumenfeld. "It can change the body's chemical balance and cause serious problems." To prevent starvation, the body lowers its metabolic rate to conserve energy (calories). As a result, dieters may eat less food but still be unable to lose weight—and may even gain weight.

FOOD COMBINATIONS: "Beware of bizarre diet regimens in which you eat only one food, or those that require you to eat certain foods at specific times of the day," says Blumenfeld. "Diets that restrict the types of food you can eat, such as low carbohydrate/high protein regimens, may have drawbacks, too." For example, high protein diets may be high in fat and cholesterol, and can cause unpleasant side effects—nausea, dizziness, even hypoglycemia.

A more realistic approach to dieting is to incorporate a variety of tasty, healthy foods into a balanced meal plan.

"The real secret to losing weight and keeping it off is to change your lifestyle," says Blumenfeld. Her "can't-fail" recipe for successful dieting: eat healthier foods, consume less calories and exercise more.

FRESHMAN REBELS for this year are, left to right, first row: Michael Dodd, Clifton Joplin, Jeremy Belyeu, Cody Guest,

Jeffery Marris and Brandon Williams. Back row: Coach Eddie Barker, Jonathan Savage, Tony Sanders, Reggie Alford,

Social Security Notes

By Ray Hudson, District Manager
Paris Social Security Office

Pre-Retirement Planning....Pre-retirement planning is an idea whose time has come. With people living and remaining healthier longer than ever, social planners as well as counselors are emphasizing the need to plan for the later years.

Social Security plays a major role in the retirement income of most people, and it should play a major role in retirement planning. People need to know such information as how much they can expect from Social Security, what family benefits are provided and how Social Security relates to other sources of retirement income.

It's especially a good idea to call Social Security when one gets involved in formal retirement planning on a group level. We have a number of informational services available that can help. These include films, slides, charts, leaflets, posters and speakers.

While most of the informational materials cover the various aspects of Social Security, Supplemental Security

Income, and Medicare, we also have materials that give tips on retirement planning. Social Security also takes part in pre-retirement seminars.

Pre-retirement seminars are designed to provide one-stop shopping to people who are thinking about retirement. It brings together experts in health planning, insurance, investments, housing, budgeting, taxes, estate planning and any other subject important to a man or woman considering retirement. While the recent trend has been toward younger and younger people, generally the pre-retirement seminar is aimed at people 55 and over. The older the audience, the more immediate the need for the information, of course. But younger people have more time to act on the information and, thus, may find it even more useful in the long run.

It's a good idea to call well ahead of the date you plan your pre-retirement activity to insure that the informational materials will be available at that date.
