I'm going to take a moment to explain a few questions to readers. These questions are the ones most commonly asked by people we come in contact with. I'm sure there are more questions about why and what we do...if so, please, drop us a line or give us a call and we promise to answer your questions!

The MOST frequently asked question is why it costs more to send a paper outside of Titus, Lamar or Red River County.

That is directly due to the postage rates we must pay to mail papers. Although a 25¢ stamp will send a letter anywhere in the nation, it's not that way with second class mailing. Where the paper is going to, if it is bundled with six or more to the same zip code and many other regulations have a bearing on what it costs to mail papers.

It is much, much higher to mail a paper out of the county in which there is an office than to mail it within that county. Also, the heavier a paper is the more it costs to mail.

We rolled and threw the papers a few weeks ago just to sample copy everyone we could. Sample copy is when we give people free papers, whether they subscribe or not.

The second question concerns why we have had an increase in price. Well, that's just like anything else now-days. Our costs have gone up, way up, and we have to increase our prices to keep up with our bills.

Our cost of printing, our postage prices, and salaries, our phone bills, electric bills, they just keep going up. We still think that less than 20¢ per week is mighty reasonable, though!

Another question concerns why some news articles appear and some events go without coverage. There is only one reason for that. If we don't know about something...we can't print it.

Although we try hard to keep on top of things, we can't read minds or know everything in an area that is going on. Therefore, we need help. All it takes is a phone call or a brief message to let us know about a special youth meeting, an upcoming fundraiser or just who visited!

We have never intentionally left out a news item that we received yet!

Some weeks we have to leave out a picture or two, then run them the next week.

That's because we have to have a little over 50% advertising to do anything more than break even on our publications.

In straight talk that means that we just cannot add two pages to the paper in order to cram everything in if the ads aren't there to support it. Adding two pages costs big money when it comes to paying for our printing job, more money when it comes to mailing.

Subscriptions pay more mailing, but very little more! All the other bills must be paid for advertising.

Sometimes we can't find people to cover things like junior high school basketball. There is no way that we can attend the dozens and dozens of sports events that take place at our schools. We depend on the good people who help out by donating a little of their time to write up stories.

We pay for coverage of major games, but that's about all we can. An average football season costs us about \$600!

These are a few of the questions that we are asked. We hope this explains why we do some things the way we do. If you have other questions...hey, just give us a call, drop us a line or yell at us across the street!

Winter Wonderland? No, Winter Nightmare! Below Zero Temps Freeze Pipes, Cause Havoc

It was a record cold. The mercury plunged to an all-time low of 4 below zero. Some thermometers registered 6 below, some 2, but the official opinion opted for the 4.

Accompanied by blaring winds that drove the windchill factor to about 40 below, it was weather such as this area seldom sees.

People struggled into heavy layers of clothing, tried hard to keep drafts sealed out and huddled as close to the fire as possible. Those with animals to feed were kept busy, and Christmas shopping became difficult as breath froze on scarves and coat collars!

The arctic cold front brought no moisture with it, and already dry ground proved poor insulation for

underground pipes.

Along with a lack of warmth, frozen water lines proved the biggest discomfort, with few businesses or households escaping without water to a least one portion or another of structures freezing up.

There were combinations of totally frozen all over the house, partially frozen, hot water frozen, or only cold water frozen.

But that was by far the least worry of all.

The real headache occurred when the weather began to warm up! That's when the pipes began to burst.

Major water lines in towns occurred, causing water departments to shut off water while they tried to

repair the lines. Digging in frozen ground certainly was an unpleasant and difficult task.

Sensor equipment to water towers froze up, and that further complicated the water department's jobs during the cold spell.

Leaks in walls, under foundations, out in yards and anywhere else that water pipes burst kept homeowners and plumbers busy Christmas day and the days after as they endeavored to put right what cold weather had put wrong!

With typical Texas aplomb old man winter then proceeded to turn his back for a while, leaving an area in the grip of a sunny warm spell that was not unwelcome after the bitter temperatures.

Last Week To Get Papers On Sale You May Win Cash In Drawing When You Renew!

If Christmas giving is over, give a thought to subscribing to the Blossom Times, Bogata News, Deport Times or Talco Times for yourself!

Yes, now is the time to renew your paper and save \$2.

Until January 1st, 1990 the papers are on sale for \$10 for one year in Red River, Titus and Lamar Counties.

That means a full year of news, local happenings, local pictures and

local advertising for less than 20 cents per week.

And, in addition, subscribing before the sale goes off automatically enters you in a drawing to win cash prizes of \$50, \$30 or \$20!

So don't delay, renew today!

THE DECADE IS HERE OF THE '90S

We would like to wish all our readers and contributors the very best of holiday greetings and the most Happy New Year.

We are grateful for your patronage in the past and look forward to another year of friendship.

TALCO SCHOOL children under the direction of Mrs. Neva Oats, performed a Christmas skit and carols Wednesday. At

the close of the program, Mrs. Oats expressed appreciation to the Talco PTO for the new speakers they replaced after the

old ones were stolen from the school back in the summer. (Staff Photo by Nancy Brown)

THE RESULT of an afternoon fire destroyed many acres on Christmas day in Jolntown. With area fire departments fighting to save homes and keep

the fire from reaching Rivercrest School, their efforts could not keep the water house from being destroyed. (Staff Photo by Keye Lee)

Burning Can Be Expensive!

Burning trash, dumping ashes or causing a fire by carelessness has resulted in thousands of acres burning off this winter. A number of homes, barns and other structures have been destroyed, and the cost of fighting these fires has to be covered some way, whether by taxes, donations or fund raisers.

Since many people still aren't paying attention, it has been pointed out that these fires might even be expensive to those who set them.

There is a state law that people who cause damage to other's property through carelessly setting fires can have a civil suit brought against them for damages!

It is estimated that 75% of these fires could be avoided!

Trash build up, especially with Christmas wrappings and boxes, is certainly a problem. But with the dry conditions currently prevailing, one tiny spark is all it takes to create a raging grass fire whipping in front of high winds.

Many people just don't realize how easy these fires are to start right now. They think they are taking proper precautions by watching their trash until it dies down some. But one gust of wind and a floating spark is all it takes to set a fire that can hours to bring under control.

Volunteer fire departments have gone out almost daily for over a month...many times they have gone out as much as 4 or 5 times a day.

Please, until there is a change in the dry conditions, don't burn. It is expensive to someone, somewhere...and could cost someone everything they own!

Extremely Dry Conditions Create Fire Hazards, Damage Plants

With one of the worst winter droughts on record occurring right now, fire conditions could not get much worse. Local volunteer fire departments answer multiple calls daily to grass fires, woods fires or even house fires.

The bitter cold has resulted in leaching all moisture from grass and brush, and the slightest spark sets off flames whipped by high winds.

In spite of repeated warnings, people continue to burn trash, a major cause of these grass fires.

While winter drought is, of course,

less serious to agriculture than summer drought, it's still a problem.

Another drought-related problem is damage to shrubs, plants and bulbs.

Without the usual winter moisture many plantings will be dead by spring. It is advisable, experts say, to water trees, shrubs and flower beds with perennials or bulbs in order to save them.

Winter wheat is suffering from the severe shortage of moisture, and stock ponds are steadily getting lower.

It can only be hoped that rain will come soon to relieve this problem.

More News In 1990...That's Our Goal, But We Need Your Help!

We keep trying to obtain more news for our newspapers. That means we need our reader's help.

It only takes a moment to call in a visitor, or let your local paper know about fund raisers, bake sales or community church services or reviv-

als. We want news, we need news, and our readers want and need information too.

So please, make a New Year's Resolution to take a moment of time and let us know what's happening!

Deport Nursing Home Admission Policy
 It is the policy of the Deport Nursing Home to employ and admit and to treat all patients, without regard to race, color or national origin. The same requirements for admission are applied to all, and patients are assigned within the nursing home without regard to race, color or national origin. There is no distinction in eligibility for, or in the manner of providing, any patient service provided by or through the nursing home. All facilities of the nursing home are available without distinction to all patients and visitors, regardless of race, color, or national origin. All persons and organizations that have occasion to refer patients for admission or recommend are advised to do so without regard to the patient's race, color or national origin.
