When I was a teenager I used to wear a little button that proclaimed "There are no answers, only questions". And, for me at least, that seems to be the way of things. I love questions, they pop in to my mind at the oddest times. Some are serious, some not so

For instance, on a light note: if cats always land on their feet, and bread always lands butter-side down...what happens if you butter your bread and then strap it to the of your cat?

Hmm...interesting thought, eh? If they ship those little styrofoam cur-ques we use for packing...what do they pack it in? If someone says "yuck...this tastes bad". How come they always want YOU to turn around and taste it?

If you are eating out and find a hair in your food...how come they invariable ask "do you want some

On a more serious note: If Saddam Hussein had the fourth largest army in the world...who just moved up into fourth place?

By the way, We had number 1, the Russians number 2...who was in place number 3?

And another thought about that...who does the counting?

What do those nasty white grub things that you dig up in the flower bed turn in to? Do they spend their whole Life looking like that?

How do cows leave behind deposits" larger than the amount

of food they take in? Why is it when you are searching madly on the floor for, something (say a dropped contact lense), does someone always come up to you and say,

"Have you lost something"? How come they always advertise products as "New and improved"? Does this mean they weren't worth a flip to begin with?

On the same note...how come they have these little dotted lines and it says "pull here for easy opening"....and a gorilla couldn't get into it?

Do businesses closed for holidays get a kick watching customers bounce off their front doors? How come IRS gets more of your money than you do?

The list of questions is endless. Give it a thought and I'll bet you can come up with some little gems of your own to ponder!

COMMUNITY NATIONAL BANK

214-674-4355 - Detroit, Texas - MEMBER F.D.I.C.

Steve and his wife Carolyn lived in Dallas back in the late 1970's, and Steve worked a four day a week job.

On break one day a couple of his co-workers remarked that they needed pallets for a business they had going "on the side". They were also complaining about the price of pallets.

Steve boasted that he bet he could build a better pallet for less money...even though he hadn't built a pallet before in his entire life.

The weekend businessmen challenged him to make good on his boast and ordered a pickup load.

Steve, a native of Cunningham, felt that his honor was at stake and headed for home (Cunningham) on his three day weekend to build those guys a pickup load of better, cheaper pallets.

He had to borrow a nail gun, get the materials he needed, and then built a load of pallets, hauling them back to Dallas at the beginning of the work week.

Steve actually thought that would be the end of it. He says he felt relieved that he had made a little extra cash out of the deal and made good on

However, by the next weekend, he had received another order for more of the wooden pallets.

As he continued the orders became larger, and more of them began to

Weekends turned into a demanding job, leaving Steve with no time for his hobby (hot rods). In fact, Steve said the shop he used to soup up his Chevrolets became a small factory for pallet building.

In 1979 the Ladds decided that there just might be a market out there for his pallets and proceeded to find out. Soon he had quit his Dallas job, moved to Pattonville, built a house and a pallet factory and put up a sign naming the business Pyramid

The factory has expanded in the last twelve years to a modern structure with four employees. They build thousands of pallets for several large companies that ship products world-

Steve is continually innovating and upgrading his business.

He has a fork lift that has replaced a small Ford Tractor with a loader.

"We're sending more than \$229 million in local sales tax revenue back to local government today, money that they can use to better serve the consumers who paid the money in the first place," State Comptroller John Sharp said today.

Statewide, monthly checks to city and county governments totaled \$81.9 million, 6.2% more than last March's checks. Quarterly payments to mass transit authorities added up to \$146.9 million, a 5.6% increase over the \$139 million forwarded to them last year at this time.

"While the state's economy continues to grow at a faster rate than the U.S. economy, Texas is feeling the slowing effect of the national recession," Sharp said. "That's why statewide sales tax allocations this month increased moderately.

Blossom received \$1,085.59 for this period, an increase of 32.92% over last year's payment of \$616.52. Deport received no payment this

period for a 14.47% decrease over last year's total payments to date. Paris received \$140,126.86 for a .10% decrease.

Bogata received \$1,374.17 for this period, for a 14.03% increase over total payments for the same period

last year. Clarksville received \$11,591.29 for a 1.57% increase while Detroit received no payment for this period.

Pleasant areceived \$151,3512.00 for a 26.78% increase over last year's payment of \$78,248.37.

Talco received \$1,070.12 for a 9.31% decrease over last year's payment of \$1,385.28.

Houston received \$12.6 million, the largest payment in the state. Dallas received the second largest payment, \$7.2 million. San Antonio's check for \$4.2 million was the third largest in the state and Austin followed with \$3.8 million.

Voters of 105 of Texas' 254 counties have approved collection of the 1/2 percent county sales tax, while voters in Uvalde County have approved an additional 1/2 percent tax for county health services. Last March, only 100 counties collected sales tax.

GTE-Contel Merger In Telecommunications Closing

GTE and Contel today announced Foster also announced that the 40 the closing of their \$6.6 billion merger, the largest in telecommunications history. The merged company becomes the largest and most geographically diverse U.S.-based local telephone company.

According to Kent B. Foster, president of GTE Telephone Operations, some integration plans will be implemented in the very near future and others will occur over the next two

The most critical element of the merger planning process was to ensure that customers of both GTE and Contel continue to enjoy excellent telephone service during this transition. Also, great effort has been taken to minimuze any changes in the way customers interact with the combined company.

states where GTE now operates following the merger will be divided into four operating areas, west, north, south and central, and 18 regions. The Central Area is in Irving, which will also continue to be thesite of GTE Telephone Operations' national headquarters. Announcements on senio management positions for the headquarters staff and four operating areas will be made within the next

GTE Telephone Operations is the largest of GTE's three business groups and, with the addition of the Contel properties, now provides service to mor ethan 18 million access lines in 40 states and two foreign countries. GTE Telephone Operations has 115,000 employees and had revenues of \$15.1 billion in 1990.

Chili Cookoff Promis American Viewpoints Bigger, Better Than

Cookoff Is shaping up nicely, with lots of entries, food and fun.

Those who attended the first annual Deport Prairiland Chili Cookoff and Jackpot Bean Cookoff know just how uch fun it was.

March 29 and 30 will be the date for the second annual event.

The Deport Fire Department will have their stew supper Friday night beginning at 5:00 p.m. Tickets are for sale from fire department members for \$5, or at the door. Donations will earn the chance to win a beautiful special edition Coleman stove. This stove was donated by Coleman Company, and is being specialy painted by Wendall and Jo Rankin who produce "Bell Bottom Chili". When not cooking chili Wendall "moonlights" as a professional sign painter in the Dallas-Ft. Worth Metroplex!. He is putting the Prairiland Chili Cookoff plow logo on the stove and it is truly beautiful.

Adams Spice Company has donated a large amount of chili powder. The trophies are almost finished, and will be plow points (with a different de-

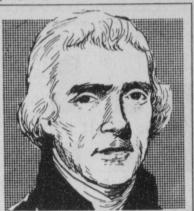

The Second Annual Chili sign from last year) or specially made chili bowls.

> The number of auctions items donated is steadily increasing. This year's auction really promises to be something!

> The stew supper will precede the auction, and there will be door prizes given away at the stew supper.

Saturday morning there will be all-day fun and games. Target shooting, dunking booths and arts, crafts and bake sales will provide some of the fun. There are a number of people due with their crafts and teeshirts and carvings. Booths are still available at \$15. Contact Nanalee Nichols at 632-5823 or 632-4205 to reserve a space. Concessions will be sold this year by the Legion or Fire Department. There will be smoked brisket and soft drinks. Those wishing to hold bake sales this year are welcome. However, food items sold from these booths should be limited to sweets or take-home items (no beans, chili, snadwiches or drinks)

Fifteen dollars will enter anyone in the chili cookoff, \$5 into the Jackpot Bean cookoff. For Entries or in-

with youngsters competing for eggs, prizes and fun. Youngsters under the age of 12 are invited to this event.

The fire department has it's new truck this year, but the American Legion (who sponsors the Chili Cookoff) wants to stress that there are still a number of things that need funding. ALL funds raised will go to the Deport American Legion Post Charities.

Social Security Notes

By Ray Hudson, District Mgr. January has always seemed to me to be a serious time of the year. Maybe it's the winter landscape or the long hours of darkness that put me in a serious mood. Probably it's just thinking about my income taxes that does

Certainly W-2 forms deserve sober thinking. All those tax entries, Federal taxes, state taxes and what's this one, Social Security taxes? Enough already.

Well, I won't try to explain any of your other taxes, but I can help you understand what your Social Security taxes do for you.

Today, you're working and paying Social security taxes. But tomorrow may be a different story. Some people plan for their retirement, but not very many of us give enough thought to what would happen if we become

disabled. Or what would happen to our family if we should die.

That's why it's important for you to know that your Social Security taxes are paying for a lot more than just retirement benefits. In fact, you could think of your Social security taxes a sa premium on a potentially valuable

insurance plan. Besides retirement, Social Security also pays Medicare, survivors benefits and disability

You can get details with a Personal Earnings and Benefit Estimate Statement from Social Security. It will provide an estimate of what you've paid in. Your statement will have a year-by-year breakout of your earnings under Social Security, and you will also get estimates of the Social Security benefits due you or your

To get your personal statement, call your local Social Security office and ask for Form 7004. You will need to complete the form and mail it back. In a few weeks, you will have your own statement. From it, you'll be able to get a good picture of what part Social Security will play in your fi-nancial future. Remember, this is a free service.

I can't promise that you'll learn to like paying Social Security taxes, but I think you'll mind paying them a bit less. That's doing some serious

In past years, parents
could shift some of their income to
their children, and that income would
be taxed at lower rates if the children
were in lower tax brackets than the
parents. But, alas, the IRS caught on
and the passage of the "kiddie tax"
cutailed the practice of transferring cutailed the practice of transferring income-producing assets to utilize the children's lower brackets. If a child's investment income in 1991 exceeds \$1,1000, the excess will be taxed at the parent's highest tax rate.
Your child must file a 1990 tax return if his total income (earned and unearned) is more than \$500. If your child has only earned income (wages), he or she will not have to file if wages did not exceed \$3,250. These amounts increase to \$550 and \$3,400 for 1991. Of course, a return should be filed if a refund is due the child.

Fabulous Flowers Can Be Found In Texas

Wildflowers get thousands of Texans and tourists on the road each spring, looking for the most spectacular stands of bluebonnets, phlox, coreopsis, and many more varieties. To help in this search, the highway department's Wildflower Reporting Service starts its fifth year on March

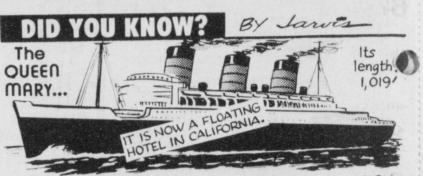

Weekly, workers in all 24 highway districts note stands of blooming flowers and, via computer, share the information with other highway department offices. Wildflower seekers can call department headquarters in Austin, one

of the 11 Texas Travel Information Centers, or the nearest district office and get directions to the best places to see flowers.

The program is one way the department tries to make driving a more pleasant experience for Texas travelers. Through vegetation management, landscaping and propagation of na-

tive plants, highway department experts cooperate with nature to prevent erosion, minimize highway hypnosis, and keep Texas highways some of the most beautiful in the
