

Calendar

Water plans

The City of Haskell invites all Haskell residents to come to an informational meeting to hear the plan developed by the City of Haskell and the North Central Texas Municipal Water Authority for an alternate water source during this drought and future water shortage times. This special meeting of the Haskell City Council will be Thurs., June 19 at 6:00 p.m. at Haskell City Hall. NCTMWA Executive Director, David Kuehler will give the presentation and other city staff will also be available for comments.

Food distribution

The Haskell County Ministerial Alliance Food Distribution Center will distribute food Sat., June 21 from 10 a.m. til 11:30 a.m. at 206 S. 2nd (building east of Civic Center) in Haskell. Volunteers and boxes are needed.

Food distribution

The Haskell County Ministerial Alliance Food Distribution Center will distribute food Sat., June 21 from 9:30 a.m. til 11 a.m. at the First Baptist Church in Rule. Volunteers are welcome.

Men's breakfast

A men's free breakfast will be held Sun., June 22 at 8 a.m. at the Haskell High School cafeteria. All men in the community are invited.

VBS set

Cornerstone Fellowship Baptist Church, 1600 N. First (Hwy. 380W) of Haskell will host Vacation Bible School June 22-26 (Sunday through Thursday) from 6:30 p.m. to 9 p.m. each evening. The theme is "Shine" and will feature music, Bible studies, crafts, refreshments and Bucket Drums. The VBS is for all children 5 years old through those who just completed sixth grade. Thursday is family night. Pre-register your child online at www.cornerstonehaskell.org or by calling the church at 940-864-5557.

Mud Run

Celebrate the end of summer by having some fun in the mud. Plan now to run in the Mud Out Crime Mud Run, Sat., Aug. 9 at Stamford Marina on the south side of Lake Stamford. Sponsored by Clear Fork Crime Stoppers, the run will offer a choice of 5K or 3K courses. Register now at active.com. Reduced entry fees for early registration and for entering a team of 3 or more. Runners and walkers of all ages and abilities welcome. Come out, have a good time, and help support a good cause. All proceeds go to efforts to make our communities safer.

Summer lunches

Haskell CISD will sponsor the Summer Food Service program. Meals will be served at Haskell Elementary School cafeteria, 306 S. Ave. G, from 11:30 a.m. to 1 p.m. Monday through Friday through July 24. No meals will be served June 30-July 4. Anyone ages one year through 18 years of age may eat free. Adults are also invited to eat for the price of \$3.25 per plate.

Legacy Banquet honors top HHS graduates

by Caron Yates

And on the 8th day, God looked down on his planned paradise and said, "I need a caretaker." So God made a teacher.

There are diseases to cure, mountains to climb, novels to pen, cities to build and problems to solve. I need someone to inspire the next Einstein, Emerson, Jobs or Gates." So God made a teacher.

God said, "I need someone to teach my little ones of Golden Rules and Silver Linings. I need someone with Job's patience, Solomon's wisdom, David's courage and Erma Bombeck's sense of humor." So God made a teacher.

God said, "I need somebody to get up early come rain or shine, stand all day in a classroom, grade papers, miss supper and go keep gate at the home basketball game." So God made a teacher.

"I need someone to bury the turtle, water the radishes, feed the fish, keep the secrets, restore the friendships and mend the broken hearts. I need someone with eyes in the back of his head who believes only half of what he hears of home and repeats none of it. I need someone who will loan a jacket for prom or money for a yearbook and expect nothing in return." So God made a teacher.

Finally, God said, "I need someone to shepherd the fragile dreams and fragile hearts of youth." So God made a teacher.

Master of Ceremonies and former foundation board member Susan Turner, shared these words as she welcomed parents, grandparents, teachers, students, board members and business men and women to the eighth annual Legacy Banquet, hosted by the Haskell CISD Educational Foundation. Written by Turner and patterned after Paul Harvey's "So God Made a Farmer," the words seem to sum up the mission of the Foundation, that is recognizing the importance of teachers and the influence and impact they can have on our children.

The Legacy Banquet, held in memory of founding

LEGACY BANQUET HONOREES—Seniors Glover, Jill Druessedow, Emily Fouts, Aaron Waggoner, Randy Waggoner, Madison Homeyer, Kendra Bevel, Zachary Tatum and Keith Medford.

board member Roberta High, honors Haskell High School's top graduating seniors and the teachers they have chosen as most influencing their school years.

In 1996, citizens of Haskell County chartered the Haskell CISD Educational Foundation, a monument to scholastic excellence and innovation. Since its beginning, the foundation has awarded over \$30,000 to Haskell CISD classrooms through its mini-grants, presented scholarships to graduating seniors each year and celebrated the accomplishments of graduates and teachers through the banquet. This banquet is made possible through the generous support of the community, both individuals and businesses, as well as support from the school district personnel and administration.

After recognizing school administrators, school board members, mini-grant recipients and foundation board members, the invocation was given by Haskell Superintendent Bill Alcorn. Entertainment was provided by Haskell Elementary fifth graders, as they presented "Pirates, the Musical." Directed by music teacher Pam Gibson, and assisted by teachers Jennifer Roewe, Kristi Gibson and Tammy Wallace, the group

TOP STUDENTS—2014 Legacy students are, I-r, Meghan Glover, Emily Fouts, Aaron Waggoner, Madison Homeyer and Zachary Tatum. They were recognized at the Educational Foundation's Legacy Banquet.

sang about sailing the sea of life with ambition and hard work.

After a meal catered by Modern Way and professionally served by twelve Haskell Junior High eighth graders, the 2014 Legacy students were recognized for their many accomplishments and activities, and were presented with a certificate for a laptop computer.

Students then paid tribute to a special teacher they felt had made a difference in their lives. Through entertaining narratives, each senior told of the positive influence their selected mentor has had in their school experiences.

Emily Fouts, daughter of Mike and Kris Fouts, honored journalism teacher Jill Druessedow; Meghan Glover, daughter of Chad and Melissa Glover, recognized the influence of agricultural science teacher Kenny Cockerell; Madison Homeyer, daughter of Carl and Sheila Homeyer, paid tribute to math teacher and UIL coach Kendra Bevel; Zachary Tatum, son of Chris and Melissa Tatum, conveyed his appreciation to history teacher Keith Medford; and Aaron Waggoner, son of Randy and Donna Waggoner, honored his science teacher dad.

The Educational

Foundation is proud to honor outstanding student achievement and outstanding educators. The success of the Foundation is only possible through the continued donations of community members, alumni and others who care about the Haskell CISD school system, its teachers and its students. Anyone can contribute to the cause through monetary donations in memory or in honor of an individual, or by purchasing bricks in memory or honor of someone. Donations may be sent to Haskell CISD Educational Foundation, P.O. Box 305, Haskell, TX 79521.

Maidens named to All-Big Country Softball teams

Two Haskell Maidens earned additional recognition when they were named to the All-Big Country Softball Team.

Senior pitcher/first baseman Madison Homeyer

was listed as a part of the bullpen. A left-hander with a deadly change-up, she was winning pitcher in 20 games, with only five losses this season.

Working 107 innings, she

finished with a 2.60 ERA and allowed only 93 hits while striking out 142 batters. She was also dangerous at the plate, posting a .439 average with seven doubles, three triples and two homers.

In addition to being named the Co-Most Valuable Player for the district, she was named to the All-State 1A team by the Texas Girls Coaches Association.

Junior shortstop Jacie Klose was chosen for the All-Big Country Honorable Mention team as an infielder.

Batting #2 in the lineup this season, she averaged .462, had an on base percentage of .564, with twenty-two stolen

bases. Her fielding percentage was .887.

Earlier, Klose was named Offensive Player of the Year

for District 4, 1A.

Congratulations to these Haskell Maidens on their well deserved recognition.

MADISON HOMEYER

JACIE KLOSE

Millers Creek to be closed through June 20

David Kuehler, executive director of the North Central Texas Municipal Water Authority, announced that Millers Creek Reservoir will be closed June 16-20.

The board voted to close the lake the third week of June this year, and every year in the future, to enable maintenance work to be done, without endangering lake goers.

The dam, emergency spillway and other areas around the lake will be sprayed to control trees. Because the spraying will be accomplished by airplane, it is necessary to close and allow no traffic in or around the lake.

Your cooperation in this matter is greatly appreciated.

Storm sirens to be tested on Fridays

The City of Haskell will test the storm sirens at 11:30 a.m. on Fridays, weather permitting.

Obituaries

Woodrow 'Woody' Frazier

WOODY FRAZIER

Funeral services for Woodrow 'Woody' Frazier, 93, were held Sat., June 14 at First Presbyterian Church in Haskell. Interment was in Pleasant Valley Cemetery under the direction of Smith Family Funeral Homes.

Mr. Frazier passed away Thurs., June 12 at Haskell

Healthcare Center in Haskell.

Born Sept. 21, 1920 in Haskell, he was the son of Ola (Bevers) and Julian A. Frazier. He married Nellie Kate Derr in Haskell April 3, 1938. He was a lifelong member of the Haskell First Presbyterian Church. He owned and operated Woody's School Store from 1942 to 1979. He was the Haskell County Clerk and managed Dairy Queen. He was also a member of the Haskell Masonic Lodge and had a love for gardening in his greenhouse.

In addition to his wife Nellie Frazier, he was preceded by his parents; an infant son; two brothers, Byron and Julian; four sisters, twins Ollie and Ola, Mary, and Marcell; and special friend, Billy Hardin.

Surviving to cherish his memory is his daughter, Joan Frazier of Haskell; grandchildren, Amanda Tekell and husband Ronnie of Bullard, Brandy Huckabee and husband Randy of Haskell, J.L. Strickland and Jennifer of Amarillo; great grandchildren, Emily and Justin Tekell, Laken, Madison, Briar and Hunter Strickland, Rachelle Eldridge, Koby Huckabee; great great grandchild, Harley Eldridge; and numerous nieces and nephews, cousins and friends.

If desired, memorials may be given in Woody Frazier's name to Haskell VFD or your favorite charity.

Online condolences may be shared with the family at www.smithfamilyfh.com.

PD. NOTICE

Weldon Skiles

31 at Haskell Healthcare Center in Haskell.

Weldon and his twin brother, Willard, were born Sept. 18, 1933, in Caney, Oklahoma to Zelma (Samples) and Ulrich Skiles. He attended Weinert schools and entered the U.S. Army on July 21, 1954. PFC Skiles served at Andrews Air Force Base in Maryland and was honorably discharged June 22, 1956. Five days later, on June 27, 1956, he married Estelle Jenkins in Forestville, Maryland.

Weldon and Estelle soon moved back to Knox City where Weldon and his twin brother owned and operated Skiles Brothers Service Station. He enjoyed fishing and golfing and coaching baseball. Weldon was known for his famous red beans that he loved to share with his family while spending time together. He was a wonderful man that will be missed not only by his family, but many

wonderful friends.

He was preceded in death by his parents, Ulrich and Zelma Skiles; brothers, Lester Roy Skiles and Harold Skiles; and his twin brother, Willard.

Survivors include his wife of 57 years, Estelle of Knox City; two sons, Donny Skiles and wife Sharla of Haskell, and Greg Skiles of Fort Worth; daughter, Rhonda Thane and friend, John Slovensky of Odessa; granddaughter, Kimberly Skiles of Abilene; grandsons, Aaron Skiles of Haskell and Jeremy Conway of Knox City; and great granddaughter, Alexis Skiles of Abilene; his three sisters, Joyce Harmon of Hurst, Peggy Flores of Cisco, and Linda Freiman and husband Ron of Baird; two brothers, Jimmy Skiles and wife Judy of Potosi and Larry Skiles and wife Amy of Cisco; sister-in-law, Bettye Skiles of Knox City; and numerous nieces and nephews.

PD. NOTICE

WELDON SKILES

Funeral services for Weldon Skiles, 80, longtime resident of Knox City, were held Tues., June 3 at First Baptist Church in Knox City with Jimmy Rogers and Ronnie Lambert officiating. Burial was in Knox City Cemetery under the direction of Smith Family Funeral Homes.

Mr. Skiles passed away late Saturday evening, May

John Ray Hayley

JOHN HAYLEY

Memorial services for John Ray Hayley, 61, of Rochester were held Sat., June 14 at First Baptist

Church in Rochester with Rev. Bishop Helsley and Dr. Troy Culpepper officiating. Services were under the direction of Smith Family Funeral Homes.

Mr. Hayley passed away Tues., June 10 at Knox County Hospital in Knox City.

Born Feb. 12, 1953, in Seymour, he was the son of Sue (Jenkins) and Glenn Hayley. He married Karen (April) Hayley Oct. 1993 in Deer Park. He was a retired United States Air Force SSGT. John belonged

to the First Baptist Church in Rochester.

He was preceded in death by his parents and sister, Mary Kay Hayley.

Survivors include his wife, Karen Hayley; brother, Wesley Glenn Hayley; two sisters, Mylana Hayley Frontz and Mylinda Hayley McGee; daughter, Donene Kay Hayley; son, Darth John Hayley; and numerous nieces and nephews.

Online condolences may be shared with the family at www.smithfamilyfh.com.

PD. NOTICE

John L. Greeson

JOHN GREESON

Funeral services for John L. Greeson, 78, of Rule were held Wed., June 18 at the Rule school auditorium with David Hall officiating. Burial was at Rule Cemetery under the direction of Smith Family Funeral Homes.

Mr. Greeson passed away Sat., June 14 at Hendrick Health System in Abilene.

Born Nov. 18, 1935 in Cordell, Oklahoma, he was the son of Ethel (Duncan) and Emerson Greeson and grew up in Hydro, Oklahoma. He married Orheana (Jones) Aug. 31, 1956 in Fort Worth and then moved to Rule in October of 1965. John was a devoted disciple of our Lord and a minister; he preached at Midway, Oklahoma, Maysville, Oklahoma, Ackerly, Ropesville and then Rule. He directed sessions for 30 years at Quartz Mountain Christian Camp, he was involved with Pettijohn Springs Christian Camp Golden Agers Retreat, and helped with prison ministry. He was a member of Rotary Club, worked with Little League and a Cub Scout Den Leader. He loved people and sports.

He was preceded in death by his parents.

Surviving to cherish his memory are his wife, Orheana of Rule; two daughters, Vicki Hoffman and husband Don of Midland and Leigh Ann Greeson of Stamford; one son, Leon Greeson of Plano; one brother, Tom Greeson and wife Jan of Bentonville, Arkansas; one sister, Nancy Wright and husband Millard of Copper Canyon; six grandchildren, Shiela McCaffrey, C.W. Porter, Paige Switzer, Dave Putnam, Lacey Greeson and Abigail Hoffman; seven great grandchildren; and numerous nieces and nephews.

Memorials may be given to The Children's Home of Lubbock, 4404 Idalou Rd., Lubbock, Texas 79403.

Online condolences may be shared with the family at www.smithfamilyfh.com.

PD. NOTICE

This Week's Devotional Message:

Brighten your life with the Golden Rule

Do unto others, the Bible has said.
As you'd have others do unto you;
And if you will follow this passage you've read.
You will find it is certainly true
That in business, your home life or simply with friends.
It is easier getting along
If you'll never be forced into making amends,
Just because you have done someone wrong.
So to learn more about this unending advice
That will frequently serve as a warning.
You should go to your church, where it's only the price
Of an hour on next Sunday morning.

PIRATES—Haskell Elementary fifth graders performed 'Pirates, The Musical,' to a full house at the 2014 Legacy Banquet. It was directed by music teacher Pam Gibson.

Food Manager course set July 21-22 in Abilene

by Jane Rowan
CEA/FCS, Taylor Co.

Statistics indicate that foodborne illness continues to be a health issue in the United States. Each year, 1 in 6 Americans will become sick, 128,000 will become hospitalized, and 3,000 will die due to a foodborne illness.

If under the Texas Department of State Health Services (DSHS) jurisdiction each food establishment is required to have one certified food manager on site.

Texas A&M AgriLife Extension Service, Taylor County, is offering a professional food manager certification training course. This program will be offered for \$125 July 21 and 22, at the Taylor County Extension Office. Cost includes training, materials, and a national food manager certification examination. The food manager's certification will be valid for five years. Registration deadline is July 1.

This program is designed to not only prepare foodservice managers to pass the certification examination; it will provide valuable education regarding the safe handling of food.

Almost 50 cents of every dollar Americans spend on food is spent on meals prepared away from home. Therefore, careful attention to food safety will help keep customers safe and satisfied.

Foodborne illnesses are estimated to cost thousands of dollars in lost wages, insurance, and medical bills. With these statistics, knowledge of how to prevent foodborne illness is essential. The benefits of improved food safety include:

- Increased customer satisfaction
 - Improved relationships with health officials
 - Prevention of bad publicity and law suits due to foodborne illness
- By attending the course, foodservice managers will learn about:
- identifying potentially hazardous foods and common errors in food handling
 - preventing contamination and cross-contamination of food
 - teaching and encouraging personal hygiene for employees
 - complying with government regulations
 - maintaining clean utensils, equipment and

surroundings

- controlling pests

Foodborne illnesses can be prevented by following simple food safety practices. For more information about the Professional Food Manager Certification Training course of Texas A&M AgriLife Extension Service, called "Food Safety: It's Our Business," call the Taylor County Extension Office at 325-672-6048. You may also access a downloadable registration form at <http://taylor.agrilife.org>.

Rule lodge installs new officers

Rule Chapter #989 held Installation of Officers for the 2014-2015 year, Thurs., June 5, at the Rule Masonic Lodge Hall.

Installing Grand Officer was Bess Caldwell, Past Grand Matron of Texas, Order Eastern Star. Other Grand Officers assisting her were Grand Marshal, Tamela Henington, Deputy Grand Matron, Dist. 2, Sec. 6 & 7; Grand Secretary, Barbara Reynolds, Mardi Gras Adventure; Grand Chaplain, Faye Murphy, General Chairman - Keeping In Touch; Grand Organist, Pat Johnson, Abilene 30; Grand Warder, Don Reynolds; Credentials, Grand Sentinel, Bill Johnson, Worthy Patron Abilene #30.

Officers for the 2014-2015 year will be Worthy Matron, Oleta Cornelius; Worthy Patron, Bobby Jenkins; Associate Matron, Betty Thompson; Associate Patron, George Gross; secretary, Mary Helen Jenkins; treasurer, Sharon Simpson; Conductress, Pat Jenkins; Associate Conductress, Vida White; chaplain, Ila Kay Gross; Adah, Gerri Newberry; Ruth, Theresa Stephen; Esther, Anita Dozier; Martha, Ada Pope; Electra, Margie Caldwell; Warder, Melissa Hudson and sentinel, Frances King.

A covered dish dinner in the dining room preceded the meeting. Guests were present from Knox City, Rochester, Old Glory, Haskell, Abilene and Rule.

Society to meet

The Haskell County Historical and Genealogical Society will begin having quarterly meetings in 2014. The meetings will be the first Monday of September and December at 6:00 p.m. in the Haskell County Library.

Michelle Johnson

HERE'S TO YOUR HEALTH... AT HOME!
Brought to You By:

Haskell Home Health Agency

Heat related illness

The human body typically functions best within a temperature range of 97.7-99.5° F. The body is equipped with mechanisms which help keep the temperature within this 'normal' range. For example, when the environment is cold, shivering generates heat to keep temperature from dropping. On the other hand, when it is hot, perspiration helps to cool the body so that the body temperature does not rise to dangerous levels.

In extreme conditions or with certain physical problems, the body may be unable to maintain its normal body temperature. When this happens, body temperature can rise or fall to the point that serious medical problems occur.

Risk factors

- Age:** The elderly are at high risk because their temperature regulation mechanisms are not as effective.
- Disease processes:** People with heart or lung problems are at higher risk because of increased oxygen needs.
- Medications:** Some medications interfere with the process of perspiration and other mechanisms that the body uses to cool itself.
- Environment:** Heat combined with high humidity is dangerous because perspiration does not evaporate well and cooling is not as efficient.

More on heat-related illness in the next article.

We want to say a huge THANK YOU to everyone who sponsored and participated in the second annual Jogging For Jillian/Sprinting for Spence 5K Run/Walk held on May 24 in Redbud Park in Abilene. It was a huge success again this year. The weather was perfect.

We simply could not do something of this proportion without each and everyone of you.

Just to let you know as of now, we have established a \$1,000 Scholarship at Abilene Christian University and two \$1,000 Scholarships at Haskell High School in memory of Jillian Hope Thomas. There have also been established a \$1,000 Scholarship at Texas Tech University Air Force ROTC as well as two \$1,000 Scholarships at Wylie High School in memory of Spencer Labrie.

Our plans are to continue offering these Scholarship opportunities annually to students to help them out in their efforts to obtain a higher education.

If you would like more information on how you can help, please contact us at 940-864-8153 or 940-256-3880. We feel very blessed and humbled to have such wonderful and generous friends to help out with these Scholarships for our young adults.

We would also like to thank all the volunteers who showed up to help out with the logistics of putting on the 5K Run/Walk. It takes a lot of help to manage all the preparations and execution of such an event.

Again, THANK YOU from the bottom of our hearts.

Sincerely,
The families of Gary and Reda Thomas
and Greg and Jennifer Labrie

OPINION

TEXAS PRESS ASSOCIATION

State Capital

HIGHLIGHTS

By Ed Sterling

Senate panel addresses slowness of VA care

AUSTIN—On June 12, the state Senate Committee on Veteran Affairs and Military Installations met in Pasadena, Texas, to get input from military veterans in the wake of the records falsification scandal at U.S. Veterans Affairs-run facilities.

Also on June 12, Gov. Rick Perry recommended that slow service at VA facilities be remedied by allowing veterans to get health care needs met at non-VA facilities. Several health care provider groups responded, expressing interest in expanding health care options to veterans, the governor's office stated.

Sen. Leticia Van de Putte, D-San Antonio, who chairs the Senate committee, has recommended the creation of a hotline "to help Texas veterans deal with long wait times and VA bureaucracy."

After the hearing in Pasadena, Van de Putte stated, "While our reality is that the VA is a federally run and funded agency that serves Texas residents, that does not mean that Texas cannot ensure our veterans are taken care of in the honorable way they deserve and have earned. Ultimately, Washington needs to fix the VA's problems, but in the meantime, Texas will focus on the immediate crisis: Getting medical care to our heroes."

EPA plan to be reviewed

Federal carbon emissions rules proposed last month will be reviewed by the Texas House Committee on Environmental Regulation, Speaker Joe Straus said June 11.

The Obama administration's plan, to be administered by the U.S. Environmental Protection Agency, would reduce greenhouse gas emissions nationally by 30 percent, as compared to 2005 levels, by 2030. Because individual states may have to reduce more than 30 percent in order for the country as a whole to meet that threshold, Texas faces a reduction of 39 percent, Straus said.

"It's important for legislators to understand the potential impact of this federal mandate, not only on the cost and availability of electricity, but also on the broader Texas economy," Straus said. "The committee's work will guide the House's approach to this issue in next year's legislative session and the seriousness of these proposed rules demands that we start working on that approach soon."

"The House will work with a range of stakeholders to make sure that Texas responds to these regulations in a prudent

and responsible way," Straus added.

Border aid is requested

Texas Attorney General Greg Abbott on June 12 requested \$30 million from the U.S. Department of Homeland Security "to deploy state resources to the Texas border immediately."

"The request comes amid Border Patrol officers reporting a 92 percent spike in minors being apprehended at the border. The influx of child immigrants has so overwhelmed the U.S. Border Patrol that federal agents are devoting time and resources to the humanitarian aspects of the influx, and are not available to secure the border and successfully stop criminal activity," Abbott stated in a news release.

A sentence in the letter explains: "The \$30 million requested is only two percent of the amount of aid the President is asking Congress to appropriate in temporary aid to deal with the consequences of the porous border."

Drought status is renewed

Gov. Perry on June 9 extended by 30 days the emergency disaster proclamation he initiated on July 5, 2011. The proclamation certifies that exceptional drought conditions pose a threat of imminent disaster in 166 of the state's 254 counties. "All rules and regulations that may inhibit or prevent prompt response to this threat are suspended for the duration of the state of disaster," as stated in the proclamation.

Sales tax revenue goes up

State sales tax revenue in May was \$2.45 billion, up 8.5 percent compared to May 2013, Texas Comptroller Susan Combs announced June 11.

Retail and wholesale trade sectors, the oil and natural gas mining sector and the services sector led the growth, Combs said. The comptroller will send cities, counties, transit systems and special purpose taxing districts their June local sales tax allocations totaling \$621.5 million, up 11.6 percent compared to June 2013.

"This marks the 50th consecutive month of increased state sales tax revenues, and brings the fiscal year-to-date growth to 5.4 percent," she noted.

Toll billing changes to come

TxTag billing services will have "new and improved account access and payment options" for toll road users, Texas Department of Transportation announced June 9. "The new system is expected to be fully implemented by mid-summer," TxDOT stated.

From Out of the Past

From the files of The Haskell Free Press

10 Years Ago June 17, 2004

After almost 59 years, Chapter No. 892, Order of the Eastern Star marked the end of its organization. In 1945, there were 28 charter members, including Vivian Roberson, Iva Lee Gipson, Mabel Overton and Billie Bynum, all still members.

Bradley Harris, son of Gary and Barbara Harris of Haskell, has marked his second year as a member of the Texas High School Rodeo Association. He has qualified for the second year as a state finalist in bull riding.

Winners in the Western Art Show held during the Wild Horse Prairie Days Ranch Rodeo, in the Hand Crafted Cowboy Gear category were Claude Dutton of Abilene, first; Ross Bullinger of Haskell, second; and Darrel Dutton of Weinert, third.

20 Years Ago June 23, 1994

Blake Liles, son of Howard and Estalynn Liles of Haskell, has been named executive chef/kitchen manager of the P.A.R. Country Club in Comanche. He is the grandson of Bill and Connie Bell Liles of Haskell.

Haskell native Gene Mullins held a book signing in the home of Robert and Suzanne Starr of Haskell. Mullins first published book, "Dog Bark," is set in the Haskell area during the 1880's.

The HHS school Class of 1944 celebrated their

50th reunion in Abilene. Class members attending were Royce Adkins, Olein Elmore, Lonnie Roy Davis, Janet Owens, Joe Bob King, Marigene Milch, Raymon Mobley, Raymond Schwartz, Nance Perrin, V.A. Brown, Janice O'Neal, Herman McCurry, Cecil Gholson, Bob Dulaney, Dorothy Harris, Dorothy Sanderson and Pat Spear.

30 Years Ago June 21, 1984

Weldon Norman, received the Paul Harris Fellow Award, at the noon meeting of the Rule Rotary Club. Bob Maniss of Abilene, representative of the District Governor of District 579, presented the award.

Kim Jones of Rochester, won first place in the nutritious snacks division at the State 4-H Food Show held on the campus of Texas A&M University.

Keith Sanders, son of Mr. and Mrs. Kenneth Sanders of Weinert, has graduated from the USAF Academy in Colorado Springs, Colorado. He was commissioned a Second Lieutenant in a special commissioning ceremony.

40 Years Ago June 20, 1974

Bill Holden of Holden-McCauley Funeral Home in Haskell, was recognized by the Texas Funeral Directors Association for 50 years as a funeral director. At age 20 he began work in a funeral home in Childress in 1924. He came to Haskell in 1928.

Rev. Jimmy Griffith, a native of the Paint Creek community, has accepted the pastorate of the East Side Baptist Church in Haskell.

The Haskell 4-H Horse Club held eliminations at the James Powell Arena to select riders to compete at the District 3 Horse Show. They are Debbie Aycock, Glenda Gayle Chapman, Susan Hopkins, Carl Hopkins, James Hopkins and Debra Morris.

50 Years Ago June 18, 1964

The rank of Eagle Scout was bestowed upon scouts Ricky Perry, son of Mr. and Mrs. Ray Perry, Bob Earles, son of Mr. and Mrs. R.V. Earles, and Wayne Cadenhead, son of Dr. and Mrs. Frank Cadenhead, in a ceremony held at First Baptist Church in Haskell.

Haskell County Democratic standard-bearers, in Houston for the state convention, are Mr. and Mrs. R.W. Herren of Haskell, Mr. and Mrs. A.C. Knipling of Sagerton, Mrs. R.F. Herring and Mrs. R.A. Shaver, Jr., both of Rochester.

100 Years Ago June 17, 1914

Judge and Mrs. D.H. Hamilton visited with their daughter, Mrs. Wayne Perry of the south side.

Gail Wingo has a position with the telephone people at Stamford.

Dick Carothers, 12 miles west of this city, has threshed 20 bushels per acre from 100 acres of wheat.

Letter to the Editor

A note to our Haskell citizens

As most of you know we have had problems with our trash trucks from time to time over this past fiscal year. The expectation of a truck has been 8 years. This next current year the City would be looking to budget for a new trash truck.

This equipment leads a very hard life and we are working to make it through to October 1 with our current fleet. We will be looking at every opportunity out there for us during budget hearings, including contracting this trash service out if necessary.

As we begin this process please contact me at City Hall or let anyone on the City Council know how you feel.

I would also like to thank the citizens of Haskell for their understanding during this past year and hope you will continue to be courteous as we finish this year.

Sorry for the inconvenience and rest assured that we will make the best decision for all citizens moving forward during the next budget process.

Respectfully,
City Administrator
Brandon Anderson

Fiddler's contest

The TCR Old Timer's Association is sponsoring the annual Fiddler's Contest Sat., July 5 at 10 a.m. at the Round Up Hall in Stamford. There are three age groups with a cash prize to each group and an overall cash prize winner.

For more information contact DeDe Jones at 325-660-4302 or Jan Muehlstein at 325-773-2001.

USDA funds biomass energy program

Agriculture Secretary Tom Vilsack announced that the U.S. Department of Agriculture (USDA) began accepting applications June 16 from energy facilities interested in receiving forest or agricultural residues to generate clean energy. The support comes through the Biomass Crop Assistance Program (BCAP), which was authorized by the 2014 Farm Bill.

BCAP provides financial assistance to farmers and ranchers who establish and maintain new crops of energy biomass, or who harvest and deliver forest or agricultural residues to a qualifying energy facility. Of the total \$25 million per year authorized for BCAP, the 2014 Farm Bill provides up to 50 percent (\$12.5 million) each year for matching payments for the harvest and transportation of biomass residues. BCAP matching payments will resume this summer, while crop incentives will begin in 2015. Some matching payments will support the removal of dead or diseased trees from National Forests and Bureau of Land Management public lands. This will be turned

into renewable energy while reducing the risk of forest fire. Agriculture residues, such as corn cobs and stalks, also may qualify as energy-producing feedstock.

"Removing dead or diseased trees from forests to use for biomass production creates clean energy while reducing the threat of forest fires and the spread of harmful insects and disease," said Vilsack. "Increasing our country's production of biomass energy also helps grow our economy. Food is made in rural America, but fuel is made in rural America, too. This program is yet another USDA investment in expanding markets for agricultural products made in rural places across the country."

With the 2014 Farm Bill requiring several regulatory updates to BCAP, the resumption of payments for starting and maintaining new sources of biomass (Project Areas) has been deferred until a later date when the regulatory updates occur.

The USDA Farm Service Agency (FSA), which administers BCAP, will accept applications from

biomass conversion facilities through July 14, 2014. Information on funding availability can be found in the Federal Register notice at <http://go.usa.gov/8FSH>. For more details on applications and deadlines on BCAP, visit a local FSA county office or go online to www.fsa.usda.gov/bcap.

BCAP was reauthorized by the 2014 Farm Bill. The Farm Bill builds on historic economic gains in rural America over the past five years, while achieving meaningful reform and billions of dollars in savings for taxpayers. Since enactment, USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life in rural

America. For more information, visit www.usda.gov/farmbill.

Calendar

Children's ministry

The Haskell Church of Christ Wednesday night Children's Ministry will continue throughout the summer. The regular schedule is: Sunday Bible classes 9:30 a.m., morning worship 10:30 a.m., service groups and children's Bible hour 5:00 p.m.; Wednesday classes for all ages at 7:00 p.m.

Vet office open

The Veterans Service office in Haskell is now open. The office, located on the first floor of the west wing of the courthouse, will be open on the first and third Thursdays of each month from 10 a.m. to noon. For information, call 940-256-1125 any time or email Haskell_vaso@yahoo.com.

Al-Anon

Al-Anon meets Thursday evenings at 8 p.m. at the AA building across from the RV park in Haskell.

Date: Second and Fourth Monday of each month
Time: 7:00 A.M.
Location: City Hall, 301 S. 1st, Haskell, Texas 79521
Phone Number: 940-864-2333

Sources of Drinking Water

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline at (800) 426-4791.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.

- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.

- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Contaminants may be found in drinking water that may cause taste, color, or odor problems. These types of problems are not necessarily causes for health concerns. For more information on taste, odor, or color of drinking water, please contact the system's business office.

You may be more vulnerable than the general population to certain microbial contaminants, such as Cryptosporidium, in drinking water. Infants, some elderly, or immunocompromised persons such as those undergoing chemotherapy for cancer; persons who have undergone organ transplants; those who are undergoing treatment with steroids; and people with HIV/AIDS or other immune system disorders, can be particularly at risk from infections. You should seek advice about drinking water from your physician or health care providers. Additional guidelines on appropriate means to lessen the risk of infection by Cryptosporidium are available from the Safe Drinking Water Hotline (800-426-4791).

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We are responsible for providing high quality drinking water, but we cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Information about Source Water Assessments

The TCEQ has completed a Source Water Assessment for all drinking water systems that own their sources. The report describes the susceptibility and types of constituents that may come into contact with your drinking water source based on human activities and natural conditions. The system from which we purchase our water, North Central Texas MWA, received the assessment report. For more information on source water assessments and protection efforts at our system, contact Brandon Anderson.

For more information about your sources of water, please refer to the Source Water Assessment Viewer available at the following URL: <http://gis3.tceq.state.tx.us/swav/Controller/index.jsp?wtrsrc=>

Further details about sources and source-water assessments are available in Drinking Water Watch at the following URL: <http://dww.tceq.texas.gov/DWW>

2013 Annual Consumer Report on the Quality of Tap Water

Our goal at the City of Haskell is to provide you with high-quality, safe drinking water that exceed every federal and state standard. As mandated by the Safe Drinking Water Act (SDWA), this "Consumer Confidence Report" (CCR) details our water sources, the results of our water tests and other information. For quality tap water, you can count on the City of Haskell to provide its citizens with only the best.

We are glad to report that the water provided by the North Central Texas Municipal Water Authority (NCTMWA), water treatment plant meets or exceeds water quality standards.

Overview

The City of Haskell receives its water supply from the Miller Creek Reservoir located in Baylor and Throckmorton Counties on FM 1608 approximately 10 miles southeast of Goree.

This CCR report is based on test conducted in the year 2013 by the City of Haskell. The City of Haskell collects samples each month which is 48 per year. One random sample was taken for a business and results were good. This is to ensure the safety and quality of our water. These samples are to ensure that the City of Haskell is providing a safe drinking water to our customers. We are checking for microbiological contaminant. Lead and copper tests are conducted every three years.

Additional Health Information

To ensure that tap water is safe to drink, the EPA prescribes limits on the amount of certain contaminant in bottled water. Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminant. The presence of contaminant does not necessarily indicate that hot water poses a health risk. More information about contaminant and potential health effects can be obtained by calling the Environment Protection Agency's Safe Drinking Water Hotline (1-800-426-4791).

The City of Haskell along with North Central Texas Municipal Water Authority is proud to announce that we do have "A Safe Water for Drinking". This CCR was developed in accordance with part 40 CFR parts 141 and 142, National Primary Drinking Water Regulations: Consumer Confidence Reports. This CCR documents was prepared as requested by the City of Haskell.

Terms used in Water Quality Table and in other parts of this CCR are defined as follows.

Maximum Contaminant Level or MCL: The highest level of a contaminant that is allowed in drinking water. MCL are set as close to the MCLG as feasible using the best available treatment technology.

Maximum Contaminant Level Goal or MCLG: The level of contaminant in drinking water below which there is no known or expected risk to health. MCLG allow for a margin of safety.

Action Level or AL: The concentration of Copper and/or Lead which, when exceeded, triggers treatment or other requirements which a water system must follow.

Brandon Anderson
Brandon Anderson, City Administrator

MAD
Matthew Duran, Director Public Works

Coliform Bacteria

Maximum Contaminant Level Goal	Total Coliform Maximum Contaminant Level	Highest No. of Positive	Fecal Coliform or E. Coli Maximum Contaminant Level	Total No. of Positive E. coli or Fecal Coliform Samples	Violation	Likely Source of Contamination
0	1 positive monthly sample.	1		0	N	Naturally present in the environment.

Type of Treatment	Year of Range	Disinfectant Used	Average Level	Minimum Level	Maximum Level	MRDL	MRDLG	Source of Chemical
MRDL	2013	Chloramines (ppm)	1.5	0.5	2.0	4.0	4.0	Disinfectant used to control microbes

Lead and Copper

Definitions:
Action Level Goal (ALG): The level of a contaminant in drinking water below which there is no known or expected risk to health. ALGs allow for a margin of safety.
Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Lead and Copper	Date Sampled	MCLG	Action Level (AL)	90th Percentile	# Sites Over AL	Units	Violation	Likely Source of Contamination
Copper	08/04/2010	1.3	1.3	0.405	0	ppm	N	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing systems
Lead	08/04/2010	0	15	12.6	1	ppb	N	Corrosion of household plumbing systems; Erosion of natural deposits.

Water Quality Test Results

Definition:	The following tables contain scientific terms and measures, some of which may require explanation.
Avg:	Regulatory compliance with some MCLs are based on running annual average of monthly samples.
Maximum Contaminant Level or MCL:	The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
Maximum Contaminant Level Goal or MCLG:	The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
Maximum residual disinfectant level or MRDL:	The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum residual disinfectant level goal or MRDLG:	The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
MFL:	million fibers per liter (a measure of asbestos)
na:	not applicable.
NTU:	nephelometric turbidity units (a measure of turbidity)
pCi/L:	picocuries per liter (a measure of radioactivity)
ppb:	micrograms per liter or parts per billion - or one ounce in 7,350,000 gallons of water.
ppm:	milligrams per liter or parts per million - or one ounce in 7,350 gallons of water.
ppt:	parts per trillion, or nanograms per liter (ng/L)
ppq:	parts per quadrillion, or picograms per liter (pg/L)

Regulated Contaminants Detected in the Haskell Distribution System

Disinfectants and Disinfection By-Products	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Haloacetic Acids (HAA5)*	2013	46	26 - 63.7	No goal for the total	60	ppb	N	By-product of drinking water disinfection.
Total Trihalomethanes (TTHM)	2013	80	41.1 - 130	No goal for the total	80	ppb	N	By-product of drinking water disinfection.
Inorganic Contaminants	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Nitrate [measured as Nitrogen]	2013	0.146	0.146 - 0.146	10	10	ppm	N	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.

Regulated Contaminants Detected in the Source Water we Receive from North Central MWA

Inorganic Contaminants	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Arsenic	2013	0.00385	0.00385	0	10	ppb	N	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronics production wastes.
Barium	2013	0.238	0.238	2	2	ppm	N	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.
Fluoride	2013	0.58	0.58	4	4.0	ppm	N	Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum facilities.
Nitrate [measured as Nitrogen]	2013	0.10	0.0945 - 0.10	10	10	ppm	N	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.
Selenium	2013	<0.001	<0.001	50	50	ppb	N	Discharge from petroleum and metal refineries; Erosion of natural deposits; Discharge from mines.

USDA to help educate producers about new farm bill programs

Agriculture Secretary Tom Vilsack announced that the U.S. Department of Agriculture (USDA) is awarding \$6 million to universities and cooperative state extension services to develop online decision tools and other materials and train experts to educate producers about several key farm bill programs. The new Web

tools will help farmers and ranchers determine what participation in programs established by the 2014 Farm Bill will mean for their businesses.

The University of Illinois (lead for the National Coalition for Producer Education), along with the Food and Agricultural Policy Research Institute (FAPRI)

at the University of Missouri and the Agricultural and Food Policy Center at Texas A&M (co-leads for the National Association of Agricultural and Food Policy), will receive a total of \$3 million to develop the new online tools and train state-based extension agents who can in turn help educate farmers.

"Helping farmers and ranchers understand new Farm Bill programs and what the programs mean for their families is one of USDA's top priorities," said Vilsack. "With the resources we're providing, university experts will help ensure farmers and ranchers are highly educated as they make critical decisions about new programs that impact their livelihoods. The new tools that will be developed will empower farmers and ranchers to select the plan that best fits their unique needs."

The new resources will help farmers and ranchers make an educated choice between the new Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Using the new online tools, producers will be able to use data unique to their specific farming operations combined with factors like the geographical diversity of crops, soils, weather and climates across the country to test a variety of financial scenarios before officially signing up for the new program options later this year. Once a producer enrolls in the ARC or PLC program, he or she must remain in the program through the 2018 crop year.

New tools will be provided for other programs

as well. Sign-up for the newly established Margin Protection Program for Dairy (MPP) begins late this summer and enrollment for "buy-up" provisions under the Noninsured Crop Disaster Assistance Program (NAP) will begin early next year. An online MPP tool will be available when sign up begins and the NAP buy-up provision resource will become available to producers in the fall for the 2015 crop year.

The University of Illinois, as lead for NCPE, and FAPRI at the University of Missouri and AFPC, at Texas A&M, as co-leads for NAAFP will develop the ARC and PLC Web tool program. The University of Illinois will also develop the online resources for MPP and NAP.

USDA will also award \$3 million to state cooperative extension services—a nationwide network of experts based at land-grant universities—for outreach and education on the new Farm Bill programs. Funds will be used to conduct public education outreach meetings where producers can speak with local extension agents and Farm Service Agency (FSA) staff. Outreach meetings will begin late this summer to help farmers and ranchers understand the new programs and their options.

While universities work to create new online tools, producers now have access to a preliminary website that gives them a chance to begin familiarizing themselves with the new programs and the type of information they will need to consider when deciding which program options work better for them.

At this site, farmers and ranchers can view ARC and

PLC projected payments, ARC guarantees, and PLC payment rate projections. These tables are available on the FSA website.

The announcement was made possible through the 2014 Farm Bill, which builds on historic economic gains in rural America over the past five years, while achieving meaningful reform and billions of dollars in savings for taxpayers. Since enactment, USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life in rural America. For more information, visit www.usda.gov/farmbill.

Partners to Develop Web-based Decision Tools include:

For the NCPE, University of Illinois as lead: Michigan State University, Montana State University, Watts & Associates, Delaware State University, University of Arkansas at Pine Bluff, North Carolina A&T University, University of Wisconsin, Cornell University, Pennsylvania State University, Ohio State University, and University of Minnesota;

For the NAAFP, FAPRI and AFPC as co-leads: Texas Tech University, University of Missouri, Iowa State

University, University of Nebraska, Kansas State University, Mississippi State University, Oklahoma State University, Tennessee State University, University of Georgia, and Fresno State University.

Implementation Time Line for Selected Farm Bill Programs are:

- Mid-Summer 2014: Producers receive letters notifying them of current bases and yields and 2009 to 2012 planting history.

- Late Summer 2014: MPP, ARC and PLC online tools become available; MPP enrollment for 2014 and 2015 begins; MPP owners have opportunity to update yields and reallocate bases for ARC/PLC purposes.

- Fall 2014: NAP buy-up online tools become available; NAP buy-up sign-up starts.

- Winter 2014: ARC/PLC one-time selections occur.

- Early 2015: ARC/PLC sign-up for 2014 and 2014 starts.

Visit www.fsa.usda.gov or the local FSA office for information about FSA and the 2014 Farm Bill programs.

P.O. Box 607
Rule, TX 79547
(940) 966-2214

This Notice shall satisfy the above-cited two separate but related procedural notification requirements.

REQUEST FOR RELEASE OF FUNDS
On or about July 9, 2014, City of Rule will submit a request to the Texas Department of Agriculture (TDA)/Office of Rural Affairs (ORA) for the release of Community Development Block Grant funds under Section 104(f) of the Title I Housing and Community Development Act of 1974, as amended, to undertake a project known

Public Notices

as Disaster Relief water improvements #713297, for the purpose of creating a potable water supply from the City's sole source of water by installing one reverse osmosis filtration system, one 5,000 gallon water storage tank, one booster pump, one flow meter, approximately 500 linear feet of 2-inch to 3-inch water line, plant building and electrical, pavement repair and all associated appurtenances. Construction shall take place at the intersection of 4th St and FM 617 in Rule, Haskell, County, Texas.

Grant Funds from TDA/ORA: \$350,000.00; Other funds: none required

Conditions & Mitigations: Standard mitigations including: Soil Erosion: Best Management Practices (BMP's) should be in place to prevent soil erosion; Storm & Surface Water: A pollution prevention plan should be in place to prevent sedimentation and soil runoff into the surface water; Nuisances & Site Safety Issues: Safety precautions to secure construction equipment and any hazardous materials would need to be implemented while the projects being constructed and flammable/hazardous utility lines should be located prior to construction. Any particulate emissions

Candidates for this position, as well as all other Helen Farabee Centers job opportunities, may view position descriptions, educational requirements, and salary ranges, plus submit applications and resumes online at www.helenfarabee.org, at WorkInTexas.com, or at your local Texas Workforce Services office.

June sales tax reported

Texas Comptroller Susan Combs said that state sales tax revenue in May was \$2.45 billion, up 8.5 percent compared to May 2013.

"Sales tax growth was evident across all major economic sectors," Combs said. "The growth was led by the retail and wholesale trade sectors, the oil and natural gas mining sector, and the services sector. This marks the 50th consecutive month of increased state sales tax revenues, and brings the fiscal year-to-date growth to 5.4 percent."

Combs sent cities, counties, transit systems and special purpose taxing districts their June local sales tax allocations totaling \$621.5 million, up 11.6 percent compared to June 2013.

The sales tax figures represent monthly sales made in April.

Haskell County had a 1.99 percent increase for June 2014 of \$47,271.54 in comparison to \$46,345.10 for June 2013. 2014 payments to date of \$298,215.13 reflect a 7.15 percent increase over 2013 payments to date of

\$278,302.08.

The City of Haskell had a .10 percent increase for June 2014 of \$44,009.69 in comparison to \$43,962.60 for June 2013. 2014 payments to date of \$276,895.85 reflect a 6.27 percent increase over 2013 payments to date of \$260,546.81.

The City of O'Brien had a 22.84 percent decrease for June 2014 of \$161.43 in comparison to \$209.22 for June 2013. 2014 payments to date of \$2,034.44 reflect a 9.58 percent increase over 2013 payments to date of \$1,856.49.

The City of Rochester had an 86.96 percent increase for June 2014 of \$651.52 in comparison to \$348.47 for

June 2013. 2014 payments to date of \$3,535.69 reflect a 24.17 percent increase over 2013 payments to date of \$2,847.24.

The City of Rule had a 50.99 percent increase for June 2014 of \$2,234.79 in comparison to \$1,480.00 for June 2013. 2014 payments to date of \$14,067.95 reflect a 22.77 percent increase over 2013 payments to date of \$11,458.10.

The City of Weinert had a 37.90 percent decrease for June 2014 of \$344.81 in comparison to \$214.11 for June 2013. 2014 payments to date of \$1,681.20 reflect a 5.50 percent increase over 2013 payments to date of \$1,593.44.

Haskell Co. Arrest Report

The following arrests were reported by the Haskell County Sheriff's Office during the week of June 9-15: Amber Lynn Stine, engaged in organized criminal activity.

Melissa Lerma, theft of property \$50 or more, but less than \$500 Class B misdemeanor.

Cody Devon McGee, driving while license invalid Class C misdemeanor,

unlawful possession of firearm 3rd degree felony.

Ezekiel C. Mooney, theft by check Class B misdemeanor.

Ace Benard Valverde, no drivers license.

Reba Kelly Coplin, public intoxication Class C misdemeanor.

Juan M. Armendariz, driving while intoxicated 1st. Forty-four calls were made to 911.

Students in the News

Students achieving the Dean's List for the 2014 spring semester have been announced by Angelo State University in San Angelo.

To be eligible for the Dean's List, students must be enrolled fulltime at ASU and must maintain a 3.25 or better grade point average on a 4.0 scale.

Students making the honor roll from Haskell are Maci M. Colley, Cailey M. Foster, Codi B. Foster and Angelica I. Gonzalez.

Water conservation for City of Rule

The City of Rule has implemented Stage Four of its Drought Contingency Plan Emergency Water Shortage/Water Allocations. Please contact Rule City Hall or call 940-996-2214 for more information.
