### Think about your friends

Thomas and I lost a friend last week. Not a "simple" friend, not an acquaintance, but a friend who exemplifies the true meaning of the word.

Richard Nance died as he lived, with dignity, courage, and the capability to laugh until the end.

We first met Richard more than 20 years ago.

When he and his wife, Helen, retired and built a house near the property we had just bought we became better friends.

While we were living in the dairy barn and building our house, Richard was always there to lend a helping hand, and they both brought meals to us knowing our cooking facility was pretty limited.

Richard was the kind of neighbor who stopped to help you fix fence if he drove by and saw you had a problem. He saw something that needed doing, and he did it.

He saw someone in need and he helped.

He would (and did) come in the middle of the night if a friend called for help with livestock.

He took care of aging parents and cousins, making sure they got groceries, got to doctor's appointments, and generally checked on them regularly. When Helen died, he soldiered on, never complaining.

Not until his death did most of us know about the numerous ribbons, medals and awards he received during his 38 years of service to his country.

Richard stood by his friends and his country, firmly, because they were his friends, because it was his country.

He never "went along with the crowd" on something he did not believe in.

When Richard married Clara he devoted himself to her with a sweet simplicity that was touching.

He endured years of chemotherapy, never complaining, never feeling sorry for himself, always being courteous to those who surrounded him.

So now he is gone. We feel a large hole in our lives.

We feel something else, too. Fortunate to have had such a friend. The uncountable meals we shared, the trips we took together are quite beyond price.

Which brings me to my point. How many of these special friends do you have? Aren't they a blessing beyond price? Isn't it wonderful that you had the opportunity to know these special people?

Lastly-have you ever taken the time not to take them for granted, to tell them how much you treasure that friendship? If you haven't, do. It's the finest thing a friend can do for another friend.

## Talco Homecoming set for April 29

The planning meeting for the annual Talco Homecoming was held on Tuesday, March 21, 2000. Seventeen Ex's attended. The main item discussed was changing the scheduled meeting on May 6. There is a conflict with the school board elections to be held on that date. The group decided to have the meeting on the last Saturday in April from this day forward, with the 2000 date being April 29.

Another change concerns Special year classes. In the past those groups who had been out of school in five or ten years from the current year were

honored. In the future this will only be the classes who have been out 40, 50 and 60 years for the Special honor. Any other groups who want a special meeting can contact the officers for a listing of their class.

The honor classes for the current (2000) meeting and persons working are:

1940-Christelle Cato, Bud Barrett and Joe (Mutt) Harper.

1945-Jerene Chapman Flanagan and Dan Cotten.

1950-Minerva Easterling Gentry and Bobby Watts.

1955-Lois Shaw Jordan and Bobby Blackburn Kelly.

1960-Virginia Johnson Onyett and Sue Gaddis Shumate.

1965-Ottis Hall.

Anyone who would work on the 2001 classes; 1941, 1951 and 1961, please let the president, Ralph Parsons, know before the reunion if possible. Everyone is also encouraged to notify friends and relatives of the change in the date for the reunion and make plans to attend for a day of reminiscing with old friends, making new friends and sharing a good meal.

## Talco Science Department making plans to publish cookbook

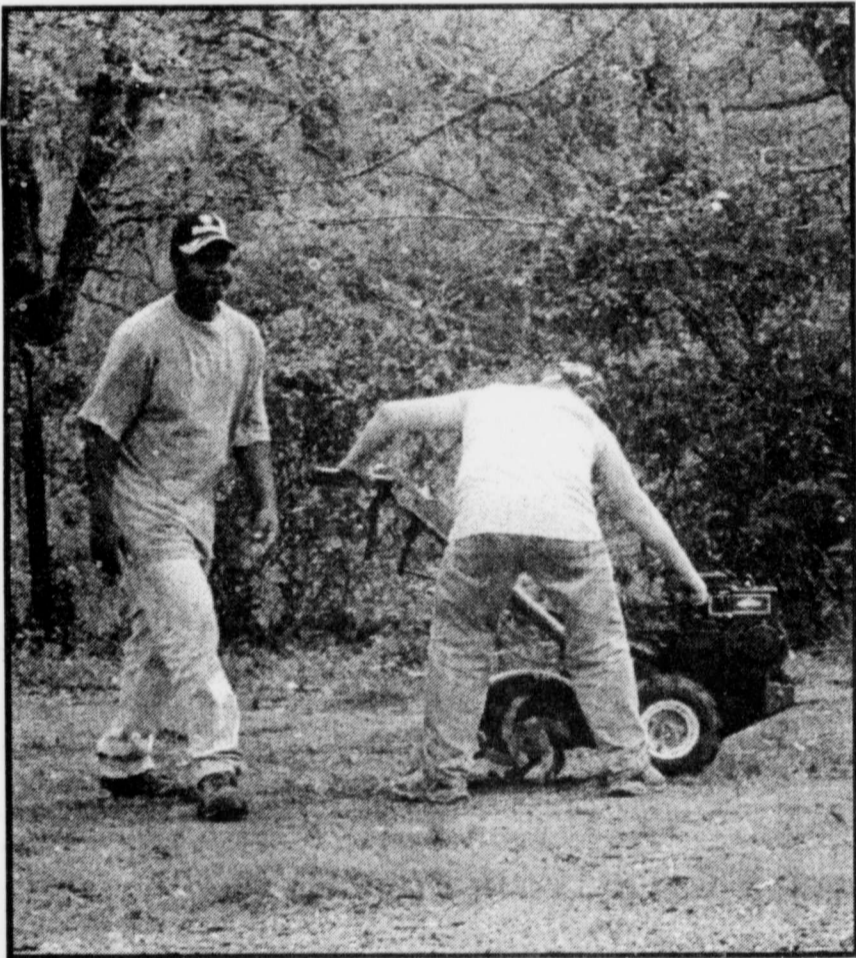

The Talco Junior High Science Department is putting together a cookbook to help raise funds for hands-on science experiences. The students have already started collecting recipes for the book which will be titled "Cooking Rebel Style".

The cookbook will contain a collection of recipes from the cooks of the district, helpful cooking hints and basic kitchen information. Each recipe will show the name of the contributor and be beautifully bound in an attractive cover featuring the Rebel man printed on a blue and white background, representing the Rivercrest School colors. The book will be printed up during the summer

months and will go on sale sometime in August or September of 2000.

The group is seeking recipes from the cooks of the Rivercrest School District and the surrounding area. Please help make the cookbook a success by submitting your recipes to the Talco Science Department by April 30, 2000 so they can be typed and mailed to the publisher.

Recipes may be mailed to Leah Bull, Talco Junior High, 400 Lawrence St., Talco, Texas 75487 or they may be dropped off at the Talco School. You may call 379-3841 for more information or to reserve your cookbook. Your support and recipes will be greatly appreciated.

### Card of Thanks

The families of Hayden William Holt wish to say thank you from the bottom of our hearts for the prayers, love and support our friends and communities throughout the area have extended to Hayden during the last three years.

We especially thank all the nurses and doctors who helped care for Hayden, the First Responders of Bogata and Boxelder. The memorial service conducted by Bros. Kenny Dickson, Bob Posey, Don Shovan, Park Robertson and Bob Bush was such a wonderful tribute to Hayden's life. We want James, Tim and Denise Wood to know how much we love them for the tender, compassionate manner in which they helped us with Hayden's funeral arrangements. Everything was just as it should have been. Special music by Stanley and Donna Jo Jessee was perfect. We are most appreciative to the Cuthand Methodist Church ladies for the meal served to us and to Nanalee and Thomas Nichols for the many, many items they have printed about Hayden in their paper. We sincerely wish everyone could have known Hayden personally, he was really someone special. However, so many have said he touched their heart in special ways, enriched their prayer life, deepened their faith. Whatever Hayden's job was to be here on earth, we know he did it well, and has made God and his families proud. Your outpouring of sympathy now, at his death, has deeply touched us all. Thank you for everything.

The world of funeral service is constantly changing. Many of family owned funeral homes have given way to corporations that for whatever reason fail to give the individual service that has long since been the trademark of the funeral industry. Casket stores & burial societies have tried to place the emphasis on ways of saving you money with no thoughts to service and the personnel that provide them. Long after a funeral is ended it won't be the type of casket or how nice the funeral home was decorated that will be remembered by the family. What will be remembered is the caring service offered by a compassionate staff that allowed the family to express their grief in a way that was healing for them. That is something that you can't put a price on--something that cannot be discounted.

The James Wood Family prides itself on service and individuality. We believe that a funeral service is a testimony to the life of the deceased. There is no price that can be put on such a gift. The memory of the loved one should be one of fondness and cherished memories, not hindered by financial stress and worries. We will be most happy to talk with you anytime about the services that we provide for our families. Let us know how we can help.

Mrs. James Jackson Brown

### Allmon-Brown exchange vows March 11, 2000

Jennifer Lynn Allmon of Paris and James Jackson Brown of Maple Springs were united in marriage at 7:00 p.m. on Saturday, March 11, 2000 at Lifeline Worship Center in Reno. Reverend Jack Elliott performed the double ring ceremony.

The bride is the daughter of Carl and Pam Allmon of Paris and the granddaughter of Dwight and Lucille Cox of Roxton and Travis and Linda Barber of Paris. The groom is the son of Eddie and Nancy Brown of Maple Springs. He is the grandson of the late Jack and Beatrice Brown of Quitman and the late Dean and Virgie Graf of Maple Springs.

Wedding music was provided by pianist, Dustin May and vocalist, Tammy Farmer. The bride was escorted to the altar by her father and given in marriage by her parents. The bride chose a gown designed by Monique. It was created in white Royal satin in a ball gown style. The bodice featured a Sabrina neckline and V-basque waist embellished with Venise lace beaded with seed pearls and iridescent sequins. The back closing was secured by a row of satin and pearl covered buttons. The full skirt of organza extended to a Royal Cathedral train and was adorned with elarete motifs; the hemline was bordered with embellished Schiffli lace. Her fingertip veil of pearl enhanced illusion fell from a bun wrap of lace, pearls and sequins. The bride carried a bouquet of pale yellow roses accented with baby's breath and greenery and tied with ribbons and lace.

Attending the bride as maid of honor was Lori Gunn, cousin of the bride, of Ft. Worth. The bride's best friend, Elizabeth Exum of Paris, attended as matron of honor. Bridesmaids were Stephanie Allmon, sister of the bride and Jana Weatherall of Talco. Stormie Cox of Roxton served as junior bridesmaid. Flower girls were Madeline Bruce of Paris and Bailey Williams of Ft. Worth.

The groom, best men and groomsmen wore black tuxedos accented with yellow rose boutonnières. Serving as best men were Jody Nolen of Talco and Carl Antone of Arizona. Groomsmen were Justin Smith of Mt. Pleasant and Kenneth Paul Johnson of Maple Springs, cousins of the groom and Dustin Wolfe of Arkansas. Ushers and candle lighters were Patrick Allmon, brother of the bride, Darrell Bruce and Shawn Boutwell all of Paris. Ring bearers were Hunter Bruce and Archie Farmer both of Paris.

Following the ceremony a reception was held in the church fellowship hall which was decorated with yellow and green balloons, candles and confetti. The bride's table held a three tier wedding cake decorated with yellow roses and a water fountain, punch and mints. Serving were Kathy Barber, the bride's aunt, Tammy Farmer, Tammy Huffman and Carmen Groce. The groom's table held a chocolate cake with a heart shape cut out and filled with chocolate dipped strawberries, coffee and nuts. Serving were the groom's

sister, Kim Anderson and the groom's cousins, Katherine Graf and Carla Minor. A screen between the two tables decorated with lights, greenery and yellow roses held pictures of the bride and groom from infancy to the present day. Guest were also served from a fruit display created by Sharon Price and Zonetta Hawkins and a vegetable tray created by the groom's cousin, Rhonda Taylor. Rachel and Susan Smith, the groom's cousins passed out bookmarks and bubbles to guest prior to the couple's departure.

After a wedding trip to Eureka Springs, Arkansas the newlyweds will reside in Paris.

A rehearsal dinner was held by the groom's parents at the church fellowship hall on Friday evening. Guests were served smoked turkey, brisket and chicken ranch style beans, twice baked potatoes, cole slaw, tea, coffee and condiments. Helping cook for the event were friends, Karen Jones, Leslie Wright and Tammy Threadgill. The hall was decorated by Marta Rhoades. Yellow and green table cloths covered the tables and the serving area was decorated with greenery, mini-lights, candle, confetti and yellow roses. Following the meal and rehearsal the bride's and groom's families and friends began decoration in the wedding chapel.

### Blood supplies critical in this area

Blood supplies throughout East Texas are in poor shape. A person can donate blood every eight weeks. Also, there is no age limit to donating blood. A person must be at least 17 years old and in general good health.

Stewart Blood Center will never turn a donor away because of an adequate supply of their particular blood type. One unit of blood has a shelf life of only 42 days. Stewart needs to have a surplus of all blood types. Ideally, they need to maintain a three day supply of blood in stock.

For more information, contact one of six locations throughout East Texas (Tyler, Paris, Longview, Lufkin, Marshall and Mt. Pleasant or call 1-800-252-5584. Low blood type is A+ Critical is: O+, O-, A-, B-, AB-, B+.

## A lesson in appreciation and a taste of humble pie

by Nancy Brown

In the scheme of life I believe there are certain things meant to force one to recognize TRUE appreciation and leave a taste of humble pie in our mouths. My youngest child's wedding forced both me and recently. What started out as a small church wedding took on a life of its own and gobbled us up. Weddings are wonderful when you only have to attend, enjoy and go home. Or, if as parents you are fortunate enough to hire it all done. The flip side of that coin is "we'll do it all ourselves". What a joke! Murphy's Law (if it can go wrong it will) just lays in wait for such fools!

For months we and the bride's family planned, bought necessary items and were fully in control. And then the week of the wedding arrived. This is where my lesson and pie came in so brilliantly. The assumption all will go easy is just that, an assumption.

My best friend who I rely on was very ill but from her bed dolled out orders to family and friends to help with the rehearsal dinner (Great Appreciation). I have made wedding cakes for years with few problems. I dropped the top of my own son's cake and had to start over again. The bride really wanted a fountain under the cake and a friend loaned me one at the last minute (Appreciation). Yet another dear friend was a God send (Appreciation Doubled) in helping make the bride's bouquet, corsages, boutonnières, bride's maid's flowers, flower girl baskets and decorations for the rehearsal dinner and wedding chapel. She was as exhausted as I was. Many many friends contributed from those recruited by my best friend to my co-workers and thank heaven for family.

The family came through with deserts, fruit trays, beautiful serving dishes, hauled it all to the church, cleaned it up and hauled it all back again. Everything was delicious and beautiful and as I sat there watching my baby become someone's husband the humble pie was served. To think we have so many special friends and such a supportive and loving family hits one smack in the face.

Thank you from the bottom of our hearts for being who you are. My dose of appreciation and humble pie were well received and as a final note and warning; this experience taught me to appreciate my daughter who simply got married and then had a small reception with family and friends and as a warning to parents of soon to be brides and grooms; Encourage Elopement!!!!

## Red River County Roots

This week's query is from Sarita Cupp of 75-281 Hone Place, KAilua-Kona, Hawaii 87640. She would like information about her great grandparents, who were born in Red River County. Her great-grandfather, Charles Smith, was born August, 1874 and was supposedly half Cherokee. His wife was Sarah Elizabeth Ray, born July, 1881. She is said to have been full blood Cherokee. Family members state that they moved to Ft. Towson, Ok. in the early 1900s. She would enjoy hearing from anyone who might have any information about this couple and would like also to know if there were any Cherokee settlements in Red River County in the 1800s, and if they could have moved to Oklahoma as a group.

If you would like to write Ms. Cupp, please write her at the above address. If you have a query you would like to have placed in this column, please send it to the Red River County Genealogical Society, P.O. Box 516, Clarksville, TX 75426.

## FOOT NOTES

Dr. Austin Reeves

### RAYNAUD'S PHENOMENON

Raynaud's phenomenon occurs when the tiny arteries that bring blood to the fingers and toes go into spasm, most often when exposed to cold. Becoming upset, working with vibrating machinery, or smoking cigarettes, any activity that stimulates the nervous system, can trigger an episode. The fingers or toes first turn a patchy red and white, then they may become pinker than usual or bluish as the episode ends. While episodes are rarely painful, numbness, tingling or burning are common. People with chronic Raynaud's phenomenon may see the affected skin change permanently so it appears smooth, shiny and tight. Small painful sores may appear on tips of fingers or toes. Young women make up between 60 and 90% of Raynaud's cases.

Your feet aren't supposed to hurt or cause you discomfort. When they do, there are many steps you can take to get relief. The first, and probably most important, is a visit to your podiatrist. When hammertoes and other foot problems have got you down, let us do what we do best, diagnose and treat the problem so you're back on your feet quickly and painlessly. We are currently accepting new patients for complete podiatric care at DOCTOR'S FOOT CLINIC. Call 784-5585 for an appointment. OFFICE LOCATED AT 3605 N.E. LOOP 286 STE 1800 PARIS, TEXAS P.S. Possible causes of Raynaud's phenomenon includes scleroderma, atherosclerosis, nerve disorders, decreased thyroid activity, injury, and reactions to certain drugs.

# Announcing The Opening Of OPEN IMAGING OF MT. PLEASANT

1901 North Jefferson Ave. \* Mt. Pleasant, Texas 75455

### What is OPEN IMAGING OF MT. PLEASANT?

We are an outpatient diagnostic imaging facility providing open MRI (magnetic resonance imaging), CT (computerized tomography), and ultrasound. The sonography includes obstetrics, vascular, abdominal and pelvic exams.

### What is an open MRI?

MRI is a means of imaging the body without the use of radiation. Until recently many people have been unable to take advantage of the technology because they simply could not tolerate the tight, confining nature of the exam. Our magnet is an open magnet which means that the patient is no longer expected to slide into a narrow tube in order to have the exam. Even people with claustrophobia can rest comfortably throughout the exam, and if the patient wishes, a friend or family member can be in the room the entire time. This is especially comforting to children to have mom or dad in the room.

Our open magnet is a state of the art Hitachi ARIS II MRI that is permanently located in our office, not a mobile unit.

### Will the exam cost more at OPEN IMAGING OF MT. PLEASANT?

What most people are used to receiving for a diagnostic imaging study are two bills: one from the facility that performs the exam and another from the radiologist for interpreting the exam. At OPEN IMAGING OF MT. PLEASANT our fee includes both components and is typically 30% to 40% less than other places.

### What insurance plans do you accept?

We accept Medicare assignments and most major insurance carriers. If you find that we are not a provider listed on your plan, you can contact the office and we will make every effort to become a covered provider. We will also file the claim, and our knowledgeable billing staff is available to assist you.

### What if I do not have insurance?

We have interest-free payment plans.

### Once my doctor has decided that I need one of these special tests, what is the expected waiting time?

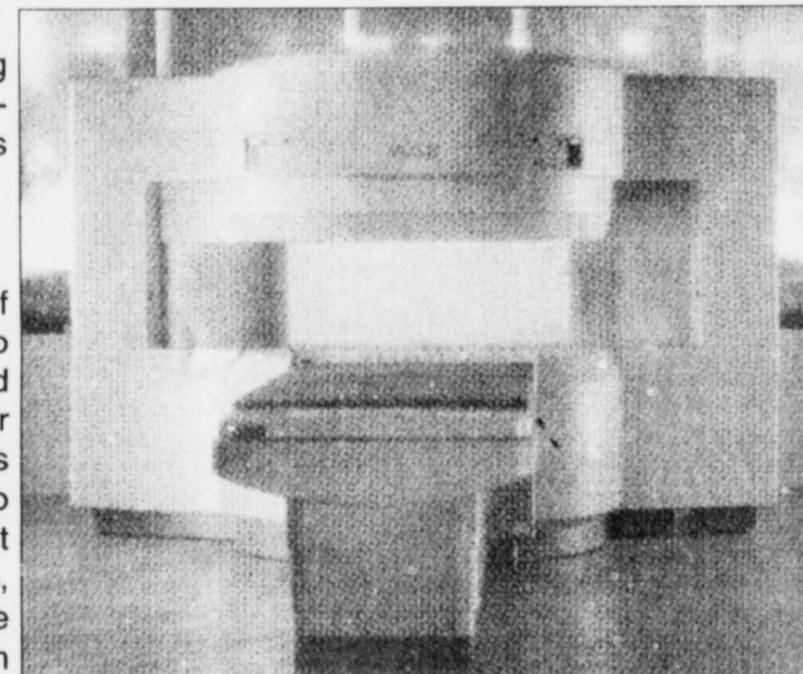

Most studies can be performed the same day or the next day, but certain exams do require a minimum amount of preparation or precertification that may impact scheduling.

### Who will be performing my exam?

Our physicians are board certified radiologists, and our technologists are specially trained in MRI, CT and sonography. They are experienced, friendly and eager to make your visit as pleasant as possible.

### When will OPEN IMAGING OF MT. PLEASANT be in operation?

We began accepting patients Monday, March 20, 2000. For appointments or questions please call 903-575-0325 or TOLL-FREE 1-877-909-6539 or visit our office at 1901 North Jefferson Ave., across from the hospital.

### LifeNet to hold Prom Night Awareness events

Prom Night is notorious for teens involved in alcohol-related accidents. Every year dozens of teenagers are needlessly maimed or killed in accidents involving drinking and driving. What do we do? What will I take to get the message across to teenagers? Life-Net has the answer.

One of the most effective ways to get the message across to teens is to help them connect behaviours (actions) with consequences (results). Telling teens about the dangers is not enough. In this case, seeing is believing. LifeNet is doing their part to help curb teenage curiosity through reality. Operation Prom Night has become an effective tool in teaching students the dangers of mixing alcohol and engines-the dangers of drinking and driving. Students are shown graphic, realistic reenactments of car crash scenes. The scenario is like this: Actual cars involved in crashes set the stage. A young man sits slumped over the steering wheel of the car he is driving as blood stains his clothes. A female passenger in

the car awakens from temporary unconsciousness and realizes what has happened. She screams for help as she's crying over the dead body of her best friend. In another car, a family is totally devastated. A young boy is dead at the scene. The mother and father, bloodied and dazed, shake the boy in a desperate attempt to revive him. Sirens blare as emergency personnel are on the way. The victims are rushed to the nearest hospital. When the bodies are cleared, police discover beer cans and whiskey bottles in the backseat of the teenagers' car. The driver was drinking.

LifeNet wants students to know the reality of drinking and driving under the influence of alcohol. If it doesn't happen to a drunk driver, it certainly affects the family in the other car. You can help LifeNet spread the word about the effects of drinking and driving.

LifeNet will be in Clarksville at Clarksville Lake on April 17, 2000 at 10 a.m. Detroit, Avery and Rivercrest High Schools will be on hand.

### Drug seizure culminates warrant service in Fannin County

On March 27 at approximately 1:30 a.m., investigators for the Regional Controlled Substance Apprehension Program, Fannin County Sheriff's Office and the Bonham Police Department executed a narcotic search warrant just south of Windom in Fannin County.

The search warrant finally brought investigators to the close of a month long investigation of an illegal drug sale operation.

Upon entry into the residence, investigators located Brandon Heath Bowman, age 23 of Bonham, at the residence. A search of the residence revealed several pounds of marijuana, a large quantity of methamphetamine, anabolic steroids, scales and packaging material for distributions.

Investigators located in the

backroom a cultivated indoor marijuana grow operation with several dozen marijuana plants. While searching the residence, Bryan David Nichols, age 23 and Charlie Herbert Thompson III, age 20, both of Bonham, arrived at the residence also in possession of a half pound of marijuana and methamphetamine.

The search netted officers with the three felony arrests, U.S. Currency, pagers, cell phones, and one vehicle, were all seized pending forfeiture. Commander Almond of the Regional Controlled Substance Apprehension Program advises that "because the investigation was completely thorough, some investigators were up 35 hours straight, but at the conclusion we were able to dismantle this entire operation at this particular residence with more arrests likely."

**BIG WELCOME-** Rex, a German Shepherd brought over from Germany by Jake Maurischat, is delighted to see his master. Jake and his wife, Barbara have opened Lone Oak Pet Camp, a boarding kennel with obedience training just south of Deport. (Staff Photo by Nanalee Nichols)

## Jake's business has gone to the dogs

Lone Oak Pet Camp is quite unusual

**By Nanalee Nichols**  
Soft classical music wafts softly down the hall. In each spotlessly clean room there is a luxurious special bed, a "patio" area that looks upon serene country scenery and dining facilities. A non-slip special bathtub is available for those guests who want to be pampered by a warm bath and massage. All is overseen by the German management, and owner, Jake Maurischat. No, it isn't a luxury hotel, it's Lone Oak Pet Camp, located just south of Deport on FM 1503. Lone Oak caters to pets and their people who want a safe, secure place where they can leave their animals when they are away from home.

There are also training and obedience classes for puppies and dogs with behavior problems.

Jake, whose real name is Joachim, is a native of Germany and is married to Barbara Holt Maurischat, a Milton native whose parents, James and Dorothy Holt are well known in the area.

When asked why everyone calls him Jake he grins that "Barbara renamed me for her convenience, since no one could pronounce Joachim".

The good natured man has a love of animals that positively shines forth. His walls have pictures of beloved cats and dogs that have passed away after a long and healthy life.

The couple currently has seven

dogs and four cats of their own, including Jake's newest pride and joy, Rex, a German Shepherd who is only six months old. Rex's real name is Joe von der Schnuckenwein and Jake brought him back from Germany last year at 12 weeks of age.

This spring Jake will go back to Germany and bring back a female puppy in hopes of breeding puppies with an impeccable blood line. In fact, Rex is featured on Jake's internet home page "Marburger Land German Shepherd" which shows the six month old puppy in various pictures and lists his bloodline.

The kennels that Jake and Barbara run is spotless and spacious. Heated and cooled, the dogs receive attention that few kennels can boast. In fact, the smaller dogs such as poodles and Yorkies tend to end up in the house instead of staying in the kennels. Still, those kennels are mighty nice. And they are located close to the house, so that someone is always right on hand.

Jake came over from Germany in 1978. He and Barbara married in 1979 and have made their home in San Antonio until this past year, when she wanted to move back to her home area.

At that time Jake was running his own computer business, which he closed down to make the move. Because of his great love of ani-

mals, he decided to work on Lone Oak Pet Camp instead of continuing in the computer field. Barbara is a counselor at Mt. Pleasant ISD.

After having the shell built, Jake has done all the rest of the work on the building himself. Ramps enable dogs to walk up to the grooming area after a bath, and a spacious area is available for training.

"In two weeks I can turn a dog into a good citizen" Jake grins. He doesn't do it with harsh measures, either, but with patience and reward.

His own animals flock around him in a happy, tail-wagging group, obviously as devoted to "daddy" as he is to them.

Jake attended the American Boarding Kennel Association's training course to become a Petcare Technician, and takes the responsibility of caring for other people's "Furry kids" seriously.

Several elderly pets whose owners have never considered leaving them with anyone else are now being left with Jake because of the trust he inspires.

Does he miss Germany? Yes, he admits he does, but he loves Texas too. And Texas is home to the Maurischats, specifically, Lone Oak, where their pet camp is waiting with reasonable rates, excellent care and lots of loving attention.

## Wildflower hotline is ready for calls

The search for the best wildflower locations along Texas highways is about to get easier.

The Texas Department of Transportation will add wildflower location information to its hot line beginning March 17. The toll free hotline, 800-452-9292, will provide callers with information on the best locations for wildflowers along the state's 79,000 mile highway system.

Predictions for this spring's crop of wildflowers are not as optimistic as they have been in recent seasons because of the dry summer and fall season of 1999, but early blossoms have already been spotted around the

state. TxDOT maintenance personnel assist nature by sowing 60,000 pounds of wildflower seeds along Texas highways each year.

Where there is no impact to motorists' safety, TxDOT may also delay mowing right-of-way in many areas around the state to allow for growth and reseeding of wildflowers.

Another place to view Texas' wildflowers is in Texas Highways April issue. A TxDOT publication, the annual wildflower issue features colorful photographs of bluebonnets, poppies, Indian paintbrushes and more from around the state.

## Summer jobs are available through TxDOT

The Paris District-Texas Department of Transportation began its recruitment of eligible students to interview for positions in the summer hire program on February 23. Interviews will begin May 1. Available positions will be open for clerical support, maintenance and engineering technicians.

The program will begin May 1 and end August 15. Eligible applicants must be at least 17 years of age, and a high school or college student. No previous department experience is required, however, students who worked in the summer hire program in 1998-99 may be eligible for rehire without participating in the interview

and selection process.

Positions will remain open for 20 working days, however, all summer positions should be closed no later than July 3. Applications are available at the local TxDOT office throughout the Lamar, Delta, Rains, Grayson, Franklin, Fannin, Hunt, Hopkins and Red River county areas beginning March 3.
