We forgot for a while.

We forgot for a few years, didn't we? We forgot to fly our flags, appreciate our freedoms, thank God for our blessings. We took it all for granted.

It's beautiful around this nation right now, with flags flying everywhere. I've seen them cut from magazines, off of card board boxes, and flown from car antennas.

There are virtually no flags to be purchased in this country. Red, white and blue ribbons are in short supply. They are beautiful flying everywhere. They lift our hearts and spirits, which had plummeted so low after the terrorist attacks.

But how long will we remember? I hope, this time, we remember for a long, long time.

I suppose it was easy for us to become self-satisfied and over-secure. After all, the cold war was over, World War II something in a history book, and Viet Nam...well, we wanted to forget about that as much as possible.

There was a brief resurgence in national pride back during Desert Storm, but then we sank right back into our apathy.

It's different now, with over 6,000 people dead. We watch the stories unfold, we fear for the future, we want to punish someone, but it's hard to do.

So, we turn to Patriotic displays, as we should. Instead of standing looking bored while the National Anthem plays, sports fans stand at attention, singing with tears coursing down their cheeks.

Instead of passing our flags day by day with never a glance, we look in pride at those glorious colors as they fly from public buildings, private homes, cemeteries.

We are a nation, united, proud, strong. We can stay that way, if we will.

There are things we must get ready for. The sight of our flag draped on coffins will most probably be one of them. We must prepare for months, and years of work, and it will require sacrifice from all of us.

But, our patriotism must be heartfelt and real. We must continue to feel it, and accept the responsibilities that go with it.

For the first time in many years, there is an upsurge in buying American made products. Why has it taken this terrible tragedy to make us realize that we provide Americans with jobs when we buy U.S. products?

Keep flying those flags, and get ready to do whatever sacrificing is necessary. We've been complacent too long, and now we have to accept the responsibilities that come with living in this great nation. Let's do it! And OH, don't those colors look beautiful!

Meringue (muh-rang) is the white, stiffly beaten substance that goes on top of cream pies! Or so it is supposed to be! Sometimes it does not always work out that way. I love to see a pie with the meringue piled high and just waiting for the slice of a knife! Not so in many cases...it seems like more often than not, it is flat, sad looking and has a grainy texture to it!!!!!! Does anyone out there know the secret to meringue?????? If so, let me know!

Meringue is very simply a mixture of stiffly beaten egg whites, (I got this part right!) and granulated sugar (and I have this part right!!!!!!) But, I am missing something! Directions say in order for the sugar to dissolve completely ad therefore produce "an absolutely smooth meringue", it must be beaten into the whites one tablespoon at a time; spread on top of the pie and until golden brown. Just how many times has this came out right for you?

There are several different varieties of meringue.....did you know that? Tuff meringue is used as a swirl topping for pies, pudding and other desserts. It is baked until brown and the valleys are golden. Hard meringues begin by being piped onto parchment paper and baked at a very low tem-

perature around 200 degrees for as long as 2 hours and left in the turned off oven to dry. They sometimes have a center depression and are filled with ice cream, custard, whipped cream, fruit, etc. Italian meringue is made by gradually pouring hot sugar syrup over stiffly beaten egg whites, then beating constantly until the mixture is smooth and satiny. This can be used to create either soft or hard meringues.

So, get in that kitchen, break a few eggs and get to "cracking" for that perfect meringue! Here are some pie recipes I thought you might like, one is from a reader looking for a Key Lime Pie and some are just meringue recipes! See you in the kitchen!!!!

Marshmallow Meringue-this one uses marshmallows along with egg whites!

Meringue Topping-egg whites, vanilla and sugar...what else could be easier!

Lemon Meringue Pie-compare the two lemon meringue recipes and see which one you like!

Luscious Lemon Meringue Pie-this one uses Butter Buds and Egg Beaters!

Key Lime Pie-this is for the special reader who requested it!

Two-Minute Hawaiian Pie-easy and simple...can't be beat!!!

CC teams compete at DeKalb at Bogata First Assembly of God

The Junior High Lady Rebels did well this week according to Coach Debbie Williams. Running for the team were Ashley Shew, Crystal Howerton, Torrie Grissom, Danica Easterling, Bailie Spencer, Vallery and Vikki Schmidt, Monique Savage and Rachel Smith. Shew placed 3rd with a time of 16:57; Howerton placed 4th with a time of 17:32; Grissom placed 5th with a time of 18:10; Easterling placed 6th with a time of 18:38 and Spencer placed 7th with a time of 18:47. Rebel Brandon Buchanan came in third with a time of 18:17 following the 2.7 mile run. In the Varsity Lady Rebel division Stephanie Williams, Erica

Williams, Rachel Case, Nikki Jones, Tina Carder, Danielle Easterling and Krystal Valenzuela ran for the team. S. Williams placed 1st with a time of 14:51; Easterling placed 2nd with a time of 15:20; E. Williams placed 3rd with a time of 16:07; Case placed 4th with a time of 16:45; Valenzuela placed 5th with a time of 17:15; Carder placed 6th with a time of 17:20 and Jones placed 7th with a time of 17:55. Coach Debbie Williams said, we had some girls get off track in the junior high group which made them run 3 miles instead of 2.2 but even at that their times improved. The high school students ran well and we saw improvement in our times". The teams will run next week at Mt. Pleasant on Saturday morning.

CAN SOMEONE WITH A MILD HEARING LOSS BENEFIT FROM HEARING AIDS?

In some cases the hearing loss may actually be mild, however, the client should understand that research suggests that even mild hearing loss can result in significant communication handicap.

Still another reason is that the auditory nerve fibers will receive adequate stimulation possibly minimizing auditory never degeneration.

RED RIVER VALLEY RADIOLOGY ASSOCIATES NOW OFFERING HEART CT SCANS (Coronary Calcium CT Scanning)

- According to 1996 estimates, nearly 59 million Americans have one or more forms of cardiovascular disease.
- Coronary heart disease caused nearly 500,000 deaths in 1996 and is the single leading cause of death in America today.
- From 1979 to 1996, the number of cardiovascular operations and procedures increased 355 percent.

Coronary artery disease (CAD) is the leading cause of death and disability in the United States in both men and women. Patients are usually first diagnosed with CAD when they develop symptoms, display an abnormal response to stress testing, or undergo coronary angiography. Unfortunately, by that time, the condition is relatively advanced. Heart calcification scanning can detect the presence of coronary artery disease, as well as provide an estimate of the extent and severity of coronary disease. This information can then be utilized to optimize patient care, helping to appropriately tailor prevention goals and to determine further evaluation and follow up, if needed.

CAD is the only process which results in the deposition of calcium within the walls of the arteries. Early on in the calcification process, calcium deposits are very small and difficult to detect with conventional x-ray imaging. Over the past few years CT scanning has advanced to the point that detection of even miniscule calcium deposits can be accomplished quite easily. CT scanning, therefore, affords an opportunity to detect coronary calcium early - before patients develop clinical manifestations of coronary disease.

If you would like additional information about Coronary Calcium CT Scanning, please contact Red River Valley Radiology Associates.

Because this is a screening procedure, many insurance plans will not cover this service. The cost of this examination, including the radiologist's interpretation, is \$400. Interest free payment plans are available.

Rotary poster/essay contest is underway

The Clarksville Rotary Club and Rotary International announces an international poster and essay contest aimed at promoting awareness of Rotary in local communities worldwide and educating young people on the concept of service to others.

Based on the 2001-02 RI theme: "Mankind Is Our Business" and designed to demonstrate how helping others makes the world a better place, the contest is open to children ages 12-15 (as of December 31, 2001), one entry in each category per person. "Through Rotary, we can show our youth how vital service to others really is and affirm that Mankind Is Our Business," says President King.

In the poster category, an entrant must submit original artwork that depicts the contest theme on paper size not exceeding 36 inches by 24 inches (150 cm by 100 cm).

Essays, also expressing the contest theme, must be between 300 and 500 words, typewritten, and in English, French, Japanese, Korean, Portuguese or Spanish only.

All 12-15 year old students in Red River County are encouraged to enter the contest and compete for local prizes. The winning poster and essay will compete in a District 5830 contest and the winners of the District Contest will be entered in the International contest where the winners of the International contest will receive \$2,000 in prize money and a trip for them and their parents to the Rotary International Convention in Barcelona, Spain in June 2002.

Entry forms are available from the school teachers and any member of the Clarksville Rotary Club. The entries must be turned in by November 15, 2001, to: Nancy Brem, Red River Bank, Clarksville, Texas.

Star Spangled manners

Demand for American flags is high and people have renewed interest in displaying them at home. The United States Flag Code contains specific instructions on how the flag should and should not be used. Here are some examples:

**Unless illuminated at night, flags displayed outdoors should only be flown from sunrise to sunset.

**The flag should not be flown on days when the weather is inclement, except when an all weather flag is used.

**The flag should not be draped over the hood, top, sides or back of a vehicle or of a railroad train or a boat. When the flag is displayed on a motorcar, the staff should be fixed firmly to the chassis or clamped to the right fender.

**When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flat's own right, that is, to the observer's left. When displayed in a window, the flag should be displayed in the same way.

**When used on a speaker's platform, the flag, if displayed flat, should be displayed above and behind the speaker.

**The flag, when flown at half-staff, should be first hoisted to the peak for an instant and then lowered to the half-staff position. The flag should be again raised to the peak before it is lowered for the

day. On Memorial Day the flag should be displayed at half-mast until noon only, then raised to the top of the staff.

**The flag should never be displayed upside down, except as a signal of dire distress instances of extreme danger to life or property.

**The flag should never touch anything beneath it, such as the ground, the floor, water or merchandise.

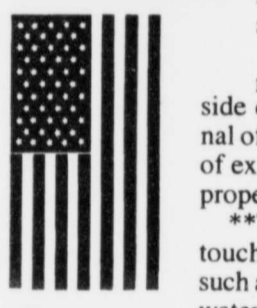

**The flag should never be used as wearing apparel, bedding or drapery. It should never be festooned, drawn back, not up, in folds, but always allowed to fall free.

**The flag should never be used as a covering for a ceiling.

**The flag should never be used as a receptacle for receiving, holding, carrying or delivering anything.

**The flag should never be used for advertising purposes in any manner whatsoever.

**The flag, when it is in such condition that it no longer is a fitting emblem for display, should be destroyed in a dignified way, preferable by burning. Contact your local American Legion or VFW post for information on flag-burning ceremonies, which are often held on June 14, which is Flag Day.

Proper display of the flag when hanging flat on a wall or in a window.

YOU MAY DETECT A FEW CHANGES.

Because electric competition in Texas begins January 1, 2002, you'll soon see a few signs of change. Like the ones for First Choice Power, the new retail electric affiliate of Texas-New Mexico Power (TNMP) which was formed to prepare for competition.

TNMP will still deliver your electricity, but service will be provided by First Choice Power if you don't choose a new supplier. Although you will have a right to choose a new service provider, we hope you'll choose not to choose and remain a customer of TNMP's affiliate, First Choice Power.

Whatever your choice, we're committed to offer the same quality delivery and customer service you now have. So as new signs and clues start to appear, just remember we're still on the case.

Green Thumb promotes Older Worker Week in Texas

Each year Green Thumb, Inc., promotes Hire the Older Worker Week which spotlights seniors and the contributions they bring to the labor force. During this week, employers are encouraged to recognize the rich potential seniors bring to the workplace and to profit from their broad ex-

perience and strong work ethic. According to Diane Cowan, Green Thumb Program director, "During this important week, September 23 through September 29, let us focus upon the important contributions of our senior workers. Already we see in this century an ever increasing demand for skilled workers. We must retain qualified older workers currently in our labor market and give other older job seekers the opportunity to prove themselves. Hiring experience, dependability, reliability and dedication is just good business."

Since 1965, Green Thumb, Inc. through its Senior Community Service Employment Program, has provided seniors with training and part time employment opportunities, which allow for transition back into the mainstream.

Funded through the U.S. Department of Labor, the program serves primarily rural areas in 132 Texas counties. Green Thumb gives older, economically disadvantaged job seekers the opportunity of sharing their years of experience, hard work and dedication through work assignments in locally based organizations. Through their participation, the seniors maintain their independence as productive contributors to their communities and profit from job skills training which allows for transition back into private sector employment.

For more information, contact Green Thumb, Inc., P.O. Box 7898, Waco, TX, 76714, 254-776-4081.

**Letters
to Editor**

The following is an e-mail to Dr. and Mrs. L.C. Stout of Pattonville from friends in France. It's a beautiful letter, and one we thought worth sharing with readers.

Dear Jerry Nell, Dear L.C. How to tell you? How to describe what we felt?

I was listening to the radio when I heard of the plane crashes on the World Trade Center. First, I could not believe my ears. It seems so unreal. Then I went to turn the TV on and when we saw the burning towers on the screen, we could barely breathe.

We got the feeling we were watching a "live" movie...but it was not a movie.

It was 3:30 P.M. In France, and I think I will remember this day all my life.

We've been in New York, in April of 1996, and I can still remember the wonderful moment we spent at the top of the Twin Towers, enchanted by this magical view of the city.

Yesterday, we've been struck by pictures, of course, but also by the tremendous pain of a city, a community, a nation.

My family and I want you to know that we think of you and your country. Some say that time can cure pains and sufferings. Not in this case. Someone has to be punished for those crimes.

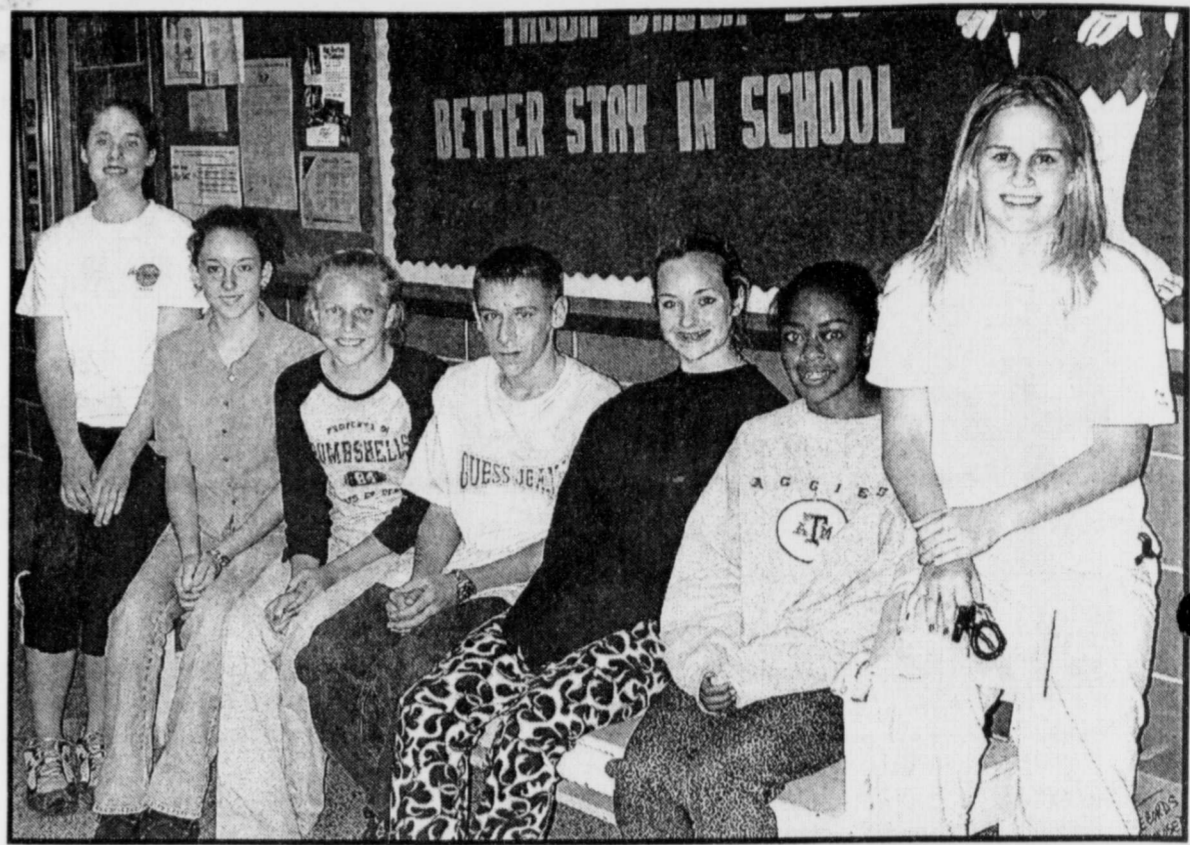

May the victims and their families find peace and the courage to accept.

Those events could happen to other countries all over the world, that's why, in this great moment of sadness and unbearable pain, American people need to know they have friends thinking of them and sharing their pain.

We hope you are all fine.
Love,
John, Jackie and Cle'mence

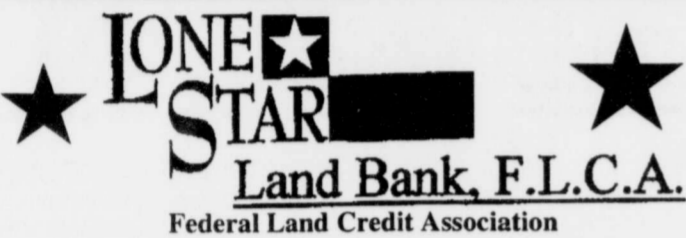

Enjoy Autumn!

The dignified woman, dedicated teacher, devoted mother and dynamic speaker. The dependable friend who was down to earth. The devout Christian who always saw people's worth.

The intelligent woman who was insightful and interesting. Always inviting to teach those who were willing. Very careful to include every single one. Her genuine integrity our lasting respect won.

Affectionate with all those she would meet. Available to many who others mistreat. Always accommodating to help someone out. Adamant about things she believed in no doubt.

The nurturing woman who loved every soul. Her innocence and naivete made her refreshing to know. She was noticeably nice and neighborly too. Her wonderful lessons you never outgrew.

The neatest person you ever could know. Many times she was so nice her face seemed to glow. She was nutty sometimes and a little nery too. She was never afraid to do what others wouldn't do.

Exuberant and exciting in all that she did. Electric and energetic with all of her kids. Experienced educator, particular how you write. And eater of chocolate to the very last bite.

Religious and reverent in everyday life. Rejoicing eternally, never again to face strife. Remarkable reader from morning to night. This radiant woman filled our days with delight.

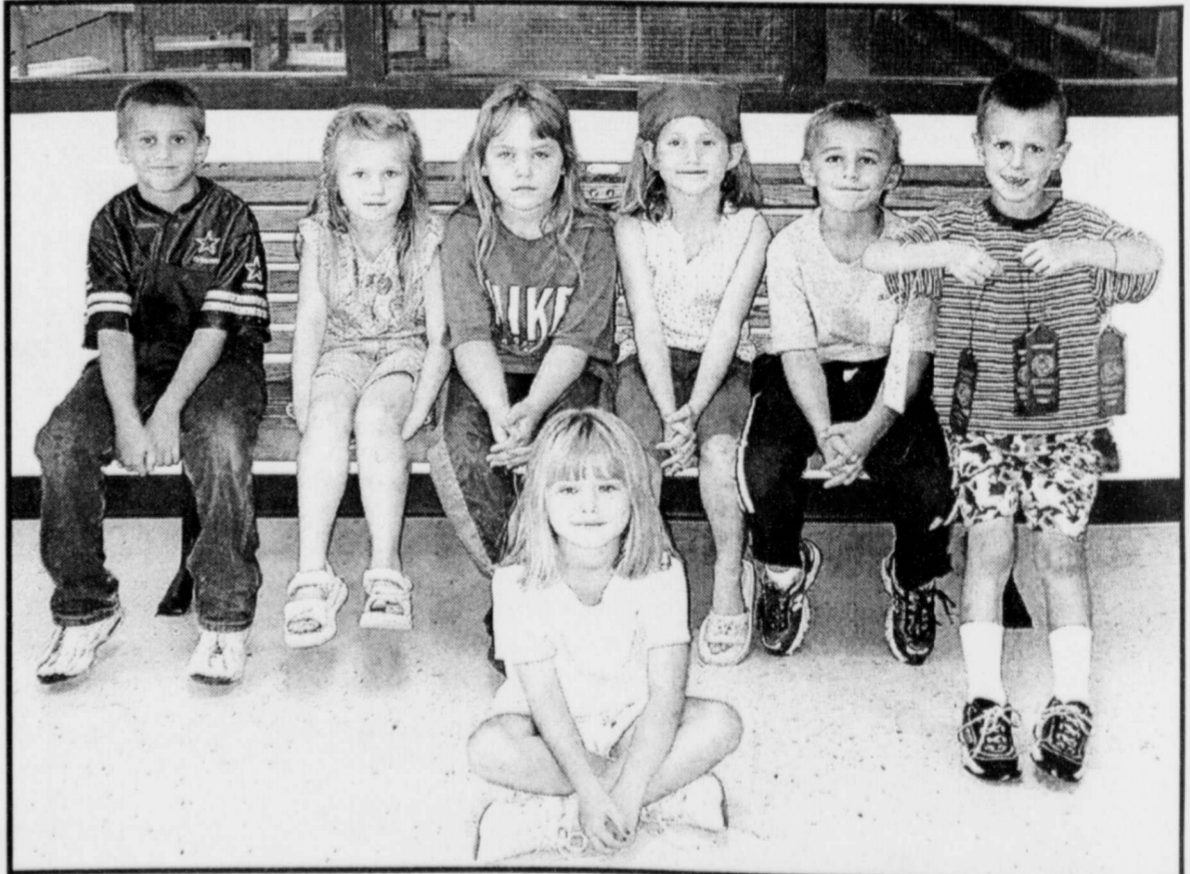

Completely original, the only one. Outstanding in everything, couldn't be outdone. She was always optimistic and had an open mind. Openhearted to all and forever kind.

Spirited songstress touched our hearts. She was sharing and self-less right from the start. Stubborn at times and the good parts of strict. Silly and smiling after playing a trick.

Selfless and sacrificing of energy and time. A spectacular woman who would yield her last dime. This shining example who of herself gave. Is now with our Lord, she's eternally saved!
