Why aren't we all 22?

I want to know why we aren't all firm skinned, smooth skinned, un-wrinkled and as gorgeous as twenty-one year olds?

Why would I think we should be? Simple, just watch television for a while, or open up a magazine, especially a "woman's" magazine. Then, look through the ads.

There they are, ad after ad after ad for creams, treatments, surgery centers, you name it. And all of them claim to renew, revitalize, un-wrinkle, un-age and totally restore your skin to its original, dewy youthfulness.

Some creams only "plump up" smaller wrinkles. Others make the grandiose claim that they actually remove wrinkles.

Others fight wrinkling, age spots, enlarged pores, lack of skin tone, on and on and on.

The one thing that they all have in common is simple. They call cost a lot.

Tiny little jars and vials and tubes cost anywhere from \$50 up to hundreds of dollars!

Of course, no one ever told us that the fountain of youth would be free, did they?

Well, I suppose it would be worth it if they did all that they claim to do.

But, I suspect they don't do nearly so much as they claim.

There is another aspect of this, too. I cannot imagine going in for chemical face peels. I have enough trouble dealing with real, physical problems such as torn rotator cuffs, replaced knees, etc. I can't imagine subjecting myself to a harsh chemical that would literally strip the outer surface of my skin off!

Even more amazing to me is the idea of a face lift. If it is that important to you and affordable, do it by all means.

For myself, I'm too big of a chicken to be anesthetized and cut on in order to pull out my crow's feet!

No, I'm afraid that my many years in the sun, my many hours spent on tractors and my stresses and worries show in my face. And that is the way it has to stay.

I can't afford hundreds of dollars in wrinkle removers, preventers or peels. And, I'm always the skeptic....if it sounds to good to be true, it probably is. Ponce De Leon never found the fabled fountain of youth....and I doubt we'll find it in the bottom of a jar!

Still, if one believes all the ads one reads we could buy about five different products and come out actually getting younger every day. Believe it if you will....I think I'll pass.

First REF Banquet is huge success

The first annual Rivercrest Education Foundation benefit banquet was held Saturday, May 4 at the Rivercrest Elementary cafeteria. There were 278 tickets sold and 260 people were in attendance for the dinner catered by Texas Belle. Approximately \$14,198.00 was raised at the event.

The tables were decorated in a patriotic theme using placemats decorated by the elementary students using descriptive words to spell out "America". Centerpieces were beautiful red geraniums donated by Kelley Farms. Large potted geraniums also graced the stage area. The round table tops were provided by the Prairiland Academic Trust.

Guests were treated to valet parking provided by some of this year's senior class and junior Student Council members. Students also served as waiters for the meal. Those serving were seniors Kendall Stansell, Kayla Belcher, Pearl Ponthieux, Cassie Perry,

Brittany Bull, Robyn Hollis, Krishna Allums, Charla Hines, Steven Shade, Ryan Hawkins, Brandon Davis, Mark Evans, Jerry Ward, Zach Ward, Nathan Carroll, Mollie Moles and student council members Alison Foster and Molly Hare.

Entertainment was provided by the Rivercrest High School band under the direction of Steven Moss, band director. Also, Jeff Jackson, former Rivercrest graduate provided vocal numbers as he accompanied himself on the guitar. Finale for the evening was DJ and the Cuthand Bottom Boys. Their group consisted of Donna Jo Jessee, Stanley Jessee, Jim Purviance and Gary Cheatwood. All are former Rivercrest graduates. The toe-tapping music was enjoyed by all.

Local businesses and individuals donated 146 items for the silent auction. From the small to the very expensive, there was some-

thing for everyone there. Many were handcrafted by area talented artisans. The silent auction netted \$7,918.75 for the foundation.

Together with ticket sales, the event brought in approximately \$14,000.00. This money will go toward providing scholarships in the amount of \$1,000 each to qualified Rivercrest seniors. This money will be used to defray the cost of college or vocational school.

The Rivercrest Education Foundation, Inc. is a non-profit organization whose sole purpose is to provide financial aid in the form of scholarships to Rivercrest graduating seniors.

Everyone who helped to make this year's banquet a success is greatly appreciated. If anyone is interested in learning more about the organization, please contact Rivercrest High School at 632-5204 or any of the 30 trustees for more information.

OVER 260 PEOPLE ATTENDED the Rivercrest Education Foundation's banquet held last Saturday night. The event raised over \$14,000 for scholarships for graduating Rivercrest seniors.

Senior parents seeking donations

The parents of Rivercrest Seniors will be collecting donations for the after graduation lock-in held annually.

This year the school is not sponsoring the lock-in and the parents need your help to furnish gifts, games, food and fun for the lock-in.

Each year many high school graduates are killed traveling to or from parties, some where alcohol and drugs are supplied. Please help these parents keep their children safe by giving them a sponsored party where fun and food are the main items of the evening.

You may make a donation by contacting Kelly Stansell at 379-3841 or calling the Rivercrest High School at 632-5204.

American Cancer Society drive to begin

The American Cancer Society is the nationwide, community-based, voluntary health organization dedicated to elementary cancer as a major health problem by preventing cancer, saving lives and diminishing suffering from cancer, through research, education, advocacy and service. This is the mission statement of the American Cancer Society.

Cancer patients of all ages, their families and caregivers, were reached this year with service and rehabilitation programs provided through local volunteers in every Texas community. These include information delivery, education and support groups, survivor to patient/family visitation and tangible services such as transportation and home equipment.

Cancer prevention and the importance of early detection are the forces of educational efforts in schools and businesses and for

the community organizations and healthcare facilities. Areas of special emphasis are: cancers of the lung; heart; colon, rectum, prostate and skin and nutritional guidelines.

Thanks to the invaluable assistance of over 2 million volunteers, about 200,000 of them in Texas, more than 80% of the money contributed by the public is used for research, patient services and educational programs. This means only 15% goes into fund-raising and 3% into administration.

May and June are the months to contribute locally to your American Cancer Society. A volunteer will call during these months. Look for the American Cancer Society shield on their name tag when you are called upon to be sure the caller is from the society. Your contribution is greatly appreciated by many.

Country Cooking
By Liz Irwin

Our cook this week is Donny McHam from the Blossom area. Donny is an avid hunter and is one of those that only kills what they can eat. Speaking of eating.....his family is not his biggest fans when it comes to the dishes he prepares. A lot of the times his neighbors come by and help themselves to his culinary delights!

He tells the story of his bear hunt in Canada and how he prepares Bear Roast. It is not for te weak of heart or appetite! Bear is loaded with fat and if cooked properly, can taste a lot like beef.....certainly not chicken. He does give the hint that it is high in cholesterol, but he enjoys it anyway.....after all it was his first bear!

Donny is the owner/operator of the Red Oak Gun Shop located on Highway 82 between Blossom and Detroit. He restores older guns and also builds them for other folks, along with being able to do any type of gun repair. He enjoys his work and enjoys visiting with his many customers and hearing their hunting tales as well as telling a few of his own! Up until a few weeks ago, he was a host on a

local radio station doing a weekly show for the outdoorsman or outdoorspeople.

Donny is married to Sheila and she works for the Clarksville ISD. They have three daughters, Leslie, recently married and living in New Mexico, Kelley and Hailey are both students at Detroit.

Although our recipes are a little different this week, we hope you enjoy them and we will see you in the kitchen.....or perhaps in the woods!

DONNY'S FAVORITE VENISON-he started using bacon grease to fry his venison in several years ago when someone told him that it helped to take the wild taste from the meat!

BEAR ROAST-CANADIAN STYLE-this recipe was given to him by a Canadian friend's wife when he was hunting recently up there!

CHICKEN FRIED VENISON-deer meat with a little Cajun flavoring added makes it just right!
SPANISH RICE CASSEROLE-this one he cooks on top of the stove in a skillet.....no microwave or oven for him!

COOK OF THE WEEK this week is Donny McHam of Paris. Donny the owner and operator of the Red Oak Gun Shop where he does custom work on guns of all types and is also a great cook. He is pictured here with one of the guns he is currently working on. He and wife Sheila live in the Blossom area. (Staff Photo by Liz Irwin)

National EMS Week

Some thoughts on Emergency Medical Services

By Nanalee Nichols

For those of you that don't know, I am a member of the Deport VFD and a First Responder. I've also been covering wrecks, accidents, fires and other terrible events for 25 years now as a journalist.

May 19th through the 25th National Emergency Services Week. Just one more in a long line of "Weeks"? Yes and No. Because emergency medical services both professional and volunteer are more important than the average citizen realizes. I will use the word professional to designate a paid EMS worker, and volunteer to designate a non-paid EMS worker. But make no mistake....they both know what they are doing, and often volunteers are professionals who serve as volunteers in their time off.

I have shared a few of my sentiments about EMS personnel with readers in the past, and I want to share a few of them once more, both old and new memories and opinions.

I have seen volunteers and professionals alike with ice coating their bunker gear, exhausted and falling for the tenth time on glaze ice as they go to the fourth or fifth

auto accident of the day.

I have seen professionals and volunteers alike weep over the body of a beautiful child who is past all help, or work frantically to save the life of a child who is almost dead.

I have used and seen people use the AED, giving a heart attack victim the only hope of survival they have. And, sometimes it works! Even when it doesn't. I have seen the comfort and care that EMS personnel extend to the families undergoing the terrible loss of a loved one.

I have watched as volunteers break out body bags and I have searched for sheets to help cover the dead and lend dignity to a corpse.

I watched an elderly patient who was so scared her vitals were "off the charts" relax and settle down because of a kind hand staving off the blackness of a night without company.

I have watched EMS on ambulances practically stumbling in weariness during a flu epidemic, but still managing to give excellent care to their patients.

The jolt of a beeper going off

becomes so ingrained that the deepest sleep is instantly shattered by it's shrill. Clothing is donned by volunteers in seconds, and within only a minute a truck will be rolling to offer comfort and aid. Only a few minutes after that, an ambulance will be on hand also.

I know from personal experience that EMS personnel in the areas our newspapers serve is fast, efficient and caring.

Volunteers struggle to obtain as much training as possible, and they struggle to raise money for both training and equipment.

EMS faces challenges with contracts and pay, but it never stops them from doing their very best for their patients.

EMS weeks doesn't get a lot of publicity. It should.

Because if emergency medical services aren't around to keep a patient viable until they get to ER, all the physicians and hospitals in the world can't help.

The Blossom Times, Bogata News, Deport Times, Detroit Weekly and Talco Times, along with myself, personally, salute the volunteers and the paid professionals of Emergency Medical Services. Keep up the exceptional job!

Car Seat Check-up is June 5

A car seat check-up will be held June 5 from 3 p.m. to 6 p.m. in the Paris Wal-Mart parking lot. The event is being sponsored by the Paris EMS.

The Car Seat Check-up Program was developed by the Department of Transportation and the Department of Health due to the growing number of injuries and deaths of infants and toddlers. National studies have discovered that infants and toddlers were restrained improperly in car seats.

Those same national studies reflected that at least 8 out of 10 car seats are incorrectly used. The studies revealed that correctly installed car seats are 71% effective in reducing deaths for infants, 54% effective in reducing toddler deaths, and reduced the need for hospitalization by 69%.

Paris EMS became involved with the Child Safety Seat Program last year when the studies were brought to the attention of local Paramedics. One of the goals at Paris/Lamar County EMS is injury prevention. Citizens need to know that injuries are prevented if infants and children are properly secured when riding in a vehicle.

A 32-hour training program was developed through the efforts of the DOH & the DOT to educate individuals to become Child Passenger Seat Technicians. This 32-hour training program consists of learning: Basics of injury prevention, Crash Dynamics, Federal Safety Standards, Identifying Vehicle Occupant Protection Systems, Correct Installation of Car Seats, Selecting and Securing the right car seat for each child, and how to set up a Car Seat Check-Up Event. The Car Seat Check-up events are held to educate parents and others on how to select and install the proper child restraint for their child.

Paris EMS sent Paramedic Mike Goss to Child Safety Seat Class in Tyler to become a Child Passenger Safety Seat Technician. Paris EMS sponsored their first Car Seat Check-Up event in May of 2001. During the event, 53 car seats were checked in which 46 of the seats were incorrectly installed.

Paris EMS is planning many more such events to assist citizens in preventing injuries to infants and children.

What you see is what you'll get.

Commitment that matters.

Along with medical emergencies comes the full spectrum of human emotions. Emergency room personnel deal with fear, pain, uncertainty, and anxiety. Beyond the demand for medical expertise, the front-line nature of a hospital emergency room makes this among the most demanding of medical environments. Beyond the need for the professional coordination of nurses, techs, doctors and clerks, there is a continual need to bring to every situation a sense of order and calm.

"The ER continually reminds me why I got into nursing. The people I encounter need more than my ability - they need my compassion and the reassurance of a smile."

Whatever the professional demand, there's no substitute for the compassion of our emergency room staff, and nothing demonstrates that compassion better than a comforting word, a gesture of gentleness and a smile that says, "I'm here for You."

Letters to Editor

Dear Editor,
Recently, it has been the trend to see many articles that begin, "You know you live in a small town when..." I would like to address my letter as "the good thing about living in a small town". There are many, many good things about living and raising a family in a town like Bogata or Talco.

I have been blessed to call Bogata home now for 25 years. In that time, I have experienced many happy events, housewarming, the births of my babies and high school graduations, just to mention a few. We have also gone through difficult times, the loss of parents and grandparents, and times when our children went through illness, injury and surgery. Never in any of those times did I have to wonder if anyone cared or was concerned about my family and me. I am proud to say that my community was there to support us in joy or sorrow. I have witnessed the way our school children have been encouraged through the years. That's just the nature of most people in a small town. They wouldn't have it any other way but to extend that "helping hand" and show of generosity. This outpouring of generosity was shown recently here.

If you were unable to attend the Rivercrest Education Foundation on May 4, you missed a treat. These communities really came out and supported this new organization by their attendance and by donations. With this one event, \$14,198.00 was raised for scholarships for our seniors here at Rivercrest. This banquet will be held annually and each year, all funds will go to provide scholarships in the amount of \$1,000 each to qualified Rivercrest graduating seniors. It is evident the communities of Bogata and Talco are interested in our young people and helping them obtain their goals in life. We can and should help them any way we can; they are our future.

There is a well known scripture in the Bible which reads "Raise up a child in the way he should go and he will not depart from it." By showing our young people that we believe in them and are willing to support them in these endeavors, we are setting an example for them that they in turn can pass on to their children. This is the good example of humanity and community volunteerism; an excellent cycle to continue.

Thanks to everyone who attended the banquet, bought auction items or gave a donation. Thanks to all the trustees who worked hard to plan this event. A special thank you to all of those who entertained us. Everyone on that stage was either a current or former student of Rivercrest High School. That shows loyalty and pride in your school. You are all appreciated.

And thank you Bogata and Talco for making me thankful that I live in a "small town".
Debbie Hare

Lady Rebel golf team has successful season

The Rivercrest Lady Rebel Golf Team recently completed a very successful season. After finishing second in the Yantis Invitational Tournament and the Rivercrest Invitational Tournament, the girls turned in good scores on the tough Mt. Pleasant Country Club Course to win the district championship.

Along with the team championship, Alison Foster was named first place medalist. The district championship qualified the Lady Rebels for the Regional Golf Tournament which was held at

the Peachtree Golf Course in Tyler.

Everyone struggled on a rain soaked course the first day but every member of the Rivercrest team came back to post lower scores in the second round of the 36 hole tournament. Though not qualifying for the state tournament, the Lady Rebels finished well and are looking forward to having all team members back next year. The team is coached by Superintendent, Dr. Gary Van Deaver.

Property Tax Protest and Appeal Procedures

The law gives property owners the right to protest actions concerning their property tax appraisals. You may follow these appeal procedures if you have a concern about:

- *the market or special appraised value placed on your property.
- *the unequal appraisal of your property.
- *the inclusion of your property on the appraisal roll
- *any exemptions that may apply to you
- *the qualification for an agricultural or timber appraisal
- *the taxable status of your property
- *the local governments which should be taxing your property
- *the ownership of your property
- *the change of use of land receiving special appraisal
- *any action taken by the chief appraiser, appraisal district or appraisal review board that applies to and adversely affected you.

Informal Review: 903-427-4181
Red River Appraisal District
101 West Broadway
Clarksville, Texas

Review by the Appraisal Review Board

If you can't resolve your problem informally with the county appraisal district, (CAD) staff, you may have your case heard by the appraisal review board. (ARB).

The ARB is an independent board of citizens that reviews problems with appraisals or other concerns listed above. It has the power to order the CAD to make the necessary changes to solve problems. If you file a written request for an ARB hearing (called a notice of protest) before the deadline, the ARB will set your case for a hearing. You'll receive written notice of the time, date and place of the hearing. If necessary, you may request a hearing in the evening, Saturday or Sunday. Prior to your hearing, you may ask to review the evidence the CAD will

use to uphold their determination. The CAD may ask you for a copy of the evidence you plan to present. The hearing will be informal. You or a designated agent may appear in person to present evidence or you may send notarized evidence for the ARB to review at your hearing. the CAD representative will present evidence about your case. You may cross-examine the CAD representative. the ARB will make its decision based on the evidence presented. The CAD has the burden of establishing the property's value by a preponderance of the evidence presented. You can get a copy of a protest from the appraisal district office at 101 West Broadway, Clarksville, Texas.

Note: You shouldn't try to contact ARB members outside of the hearing. The law requires ARB members to sign an affidavit saying that they haven't talked about your case before the ARB hears it.

Review by the District Court

After it decides your case, the ARB must send you a copy of its order by certified mail. If you're not satisfied with the decision you have the right to appeal to district court. If you choose to go to court, you must start the process by filing a petition within 45 days of the date you receive the ARB's order.

Tax Payment

If you appeal and your case is pending, you must pay the lesser of the amount of taxes due on the portion of the taxable value not in dispute or the amount of taxes due on the property under the order from which the appeal is taken.

More Information

You can get more information by contacting your appraisal district at 101 West Broadway, Clarksville, 903-427-4181. You can also get a pamphlet describing how to prepare a protest from the appraisal district or from the State Comptroller's Property Tax Division at P.O. Box 13528, Austin Texas 78711-3528.

Deadline for Filing Protests with the ARB*

Usual Deadline

On or before May 31 (or 30 days after a notice of appraised value was mailed to you, whichever is later)

Late protests are allowed if you miss the usual deadline for good cause. Good cause is some reason beyond your control, like a medical emergency, the ARB decides whether you have a good cause.

Late protests are due the day before the appraisal review board approves records for the year. Contact your appraisal district for more information.

Special Deadlines

For change of use (the appraisal district informed you that you are losing agricultural appraisal because you changed the use of your land), the deadline is before the 30th day after the notice of the determination was mailed to you.

If you believe the appraisal district or ARB should have sent you a notice and did not, you may file a protest until the day before taxes become delinquent (usually February 1). The ARB decides whether it will hear your case based on evidence about whether a required notice was mailed to you.

*The deadline is postponed to the next business day if it falls on a weekend or holiday.

ACADEMIC JACKETS-will be awarded to, (back from the left) Aaron Palmer, Whitney Savage and Bailie Spencer and (front from the left) Jessica Griffin, Adam Horn and Monique Savage at the Rivercrest Junior High graduation ceremony on Thursday, May 23, 2002. All of the students held a 90 and above GPA. Congratulations students!!! (Staff Photo Nancy Brown)

MANY THINGS IMPROVE OVER TIME.
OUR RELIABLE SERVICE, FOR ONE.

Even though we've always been above average, our reliability just keeps getting better and better. We know that because we measure the number of customers affected by outages each year and the length of each outage. Both of these numbers have dropped, thanks to a strong infrastructure and local service professionals ready to restore power quickly and safely when bad weather strikes.

Texas-New Mexico Power owns the poles and lines your power provider uses to deliver your electricity. That's why we want you to know that when it comes to good service, we've got the muscle to deliver.

Charla Hines competes well

by Coach Debbie Williams

Charla Hines made the finals in the 400 meter at the Region III Conference 2A Track & Field Meet with a 63 preliminary time. Charla's goal had been to make the finals and she expected a lot from herself and this is part of the reason she has been successful as a Lady Rebel: high expectations. On Saturday, Charla ran in the finals and finished with a 62:7 a time she had run in the district meet, but, there was a wind factor

Saturday which made her time better. Charla is in the top 32 in the State of Texas in the 400 meter run and has had a very successful season and year. Charla has represented the Lady Rebel program in so many positive ways though the years. Charla, the daughter of Mr. and Mrs. Charlie Hines of Fulbright is a senior at RHS and will be missed next year.

Miriam Stephenson installed the officers for the ensuing term using

puzzle parts as the theme. She had constructed the puzzle using the club color of yellow as the background. Each officer placed a puzzle part to form the background. Every puzzle part fit snugly together to make a picture as each member is joined with the other to accomplish club goals.
