Sunday guests in the J. D. Nance home were Mr. and Mrs. J. D. Boedeker of Plainview, Mrs. Dusty McLeland and Kevin of Amarillo, Mr. and Mrs. Leo Fleming, Wes, Annette, Scotti and Cary.

Even though Silverton's red and white Owls were eliminated in the first round of the Regional Tournament in a two-point decision to Sands, Jackie Vaughn was elected to the Regional All-Tournament Team, and the green and white Owls from Hedley went on to become the Regional qualifiers for the State Class B Tournament in Austin this weekend. Hedley defeated Sands by four points to advance to the finals.

Thursday morning, news was received in Silverton that Vaughn had been chosen as a member of the Class B All South Plains Team, selected annually by the Lubbock Avalanche-Journal, and his coach, Lyndel Norwood, was selected as South Plains Coach of the Year.

Norwood, in his second year as coach of the Owls, directed the team to the 20-win plateau and to the District title for the first time in 18 years. This year's 20-11 mark represents quite an improvement for the team which went 4-22 last season.

Others named to the All South Plains team were Martin Nichols, Sands; Rex Jones, Anton; Randy Melton, Ropesville; Ramie Quintana, Christ The King. Members of the second team were Lynn Cowan, Spade; Carlton Henderson, Wilson; Jesse Kitchens, Dawson; Larry Simer, Gail, and Elbert Wuthrich, Smyer. Player of the Year was Melton of Ropesville.

The Owls got off to a good start at the Regional Tournament in Levelland Friday afternoon, giving the many fans who had followed them there a lot to cheer about. Silverton scored several points before Sands got on the board, but Sands came on to lead by a point at the end of the first quarter. By halftime, the Owls had built a 25-21 lead over Sands, even though the Owls were having a terrible time getting the ball to go down in the basket. At the end of three periods, the score was tied at 37-37, and with one second to go in the game the score was tied at 52-52. One of the Sands players went up for a shot, an Owl tried to block the shot and fouled, and the Sands player hit both of his charity tosses — something which the Owls just didn't do in the game.

David Strange, Brent Brannon and Jackie Vaughn got in foul trouble early in the game, and Brannon and Vaughn sat out several minutes of the game before returning to action. Vaughn was whistled for a foul on an attempt to block a shot, and retired to the bench, missing most of the fourth period. Strange also fouled out. They were replaced in the game by Jace Francis and Tommy Lacy.

Chief Davidson had the hot hand for the Owls in the second half, hitting some beautiful shots for a total of eight points. Vaughn

David Jones, 30, of Amarillo, husband of the former Judy Yancy, underwent surgery Monday at St. Anthony's Hospital for a massive cerebral aneurysm. He seems to be recovering as well as can be expected. Mr. and Mrs. J. L. Williams have been at the hospital with Judy and other relatives.

Gene Vaughn returned home Friday from an Amarillo hospital where he recently underwent surgery.

Geraldine (Biffle) Yannello of Detroit, Michigan has been a recent guest of Mrs. Josie Anderson and Mrs. Rosie Dickerson.

Eric Patton was exhibitor of the Reserve Grand Champion, a heavy Hampshire, at the San Antonio Livestock Show and Exposition.

22, 1923, but raised in Silverton. I have heard that my father had an Aunt Annie and Uncle Calhoun who lived outside Silverton and also an Aunt Rilda and Uncle Sam who had a house in Silverton. My grandfather was John Turner born sometime in 1861 and his wife was Nora Turner (nee Milby).

I realize that many years have lapsed and my grandparents and the aforementioned Aunts and Uncles have regrettably passed on, however, there may be some of my father's cousins or other relatives still living in or near Silverton who may be able to help me in recording the history of the Turner family.

You Can BANK

on it!

Commonly called the FDIC, the Federal Deposit Insurance Corporation was created by Congress in the Bank Act of 1933, and became effective on the first of January, 1934, during the depths of the Great Depression.

Deposits in virtually all banks in the country are insured up to \$40,000 by this agency of the federal government. Coverage extends to bank checking accounts, savings accounts and certificates of deposit.

Increases in the amount of the insurance stand as something of a yardstick to measure the affluence and savings habits of Americans. When the FDIC first began insuring accounts the limit was \$2,500. That amount has steadily increased up to the present level which went into effect on November 27, 1974.

Contrary to some misconceptions, this valuable service is not financed by the government, but rather by the banks themselves. Presently, banks are assessed one-half of one percent of their year-end deposits.

First State Bank

gotten on in Lubbock. We didn't talk too much. I failed to get her name.

We discussed fruit making here in the Panhandle, and about it getting frozen out almost every Spring. She said, "There is a man at Silverton and I asked him what he attributed his success to having fruit every year. He said 'I spray the trees every year in the spring with PLENTY-4.'"

As I have said, I failed to get anyone's name. For one reason, I just supposed I could find it in either a nursery or a feed store. Think I have called every store that might handle anything like this and as of yet haven't found it in Amarillo.

If you have a nursery or feed store or reader in your town who might help me, I would appreciate hearing from them.

Thank you for your trouble. Respectfully, Mrs. A. L. Williams

The electric heat pump saves energy, so it saves money. By using otherwise wasted Lost Heat present in outside air, the electric heat pump delivers as much as two units of heat for every heat unit of electricity it uses. Nationwide, heat pumps are going into nearly half the new homes with electric heating. In our area alone 287 heat pumps have been installed in the past year. Updating your old home's heating system? Better find out about the heat pump... ask us.
