

## All Around the Town

by Mary Ann Sarchet

You've been hearing the comparison in value between a bushel of grain and a bushel of cereal on television and here's another for you. This was calculated by Postex Plant officials at Post, Texas: 350 double flat sheets worth \$7,748 can be made from one 500-pound bale of cotton for which the farmer who grew it receives only \$200.00. It just isn't fair to our farmers!

The color we have been subjected to here in Silvertown the past few weeks is glistening, dazzling white. Gone have been the bright sun and blue skies, replaced with a drab grey sky and a mantle of icy white.

Color expresses moods and personality traits. Researchers say colors can signal feelings — not just the stop-and-go routine of traffic. If this is true the mood has been somber around here.

Red is said to portray excitement, danger, defiance, rage, beauty, and courage. Those who choose red as a favorite color usually display a vitality for living, winning and achieving results. They are usually athletic and vigorous, yet fickle and impulsive.

Yellow is said to depict light, glory, wisdom, wealth and cheer. Those who love yellow usually are intelligent, open-minded, creative, theoretical and usually optimistic.

Blue is said to denote quiet, somber moods, divinity, honor, purity, innocence, peace and hope. Those who favor blue tend to be conservative, sensitive, perceptive, rational and cautious.

Green is thought to be restful to the eye and nerves and expresses youth prosperity, and a fresh, natural personality with broad interest. While usually tolerant, those who like green may be stubborn and opinionated and are usually ambitious.

Purple or violet expresses regality, sorrow, affliction, sadness and solemnity. Those who favor purple usually have a flair for the mysterious, idealistic, aristocratic and artistic. Many are creative and innovative, but are often conceited.

Orange expresses liveliness, joy, warmth, strength, endurance and caution. Those who love orange usually show vitality and warmth. Many are jovial, friendly and easy to get along with.

In general, extroverts who are outward and gregarious like many colors.

Introverts who are shy or less sociable like few colors.

Remember now these are the findings of researchers.

## Boone McCracken Buried at Quitaque

Funeral services for Amos Boone McCracken, 79, who died Wednesday, were conducted at 2:30 p. m. Saturday in the Quitaque Church of Christ with Earl Cantwell, minister of the Rock Creek Church of Christ, and Elgin Conner, minister of the Quitaque Church of Christ, officiating.

Pallbearers were Murry Wayne Morrison, Deloy Myers, James Brunson, Jimmy Davidson, John King and P. John Monk.

Burial was in Resthaven Cemetery, with arrangements under the direction of Moore-Rose Quitaque Funeral Home.

Mr. McCracken was born July 7, 1898 seven miles southeast of Silvertown. He was the eldest child of Lonnie and Mattie McCracken, and moved with his parents in 1903 to the site that later became a part of Gasoline, Texas. He attended school at Gasoline and married Floye Carter on May 9, 1926 and moved into the home he had built for them at Gasoline. The couple lived there until 1973. Upon his retirement from farming, they moved to Quitaque. He was a member of the Church of Christ.

Survivors include his wife Floye, of the home; one son, Stewart McCracken of Tulsa; two daughters Mrs. Alvie (Glenda) Francis of Silvertown and Mrs. Collette Young of Tucson, Arizona; one brother, Leon McCracken of Quitaque; two sisters, Miss Mary Ellen McCracken of Quitaque and Mrs. Maudine Richmond of Turkey; nine grandchildren including Barry, Becky and Katy Francis

## Owls Win Bi-District

UIL Solo Competition Participants are, from left, Eber Gill, Jeni Denton, Cynthia Edwards, Melinda Sutton, Brenda Cantwell, were Dave Francis and Annette Kingery, who also took part in the competition.

## Awards Presented At Banquet Saturday Night

The Fourteenth Annual Silvertown Young Farmer-Young Homemaker Awards Banquet was held Saturday, February 18, in the Silvertown School Cafeteria. Special guest speaker was Mrs. Jean Burchett of Childress. Mrs. Burchett is a humorist and writer and has been called the "Female Jerry Clower."

Wayne Stephens presided as master of ceremonies for the banquet. After the invocation by Wayland Fitzgerald, a barbecue dinner was served. Local Boy Scouts Mitchell Roehr and Mitchell Martin led the Pledge of Allegiance.

Wayne Stephens recognized the special guests, and progress reports were given by Young Farmer President Tobe Riddell and Young Homemaker President Carolyn Turner.

The Young Farmers named Susan Payne and James Alan Patton, 4-H Gold Star winners, as the outstanding 4-H Girl and Boy, and Brent Brannon received recognition as the Outstanding FFA Member. Awards were given to Bennie Reagan and Jack Duin for their support of the Young Farmers. Orville Turner received the award for Outstanding Young Farmer, Riley Harris for Outstanding Agri-Businessman, and Calvin Shelton for being Outstanding Associate Member.

The Young Homemakers honored Stan Couch for his support of their organization, Brenda Cantwell as the Outstanding FFA member, Ted Klingery for his community service and Carolyn Turner as Outstanding Young Homemaker.

Music for the banquet was provided by John Francis, Jack Cheatham, Bennie Brown, Jimmy Burson, Jack Sutton and Clifton and Joy Stodghill.

Mrs. Virginia Dowd is back at work at The Coffee Shop this week after having spent a week as a patient in the Lockney Hospital being treated for pneumonia.

of Silvertown, and three great-grandchildren.

The Plainview High School Gym was the scene of Bi-District action between the Silvertown Owls and Spade Longhorns Tuesday night, and fans saw the Owls take charge of the game early and win by a 55-39 margin.

Big Jackie Vaughn burned the baskets with 30 points, most of which came in the second and fourth quarters, to lead all scorers. In addition, Vaughn and Jace Francis, who scored six points, effectively controlled the boards and almost completely shut out Longhorn efforts at second shots.

Brent Brannon caged nine points, Paul Brannon rang up six points and Kirk Durham added four. Kyle Bean also took part in the victory but did not score.

A large number of spectators were on hand from Plainview, Lockney, Narazeth, Hale Center, Quitaque, Turkey, Lubbock, Am-

arillo and other towns to join the Owl Boosters, almost completely filling the Silvertown stand.

The Owls trailed at the end of the first quarter, but had regained the lead before halftime and extended their lead throughout the second half.

Spade	12	22	29	39

### REGIONAL TOURNAMENT

Playoff pairings for the Regional Tournament, which begins Friday in the Texan Dome at South Plains College in Levelland, show Silvertown playing San Elizario at 4:00 p.m. In the same part of the bracket are Channing and Motley County, who play at 2:30 p.m. Friday. Hedley and the winner of Christoval vs. Sanderson play at 7:00 p.m. Friday, and Ropesville plays Forsan at 8:30 p.m. Friday.

In the semi-finals, the winners of the first two games play at 9:30 a.m. Saturday, and the winners of the second two games play at 11:00 a.m. Saturday. The winners of these two games play in the finals Saturday night at 7:00 o'clock.

The Silvertown Schools have announced plans to have 30-minute classes Friday, in order to get all classes in and dismiss at 12:30 p.m. Friday has been declared color day, and everyone in Silvertown is asked to wear red and white. The Owls will need as many fans as possible to cheer them to victories in Texan Dome. Go to the ballgames—they'll be good ones!

## National FFA Week Is February 18-25

Members of the Silvertown FFA Chapter join with over 500,000 other FFA members in the United States in celebrating National FFA Week which started February 18. This is also the beginning of the 50th Anniversary for the Future Farmers of America.

Throughout the week the state's 901 chapters are planning activities to support the theme FFA at 50 "A Golden Past — a Brighter Future."

The traditions of FFA have held strong and produced a mighty work force for food and fiber to meet the needs of our nation and the world. Successful agricultural leaders of today are the testimony. The 50-year success story is the story of Learning By Doing.

National FFA Week always includes George Washington's birthday in observance of his leadership in promoting scientific farming practices. Washington is considered the patron saint of the FFA and has come to symbolize the FFA Treasurer.

Organized in 1928, the FFA promotes leadership, cooperation and citizenship among high school vocational agriculture students. The FFA Foundation awards program provides chapter, state and national recognition for supervised program of agricultural production, marketing, processing and service.

Fred Brannon entered Nichols Hospital in Plainview Monday, and underwent surgery Tuesday. He was reported to have come through the surgery in good condition and was feeling better Tuesday evening.

Mrs. Henry McMinn of Levelland, a sister-in-law of the late Bud McMinn, is a patient in Methodist Hospital in Lubbock after breaking a leg in a fall at her home last Thursday morning. She slipped on the ice when she went out for the morning paper. She underwent surgery Saturday, and expects to be in the hospital there for three weeks.

Rank Cogdell had the misfortune of slipping on the ice at school Thursday afternoon of last week and breaking his arm. He was taken to Northwest Texas Hospital in Amarillo by the Silvertown Volunteer Ambulance Service.

Rank was kept in the hospital overnight and returned to school this week.

Rank was kept in the hospital overnight and returned to school this week.

## Woman Killed, Two Injured In Auto Accident

Mrs. Diana Aguilar, 23, of Phoenix, Arizona, was killed in a one-car accident about 2:00 a. m. Monday on Farm-to-Market Road 145, about three and a half miles east of Claytonville. Mrs. Aguilar had been visiting her parents, Mr. and Mrs. Ramon L. Davila in Silvertown since Thursday of last week.

Injured in the mishap were two sisters of Mrs. Aguilar, Delma Davila, 21, and Irma Davila, 14, both of Silvertown. They were taken by Swisher Ambulance for emergency treatment at Swisher Memorial Hospital in Tulsa and then transferred to Northwest Texas Hospital in Amarillo. Velma Davila's condition was listed as critical late Monday after she underwent surgery. Irma Davila's condition was reported as serious.

The wreckage was not discovered until 7:00 a. m. Mrs. Aguilar's two sisters, passengers in the car, had been exposed to the subfreezing cold for about five hours.

Mrs. Aguilar was driving the car which was heading east from Plainview to Silvertown when it went out of control and struck a concrete culvert at the left side of the road, according to officers. Sidney Hooper, Swisher County justice of the peace, pronounced Mrs. Aguilar dead at the scene. Claudie Hinkle, Texas Highway Patrolman of Tulsa, was investigating officer.

The accident was blamed on the ice-capped highway, which is thought to have caused the automobile to skid out of control and hit the culvert.

The former Delia Diana Davila was born September 9, 1954 in Miles City, Montana. She married Benito Aguilar June 6, 1979 in Twin Falls, Idaho. Mrs. Aguilar had lived in Phoenix, Arizona since 1971, moving there from Aberdeen, Idaho. She was a member of the Pentecostal Church of Phoenix.

Surviving in addition to her parents and two sisters are her husband, Benito; two daughters, Lydia Angelica and Lisa Aguilar, both of the home; two sons, Tomas and Luis Antonio Aguilar, both of the home; three other sisters, Gloria D. Castillo of Pocatello, Idaho, Nora D. Delgado of Borger and Angelina Davila of Silvertown; four brothers, Adolfo Garza of Eagle Pass, Manuel Davila of Pampa, Raul and Ramon Davila, jr., both of Borger; and her grandfather, Felix Parras of Asherton.

Funeral services will be conducted at 3:00 p.m. today (February 23) at Our Lady of Loreto Catholic Church in Tulsa, with Father David Greka of Tulsa officiating. Burial will be in the Silvertown Cemetery, with arrangements under the direction of the Moore-Rose Silvertown Funeral Home.

## Mignone Rauch Scholarship Finalist

Silvertown High School has received notification that Mignone Rauch, daughter of Mr. and Mrs. Robert Rauch of Silvertown is a finalist in the National Merit Scholarship program. She has received a Certificate of Merit.

The selection of Merit Scholars is now in progress and only the finalists are eligible to compete for Merit Scholarships. Over 14,000 finalists are being considered for the 1,000 National Merit \$1,000 Scholarships and some 2,900 four-year Merit Scholarships to be awarded this spring.

For over two decades the National Merit Scholarship Program has focused upon one clearly defined sector of the nation's young people, those at the uppermost end of the academic ability scale. The continuing purposes of the program are to identify and honor academic excellence among United States secondary school students and to award scholarships to a sizable number of highly able students each year. The Merit Program is a privately funded endeavor, the only major scholarship competition that is both independently supported and national in dimension. The total of Merit Scholarships to be offered in 1978 is over seven times greater than the number awarded in 1956, the first year of the competition; the value of the awards offered an-

MIGNONE RAUCH

nually has increased from less than \$2 million to about \$11 million each year.

As a finalist in the Merit Program Miss Rauch has distinguished herself among a highly select group of students representing less than one-half of one percent of the nation's graduating secondary school seniors.

Miss Rauch is an outstanding member of the Silvertown Owlette varsity basketball team and takes part in a variety of school, church and civic activities. She plans to attend Baylor University next fall.

**Sites Viewed As Atomic Waste Dumps**

Two sites somewhere within Randall, Armstrong, Swisher or Briscoe counties will be selected sometime after this summer for test core drilling in the University of Texas: Bureau of Economic Geology's continuing study of the Palo Duro Basin as a possible location for the nation's first commercial geological nuclear waste repository.

Dr. E. G. Wermund, study director, stressed that it should not be inferred that the bureau has pinpointed these or any other specific areas in the basin as final candidates for a repository.

Rather, he said the four-county area has been chosen for test coring due to the extreme thickness of the deep salt deposits underlying the region.

By examining as large a cross-section of the basin's salt strata as possible, bureau investigators hope to gain a better understanding of the salt deposits and some clues about the stability of the strata which may have to maintain the integrity of highly toxic and radioactive nuclear wastes for some 250,000 years.

The Palo Duro Basin — sub-basin of the great Permian Basin — runs in an east-west band underlying Deaf Smith, Parmer, Randall, Castro, Swisher, Armstrong, Briscoe, Donley, Hall, Collingsworth and Childress counties.

For the past several years, this sub-basin has been under consideration as one of three areas in Texas where so-called non-military nuclear "garbage" could be deeply and securely buried.

The Palo Duro Basin, along with the Dalhart Basin in the northwest part of the Texas Panhandle and the salt domes in East Texas, initially were identified for this research by Union Carbide's Office of Waste Isolation under a contract with the Energy Research and Development Administration, now part of the new Department of Energy (DOE).

The university geological research group is conducting extensive field and literature studies for DOE in connection with the waste disposal project and has just completed the first phase of that investigation, Wermund said.

That initial portion of the basin research involved several geological, hydrological and natural resource surveys.

In those deep geological regions where "fairways of thick salt" have been located, Wermund says the bureau has undertaken oil, gas, uranium and even copper future generation drilling into a repository area in search of these resources.

If the integrity of a repository were compromised by such an accident, the results could be disastrous with the potential for the release of the deadly waste materials into the environment — or contamination of the aquifers overlying the repository.

Studies of the Ogallala and Do-

cum aquifers will attempt to identify any areas where groundwater may come into "communication" with a deep salt deposit—either now or in the coming millenia, Wermund said.

While salt deposits are considered extremely stable geological formations, they could be dissolved if contact occurs with groundwater.

Other studies of the basin include a survey for surface fractures and, said Wermund, bureau scientists are attempting to gauge the speed at which the Panhandle caprock is weathered and washed away through erosion processes.

The bureau also is looking at the playa lakes which occur in natural depressions in the relatively flat High Plains terrain. Wermund said these depressions could provide a clue to the geological strata below.

The next phase of the basin study, the core drilling, will begin sometime during the next federal fiscal year. The study of the East Texas salt domes, on the other hand, began only in January of this year.

A comparison of the two areas as to which would make a better repository site would be premature at this point, Wermund says.

The third Texas study area, located beneath Dallam County and extending partly into Hartley, Oldham, Potter and Moore counties, does not appear as promising as either the domes or the Palo Duro Basin, Wermund said. No extensive study is planned, therefore, for the Dalhart basin.

According to the director of the repository project for Union Carbide, the DOE schedule calls for the first of six repository sites to be selected sometime this year and to be ready to receive nuclear wastes by 1985.

Speaking with state officials in Austin last March, Dr. Clayton D. Zerby said the first two sites will be in salt formation, apparently enhancing the possibility a site in Texas will be chosen.

He stressed, however, that federal energy officials have taken the position that if a state government objects to the locating of a repository within its boundaries, the siting proposal will be withdrawn.

Marguerite Reynolds has recently been a visitor in Stamford with D. C. Macon, sr., and friends. She was a guest in the home of his sister, Mrs. Hazel Fuqua Overton. Mr. Macon and Mrs. Reynolds dated one another before they were married and now both have lost their spouses in death.

Mrs. Shorty Whitehead fell on the sidewalk in downtown Silverton Wednesday morning, and, after receiving treatment at the Briscoe County Clinic, was taken to Lockney General Hospital by the Silverton Volunteer Ambulance Service.

**What Think Ye?**

Always we hear the plaintive cry of the teenagers: "What can we do? Where can we go?"

The answer is: 'Go home! Hang the storm windows! Paint the woodwork! Rake the leaves! Mow the lawn! Shovel the walk! Wash the car! Learn to cook! Scrub the floors! Repair the sink! Build a boat! Get a job! Help the minister, the Red Cross, the Salvation Army! Visit the sick! Assist the poor! Study your lessons! And then, when you are through—and not tired, read a good book!

"Your parents do not owe you entertainment. Your village does not owe you recreation facilities. The world does not owe you a living. You owe the world something. You owe it your time and energies and your talents so that no one will be at war or in poverty, or sick, or lonely again.

"In simple words: 'Grow up! Get out of your little dream world! Start acting like a man or a lady!'"

Footnote: I suspect that if more parents had stayed home more, teenagers would "go home."

—Earl Cantwell

**Owls Win Junior High District Championship**

Silverton's Junior High Owls defeated the Valley Patriots in the play-off for the District Championship here Monday night and the Nazareth Junior High Swiftettes defeated Valley in the playoff for the girls district championship.

The Valley girls played a strong game against Nazareth particularly in the first half and trailed by only a point at the midway stop. The Swiftettes came back a 27-21 victory.

The Valley girls played a strong game against Nazareth particularly in the first half and trailed by only a point at the midway stop. The Swiftettes came back a 27-21 victory.

Following the meal, FHA President Susan Payne gave the welcome Cruz and Eber Gill.

The team has been coached by Duane Reynolds and has lost only two games — both of them to the Valley Patriots — since they began playing basketball.

**Sweetheart Banquet Held Feb. 11**

The 1978 Sweetheart Banquet sponsored by the Silverton Chapter of Future Homemakers of America was held Saturday, February 11, at 8:00 p. m. in the Silverton School Cafeteria. Theme for the banquet was "This One's For You," and decorations were done in pastel shades of pink, violet, blue and orchid. Pink roses decorated the tables and a lattice archway was placed at the door.

After the invocation by Debbie Storie, everyone was served a buffet-style meal of lasagne, fresh salad, and garlic toast. Mothers who helped serve were Pat Fitzgerald, Loretta Green, Darla Greenhaw, Rosemary Perkins and Lou Younger. Bread, iced tea and cherry delight dessert were served by eighth graders, Barbi Denton, Barbara Edwards, Cynthia Edwards, Gena Malone, Vicki McJimsey, Stacey Robertson, DeAnn Strange, Tarri Thomas and Dani Whitfill.

Following the meal, FHA President Susan Payne gave the welcome

Chris Sperry, son of Mrs. Diane Sperry of Tulia and grandson of Mrs. Marguerite Reynolds of Silverton recently won a Division I on a vocal solo he performed in interscholastic league competition in Canyon. The late Para Moore was his accompanist in the contest. The judge commented that he hoped that Chris would further his music career.

come and recognized the special guests: Mike Martin, FHA Beau; Mr. and Mrs. Lee Clay, Mr. and Mrs. Larry Jarrett, Mr. and Mrs. Charles Wayne Mayfield, and Mr. and Mrs. Charlie Payne, Chapter Parents;

Superintendent and Mrs. O. C. Rampley, Principal and Mrs. B. J. Willis, Mr. and Mrs. John Thacker, Miss Cathy Woodyard, Mr. and Mrs. Duane Reynolds, Mr. and Mrs. George Reed, Miss Linda Doerfler, and Mr. and Mrs. Marvin Self, members of the high school faculty and their spouses. Gifts of appreciation were presented to Mike Martin, FHA Beau, and Mrs. Reed, FHA Advisor.

Entertainment was provided by "The New Sound Singers" from Amarillo High School. They sang a number of popular hit songs, including Barry Manilow's, "This One's For You."

Chris Sperry, son of Mrs. Diane Sperry of Tulia and grandson of Mrs. Marguerite Reynolds of Silverton recently won a Division I on a vocal solo he performed in interscholastic league competition in Canyon. The late Para Moore was his accompanist in the contest. The judge commented that he hoped that Chris would further his music career.

**DEPENDENCY TAX REGULATIONS DIFFER FOR SEPARATED OR DIVORCED PARENTS**

Certain tax regulations apply to separated and divorced parents in claiming children as dependents, the Internal Revenue Service said. Since only one parent can claim each child as an exemption, the parent, generally, with custody of the child for the greater part of the year is entitled to the dependency deduction.

According to the IRS, there are two exceptions to the rule based upon terms of the divorce decree or other agreement and the amount contributed to the child's support by the parent without custody. Divorced or separated parents should check the details of these exceptions in their tax instructions before either parent claims the children as dependents.

The free IRS Publications 501, "Your Exemptions and Exemptions for Dependents," and 504, "Tax Information for Divorced and Separated Individuals," provide additional information and can be obtained by filling out the handy order blank in the tax package.

**Auditions Are Sunday For "Texas" Drama**

Sunday, February 26 will be the last audition date for the 1978 season for "Texas". The directors will be in the Branding Iron Theatre in the Fine Arts Building on the campus of West Texas State University in Canyon Texas from 1:00 until 5:00 p. m. on that Sunday afternoon. They will be looking for singers, actors, dancers, and players of guitars, banjos, double bass, violins, and accordion.

Dancers will try out at 4:00 p. m. The directors have completed their hearings in Dallas, Houston, Austin, and Lubbock, and will finish the series in Canyon on February 26.

They will be looking for command of the stage, a voice that can be heard outdoors, actors who can understand character motivation and who can convey a variety of emotion. They will expect to hear a memorized scene not to exceed three minutes, and a song which will reveal the range of the voice.

Members of the "Texas" company must be free to report for rehearsals on May 21, 1978. They will rehearse eight hours a day until the opening, June 14, and thereafter will work in the evenings at the show. Schedules are arranged so that company members may attend West Texas State University if they wish.

A student with a year or more of college can earn about \$900 for the season in one of the chorus positions (rehearsals and performance.)

Performances are in the Pioneer Amphitheatre in the inspiring Palo Duro Canyon State Park, near Amarillo and Canyon, Texas.

For further information call 806-655-2182 or write Box 268, Canyon, Texas 79015, "Texas" Musical Drama.

**Solutions Being Offered For Agriculture Dilemma**

Farmers from across the state will join others from South Dakota, Indiana, Ohio, Colorado and Wyoming in a parity campaign to Washington February 20 through 24 when members of Farmers Union will sift through the more than 400 new bills introduced to solve the agricultural dilemma.

"We're taking ninety Texas farmers to the Capitol in a well organized support movement for solutions," said Jay Naman, President of Texas Farmers Union. "Our protesting members who have been in Washington for weeks have done an excellent job of pointing out the depression we are in. They have also given Congress the message that we are not going to tolerate a poor farm bill. We go to add our additional thrust and to get behind those bills which would truly bring a about 100% of parity rather than those that simply give political lip service to the problem."

Congressional hearings in both the House and Senate continue to receive voluminous testimony and new bills which are being introduced. A March 15 deadline exists however, for any proposal which would affect the 1979 budget.

"I feel confident that some changes can be made," Naman continued. "But we must act together and get behind specific legislative proposals that offer practical solutions, farm coalitions with other groups, educate urban Congressmen and then count our votes. If we don't pull this thing together, we could let the committees draw us past March 15 and then say 'sorry folks, you'll have to wait until next year to see any improvement in price supports.'"

The Texas farm leader points out that there are some items such as labeling and inspecting imported beef and a mandate to the Administration to set world price floors which could be implemented after the March deadline.

"To raise the loan rate or alter the disastrous sections of the farm bill (e. g. cotton)," says Naman, "we must get the bills onto the full floor of both chambers. If farmers are left to play second fiddle to the Panama Canal, then America has only just begun to see what a farm protest looks like!"

The Farmers Union will be carrying a full arsenal of information and voting records to "separate the sheep and the goats in Congress who are trying to court us with their newly found concern for family farmers."

"It might amaze many of the people who are being taken in by rosy speeches to know that only a few of our Texas delegation in Congress have ever supported 100% of parity. Our first challenge is to convince rural Texas Congressmen to support full parity."

Farmers Union members will be visiting with their individual Congressmen as well as working in three-man teams to visit urban and out-of-state lawmakers. Farmers who represent the cotton areas of the state will also have a special session at the USDA with cotton specialists to voice concern over the trade-oriented cotton section of the farm bill. A visit with State Department officials including Trade Ambassador Robert Strauss is also on the agenda.

**DEAR EDITOR:**

I am sure you are rejoicing with us over the end of our current drought — and the abundant rainfall we have had — and still receiving. Our rains have measured above normal for the season — here in Marin County, normal is 36; already we've received 41 inches and more is forecast for the next few weeks.

I'm thankful for all the fine folk there — for what you have meant to my family through the years and for what you mean

**Time Of Preparation For Musical Drama**

Winter and spring for the staff of musical drama "Texas," is a time for preparation. Before the 1978 summer season from June 14 through August 26, there are auditions, meetings and election of the Texas Panhandle Heritage Foundation Board which produces the show, construction in the Palo Duro Canyon of a new rehearsal room for the cast as well as a new entrance to the theatre, trials of sound and lighting and struggles with a script for a sound and light show (a possible attraction for the fall after "Texas" closes), ordering of pictures, writing of news releases, mailing out of thousands of pictures and stories, discussions of policies, agreement with the Parks and Wildlife Department about the enlargement of some of the facilities at the amphitheatre, selection of a cast for "Texas" and a month of rehearsal.

In May, when people say "It's about time to start getting ready for "Texas", isn't it?", we nod in our exhaustion and say, "yes!" The ticket office is open. The show will play nightly except Sundays from June 14 through August 26 with one Sunday performance on July 2. Reservations are advised. The Texas Panhandle will welcome you.

Sheriff and Mrs. Rufe Jordan of Pampa visited their daughter Anne McMurtry, Monday and attended the junior high district championship playoff basketball game in which their grandson, Kelly McMurtry, was a participant.

now — especially in the illness of Mrs. Ed (Ina) Lain. God bless all of you.

When you're in the San Francisco area please contact me. Sincerely, your friend, Bonnie D. Chappell 203 Gill Hall Mill Valley, California 94041

**Stockholders' Meeting Held February 8**

Central Plains Savings Association held its Annual Stockholders' Meeting on February 8, 1978, in the Association's office in Tulia. Olan Alexander, President of the Association, gave a detailed report of the Association's activities during 1977, reporting that the savings department had increased more than \$6,500,000 and the total lending amounted to over \$11,400,000. He stated that as a result of the growth of savings and loans the total assets at the end of the year amounted to \$32,349,005. Mr. Alexander stated that the past year had been one of tremendous activity in residential real estate lending.

Looking into 1978 Mr. Alexander predicted that the coming year would be a good year. The savings flow during the month of January was comparable to that in 1977.

The following directors were elected for a one year term: Olan Alexander, Dr. James P. Cornette, W. K. (Kirk) Hulsey, Mike Hutchinson, James E. (Pete) Laney, Jack Love, Dr. Fred V. Richards and Ralph Wayne. Following the Annual Stockholder's Meeting a board meeting was held in which the following officers were re-elected: Ralph Wayne, chairman; Jack Love, vice chairman; Olan Alexander, president; James E. Laney, sr., vice president; Randall B. Kidd, vice president and assistant secretary; Kay Ashmore, assistant vice president; W. K. Hulsey, secretary; Dr. Fred V. Richards, treasurer, and Shirley Rhoads, assistant secretary-treasurer. Three new officers were elected: Sid McGinnis, loan officer in the Tulia office, assistant vice president; Hollis Bostick, comptroller in the Tulia office, assistant secretary, and Duane Dodson, assistant manager in the Plainview office, assistant vice president.

Mrs. Ollie McMinn and Mr. and Mrs. Ewing Vaughan attended Mr. and Mrs. Melvin Watkins between Amarillo and Canyon Sunday. Mr. and Mrs. Watkins built the house themselves, beginning the first day of August last year, and moved in at Thanksgiving. Since that time they have been living in the house while finishing it. Mrs. Watkins is the daughter of Mrs. McMinn.

**Worming Your Way Into Food**

Guess I'll go eat worms. Remember that expression? Don't laugh — worms are being used in a variety of recipes, according to Steve Bryant, Manager of the Bryant Golden Spread Worm Ranch, Inc. Hartley, Texas, one of 31 national distributors for North American Bait Farms, Inc. of Ontario, California, is announcing the opening of their annual "Ver de Terre" (earthworm) Recipe Contest this week.

Bryant feels that worms are a high protein food that can represent a partial answer to the world food shortage and not just as livestock feed, but for human consumption.

Bryant Golden Spread Worm Ranch, Inc. is offering three prizes, first prize \$50.00, second prize \$30.00 and the third prize of \$20.00 for the best recipe submitted using earthworms as an ingredient. All recipes submitted will then be forwarded to North American Bait Farms, Inc. and entered in the National Worm Recipe Contest where the first prize will be \$500.00, second prize \$250.00 and the third prize of \$100.00.

The three finalists for the National Contest will be flown to Los Angeles, California on May 24 to prepare their winning recipe for a panel of judges.

Last year's contest brought in more than 2,000 recipes. Lynn Remisovsky, a 31-year-old school teacher from Bayonne, New Jersey, won NABFI's 1977 Worm Recipe Contest; her winning recipe was "Quich Lorraine Avec Ver de Terre." Not only did she win first place and \$500.00 for her effort, Lynn also appeared as a guest on the Johnny Carson Tonight Show, as well as appearing on several other TV and radio

programs due to the publicity she received.

While our contest is entirely serious in the sense that we really are giving away money for prizes and are genuinely interested in recipes, our main purpose for sponsoring the contest is to stimulate public interest in the earthworm and their many benefits to man and ecology.

The earthworm industry, believe it or not, is a rapidly growing billion dollar a year business.

If you are wondering how you raise these "pets" just feed them your biodegradable trash and see how ecology comes into the picture! How much trash can they consume? Worms will consume up to 75% of a family's waste — or a city's waste.

The rules for entering the contest are simple.

Prepare a recipe using earthworms as its primary ingredient, then send it (a card — not the finished product) to Bryant Golden Spread Worm Ranch, Inc., Box 407, Hartley, Texas 79044. All entries become the property of North American Bait Farms, Inc., Ontario, California. All recipes that are entered will be judged for eye and taste appeal by a panel of expert judges.

**The Congregation Of The CHURCH OF CHRIST Meeting At Rock Creek**

EXTENDS A GRACIOUS WELCOME TO ALL TO ATTEND ANY AND ALL OF OUR SERVICES.

SUNDAY	
Morning Worship .....	10:30 a.m.
Evening Worship .....	6:00 p.m.
WEDNESDAY	
Evening .....	7:00 p.m.

**the Long Arm of God**

There may be times when your church seems to be growing slowly, when you become discouraged because your work seems to bear no fruit. Don't be discouraged. The Lord would say to you in Deut. 1:21, "Fear not, neither be discouraged," for I am with you.

During the very time you are discouraged, the Lord may have good news for you. This period of time may be more spring than winter. It is an open secret that God's arm is not shortened that he cannot save; neither is his ear heavy that He cannot hear.

Therefore, let us keep on working and praying that we may in our hearts possess the land of rest and comfort and peace with God. "The glory of the Lord shall be thy reward." He tells us in Isaiah 58:9, "Then thou shalt call, and the Lord shall answer; thou shalt cry, and He shall say, Here I Am."

We pray that the church and its fellowship will be your dearest treasure. May the church be the place where your "heart interest" lies. We invite you to attend services this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# The Face Of Resusci-Anne

A good many Silvertown people became acquainted with Resusci-Anne, a life-like, life-size manikin dressed in a blue ski outfit, when they took part in local cardiopulmonary resuscitation classes.

Resusci-Anne was developed by Asmund S. Laerdal, a Norwegian toy and doll maker and book publisher from Stavanger, a fishing village along the coast on one of the southernmost fjords. He had made imitation wounds, or moulages, for the various armed services throughout Europe. His expertise in these fields had led the Norwegian Society of Anesthesiologists to seek him out and ask him to create a device for teaching mouth-to-mouth and mouth-to-nose resuscitation.

Resusci-Anne's face has the unblemished smoothness of a model. It is crowned with natural appearing honey blond hair. Her features are tranquil and entrancing, with closed eyelids, a quiet yet puzzling expression, with an unfathomable smile, seeming sad yet happy.

When her neck is lifted and

her head tilted backward into maximum extension, her lungs can be inflated through her mouth or nose. With each inflation, her chest rises and falls. The rescuer can tell by watching the chest rise and fall, by feeling the lungs expand and by hearing the air escape during exhalation that adequate ventilation is being achieved. If the head is not extended adequately, the airway becomes obstructed just like in real-life.

As the manikin evolved, Laerdal could not find a face which really satisfied him. Then, one day while visiting his in-laws' home, he saw on the wall the death mask of a young girl. He was immediately intrigued by her mystical beauty. It struck him that this mask of a person taken by death in her youth would make an ideal face to use for teaching how to save countless lives.

This death mask was reputed to be the face of an unidentified young woman found drowned in the Seine River in Paris. There was no evidence of violence and it was assumed by some that she had drowned herself. Her ethereal smile entranced the beholders and many stories were fabricated to explain the death of one so young and so beautiful. The circumstances surrounding her demise were never established; but some of these stories found their way into

print. This enigmatic mask thus became the face and personality of Resusci-Anne.

After the development of the technique of external cardiac compression to provide artificial circulation without opening the chest, Resusci-Anne was modified so that he also had a compressible chest and a sponge rubber heart which produced a palpable pulse in her neck when artificial circulation was performed effectively. She became the basic tool in providing training in cardiopulmonary resuscitation for doctors, nurses and rescue groups in a nationwide program carried out by the American Heart Association and its affiliates and chapters.

Since her introduction, an estimated twenty to thirty million people throughout the world have been trained on twenty thousand copies of Resusci-Anne. Countless thousands of lives have been saved.

Through the years, Resusci-Anne has acquired a family. Resusci-Andy is her male counterpart. He can also be used for training in all aspects of cardiopulmonary resuscitation. Resusci-Baby is an infant manikin properly scaled for the practice of infant resuscitation. Anatomic Resusci-Anne has a trachea, bronchial tubes, lungs, heart and major blood vessels which show ventilation of the lungs and circulation of the blood when resuscitation procedures are performed. Most recently, Arrhythmia Resusci-Anne has appeared. She has an electronic heartbeat which can be displayed on an electrocardiograph or an oscilloscope. When her normal heart rhythm is programmed into a series of potentially lethal rhythms, use of an electronic DC defibrillator or synchronizer on her bare chest can convert her heart tracing back to normal. If this fails,

the trainee can apply cardiopulmonary resuscitation. All of these modifications of Resusci-Anne have the same death mask, the face that helps save lives.

## Mell Clardy Honored At Birthday Party

Mell Clardy was honored Sunday, February 5 on her 76th birthday anniversary with a dinner in her home at Quitaque. Her birthday was February 1, and her children and grandchildren prepared the dinner and celebration for the following Sunday.

The lunch was prepared by Gracie Crosslin, Amarillo; Deane Moore, Melba Brittain, Henrietta Scoggins, Mary Dell Scoggins, Zeola Taylor, all of Quitaque; Virginia Jo Clardy, Silvertown, and Florida Bell of Nashville, Arkansas. Zeola Taylor registered the guests.

Attending from Silvertown were Mr. and Mrs. Joe Gallington, Henry Ivory, Emma Ivory, Dorothy Crosslin, Mr. and Mrs. Charlie Clardy and family.

Telephone calls extending best wishes came from Kelsie Baker, Jr. and Eddie Baker, both of Amarillo, and Mrs. Dorothy Baker of Silvertown, as well as her children who were unable to attend.

## FmHA FARM LOAN FORECLOSURES

Farmers Home Administration has developed the following policy on the loans on which maturities have not been met:

- FmHA will continue with those delinquent borrowers who have:
  - acted in good faith.
  - made an honest effort to pay but cannot through no fault of their own.
  - demonstrated appropriate farm management skills.
  - a reasonable chance to succeed.
- maintained and accounted for security.

FmHA will plan with borrowers on use of income and debt repayment according to the borrower's ability to pay.

FmHA will make full use of loan renewal and reamortization authorization.

FmHA will issue revised procedure to provide for deferment of principal and interest payments up to five full crop years for both new and existing loans.

However, if foreclosure proposal is caused by abandonment of property, failure to graduate to other credit, unauthorized sale of security, or some other flagrant reason to conflict with covenants of the note and mortgage, FmHA will proceed with needed actions appropriate to the occasion, which could include foreclosure.

Swisher and Briscoe Counties are being serviced through the Farmers Home Administration Office located at 219 Northwest Second Street, Tulia, Texas.

## USDA TO PAY RETROACTIVE FOOD STAMP BENEFITS

People who would have qualified for a 30-day emergency allotment of food stamps but were turned down under 1974 verification procedures may be eligible for back benefits, Assistant Secretary of Agriculture Carol Tucker Foreman announced today.

People whose applications were delayed or denied or who contacted food stamp offices but didn't apply because they thought the 1974 rules would cause delays or other problems also may be eligible for retroactive benefits, Ms. Foreman said.

A federal district court in San Francisco recently ordered the U. S. Department of Agriculture (USDA) to pay the back benefits, after ruling the 1974 verification procedures invalid because they were not published for public comment in the Federal Register, as required by federal law.

"USDA allows applicants in urgent need of assistance to get an emergency 30-day food stamp allotment without having to wait for all the information on the application to be fully verified," Ms. Foreman said. "This aid is limited to applicants who list net income low enough to qualify for free food stamps — \$30 a month for a family of four."

However, under the 1974 rules, applicants could only receive this emergency aid without verification once every six months. Local food stamp offices also could not issue the emergency stamps until they got preliminary confirmation of household circumstances from a source with knowledge of an appli-

## Deadline Is March 1 For By-Mail Vehicle Reg.

Texas motorists were advised today that the deadline for renewing 1977 motor vehicle registrations by mail is March 1.

R. W. Townsley, Director of the Motor Vehicle Division of the State Department of Highways and Public Transportation, pointed out that it is taking longer to register vehicles this year because of the new staggered registration system.

As a partial offset of slow moving registration lines, county tax offices began accepting registration applications January 1 this year instead of February 1, as in previous years. Many motorists have taken advantage of the earlier registration date to avoid waiting lines.

Renewal by mail offers a very convenient method of obtaining registrations without waiting lines or personal visits to the tax offices. Mail applications must include \$1 for each registration to cover handling and postage.

Some metropolitan counties are offering BankAmericard-Visa Card and Master Charge service for registration payments. Others have a "no-check" policy which requires taking cash to the tax offices, although most accept checks for mail order registrations.

Neighborhood substation service also is available in some metropolitan areas.

Although deadline for mail registration is March 1, final date for affixing new validation stickers to existing plates is April 1 this year, as usual.

To avoid the last minute delays and long waiting lines, register your vehicle today.

## NEW ARRIVALS

Mr. and Mrs. David Holt are parents of a son, Jonathan Zebadiah, born February 16 at Central Plains Hospital in Plainview. He weighed seven pounds.

Grandparents are Dr. and Mrs. John Boyd of Eden, Robert Boyd of Kingsville and Mr. and Mrs. Rex Holt of Silvertown. Great-grandparents are Mrs. John H. Boyd, El Campo; Mrs. Rita Ferguson, Rosevine, and W. A. Holt of Silvertown.

Doug Yarbrough, a former Music and Youth Director of the First Baptist Church in Silvertown, visited with local friends who were in Plainview Tuesday during the Pastor's and Laymen's Conference. Mr. and Mrs. Yarbrough, who live in Amarillo, became parents of a son last week. He said the mother and baby were doing fine. The couple also have a 15-year-old son, Robbie.

Ronnie Doyle of Henrietta was taken by the Silvertown Volunteer Ambulance Service to Swisher Memorial Hospital in Tulia about 11:00 a.m. Saturday, after he had been struck by a pickup on the job. He is employed by Gill Electric Construction Company of Henrietta, and the company was assisting Swisher Electric Cooperative in repairing damage done by the recent ice storm northeast of Silvertown. He suffered a sprained back, and has now been released from the hospital.

cant's financial situation.

Ms. Foreman said retroactive compensation would be limited to those who applied for or asked about food stamps after August 4, 1974, the date that the verification procedures went into effect.

State welfare agencies will have until April 7 to notify people who might be eligible for back benefits. People who think they qualify should contact their local food stamp offices for further information.

Dear Customer:

The City of Silvertown collected four bacteriological samples during the month of December 1977. The results of the coliform bacteriological samples exceeded the Texas Department of Health's "Drinking Water Standards," which were promulgated as required by the "Safe Drinking Water Act," Public Law 93-523. Drinking water containing coliform bacteria in excess of the standard may constitute a potential threat to public health. Your water system has collected additional check samples as required by the "Drinking Water Standards," and these were found to be free of coliform bacteria.

Coliform organisms are common to the intestinal tracts of man and animals. Their presence in water is an indicator of bacteriological contamination of the sample either from the water system or from a sampling error.

In the months of October, November and December 1977, four water samples were tested each month and three of the four samples taken for the month of December were in excess of the standard. The following week additional samples were taken as required and were found to be free of coliform organisms.

Carl W. Woods  
Water Superintendent  
City of Silvertown

## CONFERENCE ON AGING POSTPONED UNTIL JUNE

The 1978 Governor's Conference on Aging, originally set for February 20, has been rescheduled and will be held at the San Antonio Convention Center June 26-27, according to an announcement today by Alton O. Bowen, chairman of the Governor's Committee on Aging.

Goals and format of the conference will remain unchanged, except that the conference will be extended to a two-day meeting, Bowen said.

"It is our hope that those older persons who had made arrangements to attend the conference will continue to maintain their enthusiasm for the meeting and will join us in San Antonio in June."

Planning for the June conference is already underway Bowen

Mr. and Mrs. Ted Strange and DeAnn and Mr. and Mrs. Riley Harris, Shelly and Scotty, spent the weekend at Cloudcroft, New Mexico.

Mr. and Mrs. Jerry Millhollon, Mr. and Mrs. Fred Edwards and Mr. and Mrs. Danny Green and families spent a recent weekend skiing at Angel Fire.

Mrs. Mollie Riddle and her twin sister, Mrs. Odis Honea, celebrated their birthday anniversary together in Quitaque Sunday. The occasion was also Toby Honea's birthday anniversary.

said, adding, "We will increase our efforts to ensure that older Texans will have their chance to express their needs and desires at the meeting."

The results of the coliform bacteriological samples exceeded the Texas Department of Health's "Drinking Water Standards," which were promulgated as required by the "Safe Drinking Water Act," Public Law 93-523. Drinking water containing coliform bacteria in excess of the standard may constitute a potential threat to public health. Your water system has collected additional check samples as required by the "Drinking Water Standards," and these were found to be free of coliform bacteria.

Coliform organisms are common to the intestinal tracts of man and animals. Their presence in water is an indicator of bacteriological contamination of the sample either from the water system or from a sampling error.

In the months of October, November and December 1977, four water samples were tested each month and three of the four samples taken for the month of December were in excess of the standard. The following week additional samples were taken as required and were found to be free of coliform organisms.

MISS PERKINS IS NEW RAINBOW WORTHY ADVISOR

Miss Rose Lee Perkins, daughter of Mr. and Mrs. Thomas Lee Perkins, was installed as Worthy Advisor of the Silverton Rainbow Assembly in a formal ceremony Saturday afternoon at the Masonic Lodge.

Miss Perkins chose Hope as the theme of her term of office and "Hope is for the Future" as her motto. Her colors were green and white and her flower, the rose. Her scripture was selected from Hebrews 6:19, "Hope we have as

TAX FORM DUE SOON FROM FARMERS

Farmers may have to file their 1977 Federal income tax return and pay any tax due by March 1, the Internal Revenue Service said today.

Farmers who did not file a declaration of estimated Federal individual income tax and pay the amount of estimated tax by January 16, must file their 1977 tax return and pay all tax due by March 1 to avoid a penalty, according to the IRS.

By definition, farmers are those persons who earned at least two-thirds of their 1977 gross income from farming.

IRS Publication 225, "Farmer's Tax Guide," and 505, "Tax Withholding and Declaration of Estimated Tax," provide additional information and are available free at local IRS offices.

LEGAL NOTICE

Sealed bids will be received in the office of Superintendent of Schools until April 13, 1978, at 7:00 p. m. on one 60 Passenger 1966, I. H. C. Bus being offered for sale. This equipment may be seen at Silverton Schools. Bid proposals may be secured by contacting O. C. Rampley, Box 597, Silverton, Texas 79257 or calling 806-823-2476. 8-2tc

an anchor of the soul, both sure and steadfast, and which entereth into that within he veil."

Installed to serve with Miss Perkins during her term of office were Melissa Greenhaw, Worthy Associate Advisor; Lisa Childress, Charity; Susie Tipton, Hope; Annette Fleming, Faith; Roxanne Bullock, Drill Leader; Scotti Fleming, Chaplain; Barbara Edwards, Confidential Observer; Teresa Turner, Nature; Donna Hale, Immortality; Jan Reynolds, Patriotism; Cynthia Hale, Service, and Dani Whitfill, Outer Observer.

The Installing Officer was Elaine Forbes, and assisting her were Jane Self, Marshall; Christi Davidson, Chaplain; Sheryl Breedlove, Recorder, and Joni Mayfield, Musician.

The new Worthy Advisor was honored at a reception following the installation and introduction of her family, Melissa Greenhaw, Barbara Edwards and Annette Fleming were hostesses for the reception.
