

Holiday Closings Announced Here

Silverton businesses are announcing plans to close for the Fourth of July Holiday next Tuesday.

Planning to close Monday, July 3 and remain open Tuesday, July 4, are Nance's Venture Foods, Caprock Foods, Grabbe-Simpson Chevrolet-Olds, Jack's Pharmacy, Briscoe County News, Briscoe County Clinic and Fogerson Lumber & Supply.

Those planning to be open Monday, July 3 and closed Tuesday, July 4 are Jones Dept. Store, First State Bank, Jerry's Malt Shop, Thompson Implement Company, Silverton Auto Parts and Brown-McMurtry Implement.

Planning to close both Monday, July 3, and Tuesday, July 4, are Briscoe County Farm Bureau, Hut-sell Insurance Agency and Brown Hardware.

Young Farmers Hear Speaker

Silverton Young Farmers held their regular meeting June 8. Guest speaker was Craig O'Dell of Lubbock, an International Harvester representative. Mr. O'Dell showed a film on Pro-Ag, a computer set-up to assist farmers in the management of their farms. He also ran some sample programs.

During the business meeting, Van Breedlove was elected vice-president for the remainder of the term. Plans were finalized for the June 17 dance.

A committee was chosen to hear a band for the rodeo dances in August. The club also voted to repair the welder.

Members attending were Tobe Riddell, Wayne Stephens, Walter Hill, Merle Roehr, Fred Hill, John Thacker, Jeep Jarrett, Riley Harris, Fred Brannon, Calvin Shelton, Clinton Dickerson, Orville Turner, Jerry Bean, Fred Minyard, G. W. Chappell and David Williams.

Church Secretaries' Workshop Planned

Billed as the "best yet" by its planners, the 14th annual Church Secretaries' Workshop at Wayland Baptist College in Plainview will be held July 20-22.

Its cost this year is tagged at \$33 and includes tuition, room and board. The keynote address will be given by the Rev. Bob Beck, pastor of the city's second largest Baptist Church, College Heights, and a Wayland trustee. Rev. Beck is a former pastor of the First Baptist Church in Quitaque.

This year's opening session will be held in the Llano Estacado Museum on the Wayland campus at 3:00 o'clock. Registration will start at 1:30 p.m. in Gates Hall foyer.

Welcoming talks will be given by Pat Shackelford, a secretary at Wilshire Park Baptist Church, Midland, and president of the Association of Church Secretaries, and Wayland President Dr. Roy C. McClung. Dinner will be served at 5:30 p.m. in Slaughter Memorial Center.

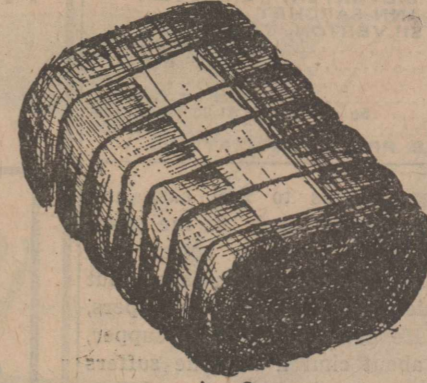

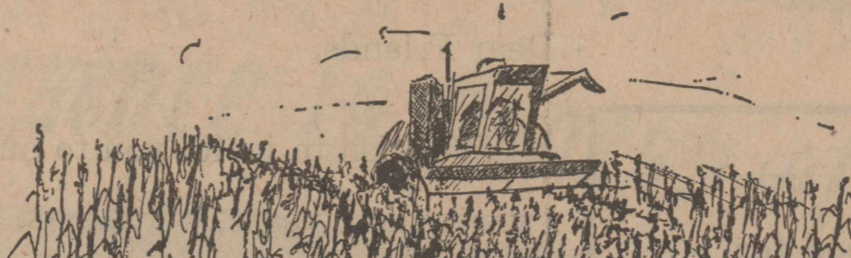

The evening session will feature Russel Noel, associate pastor for church programs, First Baptist Church, Tulsa, Oklahoma. Later, Virginia Koch will discuss personal improvement. She is with the Special Services Division of the Baptist General Convention of Texas.

Second day morning sessions will include personal choice conferences. Conference leaders include Stan Blevins, pastor, Oakwood Baptist Church, Lubbock; Jim Neyland, business administrator, First Baptist Church, Lubbock; Jack Parker, minister of education, Paramount Baptist Church, Amarillo; J. E. Meeks, pastor, First Baptist Church, Muleshoe, and Ron Ehrhridge, minister of music, First Baptist Church, Plainview.

Afternoon conferences will feature Marsue Dodson Henderson, secretary, First Baptist Church, Hobbs; Wilburn Lackey, social worker, Texas Department of Human Resources, Plainview, and Ms. Shackelford.

Friday's luncheon will highlight Dorothy Barkley, secretary to the pastor at Lubbock's First Baptist Church. The Friday session will be climaxed with a banquet and style show. Fashions will

Fireworks Display To Be Held At Lake Mackenzie July Fourth

Adeana Morris of Floydada, the reigning Miss Mackenzie, was at Lake Mackenzie Tuesday afternoon to assist L. O. A. Junior Study Club members in planting a tree

the club had donated. The tree is a juniper evergreen. Club members taking part were Mrs. Jerry Baird and Mrs. Tom Burson. (Briscoe County News Photo)

Farmers Asked To Certify Acreage

All Briscoe County farmers are asked to certify their 1978 planted acreage and set-aside with their County ASCS office not later than August 1, 1978.

These acreage reports must be as accurate as possible (measure them) to insure their eligibility for receiving the benefits of price support and disaster, deficiency or other payments. This office is offering measurement service by aerial observation again this year.

Phelps Reunion Held In Quitaque

The descendants of the late Mr. and Mrs. J. T. Phelps gathered at the Community Center in Quitaque June 17-18 for a reunion to revive old memories and to create new ones. Each brought a covered dish of his choice, and lunch was served to Frank and Nora Lee Yeary, Silverton; Other and Flossie Truelock, Paducah; Ocie and Tommie Harrison, Quitaque; Basle and Nancy Phelps, Dallas; Namon and Lola Mae Phelps, Farmington, New Mexico; Delbert and Ruth Phelps, Quitaque; Charles and Ruth Phelps, Leadville, Colorado; Betty Salisbury, Sonia and Dwan, Albuquerque, New Mexico;

Also, Jim and Eunice Phelps, Jimmy, Donna, Debbie and Suzie, Everett, Washington; Mr. and Mrs. Bob Phelps, Mesquite; Joe and Oree Cook, Paducah; Lisa and LaDonna Newbrough, Denver, Colorado; Truman Lynn Harrison, Tom and Vickie Harrison, Billy and Janie Harkey, Robby and

be furnished by Gabriel's Department Store.

On Saturday, the session will be finalized by Noel. The workshop will close at noon.

Jarrett Attends Teen Leader Lab

Nearly 200 young leaders from 4-H clubs in 20 South Plains counties participated in a district teen leader lab in Levelland June 13-15.

The annual three-day workshop was held on the campus of South Plains College, Earnest Kiker, Briscoe County Extension Agent said. Earl Jarrett, a young leader from the Briscoe County 4-H, participated in the District 2 4-H Teen Leader Lab. He is a State 4-H Council Officer this year.

A team of 12 older youths from Dawson, Scurry, Garza and Borden counties conducted the learning experiences for the 4-Hers attending the lab.

The participants performed a variety of tasks ranging from group learning and discussion sessions to game tournaments and special morning and evening ceremonies.

Activities focused on teaching teen leaders to help others learn about cake decorating, recreation, camp cooking, expressive arts, photography, gardening, grooming and leathercraft. Time for fun and relaxation provided the teens with the opportunity to make new friends.

The annual leader lab helps 4-H youths to develop skills in working with younger club members and provides an opportunity to broaden their friendships and develop leadership qualities.

Mr. and Mrs. Charles Sarchet and her mother, Mrs. J. M. Hill of Tulia, drove to San Antonio last week for a visit with Mrs. Hill's brother-in-law and sister, Mr. and Mrs. S. J. Fisher. They were joined in San Antonio Saturday morning by Mr. and Mrs. Jim Hill, Brad and Brian of Tulia, and all drove to a ranch between Uvalde and Rock Springs to attend a Worrell family reunion. The get-together was hosted by Mrs. Hill's nephews and their families, Mr. and Mrs. Charles Carson and Mr. and Mrs. John Carson.

Also, Cecil and LeNora Truelock, Leora Galyean, Paducah; Letty Jean Mayberry, Becky, Jeana and Amanda, James and Maurice Truelock, Odessa; Mr. and Mrs. Buck Scroggs and Crista, Perryton; Mr. and Mrs. Otto Miller and Tommy, Pampa; Mr. and Mrs. Billy Kulms and family, Anton, and Mr. and Mrs. R. L. Harrison, Morton.

A special event is being planned at Lake Mackenzie on Tuesday, the Fourth of July. The Silverton Lions Club and Silverton Volunteer Fire Department will have a fireworks display.

Everyone is invited to gather around the lake at 10:00 p.m. to watch the fireworks which will be set off on the center island at 10:00 p.m.

The fireworks display is being presented by the sponsoring organizations without charge, but those going onto the lake property will still have to pay the regular \$1.00 for recreation permit if they do not have an annual recreation permit.

The lake depth is down slightly due to absorption and evaporation, but is still standing at more than 102 feet. The water is clearing, the water temperature is 78° and all is in readiness for the holiday weekend.

Fishing is improving at the lake, and catches this week have included an 8½ pound channel cat and a 7½ pound yellow cat. Crappie and walleye fishing is improving, with the crappie moving into deeper water. Regular catches of two-pound channel cat are common.

Sandwiches, pop, groceries and fishing supplies are available from

FLOMOT HOMECOMING SET FOR JULY 1-2

The 1978 Tri-annual Flomot Homecoming will be held Saturday and Sunday, July 1-2, at the Flomot Community Center. A good program is planned for both days. Letters have been mailed to ex-students and teachers whose addresses are available, according to Mrs. Herb Martin, secretary.

A dance will follow the crowning of the 1978 Homecoming Queen on Saturday night. The gym will be available for visiting with old friends and for class reunions. All exes are extended a cordial invitation to attend.

Mr. and Mrs. Charles Phelps of Leadville, Colorado visited his brother-in-law and sister, Mr. and Mrs. Frank Yeary, Monday of last week.

Frank Yeary is home from the hospital and doing very well after eye surgery.

Young Farmers Have Meeting

Silverton Young Farmers held a called meeting June 20, and voted to donate to the sponsorship of "TEXAS Cradle of Giants."

The club's family outing will be held in July at Lake McClellan.

The club will give away a shotgun at the rodeo.

Attending the meeting were Jeff Tiffin, Tommy Bullock, Joe Maciel, Clinton Dickerson, Bill Reid, Walter Hill, Fred Minyard, Bailey Loyd, Calvin Shelton, John Thacker, Wayne Stephens, Merle Roehr, Fred Brannon, Van Breedlove, G. W. Chappell, Tobe Riddell, Jerry Bean, Able Asebedo and Rick Fangman.

Named To Dean's Honor Roll In Oklahoma

Several hundred students, including Jack D. Robertson, jr., of Silverton, Texas, have been named to the Dean's Honor List for having grade point averages of 3.0 or higher with no grade lower than C in any course.

Only those individuals enrolled in 15 or more semester credit hours were eligible for the list.

More People Expected On Highways This Fourth Of July

Major W. C. Bell, Regional Commander of the Texas Department of Public Safety, said, "Traffic speeds are up and more people are expected to be on Texas highways this Fourth of July holiday."

Operation Motorcade for the Fourth of July will be in effect beginning at 6:00 p.m. Friday, June 30, 1978 and ends at 11:59 p.m. on Tuesday, July 4, 1978. All deaths resulting from traffic accidents will be reported to the Austin Department of Public Safety Headquarters immediately through the various Texas Law Enforcement agencies.

Operation Motorcade will last 102 hours with every available Trooper on the road at all times. Drivers License, Motor Vehicle In-

spection, and License and Weight Troopers will assist the Texas Highway Patrol in an all out effort to assist and aid motorists in Texas.

The Texas Department of Public Safety will be on full alert on all highways in the area to control traffic, lower speeds and get the drinking driver from behind the wheel. It is anticipated that with all uniformed troopers on conspicuous patrol, that traffic violations will be greatly deterred throughout this Fourth of July holiday.

Major Bell urges each and every driver to do his part this holiday period, by not drinking and driving. "Let's all slow down and practice defensive driving, to stay alive," he requested.

Herrington Named Outstanding Student

Lex Herrington of Quitaque, a Valley High School vocational agriculture student, was named an outstanding student at Southwestern Public Service Company's 18th annual Farm Electrification Workshop held June 12-14 at the Episcopal Conference Center in Amarillo.

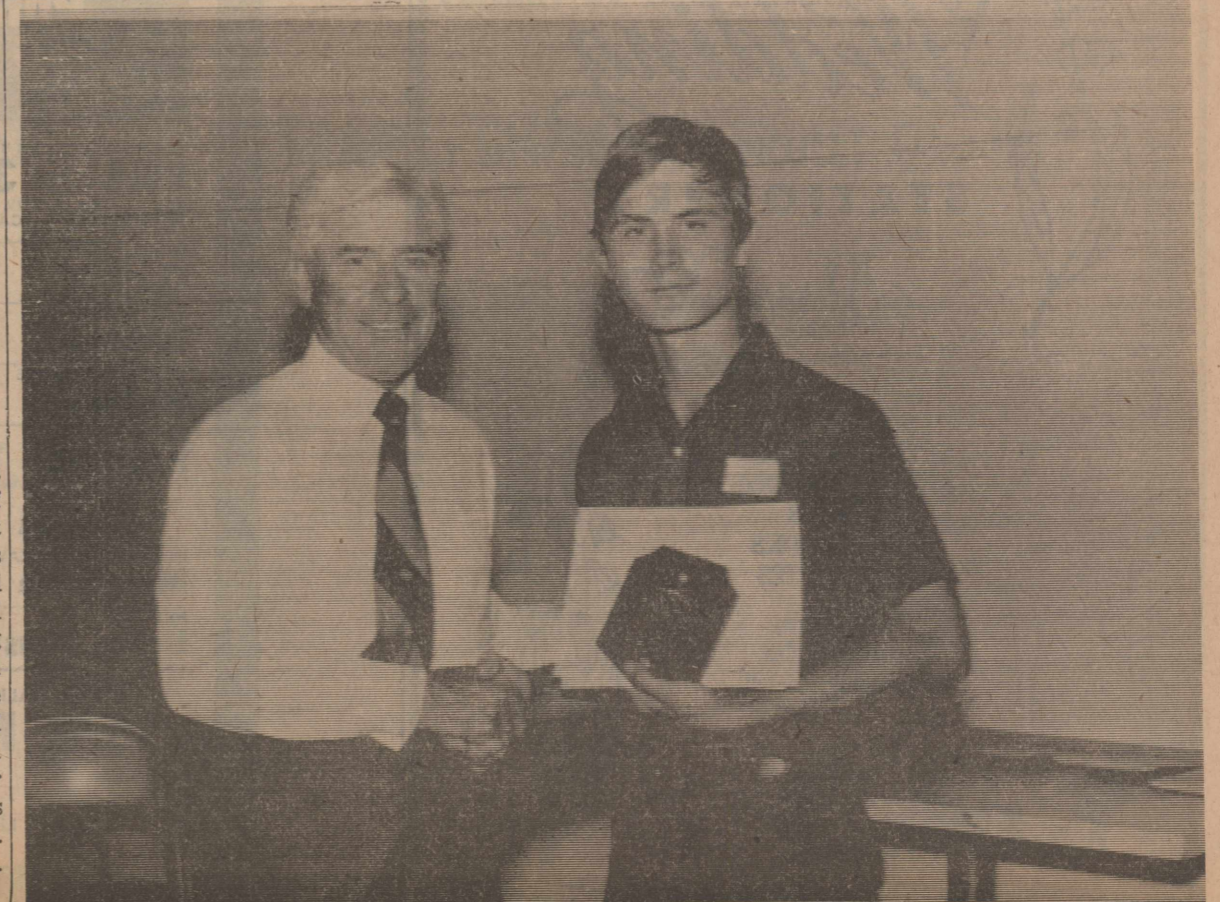

For his accomplishments, Herrington will receive an expense-paid trip to the National FFA Convention in Kansas City in November of this year.

Cliff Mlinar, vice president of marketing for Southwestern Public Service Company, presented a certificate and plaque to Lex Her-

rington, outstanding student at SPS Company's Annual Farm Electrification Workshop in Amarillo.

Thirteen hours of instruction were offered during the workshop in each of three subjects, farm motors, farm wiring and electric controls. Two students from the wiring and motor courses and one from the electric controls course were selected as outstanding and received trips to Kansas City.

Herrington was the outstanding student in one of the farm motors classes. The award was presented by Cliff Mlinar, vice president of marketing for Southwestern Public Service Company.

What Think Ye?

"MORBUS SUNDACUS"

"Morbus Sundacus" or "Sunday Sickness" is a disease peculiar to church members. The attack comes suddenly on Sunday. No symptoms are felt on Saturday night; the patient sleeps well; eats a hearty breakfast; but about church time the attack comes on and continues till about the time the services are over for the morning. The

patient begins to feel easy and eats a hearty lunch. In the afternoon he feels much better, and is able to take a walk, talk about politics, read the Sunday papers, etc. He eats an enjoyable supper, but about church time he suffers another attack, and stays home. He retires early, sleeps well, and awakes Monday morning refreshed and able to go to work, and has no symptoms through the week until the next Sunday.

The peculiar features are as follows: It attacks only church members. It makes its appearance only on Sunday. Its symptoms vary, but never interfere with sleep or the appetite of the patient. It never lasts more than 24 hours. No physician is ever called to see the patient. Prayer is the only known remedy, and the patient refuses that. It is becoming fearfully prevalent among Christians and threatens the destruction of many souls. We who are afflicted must call on the "Great Physician" and then take His prescription regularly. He gave it to the suffering in Hebrews 10:25.

(Note: No apologies for the above satire to the ones who have the disease. I wish it understood, however, that there is legitimate sickness and that those who are too sick to go to worship are always there in heart. Nor do I include any other legitimate reason for "missing worship." But let us everyone be sure that we have "reason" instead of "excuse."
 —EARL CANTWELL

Growing Washington-based GOVERNMENT seeking branches all points West.

Major BENEFITS. Option for STATEHOOD.

Even the Founding Fathers knew thirteen was only for starters. So it wasn't long before sights were set on the land to the west.

But it took money to explore and settle. And thanks to Americans taking stock in their country, the money was there.

Today, taking stock in your country is just as important. And one of the best ways to do it is to buy U.S. Savings Bonds. Just join the Payroll Savings Plan at work. Out of each paycheck, a little is set aside to buy Bonds. Automatically. And that means regular savings you can depend on.

Buy U.S. Savings Bonds. There's no safer way to save. After all, the money's guaranteed by the home office.

Now U.S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.
 200 years at the same location.

MEMORIAL PROGRAM

Your Memorial Gift is a fitting tribute to a loved one. This remembrance helps support the research, education and service programs of the American Cancer Society.

Memorial gift funds may be sent to your local Unit of the Society.

AMERICAN CANCER SOCIETY

A Special message from Bill, Bebe, Toni, Mitch, Tye and Suzanne Bralley:

Dear Friends,

We wish to invite you to our annual Fourth of July Picnic. For the past twenty-three years, we've been having family and friends to the ranch for a July 4th picnic.

This year, we've extended our invitation so that more of you could join in the fun. Plus, we have employed Casey Jones of Stages Management to produce a show you'll enjoy. Wendell Adkins and the Side of the Road Gang, and Pop Nelson (Willie's dad), Alvin Crow, the Original Texas Playboys are among the entertainers on the program.

We hope you'll enjoy the music, food, concessions and beautiful scenery 50 miles East of Amarillo at the KOA Campsite July 1-2.

We'll see you there!

SIX FLAGS 20's—The cast of the musical revue "Jazz Crazy!" brings the Roaring 20's back to a fast-tempo life at Six Flags Over Texas. The lavish production is staged several times daily in the theme park's Southern Palace Theater. The revue was directed and choreographed by the Lawrence Welk Show's Cissy King, herself a "graduate" of the Six Flags Show Department. Ms. King was a featured dancer in the 1966 Southern Palace production.

HONEYBEE IS VEGETABLE GROWER'S FRIEND

More dependence is being placed on the honeybee these days to pollinate the \$50 million crop of cucurbits in Texas. About 79,000 acres are grown annually. They are grown in every county of the state, if not commercially, then in backyard gardens.

Cucurbits—watermelons, cucumbers, cantaloupe, pumpkin, squash and gourd—all belong to the same plant family which absolutely depends on insect help to transfer pollen from male flowers to female flowers, explains Earnest Kiker, Briscoe County Extension Agent.

Only female flowers can produce fruit, but to do so each female flower must receive pollen from a male flower. Once transferred, the pollen fertilizes the immature seed causing it to be fertile and grow. Unfertilized fruit abort when viable pollen is not transferred.

"Most cucurbit flowers are open for only one day, and since honeybees account for about 85 percent of all flower pollination, the importance of this insect to this plant family is vital," emphasizes Kiker.

One strong hive of honeybees is required to pollinate the closer row-spacing of cucumbers, squash and cantaloupe. Pumpkin and watermelon may get by with a strong hive per four or five acres. Each open female flower may require five to ten visits by bees to adequately pollinate the flower. Therefore, skimping on the number of bees available to pollinate can affect the potential yield.

"An experienced beeman will be able to advise a grower on the number and placement of hives for an adequate fruitset," suggests Kiker.

"Beemen can get along without cucurbit farmers, but cucurbit farmers cannot get along without bees."

That's when she came at me, wattles flying, wings flapping.

My first nest egg.

The eggs were still warm. Felt just like a pillow that's been slept on all night. I picked the last one up and gingerly placed it in the basket. That's when she came at me, wattles flying, wings flapping. Chased me out of the hen house and right into the arms of my grandpa.

"Ol' Mabel get ya? Bet you accidentally took her nest egg."

He poked into the basket and drew out an egg. "This one here, see? It's china. Put it in there just for Mabel. Little something of her own so she's not sitting there all alone. Mighty comfortin' to a hen, boy. Nest egg can be mighty comfortin' to some folks, too."

Later that day, Grandpa gave me my first Savings Bond. Said he'd planned to give me a lecture about saving, but Ol' Mabel had done it all for him. Told me that the Bond was my start

on a personal nest egg. A little something stashed away to keep me going.

Every year after that, Grandpa gave me another Bond. And every time I got a chance, I added a Bond of my own to the pile. Those Bonds grew up right along with me.

Today, I run one of the biggest ranches in the Southwest. And you know how it all got started? From a little bitty nest egg. Guess I owe a lot to Grandpa. And Ol' Mabel.

Start building your nest egg. Sign up for the Payroll Savings Plan at work. Or the Bond-a-Month Plan where you save. Whether you're saving for an education, retirement or even a new home, Bonds can make sure there's a fund in your future.

Take stock in America.

Guests of Mr. and Mrs. Frank Yeary recently have been her brother, Mr. and Mrs. Namon Phelps of Farmington, New Mexico and a nephew, Mr. and Mrs. Jim Phelps of Everett, Washington.

Mrs. Betty Salsbury and children, Sonia and Dwane, of Albuquerque, New Mexico spent Saturday night with her aunt, Mrs. Frank Yeary.

Datis Martin underwent surgery in a Lubbock hospital Tuesday after having been a patient most of last week in Lockney General Hospital.

Glenda Youngquist of Lubbock recently spent two weeks visiting her grandparents, Mr. and Mrs. Ewing Vaughan. Her mother, Mrs. Helen Youngquist, and sister, Mrs. Larita Barkley, both of Lubbock, and her brother, Robert Youngquist of Randolph Air Force Base at San Antonio, came for a visit and returned Glenda home.

YOUR SOCIAL SECURITY

by Janice Burns

Social Security Representative

Question: I was recently injured in a car wreck. My doctor told me I could not work at my job as a bricklayer for over a year since bricklaying is strenuous work. Am I disabled for social security purposes?
Answer: Not necessarily. The social security disability provisions require a person to be unable to perform any job, not just the one they are accustomed to doing.

For further information regarding Social Security benefits please contact the Social Security office, 1401-B West Fifth Street, Plainview, telephone 293-4371.

FIREWORKS RESPONSIBLE FOR MANY INJURIES

Bottle-rocket, firecrackers and skyrockets top the list of fireworks responsible for 106 eye injuries to Texans last year, 32 of which resulted in total vision loss or impairment, reports the Texas Society for the Prevention of Blindness.

From its 1977 fireworks survey of 250 Texas ophthalmologists, the Society learned that 56 of these injuries were caused by bottle-rockets and some were caused by seemingly harmless items like punk, used to light fireworks, and sparklers which burn at heats exceeding 1,500 degrees Fahrenheit.

Ironically, the greatest number of accidents were reported in the major Texas cities where fireworks are illegal—San Antonio with 21 injuries, Dallas-Fort Worth with 16, Corpus Christi, 10, and Houston, 8. The majority of injuries were to males, ages 10-19, and many victims were bystanders not directly involved in setting off the fireworks.

Though sight was restored in a few cases, most injuries resulted in some degree of permanent vision loss or impairment. Ophthalmologists reported cases of burns to the eyelids and cornea, the clear part at the front of the eye. Cases of traumatic cataract, a clouding of the lens of the eye, and hyphema, or hemorrhage between the cornea and iris, the colored part of the eye, were reported as were several cases of damage to the retina, the most sensitive part at the back of the eye which transmits images to the brain.

The National Society for the

MR. AND MRS. ELTON CANTWELL

☆☆☆☆

COUPLE TO BE HONORED ON SILVER ANNIVERSARY

The children of Mr. and Mrs. Elton Cantwell will honor their parents with a Reception in observance of their twenty-fifth wedding anniversary on Sunday, the second of July, from 2 until 4 in the afternoon in the Fellowship Hall of the Rock Creek Church of Christ. All friends and relatives are invited.

Prevention of Blindness, parent organization of the Texas Society, reports that an estimated 7,555 Americans were taken to hospital emergency rooms for treatment of fireworks-related injuries last year and that 17 per cent of these were injuries to the eyes. This figure represents only a fraction of actual injuries since there is no way to estimate the number treated in doctors' offices, at home

or by direct admission, NSPB notes.

The Texas Society urges that use of all fireworks be restricted to licensed public displays. It encourages parents to keep even the smallest firecrackers out of the hands of their children since the majority of fireworks victims are usually under age 15.

TSPB says enjoy the holidays, but enjoy them safely.

Briscoe County
Extension Agent

IMPROPER WATERING CAUSES VEGETABLE DISEASES

Improper watering can lead to a number of disease problems, such as blossom end rot in tomatoes, peppers, squash and watermelons.

The disease which develops more rapidly in acidic soils, starts at or near the blossom end of the fruit. Tomatoes are most commonly affected when they are about half grown.

The first sign of the disease is a slight, water-soaked area around the blossom end. This area soon darkens and enlarges rapidly as the fruit ripens. The discolored tissues shrink until they become flat or concave. The flesh of the fruit is rotted, brown to black in color, and leathery.

Another tomato disease, Buck-eye rot, causes similar symptoms on the blossom end. However, this disease produces concentric rings of alternate light and dark gray areas.

To control these diseases, maintain a constant level of soil moisture. Infrequent watering will encourage the diseases. Mulching will help reduce fluctuation in water supply.

Liming is advised if a soil test indicates an acidic soil.

I must caution gardeners against heavy applications of nitrogen since this results in a rapidly growing plant that requires a constant soil moisture level.

Spraying infected plants with a 96% calcium chloride solution helps prevent blossom end rot on other developing fruit. Use four tablespoons of the material in a gallon of water and spray at seven-to-ten-day intervals until four applications have been made. You should be cautious about overdoses as they can cause leaf burn.

SUMMER CARE OF TREES AND SHRUBS

Trees, shrubs and vines that were transplanted in recent months need a little extra care to make it through the long, hot summer.

The most critical problem for newly moved plants is providing adequate moisture. Wind damage and excess fertilization also take their toll on transplanted trees, shrubs and vines.

Mulches can help conserve soil moisture and are effective in controlling weeds. Apply the mulch several inches deep over the new plant's roots. Pine needles or bark, oak leaves, bagasse, gin trash, or

grass clippings can be used as mulch.

Some organic mulches decompose rapidly, taking nitrogen from the soil in the process and causing plants to yellow. This may be corrected by adding small doses of nitrogen fertilizer.

I should warn you to be cautious about adding fertilizer at planting time. Only small amounts, if any, should be applied during the first growing season. Overfertilization is one of the major causes of plants dying the first season.

Homeowners should protect new plants against wind damage. This is especially true for trees or shrubs that are several feet tall. High winds can break limbs and damage newly forming roots as well as dehydrate the plant. So plants should be pruned or staked for support.

Homeowners also need to remember their plants before leaving for summer vacations by arranging for someone to water them regularly.

ANYONE FOR BITTER CUCUMBERS?

This time of the year home gardeners often find that their cucumbers as well as eggplants have a bitter taste. The reason for this is difficult to explain.

Generally, any conditions that place the plant in stress can lead to bitter fruit. Such conditions are low moisture, high temperature and low fertility. Any one of these may cause the problem, but generally it's a combination of these factors that may cause bitter fruit.

When plants are growing vigorously in the spring, bitter fruit seldom occurs. As the summer weather approaches, bringing high temperatures and less rainfall,

conditions become less favorable for plant growth. Consequently, plants begin to stress and bitter fruit often results.

What can be done?

Maintaining favorable growing conditions is the best answer. This means watering regularly, mulching to reduce soil moisture loss, and applying light applications of fertilizer around plants. Despite all this, the midsummer heat may still take its toll of plants.

If bitter fruit continues to occur, peeling cucumbers and eggplants a little deeper may help since bitterness is generally associated with the skin of the fruit.

Another suggestion that may be worth a try is to peel the cucumber from the blossom end toward the stem end. Since cucumbers are always more bitter on the stem end, this practice might prevent spreading the bitterness throughout the entire fruit. This bit of advice comes from a Texas gardener with more than 50 years of gardening experience.

BEEF MARKETS TO WEAKEN

Beef markets will likely weaken a bit during the second half of the year, says a livestock marketing specialist with the Texas Agricultural Extension Service. Prices of both fed and feeder cattle will probably be at their lowest levels in September or October and then begin to gather strength once again. Beef prices will come down somewhat in response to some consumer or retailer resistance. Beef production will be down about two percent during the third quarter, but overall meat supplies could be up about three percent due to increased supplies of pork, broilers and turkeys.

TEMPORARY GRASSES FOR HAY, GRAZING

Idle fields can be put to good use this summer by growing annual grasses for hay or grazing, contends a forage specialist with the Texas Agricultural Extension Service. Such grasses include hybrid sudan, sudan-sorghums or forage sorghums. Millet could be used in sandier soils. Annual grasses can take advantage of warm temperatures and adequate moisture to produce high quality hay and grazing.

NATIONAL YOUTH HORSE CONGRESS

July 1 is the penalty-free entry deadline for the National Youth Horse Congress to be held at the

Heart O' Texas Fairgrounds in Waco, July 22-29. 4-H and other youth interested in entering the show should contact Marilyn Dundon, 3940 Clear Cove Lane, Dallas 75234 or call 214/247-7032. The seventh annual show is expected to attract about 3,000 entries.

ACCIDENT CONTROL

Children under 15 are involved in about 20 percent of the nearly 57,000 lawn-mowing mishaps that occur each year. Children should be kept safely away from mowing operations, and teenagers should understand that mowers are "cutting machines," cautions the Texas Agricultural Extension Service.

A stitch in time OR Elias Howe was a SEW-SEW inventor.

When Howe invented the sewing machine in 1846, he really got needed.

Some tailors said a machine could never replace hand work, or so it seemed.

But a few followed the thread of Howe's thinking. An automatic stitcher worked faster and more consistently, and the results were highly profitable.

Which happens to be the same reason folks today sign up for the Payroll Savings Plan. It's tailored to let you buy U.S. Savings Bonds automatically. And that makes saving faster and more consistent. With results that are highly profitable.

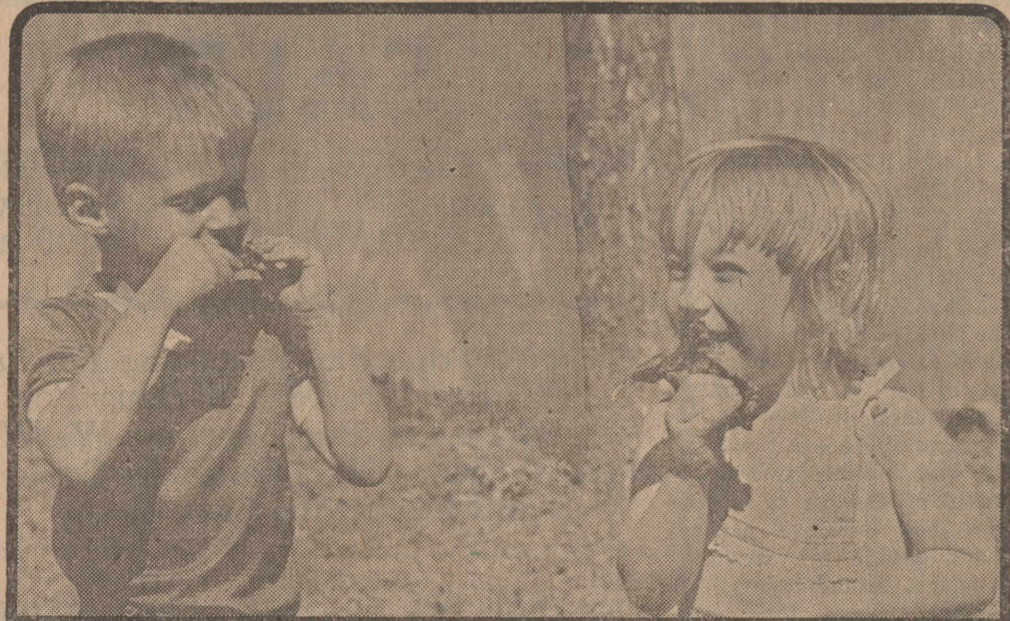

So, save regularly with U.S. Savings Bonds. You'll have your future all sewn up.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

A PLACE TO PRAY

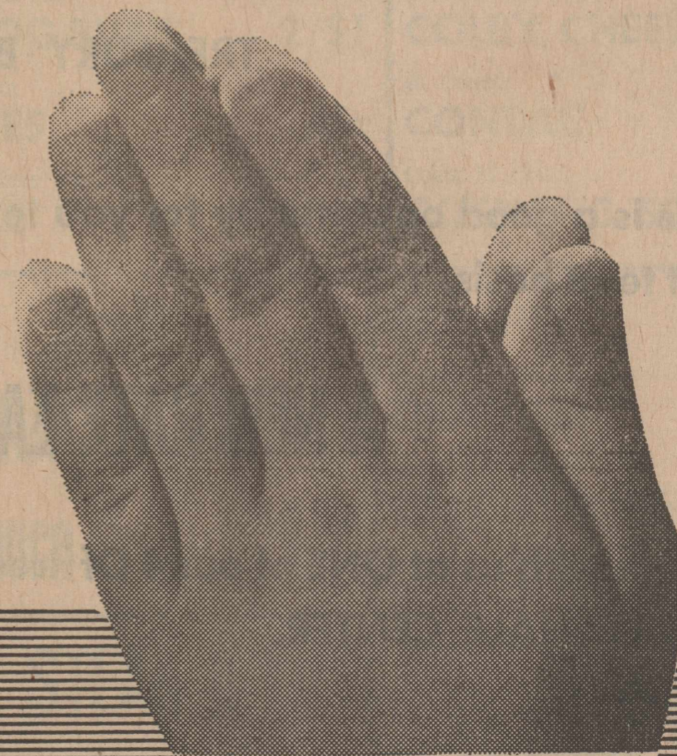

Man can, and should, pray anywhere. God has placed no limitations on his communing with him.

Our Lord has said, "... Ask and ye shall receive." God listens when we seek him, no matter where, however he desires that we gather together in prayer too. "... mine house shall be called an house of prayer for all people."

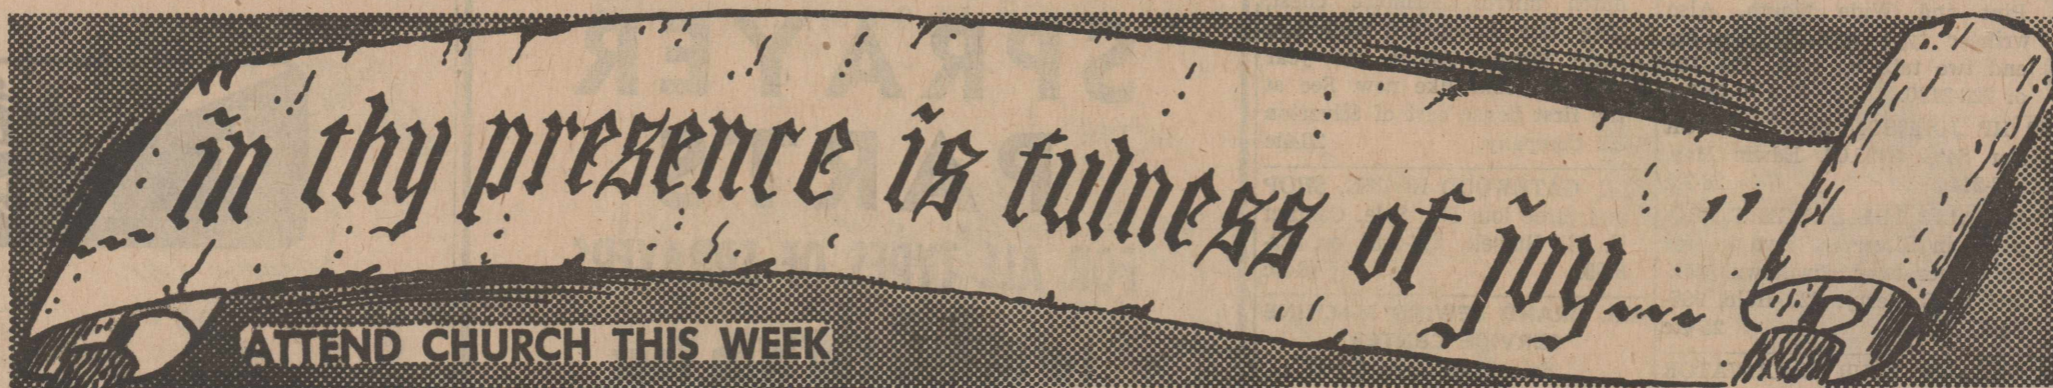

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The STRENGTH of a Nation...

At this time, our thoughts are turned to our nation and the war that was fought to bring freedom to our land. Pictured here is a monument to the leader of our people at that time. The people were willing to give their lives that we might be free from tyranny, and have the right to worship as we please. God was with us then as he was with the children of Israel when Moses led them from Egypt. Upon receiving their freedom they sang... "The Lord is my strength and song, and he is become my salvation: he is my God, and I will prepare him an habitation; my father's God, and I will exalt him." Exodus 15:2

Help keep our Nation strong by relying on the strength of the Lord. Attend Church Regularly.

EVERY ONE IN THE CHURCH... THE CHURCH IN EVERY ONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The Shield of Quality
WESCO

THE BUSH HOG / HUSKY SYSTEM IS A
HANDLING AND STORAGE SYSTEM.

We are the bush hog huskie dealers. Ansley has been in Lockney 23 years, and service has always been a number one priority. Our two U H F radio equipped trucks can be linked to us from any place within Swisher, Briscoe, Floyd or Hale Counties. This provides the ultimate in extended technical information and parts availability to you.

If cotton moduling is the answer to your handling efficiency, We would like the opportunity to present our sales and service package to you.

PLEASE GIVE US A CALL
