BUILD... HASKELL

"Has Haskell Outgrown YOU?"

The sewerage system ought to be extended and every property owner be forced to connect with it; then, if not, be forced to connect with it, don't you think, or "Has Haskell Outgrown YOU?"

The street to the railroad station ought to be improved, and also the street running North and South, to city limits, known to some as Clark street and to YOU as (?), or "Has Haskell Outgrown YOU?"

Listen, "Let Well Enough Alone" but you think street lights are badly needed between the court house and the railroad station, as well as along the Highway, city limits to city limits, that those visiting our city via rail cars as well as via auto route, would give just a little better opinion of our town? or "Has Haskell Outgrown YOU?"

Do you believe arrangements ought to be made to employ a Night Marshall and watchman, full time, and the electric officer be kept on full time during the day, or, "Has Haskell Outgrown YOU?"

Would these needed improvements get your support if a vote was arranged for so as to raise the tax rate a small amount, and Haskell take her place in line with other towns, even smaller, and be the Haskell You fish it to be, or, "Has Haskell Outgrown YOU?"

Ladies of the Civic League, Ladies of the Parent-Teachers Association, Ladies of the clubs of the city in general, can't Haskell have play ground equipment in the school grounds, can't Haskell have improved yards and a clean-up campaign at your hands? Can't we make good the victory won at Austin and make Haskell the neatest, most sanitary, attractive and delightful town in West Texas? or, "Has Haskell Outgrown YOU?"

Follow Tax Payers, property owners and those not so fortunate, can't Haskell have a general paint-up and clean up movement in the business section, to meet the work the women can do and Haskell be the business center, attractive neat and modern, you would like to see it become, or, "Has Haskell Outgrown YOU?"

Listen, "Brother Satisfied" do you notice, day after day, Haskell's boys and girls bid good bye and take up their labors for the future in other towns, and that they don't all go 100 miles at that? Do you know why? They have found attractions, they have found, after an inspection, business opportunities; they see Haskell standing still, as it were, and see nothing in sight for them, where "Let Well Enough Alone" prevails; they seek greener fields, when just a little interest, just a little Hometown pride, just a little selflessness, would make Haskell the kind of a town they would like to live in and be near those they love, but they can't have it in Haskell, apparently, and why, "Has Haskell Outgrown YOU?"

If YOU will stop just a moment, Haskellite, look about you, cast an eye beyond your threshold, over there beyond your personal interests, you will find, if you don't watch out, that Haskell has Outgrown YOU?"

The Homeseeker is with us every day, as little as you and I think about it. He is looking us over and planning to locate. Would you be making a home for yourself and family, made in a town exactly like Haskell, today? Or, do you feel well pleased with local conditions and are you willing to let things remain as they are, because you cannot answer, without a blush, "Has Haskell Outgrown YOU?"

Our Boys and Girls leave colleges and institutions with honors. Yet, do we see their diplomas hanging in our business houses or homes? Do we find them among those who are advancing Haskell's interests? Do we meet them by day, shoulder to shoulder with us, working for Haskell's betterment? Where are they, if you please? Listen, O Haskellites, and you will hear, the sound of hammer and saw, machinery and development hum busy a few miles more beyond, but NOT in Haskell, and the answer is up to YOU, "Has Haskell Outgrown YOU?"

When we lose our boys and girls we are all, as it is written, What have we gained when we lose these, our boys and our girls? Towns have been wiped out because they want to sleep on the job. Every few weeks we learn a post-office and a town has been discontinued.

used, because the younger set moved on, and the Old Timers let "Well Enough Alone". And, again permit us to ask, "Has Haskell Outgrown YOU?"

The Haskell you know, the Haskell you have known, the cow trails you have followed, to and from your home, to the court house, the mud you waded thru and the unsanitary conditions of old, the oil lamp and the open kettle, the oxcart and the wagon, the Old Hickory Wagon and the buggy, have come and gone, and you, how about you, "Has Haskell Outgrown YOU?"

Towns are not builded by men and women afraid. The old pioneers that braved the wilds, the Indians and the animals of days gone by, broke the ground, paved the way, that you and I might have an opportunity here, in Grand Old Texas. Shall Haskell Build Shall Haskell stand still? Shall Haskell be the Haskell it deserves, or, "Has Haskell Outgrown YOU?"

Man to Man, Woman to Woman, Child to Child, All Fairness to All, Why NOT BUILD HASKELL?

ALL STORES TO CLOSE FOR THANKSGIVING

Thanksgiving day will be a holiday in Haskell and the entire town will be closed, including the cotton gins according to information received this morning. This has been the custom here for a number of years and those who have business on the above date are requested to make their arrangements accordingly.

At a meeting of the business men several months ago, it was agreed to make Thanksgiving, Christmas Day and the Fourth of July, holidays in Haskell and all business houses would close without being petitioned to do so, as had been the custom in the past. Any other days in which the business houses should close would have to be endorsed with a petition or written agreement of the different business firms.

The farmers are requested by the ginners to remember that the cotton gins will be closed for the entire day and this request is made in order that no one will be inconvenienced by their closing for the one day.

PLAN TO HAVE HORSE RACES AT EARLY DATE

Plans are under way for a racing event at some early future date. It has been learned that several new horses are in the country and a number in near by towns are anxious to try the Haskell fast track. This is a sport that should be encouraged, and we have the track a wonderful grandstand and this sport will offer entertainment every month in the year if a little attention is given to it. Henry Alexander chairman of Haskell County Fair Racing Committee has had considerable inquiry recently from horsemen who were disappointed at not being able to race during the Fair and he suggests that owners of horses advise him at once if they wish to enter their horses at the coming meet. The meet is planned for some Saturday when a crowd will be in Haskell that will justify a meet. In order to have good races we must have reasonable purses to pay the winners and in order to pay the purses the gate receipts must be sufficient for this purpose.

PROMINENT BUSINESS MAN DIES TUESDAY

Another venerable citizen was called from the ranks of the living Tuesday morning November the 17th about 5 o'clock when the summons came for O. V. Payne of this city who joined the silent boatman on the voyage to the other shore. Mr. Payne was never very strong and robust in health but he was an active life in his chosen profession of the drug business in which he has been engaged for a number of years in different locations in Texas. He came here from Byers about ten years ago buying the West Side Drug Store which he sold to Reid Bros. and later on bought the Pace Drug Store which he was connected with when he passed away. Mr. Payne was 62 years of age but he was young in spirit and was a great favorite with all his friends and especially the young men of our city and county who always appreciated his friendly disposition.

He was not pretentious in any way and was unassuming in his manner, but he had a great heart that was always ready to accommodate any one in need and his going will be keenly felt among his many friends to whom he ever remained loyal and true. He was a loving husband, a kind father and a good citizen. Surviving him are his wife, and two sons, C. V. and J. P. who are married and live in this city and were engaged with their father in the drug business.

Funeral services were held at the family home by Rev. M. L. Baker after which his remains were laid to rest in beautiful Willow cemetery beneath a bank of lovely flowers, a token of the high esteem in which he was held by his many loving friends. The Baylor County Banner, published by O. C. Harrison at Seymour is now 30 years old. Editor Harrison issued a special anniversary edition, in honor of the occasion. The special gave a brief review of the progress of Seymour and Baylor County since the Banner was established and was indeed a credit to the Banner force and the town of Seymour. The Banner is one of the best newspapers that comes to our exchange table and the Free Press extends congratulations to Editor Harrison for the wonderful progress Seymour has made, as no doubt much of the credit is due to the work of the Baylor County Banner.

One of the biggest and best papers that comes to this office from the "windy" West is the Haskell Free Press edited, printed and published by Sam Roberts, one of the most popular of the press boys, and who is making a success of the Free Press, and it looks as if he might be making lots of money in addition. The only trouble with Sam, is that he fills his editorial page up with readin' matter and advertising, instead of writing a few nice, spicy editorials occasionally, which we know he can do. Roberts and Devall of the Mt. Vernon Optic-Herald are very much alike in that respect. We tried for a year to get Devall to write a few editorial things occasionally, but it was no use—Honey Grove Citizen.

When Editor Moyer wrote the above he was probably just recovering from an East Texas "chill." Of course he does not realize that this wonderful country is developing so fast that an editorial written on Monday, may be stale on press day. Furthermore when one of our good advertisers rushes into the office at the last minute with tears in his eyes, and begs us to accept his copy in order to save his business, our heart is too young and tender to refuse—Come to West Texas.

J. H. Lemons a brother of T. J. Lemons Sr. arrived this week from Eagle Colorado and expects to spend the winter with uncle Tom. Couldn't Take a Joke.

A negro was lying down during the noon hour, sleeping in the hot sun. The clock struck 1, the time to pick up his hod again. He rose, stretched and grumbled:

"I wish I was daid. 'Taint nothin' but wuk, wuk, from mornin' till night." Another man, a story above, heard the complaint and dropped a brick on the grumbler's head.

Dazed he looked up and said: "De Lawd can't stan' no jokes. He takes everything in earnest."

NEWS

THE COUNTRY

(By W. M. FREE)

morning we loaded our gear with a few bundles of the Free Press and were soon on the way west by the way of the Rayner Road. It was a beautiful day and the kind that the farmers were praying for that they get in a full days work gathering cotton and feed. The farmers were busy, some with their pickers others cutting and feeding a number of hogs. The farmers were using extra effort to get the unfavorable weather out of the way. The farmers are gathering and plucking but such energy and pluck have put into action was never before in the saving of crops. We were pulling bolls where they were picking their cotton crops. Some of them were picking where they would justify the extra effort. The route taken we found very successful poultry raisers that we did not find when we were in this territory a few years ago. We have learned that poultry raising, furnishes the farmer with a steady income. The poultry products are ready for market. Our suggestion is for the farmer to raise a few more chickens. The more you produce the better the price. Should we have a car of poultry to load a car of poultry, we would have a much better market and receive a much better price. The turkey crop in this county where we have been, is normal, doubtless caused by the condition of the turkey market. The people were discouraged about to begin the season this year. An attempt was made for a few nice bunches of hogs on our route but not in the numbers we have found on a few years ago. Owing to the fact that turkeys have a season it is possible to suffer loss on a number of turkeys, but the market is all seasons of the year with the production of eggs and if the market is low the farmer will lay eggs and wait for better. Thus paying her way.

home of F. G. Seltz, 8 miles from town, we found prosperous. He is a successful farmer and a very thrifty. He has contributed her part with a large flock of turkeys and the attention of excellent milk cows. Mr. Seltz lived on this farm about 10 years and is satisfied with Haskell as his home. He favors the best staple cotton and is the best paying investment always plant good seed. Weicher after making a fine home, living about 8 miles from town, planning to go to New Mexico his future home. Mrs. Seltz is one of the best stock raisers in the county. She has the best of her flock on her home. She is impressed with the Plymouth Rocks are excellent and are also thrifty and hard. They had a large bunch and were getting their cotton a rush.

doctor who has lived on the farm for 19 years was getting a crop to sow about fifty acres. He was going over his cotton at this time with a large bunch of hogs had out 34 bales. He has a crop for the year and despite the conditions of the weather excellent progress in saving. He has a large flock of Wyandotte chickens and has just about ripe. Weigh whom we have known, he gave us a warm welcome to his prosperous home. He has a crop for this year and has progress in gathering his cotton. He will make 40 bales of cotton on 100 acres of land. He has 1,000 bushels of oats, and 25 acres of wheat and 25 acres of corn which is now ready for harvest. He has four fine meat hogs and a covered with hoes that he has some extra large hoes. He has plenty of good farming tools. He gave us his subscription to the Free Press and Hol-

lands Magazine. C. N. Smith another prosperous farmer living just a little south of the Rayner road, has lived in that section of the county for four years. He has out 40 bales of cotton and has lots of bundle feed already cut and shocked. He had some large hogs weighing around 400 pounds each for his meat. He thinks he will make more than 80 bales of cotton and will have plenty of feed for all his stock another year. Mrs. Smith will write the news for the Free Press from the Tanner Paint community and we trust her neighbors will phone her the happenings of the community.

We ate a good dinner with Mr. and Mrs. H. L. Crow. Henry is a Haskell boy and his wife was reared in Haskell county and they have a fine young chap three or four years old who is the pride of his happy home. Believe me he is some boy. Henry is farming and has out 15 bales of cotton. He will make at least 25 bales this year. Henry has plenty of cows for milk and butter for the family and two fine hogs for meat and lard. He and Mrs. Crow will begin next season with pure bred Buff Orpington chickens and will have the breed exclusively. He has his breeding stock already purchased. We enjoyed our stay with this good family and appreciate the good dinner and the kindness shown us while in their home.

Henry Schrank moved from Hill county to the Crow Farm last year in the Tanner Paint community. He likes Haskell county fine and has made a fair crop. He will move to his father's farm next year. His father recently purchased a large tract of land near the Crow farm and he also moved from Hill county. He belongs to the Farm Bureau and was getting his cotton ready to ship out. He will make around 25 bales of cotton this year. He has two good hogs for meat and plenty of good cows for milk and butter, good teams and tools for farming.

G. W. Martin who has lived two years on the place he now lives on and has been a resident of Haskell county for the past four years, has ten head of hogs and some real good Rhode Island Red chickens and is making a good headway farming. He has out twenty-two bales of cotton and he has a large force picking cotton. He is picking his cotton believing it will pay the difference in price for his efforts over the price of snapped cotton.

C. H. Spurlin owns a fine farm consisting of 350 acres in the Tanner Paint community. He is a successful farmer and an old timer in this section. He has out 30 bales of cotton and was picking right along. He has hogs for his meat and a good feed crop and Mrs. Spurlin keeps about 50 Red hens which are egg producers for us noticed a nice lot of fresh eggs on the cabinet. She reports getting as many as twenty eggs a day from her fifty hens recently. She knows how to feed and care for them for egg production. Mrs. Beahring of Midway was visiting Mrs. Spurlin.

He is pleased with the conditions under which the school has begun the 1925-26 term and is going to put his best effort forward in the discharge of his duty. He is assisted by a corps of teachers who are efficient and willing to co-operate with Mr. Southall in making the school one of the best in this section of the state. You will find an article about the school in another section of this week's issue. Mr. Southall gave us his check for the Free Press one year.

The city of Sagerton was a little quiet because of the beautiful day and the farmers were busy picking cotton. Most of the farmers in town were from the city with cotton and the cotton buyers were busy with the farmers who were marketing their cotton. The business men in Sagerton report good trade and prosperity was written on every face, for this section of the country has had two bumper crop years and the farmers and merchants are in good financial condition as a whole. Postmaster Littlefield of Anson was in the city. He was at one time in the hardware business in Sagerton and has a number of friends there who were glad to see him, the writer included. C. L. Fowler another former business man of Sagerton but who is now traveling for a wholesale grocery firm out of Stamford was there and enjoying his visit with his former friends. J. W. Martin Sagerton's efficient druggist gave us the price of a year for his renewal to the Free Press in order to keep up with the news of the capital city.

We drove home from Sagerton and arrived before the office had closed for the day. We drove to Rochester Saturday morning and arrived there very early, before the farmers began coming to town in very large numbers. We had just stepped on the side walk from our gas wagon when our old friend, C. N. Dunlap ask us if we would take his subscription to the Free Press of course our answer was in the affirmative. We never have denied a fellow the opportunity to take the Haskell Free Press since we have been on the job and never expect too. That is one right that every citizen is justly and truly entitled, is to take his county seat paper along with his home town and state papers. Be it far from us to stand in his way. We thanked Mr. Dunlap for his check. Another friend P. P. Martin, whom we have known a long time and once when we were tired and weary he took us into his home and kept us through the night; a kindness we have never forgotten although it has been a number of years ago, renewed for the Free Press and said keep it coming, nothing I like better than a real county paper. The Free Press fills the prescription for his needs. Thanks to Mr. Martin.

J. H. Wolf another reader of the Free Press for a number of years paid up for more than a year and has nothing further to worry about in regard

to the news of the county. He knows that's coming for the next 12 months or more. Thanks to Mr. Wolf. He is another friend that we knew before he came to this county but we have a mutual agreement that nothing should ever be mentioned of the past, but of course we reserve the right to talk things over when there's no other person in ear-shot of our conversation.

C. H. Richard ventured to buy the Free Press for four months and we warned him that he would become addicted to the habit of reading the Free Press and he remarked that he would take the risk. Thanks Mr. Richards.

W. Z. McElroy came to us with a smile and gave his check for the Free Press for a year. Mr. McElroy has not lived a great while in Haskell county but he is a good citizen in any man's country so we were pleased to add his name to our list as a new subscriber and introduce him to our readers. He is living on the Shook ranch on the river at present. He takes a lively interest in the things worth while for his section and is to be appreciated by his neighbors. Thanks Mr. McElroy.

M. M. Clark our friend for a number of years gave us his subscription to the Free Press for a year and is again on our list Mr. and Mrs. Clark have moved from the farm to the city of Rochester and they are an asset to any town or community in which they live. Thanks Mr. Clark.

W. M. Trimmer who once lived near Rochester, but sold his farm and bought a bigger farm near O'Brien slipped us the price of the Free Press for a year. Mr. Trimmer is a fine farmer and we used to pass his place and note the straight rows he could lay off across his field and we are at a loss yet to know how he did it. But Mart is a wonder any way when it comes to farming.

R. T. McGwire thrust into our hand the necessary kale for a year just before we left the city and that smile on his face told us that he was glad of the opportunity to get his county paper a whole year for that little amount of money. He is a good farmer and a fine fellow. We appreciate him and we are sure that he will not be disappointed with our efforts to please him with a real county paper, teeming with news from all parts of the county right off the reel. More next week.

GAUNTY

(By Mrs. E. L. Conner.)
We have had some real pretty cotton picking weather this week. The farmers and cotton pickers certainly have taken advantage of it. So let the pretty weather continue.

We have no one on the sick list this week except Mrs. Perry Graham who is improving at this writing.

Miss Willie Simms of Abilene spent a few days with home folks this past week.

Mr. E. Li Conner and Carroll Leon of Rule spent a few days on the Plains last week.

Mr. Berry Norman, wife and sisters Misses Maybelle and Vera of Rule were shopping in Haskell Saturday.

Mr. Carrol Leon, E. L. Conner, Charlie Jackson and Aubrey Pouts of Rule made a flying trip to the north and central plains Saturday returning Monday.

Mr. and Mrs. C. B. Burdine and Mrs. M. C. Turner of Rochester spent Sunday evening with their sister and daughter Mrs. R. E. Norman and family of Rule.

Right Road, But—
One of Haskell's rising young newspaper men, having achieved in the profession heights which permit him the maintenance of a second-hand fivever, was excursions in his machine through the home county of President Coolidge.

Vermont roads are Vermont roads, even in the vicinity of the chief executive's birthplace. The reporter, Plymouth bound, found himself uncertain of his whereabouts. From the feel of the highway, he suspected he was off the rove.

"This the main road?"
"Yep," agreed the man on foot.

"The right road to Plymouth Vermont?"
"Yep."

"Quite a ways to go yet?"
"Yep."

"How long will it take me?"
"Forever, I guess, the way you're going."

"But you said I was on the right road."
"Yep, but you're hind-end to."

Father—That is so; but it is still his P. A. that supports him.

No Wonder He Kept Cool.
One of those annoying persons who prides themselves on their perfect poise was a guest at a hotel which was threatened by fire not long ago. He joined a group of friends watching the spectacle and chaffed them on their apparent excitement.

"There was nothing to be excited about," he said. "When the alarm sounded I jumped out of bed, brushed my hair and took my time about dressing. I didn't like the knot in my necktie, so I tied it over again—that is how cool I was."

"Fine," one of his friends remarked. "But why didn't you put on your trousers?"

Kindness Unrewarded (?)
William came home with the statement that he no longer intended to be kind and helpful to others.

"Why do you say that?" his mother asked.

"Because," replied William, "I saw Johnny putting a tack on the teachers chair today, and just as he was sitting down I pulled away the chair. The teacher sat on the floor, and when he got up he spanked me for pulling away the chair. Then at recess Johnny hit me for interfering."

This One-Profit •• Unit-Built Studebaker
offers you 3 major advantages in Quality, Price and Protected Investment

THE average man on the street today knows that through more efficient manufacture, standardization of parts, etc., all makers offer him more for his money than ever before.

All makers claim greater things for their product — and can prove them. All makers rest their case on more economical manufacturing due to quantity production under modern efficiency methods. All cars are fair value but there is a *best* value.

Few motor car "manufacturers" have foundries, forges, etc., to make their own engines—yet one-fourth of the cost of an automobile is in the engine. Even fewer build their own bodies—yet one-third of the cost of a car is in the body.

Only two makers have adequate facilities for making all bodies, engines, clutches, gear sets, springs, differentials, steering gears, axles, gray iron castings and drop forgings: Ford in the low-price field and Studebaker in the fine-car field.

One-Profit Value
Because of its unique manufacturing facilities, Studebaker eliminates profits which all other quality car manufacturers must pay to outside parts or body makers. Savings effected in this way run to hundreds of dollars on some models. Thus Studebaker is

able to use finest steels, finest woods, finest engineering and superlative workmanship in its cars; then to add costly extras . . . and still charge no more than competing cars.

Unit-Built Construction
One-Profit facilities result, too, in Unit-Built construction. In cars designed and built as units. The hundreds of parts used in a Studebaker car are Studebaker. They function together as a unit, resulting in longer life, greater riding comfort and higher resale value for you. Scores of thousands of miles of excess transportation thus are built into Studebaker cars. Records of more than one hundred thousand miles are not uncommon.

And "No-Yearly-Models"
As a natural outgrowth of those two factors, a third great advantage to the buyer is attained . . . "No-Yearly-Models." Because all phases of manufacture are directly under Studebaker control, Studebaker cars are constantly kept up-to-date. Improvements are continually made—not saved up for spectacular annual announcements which make cars artificially obsolete. Resale values are thus stabilized. As an example of the value One-Profit manufacture makes possible, see the Studebaker Standard Six Sedan.

Studebaker's Lowest Priced Sedan—but all quality

THE fine Studebaker Standard Six Sedan illustrated below is a real four-door sedan. It is upholstered in genuine wool cloth. Carpets are wool. Windows are real plate glass.

The equipment includes an 8-day clock, gasoline gauge, ash receiver, rear-vision mirror, stop light, dome light, safety lighting control on steering wheel, automatic windshield cleaner, coincidental lock to steering gear and ignition controlled by same key operating door and spare-tire locks, and full-size balloon tires. All instruments are grouped under glass on a silver-faced dial set in a beautiful walnut finished panel.

But the most important superiorities of this Sedan are concealed within the framework of the body and in the chassis.

Body pillars, for instance, are of northern white ash, cross-members of hard maple. We pay a premium for steels of extra toughness.

Run the engine—the most powerful in any car of its size and weight, according to the rating of the N. A. C. C. and the Society of Automotive Engineers. The motor is not built for excessive speed, but rather for smooth, trouble-free service at 5 to 55 miles an hour. It is built for a long, quiet life—not for spectacular stunts.

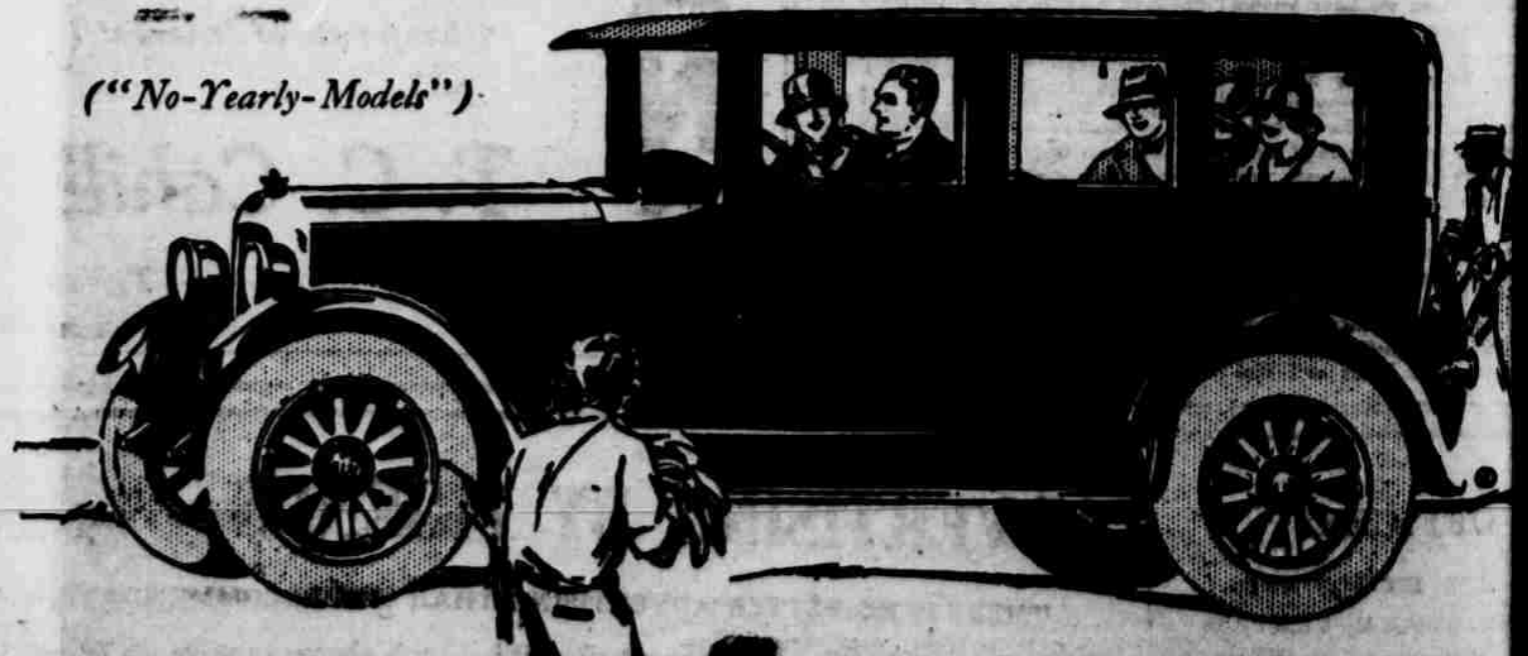

We will gladly demonstrate this car and finance its purchase on Studebaker's fair and liberal Budget Payment Plan.

An Even Start.
owner of the store was trying to see how a little fatherly advice to a young man, I even started to talk to a barefoot boy.

"I wasn't born with shoes on my feet," replied the youngster.

IS A POUND OF BUTTER OF MORE VALUE THAN A LIFE?

"Is a pound of butter of more value than the life of a child?"
The school officials have been very thoughtful, indeed, and should be thanked by every mother, for placing signs reminding auto drivers they are near a school and suggesting they drive slow.

However, it is noticed some of our delivery boys, or men, seem to disregard these signs and the lives of the children by driving a break neck speed in front of the school, and around them, as well as on all streets of the town, for that matter, like their lives depended upon the delivery of a pound of butter some house wife found she needed just at lunch hour.

Every mother, yes, every housewife as well as father, ought to take note of these practices and discontinue patronizing a merchant who insists on keeping in his employment a careless driver as a deliveryman.

Being a mother I intend to keep an eye on these practices, as I saw the close call, in front of the high school, recently, as experienced by a delivery car manned by a young man who drives for a local merchant, making a delivery, but using a touring car instead of his usual small delivery truck, as usually used by him, when he drove like he was answering a death call and ducked in and out between cars going slower than his and came much too near three small children playing at the edge of the sidewalk well out of the traffic line as would have been otherwise traveled by him.

I might take the liberty in suggesting to the ladies who are active members of the various clubs of Haskell that they discuss these practices and pledge themselves to discontinue patronage to merchants that keep in their employ such careless, willful drivers.

Let a meal wait, let the patron be considerate, and above all, the drivers of all cars, not alone delivery cars, be patient and considerate of others and in the long run they will be in time to serve the customer and not endanger the life of the customer's child. No mother in this world would prefer the delivery of a pound of butter, or anything else, from any merchant, when she knows that her request for haste endangers the life of her child or of a neighbor.

The men of the town know full well they can file charges against such drivers and that no jury, if one be asked for, will permit such drivers to

go unchallenged and no court will fail to assess a fine accordingly, if charges are made. It would be better to have the dislike of these drivers or even their employers, than have our children crippled or killed because of their thoughtlessness. If the women must

take this step, let's do it.
A Mother.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a result show more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60¢ per bottle.

There are many important features to this. First, a complete and practical Seller, the latest improved model, costs only about half as much as building-in more shelves and drawers.

Second, the Seller is a strictly **SANITARY** fixture.

Third, the Seller has wonderful time- and labor-saving conveniences, which can never be had in any built-in cabinet. And you want time-saving, not merely storage.

Come in and see the new cabinets. Let us also show you some beautiful kitchen arrangements built around the Sellers. No obligation whatever.

STORY OF FLASHING ACTION, COMPILING DRAMA AND TENSE THRILLS!
 And that's precisely what film fans may expect in this spectacular production!

Real Fight in Hans Grey
 "Mother" Acme of Realism

One fist fight that called for no rehearsal because both actors agreed to "let it go," has just been put on the screen.

During the filming of "Wild Horse Moon," in which Jack Holt plays the leading role and George Margill, one of Belts was confronted with the necessity of staging a desperate battle between these two players that called for a real knock-down and drag-out affair. It is pretty generally agreed that the most difficult piece of direction is to put on a screen scrap that will have all the semblance of the real thing.

When the time come for the fight, Marrill told Holt to put everything he had into his swings and depend upon him to block the blows in his own way. This idea was made to order for Holt who did let them go with a vengeance and was still going strong long after director Seitz had order "Cut."

The net result is one of the most terrific film fights ever made—just one of the many high spots in a picture chockful of thrills. A mad stampede of five thousand wild horses is the spectacular climax in this picturization of Zane Grey's latest story.

Noah Beery, Billie Dove and Douglas Fairbanks, Jr. are the other players who are featured with Holt in the production. Monday and Tuesday Nov. 23 and 24 at the Haskell Theatre.

GOLDEN PRINCESS TO BE REALITY FEATURE

The days of old, the days of gold, the days of '49 live once again in all the rollicking, romantic and rip-roaring story in Paramount's stirring, adventurous melodrama, "The Golden Princess" which introduces Betty Bronson as honest-to-goodness movie star.

It will be the main feature at the Haskell Theatre, Friday Nov. 27th.

It offers few parallels that rival heroism and hardship, in daring and adventure the tremendous rush that speed the discovery of gold in California. Men suffered and sacrificed, fought and died to weave from Mother the shining, yellow metal. What background around which to weave

 A lady who had given a dinner party met her doctor on the street the following day and stopped to speak to him.

"I'm so sorry, doctor," she said, "that you were not able to come to my dinner party last night; it would have done you much good."

"It has already done me good," he replied tersely. "I have just prescribed for three of the guests."

WORTH 150 PER TON

Dubney White of Tyler is sending the following to Texas ginners:

A million dollars worth of cotton burs are now being destroyed in the Staked Plains and Panhandle country. It is costing many ginners many dollars extra to destroy these burs.

I have had the Government to test the value of these burs for you and they find that they are worth considerably over \$10 per ton for feed or for fertilizer, almost twice as much as cottonseed hulls. To get this value from them they should be ground. I find that you can grind these burs into meal for about \$1 per ton. The grinding machinery will cost you about \$150. You can use a tractor or connect it with your power plant. Your customer can well afford to pay you \$2 to \$3 per ton for grinding these burs. They make a splendid feed mixed with cottonseed meal and ground maize heads—50 per cent burs, 25 per cent cotton seed meal and 25 percent maize heads. This machine will also grind maize heads. Get rid of these burs without burning them on your yard. We lost a \$20,000 gin by fire from a bur pile fire recently. Your insurance co. will cancel your policy if they catch burning burs in piles on your gin premises. No trouble to answer questions.

Soon Felt Improvement

"The first time I took Cardui I was in an awful bad way," says Mrs. Ora Carille, R. F. D. 1, Troup, Texas. "I went fishing one day. A heavy storm came up and I got soaking wet in the rain. I was afflicted with awful smothering spells. I could not get my breath. My mother had some

in the house that she was taking, so she immediately began giving it to me. In a few days I got all right. "Last fall I got run-down in health. I was weak and puny and I began to suffer. I would get so I could hardly walk. Having taken Cardui before, I sent to the store for a bottle of it. Almost from the first dose I could feel an improvement. "Cardui has helped me a lot and I am glad to recommend it. I don't feel like the same woman I was but fall. My appetite is good now, and I'm sure it's Cardui that's made it stick up."

WEINERT SCHOOL NOTES
The Weinert boys and girls played the Munday boys and girls at Munday on last Wednesday evening in their indoor court. The Munday girls defeated our girls by a score of 14 to 4. Our boys tied 12 to 12 up to the last 10 seconds of the game when Abbott scored just as the whistle blew time. A dispute arose as to whether the two scores should be counted or not and the game was forfeited to Munday. Superintendent Bass called the girls game and Mr. West the auto man called the boys. Armistice day was honored by the teachers and pupils Wednesday. All formed in line at the school house and marched up to town to the beat of drums where the following program was rendered. Song, America; Prayer by Rev. Tatum; Song, Star Spangled Banner; Reading, In Flanders Field by Mrs. Margaret Miller; Roll Call of boys who went from Weinert, Address by Mrs. F. Odoe. After the program the school marched back to the school grounds where a basket ball game was played between Weinert and Gillispie. The score was 11 to 8 in favor of Gillispie. Quite a crowd witnessed the game, which was pleasant from start to finish. Prof. O. Z. Porter of Gillispie called the game to the entire satisfaction of all concerned. Corrections on last weeks notes: 10th Grade Geometry; Bailly Guess 90. 10th Grade English; Frances Derr 99, Carrie Mae Rich 94, Vera Riddling 94. Willie Abbott 90. These grades were left out last week unintentionally and we gladly make the correction. Our school board met in regular session on Monday evening at 8 o'clock with the following members present: D. I Have a Vital Message For You!

I have something of importance to tell those of you who want to make every dollar do double duty.

"Come," said the proprietors of Grissom's, "help us put on a sale that will be the one big startling sensation of the year. A sale so full of human interest that it will be the talk of the thrifty for months to come. Take charge of our stock and find bargains that the people want. Then slash, smash and slaughter the prices, forgetting the cost as we want to make this sale a record breaker, and if cutting the heart out of prices will bring results, we will stand back of you no matter what the loss may be."

I have taken them at their word, and if you will read carefully this four-page advertisement you will see what remarkable, what wonderful bargains I have discovered and how unmercifully I have cut the price with never a thought of the cost. I have smashed the prices as they have never been smashed before and will save you more good American Dollars than you ever believed possible. Everything in stock has been reduced and it would take many more pages to list the thousands of money saving opportunities that await you here.

Yours for Dollar Saving,
JAMES W. POWELL.

Sleep Out Doors And Breathe Fresh Air, Advice Given

Austin, Tex., Nov. 15.—D. E. Breed, executive secretary Texas Public Health association, urges everyone to sleep out doors and receive the benefits that are to be derived from breathing fresh air.

Night air, in spite of the theories of our grandparents, is just as healthful as day air. It is even more purifying, for it is less laden with dust and humidity. Cold air, moreover, according to recent experiments, has been found to be even more health-giving than warm air.

There are four factors that make outdoor air a healthful tonic, according to Mr. Breed. It must be at the proper temperature, not too high nor too low. There must be the proper balance of humidity. The air must be in motion and it must have variability, or change. Within the closed room there can never be the proper combination of these four factors. Ventilation specialists who have been working on this matter for years have concluded that there is no artificial device which can combine the right variability, motion, temperature and humidity. The best air to breathe at all times is fresh, outdoor air.

For those that do not have a sleeping porch the most practical way to bring in the fresh air is through the windows, opened top and bottom. Cross ventilation is thereby obtained and this keeps the air in motion. The Tuberculosis Christmas Seals are largely responsible for the increased recognition of the value of fresh air.

The Height of Conscientiousness.

A Philadelphia man called up a bird-store the other day and said:

"Send me 30,000 cockroaches at once."

"What in heaven's name do you want with 30,000 cockroaches?"

"Well," replied the householder, "I am moving today and my lease says I must leave the premises here in exactly the same condition in which I found them."—The Thrift Magazine.
