seven tackles; Tim Dea, six tackles and one assist; Zane Reagan, six tackles; Tommy Potter, four tackles and one assist, and Diji Couch, three tackles and one assist.

Potter and Mark Patton grabbed off two Happy aerials each, and Dea stole another Happy pass.

Owls had a total offense of 262 yards, as compared with 86 yards for the Cowboys. The Owls made 11 first downs, while the Cowboys made eight.

McPherson is averaging 114.3 yards a game rushing, in spite of having had a couple of games in which he gained less than 50 yards. The team's offense is averaging 228.2 yards a game.

illo Daily News Class B Player of the Week. Selected for the honor this week was Valley's Brum Pinkerton, son of Silverton School Nurse Margie Pinkerton. Mark Brown was able to return to action after having received a shoulder injury on the opening kickoff of the season.

This week the Owls moved back among the Lubbock Avalanche-Journal's top five Class B teams on the South Plains. These are now listed as 1. Klondike, 6-0; 2. Amherst, 6-0; 3. Valley, 4-1; 4. Meadow, 6-0, and 5. Silverton, 5-1.

Elsewhere in District 2-B North Zone, last week Claude and Motley County played to a 0-0 tie; Valley 19, Nazareth 0. This week Nazareth is at Claude, Motley County is at Happy, and the Owls travel to Valley to try to ruin the Patriots' homecoming celebration. Game time is 7:30 p.m., with pre-game activities set to begin at 7:00 o'clock. This could be the game for the district championship, and the Owls will need all the support their fans can muster for them. The Owls have seemed to be able to rise to the situation in earlier games this season, and the team, coaches and fans alike are hoping that Friday night will be no exception. Each team has the capability of winning, and the one who emerges victorious may be the one that makes the fewest mistakes.

Friday has been declared as color day in the City of Silverton by Mayor Charles Sarchet. Show the team that you're with them by wearing red and white all day Friday.

The Owls opened their game last Friday night by kicking off to Happy, and allowing them one first down on a pass play before forcing a punt. The Owls gained a couple of first downs before seeing the ball go back to Happy on downs on the Cowboy 38. Happy's next possession was halted when Nicky McJimsey intercepted a Cowboy pass on the Silverton 8-yard line.

On Silverton's first down, Bobby McPherson charged through the Cowboy defense and ran 92 yards for the first points of the game. Potter kicked the extra point, and the Owls held a 7-0

lead with 2:03 remaining in the first period.

The Cowboys opened the second quarter by punting to the Silverton 12. Happy punts kept the Owls in poor field position during most of the game. The teams exchanged punts, with the Owls beginning their next successful drive from their own five. Silverton picked up a first down on the 30 on runs by McPherson, and got their next first down on a penalty against Happy for roughing kicker Greg Hill. The Owls scored on a beautiful pass from quarterback Paul

Broomweed Infesting Native Grasslands

by Francis E. Northam
Range Conservationist
Soil Conservation Service

Common broomweed has grown exceptionally well this year on Briscoe County rangelands. The plant normally grows in disturbed areas, but this season broomweed is established on native grasslands. How badly native range is infested by a broom-

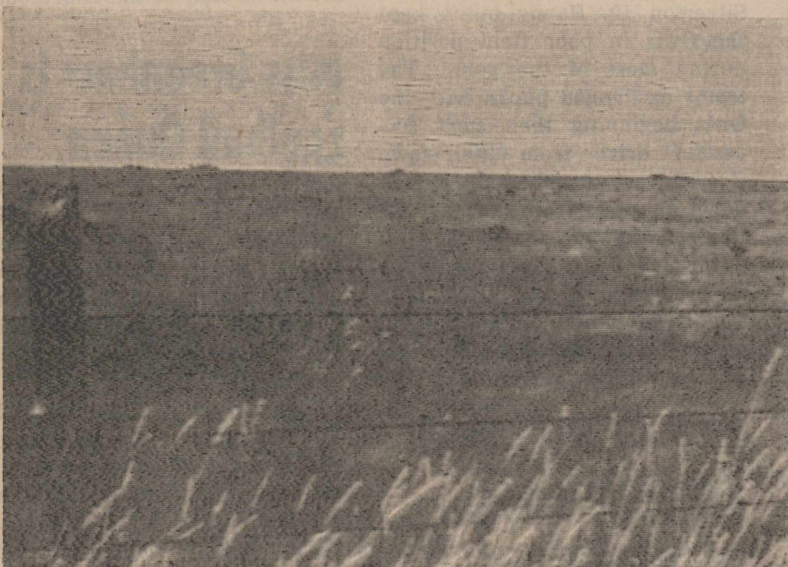

weed outbreak is largely influenced by grazing practices. Range plants that have been heavily overgrazed cannot compete with the weed, and thousands of the plants can thrive on an acre of native grassland.

Overgrazed range is easily invaded by weeds. When livestock graze away the grass cover, the soil is exposed to sunlight. Over-

Bumper year for broomweed. This clay loam rangeland east of Silvertown has 21 to 37 thousand broomweed plants per acre. Ov-

ergrazing destroys the native range's ability to compete with weeds.

This clay loam range on Wade Steele's ranch in southwest Briscoe County has only four to eight thousand broomweed

plants per acre. Many years of good management has maintained an excellent turf that resists weed invasion.

gazing also kills grass roots. With fewer grass roots in the soil, more moisture is available for weeds. The open ground and moisture produce hundreds of pounds of worthless weeds instead of livestock forage.

Proper management provides rest for range grasses during part of the growing season. Grasses use reserve food stored in their roots to replace grazed leaves. Over-grazing occurs when the new leaves are grazed away before they have time to replace the root reserves. As overgrazing continues, the root reserves are used up and the plant dies. Wade Steele, a southwest Briscoe County stockman, expressed this idea well when he said, "We don't graze our grass to death."

For information and assistance developing a good grazing management system that will insure properly utilized range, contact the Soil Conservation Service personnel in Silvertown.

What Think Ye?

Sometimes we ministers get requests from people who have been given our name for reference. One such request came to a certain preacher, "Will you tell us all you know about Mr. A., his character, his habits, his financial responsibilities, etc."

The minister's reply was, "I found his name on the church roll when I came to serve this church. Neither he nor his family attend services. They say it is the only day they have for relax-

ation and pleasure. His name is not recorded on the treasurer's books, so I can't tell you anything about his financial responsibilities. That is all I know about him."

Somehow the letter was revealed to Mr. A. Was he burned up and did he tell the minister? Among the things he said was, "Any minister who is worth his salt must know that a man's relationship to the church and his financial contributions are of a confidential nature."

So the minister wrote another letter: "All I know about the gentleman is of a confidential nature and he has explicitly requested that I do not tell the truth."

We like to give references—good references, that is. Let us

Enjoy Reunion

by Mrs. Murry Morrison

On Saturday, September 30, the Seventh Annual Eddleman Cousins Reunion was held at the Sherwood Community Center in Odessa. The crowd was smaller this year, with only approximately 50 in attendance. There were cousins present who had never attended before, and some regulars were unable to attend. Everyone reports enjoying the day of visiting and feasting.

The next reunion will be held the last Saturday in September 1980 in Stephenville.

Mr. and Mrs. Murry Morrison and Joe, Ruby Cushenberry, Quitaque; Mr. and Mrs. Bryant Eddleman, Silverton and Neva Hickey, Dimmitt, went down Saturday and spent the night, returning home Sunday. The Morrisons and Ruby went by Dimmitt and visited with Bailey Eddleman at the South Hills Manor.

are expected to be imprinted on the 254 "county oak panels" in the university's new \$9.5 million Robert J. Kleberg Animal and Food Sciences Center.

"County Extension Agents are working with their local beef cattle committees to select eight brands per county, and with historical societies to select other brands for the panels," Maddox, Texas Agricultural Extension Service beef cattle specialist, said. Recently, a delegation from Briscoe County added local brands to the county's oak panel. Participating were Lynn Welch, Bill Thornberry, D. T. Northcutt, E. A. Birdwell, Pascal Garrison, Johnnie Burson, G. Mayfield, W. E. Cushing, McMurry Ranch, Wayne Whittington, J. W. Reid and Mrs. Coleman Garrison.

There are some 200,000 brands recorded in Texas and on file with the Texas and Southwestern Cattle Raisers Association in Fort Worth. This is the state's most complete record.

The "branding" was an idea of Dr. O. D. Butler, for many years head of Texas A&M's Animal Science Department and now associate vice president for agriculture and renewable resources. He said that not only are cattle brands a rich part of Texas livestock history but a prized possession of ranchers in identification of their cattle.

"We felt that the branding ceremonies would bring about a closer tie-in between cattlemen and our animal science facilities on campus as well as with research and educational work throughout Texas," Butler said.

KIKER'S KORNER

Earnest Kiker

Briscoe County Extension Agent

Maddox said that branding ceremonies will be conducted by Extension district groups until "all panels are branded."

Due to hail and insect damage to the Briscoe County crops this year, the annual Briscoe County Farm Tour will not be held, but instead a one-stop visit will be held at Bryant Eddleman's farm two miles west of Silverton on Thursday, October 25 at 9:30 a.m. Interested farmers and others are asked to meet at the Briscoe County Courthouse at this time.

Topics to be discussed at the

stop will be cotton varieties, weed control, insect damage and scouting, and crop situation throughout the area.

Dr. James Supak, area agronomist-cotton; Dr. James Leser, area entomologist, and Dr. Raymond Thompson, area entomologist with the Texas Agricultural Extension Service stationed in Lubbock will be here to answer any questions.

Livestock producers from Briscoe County paid a visit to Texas A&M University recently to burn their brands in the county's oak panel at Texas A&M's "branded

stairway" at the Kleberg Animal and Food Sciences Center. Participating were (left to right) Roger Montgomery, Mr. and Mrs. J. W. Reid, Jr., Bill Smith, Lance

Smith, Pascal Garrison, Raye Garrison Smith and Earnest Kiker.

Mark Patton intercepted a Cowboy pass on the last play of the first half.

The Owls received the kickoff which opened the third period, but lost the ball via the fumble route on second down. Patton intercepted another Happy aerial and carried it to the Silverton 40, but Silverton was penalized for clipping back to their own 15, and soon was forced to punt.

Happy completed a pass for an apparent touchdown with 6:03 remaining in the third quarter, but this was nullified by a penalty back to the Cowboy 36.

From that point, the Owls mounted a drive that carried through three first downs to the Happy-5, from which point Potter carried the touchdown with 1:49 remaining in the quarter. Potter's kick hit the goal post and bounced out, and the Owls led 20-0.

Happy came back with one first down and a series of incomplete passes, and concluded their possession by punting to the Silverton one-yard line.

The Cowboy defense held, and the Owls punted and Happy ran it back to the Silverton 32. This possession was cut short when the Cowboys fumbled and recovered their own fumble and the ball went over on downs to Silverton at the 39. The Owls returned the favor, fumbling back to the Cowboys on the 43. Tim Dea intercepted a Happy pass on the Silverton 21 on fourth down, and on first down, the Owls fumbled the ball away at the 15. At this point, there was 7:15 remaining to be played in the game.

The Owl defense stiffened, the ball went over on downs on the Silverton 10. On fourth down, the Owls had a punt blocked, one of the Cowboys picked it up and carried it into the endzone for a score for the visitors. Their kick was blocked, and the score stood at 20-6.

Silverton made another first down before the ball went over to Happy on the 48. Then on first down, Potter intercepted a Happy pass on the Silverton 40. The Owls fumbled the ball away on first down, and Happy completed a couple of passes for minus yardage before the game was over.

Friday night's game at Valley is an important one for both teams, both of whom are good teams. Encourage the Owls all you can, and by all means, be at the game!

County Pig Sale Was A Success

The Third Annual Briscoe County 4-H Pig Sale was a success.

With the help of auctioneers Bennie Reagan, Jack Dulin and Mervin Evans, their secretaries, Mary Lou Nix and Marjorie Dulin, the 4-H'ers, adult leaders, Cal Gauden and the FFA students, and the Silverton Young Farmers, the sale grossed \$1500. This money will be applied to 4-H educational programs and activities for 1980.

Many, many thank yous are extended to each and everyone who worked so hard to make it a success.

Two hundred pigs were consigned to the sale. Forty-four were sifted, 76 pigs sold, and 80 were passed out. The floor bid was set by the consigners at \$75.

Opening the sale, Briscoe County Extension Agent Earnest Kiker welcomed the consigners and buyers to the sale. Two \$25

awards were presented to the Lockney FFA for the Grand Champion Barrow at the Floyd County Stock Show in 1979 and to the Swisher County 4-H for having the Duroc Breed Champion at the Amarillo Stock Show in 1979.

Kiker also presented the auctioneers with gift certificates for their contributions to the 4-H program in Briscoe County. A \$100 check was presented to Cal Gauden and the Silverton FFA Chapter for their hard work at the pig sale.

On behalf of all the 4-H'ers, leaders and Extension Agents Earnest Kiker and Lynda Fogerson, thanks are expressed for all the time, donations and hard work.

Mr. and Mrs. Pete Hale returned Thursday from a vacation. They enjoyed three days and two nights in Las Vegas, Nevada and a few days in Barstow, California, where they visited their son and daughter-in-law, Mr. and Mrs. Lee Klein, and new baby, Joshua Lee. WESTWARD DOUGH!

OR

how DO you COVER A Wagon?

The wild, wild West. Land of hope and opportunity to thousands of courageous settlers. But, if it weren't for the dollars of thousands more Americans taking stock in their country, there might never have been a West to go west to.

You see, money raised from the sale of government securities helped us purchase the Louisiana Territory from the French. Other securities helped buy the states of California, Nevada, Utah, western Colorado and most of New Mexico and Arizona from Mexico. Even settlement of the Oregon Territory was made possible through the issuance of United States securities.

Today, you can still take stock in your country's growth by buying U. S. Savings Bonds.

Just sign up for the Payroll Savings Plan where you work. There's no easier, safer way to save or help your country. After all, U. S. Savings Bonds are still a great way for you to go West. Or East, North and South.

New U. S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deducted until redemption.

Take stock in America.

ROTECTION FROM THE ELEMENTS

It has been said in the Lone Star State that there is nothing between Texas and the North Pole but a barbed wire fence. That certainly gives you the idea that in Texas you're not given much protection from the cold North wind.

There are times when you might think there is no protection and comfort afforded from the hardness and cruelty of the world. But there is a buffer between you and the world. This help and protection is the church. As members of the church, you are with good people of like minds who love you, pray with you, comfort you and assist you. They are the ones who "by love serve one another." (Gal. 5:13)

We invite you to attend the church of your choice this week. You will find a warm welcome there.

"And this commandment we have from him, that he who loveth God love his brother also."

A game plan that'll always make you a winner.

The game of life is not an easy game to play.

And the people who come out winners are the ones who plan ahead.

One of the best ways to do that is to buy United States Savings Bonds through the Payroll Savings Plan.

Bonds are the safe, dependable way to save for all your future plans. Because they always pay off to the penny. For sure. Every time.

So make United States Savings Bonds part of your savings plan.

You'll always be ahead of the game.

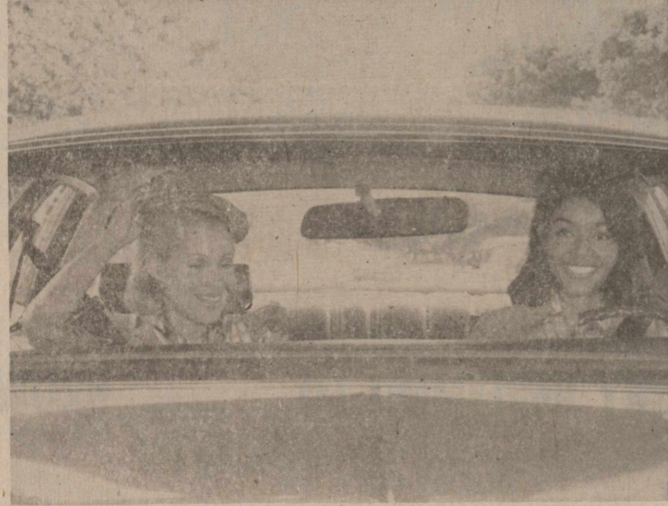

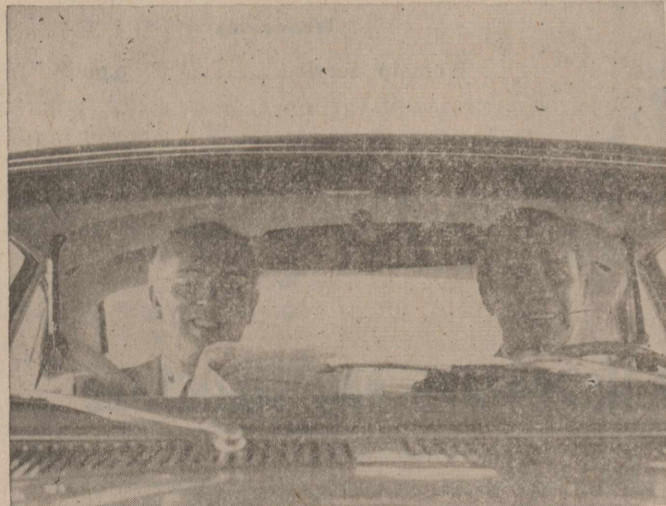

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/4% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

200 years at the same location.

Double up, America.

Two can ride cheaper than one.

If you drive to work by yourself, you're spending twice as much money on commuting as you should.

That's too much.

Cut it in half. Take a friend.

Not only will your daily commute cost you half as much, but that monotonous trip will be a lot more pleasant.

Let's double up. Carpools are a great way to get where we're going. Faster and cheaper.

Was war declared in your house when report cards arrived? Report cards are important—but put them in perspective.

They should say to parents, "Come in for a conference and let's discuss the progress your child is making."

A report card can help parents discuss with the teacher how they can better support their child's learning at home.

Each person has areas of strength and areas of weakness. A report card can help identify these strengths and weaknesses for you and your child.

Daily encouragement—not a threat every six weeks—motivates a child to learn.

Tiny boxes on a report card cannot adequately express six weeks of learning experiences, hundreds of activities and exercises, thousands of thoughts and ideas.

Instead of heaping threats upon your child for poor report card grades, assist him in learning the things he has evidently missed out on.

This is not a time to blame yourself, the teacher or the child for failure. It is time for all to work together for the good of the child to help him learn the skills necessary for his role in life.

AS A MAN THINKETH

Gerald Beasley

SOURCE OF OPTIMISM

"The pessimist delights to hear the patter of little defeats!" He can hardly wait for the future to get here so he can look back with regret. He perceives difficulties and hindrances at every turn. "He that observeth the wind shall not sow; and he that regardeth the clouds shall not reap" (Ecclesiastes 11:4).

Long ago Moses sent 12 spies to size up the promised land. Ten were scared stiff—thoroughly pessimistic. Two, Joshua and Caleb, in glorious optimism, sensed the bounty of the land and held no fear of the enemy "giants." Their simple belief: "Jehovah is with us" (Numbers 14:9).

Caleb reveals that the ten faithless spies had a debilitating effect upon Israel. They "made the heart of the people melt." On the other hand, Caleb's optimism-secret was that he "wholly followed Jehovah" (Josh. 14:8). Another optimist, Paul, could affirm, "I can do all things in him that strengtheneth me."

God has "granted unto us all things that pertain unto life and godliness" (2 Pet. 1:3). To His follower He will grant strengthening "in the inward man" (Ephesians 3:16). He "is able to do exceeding abundantly above all that we ask or think." God is a great Grantor. We grasp His grants through our humble obedience.

Yes, indeed, with the Caleb-attitude there is great cause for unbounded optimism!

Ted Kingery was treated at the Briscoe County Clinic Monday afternoon before being transported to Amarillo by the Silverton Volunteer Ambulance Service. He was admitted to the cardiac care unit at High Plains Baptist Hospital.

SCIENCE and GOD

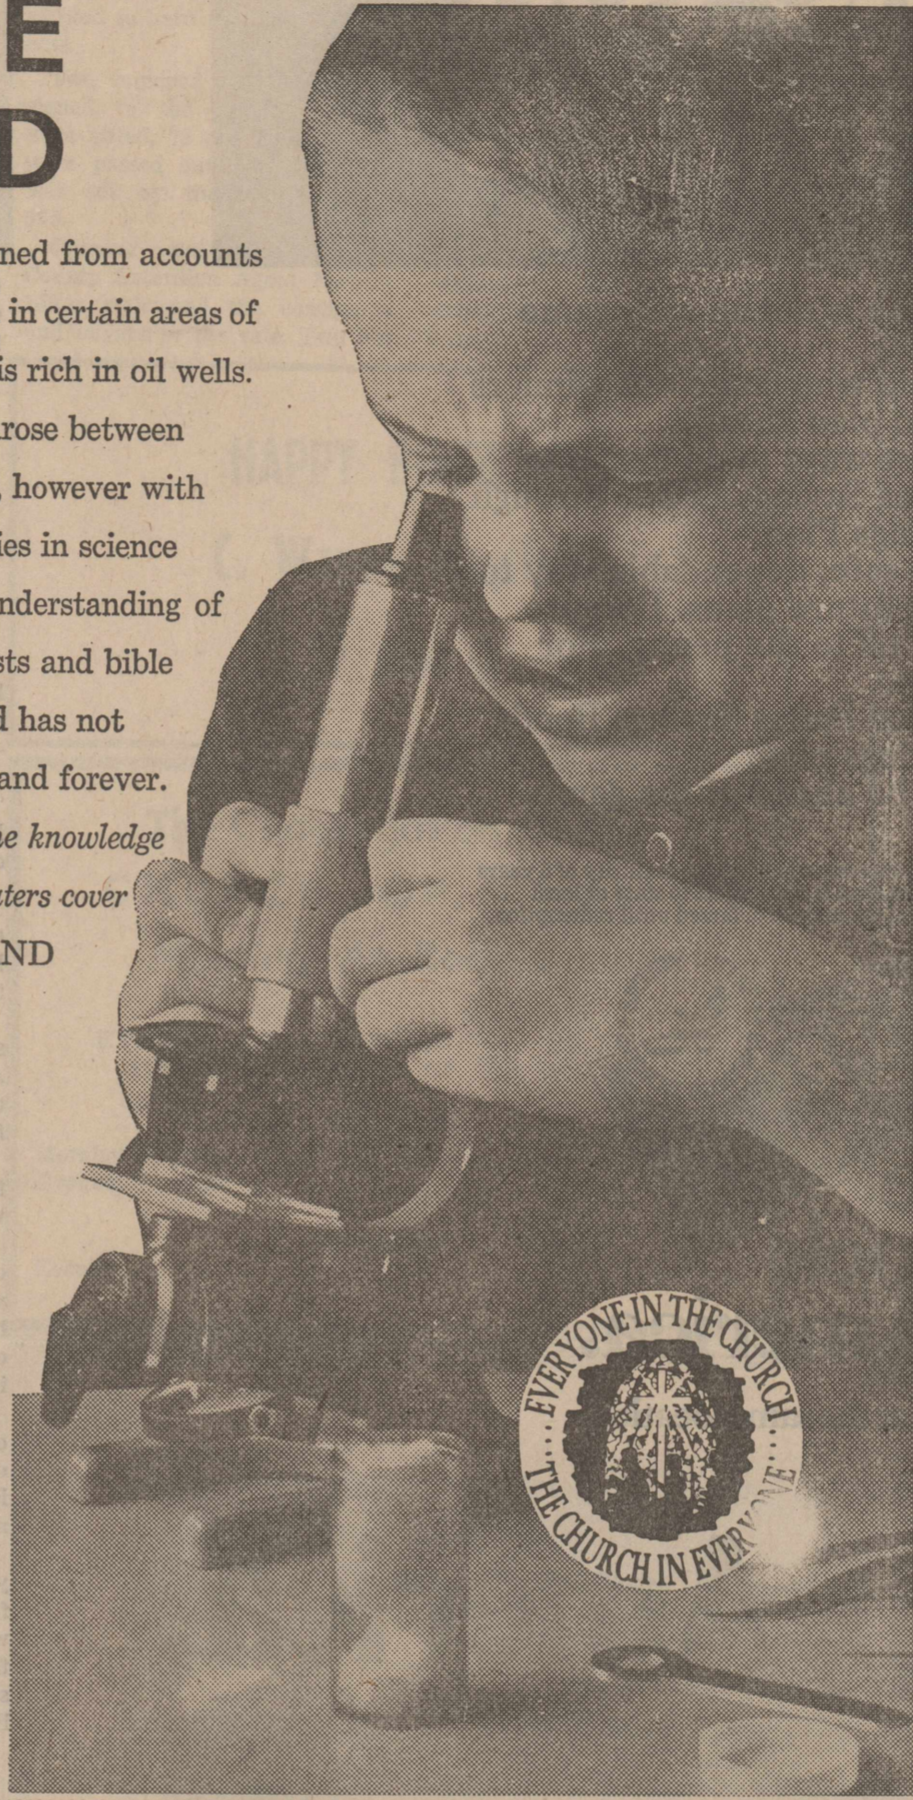

Not too long ago, a man determined from accounts in the bible that oil could be found in certain areas of bible lands . . . now this country is rich in oil wells.

In the past, vigorous arguments arose between some scientists and bible scholars, however with the passing of time, new discoveries in science have helped us to have a better understanding of God's word and now most scientists and bible scholars are in accord. God's word has not needed to be proved, for it will stand forever.

"For the earth shall be filled with the knowledge of the glory of the LORD, as the waters cover the sea." ATTEND CHURCH AND STUDY GOD'S WORD.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Father Time sometimes complicates lives. In "Boeing-Boeing," the new comedy now on stage at Amarillo's Country Squire Dinner Theatre, Father Time flies high when airline flight schedules take off in new directions. Action takes place in a playboy-bachelor's apartment near Orly Airport in Paris. The play by Marc Comolletti is all about the

complications that airline hostesses fall into at that apartment and the problems in timing that the playboy played by Bee Crews, his American friend Robert played by Dennis Sullivan, think are sky-high. One of the hostesses, played by Mary Neufeld, finds a problem with a door is as big a mystery as anything she's encountered with a door on

a plane. The play, "Boeing-Boeing," will run through October 20. Buffet dinner service at the Country Squire, located at I-40 and Grand, begins Tuesdays through Saturdays at 6:30 p.m. Country Rogues preshow entertainment time is 7:30 p.m. and time for the stage take-off of "Boeing-Boeing" is 8:00 p.m.

CARD OF THANKS

I want to thank the Silvertown Football Team for honoring me as the 1979 Homecoming Football Queen last Friday night. Each of you guys is very special to me and you all have something great going in football this year. Keep up the good work and good luck through the rest of the season. Thanks again, Melissa Greenhaw

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.
