Mrs. Dora Johnston **Buried At Hollis Monday Afternoon**

Funeral services for Mrs. Dora Johnston, 100, were conducted at 10:00 a.m. Monday at the First Baptist Church in Lockney with the pastor, Rev. John Jenkins, officiating. Burial was in Fairmont Cemetery at Hollis, Oklahoma at 3:00 p.m. under direction of the Moore-Rose Funeral Home.

Mrs. Johnston died Saturday at 11:55 a.m. in Lockney General THURSDAY, FEBRUARY 14, 1980 Hospital where she celebrated her 100th birthday the previous Monday.

The former Dora Levena Burns, she was born in Hopkins County on February 4, 1880. On January 4, 1904, she married Daniel Thomas Johnston. The couple were sitting in a buggy some eight miles southeast of Hollis, Oklahoma when they were married by a Rev. Shipley.

The Johnstons lived in and near Hollis until March 12, 1968, when Mr. Johnston died. Mrs. Johnston moved to Silverton then, and made her home with a daughter, Girtha Mae Vaughan, most of the time (she frequently visited for a month or so at a time in the homes of her other children).

Mrs. Johnston pulled cotton "until she was past 60 years old" and made pillows, rugs, quilts and other items to keep busy. She was in good health until that unlucky Friday the 13th of October, 1972-she was in her yard looking at the flowers she loved -when she fell and broke her hip. She has been in failing health since, but she vowed she would live to be a hundred, and her granddaughter, Mrs. Homer Ragland of Lockney, reports that she was quite alert on her birthday.

The Johnstons had eight children, three boys and five girls. Two of the boys died when they were very young, and the other, J. D. Johnston, died in March of 1970.

Surviving are five daughters, Mrs. Girtha Mae Vaughan of Silverton, Mrs. Bell Vaughan of Hollis, Mrs. Nancy Smallwood of Winnsboro, Mrs. Catherine Meeks of Granite, Oklahoma and Mrs. Dephena Crownover of Dumas. A daughter-in-law, Mrs. Ear-

The play will be presented at A special series of evangelistic 10:30 a.m. for Silverton High meeting is planned for March 16-School and Junior High School students, and at 1:00 p.m. for During this time both morning Silverton and Valley Elementary and evening services will be sche-School students. This American classic by Washington Irving is dramatized by Marion Depew Ostrander, long recognized as an authority on Children's Theatre, and will recreate on the stage the amazing life of Rip Van Winkle. Productions of Mrs. Ostrander's plays have been seen and enjoyed by thousands of children and adults throughout the United States for over 30 years. The National Childrens' Theatre has selected a company of the finest actors and with authentically beautiful costumes and scenery are offering the highest quality of Children's Theatre to be seen today. "Rip Van Winkle" has been staged with colorful songs and dances by Edwin Child, who will also be seen in the role of Rip. Mr. Child has in past productions endeared himself with the children in many fine roles, but as Rip he surpasses all his past characterizations. The story of "Rip Van Winkle" was written by Washington Irving from letters of Diedrich Knickerbocker, who lived in the Catskill Mountains of New York on the banks of the beautiful Hudson River. After considerable research very few doubted but what Rip Van Winkle was a real person and experienced all the exciting and strange happenings. Rip, a lovable, happy-go-lucky soul, preferred to dance, play and fish with children of the village rather than tend his farm. His wife, Hildy, was forever scolding and trying to get him to work. Her nagging finally sent him, with his faithful dog Wolf, tension Agent and Mrs. Earnest off to the mountains. Here he met the mysterious Little Men

The L. O. A. Junior Study Club who gave him a strange brew teller of stories.

The aim of the National Children's Theatre is to bring to young people memorable experiences by seeing stage plays of highest

Also surviving are 15 grandchildren, including Wayne (Bud) Vaughan of Silverton; 29 greatgrandchildren, and two greatgreat-grandchildren. Grandsons served as pallbearers.

Dewey Seay Buried At Tulia Saturday

Funeral services for Dewey Seay, 81, were conducted at 11:00 a.m. Saturday at the First Baptist Church in Tulia, with the Rev. Charles Davenport, pastor, officiating. Burial was in Rose Hill Cemetery directed by Wallace Funeral Home of Tulia.

Mr. Seay, a retired farmer, died at 4:10 a.m. Friday at Methodist Hospital in Lubbock where he was taken Thursday night from Swisher Memorial Hospital after a brief illness.

Mr. Seay was born in Coryell County January 9, 1899 and moved to Briscoe County with his family when he was nine years old. He moved to Swisher County in 1921. He was a member of the First Baptist Church in Tulia.

Mr. Seay married Flora Belle Abraham in 1918. After her tration County offices (Swisher death in 1951, he married Euphemia McGuire O'Daniel in 1952.

Surviving are his wife; three daughters, Betty Price, Opal Shugart and Anita Bass, all of Lubbock; a step-daughter, Algene Barker of Lockney; one step-son, Ross O'Daniel of Tulia; two sisters, Dolita Boyce of Silverton and Hattie Ziegler of Tulia; six grandchildren, four great-grandchildren, five step-grandchildren and one step-great-grandchild.

Pallbearers were grandsons, Byron and Troy Price, Byrnie, David and Mark Bass, and Bob Levenson. Honorary pallbearers were Dale O'Daniel, Pat O'Daniel, Brent Barker and Junior Perez.

ials to the Swisher Memorial ties.

bock Boys' Clubs.

Miss Harris is also a member of the Future Homemakers of America, Future Business Leaders of America, and participates on the varsity basketball, tennis and track teams. She has held several class offices, and recently was a contestant in the Miss Mackenzie Pageant in Silverton. None of Miss Harris' accomplishments and honors with her horses would have been possible without a lot of valuable training from horse experts. She has attended at least five horsemanship clinics sponsored by the 4-H, has attended the Poarches Barrel Racing Camp and a Martha Josey Barrel Racing Clinic. Many hours of riding and hard work have been necessary for her to be the rider she is today.

She will bring credit to her family, her school and to her hometown when she represents Silverton as Queen of the ABC Rodeo.

This rodeo has been sponsored by the American Business Club since 1943. The project is held for the purpose of raising funds for the Boys' Clubs of Lubbock, and the proceeds from the rodeo go into the capital improvement fund of the Boys' Clubs. The rodeo is approved by the Rodeo Cowboys' Association, and only approved RCA members are eligible to participate. This brings the world's champions and contenders for the world's championships to the show every year. Members of the American Business Club are known as AM-

share it with someone.

There are many ideas about how the name Valentine came to be connected with the day on which lovers send tokens of affection to one another.

One is based on the belief throughout Europe during the Middle Ages that the birds began to mate on February 14.

In addition to honoring Saint Valentine, February 1980 takes on an extra-special air of romantic antiquity-with the observance of "Lovers Leap Season" or "Leap Year."

This holiday occurs once every four years with the appearance of an extra day in February—"Leap Year"—and retains the mysterious belief that women may propose marriage to men with perfect propriety throughout the entire year.

According to an old English saying, ladies may propose during Leap Year, and, if rejected, they may claim a silk gown.

And in many a European town or country, there allegedly have ling as you make the cake or been laws to legalize the custom!

But the mystery remains to be solved; nobody knows just how this tradition got started, and no satisfactory explanation has ever been offered.

In the United States, in New England there used to be a cur-Several inches of snow blanketious belief that during Leap Year day night after a heavy shower beans grow on the wrong side of small hailstones that completeof the pod.

No matter what the origin or belief of Valentine customs, you can still share the heart-shaped cake with a special person.

All of the teams ended their

October, we have come to know Silverton as a friendly town with lots of good people. Even though there have been some moments of heartache, there have been other moments when just a word of encouragement, or an act of appreciation, have completely offset the times of disappointments, and made living in Silverton a pleasure. Just the other day a man from another church said, "We're glad you came to our community." Neighbor, that's enough to keep a feller going for several weeks. And then last Sunday, we had the largest "turn out" for our special services that we have experienced in a long while. What an uplift!

But still our hearts ache within us. Naturally one would ask, "Why?" Well, let me answer that question. In spite of all the good folks in Silverton, most young adults and teenagers have shut God outside. My friend, the road to Hell is paved with good folks with good intentions. The large majority of church attending people in Silverton are above 50 years of age. Young people, you're 10 years behind time. Today our churches are being filled to capacity with folks just like you. The only difference is, they none shall rescue him."

Young Need The Churches, Too by Andy Callis, Pastor Assembly of God Church Since arriving in Silverton last have come to realize they no longer can afford to leave God out of their lives. The young just naturally think they have years to do as they please before becoming serious about God. But, what does the Word say about this? Ecc. 11:9-10 says: "Rejoice,

O young man, in thy youth; and let thy heart cheer thee in the days of thy youth, and walk in the ways of thine heart, and in the sight of thine eyes: but know thou, that for all these things God will bring thee into judgement. Therefore, remove sorrow from thy heart and put away evil from thy flesh: for childhood and youth are vanity." Yes, our hearts will continue to be heavy as long as there are precious young jewels being trampled in the slime of sin, by a devil whose only purpose is to destroy the soul

Young farmer, young rancher, young businessman or student, don't continue to put God aside. That's what Ephraim did until one day God had enough excuses. In Hosea 4:17, we see the conclusion of such living, "Ephraim is joined to idols: let him alone." "I will be unto Ephraim as a lion, I, even I, will tear and go away; I will take away, and

The junior varsity Owls led at the end of the first period, but before halftime had seen their lead evaporate and trailed by two points. Brandon Jarrett burned the baskets with a big 21 points and Kelly McMurtry added 10 points. Other scoring was by Scott Bowman, seven points; Jimmy Stone and Shane Reagan, four points each; Casey Bean, Gary Juarez and Clifford Clardy, two points each.

JV Owls 12 20 30 52 7 22 37 56 Nazareth The Owlettes were led offensively by Staci Mayfield who caged 15 points. Katy Francis tossed in seven points, Susie Tipton rang up six counters, and Connie Rowell added five points. Vicki McJimsey put three points on the

board, and Missy Brown and Judy Northcutt got two points each. 2 18 24 40 Owlettes Nazareth 18 40 63 75 Paul Brannon finished the season in a blaze of glory, leading the individual statistics with a

big 29 points. Mark Brown and Russell Couch tossed in seven points each; Mark Patton and Bill Denton, four points each; Bobby McPherson, two points, and Diji Couch, one point.

Owls 6 22 36 54 Nazareth 15 34 54 74 The Nazareth Swiftettes have won the district title outright, and look to be heading toward a fourth straight trip to the state tournament. The Nazareth Swifts and Valley Patriots split their games while defeating the other teams in the district, and a playoff will be necessary to determine the district champion.

Everybody loves us and shows it. Nice things are done for us. Sunshine and happiness drenches everything. And then there are other days — when we're blue; people are busy. We're alone. We're afraid. It might as well be raining. Nobody knows the trouble we're in. Needed is a little self-discipline, not a lot of self-pity. We must learn to face the fact that life is not always a flowery bed of ease, and pleasure. Children dodge hard places, responsibility, and painful experiences. A mature person stands on his own two feet under God. Time, insight, and the grace of God can remove mountains — and take away that roller coaster spirit. Begin the road to spiritual maturity by attending church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Heart Month

Pacemakers 'Grow Up', Last Longer

During America's efforts to put a man on the moon, reliability became the watchword of the space program.

In fact, one space program official speculated that if the normai American automobile was as reliable as the Apollo space equipment, the first malfunction would take place after more than 100 years of driving

Much the same, although to a lesser extent, can be said about the cardiac pacemakers being manufactured today. Some manufacturers are indeed saying that their pace-makers are reliable by giving lifetime warranties on them.

The cardiac pacing system is the result of an amazing blend of modern technology and the art of medicine. The pacemakers that represent the mix of 'hard' and 'soft' sciences are allowing the victims of heart disease to live relatively normal lives, whereas even as little as 20 years ago, they would have been hopeless invalids or died

without pacing therapy. The condition that is most often treated with pacing is a disruption of the heart's normal electrical conduction system, called heart block. Heart block occurs when the normal conduction system of the heart becomes unable to carry the natural electrical impulses from the upper chambers of the heart to the lower chambers. This disruption may be due to normal degenerative processes associated with aging, or it may be a complication of cardiac surgery, where the conduction system is accidently severed during the operation.

The result of heart block is a slower heart rate, which, in turn, results in less blood being pumped by the heart to the body. With less blood being pumped, someone with heart block often experiences dizzy or fainting spells, swelling of the ankles, pains in the chest and overall weakness.

At one time, people who developed heart block seldom lived more than a year.

In the early 1960's, cardiac pacing became a common way of treating such conditions. Now, instead of having a life expectancy of less than a year, people with heart block are often restored to a relatively normal life style and have almost the same life expectancy as normally healthy people in their age group.

The pacemaker performs or replaced. This is no longer this miracle by sending a tiny necessary today. electrical stimulus to the programming device, today's heart, causing it to beat whenpacemakers can be changed ever the heart fails to beat on

ORNER Earnest Kiker

IKER'S

Briscoe County Extension Agent TRACTOR FUEL EFFICIENCY

To get the most fuel efficiency from a tractor, tune it up, don't run it too cool, and don't use a tractor that's too big for the job. A tractor engine that's operating poorly may be wasting up to 30 percent of its fuel. That means a 180-horsepower diesel tractor could be sending \$20 to \$30 up the exhaust stack in a 10-hour day

Most fuel waste originates in ignition systems of gasoline tractors and in fuel systems of diesel tractors.

Dirty air filters, bad carburetion, incorrect timing and worn spark plugs are other fuel guzzlers. On diesel engine tractors, worn fuel inpectors can cause unnoticed losses of fuel efficiency. Check fuel filters and replace them regularly, at least as often as the operator's manual suggests, and maybe more often under difficult conditions. If fuel filters are doing the job they are designed to do, they will eventually plug up or start passing sediment into the fuel. That could mean costly repair bills as well as lost fuel efficiency.

What about running a tractor too cool? Most tractor operators concern themselves with engine temperature only when the water temperature gauge is on the hot side. But a tractor engine will wear out faster, develop less horsepower, and use more fuel when it runs too cold.

Today's tractor engines work most efficiently when the water temperature is somewhere between 165 and 180 degrees. So, a faulty thermostat that allows the tractor to run too cool is almost as bad as one that causes the engine to overheat.

Another minor tuneup item to check regularly is the fuel tank cap. It should be sealed tightly to keep out dirt, but at the same time be properly vented to allow fuel to flow freely.

tractor for the job. If you select Regarding spark plugs, check one that's too big, you're simply them on a regular basis even if burning excess fuel to produce you don't think they need it. unused power. ders, Extension area clothing spe-

The 1980 Texas 4-H Fashion Revue will be held in Abilene September 17-19. The Revue is a culminating event which highlights the achievements of 50 contestants in the 4-H clothing project. According to Davison, these 50 4-H'ers represent almost 12,000 girls and boys who annually participate in 4H clothing projects in their local clubs.

To earn the opportunity to compete in the Texas 4-H Fashion Revue, members must qualify through a series of county and district revues. Through this process 4-H members develop self-confidence and poise, acquire leadership skills and good grooming habits, and develop the ability to make and model garments.
