

## Fire Department To Meet Tonight

Silverton Volunteer Fire Department will meet tonight (Thursday) at 7:00 o'clock at the City Hall.

## Grady Retiring From SCS August 23

Cletus Grady, Soil Conservation Technician with the USDA Soil Conservation Service field office in Silverton, will retire from federal service August 23, 1980.

A native of Reeves County, Texas, he has worked in the Balmorhea and Tulia field offices during his 35-year career in conservation work. He was transferred to Silverton in 1957.

While with the SCS he received several performance awards including numerous safe driving awards, two certificates of merit and cash awards for outstanding service.

Grady served 3½ years in the Army Air Corps during World War II. He actively worked with the Boy Scouts as Scoutmaster from 1960 through 1966.

He and his wife, Geraldine, plan to continue living in Silverton.

## Mrs. Folley Buried Tuesday

Funeral services for Mary Franklin Folley, 91, were conducted at 2:30 p.m. Tuesday at the Silverton Church of Christ. Officiating was Earl Cantwell, minister of the Rock Creek Church of Christ.

Burial was in the Silverton Cemetery, with arrangements directed by the Silverton Funeral Home.

Pallbearers were Roy Mack Walker, W. H. Brooks, Virgil Crow, Johnny Burson, Wayne Vaughan and Oner Cornett.

Mrs. Folley, a former resident of Silverton and Briscoe County, died Saturday in Stone Mountain, Georgia.

Mrs. Folley was born November 21, 1889 in Wise County. Her husband, John Folley, preceded her in death.

She is survived by one son, Wilson Folley of Norman, Oklahoma; one daughter, Erma B. Ridge of Atlanta, Georgia; one grandson, Johnny Folley of Oklahoma City, Oklahoma; two granddaughters, Ramona Ridge of New York City, New York and Renise Ridge of Paris, France; one brother, Johnny McClendon of Lubbock.

The family was at the home of a nephew of Mrs. Folley, J. C. and Thada Fowler, in Silverton.

## Services Held For Infant

Memorial services were held August 14 near Raton, New Mexico for Bonnie Burk, infant daughter of Mr. and Mrs. Mark Burk. She was stillborn August 11.

In addition to her parents, she is survived by her grandparents, Mr. and Mrs. Norman Burk of Raton and Mr. and Mrs. Elton Cantwell of Silverton; and great-grandparents, Mrs. Jewel Fleming of Amarillo and Mr. and Mrs. Earl Cantwell of Silverton.

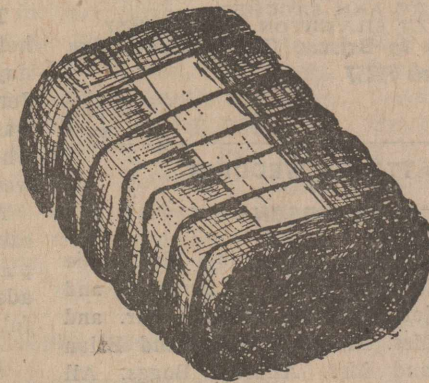

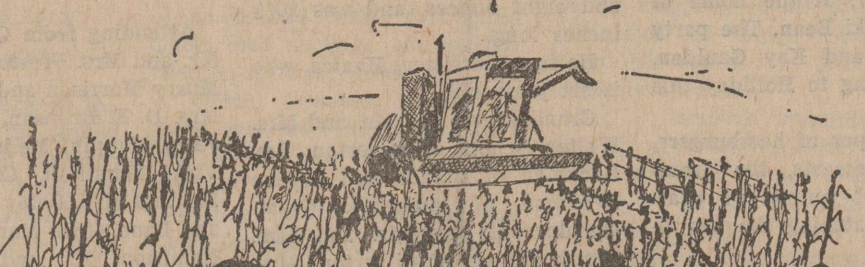

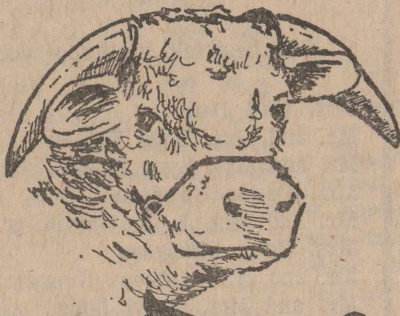

## BLOOD DRIVE IS PLANNED SEPTEMBER 9

A blood drive will be held in Silverton on September 9 at the City Hall.

You are asked to check your Blood Plan insurance policy to see if yours will be due at this time.

It is hoped that there will be a good turnout of blood donors, because the Silverton blood pool is in need of replacement. Remember, you can give to renew your insurance policy or you can give to add to the Silverton blood pool, but if you use your donation to renew your insurance, it does not go into the blood pool for use by Silverton residents.

## Services Friday For Mrs. Haynes

Funeral services will be at 2:00 p.m. Friday for Mrs. Minnie Mae Haynes, 84, who died at Central Plains Hospital in Plainview at 6:30 a.m. Wednesday. She had been in critical condition in the intensive care unit since Sunday.

Officiating at the services will be Rev. Royce Denton, pastor. Interment will be in the Silverton Cemetery, with arrangements under the direction of the Silverton Funeral Home.

Pallbearers will be Jerry Patton, J. E. Patton, jr., Happy Cole, Kenny Hughes, Don Light and Bill Weeks.

Born at Necessity in Stephens County, Texas, on March 5, 1896, Mrs. Haynes was the daughter of the late Jeff and Annie Todd Burson. In mid-October of 1897, Mr. and Mrs. Burson and their baby, Minnie, started the long overland trip to Briscoe County. They were accompanied by several other travelers in covered wagons, bringing all their possessions with them. Camp was made each night where water was available for the livestock. Cooking was over open campfires of wood, brush or buffalo and cow chips. After 17 days of traveling, the group arrived in Briscoe County and the Burson family settled in a half dugout about 4½ miles southwest of Silverton. The closest neighbors were miles away. On October 31, 1899, two years to the day since they had arrived in Briscoe County, they moved into a two-room clapboard house in Silverton.

Mrs. Haynes had been a resident of Briscoe County for 82 years, and had lived on the Silverton townsection since moving there with her parents.

She married Shelby Haynes in Silverton on May 4, 1913. In the early days of their marriage, Mr. Haynes hauled wood from the breaks with burros and freighted with a team and wagon from Silverton to Tulia. The trip took 2½ days for one trip if loaded both ways—which was the case most of the time. He took his bed and chuck box and camped along the way. Mr. Haynes had

pen, crayons, Elmer's glue, one folder with pockets, metric ruler, large box Kleenex  
**FIFTH GRADE**—Red pen or pencil, ballpoint pen, pencils, eraser, notebook and filler paper, 5 pocket folders, 8-count colored pencils, crayons, scissors, Kleenex and a shoe box.

The school is continuing to try to fill vacancies in the faculty.

## Higher Grain Reserve Release And Call Prices Now In Effect

Higher release and call prices for the farmer-owned grain reserve has been put into effect. The announcement was made by Secretary of Agriculture Bob Bergland.

Wheat, corn and barley reserves are in release status and will so remain at least until August 31. Oat and sorghum reserves have been called and these actions by the U. S. Department of Agriculture do not change this. Instead, Bergland said, new reserves for oats and sorghum which have not previously been in the reserve become available to producers with the higher release and call prices.

"Implementing the higher reserve price levels principally affects corn and sorghum," Bergland said. "Because these two crops are being harvested and going under loan, we are putting the higher release and call prices in effect now, rather than wait for October 1, the beginning of the corn and sorghum marketing year."

The action also insures that release and call prices will be based on the higher loan prices for all reserve grain—including grain in existing reserves from 1979 and previous crops.

On July 28, President Carter announced new loan, reserve release and call prices for wheat and feed grains with reserve release prices for wheat set at 140 percent of the loan price and call prices at 175 percent of the loan price. For feed grains, the release prices remain at 125 percent of the loan price and call prices at 145 percent of the loan price.

Farmers who take part in the reserve program agree to hold their grain off the market in reserve until the contract matures or until the farm price reaches the specified release price. When the farm price reaches the call price, farmers agree to repay the loan plus accrued interest and unearned storage payments, or forfeit the commodity to CCC.

Under the reserve program, the Commodity Credit Corporation makes a loan to the producer with interest rates waived after the first year of the contract. The CCC also agrees to pay storage payments of 26.5 cents per bushel per year, except for oats where the payment is 20 cents.

With this change, the release price for corn now in reserve is \$2.81 per bushel and call prices are \$3.15 and \$3.26 per bushel—125 and 140 or 145 percent, respectively, of the \$2.25 per bushel loan price—and up from

one of the first big two ton trucks in Briscoe County. In it he could make 18 miles per hour and two trips per day to Tulia by leaving home about 4:00 a.m. and driving late. He continued to haul fruit and vegetables for people to can until failing health forced his retirement.

He preceded his wife in death in 1961. They were also preceded in death by a son in 1923.

Mrs. Haynes was the eldest member of the First Baptist Church in Silverton.

She is survived by two daughters, Mrs. Lallie Patton of Silverton and Mrs. Shirley Whitehead of Tulia; four sisters, Mrs. Abbie Whitacre and Mrs. Jessie Weeks, both of Plainview, Mrs. Amye Light of Panhandle and Mrs. Imogene Bell of Montoro, California; four brothers, Grady Burson of Amarillo, Jerry Burson

of the \$2.63 previous release price and previous call prices of \$2.94 and \$3.05 per bushel. The new reserve release price for sorghum is \$2.68 per bushel (\$4.78 per hundredweight) and the call price is \$3.10 per bushel (\$5.54 per hundredweight).

### Macon - McMinn Vows Exchanged Saturday In Sweetwater

Starla Macon, daughter of Mr. and Mrs. Don Macon of Sweetwater, and Dudley Brian McMinn were united in marriage Saturday evening at the First Christian Church in Sweetwater.

The bridegroom is the son of Mrs. Maggie Graham and Travis McMinn, both of Lubbock. The bridegroom is the grandson of Mrs. Bud McMinn of Silverton.

Myriad candles burned in arched and tree gold candelabra, accented by branched spiral candelabra entwined with boxwood greenery. The altar was complemented by two baskets of white gladiolus.

The bride's gown was an original design fashioned from organza and imported Chantilly lace. The Queen Anne neckline of the organza bodice was trimmed with lace and delicate pearls. Sheer Victorian sleeves were accented with Chantilly lace, veiling fitted half sleeves. Accordion pleats flowed gracefully from the bodice to the floor, surrounded on both sides with a border of lace. The cathedral length train was edged with a lace border and featured a full lace panel flowing from the waistline. To complete her attire, the bride chose a fingertip veil with satin edging and pearl-work over satin for the headpiece. Her bouquet of white roses, accented with dusty rose baby's breath and greenery, was carried atop a white Bible given to her by her maternal grandmother.

Attending the bride as matron of honor was Mrs. Tommy Huffman of San Angelo. Bridal attendants were Mrs. Steve Carrigan of Abilene, Debbie White of Lubbock, Lesa Beach of San Angelo and Ponda Wilkinson of Lubbock.

They wore dusty rose polyknit gowns with satin-trimmed chiffon pelets. A tucked halter bodice over accordion pleated skirts accented their gowns. They carried white lace fans covered with silk

roses of dusty rose, touched with baby's breath and greenery.

Mike Wooten was best man and groomsmen were Craig Potts, Mark Payne, Jeff Harp and Shawn Dodson, all of Lubbock. Ushers were Kirk Macon of Sweetwater, the bride's brother, Glenn Stallings, Mark Payne and Jeff Harp, all of Lubbock.

Candles were lighted by Jon Riggs of Lubbock and Jill Graham, sister of the bridegroom. Brian Hubbard of Lubbock, the groom's nephew, was ring bearer.

Fellowship hall of the church was the setting for the reception. Serving at the bride's table were Mrs. Brian Halfmann of Clyde, Mrs. Wayne Kitchens of Abilene, Amy Taylor of Lubbock and Ruth Beach of San Angelo. Presiding at the groom's table were his sister, Mrs. Richie Hubbard of Lubbock, and Connie Dickey, also of Lubbock.

The bride's table was covered with a white lace cloth made by the groom's maternal grandmother, Mrs. Walter Brian of Lubbock. A tiered wedding cake accented with a cluster of fresh pink roses and a flowing fountain, centered the table.

The groom's table was covered with a cloth of dusty rose over white lace. A double ring chocolate cake topped with assorted fresh flowers was used as a decorative accent.

Following a wedding trip to points of interest in Colorado, the couple will be at home in Lubbock.

The bride is a graduate of Sweetwater High School and Angelo State University. She is employed by the Small Business Administration in Lubbock.

A graduate of Monterey High School in Lubbock, the groom attended Texas Tech University. He is employed by Field's & Company in Lubbock.

Parents of the bridegroom were hosts for the rehearsal dinner at the Lamp Post in Sweetwater Friday evening.

### YES, YOU CAN CAN

The heat and shortage of water may have reduced the supply of garden produce this summer, but—from the calls I have had about canning—I know many of you are still canning or freezing food.

If food spoils or fails to seal properly, your valuable time and food have been wasted. Following are some questions you may have asked or wondered about food preservation:

"Which pressure canner is more accurate—the kind with a dial or the one with a weight control?"

Both are accurate if used and cared for according to the manufacturer's instructions. Some people like numbers on a dial; others prefer the sight and sound ("jiggling" noise) of the weight control. Note: the dial control must be tested frequently for accuracy. The weight control does not need this, but it must be cleaned occasionally for good service.

Next week, more questions and answers on food preservation.

vides temperatures (240° F.) higher than that of boiling water (212° F.).

"Is it true that jams and preserves need to be processed in a boiling water bath?"

Yes, this prevents the growth of molds and yeasts that could cause food spoilage and quality changes in these products.

### SOCIAL SECURITY IN BRISCOE COUNTY BY JANICE ULMER

This past spring, Social Security conducted symposiums throughout the country to obtain public response and input to our programs. Many valid questions were raised. This week and next, this column will present several of the most frequent inquiries along with the responses of the Lubbock District Manager, Laura Peacock.

Question: Despite assurances that Social Security is in good shape financially, I still read reports by various government officials that Social Security will not be able to pay some benefits in the 1980's. What is THE REAL truth, and why do these stories keep popping up?

Answer: Social Security benefits are paid with Social Security taxes, which are actually divided into separate trust funds. These are the old-age and survivors trust fund, the disability trust fund, and the health insurance trust fund. Although the total monies available in these funds are adequate to pay all benefits due under reasonable economic forecasts, there will be a cash-flow crunch in the old-age fund by 1982, as opposed to an excess in the disability fund.

The proposed simple shift money from the disability fund to the old-age fund. Congress is expected to take the necessary legislative action soon to allow this interfund borrowing. Under our best judgment about the economy, this step will permit Social Security trust funds to continue paying benefits timely for the next 25 years—and then some. The Social Security system remains under constant scrutiny and study in order to provide the executive and legislative branches with a sound basis to consider any changes the program needs well in advance.

I remain confident that this basic social program for our country will always pay benefits on time, as it has for the last 40 years.

Question: We keep hearing that a good deal of Social Security is—if it is such a good deal, why don't government employees want to be covered by Social Security?

Answer: When the Social Security Act was enacted in 1935, the Federal Civil Service Retirement System had been in existence for 15 years and was well established. Civil Service employees were not covered under Social Security at the time because there seemed to be no need for Federal employees to be covered under two retirement systems.

Federal employees are concerned with ensuring that retirement benefits paid for over the years are preserved, more so than they are anti-social security. Government employees have paid taxes to support the Civil Service Retirement Fund since 1920. It is at a higher tax rate than under Social Security, and in addition is paid on their full salary, rather than a base amount. Approximately two percent of the nation's workers are employees of the Federal Government. The inclusion of the relatively small number of federal employees under the Social Security system would have little effect on the financial stability of the system.

A Congressionally - mandated study on the feasibility and desirability of providing Social Security coverage for Federal employees has recently been completed and has been submitted to the Congress and the President for further study.

### HEARING TESTS SET FOR SILVERTON

Electronic hearing tests will be given at the Senior Citizens Building in Silverton on Thursday, August 28, from 1:30 until 4:00 p.m.

Factory trained Hearing Aid Specialist J. Wampler will be at the Senior Citizens Building in Silverton to perform the tests.

Anyone who has trouble hearing or understanding speech clearly is welcome to have a test using modern electronic equipment to determine if his loss is one which can be helped. Some of the causes of hearing loss will be explained, and diagrams of how the ear works will be shown.

Everyone should have a hearing test at least once a year if there is any trouble at all hearing clearly. Even people now wearing a hearing aid or those who have been told nothing could be done for them should have a hearing test and find out if amplification can help them hear better.

The free hearing tests will be given Thursday, August 28, from 1:30 until 4:00 p.m. at the Senior Citizen's Building. If you can't get there on Thursday, call 823-2256, and arrange for an appointment at another time. In-home testing is also available.

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.
