

There has been a lot of oil excitement around Briscoe County this week, some of it created by all the publicity in daily newspapers since the completion report was filed on the G. Mayfield No. 1 northwest of Silverton.

Telephone calls in the last two weeks have come in to the newspaper office from Houston, Amarillo and other far-flung places that don't usually call here asking for information about anything short of a natural disaster. This week a representative of an oil company called from Corpus Christi, and after our visit he told me that he would probably be seeing us soon. A spokesman for the company had been quoted in the Amarillo Sunday News as saying they would be drilling in the Palo Duro Basin before the end of the year.

It is reported that Marathon Oil Company has leased 39,000 acres in this area, and other lease totals we have been able to get include Shell, 100,000 acres; Exxon, 80,000 acres; Mayfair, 31,000 and an interest in 40,000 acres more. Lease price in Briscoe County is said to be averaging \$50 an acre.

Lease price in Hall County is said to be averaging \$35 an acre.

There has been very little information released on three "tight" holes drilled in Hall County, but information we received from Turkey is that a Christmas tree has been placed on one of them.

Marathon Oil Company is currently drilling a wildcat in Castro County, and when we reported last week that another well had been staked on the Mayfield Ranch, it was in error.

Work continued this week on the Standard of Texas Allen Johnson No. 1 in the Red Hill community of Swisher County. which is a re-entry.

Drilling was down to 4,800 feet on the J. K. Patrick No. 1 (Hanson Corporation) near Quitaque, and after some circulation problems and broken drillstems which necessitated "fishing" expeditions, the W. H. Brooks No. 1 (Tri-Ex Oil & Gas and Exploration Unlimited) is drilling below 4,900 feet.

Sojourner Oil Company is dril-

Board Members To Be Elected By

ling below 4400 feet on the D. M. and W. M. Cogdell No. 1 northwest of Silverton. In addition, another intention to drill has been filed by Tri-Ex Oil & Gas for a wildcat on the Cogdell Ranch northeast of Silverton near the dumpground. The permit is to 6800 feet. A BJM rig is expected in the next few days at this location.

Work is continuing by BLN at the wildcat location on the Saul Ranch.

The economic benefit from the wildcatting is being felt in most corners of our little town. Approximately 15 Briscoe County men are working on the oil rigs; some are selling and/or hauling water to the drilling locations; one company is said to have a diesel contract with one of the drilling companies; some are engaged in digging pits at the new locations; caliche sales have been stimulated; most of the out-of-town workers are feeding themselves at local eateries, etc. This is in addition to the lease

money landowners have received.

This has encouraged several local residents to "branch out" with new businesses. An automatic laundry is something we can look forward to in the near future, though its location has not yet been announced.

Wayne and Tina Nance have purchased and had a new front installed on the old drug store building, a very attractive addition to Main Street.

Riley and Sandy Harris have purchased and are in the process of remodeling the old post office building.

Businesses will be located in both of these buildings.

Gary Younger and Mike Cornett have put in a recreation and game room in the old Henderson building near the intersection of Highways 86 and 207. That building had long been empty.

Fred Edwards and H. A. Cagle have been readying some living quarters near that new business. that one buc'ness is leaving Sil- much bread and salad it takes pital in Plainview for several

Eligible upland cotton farmers soon will receive an estimated \$530 million in deficiency payments on their 1981 crop, according to Everett Rank, administra- upland cotton farmers who retor of the U.S. Department of ported their 1981-crop acreage Agriculture's Agricultural Stabilization and Conservation Service.

Deficiency payments are required under the 1981 upland cotton program because the average market price received by farmers during the 1981 calendar year was below the established target price of 70.87 cents per pound.

The 1981 national weighted average market price for upland cotton was 63.2 cents per pound; therefore, eligible producers will be paid 7.67 cents per pound for their 1981 crop. Deficiency payments will be based on 1981 cotton planted acreage times the payment yield for each farm as determined by ASCS.

Appliance Repair. Ninette Zorger has been offered employment at the hospital in Lockney, and Joe will be moving his business there when they go. The move is necessary to eliminate Ninette's commuting expenses. 3

PUBLIC NOTICE

Notice is hereby given by the Parks and Wildlife Department that a public hearing will be held at 10 A.M. on March 15, 1982 at the County Courthouse at Silverton for the purpose of gathering information concerning proposed hunting, fishing and trapping regulations for Briscoe County.

As the result of action by the Texas Legislature, the Texas Parks and Wildlife Commission is responsible for the setting of seasons, bag limits, and means and methods of taking the wildlife resources in Briscoe County. All interested persons are urged to attend and comment upon the proposed regulations.

Quality care is . . . Good, Home - Cooked Food

Food. It's such a simple thing, you probably take it for granted. But in our nursing home, we can't. We care about nutrition. We care about variety. About freshness. We care about serving a good breakfast, a hearty lunch and a solid dinner.

On our staff are people trained to develop a careful dietary plan for every resident. And we prepare our meals the way they're supposed to be. As good as home cooked. Our food isn't just institutional food, because we are a home. We have to satisy some of the most experienced cooks around-our residents.

Good food is only a small part of nursing home care. But it's an important part. For nutrition. For healing. For making our residents feel at home.

We try to put just as much care into everything we do. That's what total care nursing is all about.

Come and visit, and share a good home-cooked meal at our home

Reporting a power outage helps SPS personnel restore service more quickly. During major power interruptions, plant operators receive a signal telling them that a problem exists. Calls from customers help these operators pinpoint the exact location of the outage, allowing service crews to make repairs quickly, with less inconvenience to customers.

Billy Mason, Area Dispatcher, Roswell,

The most energy-efficient portable appliances are those that can be used for more than one thing. For instance, an electric fry pan may be used to fry eggs and meats, make a cake, cook roasts or prepare one-dish meals. When buying portable appliances, look for good warranty coverage and local availability of replacement parts and service. And always read the use and care book provided by the manufacturer BEFORE using the appliance. Baking a cake in an electric skillet is twice as economical as in the oven.

Christye Waters, Home Service Advisor, Lubbock.

It takes nearly one pound of coal to produce one kilowatt-hour of electricity. Southwestern Public Service has long-term coal contracts with mines in Wyoming to provide the large supply of coal needed to generate electricity for its customers. Even though it is transported about 1,000 miles, in 110-car trains, coal is still the least expensive fuel.

Jerry Hermesmeyer, Plant Manager, Harrington Station.

Knowing what electricity is worth is worth knowing. For answers to your questions, call or write your SPS manager.

Fred Arnold explained the rope craft project in which he had ten "Examine Yourself" will teach 4-H'ers to make halters and hackmores. study. Parents volunteered for teach-

Enjoying lunch together at project which will begin soon. Lake Mackenzie Sunday were Senior 4-H'ers who will attend Mrs. Elizabeth Skelton, Mrs. M. the 4-H Ski Trip met to plan the Sunday morning devotional.

Any youth 9-19 years of age who would like to join 4-H and participate in any of these projects and contests may call Kaof the County Extension Agents at 823-2343.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages, regardless of socioeconomic level, race, color, sex, religion or national origin.

Prayer and Share Sisters Meet In **Francis Home**

Mrs. Danny Francis was the February hostess for the Secret Prayer and Share Sisters as they studied "How to Face Life's Problems and Heartaches with Courage and Resolve."

The Bible, of course, is the best guide at all times under all circumstances.

Any Christian knows that life brings its bitters with its sweets. and that the mature child of God must be prepared to stand the tests that come his way. Someone said that "a Christian is like tea,
