VOLUME 75 NUMBER 15

Screening For Children Will Be Held Friday

District-wide screening for three, four and five-year olds will be from 9:00 a.m. to 12:00 noon Friday, April 15, 1983, in the Silverton School Cafeteria. Children must be three or three by September 1, 1983, to be eligible for screening. Children moving to Silverton Independent School District since last year and are already three are also eligible for this year's screening. Teachers and staff will be available to answer questions, administer a brief assessment and interpret data to parents.

This screening is sponsored by the Silverton Independent School District and the Comprehensive Special Services of the

Swisher-Briscoe Education Cooperative.

The free services, which will require approximately 45 minutes, assesses the following areas: gross motor, fine motor, concepts and communication skills.

Parents are encouraged to bring their children to the Silverton School Cafeteria at the times listed: Children whose last name begins with A through M from 9:00 to 10:30, children whose last name begins with N through Z from 10:30 to 12:00. Crop Corn, Sorghum Producers To Receive Deficiency Payments

Eligible corn farmers will earn about \$290 million in deficiency payments on their 1982 crop, while sorghum farmers will earn about \$64 million, according to Everett Rank, administrator of USDA's Agricultural Stabilization and Conservation Service.

Rank said deficiency payments are required under the 1982 corn and sorghum programs because average market prices received by farmers during the first five months of the marketing year (October through February) were below established target price levels of \$2.70 per bushel for corn and \$2.60 for sorghum.

The deficiency payment rate is based on the difference between the established target price and the higher of either the national weighted average market price for October through February of the loan rate.

The national weighted average market prices were \$2.24 per bushel for corn and \$2.20 per bushel for sorghum. Thus, eligible producers will be paid 15 cents per bushel for their 1982-crop corn based on the \$2.55 loan rate and 18 cents per bushel for 1982-crop sorghum based on the \$2.42 loan rate.

Deficiency payments will be made to corn and sorghum farmers who participated in the 1982 acreage reduction programs. Rank said the payment checks will be issued through local ASCS offices as soon as possible after April 1 for both

corn and sorghum.

The total base acreage for the 1982 corn program was 81.3 million acres of which 23.6 million acres participated in the program. The total acres planted for harvest on these complying farms was 19.1 million. For the 1982 sorghum program the total base acreage was 17.7 million acres with 8.3 million acres participating. The acres planted for harvest on the complying farms was 6.1 million.

Commodity and farm storage loans disbursed in April by the U. S. Department of Agriculture's Commodity Credit Corporation will carry a 8 7/8% interest rate, according to CCC Executive Vice President Everett Rank.

The new rate, down from 9%, reflects the interest rate charged CCC by the U. S. Treasury in April, Rank said.

This wildcat is to be drilled in the same section as two previous wildcats which were begun but never completed due to casing, tools, etc. being lost in the holes, recovery of which was not possible.

Refunds May Be Available For Veterans

Information is being passed by Sgt. Richard D. Hall, N.P.D. of a bill passed in Congress recently which will give all World War II veterans a dividend of 65% per \$1,000 of their GI insurance for each month of service.

This refund is due regardless of whether or not the insurance is still carried. This dividend cannot be received unless it is requested.

The Veterans Administration is urging all World War II veterans to apply regardless of whether any insurance was held. The VA will check for eligibility. The refunds are not going to make anyone rich but a couple hundred dollars would be welcome.

For example, a veteran who had \$10,000 in insurance would be entitled to dividends as follows: 12 months-\$70; 24

months-\$156; 36 months-\$234; 48 months-\$312.

Submit your name, branch of service, current address, date of discharge, dates of service, Social Security number, service serial number, city, state and ZIP code to V. R. Presser, Captain, United States Navy, Veterans Center, Box 8079, Philadelphia, Pennsylvania 19101.

Sgt. Hall said the bill has not been widely publicized so veterans are advised to spread the word.

Would You Believe More Snow?

Even though Silverton residents have tried to pronounce the last two or three snows as the "last of the season," more fell last week. This brought April's moisture total to date to .83 of an inch, according to the official weather records kept by Fred Strange.

This also brought the 1983 moisture total to date to 4.35 inches, which should be doing all the good for the underground situation, if, indeed, it ever gets warm enough for farming this year. Through April 1982, a total of 1.93 of moisture had been recorded.

Overnight low temperatures have ranged from 27 to 32 degrees during the first 10 days of April.

Greenhaw Is "Man of the Year" At Crosbyton

A former Silvertown resident, Mabry Greenhaw, was recently named Man of the Year at the annual Crosbyton Chamber of Commerce Banquet.

George Witt, who was introduced at the 1982 banquet as Man of the Year for 1981, revealed his successor as an individual who is deeply involved in his community.

Total community involvement is the trademark of Crosbyton's Man of the Year for 1982, he said, and continued:

Our Man of the Year is in style tonight because of his special attachment to overalls, which he says he was wearing in the '40's.

(Theme of the banquet was "Remember When" and those attending dressed in styles of days gone by.)

Born in 1940 at Lorenzo, our celebrity attended Estacado schools for five years before that school was consolidated. He then attended Idalou schools, where he was graduated in 1957. He attended Texas Tech University.

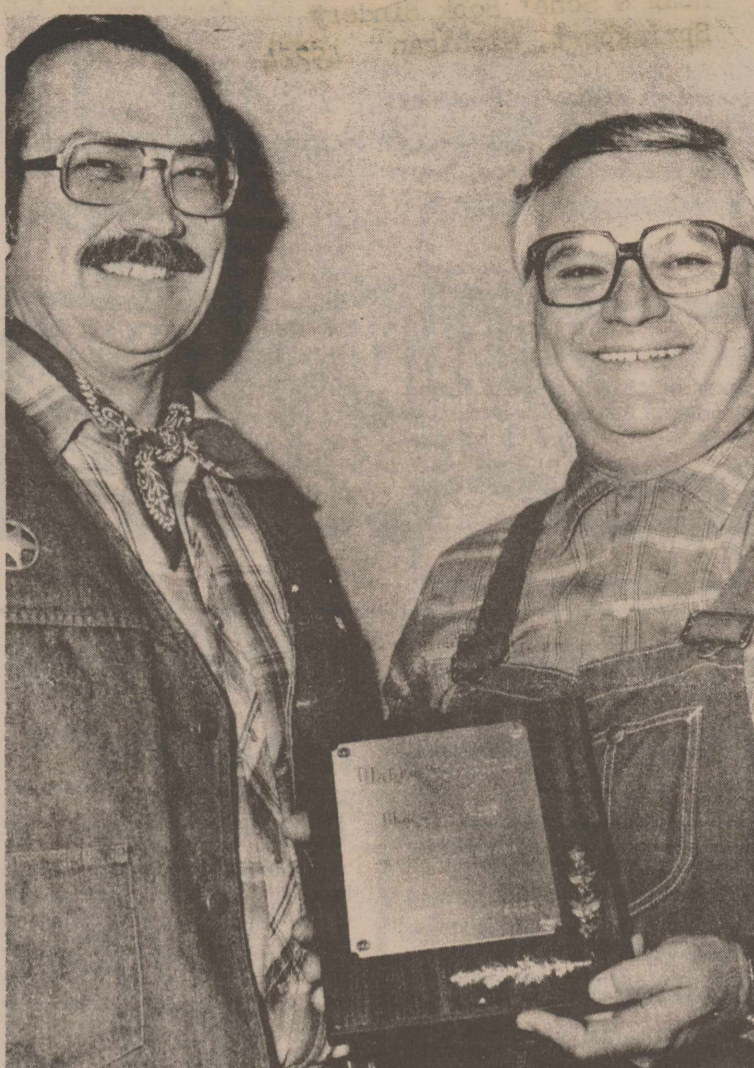

Our Man of the Year has farmed, has been involved in the agricultural chemical business and has been associated with financial institutions.

He and his wife, Twig, have a family of four offspring.

While residing in a neighboring town, he was active in the volunteer fire department, volunteer ambulance service, rural housing development, planning and zoning committee for a developing lake, county clinic association, Boy Scouts of America and other community functions.

Since moving to Crosbyton two years ago, this man's civic involvement has not decreased.

He serves on the executive committee of the Crosby County Pioneer Memorial board, the Crosbyton Clinic Hospital board, as a director of Crosbyton Lions Club, as a member of Crosbyton Booster Club, is an enthusiastic youth athletic booster, and works diligently in behalf of the Crosbyton Industrial Foundation

and the Crosbyton Solar Power Project.

He serves on the board and as president of Crosbyton Chamber of Commerce.

During his tenure as Chamber of Commerce president, he initiated revival of the Miss White River Lake Pageant and was instrumental in founding the Crosbyton Development Fund, along with numerous other progressive ideas in behalf of his community.

Perhaps our Man of the Year's attitude toward his community is best typified in the little things he does which are rarely seen by the public.

When a citizen suggested last year that weeds were creating an eyesore downtown, this man and a handful of other volunteers were observed manually pulling weeds and grass in the business district.

The day following a downtown function, wind caused paper plates, cups and other utensils to be scattered along the streets. Our Man of the Year and his son performed a two-man clean-up operation to rapidly dispose of the debris.

The little things and the big things combine to show this man's deep devotion to his community. It is a sincere honor for me to introduce Mabry Greenhaw as Crosbyton's Man of the Year for 1982.

MAN OF THE YEAR—Mabry Greenhaw was revealed as Crosbyton's Man of the Year recently during the annual Chamber of Commerce Banquet. Presenting the award was George Witt, last year's recipient of the award.

Telephone Rates Almost Sure To Go Up

Telephone rates are almost surely going to increase nationwide in the next decade, members of Mid-Plains Rural Telephone Cooperative, Inc. were told at their annual meeting April 8 in Tulia. According to the United States Independent Telephone Association, rates may jump 50% to 75% in the next five

years.

Rate hikes will be the result of inflation, the Department of Justice - AT&T settlement, de-regulation of customer premise equipment (telephone sets), and the recent Federal Communications Commission ruling changing the method of settlement for long distance revenue.

Should inflation remain at a low level the impact on rate increases will, of course, be lessened. As to the DOJ - AT&T settlement, the pressures on local rates is yet to be determined on independent telephone companies. New agreements

with the newly created Bell Companies must be negotiated and could result in higher costs to the smaller companies.

De-regulation of telephone equipment was effective at the first of this year. As more and more members elect to own their own telephones there will be some loss of revenue to the Cooperative. Mid-Plains has an instrument charge set by the Public Utility Commission of 60 cents per telephone. When members own their own, their local service rates are reduced by 60 cents per month. The Cooperative will recover some of this lost revenue from sale of telephone instruments, although it is expected to be much less than the loss of revenue from the reduction of the instrument charge.

Of greatest importance is the FCC ruling changing the method of settlement between telephone companies of long distance revenue. Historically, telephone companies have charged less than cost for local service. The difference was made up from long distance revenue. Under the new rules, most of this long distance revenue will be lost. It will be imperative that this deficit in local service rates be recovered in higher local service rates.

The first step will occur at the first of 1984. The FCC has mandated that a minimum fee called an access charge be added to members bills. This charge will be \$2.00 for residence telephones and \$4.00 for business telephones. These are minimum charges and for high cost companies as are the Cooperatives in the nation, the access charge

CELEBRATION TO BE HELD APRIL 29-30

The annual Bob Wills Day may have to be much higher.

In other business the members elected four directors to serve for three-year terms. All incumbents, the newly-elected directors are Emery Goodin from Armstrong County, Earl Reynolds from southeast of Canyon, Clint Robinson of Kress, and Joe Wieck of Umbarger.

Two by-law changes were approved. One gives the board of directors some flexibility in setting the date of the annual meeting each year, and the other provides authority for the board of directors to enter into new organizations for sale of telephones and other related business made necessary by the de-regulation of telephone equipment.

Celebration will be held April 29-30 in Turkey, Texas. Over 25 former Texas Playboys band members will be on hand for the two-day event with a dance on Friday night and a parade and concert on Saturday.

Many of Wills' western movies will be shown in the museum on Saturday and band members will visit with fans before and after the performances.

This year "Take It Away" Leon McAuliffe, composer of "Steel Guitar Rag," will be featured during the Saturday afternoon concert. Delta Records, the Texas Playboys' label, will be recording a live album and will also have a record and autograph booth set up both days.

Edwards-Finck Vows Exchanged On Edge Of Palo Duro Canyon

Miss Cynthia Ann Edwards became the bride of Trent Neal Finck on the scenic edge of Palo Duro Canyon at four o'clock in the afternoon on Saturday, March 12, 1983. Performing the double-ring ceremony was the Rev. Jesse Dea, pastor of the First United Methodist Church in Follett.

Parents of the couple are Mr. and Mrs. Harold Edwards and Mr. and Mrs. Orville Finck, all of Tulia.

White bows with streamers tied in love knots on mesquite trees marked the pathway from the home of the bride's family to the wedding location on the canyon rim.

Members of the family were directed from the Edwards home to the wedding location by Joe Edd Burnett and Ted Sprague, both of Tulia. Joe Ted Edwards escorted the grandmothers of the

couple, Mrs. Joe Finck of Tulia, Mrs. Bill Edwards of Silverton and Mrs. Chester Burnett of Wayside, and the mothers of the couple to chairs provided for them at the site of the wedding.

Escorted and given in marriage by her father, the bride wore a two-piece spring suit of candlelight wool with candlelight blouse with ruffle at neck and cuffs. She carried a bouquet, which resembled a variety of wild flowers, of kalanchoes, navy and cinebar cinerarin, champagne feather carnations, white baby's breath and talisman tea roses atop a white Bible which was carried by her mother in her own wedding.

Attending her friend as maid of honor was Miss Melinda Sutton of Silverton, who attends Lubbock Christian College. Miss Sutton wore a two-piece navy suit with blouse with champagne

background and tiny navy and cinebar flowers, and carried a mock wildflower bouquet similar to that of the bride.

Serving the bridegroom as best man was his brother, Alex Finck of Tulia.

The bride's mother chose a gray suit and added a corsage of the same flowers used in the bride's bouquet for her daughter's wedding. Mrs. Finck wore a fawn suit and a similar corsage.

A reception was held following the ceremony in the home of the bride's parents.

The bride's table was covered with a linen cutwork cloth, made by the bride's mother and grandmother. Silver appointments were used to serve the three-tier wedding cake, which had candlelight icing and candlelight roses and was topped with roses and puffs of net. The centerpiece was an arrangement

MR. AND MRS. TRENT NEAL FINCK

of kalanchoes, navy and cinebar cinerarin, pin cushion portea, fern and tree fern arranged in a silver bowl. Miss Melinda Sutton, Mrs. Alex Finck and Mrs. Kyle Touchstone presided at the refreshment table.

Others assisting with the reception were Mrs. Ted Sprague, Mrs. Joe Edd Burnett and Mrs. Jack Sutton.

A special table was provided for the couple's grandmothers at the reception. A bouquet of flowers, the same as used on the bride's table, decorated this special place.

Miss Deana Finck, sister of the bridegroom, was in charge of securing the signatures of the guests for the bride's book.

Following a wedding trip to Red River, New Mexico, the couple is at home north of Tulia, where the bridegroom is engaged in farming.

The bride is a graduate of Silverton High School and is currently attending West Texas

State University in Canyon. The bridegroom, a graduate of Tulia High School, is a graduate of Texas Tech University.

A rehearsal party was hosted by Mr. and Mrs. Orville Finck at K-Bob's in Tulia the night before the wedding.

BRIDAL COURTESIES

An announcement tea was given February 12 in the home of Mrs. A. B. Raymond in Tulia.

February 17, the bride-elect was honored with a coffee and miscellaneous shower in the Pioneer Room at First State Bank in Silverton.

A lingerie shower was held in the home of Mrs. Wayne Nance in Silverton February 19.

A coffee was planned in the home of Mrs. Milton McGehee of Wayside which was cancelled due to snow and ice.

Photographs were taken by Jim Bob Burnett of Wayside, cousin of the bride.

Attend Scout Field Day In Plainview

Attending the first annual Cub Scout Field Day in Plainview Saturday was Den 1 of Troop 262 of Silverton.

The Field Day featured a push-cart race, a home-built kite flying contest, and Cub Scout Olympics, which consisted of a potato sack race, egg toss, crab race and shoe kicking contest.

The Silverton Cubs entered every event and each one came home with at least one ribbon and most of them brought back two or three ribbons each.

Cubs participating were Brian

Martin, James Zorger, Stan Gamble, Zane Henderson, Lyndell Ivory, Wil Bomar, Dusty Martin and Justin McFall.

The Cubs and their den leaders, Paula Bomar and Ramona Martin wish to express a great big thanks to Dana Martin for building the push-cart, and to Shirley Henderson, Terry Bomar, Gary Martin and Dorothy Martin for going along to help out.

Options Listed For Terrace Farmers

Attention! terrace farmers are you tired of having to rebuild terraces every few years and being out this maintenance expense. Then please read on.

Any farmer in Briscoe County who would be interested in planting the tops of his terraces to a permanent grass such as Switchgrass will find several

advantages, including:

1. Reduced wear on terraces and erosion
2. Protects annual crops from wind damage
3. Breaks the wind velocity, therefore reducing loss of topsoil
4. Helps conserve winter moisture by catching snow between terraces to be later used by crops
5. Only a minimum amount of acreage is taken from crop production, which is received back in increased production

Local farmers who have a desire to use this conservation practice on their farms should contact the Soil Conservation Service office for details. SCS has a limited supply of grass seed which can be ordered to be used by area farmers. Please contact SCS at 823-2320 or come by the office in Silverton.

A heartfelt thanks to our many, many friends and neighbors for sitting with and supporting Jack and my family—just for being there for them. We're very lucky to live in our little town where everyone cares. We were deeply touched by the prayers, cards, phone calls, flowers, the love fund, visits, and food that's been brought in.

Thanks to Helen and Anthony for coming into our home to help me.

Thank you just doesn't seem like enough to be said. God bless you all.
