Briscoe County News

THINK SILVERTON!

THURSDAY, FEBRUARY 7, 1985

VOLUME 77 NUMBER 6

Area In Deepfreeze Over The Weekend

Silverton was cold the latter part of last week and during the weekend. According to Fred Strange, who keeps the official

weather information, the overnight low temperature was minus seven degrees Saturday morning and minus four degrees Sunday morning.

The daytime high temperatures have been frosty, with light powdery snow leaving .22 of an inch of moisture.

Wind-chill temperatures have remained below zero many of these days, and even though there really wasn't much snow it has remained on the ground. A warming trend was predicted for later this week.

Last Call For The Brag Page

The deadline is fast approaching for the Valentine Brag Page to be published in the Briscoe County News on Thursday, February 14. Your little Valentine will appear in the newspaper, with his or her picture framed inside a heart, for all the world to see.

This is one way grandparents can "show off" their grandchildren and prove once and for all that they have the handsomest and most beautiful children of all.

Black and white or colored photos will be accepted. All photos can be picked up at the News office anytime after February 13. The charge is just \$6.00 per picture, less than the customary advertising rate.

Be sure to include the name (or names) of each grandchild and also list the names of the parents, grandparents, great-grandparents, etc. It is not necessary that the children or their parents live in Briscoe County . . . they may live anywhere in the world. One family whose grandchildren are to be pictured this year doesn't have any family members living here anymore, but the parents of the children were graduated from Silverton High School and you will be interested in seeing their offspring.

It will soon be too late to be included. Better get your pictures in to the News office today!

LaLeche League Meets Tuesday

LaLeche League will present the first program in a new series at 9:30 a.m. Tuesday, February 12, in the home of Kathy May.

The group will be discussing the many advantages of breastfeeding.

Any woman interested in breastfeeding is invited to attend.

For information, call 823-2190.

More than 1,100 safety rest areas, roadside parks and scenic turnouts are located along the Texas highway system.

Safety is no accident. The Texas highway department is one of the few in the United States that invested more than \$1 million in highway safety construction.

There are more than 70 thousand miles of designated highways in the Texas highway system, of which nearly 41 thousand miles are Farm-to-Market Roads.

First Meeting Of Super Mom Is February 12

The first meeting of Super Mom will be February 12, 1985, from 6:30 until 8:30 at the First Baptist Church.

If you were unable to attend the last meeting, please try to come to this one. The members look forward to seeing you.

Children's Video Program Postponed Due To Weather

The Progressive Extension Homemakers are sponsoring a program called "Strong Kids, Safe Kids." This is a video tape available for sale which teaches your children about abduction and sexual abuse and how to avoid them. The program was re-scheduled for Sunday, February 10, due to the weather. It will begin at 2:00 p.m. in the Pioneer Room at First State Bank.

The program is open to everyone.

A representative will be on hand to present the program and answer any questions you may have. The video tapes will be available. Each tape has enough blank space at the end of the program to record each of your children. After purchasing a tape, the owner is entitled to free recording of their children as often as you wish. The video is then stored by you, and in the event one of your children were lost, you would have available for the police a record of your child's size, mannerisms, home address and phone number, among other things.

The sales representative is from Video Cassette of Lubbock.

The Progressive Extension Homemakers would like to invite every parent to come and learn more about this program. It is an excellent teaching aid for every concerned parent, and would be an asset in every home.

Applications Being Taken For Assistance Program

Applications are being taken for the Weatherization Assistance Program. Inquire in the office of Briscoe County Judge Fred Mercer.

Coach Kelly Braisher was a patient at Central Plains Hospital in Plainview last week undergoing tests and treatment.

Estella Trevino Is Silverton's D.A.R. Good Citizen This Year

Estella Trevino, daughter of Octavio and Esther Trevino, is the Silverton High School Good

Citizen.

Her honors have included a perfect attendance award her freshman year, honor roll award her freshman and sophomore years, an "A" average her junior year, and academic awards for Typewriting I, Home Economics, Algebra I, Algebra II, English III and World History. She has served as editor of the yearbook, vice-president of National Honor Society, class treasurer her junior year and parliamentarian/historian of Future Business Leaders of America.

Miss Trevino attends the Rock Creek Church of Christ where she prepares the Communion service and food for fellowship. Presently she works part time for J. D. Nance. Her plans for the future are to attend college and become a pharmacist.

The DAR Good Citizen contest, in which Miss Trevino is entered, is sponsored by the Mary McCoy Baines Chapter of Plainview. The contest was open to boys and girls in the senior class of an accredited high school and three members were chosen by class members as those who best exemplify outstanding qualities of leadership, dependability, service and patriotism in school, home and community. Miss Trevino was chosen by the faculty as the School Good Citizen.

This year's contest consisted of three parts: personal, including activities, awards, offices held, special interests, service given to home, church or synagogue and the community, future plans and hobbies and interests; a national, civic and patriotic quiz; and a patriotic essay.

The chapter winner will compete at the state level and if he or she wins at state, will compete at the national level for the National Good Citizen Award. The chapter winner will be announced at a tea at the Woman's Clubhouse in Plainview on February 16. Mrs. Carolyn Courtney has served as chairman of the DAR Good Citizen Contest Committee.

Mary McCoy Baines Chapter awards the Chapter Good Citizen with a \$100 scholarship to the college of his/her choice; the state winner is given \$200 and the national winner's monetary award is \$1,000. The National Association of Secondary School Principals has approved the DAR Good Citizen program and has placed the program on the Advisory List of National Contests and Activities for 1984-85.

ESTELLA TREVINO

Butter, Cheese To Be Given February 8

Butter and cheese will be given away to all eligible residents of Silverton Friday, February 8, beginning at 9:00 a.m.

It is time to sign up for the Emergency Food Assistance Program again. Eligibility determination will be decided by reporting of all income of the household.

Deadline Is Saturday For Class Registration

Deadline for registration for the conversational Spanish class being offered by Janeva Bailey is February 9.

Books and registration fees of \$10.00 required at that time.

Classes tentatively will begin on Monday, February 18.

Mrs. Lillian Lindsey spent a recent weekend in Seymour with her children, Mr. and Mrs. Don Smith, Tracy and Donna. Tracy and Donna exhibited swine in the Baylor County Livestock Show. Tracy placed second in two classes and Donna placed first and third in her two classes. Each of them had two animals in the county sale.

OBITUARIES

ETNA BELL BINGHAM
 Graveside services for Etna Bell Bingham, 81, were conducted at 2:00 p.m. Monday in the Silvertown Cemetery with the Rev. Jerry Miller, pastor of First Baptist Church in Silvertown, officiating.
 Arrangements were by Morrison Funeral Directors.
 Mrs. Bingham, the former Etna Sumner, died Saturday.
 A Stratford resident for the past 20 years, Mrs. Bingham had lived many years in Silvertown. She was preceded in death by

her husband, Arthur Raymond Bingham. She was a housewife and a member of the Baptist Church.
 Survivors include four sons, H. R. Tillery of Stratford, Arna Bingham of Pleasanton, California, Z. Q. Bingham of Dumas and Frankie Bingham of Kansas City, Missouri; two daughters, Mrs. Merriman Sims of Kansas City, Missouri and Gerene McGowen of Springlake; a sister, Mrs. Marguerite Reynolds Macon of Stamford; 31 grandchildren and 31 great-grandchildren.

Donors Make Stock Show Awards Possible

Many businesses and individuals donated to the Briscoe County Livestock Show held Saturday at the County Show Barn. The donations made it possible for 4-H and FFA youth to have trophies, belt buckles and prize money for exhibiting their livestock projects.

Century Club members are those giving \$100.00 or more.

The Briscoe County Livestock Show Board, 4-H and FFA exhibitors, Extension Agent and ag teacher would like to thank the businesses and individuals in Silvertown, Quitaque and Turkey and the surrounding area who gave so generously to the County Livestock Show; the show superintendents, John Schott, Jimmy Burson, Warren Merrell, Stan Fogerson, Doug Forbes; Aaron Younger for announcing; Jealeta Baird, show secretary; Silvertown Young Farmers; the 4-H parents who provided food and worked in the concession stand; and to all those who attended the 1985 show to support Briscoe County youth.

Birthday Get-Together Held For Freeman Tate

Seven of the children of the late A. E. and Kate Tate gathered in the home of Freeman and Jackie Tate to help Freeman celebrate his 66th birthday Sunday.

Enjoying a day of visiting and remembering "when" were Otis and Stella Tate, Tommie and Minnie Tate, B. A. Tate of McLean, Eula Fay Stoakes, Irene Mitchell and Ola Huntley, all of Shamrock. Calling to visit their Dad and Grandad and wish him a happy birthday were Mrs. Richard (Jackie Carol) Crawford and Tonya of Bryson, and his brother and sister-in-law, Rex and Gaylia Long, of McLean.

Derrel Martin has returned to his home in Tulia after undergoing surgery in an Amarillo hospital.

7,663 bales . . . Financial condition of South Plains good, with 43 banks having on deposit a total of \$21,949,286.43. Total assets amount to \$24,655,849.43 . . . A. J. (Jack) Folley announces for District Attorney . . . A. M. Allred again in the auction business . . . County interscholastic league meet to be held in Silverton . . . Mrs. W. Coffee, sr. buried in Amarillo . . . Lions continue to hold live meetings . . . The old-time American principle of blocking competitors from the feed trough and ringing up on the cash register as often as possible triumphed Monday night over the foreign "Eyetalian Black-shirts" whose "You first, my dear Gaston; no, you dear Alphonse"

has no place on basketball courts in Silverton. It will be recalled that the quintet of the Lions Club (Dr. R. F. McCasland, O. R. Tipps, Thurman Graham, Elmer Cleavenger and Chester Strickland) established quite a reputation in handing out a zero to the Quitaque Lions just preceeding the arrival here of zero in weather. The frigid atmosphere on the ball court was probably good training for the Caprock boys who during the last week or two could see nothing but zero on the thermometer. The Lion Tamers hit a snag when a local Facist team (Paul Lockhart, Bill

Owlettes Earn Win Over Hedley Friday

The Owlettes ended last week with a 51-39 victory over Hedley. After trailing by eight points at the end of the first quarter, the locals outscored their opponents by 13 points in the second quarter and were never headed.

Kori Baird scored 19 points (37% of the team's points), hitting seven of fifteen from the field and five of six from the charity line. Shavonne Lowrey added 14 points, hitting seven of ten field goals. Alesha Patton, Melissa Stone, Kristy Fogerson and Gina Myers added four points each, and Tonnette Miller rang up two points.

Melissa led the rebounding with seven and also caused the opponents to make a mistake. Kori had five rebounds to her credit, along with two steals and caused the opponents to make an error. Shavonne also had five rebounds. Gina, Kristy, Tonnette and Lee Ann Durham had two rebounds each, and Lee Ann also had an assist and two steals. Alesha had a rebound, a steal and caused the opponents to make a mistake. Kristy also had a steal.

The Owls dropped their game to Hedley, 44-34. Cal Brannon led the scoring with 10 points. Sloan Grabbe added eight; Scotty Harris, seven; Joe Ramirez, four; Russell Simpson, Todd Reagan and Jeff Wheeler, two points each.

The Owlettes lost their bid for the district championship at Valley on Tuesday night, dropping their match 55-45. The teams were tied at the end of the first quarter, and the Owlettes led by one at halftime. The Lady Patriots outscored them in each

Two Windbreak Seminars Planned

Two seminars on windbreak trees will be held in Briscoe County on February 12. A session from 10:00 a.m. until 12:00 noon will be held in the Community Room of the First National Bank in Quitaque, with another session from 1:00 until 3:00 p.m. in the Pioneer Room of the First State Bank in Silverton. The seminars will be sponsored by the Caprock Soil and Water Conservation District.

Speakers will be Bob Fewin, with the Texas Forest Service, and Jerry Walker, with the Soil Conservation Service.

Presentations will cover design, varieties of trees, and drip irrigation in relation to windbreaks.

A box of seedlings will be donated by the Texas Forest Service and given away as a door prize at each seminar.

The first Texas Highway Department tourist bureaus were established in 1936 to aid travelers planning to attend Centennial events and to stimulate additional travel within the state. Today the department operates ten tourist bureaus at key entry points along State highways, the Judge Roy Bean Visitor Center at Langtry, and the State Capitol Visitor Center in Austin.

of the remaining quarters to take the win.

Shavonne led the scoring with 10 points and had six rebounds. Alesha and Lee Ann caged eight points each. Alesha had a rebound and an assist, and Lee Ann had three rebounds and a steal. Kori, Melissa and Suzann scored six points each. Kori also got six rebounds, a steal and caused an error. Melissa had seven rebounds and a steal. Suzann had two steals and was credited with causing the opponents to make two mistakes. Tonnette added a point and got six rebounds.

The teams played Lakeview Tuesday night, and will close their season with Motley County here Friday night.

Junior High Teams Lose Their Bids For Championships

Silverton's Junior High Owls and Owlettes lost their bids for the championships of the Junior High Tournament that was sponsored by the Booster Club here last Saturday.

After the Owlettes defeated Lockney 31-4 in the first round of the tournament, they lost 31-20 to Kress.

DeLyn Patton paced the scorers in the first game by making 11 points. Keeley Burson, Linda O'Neal and Tonia Perkins added four points each, and Tara Nance, Tracy Tomlin, Penni Fogerson and Julie Towe scored two points each.

In their second game, Tonia led the scoring with 11 points, followed by Tara, with four; Keeley, three, and DeLynn, two points.

The Owls won their first game 42-13 from Lockney, holding large leads at the end of each quarter. Neal Edwards rang up a big 18 points to lead the offense, with Jamie Frizzell tossing in seven points; Frank Lowrey, six; Brad West, four; Teddy Hubbard, three, and Clay Mercer, two points.

In the final game, the Owls lost a two-point heartbreaker to Petersburg, 32-30, their first loss of any kind this year. The score was tied at the end of the first quarter, and Petersburg held a one-point lead at halftime. At the end of three periods, the Owls continued to trail by a point, and finished two points short. Edwards led the scoring with 16 points. West contributed six; Frizzell, four; Hubbard, two;

Lowrey and Mercer, one point each.

The games scheduled for Monday night were cancelled.

Both the junior high teams have done well this year, and losing games to larger schools in the finals of a tournament, though it be a hard way to end the season, is certainly no disgrace.

LOOKING BACK— Continued on Page Three

Thompson and the three Ledbetter brothers) was organized and took a tight game 7-5. Alibis for the American defeat were floating around freely, and they seem to have been justified as the return engagement Monday night was decisive for the Tamers, 42-14. The basket was kept ringing like a cash register of a popular nickel store, and there was probably a lot of blocking not recognized by Hoyle

BRISCOE COUNTY NEWS

508 S. Main Street

Silverton, Tx.

Little has happened in the legislature up to this time. The fireworks are about to start. On Thursday, the Natural Resources Committee began taking testimony on the State Water Bill. This issue is moving much slower than some would like. An effort is being made to quickly pass the bill through the House and Senate and get it out of the way before other very pressing matters are taken up for debate.

There is a great deal of apprehension from West Texas legislators about the bill. The bill is being pushed by the Governor, Lieutenant Governor and Speaker, all of whom are from down state. The Lower Colorado River Authority, which is Responsible for blocking the Stacy Dam project in this West Texas area, has been unyielding to those in West Texas.

I am fortunate to have as my desk mate, Rep. J. W. Buchanan of Dumas, Texas. Buck is recognized as the most knowledgeable person in the state on matters pertaining to water. I will be relying on his good judgment and advice as we proceed in this issue. If passed with 100 votes in the House and 21 votes in the Senate, and then finally passed by the voters of Texas, this will be the most historic legislation Texas has ever enacted affecting all aspects of water.

I often do not agree with the Sierra Club on many of its positions, but I do agree with them that conservation of water should have the highest priority of any water plan for Texas. Over half of Texas is very arid. Chances of a water importation plan from another state is more of a pipe dream than a remote possibility. Available sites for building dams to retain water are relatively few. As the water issue becomes more acute, growing cities down state will have more political power than West Texas. The people from down state will be successful in blocking efforts to build or enlarge reservoirs up state.

There will come a time when we in West Texas will not turn our faucets on full force as we wash our teeth. We will sod or plant buffalo grass for our lawns. We will add several bricks to the water closet in our commodes. There will be no tail water in our bar ditches. Deep irrigation wells will be silenced. Many will return to dryland farming. Crops and

varieties of crops will be planted that are drought-resistant. Total yields will be greatly reduced. Prices will be much higher. There could be talk of moving underground water (held so sacred in West Texas) down state to cities having pressing domestic water needs.

The 60th Legislature convened Tuesday, January 8, 1985, and will adjourn May 28, 1985. This will be the most hard-fought session in decades. Comptroller Bob Bullock predicted a \$1 billion shortfall in revenue. Each time oil prices drop \$1 a barrel, it costs the state \$40 million in taxes. With oil prices dropping daily, it appears Bullock will be coming out with another projection that will be lowered. This means an austerity program for the first time in well over a decade.

The special session created a \$4.6 billion tax bill and an education bill with which many people disagree. Twenty-two Democrats were defeated in the primary and general elections. All 22 of the defeated candidates voted for the education bill. All but four voted for the tax bill. The Republicans now have 52 state representatives instead of 36 as in the past session. During the special session some of the representatives couldn't seem to read what the folks back home were trying to tell them. Their addition is improving when they add up the score on defeats. I'm very happy with my NO vote on both the tax and education bills. None of the 29 (21 Republicans and eight Democrats) were defeated who voted against the education bill. I stood with the eight Democrats who voted NO.

What are the issues in the legislative session in addition to money?

- Pari-mutuel gambling on the ponies
- Deregulation of the trucking industry
- Elimination of the Blue Law
- Damaging the Homestead Law
- Indigent Health Care—who pays and how much?
- Agricultural pesticide regulations

I'll be covering these issues in future articles. Our toll-free WATTS number is 1-800-692-1389. The number did terminate in my Pampa office, but during the legislative session, it terminates in my Capitol office.

There is still little activity on the floor of the House and in the Senate chamber this week. The big news is the compromise by the directors of the Lower Colorado River Authority with interest from South West Texas (San Angelo country) on the proposed state water plan. The downstate interest in a long-fought battle in the courts had prohibited the proposed Stacy Dam, located near San Angelo,

from being built. The state water plan for the first time is being pushed by downstate interests after a several-year drought that has created critical water rationing in areas like Corpus Christi. West Texas legislators refused to support the state plan unless we were allowed to use part of our own water that falls on us in arid West Texas. Deep East Texas with abundant water has never been enthusiastic about any water bill. The Dallas-Fort Worth area was not too interested in the dispute concerning the Stacy Dam project.

To pass a State Water Plan, it will take 100 votes in the House and 21 in the Senate. West Texas had its clout this time and used it. I am told that other protective measures are being added in the bill to prevent downstate hogging of water rights from arid West Texas. West Texans should continue to see that our underground water is left solely in our control.

The other big news is Lieutenant Governor Hobby's proposal to free some \$510 million in the budget to restore the 20-30 percent cuts in the Legislative Budget Board's budget for the state-supported colleges and universities. Included in his proposals is a plan to raise tuition from \$4 to \$12 per semester hour. This would raise an additional \$120 million in state revenue. Other proposals include abolishing a dedicated cigarette tax to fund the Parks and Wildlife services in order to create another \$36 million. Raising district court filing fees would create an additional \$54 million. Lowering the contribution rate to the Teacher Retirement System to eight percent would save an additional \$86 million. Other items such as a better management practice by Land Commissioner Garry Mauro would create an additional \$21 million.

Other dedicated funds and cost savings boosted the total amount to over one-half billion dollars. There has been no outcry voiced by any group affected by this proposal. The tuition rate has not been changed substantially in several decades. Texas tuition rates are the lowest in the nation. Private schools charge up to \$120 per semester hour while Texas charges only \$4. Gov. Hobby's proposal would increase out-of-state and foreign students' tuition as well as the resident student rate. Another bill proposes to increase tuition by \$2 per semester hour over a several-year period until it hits \$24. If tuition was set at \$24 per semester hour, the tuition and fees for the average Texas student would be about 24th in the nation of all colleges and universities.

Some people believed that if a girl planted marigolds in soil that contained the footprints of a man she loved, his love would grow and bloom with the marigold.

Some people once believed that shooting arrows under a fruit tree would cause the fruit to fall off the tree just as the arrows fall.

Bid Band Cavalcade To Entertain Members Of Plainview Concerts

The Big Band Cavalcade '85 will entertain members of the Plainview Community Concert Association Monday, February 11, at 8:00 p.m. in Herral Memorial Auditorium on the Wayland Baptist University campus in Plainview.

Members of the Dimmitt and Hereford Community Concert associations also are eligible to attend. Admission to the concert is by membership card only.

The wonderful songs and sounds of the 30s, 40s and 50s will be performed by the stars who made them hits.

Included in the group of Big Band artists Monday will be John Gary, acclaimed as one of the great singers of all time; Fran Warren, whose fame has spread through starring roles, in musicals, recordings, television and nightclubs; the original King Sisters, Yvonne, Alyce, Marilyn and Luisa, who join for their first tour in many years; Alvino Rey, musical director on the King Television Show and his orchestra, one of the two or three great swing bands left intact throughout the years.

Nearly 218 million vehicle miles are travelled on Texas highways on an average day.

Texas highway field operations are under the direction of 24 district engineers. Each district includes from 10 to 15 counties and averages about 2,600 miles of highways.

MIXED DRINK TAXES REBATED TO CITIES, COUNTIES

State Comptroller Bob Bullock Friday sent checks totaling \$13.4 million to 220 counties and 427 cities as their share of the state's mixed drink tax collected at the new rate of 12 percent during the fourth quarter of 1984.

The Texas Legislature raised the tax from 10 percent to 12 percent, effective October 2, 1984.

Bullock said the state collected \$46.5 million in mixed drink taxes during the quarter, up 22 percent over the fourth quarter in 1983.

Texas cities and counties are receiving a 15 percent rebate of the tax collected on mixed drinks sold within their boundaries under the law that legalized the sale of mixed drinks in the state. The state's general revenue fund received the balance—\$33 million—of the tax money collected. The Legislature reduced the city and county share of the tax to 12.5 percent, effective with first quarter collections in 1985, and the state will then get the entire gain from the tax increase.

The mixed drink tax is collected by the Alcoholic Beverage Commission and city-county rebates are sent out quarterly by the Comptroller's Office.

The total city tax revenue in Silverton was \$1,433.78. In Quitaque this amounted to \$1,510.27. The city's 15 percent remittance was \$215.07 for Silverton and \$226.54 for Quitaque.

Briscoe County's total tax revenue was \$2,944.05, with the county's 15 percent remittance being \$441.61.

WHAT'S UP DOC?—Bugs Bunny, Sylvester and Daffy Duck soar into Six Flags Over Texas as stars of the theme park's 1985 entertainment lineup. These characters and others from Warner Bros. cartoons will appear in a musical

Six Flags To Introduce Bugs Bunny and Friends

Bugs Bunny and a supporting cast of Warner Brothers cartoon characters will act as greeters in the theme park's new Looney Tunes Land children's section and will be featured in a musical revue, "The Bugs Bunny Story."

Joining Bugs Bunny as "regulars" in the Six Flags lineup of cartoon characters will be Sylvester, Daffy Duck, Foghorn Leghorn and Yosemite Sam.

All of the characters will appear daily for handshake and photo sessions in the park's children's section. The area, formerly known as Pac-Man Land, is being expanded and

show, "The Bugs Bunny Story," and will greet young visitors to the park's new Looney Tunes Land children's section. Bugs Bunny and friends will debut when Six Flags begins its 1985 season March 2.

totally re-themed for the 1985 season which begins March 2.

A boat ride for small children is being added to an existing lake in the section. It is now called "Daffy Duck Lake."

All of the soft-play activity areas and rides in the section are getting a new look and new names for the coming season. For example, Elmer Fudd will preside over the children's ferris wheel, which now becomes, in Elmer's parlance, a "fewwies wheel."

The park's Good Time Theater, which is years past has housed a puppet show, is undergoing extensive remodeling to accommodate the new musical presentation "The Bugs Bunny Story."

The twenty-minute song and dance revue will be highlighted by such numbers as the Bugs Bunny/Foghorn Leghorn rendition of "Are You From Dixie?" and Daffy Duck's version of the Sammy Davis, Jr. standard "The Candy Man."

The show's salute to the music of the 50's features Bugs Bunny and the Warner Brothers characters as a band called "The Hop 'N Rollers."

Also new to the Six Flags entertainment lineup for the 1985 season will be a Broadway-style musical in the Southern Palace Theater called "Celebrate, America!" with a cast of fourteen.

In the Crazy Horse Saloon six

young performers will appear in a new country music show titled "Texas Heartache."

Other changes being made in the park in preparation for the coming season include expansion of the log fort which sets the mood for the park's French section and construction of new buildings to house exhibits featuring an antique printing press and a restored early-day fire engine.

The park has also announced new policies which will provide a price break for small children. 1985 adult tickets will be \$14.95. Children under the height of 42 inches will be admitted for \$7.95. Both prices include the new state sales tax. Children age two and under are admitted free.

It costs almost 30 cents more to do a laundry basket in hot water than it does in cold.

If you open the door of your dishwasher after the rinse cycle and let dishes air-dry, you can save about half the energy.

That troublesome garden pest known as the dandelion was brought to America from Europe by the early colonists. The name comes from the French *dent de lion* and means lion's tooth.

WINTER WARMTH

Although the calendar says January, the weather in the Texas Panhandle has not been on the wintry side—well not at this writing, anyway. However some frosty, cold, snowy days are sure to be forthcoming. Texans—naturalized or native—know how to warm up, by preparing a big pot of chili, stew or soup.

Various recipes are available for all of these dishes and when preparing soups and stews, imagination and leftovers help. Chili is usually prepared using beef—either cubed beef or ground beef and it may or may not contain beans. Unusual chili recipes can be made by using pork, lamb, poultry or game meat such as venison. "Chili"

derives its name from spicy hot peppers which were discovered growing in America by Columbus. Most chili peppers are fresh ground for seasonings or they are used in the making of commercial chili powder. Ingredients that determine "authentic" Texas chili is a "hot" issue. Among Texans some believe in using only fresh ground peppers, while others say commercial chili powder is satisfactory. However most agree that true Texas chili does not contain beans.

Stews usually have a broth or tomato base and contain a variety of vegetables and one type of meat. Beef and lamb are usually the main varieties of meat used in stew recipes. Pieces of white fish are also used in stews. Since almost all vegetables can be used in stews and soups, it is a good idea to save leftover vegetables, such as green beans and peas, to freeze for use in these hearty hot dishes.

Soups usually contain considerably more liquid than chili and stew. Soups may also contain a broth, tomato or cream base.

Almost all meats and vegetables can be used in soups. Unlike stew and chili, soups can also be served cold. In fact, soups such as Vichyssoise and Gazpacho are always served cold.

In warmer months when fresh fruit is available, many people enjoy fruit based soups. These soups usually contain fresh cream or milk bases and they are usually served as an appetizer before the main course.

To round out a nutritious meal of chili, stew or soup serve some type of bread; cornbread is especially good; with a glass of milk and fresh fruit for dessert.

To help warm up on these cold, wintry days, the Texas Department of Agriculture suggests the following delicious, nutritious recipes.

For more information or recipe suggestions contact the Texas Department of Agriculture, 5501 West I-40, Suite C, Amarillo, Texas 79106 or call (806) 358-7285.

Recipes courtesy of the Texas Department of Agriculture.

TEXAS COUNTRY SOUP

- 2 lbs. boneless chuck roast, cut into cubes
- 1½ teaspoons salt
- 2 cups diced potatoes
- 2 cups diced carrots
- 1 cup diced turnips
- 1 cup chopped onion
- 1/2 cup green beans
- 1/2 cup English peas
- 1 cup chopped cabbage
- 1 cup chopped tomatoes

Cover beef with water in a Dutch oven; add salt, and simmer until meat is tender. Add next 6 ingredients; simmer 1 hour. Add cabbage and tomatoes; cook 10 minutes. Serves 6-8.

CHICKEN-VEGETABLE SOUP

- 1 small onion, chopped
- 2 tablespoons butter or margarine
- 2 cups chicken broth
- 2 cups cooked Texas chicken, diced
- 1/2 cup celery tops and pieces
- 1½ cups diced potatoes
- 1 cup diced carrots
- 1½ cups milk
- 2 tablespoons flour
- 1 teaspoon salt
- 1/8 teaspoon pepper

Cook onion in fat until tender. Add chicken broth, chicken and vegetables. Boil gently, covered, until vegetables are tender. In bowl, stir a little of the milk into

the flour until mixture is smooth; add remaining milk, salt and pepper. Add milk mixture to soup. Simmer, stirring, until soup is slightly thickened. Yield: 6 servings.

TEXAS STEW SURPRISE

- 2 lbs. stew meat
- 2 tablespoons shortening
- 1½ teaspoons salt
- 1 large onion, sliced
- 1 teaspoon pepper
- 2 cups water
- 3 medium sweet potatoes, cut in wedges

Brown beef in hot shortening. Add seasonings and water; cover and simmer 1½ hours, adding more liquid when necessary. Add sweet potatoes and onions. Cook 20 minutes longer. Yield: 6 servings.

Babies have been known to hiccough before they are born. An unborn child has been heard from as far as 25 feet away from its mother.

AS A MAN THINKETH

Gerald Beasley

DO YOUR OWN THING?

A locksmith's epitaph, dated 1637: "A zealous locksmith died of late, And did arrive at heaven's gate. He stood without and would not knock, Because he meant to pick the lock."

One may have much zeal for his very own way. We now often hear: "Do your own thing."

Your Bible addresses this matter. "O Lord, I know that the way of man is not in himself: it is not in man that walketh to direct his steps" (Jer. 10:23).

Jereboam led Israel into sin by introducing calf-worship, an indulgence "which he devised of his own heart" (1 Kgs. 12).

"For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord" (Isa. 55).

Of Jesus, the Father says, "... hear ye him" (Mt. 17). The Son declares, "I am the way, and the truth, and the life..." "I am the door" (Jn. 10).

"... lean not upon thine own understanding" (Pr. 3:5).

It is fun to get out and romp with our children, to share in their joy. Sometimes it is even work to pull them on a sled. Afterwards you may be tired and bones and muscles ache, but you think fondly of the laughter, and squeals of delight and the love that shines in a child's eyes. Then you think it's all worth the effort, for they won't be young forever, and someday you will only have memories.

They won't be young forever and now is the time that they need a pull in the direction toward God. Now is the time that you can lead and share in the joys of their worship. Take your children to Church

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

“... in thy presence is fulness of joy ...”

Natural Resource Management Guide Now Available

Farmers Home Administration (FmHA) has prepared a draft Natural Resource Management Guide. The guide is a brief document describing the major environmental standards and review requirements that have been promulgated at the Federal and State levels and that affect the financing of FmHA activities in Texas. The purpose of the meeting is to discuss the guide as well as to consider comments and questions from interested parties. Copies of the guide can be obtained by writing or telephoning the above contact.

Date of the meeting is February 7, 1985, and it will be held beginning at 10:00 a.m. at the Federal Building, 101 S. Main, Room 134, Temple, Texas.

J. Lynn Futch, FmHA State Director, said that any person or organization desiring to present formal comments or remarks during the meeting should contact FmHA in advance, if possible. It will also be possible at the start of the meeting to make arrangements to speak. Time will be available during the meeting to informally present brief, general remarks or pose questions. Additionally, a 30-day period for the submission of written comments will follow the meeting.

FAD DIET PROMISES

How can you tell a legitimate weight-loss plan from a fad diet? Here are several phrases commonly used to promote fad diets. When you see them on books, diet foods or other weight-loss products, beware!

•"Fast and Easy Weight Loss." It may be fast and easy, but it won't be permanent. This usually means that water and muscle mass are the initial losses instead of fat. These sudden losses can harm your health and the pounds will eventually return.

•"Magic Diet Food." There is no magic diet food. Going on a one or two-food diet simply starves your body of the nutrients it needs. After your body uses up stored nutrients, your health begins to decline. If you lose weight, it's because you cut calories, not because of a special food.

•"Secret Formula Revealed." The secret is that it's unresearched and untested by nutritionists and medical experts.

•"You Don't Have to Move a Muscle." Exercise is absolutely necessary for sustained weight loss. It helps you preserve your lean body mass, lose fat, and keep your metabolic rate up so you'll burn more calories.

•"Melt Fat Without Hunger." If you eat because you're hungry, this is just avoiding the problem. Dieters need to understand hunger and cravings and make some changes in lifestyle habits to deal with them.

•"Eat All You Want." Follow this advice and you'll gain weight. Eating all you wanted

was what led to the original weight gain. A legitimate weight loss program will help you learn to eat in moderation.

•"Lose Without Effort." You have probably worked hard to accomplish many things in life. Why should losing weight be any different?

A fad diet makes promises like

these, but it won't deliver. You may lose a few pounds and feel like you've gotten something out of it, but in the long run, a fad diet will only disappoint. A legitimate weight-loss plan includes a nutritious, balanced diet, regular exercise, and help in making lifestyle and behavior changes.

CPSC Warns Consumers of Suffocation Danger Associated with Children's Balloons

Children have suffocated on uninflated balloons and pieces of broken balloons.

The U.S. Consumer Product Safety Commission warns parents and guardians of young children about the suffocation hazard presented by uninflated toy balloons and pieces of broken balloons.

Of all children's products, balloons are the leading cause of suffocation death, according to CPSC injury data. Since 1973, more than 80 children have died as a result of suffocation involving uninflated balloons or pieces of balloons. Most of the victims were under six years of age, but the Commission does know of several older children who have suffocated on balloons.

Accidents involving balloons tend to occur in two ways. Some children have sucked uninflated balloons into their mouths, often while attempting to inflate them. This can occur when a child who is blowing up the balloon inhales or takes a breath to prepare for the next blow, and draws the balloon back into the mouth and throat. Some deaths may have resulted when children swallowed uninflated balloons they were sucking or chewing on. The Commission knows of one case in which a child was chewing on an uninflated balloon when she fell from a swing. The child hit the ground and, in a reflex action, inhaled sharply. She suffocated on the balloon.

The second kind of accident involves balloon pieces. Children have drawn pieces of broken balloons that they were playing with into their throats. If a balloon breaks and is not discarded, for example, some children may continue to play with it, chewing on pieces of the balloon or attempting to stretch it across their mouths and suck or blow bubbles in it. These balloon pieces are easily sucked into the throat.

Balloons, by their very nature, are made to hold air inside, and to prevent any air from passing through. Should a balloon or a

piece of a balloon be drawn into the throat, it will be just as effective in preventing the passage of air into the throat. Furthermore, balloons easily mold to the throat's contours and adhere. An uninflated balloon or piece of a balloon can completely cover and block the breathing passage.

Because of the danger of suffocation, the CPSC recommends that parents and guardians do not allow children under the age of six to play with

uninflated balloons without supervision. The Commission does not believe that a completely inflated balloon presents a hazard to young children. If the balloon breaks, however, CPSC recommends that parents immediately collect the pieces of the broken balloon and dispose of them out of the reach of young children.

Seeding Rangelands

Since last year's drought took a heavy toll of ranges over most of Texas, ranchers may want to consider a seeding program to boost rangeland in 1985.

Seeding should be done in late winter or early spring, but now is the time for planning, says a range brush and weed control specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Evaluate the quantity and distribution of desirable plants currently present. If these make up less than 10 to 15 percent of the vegetation, seeding is probably necessary. Seeding is usually necessary following a brush control method such as root-plowing that destroys existing turf and to establish desirable vegetation on abandoned cropland.

Give special attention to site and seed selection and seedbed preparation.

THINK SILVERTON!

Governor Proclaims February As Heart Month In Texas

Texas Governor Mark White has issued a proclamation designating February as Heart Month and urged all Texans to support the 1985 campaign of the American Heart Association.

In the proclamation, Governor White asked for support from the residents of Texas in the American Heart Association's campaign against heart and blood vessel disease—our nation's number one killer.

The proclamation reads, in part: "Heart and blood vessel disease will claim over 325,000 lives and is expected to cost our economy \$72.1 billion in 1985. This is why the American Heart Association will continue to lead the fight against heart and blood vessel disease."

Thousands of volunteers in Texas will join the effort to distribute heart information and collect contributions to support medical research, education and community service programs. These American Heart Association programs are aimed at achieving its goal of preventing premature death and disability caused by heart and blood vessel disease.

The proclamation continues: "Through the funding of extensive research programs, and the implementation of community service and public education

programs, the American Heart Association helped to lower the number of deaths due to heart and blood vessel disease. For the first time since 1952, deaths from heart disease in 1983 accounted for less than 45 percent of all deaths in Texas."

"Through the support of its volunteers, cardiovascular research sponsored by the American Heart Association has grown 505 percent since 1976."

"Therefore, I, as Governor of Texas, do hereby designate the month of February, 1985, as HEART MONTH in Texas, and encourage all Texans to support the efforts of the American Heart Association, Texas Affiliate, Inc."

Keeping Texas roadsides free of trash and litter cost taxpayers some \$22 million last year. Litter pickup costs have risen an average of 17 percent per year during the past five years.

The first construction undertaken by the Texas Highway Department was a 20-mile section of 16-foot wide highway between Falfurrias and Encino in Brooks County. Work began in October 1918 and was completed in June 1920.

How To Save Money

BUY DIRECT FROM MANUFACTURER

We manufacture and deliver feed every day except Sunday. We have formula feeds or we can do it your way. If you have a special problem we can design a feed to fit your operation. We specialize in Bulk Feed. Our motto is WE DELIVER direct from manufacturer to you. Save Bagging, Pelleting, the Middleman and Transportation into the area. We are already here. We had one Bulk Delivery Truck; we now have TWO to serve you better. We are now delivering feed to the following places:

West to Quitaque and Silverton

Northeast to Lakeview and Memphis

Southeast to Northfield and Tell

Southwest to Flomot and Lockney area

North to Brice and Clarendon

East to Parnell and Estelline

South to Matador and Dickens

If you are anywhere in this area we can save you money on your bulk feed.

Compare the following prices available right now F.O.B. Turkey, Texas.

Delivered prices will vary according to miles traveled.

A good holding, starting and weaning ration, approx. 12% protein

\$118.70 per ton

A good finishing ration for cattle on feed 30 days to finishing

\$123.10 per ton

FEED COSTS ARE DOWN — CATTLE PRICES ARE UP — YOU CAN MAKE MONEY 2 WAYS: BY FEEDING CATTLE NOW. UPGRADE PRICE PER POUND ON CATTLE WHEN SOLD. POCKET THE DIFFERENCE IN FEED COSTS AND PRICE RECEIVED ON GAIN IN WEIGHT.

We appreciate your business. Just give me a call at 423-1221

THINK SILVERTON!

Sarpalius Introduces Bill To Fine-Tune Texas' Education Reform

Senator Bill Sarpalius, D-Canyon, has introduced a measure that will fine-tune Texas' education reform by clarifying the requirements for a student to participate in extra-curricular activities.

The measure, S.B. 244, will require a student to pass five state-approved classes to be eligible for extra-curricular activities. Current law requires a student to pass five academic courses to maintain eligibility.

Differences in the proposed law and existing law may be subtle, Sarpalius acknowledged, but they are critical to the state's "borderline" students.

"We've got to realize that not every student in this state is going to be a college graduate," said Sarpalius, a member of the Senate Education Committee. "Many students are looking to high school to provide them with a foundation for survival in the real world, not a preparation for college."

"To punish those students doesn't seem right. It's not fair to keep a person from participating in an extra-curricular activity if he is passing all of his classes except geometry, the only course in which he may be having trouble," Sarpalius said.

According to the bill, students will have slightly more latitude in scheduling if they wish to participate in extra-curricular activities. Existing law, which is based on the now-famous H.B. 72

passed last summer by the Legislature, requires students to maintain passing grades in five academic classes.

Academic classes are courses such as English, math, science and history and are generally considered college preparatory courses. The new law still would require a student to pass five courses but would not limit the requirement to academic courses. Students would be able to count other state-approved courses, such as home economics or business, toward their extra-curricular eligibility.

Sarpalius said his bill was not designed to gut H.B. 72

"We voted for education reform, but we never wanted it to be unfair. All we're trying to do with this bill is make the world of extra-curricular activities available to all students, not just those headed for college," he said.

The senator said he made his decision to introduce S.B. 244 after seeing the results of a poll conducted by the Texas Association of Secondary School Principals. The poll indicated 69 percent of those principals oppose the current five-academic-courses requirement.

That same poll also indicated 80 percent of the school principals would like to see a student's eligibility checked on a week-by-week basis. Since the academic leaders overwhelmingly favored a weekly plan, Sarpalius has

included such a provision in his bill.

A student's eligibility will be checked every Friday, according to the provisions of the bill. If the student is not passing five state-approved courses, eligibility will be lost until the next Friday. If that student is passing at next Friday's check, he will regain his eligibility for at least seven days.

"We think this is a fair way to determine eligibility," Sarpalius said. "If a student just isn't doing his work, he won't be eligible for a week. If he learns his lesson and improves his work, he can regain that eligibility quickly."

Sarpalius acknowledged that some will attack his bill, but he said the majority of the state will support him on the measure.

"We think the people are on our side," he said. "We anticipate the support of parents, teachers and administrators alike. This bill is an answer to their complaints and one that we believe is necessary if we are to be fair to Texas' schoolchildren."

Camera Club To Meet In Quitaque February 14

Don't let people with big cameras make you shy. Pocket cameras have many advantages over the 35mm type. With a disc or 110 type camera you can take faster pictures of those situations the kids or grandkids always manage to create.

Remember the camera does not make the picture; people decide what is in the picture. The Kodak slide show will help everyone learn about taking more interesting pictures. Designed for both beginning and advanced picture takers, the program urges you to keep your camera with you and ready at a moment's notice. Combining exciting and unusual pictures with easy-to-follow camera-handling hints, this show is fun filled and instructional.

A few of the many topics discussed are the selection of film for various situations, suggestions on using lighting effectively, focusing, and subject control. All the topics included in this program can be applied to any camera.

No matter what type your camera, 110, disc, instant, or 35mm, you can benefit from the program offered by the Caprock Camera Club February 14 at 7:30 p.m. in the Community Room at First National Bank in Quitaque. Give it a try.

SCHOOL LUNCH MENU

February 11 - 15

Monday—Spaghetti and Meat Sauce, Salad and Cheese Straws, Fruit and Jello, Milk

Sally Grimland and family

Texas was the first state to evolve a highway beautification program which made use of native trees, shrubs and flowers, and which linked landscaping with safety measures and erosion control.

The first Farm to Market Road was added to Texas' growing highway system in 1936 and was built between Mount Enterprise and Shiloh in Rusk County.
