

## Perryton tornado relief effort

The Hi-Pro Training Center, 1201 E. 11th Street in Friona, has been established as a drop-off location for items that are desperately needed by residents of Perryton who were dislocated by last Thursday's tornado. The training center is located just east of Hi-Pro's main office building.

Needed items include baby formula, diapers, wipes, toiletries, blan-

kets, flashlights, non-perishable foods, and gift cards. Also, towels, cooking oil, laundry detergent, and dish soap. Donations will be accepted until the end of the day Monday, June 26th.

## Big turnout for blood drive

The good news is that 60 people came by the Friona Community Blood Drive at Calvary Fellowship Hall last Thursday to donate blood. The final result was 45 units collected which will benefit 135 patients. Another pleasant surprise was that there were 19 new donors. Way to go rookies!!!

The bad news was that there was a computer malfunction and a shortage of workstations. Some donors had a waiting time of 2+ hours and a few over 3 hours. As a result, quite a few possible donors were not able to give.

We are meeting with Coffee Memorial representatives to try to work out the problems. Some priorities for the next blood drive are to bring extra workstations & workers, pre-screen donors with iron and/or blood pressure issues, and emphasize getting donors in and out safely in under an hour.

Thanks to everyone who showed up to donate!!! We are working now to make the August blood drive better for everyone. Please see Thank You from Coffee Memorial on page 2.

Emma Rector and Mari Martinez from the Chamber of Commerce were 2 of the 19 first-time donors.

Three Hereford football players (right) came over to Friona to donate blood.

## “Cheeseburger Capital of Texas: A Mural Celebrating Friona’s Culinary Culture”

New mural at Joe’s Restaurant just south of the city park on Main Street

### What was the genesis of the mural project?

It started with a phone conversation with the City Manager Lee Davila. He discussed his love of murals and his desire to have murals in Friona. My company (Camelot) and I envisioned this design and submitted a quote to the city council and the Friona Economic Development Corporation (FEDC).

### What were some of the other logistics?

While the location took time to decide, the design was approved from the beginning.

Eventually the city came to an agreement with “Joe’s Restaurant” to have the mural painted on their north wall which faces the park. My company and I then collaborated with another Friona artist Eva Herrar to complete the mural. Our goal from the beginning was to celebrate the city’s title as Cheeseburger Capital of Texas and to have this piece completed so that it could be enjoyed in time for this year’s Cheeseburger Festival on July 15th.

### Why did you choose this subject matter for the mural?

As the creator of the mural “Cheeseburger Capital of Texas,” I am delighted to share the inspiration and significance behind this vibrant homage to Friona’s culinary culture. This mural is a flavorful tribute to the timeless and beloved symbol of American cuisine, celebrating the rich heritage and mouthwatering delights found within the city.

From the very inception of this

project, my intention was to capture the essence of Friona’s passion for cheeseburgers and their unique place in the culinary landscape. Through this mural, I sought to honor the legacy of this iconic dish and the community that holds it dear.

“Cheeseburger Capital of Texas” embraces the spirit of gastronomic exploration and the pleasure of savoring a perfectly crafted cheeseburger. It encapsulates the boundless creativity and innovative spirit that Friona has brought to the world of burgers, featuring a dynamic composition that ignites the viewer’s appetite.

### What should the viewer know about the mural?

The mural’s composition is a vibrant tapestry of colors, textures, and shapes that harmoniously blend to form the image of a tantalizing cheeseburger. With meticulous attention to detail, I aimed to capture the juiciness of a perfectly cooked patty, the melty cheese cascading over it, and the fresh and crisp toppings that complete the flavor symphony. Each brushstroke and stroke of color was chosen with care ensuring that every element evokes the mouthwatering sensation of biting into a delicious cheeseburger.

Beyond the delectable subject matter, “Cheeseburger Capital of Texas” speaks to the cultural significance and communal joy that food brings. It is a celebration of the shared experiences and cherished memories created around a dining table, where friends, family, and strangers come together

to enjoy a classic American delicacy. This mural is an invitation for the viewer to take part in that experience, evoking nostalgia, camaraderie, and a sense of pride in the culinary heritage of Friona.

The title, “Cheeseburger Capital of Texas,” pays homage to the city’s reputation as a hub for delectable burgers and the passionate individuals who dedicate their craft to perfecting this culinary masterpiece. The mural serves as a visual declaration, proudly proclaiming the city’s love affair with cheeseburgers and the established sense of identity and pride within the local community.

### What impact would you like the mural to have on the community?

Through this mural, I aim to spark conversations, ignite appetites, and create a visual feast that resonates with viewers on both a gastronomic and emotional level. I hope that “Cheeseburger Capital of Texas” becomes a gathering point, a meeting place for food enthusiasts and burger aficionados, and a source of inspiration for future generations.

As you engage with this mural, I invite you to savor the flavors, relish the memories, and celebrate the cultural significance of the cheeseburger. Let us come together in the spirit of culinary exploration, for “Cheeseburger Capital of Texas” is not just a mural but a testament to the enduring legacy of a beloved dish that brings joy and nourishment to our city.

**Thank You from Coffee Memorial Blood Center**

Dear Friona Community,

I hope this letter finds you in good health and high spirits. I am writing to express my deepest gratitude and offer my sincere apologies to the Friona Community in light of recent events surrounding our blood drives.

First and foremost, I would like to extend my heartfelt thanks to each and every individual who participated in our most recent blood drive. The overwhelming response we received was truly remarkable and surpassed our expectations. With great pleasure, we had 60 people attend the event, which significantly exceeded our initial goal of 20 donors. Your willingness to donate blood is a testament to the compassion and generosity within your community, and for that, I am immensely grateful.

I want to extend a special appreciation to the individuals who took the time to attend the meeting we scheduled. It was so nice to honor some of Friona's TOP blood donors. We were also so pleased to see the participation amongst so many different areas. Your presence and support played a crucial role in spreading awareness about the importance of blood dona-

tion. Your efforts in promoting the cause undoubtedly resulted in the increased turnout for your subsequent blood drive.

I do realize that some individuals experienced frustration due to extended wait times during the event. And some that waited and then were deferred. Please accept my sincerest apologies for any inconvenience this may have caused. We understand the value of your time and deeply regret the discomfort caused by the unexpected situation. We genuinely apologize for falling short in managing the influx of donors and will take immediate steps to rectify this for future blood drives.

I am pleased to inform you that we have taken this feedback seriously and have already started implementing measures to ensure a smoother experience for everyone. Our team is diligently working on streamlining the registration process, increasing the number of donation stations, and organizing additional volunteers to assist with crowd management. Our commitment is to create an efficient and enjoyable environment during the upcoming blood drive scheduled for August 17, where we will be prepared to ac-

commodate up to 72 donors.

Once again, I extend my deepest gratitude to the Friona Community for your support and understanding. Your overwhelming response serves as a reminder of the unity and compassion that define your community. Together, we have the power to make a significant impact on the lives of those in need.

If you have any suggestions or concerns, please do not hesitate to reach out to us. Your feedback is invaluable in helping us improve and provide the best experience for future blood drives. We value your participation and look forward to your continued support.

Thank you once again for your understanding, and I am eagerly looking forward to your upcoming blood drive and the opportunity to serve your community.

With warm regards,

**State Capital Highlights**

By Gary Borders

**Bill restricting local control signed into law**

Cities and counties will be further restricted from implementing ordinances or regulations on issues normally addressed by the state after Abbott signed House Bill 2127, the Statesman reported. According to the bill's language, it is a means to "provide statewide consistency by returning sovereign regulatory powers to the state where those powers belong."

Previously, regulations put into place by cities were unenforceable if found to be in violation of a state code. An oft-cited example is an Austin ordinance passed in 2018 aimed at forcing most private employers in that city to provide sick leave. However, that ordinance never took effect since courts ruled it unconstitutional.

Opponents of HB 2127 fear it will further erode local governments'

power to handle community issues.

"We barge into bedrooms, locker rooms, boardrooms, examining rooms and now city council meetings," Sen. Sarah Eckhardt, D-Austin, said during the debate. "We should be doing our job rather than micromanaging theirs."

Abbott praised the bill's passage, tweeting after the signing that he "signed a law to provide a new hope to Texas businesses struggling under burdensome local regulations."

**Distracted driving deaths on the rise**

Distracted driving has killed more than 2,000 people in Texas since 2017, and the number of deaths attributed to it increased by 10% in 2022. Approximately one of every six crashes on Texas roadways in 2022 was attributed to distracted driving, according to the

Texas Department of Transportation.

"Texting, adjusting audio or navigation systems, or scrolling on a social media site can wait until you're safely parked," said Marc Williams, TxDOT executive director. "We're urging Texans to make the right choice and put the phone away."

It has been illegal since Sept. 1, 2017, to read, write or send a text while driving in Texas.

Drivers are urged to put phones away while driving, to pull entirely off the road to use a phone, and to avoid eating or drinking until parked.

### Battle of Gettysburg

July 1, 1863 – July 3, 1863

What do **you** know about the **Battle of Gettysburg**? It was a major turning point of the Civil War. Hmm, where was it on my map? Gettysburg National Military Park contains the battlefield and the Soldiers' National Cemetery. **Read my clues to learn about the battle and to fill in the puzzle.**

1. The Battle of Gettysburg was the largest battle fought during America's \_\_\_\_\_ War (1861-1865).  
2. The Civil War started after southern \_\_\_\_\_ began to leave the union of the United States of America.  
3. These states called themselves "Confederate States of America" and elected their own \_\_\_\_\_, Jefferson Davis.  
4. Abraham \_\_\_\_\_ was just becoming the new president of the United States - and he did not want these states to break away.  
5. Lincoln declared \_\_\_\_\_ to try to keep the union together.  
6. He also wanted to put an end to \_\_\_\_\_.  
7. The Confederates raised an \_\_\_\_\_ to fight for their way of life, which included slavery.  
8. The northern army fought the Confederate army; members of some \_\_\_\_\_ had to choose sides, and former friends sometimes had to fight one another on the battlefield.  
9. The Battle of Gettysburg was fought in and around the small town of Gettysburg, \_\_\_\_\_.  
10. On the first day of \_\_\_\_\_ 1863, in Gettysburg, Confederate soldiers under General Robert E. Lee began fighting with Union soldiers led by Major General George Meade.  
11. They fought for \_\_\_\_\_ days. By July 4th, General Lee was withdrawing his army.  
12. At the end of the fighting more than 50,000 \_\_\_\_\_ were dead, wounded, captured or missing.  
13. Even with the battle raging around the town, only one townspeople, Mary Virginia Wade, was killed while baking \_\_\_\_\_ for Union soldiers - by a bullet that came through the door of her sister's house.  
14. The town was filled with wounded and sick people. People were afraid that \_\_\_\_\_ would spread.  
15. Homes, churches and other buildings became \_\_\_\_\_. Volunteers buried the dead. Horses and mules that had been killed had to be burned.

Canons like this one were used in Civil War battles.

Signals from cavalry horns or bugles were used for battlefield charges and retreats, and many other purposes.

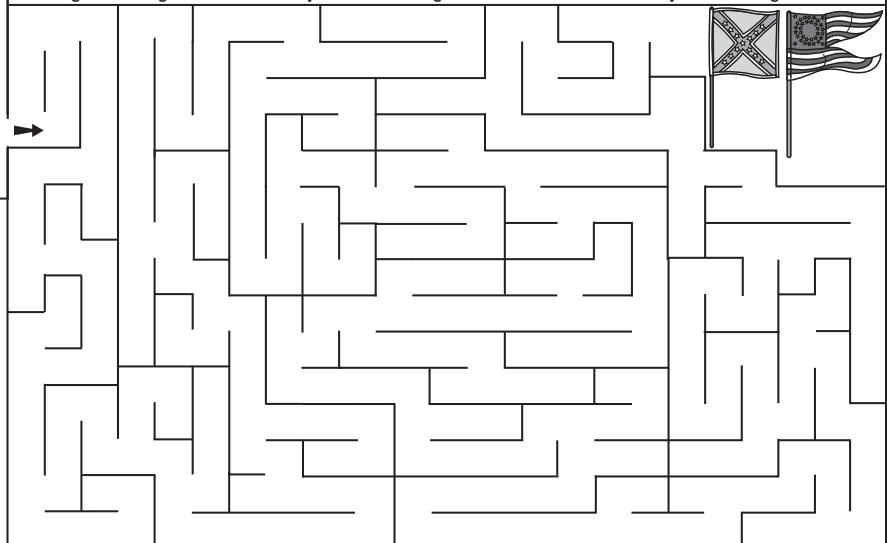

**The Visitor's Center will give you information:**

- like maps/guides and recordings to listen to as you drive a route to see and learn about the war
- on the hundreds of statues, cannons and the battle
- to find the train station where President Lincoln arrived to give his Gettysburg Address
- to watch a movie about the soldiers, their struggles, their days at Gettysburg and after
- on reenactments of the camps and the battle
- for biking, horseback riding and camping fun

Can you find your way from the visitor's center to two of the flags carried into the battle?

Soldiers from the North and South carried their own units' flags into battle at Gettysburg. The flag on the left below, carried by the 26th North Carolina, was shot down 14 times on the first day of fighting. The flag on the right was carried by the 125th Regiment NY Volunteer Infantry. It had 34 gold stars.

### A Soldier's Life

Soldiers' lives in the Civil War were hard. When they weren't marching or fighting, they camped. When bored they played cards and made instruments. **Match these words that soldiers used to their meanings:**

- drill
- muster
- sentry
- hardtack

- soldier standing guard
- hard, tasteless cracker - had to be soaked to eat it
- practice marching or firing
- to call the troops together

- flank
- bedroll
- private
- goober peas

- nickname for peanuts (a good snack on the move)
- easily carried - to cover the side of the enemy
- basely position for use sleeping outdoors
- lowest rank in the army

### "Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal..."

A few months after the Battle of Gettysburg, President Lincoln traveled by train to that town to dedicate the Soldiers' National Cemetery for soldiers from the north. The President's speech at the event was so short that some people are said to have missed it entirely because they weren't paying attention. Yet, this powerful "Gettysburg Address" became Lincoln's most famous speech. After Lincoln spoke, he did not feel well. Doctors said he had smallpox. Lincoln is said to have joked that now he had something he could give to everyone who came to ask for something from him!

## Gas prices stable for now

By GasBuddy

Average gasoline prices in Texas fell 2.2 cents last week, averaging \$3.10 per gallon, according to GasBuddy's survey of 13,114 stations in Texas. According to GasBuddy price reports, the cheapest station in Texas was priced at \$2.60 while the most expensive was \$4.17 per gallon.

The national average price of gasoline fell 1.4 cents last week, averaging \$3.56 per gallon. The national average price of diesel has fallen 3.7 cents in the last week and stands at \$3.85 per gallon.

"It has been a quiet week for the national average, with little overall movement in average gas prices nationally even as oil prices have been a bit unstable. Some states have seen minor increases while others have seen decreases, and the mixed bag is likely to continue for the time being with oil prices a bit all over the place," said Patrick De Haan, head of petroleum analysis at GasBuddy.

De Haan noted, "While gasoline demand continues to inch up, we could see additional pressure on pump prices, while the price of diesel continues to see downward movement. While the uncertainty over the direction of the economy is a major player in preventing oil's rise, inventories of oil and gasoline do remain tight, preventing much additional downward movement as well. We'll have to see which of those factors emerges as a winner to predict when the next large movement in prices could be. We're also seeing more tropical activity in the Atlantic that could pose challenges in the weeks ahead as hurricane season ramps up."

GasBuddy data is compiled from more than 11 million weekly price reports covering over 150,000 gas stations across the country.

## Lions Club News

Wes Reeves of Xcel Energy was the guest speaker at the Noon Lions Club meeting on Monday. He is the Senior Media Relations Representative for Texas & New Mexico.

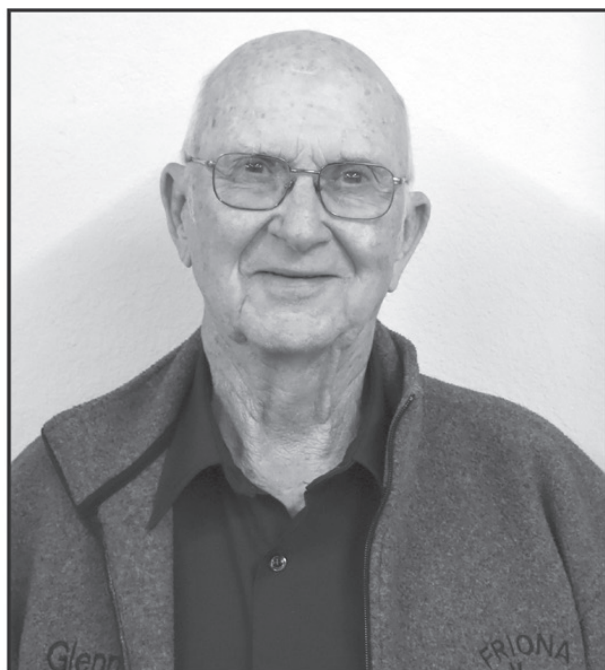

Reeves told attendees that the Xcel substation in Perryton survived the tornado but a lot of people still did not have power because their homes were totally destroyed, especially on the north side of town.

Reeves also stated that carbon-free energy made up 53% of Xcel's energy mix in 2022, compared to an average of 41% nationwide. The company has also reduced carbon emissions associated with the electricity it provides to customers by 53% from 2005 levels.

Xcel Energy also plans to exit

from coal by the end of 2030 if regulators approve its proposal to retire coal operations at Tolk Generating Station in Muleshoe four years ahead of schedule. From 2017 to 2022, company-owned wind projects saved customers approximately \$3 billion through avoided fuel costs and earned tax credits.

# Trust and Obey

By Brett Hoyle, Pastor, First Baptist Church

“Trust and obey, trust and obey for there’s no other way, to be happy in Jesus, than to trust and obey,” are the words of the classic hymn that summarizes one’s life following the Lord. Trusting and obeying the Lord is easier said than done, but when it is done, it is worth it by far. In Deuteronomy 3:1-22 the nation of Israel is at the end of their time of wilderness wanderings and approaching where they will enter the Promised Land. The people are trusting and obeying the Lord amidst enemies who are rising up against them, and the Lord is giving them victory. Their final battle on the east side of the Jordan was against Og, King of Bashan. This formidable foe had a territory with fortified cities, lush grazing, beautiful forests, and even a ginormous king leading their battle against Israel. Thankfully they did not give in to fear, but trusted and obeyed the Lord, moving forward in battle and expe-

riencing tremendous victory. This event is important not just because they won, but also because the defeated territory was give to tribes of Ruben, Gad and half of Manasseh. Imagine wandering for 40 years, knowing that your parents and ancestors were slaves in Egypt for centuries, and now, after your generation trusts and obeys the Lord, you are blessed with a place to settle down that is your own. God blessed their faith-filled obedience with land to call their own and so that they could be a blessing to others.

As you follow Jesus, know that God expects you to simply trust and obey Him. This means you are obeying the clear things he says in His Word, and obeying the leadership of the Holy Spirit in your life. When you trust and obey, it leads to a deeper walk with the Lord, a stronger witness to others, and you are blessed so that you can be a blessing.

### Duck! Bat!

By Jeff Procter, Minister, 6th Street Church of Christ

When I was in 6th grade, I went to a church camp in New Mexico. It was my second year and it started out great! First, my cabin had triple bunk beds. I climbed to the top bunk which seemed 50 feet in the air. I loved it. Until... the second night. I was up on my bunk getting settled in and had just put my head on the pillow when someone yelled, “Look a bat!” I raised up and met the bat face first for both of us. It’s little wings practically wrapped around my head or so it felt. The next thing I knew I was standing on the floor. I am not exactly sure how I got down there, but let’s just say I had incentive. At that point, it took a little salesmanship, but I got a bottom bunk.

I think bats are great for mosquitos but not so much on my face. Life has a way sometimes at coming at us fast and hits us right in the face. It was not what we had expected, there was no time to prepare it, just bam! Leaving us facing a new reality that before had not been known. Sometimes those are happy memorable experiences that we thank God for, like

when I met my now lovely bride. Other times it may be memorable, but you’re not exactly thanking God, in fact, you’re questioning Him with “Why?”

Life will have those moments for all of us because there are 6 billion people making choices and sometimes those collide with mine and other times they come alongside mine and make life better. The common denominator in all this hopefully is faith. A faith that goes beyond mere intellectual belief, but obedient action. A worn faith, because of use, like a good pair of work boots. A faith that surpasses understanding and gives calm in the face of chaos.

As you go through this year know that there will be experiences both good and bad that can increase your faith if you will trust the One in whom we believe. So, if someone says, “Duck! Bat!” Choose to duck or kiss a bat. Either way, trust God to see you through the experience. If it is a hard lesson then learn from it, if it is a gentle blessing appreciate it. The book of Job is a good reminder as to just how fast life can change. Keep the faith.

## Just Do What God Says

By Teena Hughs

Saturday, I was reading about Naaman from 2 Kings 5:1-19. It was a story about me!

Naaman was the commander of the King of Aram’s army. Verse 1 says that, “though Naaman was a mighty warrior, he suffered from leprosy.”

Long story short, Naaman ends up seeing “Elisha, the man of God,” to be cured of his leprosy. Elisha sent a messenger to Naaman, telling him to wash himself seven times in the Jordan River. “Then your skin will be restored, and you will be healed of leprosy.”

This is how Naaman responded in verses 11 and 12: “But Naaman became angry and stalked away. ‘I thought he would surely come out to meet me!’ he said. ‘I expected him to wave his hand over the leprosy and call on the name of the LORD his God and heal me! Aren’t the Abana River and Pharpar River of Damascus better than all the rivers of Israel put together? Why shouldn’t I wash in them and be healed?’”

Naaman’s officers reasoned with him and convinced him to go and wash and be cured! And, that is what he did, and his skin became healthy and he was healed.

Why do we seek advice from people of God, only to be disappointed or angry when they tell us something opposite of what we expected?

I am sure I have written about being concerned about a relative who was going down the wrong path with his life. We went to see a minister who had dealt with people like our relative. We trusted the minister, and that is why we sought his advice.

Just like Naaman, I had expectations of what the minister was going to tell us to

do. I just knew he was going to give us a 5-step program to follow. It would take some time, but we would get through it, and the problem would be solved!

That isn’t what happened. The minister simply told us to pray for our relative every morning and then turn him over to God! Really????? Something that simple? Like washing yourself seven times in the Jordan River???

I wasn’t angry with this minister’s advice like Naaman was, but I remember being so disappointed...until I thought about it. God knew EVERYTHING about our relative, and He knew exactly what he needed to be healed, just like He knew what Naaman needed to do to be healed.

You know, God doesn’t have to do big, miraculous things to heal us, to take care of us, to provide for us; He just does what is necessary. Even Naaman thought God would require more of him to be healed. In verse 13, “his officers tried to reason with him and said, ‘Sir, if the prophet had told you to do some great thing, wouldn’t you have done it? So you should certainly obey Him when He says simply to go and wash and be cured!’”

Yes, Naaman was willing to do more; I was willing to do more; because we feel obligated to do more. But, with God, if we will just do what He says, it is enough, and everything will be fine!

Just like everything turned out perfectly with Naaman, so it has with our relative, because we did what our trusted minister, who had knowledge and experience with similar situations, said to do. I have shared his advice, pray about it and turn it over to God, with countless people. I hope they followed his advice, because it works!

## Texas Smashes Jobs Record

Governor Greg Abbott celebrated the strength of the growing Texas workforce and the state’s robust jobs economy following the release of May employment data showing Texas again smashing all previous records for total jobs, total Texans employed, and total Texas labor force. Texas has now added more than 2.1 million jobs under Governor Abbott’s leadership.

“Texas’ robust economy stands apart as a model for the nation,” said Governor Abbott. “Not only are more Texans working than ever before, Texas leads the nation for jobs added over the last 12 months.

Texas has also smashed the record for total jobs 20 months in a row, proof that jobs grow and people prosper where free enterprise flourishes. With the Texas labor force now surpassing 15 million people and larger than the population in 46 states, we truly are building an even stronger Texas of tomorrow.”

May employment data released by the Texas Workforce Commission and the Bureau of Labor Statistics shows Texas again setting new record highs:

- Texas reaches a new high for total jobs at 13,918,700 as employers added 51,000 nonfarm jobs over the month.

- Texas reaches a new high for Texans working, including employed and self-employed, at 14,393,000.

- Texas reaches a new high with the largest labor force ever in the state’s history at 15,009,300.

- Texas again leads the nation for job creation over the last 12 months, adding 529,800 jobs and growing at a 4.0% annual rate, well above the annual growth rate for the nation as a whole of 2.7%.

Governor Abbott also recently celebrated Texas as home to the most Fortune 500 corporate headquarters in the nation.

## Obituary

### J. Vonne Fulks

J. Vonne Fulks, age 89, passed away on June 17th in San Angelo, Texas. Mr. Fulks spent most of his life in ranching and custom cattle care. He was a Navy veteran and lived most of his life in Friena, Texas. He was a Master Mason and Scottish Rite for 60 years.

He met his wife,

Evelyn (Hext) Fulks at Texas Tech University. They married in 1955 and celebrated 62 years together, until her death in 2017.

J. Vonne leaves behind 3 children - Nell (Jessie) Whitlow of

Mertzon, Texas; Jamie (Paul) Stern of Sarasota, Florida; and Cole Fulks of Tyler, Texas. Mr. Fulks also had the joy of having 5 grandchildren - Garrison & Paige Fulks, Kasi (Hunter) Shofner, Jace Whitlow and Tate (Brandi) Whitlow and 5 great-grandchildren - Jett Whitlow, Braylor Shofner, Jordan Shofner, Kyndal Whitlow and Carter Whitlow.

The family will have a small private ceremony at a later date.

## Countywide vote centers a possibility

Parmer County Commissioners, along with the County Clerk and Voter Registrar, have requested the implementation of Countywide Vote Centers which will allow registered voters to vote at any designated voting location. The court voted on Monday, June 12, 2023, to approve a resolution petitioning the Texas Secretary of State to allow Parmer County to participate in the program in the November 7, 2023, Constitutional Amendment Election.

All registered voters will have the opportunity to vote at a polling location that is the most convenient to the voter. There are people closer to Bovina whose assigned polling place is Farwell. This program will allow them to vote

in Bovina. In Friena, there are currently three precinct polling places. This program would allow for just one location in Friena where everyone could vote, no matter what precinct they lived in.

There will be 4 (four) Vote Centers strategically located across the county. There will be one in each town at previously used locations. On election day a registered voter can vote at any of the locations from 7 a.m. to 7 p.m. A list of the locations will be formally approved by the Commissioners after the State has approved participation in the program.

The County Clerk has discussed this program for almost two years. The County has approved the purchase of

necessary equipment and technology to provide a smooth Countywide Voting process. The County will now wait on a response from the Secretary of State. The County feels confident that it will be allowed to participate in the program.

According to the Texas Secretary of State's Office, more than 90 counties utilize countywide voting in the state. There is a mix of large, medium, and small counties in the program. Lubbock County was the first to utilize this program. Bailey County has used it for several years.

For more information on the program or Parmer County Elections please call 806.481.3691 or visit [parmercounty.texas.gov](http://parmercounty.texas.gov)

## Hospital Announces Scholarship Recipients

Parmer Medical Center is pleased to announce the recipients of the annual Parmer Medical Center Community Scholarships. The purpose of the scholarships is to promote service excellence in healthcare for Parmer County by assisting capable and qualified students interested in pursuing healthcare related professions. There were seven applicants competing for the four scholarships.

The selection committee was comprised of school staff, hospital staff, and the public at large. They selected four deserving students to each receive

a \$2,500 award. The winners this year were all from FISD. Jacquelyn Falcon will attend Amarillo College to pursue a nursing career. Gisselle Dorame will also attend Amarillo College for nursing. Judith Coronado will attend Odessa College for her nursing studies and Blanca Chavez will attend Texas Tech University for Pre-Dental.

The PMC Board of Directors and staff all wish a hearty congratulations to each of the scholarship recipients. Parmer County can be proud of the young people in our area.

## To Space & Back

By John Grimaldi and David Bruce Smith

On June 18, 1983, Sally Ride boarded the Challenger, and became the first American woman to traverse the cosmos. Originally, NASA had restricted its corps of astronauts to men, but, according to History.com, "in 1978 [the agency] changed its policy...[and] approved six women out of 3,000 original applicants to [emerge as] the first female astronauts in the U.S. space program."

Ride, with "Stanford stamped" degrees in science and physics, was quickly positioned in the inaugural lineup. "She became an on-the-ground capsule communicator for NASA's STS-2 and STS-3 [Space Transportation System]

missions in 1981 and 1982, and an expert in controlling the shuttle's robotic arm. NASA assigned Ride to be part of the STS-7 crew on April 30, 1982, serving as mission specialist and joining Commander Robert L. Crippen, mission specialist John M. Fabian, physician-astronaut Norman E. Thagard and pilot Fred-

erick H. Hauck on the historic flight."

# TXDOT and NMDOT present 2 alternatives for proposed Railroad Crossing Project

## Alternative No. # 1 – US 60/70/84 Railroad Bridge

- Alternative # 1 would construct a railroad bridge above the existing railroad crossing and provide direct access to US 60/70/84 in the case of a train delay.
- Proposed right-of-way acquisition required is estimated to be 15 acres.
- The existing at-grade railroad crossing would be removed.
- TxDOT is proposing that right-of-way would be required in both Texas and New Mexico.
- Displacements would be necessary for this alternative.

## Alternative No. # 2 – US 60 and FM 292 Train Bypass Route

- Alternative # 2 would construct an elevated intersection above the existing US 60 and provide direct access to US 60 in the case of a train delay.
- Proposed right-of-way acquisition required is estimated to be 23 acres.
- The existing railroad crossing will be removed at FM 292 but access to the existing Railroad Road will remain.
- TxDOT is proposing to place a drainage pond in between the existing Railroad Road and proposed FM 292.
