"IDLE TONGUES" HAS GREAT LOVE STORY

Some idea of the enormous work entailed in the production of a modern photoplay may be conceived from the number of built sets required for "Idle Tongues", First National's vivid dramatization of Joseph C. Lindlin's novel, "The Nye", here Friday, Feb. 27th. The picture was filmed in California and since the scenes were laid in a typical Cape Cod Village, it was necessary to virtually erect a Massachusetts town on the Pacific coast. Included in the structure were a town hall, a courtroom, a residential street showing a dozen homes and other buildings.

Aside from the rehearsing of Percy Marmont, Doris Kenyon and other leading players, hundreds of extras had to be drilled for the riot scenes and other thrilling action of the film. And yet there are would-be producers who still think they can make a picture on a "shoe-string".

FARMER HAS TWO INCUBATORS RUNNING

J. I. Wright of the Midway community was a business visitor to the city Tuesday morning. He is a good farmer and a close worker, but in addition to his field crops he is breeding the famous White Wyandottes a strain which he has bred for egg production for several years. He is now running two big incubators on eggs from his own flock and they will soon hatch out some early chicks which according to tried-out principles in hatching; the early hatched chickens are the easiest raised. He and Mrs. Wright sell butter to their friends in town. They give extra care with any thing they market which always brings a fancy price over products marketed with less care.

FROM THE FIELD

By W. M. FREE

Last Friday afternoon we were struck by one of our irresistible spells of wanderlust, and as it happened, county agent W. P. Trice came around in his coupe and gave us an invitation to accompany him to Midway school one of the best Rural schools in the county. We were soon on the ground, but in spite of our rush to get there before the first period of school after lunch we were too late. Prof. B. B. Covey superintendent of this excellent school had called the pupils in and they were in recitation when we knocked on the door and were invited in by Mr. Covey. This is a four teacher school. Mr. and Mrs. Covey, Miss Mattie Leon and Miss Frances McMurray are teaching this successful school.

Mr. Trice made a talk to the boys about organizing a poultry club for Midway school. He met a responsive bunch of boys who seemed exceedingly anxious to be in club work. Mr. Trice thoroughly explained to them that he would start in and stay with them throughout all their club work. These Midway boys are going to be strong competition in the prizes given by the Haskell County fair this fall. Last year Mr. Trice came too late to organize the boys into clubs and other counties came into the fair and captured our prizes. This year we are going to have Haskell county boys in the entries and we believe they will be winners.

We also note in the Midway school that they have a large honor roll for the boys and girls and they will be published in the Free Press from now on.

We made a drive to Center Point school but arrived too late for school. Then we drove to Sayles and they too

had dismissed. On going through the different sections of the county we note that the man with the plow had been very busy the past week and were still driving like smoke turning over the fertile soil of Haskell county. We came by the home of W. A. Harde-nan. He was driving a four horse team like he was getting pay for it. Will is a worker (sometimes).

Magazine Club

The club met in the regular business session at the library Friday afternoon with Mrs. O. E. ... as presiding. The librarian reports school children calling for books every Saturday and as there is some money in the library fund these books will be ordered. Chairman of the book committee reported four new books for the library: Papius Life of Christ, Victory by Conrad, The Little French Girl and the Golden Cocoon by Miss Ruth Cross, the girl of whom all Texas is justly proud. She attended the State University and the plot of the book centers about the University and the Capitol.

After the business session it was decided to go to the High School Auditorium and hear the regular program on Health as outlined in the Year Book with Mrs. S. R. Rike as director. The program was given in connection with the one outlined by the P. T. A. and was a very instructive one. Mrs. W. A. Kimbrough in her gracious manner gave a few timely opening remarks and asked Mrs. Gose to lead in prayer. Then Mrs. Rike took charge and the following program was rendered. Mrs. Hunt gave a splendid paper on the care of the teeth which should be read by every Haskell Country citizen. The High School Orchestra assisted by Mrs. Neff and Mrs. Woodall rendered some very good music. The health nurse then gave her report of the work accomplished which will be given in full by the P. T. A. reporter. Mr. Neff gave a very encouraging talk on the school. One hundred were present.

Valentine Party at Midway

On Friday evening February 13th, the Panther Literary Society of Midway school entertained the Flash Light Literary Society and the young folks of the community from 8 to 10:30 o'clock with a Valentine Party. The house was beautifully decorated in red and white, the colors of the society. The color scheme was successfully carried further into some of the contests of the evening.

The guests participated in many interesting and lively games during the course of which Miss Louise Behringer won a prize for receiving the most red hearts in the proposing contest. Several couples tied score for the grand prize of the evening.

At the conclusion of the contests, of which the "cracker contest" was most popular, everyone was served with delicious fruit punch, after which the valentine box was opened. This was the momentous occasion of the evening. You could see the boys glance shyly at a certain girl across the room while a knowing glance passed between the two. The valentines all being distributed, the guests took their leave, regretting that the time for departure had come so soon. Everyone was loud in praise of the entertainment and occasional echoes can still be heard of the good times had at the valentine party.

Post W. M. U.

The Post W. M. U. met Monday afternoon at the church, and opened with a song and prayer.

Mrs. J. E. Bristow led the devotional services and also read part of a chapter of the Wandering Jew in Brazil. Mrs. Middlebrooks commented on it and conducted our study period.

Resolutions

We, the Missionary Auxiliary of the Methodist Episcopal Church, South, of Haskell, Texas, do heartily and unreservedly endorse Mrs. J. U. Fields of Haskell as president of the Texas Federation of Woman's Clubs.

First: As past president of our aux-

iliary and as a conscientious worker in the society over a period of years, we know her to be deeply spiritual, of a pleasing personality, vested with unusual executive ability and a natural leader, who while delivering an address, enunciates in a clear, unforced tone.

Second: Mrs. Fields has also held every office of importance and trust in the past that our town and district could give her. Member of the Haskell School Board, president of the Magazine Club, president of First District Federation of Woman's Clubs and is at present Chairman of Department of American Citizenship.

Third: That the club women of Texas take cognizance of the above facts and use their influence to elect Mrs. Fields to the office of President of Texas Federation of Woman's Clubs. That a copy of these resolutions be spread on our minutes, that a copy be furnished the Haskell Free Press and a copy be furnished The Texas Christian Advocate.

The Free Press joins their many friends in wishing them long, happy, and prosperous lives.

The P. T. A. met Thursday the 12th, in a business session with seventeen members present. Plans for the Easter sale were discussed and it was decided to have an open meeting honoring the fathers on Thursday night, February 20th, at 8 p. m., at the High School Auditorium. We hope at that time to have the pleasure of entertaining all the friends of the Haskell school. The fathers are especially invited to attend.

The day was spent in quilting. The quilt was sold to a member of the circle and the money will be used by the circle in personal service work.

"You say you came from Detroit," said the doctor to his fellow passenger: "That's where they make automobiles, isn't it?"
"Sure," replied the American with some resentment: "We make other things in Detroit, too."
"Yes, I know," retorted the doctor: "I've ridden in 'em."
"I hadn't quit—was just resting."

Worn Out Since the Grip?

WEAK, nervous—just tired and miserable most of the time? Back lame and achy, too? Rheumatic pains torture you at every step?

Then you should look to your kidneys! Colds and chills are apt to weaken the kidneys and allow toxic poisons to upset blood and nerves. Then may come daily backache, stabbing pains, headaches, dizziness, and irregular or painful passage of the kidney secretions.

Don't risk neglect. Help your weakened kidneys with Doan's Pills. Doan's have brought new health to thousands. They should help you. Ask your neighbor!

HERE IS CONVINCING PROOF:

Geo. E. Feist, 1130 Brooks St., Houston, Tex., says: "I had sharp catches through the small of my back and this made it hard for me to straighten. My limbs and the muscles in my back were sore and lame and I had dull, steady pains which also annoyed me. I used Doan's Pills and they drove away the backache and regulated my kidneys."

This Is the Road That Gets the Traffic

Permanent roads are a good investment—not an expense

No matter how many roads there are leading in or out of your town, the ones that are paved get the traffic.

This is especially true if these roads are of Concrete. For every motorist appreciates the many advantages of driving over its true, rigid, unyielding surface.

No wonder Concrete Highways are crowded for mile after mile. More than 7,000,000 motor vehicles are using them today. And new cars are being produced at the rate of 4,000,000 a year.

Here is a situation of vital concern to you. Everywhere we need more or wider concrete roads, or both, to take care of the ever-increasing traffic. And now is the time to plan for their construction.

Your highway officials want to be of the greatest possible service to you. Get behind them with ways and means that will provide more Concrete Roads and streets. Such an investment will pay you big dividends year after year.

A TOWN IS JUDGED BY ITS NEWSPAPER IN CITY BUILDING

There is hardly a town in Texas whose citizens do not want to build into a city.

There is not a town in Texas but has means at hand to increase its size to double or treble what it is today. How can this be done? It is the question that is asked every day.

If you want to see your town grow, there is just one way to accomplish it, and that is by advertising its advantages in your local paper.

Whether you believe it or not, advertising does pay—and it pays the city in a greater measure even than it does business man.

Of course there is advertising and advertising and advertising. It is not meant to suggest that you have the city government or the Chamber of Commerce run display advertising in your local paper.

Then get some advertising in his paper, and get it there at paying rates. Don't see how cheaply you can trade with him. The man who would jaw a country editor down on advertising rates is a traitor to his own town.

Having put some money in the editor's pocket and some advertising in his paper you can afford to take the matter of a better paper—if it is needed, though it probably will not be.

Remember that every time you give a dollar and a half or two dollars subscription to your local paper, you are doing your town and the merchants in it ten dollars worth of good.

When the writer was a boy with his first newspaper, John L. Spurlin was the biggest merchant in Hamilton and perhaps the biggest merchant in any adjoining county. He always had a big ad, usually a page in the Hamilton Herald.

"If my town had a newspaper with 2,200 subscribers, I'd do twice the business I can do now, and I'd take a double-page ad every week at a dollar an inch.

Spurlin had the right idea about the value of a newspaper circulation to a town.

Yes there are many good papers which go along year after year boosting their towns printing all the news and never have a thousand paid up subscribers.—Ex.

excellence thereof as a piece of printing. A poorly printed paper is some times the fault of the editor and publisher; it is the fault of the advertiser and subscribers. It always proves that the town and the section in which the town is located are mighty poor patrons of the local paper—and you give such a town a black mark.

You can always estimate that the paper is better than the town in which it is published, and you will never go wrong. Editors are built that way—they always sell a better product than they get paid for.

This is true of Texas than of any other state, mainly because Texas editors have been in the business for a long for glory instead of money that they think nothing of the latter, but spend 24 hours a day figuring how to get out a better paper.

Right here let me say that many Texas towns have better newspapers as a rule than the smaller towns of any other state in the Union—and they deserve far better financial support than they have ever received.

But this is no brief for the country editor. He needs none.

In the first place, go to the local newspaper man—or both of them if you have two—and get all the information you can about the newspaper problems of the town. Find out how many subscribers are reached out of your town and where they live. Above all things find out whether the newspapers are making or losing money.

Having this information, the important thing is to see that the news editor cannot build a city on an empty stomach. Put some dollars in his pocket—even if you have to chloroform him to do it.

Then get some advertising in his paper, and get it there at paying rates. Don't see how cheaply you can trade with him. The man who would jaw a country editor down on advertising rates is a traitor to his own town.

Real Tax Relief For Earned Income

First individual tax payments on incomes for 1924 are revealing so much ignorance of the rate reductions effected by the revenue act of 1924 that the Internal Revenue Bureau has issued a statement warning tax payers not to overpay. It further calls their attention to certain provisions of the law which have never been applicable before.

These provisions draw a distinction between incomes as earned and unearned. Incomes from salaries and wages are earned, those from interest on investments and profits in business are unearned. But for purposes of easier administration a net income up to \$5000 is treated as earned, even though much of it may be from profits in business. All net income above \$10,000 is treated as unearned, even though the salaried income alone is above \$10,000 and the new law not only cuts the rate by 25 per cent on all incomes, but for earned incomes it makes a further cut of 25 per cent—making for such income a total rate reduction of 50 per cent from the figures in force prior to last year.

Thus the wage and smaller salaried income tax payers will find in the new law very substantial relief indeed. It is evidently greater than many of them had come to expect.

Girl Workers Safeguarded From Weather Ills By Plant For Drying Damp Garments

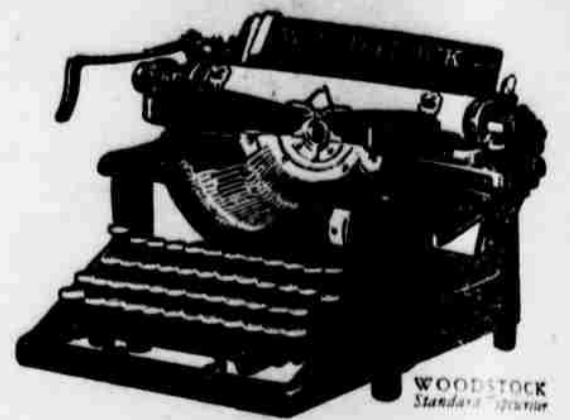

What might have been years ago considered "just another new-fangled idea" has definitely taken its place in the equipment of at least one large business organization and increased efficiency through the simple expedient of keeping workmen and employees in dry clothing and shoes. Employees of the Prudential Insurance Company's home office, at Newark, N. J. never have to work through the day in wet garments or damp foot wear.

If they are caught in a storm they report the fact immediately upon arriving at the office and are furnished with dry slippers and a fresh outer garment. Their wet clothes are placed in a new steam dryer, where in a short time they are made fit to wear again.

The medical division estimates that the percentage of illness reduced to a minimum through this precaution. In addition there is never the usual slump in energy among the employees and the consequent reduction of production so often noticeable in factories when people are trying to work in a physically uncomfortable condition. As there are more than 3,000 women employed at the Prudential home office the welfare division has to keep on hand a stock of slippers and skirts in a full range of sizes.

Paying in Advance.
Rastus had a wife who did cooking for white folks. He also had a "sweetie" who was very obnoxious to his wife. So on Saturday night the wife met Rastus and his Liza Ann face to face on Main Street, and the wife swung a hard right, and down went Liza Ann. A policeman rushed up and arrested the furious spouse.

"Pay me two and a half or you go to jail for that," declared the law. She pulled a five-dollar bill from her lise national bank, handed it disdainfully to the cop, and remarked: "Jes' keep it all, Cap'n. Ise gwiner knock 'er down agin when she gits up."

Texas State Song

The new Texas state song, for which a prize of \$1000 was offered, was recently given to the public by ex-Governor Pat M. Neff, through whom the award was offered.

The words were written by Mrs. Gladys Koakum Wright and William J. Marsh of Fort Worth. Mr. Marsh composed the music. Payment of the prize is contingent upon acceptance of the song by the Legislature. The money is contributed by patriotic citizens.

The words of the song follow:

TEXAS OUR TEXAS

Texas, our Texas!

All hail the mighty state.

Texas, our Texas!

So wonderful—so great!

Largest and grandest.

Withstanding every test:

O Empire, wide and glorious.

You stand supremely blest.

Chorus:

God bless you, Texas.

And keep you brave and strong.

That you may grow in power and worth.

Texas, O Texas!

Your free-born Single Star sends out her radiance

To nations near and far.

Emblem of freedom

It sets our hearts aglow

With thoughts of San Jacinto

And glorious Alamo.

Texas, dear Texas!

From tyrant grip now free

Shines forth in splendor

Your Star of Destiny!

We come, your children true,

Proclaiming our allegiance—

Our faith—our love for you!

Miss Martha Sibyl Browne Lectures at Haskell Theatre

A gift with out the giver is void of its best value but on last Thursday afternoon at four o'clock at the Haskell Theatre the people of Haskell, Stamford, Weinert, Rule, Munday and Knox City who love the beautiful and artistic had present both the gift and the giver. The gift was Miss Martha Sibyl Browne of New York City and the donors were six enterprising Haskell ladies who knowing the value of true art, sponsored the appearing of Miss Browne in Haskell. They are Misses J. U. Fields, Fred Sanders, S. R. Rike, Hardy Grissom, W. H. Mureedson and B. W. Bryant. Miss Browne who is credited with being at the top in her profession, has taught art in a number of our schools and colleges over the state, established the Art Guild in San Antonio and served as head of the Art Department at the West Texas State Teachers College at Canyon and has just returned from several years of study in New York, Paris, Florence and the Kensington Museum, London. Miss Browne carries with her slides of pictures taken in various places at home and abroad, depicting both good and bad, from an artistic standpoint, color lines, fur-

nishings, workmanship and the appeal of the artist, and as these are run off she classifies each picture and tells why or why not it is artistic. She proved to the careful listeners that art is as useful as it is beautiful and had as a foundation for her message three basic facts. First that true art was honest, using no means nor material to deceive, nor playing upon the emotions to gain favor. Second that good art embraced unity, that a part of the whole is not enough but that every part of the whole must be in its proper place, properly adjusted, before it is either artistic or useful. The third requisite is joy, joy in the doing, which links the other two, honesty and unity and proves that art is utilitarian as well as artistic for the worker who injects joy into his work will have both honesty and unity. Miss Browne is making an Art Lecture Tour of Texas and is at present filling a number of engagements in West Texas. She is affiliated with The Conservation Society, 220, Belvin St. San Antonio Texas. She was introduced to the Haskell audience by her friend and former classmate, Miss Ruby Fitzgerald.

Snap Judgment

The soldiers marched to the church and halted in the square outside. One wing of the edifice was undergoing repairs, so there was room for only half the regiment. "Sergeant," the major ordered, "tell the men who don't want to go to church to fall out."

A large number quickly availed themselves of the opportunity. "Now, sergeant," said the major, "dismiss all the men who did not fall out and march the others in—they need it more."

W. E. Pyeatt and sister Miss Lela Pyeatt of Rochester were in the city Monday. Mr. Pyeatt is the father of Victor Pyeatt who is with the Free Press.
