#### FUNERAL OF WALTER JOHNSON HELD AT STAMFORD SUNDAY

Funeral services were held for Walter Johnson at the Stamford Baptist Church Sunday afternoon March the 15th after which his remains were haid to rest with Masonie honors in the Stamford Cenetery. Masons from Stamford, Haskell, Anson, Ruie, Leuder and other nearby towns took part in the ceremonies. A large concourse of sorrowing relatives and friends followed the body to its last resting place where tender hands placed his remains in the grave beneath a bank of lovely flowers of sweetest fragrance and crimson hass, which was a token of the high esteem the decensed was held by all who knew him. He was 54 years of age. His afflic-

tion lasted over a period of ten months but he bore his suffering with fortitude. The bereaved loved ones have the sympathy of the entire acquaintance of this good man and may he superior to that obtained at greater who alone can comfort the loved ones in this dark hour of sorrow, speak peace to the bleeding hearts.

Mr. Myers and his son are especially well known to that part of the oil fraternity whose activities and interests are centered in the Permian Formation in which formation the rotary rig is almost exclusively thereil

Mr. Terrill said to Mr. Campe, manager of the Board of City Development, "We expect to get at least three sands by the time we reach the 1900 foot horizon, and if the sub-surface information obtained by us proves to be correct, we will get four, each one of which should make a commercial well

If there is any indication in a quiet, moltrusive means to an end, the efforts on the part of Messrs, Ramsaier and Terrill should meet with eminest success, for so quietly and unostentationsly did they go about their work that but few people knew of it until the derrick was up, the machinery on the ground and partly installed.

The success of this well means more o Haskell and Haskell county than we realize at first glance. When we stop to think that the greater portion of Haskell County is in the Permiss Formation and then call to mind that the "Burk." Northwest and Electra Fields of Wichita County, the Vernoe Field of Wilbarger County and all of Archer County are in the Permiss Formation, we have cause for reflection, and should awaken to a full realization of what it will mean to our town if the drill of Mr. Myers and sea demonstrates that Mesure. Hammier and Terrill were right in their deductions, both of whom have confined their work exclusively to the Permiss Formation. They tell us that the wells in this formation are lengerlived, not so deep, cost less to drill, are less expensive to operate, while the oil is equal to and often times

**Christian Missionary Society Observes** "Guest Day"

Monday, March 16th, designated as "Guest Day" by the Missionary Society of the Christian Church was very fittingly observed by giving a program, prepard for the benefit of all the women of the church

In preparation for this occasion. Mrs. Courtney Hunt, president of the Society, sent written invitations to every woman in the church, asking them to be "Our Guests" for that day. At the appointed hour many guest nrived and were sented at a long table, which was very beautifully and artistically arranged. The colors of the Society, "Purple and White." used in profusion. ### **Simple Treatment**

Thousands who are troubled with persistent coughing at night, which by robbing them of valuable sleep weakens their systems and lays them open to dangerous infections, can quickly act to prevent this dan-ger through a very simple treat-ment. People who have hardly been able to rest at all on account of coughing spells have found they can sleep the whole night through un-disturbed often the first time they try it.

sleep the whole night through un-disturbed often the first time they try it. The treatment is based on a re-markable prescription known as Dr. King's New Discovery for Coughs, You simply take a teaspoonful at night before retiring, and hold it in your throat for 15 or 20 seconds be-fore swallowing it, without follow-ing with water. The prescription has a double action. It not only soothes and heals soreness and fri-tation, but it quickly loosens and removes the phlerm and congestion which are the direct case of the coughing. The result is you usually sleep soundly the very first night, and the entire cough condition goes in a very short time. The prescription is highly recom-monded for coughs, chest colds, hoarseness, and bronchitis, and is spasmodic croup-not harmful drugs. Economical, too, as the dose is only out the tage of

APPRECIATION

Do we as citizens of Haskell apprecinte the services of our Volunteer Fire Company. We think so, but very few of us ever go to the trouble to tell the boys that we do. This is probably caused from the fact the fire company is one of the oldest organizations in the city. We have become used to their work, and take things for granted. The work the boys are cioling is not from a personal interest standpoint, as very few in the company are heavy property owners. It is purely a patriotic work for their town with no hope of reward or personal gain.

The Haskell Fire Company is one of the best volunteer fire fighting ercanizations in all West Texas and they tinve been doing some wonderful work during the past two or three years. When an alarm is sounded, regardless of how cold, or hot or late at night the boys have always been found on the job. Lets give them a word of encouragement now and then and let them know we appreciate their work.

SENDS FLOWERS TO BE PLANTED IN FAIR PARK

Turner E. Campe, manager of the Haskell County Fair Association made a call last week through the columns of the Free Press for flowers to be fanted in the Fair Park. Mrs. J. W. Parmer and her daughtr Mrs. B. F. Andrews of Baird, who formerly lived here have responded to the call and aend some flowers to assist in beautifying the park. Mrs. Andrews will be nbered here as Miss Bobbie Farmer. These flowers are indeed apprecinted and will be added to those almenty planted in the park.

Mr. Campe plans to nuice the Park one of the most beautiful places in nown and if anyone else has some flowers, builds or shrubbery they would like to contribute, Mr. Campe would oppresinte it very much as well as the Mair Association.

THE MODEL TAILOR SHOP HASKBLL, TEXAS.

But have you ever stopped to figure how much of this is in the form of an incredibly high gasoline tax?

Let's see what happens when you leave the Concrete Highway and take to a gravel or a dirt road.

Conclusive tests have proved that a gallon of gasoline will carry you only two thirds as far on a gravel road as on a Concrete Road. On a dirt road a gallon of gasoline will carry you only half as far as on Concrete.

With gasoline at twenty cents a gallon, you would thus pay a gasoline tax of more than 6 cents per gallon on the gravel road and 20 cents a gallon on the dirt road.

These are figures you can't get away from. You can prove them yourself.

And remember that every time you travel on either a dirt or a gravel road you also increase wear and tear on tires and run up your general repair bills.

Why continue to pay these high taxes and get nothing in return but the discomfort and inconvenience of unpaved roads and streets?

Let your local officials know you want an adequate system of Concrete Roads and Streets. They are just as willing to build them as you are anxious to get them.

But they must have your support.
