Mailed His Pants. A station agent in a small Kansas town had an embarrassing experience the other night, says the Concordia Blade. No. 5 was four hours late, so he set his alarm clock and went to bed in the usual way. However, and he was awakened by the whistle of the train. He leaped on his feet, grabbed what he supposed was the mail sack and dashed into the darkness. By a skillful throw he landed the supposed sack in the mail car as it flew by, but when he went back to his office, he found that he had thrown his trousers instead of the mail sack on the train. And it was the only pair he had, too.

Are You Fair to Our Home Town Merchants?

WHEN money is slack; when crops fail; when credit is needed it is the home town merchant whom we seek for friendly service. He tides us over with credit; he charges no interest; he provides us with reliable, guaranteed merchandise fairly priced.

—In short, he “holds the bag” for us. That is why he deserves all our patronage in times of plenty as well as in days of stress.

—And isn't it a pity that there are many who use him only as a leaning post—to tide them over the slack days and use their cash to fill the coffers of the big town mail order houses who wouldn't trust them over night—with, or without interest.

—We all need that merchant—we need his confidence, and his friendship. Our town needs his enterprise—the service he renders in handling only guaranteed, first-grade goods that he is here to stand back of day in and day out.

—Let's give him our cash when we have it. Let's pay his bills as promptly as we can. Let's earn and merit, the confidence he has placed in us and in our community. Let's support him—we need him and he needs us, our trade, and our unselfish good will.

STUDEBAKER

THIS IS A STUDEBAKER YEAR

**STUDEBAKER CAR MAKES
TOUR INTO YOSEMITE VALLEY**

Permit No. 1 to tour the Yosemite Valley, a trophy sought eagerly every year by every automobile on the Pacific coast, has been awarded for the fifth consecutive time to Studebaker. Each year there is a race to see who shall be first into the valley. To get there means a twenty-four hour grind through seemingly impassable roads, snow banked and drifted as high as the car, and around trees blown across the unseen trail during the stormy winter. No tackle, towing or other aids to motoring may be used. The car must go in under its own power exclusively.

At 8:15 in the morning of January 4, Chief Ranger F. S. Townsley of the California forestry service found outside his cabin in the Valley, which during the winter is made an "island" by the towering drifts without, William J. Silva, Studebaker dealer of Modesto, Cal., in a Standard six Duplex phaeton.

"Well, winter is over and spring will be coming soon," he said. "You fellows with your Studebakers are first to see a sign of the seasons as the first robins. For five years you have taken away permit No. 1. Guess I may as well have a rubber stamp made for you. How did you find the 'going'?"

Mr. Silva had to admit that the going had taxed every resource of the Standard six car. In places he had to back up several times and back drifts like a battering ram. Several other places a start had to be made with shovels.

Probably no drive in the world calls for quite as much stamina, power and reserve strength as this harrowing bucking tour over snow-obscured Conventville road. The Studebaker Car which made it was an ordinary stock phaeton. It is what is built into it which made the feat possible for the fifth consecutive time, a world record.

R. S. Edwards of Welnet Route 2 was in the office Monday and renewed for the Free Press for a year. He is getting along nicely and is rejecting over the recent moisture from the big snow. Bob made a wonderful cotton and feed crop last year and has everything in readiness to begin the new year with inspiration.

**IMMENSE LIFTING POWER
OF PLANTS AND VEGETABLES**

There is no human engineering which can compare in power with the silent machinery of the growing forest. It has been estimated that the physical energy of the sap in the plant is fourteen times that of the blood in man. Professor Clarke of the Massachusetts Agricultural College has recently succeeded in measuring the power of growth of a squash. He harnessed it in iron, put it in prison, and gave it a weight to lift. The squash, thus harnessed, was placed in a box in such a way that it could only grow by pushing upward, and lifting the long lever with the weights suspended on it. The result was that the squash steadily pushed its way upward, carrying the bar and weight with it. On August 21 it was lifting 60 pounds, September 15 it was lifting 1400 pounds, October 18, 3120 pounds, October 31, 5000 pounds. How much more it could have carried is not known, for at this point the iron harness cut into the rim of the squash, thus putting an end to the experiment. There is, to our imagination, something grand in the thought of a force so vast, so almost incalculable, exerted without noise, and apparently far exceeding the ordinary exigencies of the plant. In every acre of well-cultivated ground a power is silently at work which transcends man's mightiest machines, by almost as much as the infinite transcends the finite.—Illustrated Christian Weekly.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Beware of cheap imitations.

Along the Way

Diagnosed.
A young doctor in a country district was called one night by an old farmer to his first case. The patient was the farmer's son, who was lying on the bed in much pain. The young medico threw out his chest and said: "This should cause you no alarm. It is nothing but a congested excess of antipastorically emanating from the physical refrigerator, producing a prolific source of irritability in the pericardial epidermis."

The farmer looked at him and replied: "Just what I said, but his mother thought it was the stomach ache."

Destroyed the Evidence
Mandy, weary of matrimony, had brought suit for divorce on grounds of cruelty. "You say," asked the judge, "that your husband threatened you, a defenseless woman, with a wooden rolling pin?" "Yassuh, Dat's what he up an' done."

"Can you produce the rolling pin?" "Nossuh; Ah's 'traid not, sah. Yo' see, Ah jus' tuk it away 'fom him at de time an' busted it ovah his head."

He Was Excused
"I want to be excused," said a worried looking jurymen, addressing the judge. "I owe a man \$10 and as he is leaving for a post abroad to be gone some years I want to catch him before he gets on board and pay him the \$10. It will be my last chance."

"You are excused," returned his honor in icy tones. "I don't want anybody on the jury who can be like that."

No Enemies.
Ingersoll used to say that the goodness of some men was like unto that of the fierce old Spaniard who lay on his death-bed, and the priest was called to his side to prepare him for the dark journey. "Before you die," said the priest, "you must forgive all your enemies." "I have no enemies," replied the old Spaniard.

"What?" exclaimed the priest, who knew something of his record. "No enemies?" "None," replied the dying man with much satisfaction. "I killed the last one yesterday."

The Force of Habit.
A gentleman in the banking business was asked to say grace, and this is what he said: "Dear Lord, we thank Thee for all Thy favors of recent date. Permit us to express our heartfelt gratitude. We trust that we may continue to merit your confidence and that we shall receive many more blessings from you in the future. Amen."

Embarrassing.
A kindergarten teacher over in Kansas, with a pile of books on her arm, was about to get off a street car, just as a gentleman, whom she thought she recognized as the parent of a pupil in her school, got on. "Good morning," she said, with a cheery smile.

Stop Night Coughing This Simple Way

People who have persistent, annoying coughing spells at night, and who through loss of valuable sleep are weakening their systems and laying themselves open to dangerous infections, can stop their distressing trouble promptly by a very simple treatment. Hundreds who have hardly been able to rest at all for coughing, have gotten their full night's sleep the very first time they tried it.

The treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful at night before retiring and hold it in your throat for 15 or 20 seconds before swallowing it, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. The result is that you usually sleep as soundly as a babe the very first night, and the entire cough condition goes in a very short time.

The prescription is highly recommended for coughs, chest colds, hoarseness and croupitis, and is wonderful for children's coughs and spasmodic croup—no harmful drugs, economical. It is on sale at all good druggists. Ask for

Unlucky Number
"I ain't never had a chance. No matter where I go or what I works at, my unlucky number bobs up and does me in some 'ow."

"What do you mean? What is your unlucky number?"

"Thirteen; twelve jurymen and the judge."

In and Out.
A father took his son of four years to the incubator in the cellar to see the eggs hatch.

Said dad, impressively: "Isn't it queer how the little chicks get out of the shell?"

"Huh," replied the youngster, "what gets me is how they get in there."

Who Gets the Most for the Money He Spends?

The fellow who buys haphazard—or the one who puts his everyday purchasing on a business basis?

The latter, of course. He is the one who reads the advertisements and discovers just where he can buy what he wants.

He is the one who realizes the great value of advertising when it comes to the important business of spending his hard-earned money.

The well-informed shopper always has the advantage when it comes to the stretching of dollars. And you can't be up-to-date on the shopping news until you make a practice of reading the advertisements.

The advertisements show you how to save money—and steps—and time. Watch them carefully.

Permanent roads are a good investment—not an expense

-and No Place to Go!

We find ourselves, almost without realizing it, a nation on wheels. We drive or ride in 16,000,000 motor vehicles. We pack the paved highways coming in and out of town. We over-run even so-called remote regions. And we are pounding to pieces all but permanent roads.

Next year 4,000,000 new cars will be on the road. Compared to this increase, the mileage of new permanent roads will be insignificant.

We don't want to be a nation on wheels, with no place to go. The answer is, build more, and where necessary, wider concrete roads—and start building them now.

Not in a long time have general conditions been so favorable for carrying on such public works as permanent highway building.

Your highway authorities are ready to carry on their share of this great public work. But they must have your support.

Tell them you are ready to invest in more Concrete Highways, now.
