Mrs. Collier next week would have begun her 10 year sentence from Haskell county for murder in connection with the killing two years ago of Elzie Robertson.

Frank Collier, who fired the fatal shot, was sentenced to three years for manslaughter from Wichita county. His 30 day furlough, granted by Governor Ferguson because of illness, will expire November 28. Collier was may be at Wichita Falls at time of the killing.

Mrs. Collier's pardon was announced about three hours after Mrs. Hattie Robertson mother of Elzie, who was 19 when he was killed had protested tearfully the pardoning of either of the Colliers. Mrs. Robertson was with her on the night he was killed.

OIL PROSPECTS ARE GOOD IN COUNTY

"There is no doubt about it," said a well known oil man in Haskell this week. "The Carter well just south of the Haskell County line in Shaleford county is reported to be standing more than 1500 feet in oil. This well is located about two miles south of Tull Newcombs farm in the Cobb community on this side of the Cleark Fork. It has been drilling for several months and different reports have been given out about the well coming in, but this is the best showing the well has ever made. No gas is reported in the well which is the reason it is not a gusher which might have created more excitement.

The Kouri number three well, 20 miles southeast of Haskell on the Ballard ranch has the 12 1-2 inch casing set and drilling has been resumed at more than 1,000 feet. A bit was dropped in the well early in the week which caused a job of fishing and delayed the work for a short while.

Dr. Zeigler of Stamford is planning to drill a well on the 14-section ranch belonging to S. W. Scott of San Antonio. This tract of land lies about 12 miles southwest of Haskell. The location of the well is said to be near the Scheaffer well which was put down several years ago. It is not known when the well will be spudded in, but it will not be very long, according to reports.

G. L. Walker of Gauntt community was in the city Tuesday and purchased his supply of reading material from us. The Free Press and Wichita Daily Times.

Any other days on which the business houses should close would have to be endorsed with a petition or written firms.

These birds came in in excellent condition and they will add materially to the large number of turkeys in the preserve. Mr. Ballard stated that 60 young turkeys were raised on the ranches along Point Creek this year which is now in the game preserve and with the number of original stock and the birds recently liberated there will be almost two hundred wild turkeys in the flock.

Mr. Ballard states that with the proper co-operation of the people in three years there will be a large number of birds along the creek. This game preserve will be the pride of all who love and cherish the larger game birds.

Because the competition was keen his winnings mean something in this show. Vance of the Cliff community stated to a Free Press reporter while in Rochester last Friday that he had sold during the year \$270.00 worth of hogs and pigs and that he had sold \$80.00 worth of Turkeys in addition to his excellent crop of maize and cotton which he has grown this year. He believes in diversification and is going into it stronger next year. He believes if growing more than one crop is good in bad years, it is better in good years and he expects to practice it from now on.

SWEET HOME LADY MAKES NEAT SUM ON TURKEYS

Mrs. Riley Haney of Sweet Home has found that there is money to be made in turkey raising. She sold thirty last week at twenty-five cents per pound bringing her \$170 in cash. She still has thirty left to sell later. In all she will make a great deal off of them. There seems to be more for the farmer now in the poultry business than in cotton.

18,399,000 BALES IS NEW COTTON FIGURE

For the first time in history the American cotton crop will exceed 18,000,000 bales, the Department of Agriculture reported Monday. Indications on November 14, point to a total production of 18,399,000 bales.

The indicated crop is 2,295,000 bales larger than last year's yield. Of this year's crop 12,933,708 bales had been ginned to November 14.

There are large quantities of un-picked cotton in Texas, largest producing State, and Oklahoma, and the Government's crop reporting board said the amount which of this will be picked will depend largely upon weather, labor conditions and price during the next two months.

NEW SEWER SYSTEM IS BEING INSTALLED

The disposal plant which is located more than a mile south of the city is just about complete and the ditches are now being prepared for the laying of the main lead lines to the plant. The question of streets and alleys in the north part of the city has been settled and the sewer will be laid in all the Alleys in the north part of the city except one street which has no alley and on that street the sewer will be compelled to be put down in the street. More than seven miles of sewer will be put down in the city and according to Contractors O'Neil the sewer lines will be completed within the next sixty days if the weather remains favorable.

A good time is reported by the hunters on their short vacation.

KNOX CITY MAN SLAIN BY MEXICAN

J. M. Carver, 34 a prosperous renter on a portion of the famous Bush ranch, six miles from Knox City, resisted an unidentified Mexican highwayman, received a shot in a leg and bled to death before surgical attention could be secured.

The shooting occurred shortly after 11 o'clock Saturday night on a road leading from Carver's house to that occupied by the Shaver brothers, managers of the ranch. Carver died at the Shaver house, where he was driven by Roy Day, who occupied the auto with Carver, less than an hour after he had been wounded.

Although the surrounding country has been combed by posses headed by the sheriff, which were formed shortly after Carver died, no trace of the Mexican has been found. The posses which scoured the country all night were augmented Sunday morning by scores of additional men and boys heavily armed who are continuing the search.

As feeling is running high at this time, as Carver was well liked in and around Knox City, it is feared trouble will follow should the man be arrested.

Carver is survived by his widow and four children.

The Mexicans living and working in this section held a celebration Saturday night near where the shooting occurred. It is the presumption of officers that the man who did the shooting while probably under the influence of liquor, attempted to hold up Carver and Day for money with which to continue his celebration and when Carver resisted, shot him out of revenge.

Day told the officers, in substance that while he and Carver were driving toward the latter's home, that a Mexican stepped out into the road from the darkness of trees and commanded the car to stop. When the auto had been brought to a standstill and Carver designed the man's intentions he started the machine forward. It was then that the Mexican fired into the car. The bullet from his weapon struck Carver in the leg.

Day sped the machine to the Shaver home, where everything possible was done to staunch the flow of blood, but without avail. In the interim assistance of a surgeon was sought. The latter did not arrive at the Shaver home until after Carver had died from loss of blood. The bullet had severed an artery.

The sheriff's department was immediately notified, and posses were soon scouring the country in every direction. No trace of the Mexican was found during the night and the fresh posses had met with no better success up to a late hour Sunday.—Star-Telegram.

Singing at Mr. Jettons

WOMEN

Most people know what a calf, which has been penned for some time, will do on being liberated. Down the pasture he will scamper to the farthest side. Across to the creek he will run, pausing but a moment at the brink, a bit too wide for him, jump, miss and fall! When he has seen it all or worn himself out he will settle down.

Every one has observed children playing "papa and mama." The little fellows, in their youthful inexperience and innocence, all want to be men and women and they are in a "hurry" to get there. They are not in the least selective, and will imitate the nearest to them, be that the lowest and meanest. An inexperienced person is hard to explain his own faults to. Often he will be angry and offended at a perfectly honest effort to help him.

Women, but a short time ago, were in absolute slavery as far as having the privileges of today are concerned. They could not appear on the street unattended. They were chaperoned on every occasion. They could not vote and society restrained them on every hand.

Now women are free. New in their freedom some are running wild. Some are making grievous mistakes and selling their birthrights of self-respect and the respect of others for "a song in the night." They are imitating men who have long been licensed. They are not selective—they imitate the nearest at hand. They will not be advised in this new adventure. They have not yet learned how to use their freedom and they must learn it for themselves.

There will be no great change in women. Some will have their "fling" and return to find that freedom is relative, and comes with it the responsibility of self-control that many of the men who has been "aping" are bigger fools as she is, that the world appreciates nothing like a person's being him or herself, that being a woman is by far her easiest and most successful career and that career normally includes the raising of babies.—Exchange.

A MIXED RECIPE. A June bride asked her husband to copy the radio recipe on morning. He did his best but got two stations at once. One was broadcasting the morning exercises and the other recipe—this is what he got:

"Hands on hips, place one cup of flour on the shoulders, raise the knees and depress toes and mix thoroughly in one half cup of milk. In four counts raise and lower the legs and mash two hard boiled eggs in a sieve. Repeat six times. Inhale one-half teaspoonful of baking powder and one cup of flour, breathe naturally and inhale and sift. Attention: jump to a squatting position and bend the whiter of eggs backward and forward overhead and in four counts make a stiff dough that will stretch at the waist. Lie flat on the floor and roll into a marble the size of a walnut. Hop to a standstill and boil in water but do not boil into a gallop afterwards. In ten minutes remove from the fire and dry with a towel. Breathe naturally and dress in warm flannels and serve with fish soup."

Not Time Enough. "When the elevator fell with you I suppose all your sins flashed before your eyes."

A Real Man's Prayer. Teach me to drive through life without skidding into other people's business. Preserve my brake lining that I may stop before I'm ditched. Help me to find the knobs in my own motor and not to hearken so much to the clashing of the other fellow's gears. Keep the screws in my head as tight as I would like to have the screws in my automobile, and let me never lose sight of the fact that people who live in gasoline swagons should not throw lighted matches around other people's houses.—Troga Herald.

Don't You Care!

Somebody always may excel you, But don't you care!— Others outplay you or outspell you, But don't you care! Prizes may not fall to you, But in everything you do You can have a purpose true, So don't you care!

Somebody else may have more money, But don't you care! Somebody may be shrewder, Sonny, But don't you care! Others may wear finer things— Silks and furs and diamond rings, But you can have the joys love brings, So don't you care!

Somebody may get more attention, But don't you care!— Or win the "honorable mention", But don't you care! If your work is nobly done, Surely you can have the fun Honest worth has always won, So don't you care!

WAS SOLOMON WISE?

Solomon has always been advertised as a very wise man, but if the history of his life and that of his son, Rehoboam, is correct, they wrecked their power and their people by excessive taxation.

Citizens in practically every city, county and state in the United States are facing much the same problem as did the people under Solomon. Enormous expenditures are being made for all kinds of public undertakings. Local taxes have been constantly increasing. All of these taxes are added to the cost of living through increased prices and rents. The ultimate consumer and day laborer cannot pass the taxes on to the other fellow. They pay them all. It is claimed that taxes and debts have wrecked more governments and impoverished more nations than all the wars of history. At the height of our prosperity is a good time for us to check up on our debt and tax situation. The family that spends more than it can afford is headed for trouble, and the nation which overloads the tax payments is following the same path.

SOCIETY and Club

Antonio Man Claims Haskell Tuesday November the 23rd.

One of the loveliest home weddings of the season was solemnized on last Tuesday evening in the home of Mr. and Mrs. R. R. English when their beautiful and accomplished protegee daughter, Miss Cleo King was given in marriage to Mr. R. B. Cannon of San Antonio, Texas. The improvised altar, arch and canopy was a bow of green and gold chrysanthemums on either side of which, shedding a soft glow over the bride, burned cathedral candles. Adding much beauty and charm to this setting was the ribbon aisle presided over by Master Hugh Mac English and Miss Lucile Kirkpatrick. The intimate gathering of the bride and groom and the host and hostess, had when Mrs. Courtney Hunt, lovely in a golden lace gown with slippers to match, took her place at the piano and accompanied Mrs. Clayborn Payne, who wore a heavily beaded yellow georgette frock and corsage, as she sang in a clear sweet soprano, "At Home." Then as Rev. G. R. Forrester, pastor of the first Christian church quietly took his place at the altar, the groom's brother Mr. George Cannon of San Antonio led in the bride's only attendant, Mrs. Mammie Barron, who was charming in a berry georgette gown, with corsage and shoes to match, and carrying an arm bouquet of rare yellow roses that correlated ideally with her color theme, and the groom Mr. R. B. Cannon. As the wedding party assembled, Mrs. Hunt played Mendelssohn's Wedding march and during the beautiful ceremony, she played McDowell's, "A Wild Rose." A reception was held immediately following the ceremony and Mrs. English served ice cream in wedding bell molds with squares of angel food cake embossed with the initials of the bride and groom. The appropriate favors were miniature rice bags. The hostess, Mrs. R. R. English, wore a lovely creation of gold lace over green and corsage and the groom's mother Mrs. Z. W. Cannon of San Antonio was gowned in heavy georgette with cut velvet trimmings all in black, and wore jet beads, she also wore a corsage, all of the corsage bouquets were gifts of the groom to the brides of the bridal party and to his mother.

Mr. and Mrs. Cannon left on the 7:58 Wichita Valley train for a honeymoon trip to points over Texas and will be home to their friends after December 1st at 414 East Ashby Street San Antonio, Texas, where the groom has a responsible position. Every body in Haskell knows and loves Miss Cleo King and extends to her and the man her choice sincerest wishes for health, happiness and prosperity.

Bride Party of Monday Evening Honors Bride and Groom of the Week.

Of the many pre-nuptial courtesies honoring Miss Cleo King who became the bride of Mr. R. B. Cannon of San Antonio on Tuesday of this week, none surpassed in intent and purpose and of the carrying out of every detail, the lovely bride party given on last Monday evening by Mr. and Mrs. Clayborn Payne and Mr. and Mrs. Courtney Hunt in the home of the latter where the entire reception suite was made beautifully attractive with vases and baskets of white and yellow chrysanthemums, sounding the color scheme that was echoed in the refreshment plate that was served later in the evening, ice cream in golden slipper molds with white and gold cake and mints. Mr. and Mrs. Payne gave greetings to the guests at the entrance and they were next introduced to members of the receiving line, Mrs. Courtney Hunt, Mrs. Z. W. Cannon of San Antonio, the bride-to-be Miss Cleo King, the groom-to-be Mr. Cannon and Mr. Courtney Hunt. Miss Eva Beyett then passed the score cards and the guests found seats at the thirteen tables where they enjoyed an evening of bridge. The bride-to-be was presented with bookends, the groom-to-be with a smoking set, and Mrs. J. B. Post who won high score was given a box of linen handkerchiefs and Mrs. Bruce Bryant was consoled for making low with a wall vase. In recent dispatches covering their death, Rudolph Valentino was given columns of space to inches devoted to Dr. Charles W. Eliot. Valentino died at 31 after five or six years as a movie star. Dr. Eliot died at 92, after an unprecedented career as scientist, educator, author and publicist, which included forty years as active president of Harvard. Such is fame.

Charitably inclined persons would do well to scrutinize crippled beggars before contributing to their relief, if a report from New York may be credited. It is said that the metropolis now has a flourishing "cripple factory" where people who prefer begging to working are made to appear deformed or crippled through a skillful use of padding and bandages. A "one-armed" beggar recently arrested was found to have two perfectly good arms, but one of them was strapped to his body underneath his shirt.

URGED FOR PRESIDENT
STATE TEACHERS ASSN.

College Station, Texas, Nov. 22.—W. L. Hughes, head of the rural education department, School of Vocational Teaching, A & M. College of Texas, is being urged for election as president of the Texas State Teachers' Association at the annual meeting of that organization to be held in El Paso on Nov. 25, 26 and 27. E. W. Chaney superintendent of the A & M Consolidated Schools, heads a committee of friends of Mr. Hughes urging his election. Letters recommending him for president and setting forth "ten reasons" why, have been sent out by Mr. Chaney to every school superintendent of the State. These letters set forth that Mr. Hughes has conducted rural sections in more than twenty teachers' institutes in the last four years, that he has been a member of the Texas State Teachers' Association since 1897, and is at present a member of the executive committee of the Association. He has been engaged in rural school work in Texas for the last thirty years and he taught in West Texas for fifteen years, being the county superintendent in Tom Green county.

Those favorable to the election of Mr. Hughes have pointed out that in the last twenty-five years only one rural school man has been elected president of the State Teachers' Association. Mr. Hughes was discussed for election as president of the Association at the last meeting.

Floyd Burleson and wife of O'Donnell are here this week. Floyd says that with plenty of feed cows, hogs and chickens the south plains will come out alright. He said to his friends, "We have no room to kick," when asked about the conditions in his section.

J. W. Cox of Lamesa is here this week. He has many friends here who will welcome him back to the old town and county where he lived a number of years.

S. E. Ford, Steve Smith, Bill Pentecuff and Noah Bedford of Munday were in the city Tuesday on a return trip to Trent where they were prospecting. Mr. Smith stated that after seeing that country this section looks good to him.

Suffered weak, nervous

"I WAS in a very weakened, run-down condition, surely in need of a tonic and builder," says Mrs. J. R. Wrenn, of Anna, Texas. "I was so weak I had to go to bed, and kept getting weaker. I suffered with my back so much. I was very nervous, couldn't rest good at night. I couldn't eat anything—I just wasn't hungry. I had read so much of Cardui, I thought best to use it. I took seven or eight bottles, and by the time I had taken them I was stronger than I had been in several years. I can highly recommend Cardui." Thousands of other women have found that the tonic effects of the purely vegetable ingredients of Cardui were just what they needed to help restore their appetites, to help bring them easily and naturally back to normal health and strength. Its action has been found to be of great benefit in many common female ailments. Buy it at your druggist's. CARDUI For Female Troubles

COTTON DAMAGED AT SWEET HOME BY SAND STORM

Much cotton was damaged here by the sand storm last Tuesday night. The sandy land cotton especially was damaged being filled with sand so that it makes a poor turn out at the gin. The farmers say that eighteen hundred pounds of picked cotton or twenty-five hundred pounds of holes do well to make a five hundred pound bale. Lots of cotton was wasted by being blown to the ground and there is much cotton that will never be picked as a result of the sand storm.

Mr. and Mrs. John Ellis and Miss Minnie Ellis and Miss Biggerstaff spent the week end in Wichita Falls with friends, returning Sunday night.

CHAS. MCGREGOR WILL FEED CATTLE AND HOGS THIS WINTER

Chas. McGregor a farmer of our county who resides in the city of Haskell, but owns a large tract of land on the Brazos River north west of Rochester cut his cotton acreage this year and planted the same to maize. He has weighed into his granaries and sheds one hundred and forty tons of maize and has 36 tons awaiting the preparation for other barn room for housing. He decided the best way to handle the surplus feed crop under the present conditions was to feed it to cattle and hogs.

A few days ago he purchased from a reliable breeder at Aspermont one hundred and fifty one head of standard bred Hereford heifers and moved them to his farm. Knowing the waste of feeding cattle without following them with hogs he purchased a car load consisting of one hundred and thirty nine head of pure bred hogs which had been vaccinated and dipped one day this week and were carried to the farm. Mr. McGregor expects to and they were received at Knox City feed these cattle and hogs for one hundred and twenty days and sell them on the spring market.

Mr. McGregor needed no help from the banks or individuals to help him handle the deal. He paid cash on the

barrel head for the cattle and hogs. The amount of capital invested in the purchase is around the \$8,000 mark and with the experience he has had with live stock he will receive a handsome profit in the deal.

A vital reason for its velvety performance is a new and exclusive engineering principle—the Oakland Six engine rides on rubber and drives through rubber. The New Texaco gives longer engine life

The new and better Texaco enters the cylinders as a dry gas, carrying no liquid globules to cut the motor oil film, and burns completely, leaving no heavy ends to dilute the crankcase oil—hence better lubrication, less engine wear. You will also notice the easier start and quicker pick-up with this new and better gasoline. The new Texaco starts quickly because it vaporizes at a lower temperature. You will naturally get increased power and mileage, maximum acceleration without flooding, smoother action and a quieter engine.

WET	DRY
A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops separating at every manifold bend, result in uneven distribution and flooded cylinders.	The new Texaco vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air, which provides an even flow of fuel and power to every cylinder.

The new Texaco has a lower boiling point, and a lower end point. It is better throughout the whole range of distillation. It is a "high test" fuel that vaporizes readily under manifold conditions.

The new Texaco is a pure gasoline of exceptional volatility—a gasoline having remarkable anti-knock qualities attained without the addition of chemicals.

Mrs. L. F. Catron, who has been visiting her sister, Mrs. Jno. L. Bobertson for several weeks left last Sunday for her home at Summerville, Tenn.

Myers School Progressing Nicely

The Myers school is progressing nicely under the management of Miss Eula Mae Gibson of Sagerton and Miss Alma Sprowls of Haskell. These teachers taught here last year and we are sure of having a successful school year.

There is not a very large enrollment so far on account of there being so much cotton to pick.

Mule Injured

Mr. A. L. Chapman of McConnell had the misfortune of getting one of his work mules injured last Thursday night, when the wind was blowing so high, the stock were in the lot and a plank blew off striking into the mule's neck ranging into the upper part of its lungs.

ENFORCEMENT FIGURES

Figures concerning prohibition enforcement progress were made public by the Department of Justice recently, showing that during the fiscal year ending June 30 of this year 44,022 persons were sentenced by Federal court alone for violations of the Volstead act.

Fines totaled \$7,336,505, while jail sentences aggregated 5,666 years. A trend toward more sentences of imprisonment was noted, and the number so punished was greater than in any previous year since the prohibition law has been in force.

If figures were available showing the penalties inflicted by state and local authorities for violations of the law, the grand total would no doubt be surprising.

This increased number of convictions is a hopeful sign, but under present conditions of enforcement it will be "a long, long way to Tipperary."

General Andrews, in charge of enforcement, while admitting that results have not been satisfactory in the past, declares that with the enactment of additional laws proposed to Congress his campaign will be greatly aided.

By all means give General Andrews the legislation desired. We cannot believe that this great nation is helpless before a band of criminals. On the contrary we firmly believe that this country is able to enforce its laws whenever the law enforcing powers determine in good faith that it shall be done.

BIG GASOLINE DAY

Statistical experts have recently compiled some interesting figures concerning gasoline consumption in the United States, which has again broken all records this year.

According to these authorities, careful estimates indicate that July 25 last saw a new high record for all time in amount of gasoline burned up in a single day, or more than 860,000 barrels.

The day was a Sunday, with good weather throughout practically the entire country, which brought out nearly every passenger car in use. The daily average consumption for the entire month of July was about 850,000 barrels of gasoline. Figuring each barrel at 59 gallons, the average daily consumption during the month of July was 42,500,000 gallons. At an average cost of 25 cents per gallon, the daily bill for gasoline during the month of July was \$10,625,000. Think of that as a single day's bill for gasoline! How long can the country stand this drain on its finances?

AUTOMOBILE THEFTS

In a recent address Alfred Reeves of the National Automobile Chamber of Commerce declared that \$30,000,000 worth of automobiles were stolen last year, of which six million dollars worth remain unrecovered. One car out of every 30 registered in Detroit last year was stolen.

Mr. Reeves also says that automobile insurance rates are too high because there is too little effort made by insurance companies to investigate the personal integrity of the applicant for a policy. Car owners who have a record of recklessness or criminality should be refused insurance, he says, because their delinquencies increase the rates which the honest and careful drivers have to pay.

He also warned that the motorist who leaves his car unlocked is tempting the thief, and in particular aids the kind of thievery which is for the purpose of a temporary joy ride.

Greater co-operation with a view to the apprehension and punishment of automobile thieves is urged. As Mr. Reeves says "it is a mockery of justice that millions of dollars in motor thefts every year go unpunished."

TEXAS STATE TEACHERS WILL MEET IN EL PASO

West Texas teachers will go along to a person to the annual convention of the Texas State Teachers Association, which will be held in El Paso, November 25, 26 and 27. This is the opinion expressed in scores of letters received in the association offices in Fort Worth from superintendents and principals and college presidents and deans of West Texas.

Some of the leaders in the association believe that this means a West Texan will be elected president of the association, and the question is being asked, "Who will be the next president?"

L. T. Cook, superintendent of Breckenridge schools, was the first person proposed this fall as a possible candidate for the association presidency. R. D. Green, superintendent of the Abilene schools, President P. W. Horn of the Texas Technological College at Lubbock, and Marshall Johnston, superintendent at San Antonio have lately been spoken of as possible nominees. Others are mentioned from other sections, but these from West Texas.

Anyway, West Texas teachers will be in El Paso en masse, and their votes will be the deciding factor in the election of the association officers.

Haskell teachers can go on the Wichita Valley railway to Abilene on a rate of fare and one-fifth, and at Abilene they can buy a round trip ticket to El Paso for \$12.50, on the Texas and Pacific.

Sells Turkeys

Last week Mr. G. E. Anderson who lives near Irby sold 43 turkeys at 27 cents per pound which brought him \$212.00 and he says he still has 100 more that he is saving for the Xmas market. Mr. Anderson says he always raises a large bunch of turkeys having raised over 200 last year but the wolves have caused him to lose a lot this year but he hopes to do still better next year.

FACT AND FICTION

The woman whose face is her fortune is sure to go broke sooner or later. Ready money we've noticed is the kind you can't borrow from the other fellow.

Sounds sort of paradoxical but a man never exhibits his temper until he loses it.

The homely woman can always console herself with the thought that her fortunes are classical.

The Pittsburgh robber who forced a greener's clerk to turn over all of Saturday's receipts and then paid the clerk his weekly wages has probably known the disappointment of going over Sunday without the customary Saturday night pay envelope.

BE WISE AS THE CAT.

Why does a cat on coming to a door invariably stop and look about before going through the door? That may not seem important on first impulse, but it is highly important as a matter of fact. You say you never noticed a cat doing this. A lot of people are not very observing, and therefore do not see many things. And that is the answer. The cat, of which there are as many varieties as there are kinds of people, is one of the most cautious of all animals, and is ever on the alert. The cat takes no chances and going from one place to another stops and takes a careful survey of the surroundings.

But most of us just go thundering through and we have to stop, look and listen later on. Some glib-tongued salesman comes along with a pretty gold-edged piece of paper, which he sells us as stock that entitles us to suck our money in the Catch-Em-Going-and-Coming Oil Co., and if they ever drill a well or secure any land we will get a swift kick in the west side of our custom-made garment. And we buy. Later we stop and wonder why we didn't emulate the cat and stop in the threshold and do a little investigating.

Or somebody comes along and tells us a cock-and-bull story (which is French for fairy tale) about somebody, and we hurry and put on our hat to get out and repeat the story. And later on we find there was no truth to the story and we again pull the cat stuff—but just about a month too late. In the meantime we have played somebody a mean trick—Exchange.

FIFTY YEARS AGO.

Ladies rode side-saddles. Indigestion was called bellyache. Merry-go-rounds were called flying jennies.

People served potlicker instead of canned soup.

Folks boiled coffee and settled it with an egg.

ROCHESTER BUSINESS HOUSE NEARING COMPLETION

The A. B. Carothers building in Rochester is going forward toward completion. This building is 50x100 feet and is in reality a twin building with large columns down the center, but is going to be used at the present as one building and will be occupied as soon as completed by the Joe R. Collier Hardware Company. Mr. Carothers has superintended the work of the building in person and has spared no pains nor money to make the building one of the best in the city. The foundation is sufficiently strong for a two story structure and every part of the building is reinforced with steel where it is needed. Mr. Carothers is the father of Rochester and he still has confidence in the prosperity of the city.

ROCHESTER PHYSICIAN IS PUTTING IN UP-TO-DATE FIXTURES IN OFFICE

Dr. W. J. Howell one of Rochester's practicing physicians has moved into his new office in the Bankbuilding in that city and is planning to arrange one of the most up-to-date offices in this section of the state. He is putting in a large Electric Therapeutic lamp for the treatment of all skin diseases and is also putting in an ultra violet ray lamp with all attachments and when it is completed it will be a great help to the people of this section. Dr. Howell came to Rochester a few years ago and he has many friends in that section.

FARMER ADVOCATES THE IDEA OF PLANTING TWO ROWS AND SKIPPING ONE

D. G. Tidwell who owns and personally operates a good farm about 10 miles east of Haskell says that he has tried out the idea this year of planting two rows and skipping one in either cotton or maize. He does not like the idea of plowing up the third row of the growing crop, but says it is best never to plant it. This year he has tested it out and has the figures to show that it pays. On a little more than 30 acres of land he gathered this year sixty two tons of maize planted in this manner and he says the quality of maize is much better than the single row maize. He also planted some cotton and cultivated it in the same process and it has almost doubled in yield.

O'BRIEN COTTON GINS CLOSE DOWN FOR SEASON

The two cotton gins at O'Brien operated by Headley and Deal were closed down last Thursday night and it is reported that they expect to remain closed for the remainder of the season. Just why the gins were closed down is not definitely known further than the patronage was not sufficient to run them without a loss to the owners.

About 1,500 bales had been turned out by the two gins prior to their closing. According to P. C. Jones cotton weigher for O'Brien he had weighed around 1500 bales into the yards before the closing of the gins but as the gins are not running he does not expect any more cotton to come to the yard.

FORMER HASKELL LADY INJURED IN CAR WRECK

Mrs. Olive Golden who recently moved with her husband from Haskell to Knox City was seriously injured last Thursday morning in an auto accident. She with her two children were in a Ford roadster and she was driving when it overturned on the highway about a mile south of Knox City. She was rendered unconscious and was picked up and carried to the Sanitarium where she received medical treatment and was considered by the physicians to be very badly injured. The children escaped with a few slight bruises.
