VOLUME 79

NUMBER 39

Field Day To Be Held At County Show Barn

The 1987 Field Day is set for October 1, at the Briscoe County Show Barn in Silvertown. The annual event sponsored by the Briscoe County Extension Ag Industries Committee and the Caprock Soil and Water Conservation District will begin at 9:00 a.m. with registration and coffee and doughnuts sponsored by the Johnson Gin.

County Judge Jimmy Ross will extend the welcome at 9:30 a.m. Ag Industries Committee Chairman Jimmy Burson will moder-

ate the day's program.

Speakers during the morning program will be Dr. Pat Morrison, Extension entomologist, who will discuss problems with the Russian wheat aphid. Dr. Brent Bean, Extension agronomist from Amarillo, will present information on forage management and wheat pasture.

Weed and brush control will be the topics discussed by Dr. J. F. Cadenhead, Extension range specialist from Vernon.

Representatives from the Soil Conservation Service and ASCS will be available to answer questions about the farm program and the CRP.

A barbecue lunch, sponsored by DuPont, Elanco, Monsanto,

Dow Chemical and Sandoz Crop Protection will be provided for Field Day participants. Company representatives will make brief presentations before and during lunch.

A farm tour will not be held this year due to crop loss from hail damage.

4-H Dance Club Meets Saturday Night

The 4-H Dance Club is to meet at 7:30 p.m. Saturday, September 26, at the County Show Barn in Silvertown.

All Around
The Town
BY MARY ANN SARCHET

Sincere thanks to Good Samaritans Snooks and Margaret Frizzell for the assistance they gave to our daughter-in-law, Jonann, and our granddaughter, Molly, as they were enroute to Amherst to the Junior High football game on Thursday afternoon of last week.

Jonann was driving to Silvertown from Plainview that afternoon when she had a blowout on their van. With so many weirdos on the highways, she was very glad to have this kind and friendly couple stop to give assistance.

Isn't it a small world, after all?

SURVIVAL

All about survival and being polite and keeping the doors to the business open: Please permit me a few lines to let off some steam. I received a letter to the editor last week from Alice Montemayor. It should have been included in last week's paper, but space problems prohibited it. We had to leave a lot of news out because there wasn't enough advertising to justify any more than six pages. The letter written by Alice Montemayor called attention to how rude and cold cashiers were to customers when they paid for merchandise with food stamps. She was writing the letter on behalf of a neighbor who had been hurt by a clerk. In her letter she said, "The customers pay their wages by going in and buying food with or without food stamps."

Alice and her neighbor certainly have a point. This has to be a joint venture between the businesses of the community and the residents of the community.

I wasn't real tickled to see the See ALL AROUND THE TOWN Continued on Page Eight

Alton Riddell has been a member of the "chain gang" at Silvertown football games for the past 22 years. He not only serves at home games, but also works at some of the away games.

Many Services Become Taxable October 1

State Comptroller Bob Bullock Thursday said many new services will become taxable on October 1, when the state's sales tax rate increases from 5 1/4 to 6%.

"The tax change will not only hit items which are now currently taxed, but a number of newly taxable items and services," Bullock said.

The expanded sales tax base was a major element of a \$5.7 billion tax bill approved by the Legislature this past summer.

October 1 is also the effective date of an increase in taxes on cigarettes, going up from 20.5 cents a pack to 26 cents a pack.

The Legislature extended the sales tax to several broad categories of services such as real property services, including landscaping, janitorial, garbage collection and pest control; security services, including private investigators and armored car services; information furnished by credit bureaus; and debt services, such as adjustments and repossessions.

It will also include information services like financial research, specialized information and insurance services including damage appraisals, investigations and claims adjustments, but not premiums paid for insurance.

The expanded tax base is expected to add more than 64,000 Texas businesses to the state's tax rolls, joining the more than 420,000 merchants and businesses already collecting sales taxes.

Newly taxable items include custom computer programs, labor on installations to tangible property, some transportation charges on the sale of goods, telephone service and membership and dues to private clubs.

"Businesses need to reprogram cash registers and alert workers and staff of the new rate taking effect October 1," Bullock said.

There is no increase in the one-percent local option tax

collected in some areas of Texas.

A fee for getting a sales tax permit and an increase in the state's motor vehicle sales and hotel/motel room taxes went into effect on September 1.

A rollback in the state's motor fuels tax from 15 cents to 10 cents a gallon was also cancelled on September 1.

Starting January 1, 1988, the sales tax will be further extended to data processing services, including word processing, date entry, retrieval and search as well as payroll and business accounting, data production, time sharing and computer management.

Taxes will also be due on repair and remodeling services, except on new construction and owner-occupied residences starting January 1, 1988.

Lazbuddie, Jayton To Play Game Here

Lazbuddie and Jayton will be playing a regular season football game in Silvertown at 2:00 p.m. on Saturday, October 9.

County Keeps 1986 Tax Rate

Briscoe County Judge Jimmy Ross told the Briscoe County News Monday that the commissioners had voted to keep the 1986 tax rate of .415 per \$100 valuation for 1987.

"We know our county has suffered a loss because of weather damage to crops and our people need a break on taxes. We are going to try to hold the line on spending and be conservative in order to keep taxes as low as possible at this time," Judge Ross said.

The judge also said that he is working on several projects that he believes will be of benefit to the county if they come to fruition.

Bids Received For Repair Of Hail Damage On Roof of School

The Silvertown Independent School District board of trustees held a regular meeting Thursday, September 10. Bids for the repair of hail damage received on the roof of the school were considered. Sealed bids were opened and the lowest bid was accepted, this being from Clark Roofing of Amarillo.

The 1987 tax rate was set at the effective tax rate of \$.7707 per \$100 valuation (\$.6634 for maintenance and operation, \$.1073 for bonded indebtedness). The following discounts were approved: 3% if paid in October, 2% if paid in November, and 1% if paid in December.

The board approved six short school days. The days of the Higgins and Three Way games will be shortened and the other days will be decided upon as the need arises.

Bobbye Bean, Fern Parker and Mary Ann Rauch were placed on Step III of the Career Ladder, and Juannah Jennings, Tina Nance, Duane Reynolds, Annette Shely, Jack Shely and Patsy Towe on Step II of the Career Ladder. It was decided to hire the teacher aides as full-time employees.

An air conditioner has been purchased for the fourth grade classroom. Air conditioning for the high school was discussed, with no action being taken at this time.

The observation scheduling for teacher appraisals was considered. All observations will be scheduled in order to use the services of the Scholastic Analysts for the second appraisals.

The next regular meeting of the board will be Thursday, October 8.

PTA UPDATE

We would like to thank everyone who came out for last week's meeting and school open house. PTA appreciates the support of the parents, grandparents and school faculty who attended our first meeting for 1987-88 — you helped to make the evening a success!

At the open house, Principal Stan Fogerson conducted those present on a very interesting and

informative tour of the school, starting with the home economics department and going through the elementary, high school and junior high buildings, the gym and vocational agriculture department. Many of the teachers were present in their individual classrooms to answer questions and explain the work they are doing with the students. It was a wonderful opportunity to get acquainted with the school faculty and become more familiar with the layout of the school.

PTA wishes to express our appreciation and gratitude to Superintendent David Cavitt, Principal Stan Fogerson, and each one of the teachers who were present for all of their efforts in making the school open house such an enjoyable event. Our thanks also to the high school girls who came to babysit for us.

In the meeting preceding the school tour, PTA president Michelle Francis gave a brief

A large number of costumed school children took part in the Parent-Teacher "We the People" program on Wednesday afternoon of last week. Student Council President Robbie McWaters was master of ceremonies for the program which celebrated the 200th birthday of the United States Constitution. *Briscoe County News Photo*

If you need work done on your vehicle, just call **995-3565** during the day, or call **823-2039 (Joe)** or **823-2498 (Dale)** after 7:00 p.m.

They will pick up your vehicle in the morning, drive it to Tullia, make the repairs needed, and return it to you in the evening.

Remember, we're just a phone call away!

rundown of this year's upcoming meetings and programs, and described some of the projects PTA has planned for 1987-88. A list of the gifts PTA purchased for the school with the 1987 Little Wrangler Rodeo proceeds was read. These included: 3M overhead projector, three screens and P.E. equipment (one set of limbo sticks, three frog jump balls, four handled scooters, two sets of gym bats and balls, one dozen poly spots for marking bases and five playground balls). PTA also recently purchased a game about the Constitution for the school to use at the fifth-sixth grade level.

Wednesday, September 16, PTA and the Silverton High School Student Council presented a Constitution Day program in the school auditorium. The stage was decorated with posters made by Junior High students. PTA provided the poster board and hung the posters in preparation for Wednesday's program. Students, faculty and parents at the program were able to hear Chief Justice Berger read the Preamble to the Constitution and join President Reagan in reciting the Pledge of Allegiance. The Constitution Day television

broadcast was taped by PTA to make this part of the program possible. Kindergarten - fifth grade classes presented several patriotic skits and songs and a costume parade of famous Americans. The program also included presentation of a print of the painting, "A More Perfect Union — The Signing of the Constitution" done by Alton S. Tobey. The Commission on the Bicentennial gave a print of this painting to every high school in the

United States. Silverton High School's copy will hang in the school library in a frame hand-made by Duane Reynolds.

All of the students who had a part in the Constitution Day program are to be commended for doing such a super job!

The program entitled "Educational Resting" in a previous Update should have been "Educational Testing."

PARENTAL GUIDANCE.

Tell your parents about the security of Direct Deposit.

It's the kind of guidance they'll appreciate, and it's a nice way to let them know you care.

With Direct Deposit, their Social Security goes straight to their checking or savings account. They don't have to wait for the check or worry about it.

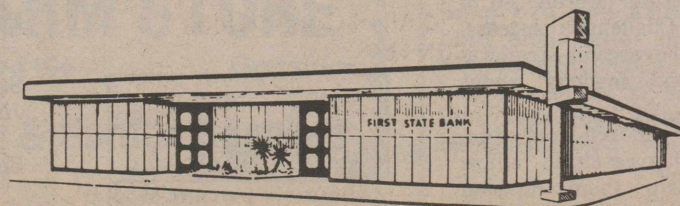

Have them ask for it where they now deposit their Government checks. It's free. And after all, they've got it coming.

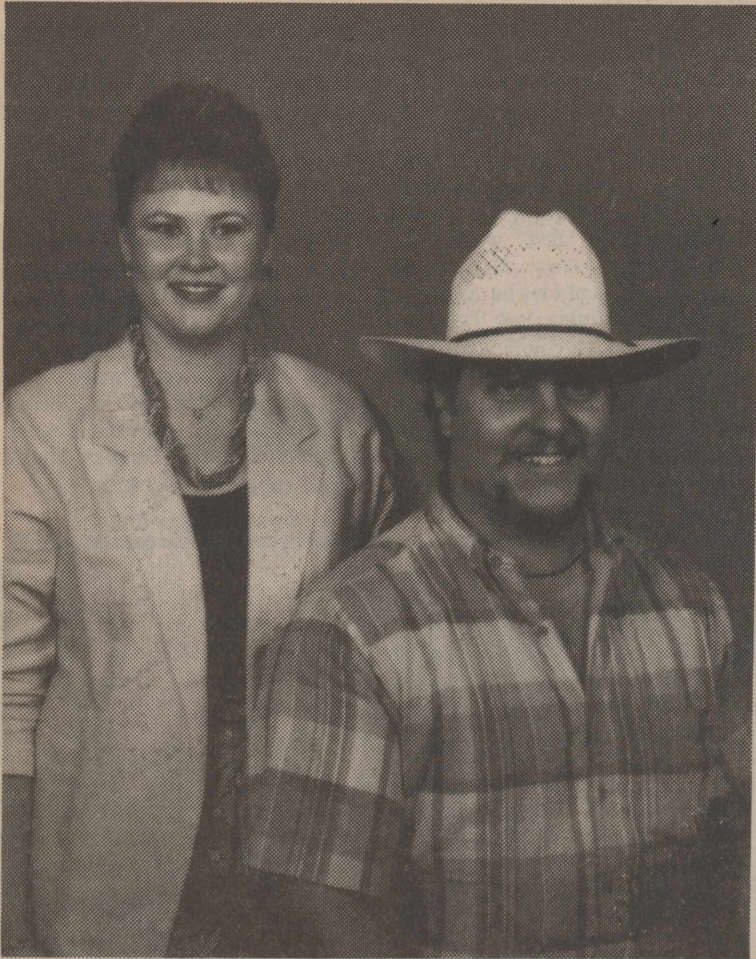

DIRECT DEPOSIT

AFTER ALL, THEY'VE GOT IT COMING.

First State Bank

FDIC

Dale and Dona Smith of Quitaque and John M. and Dorothy Russell of Matador are announcing the engagement and approaching marriage of their children, D'anna Lynn and John Douglas. The wedding will be November 14, 1987, at the First Baptist Church in Quitaque. The bride-elect is the granddaughter of Don and Lottie Garrison of Silverton and Gerald and Anna Mae Smith of Quitaque.

Club Spends "Fun Day" To Open New Year

Members of the March of Time Study Club spent Thursday as a "Fun Day" in Amarillo for the opening session of the club year. Members of the group happen not to be associated together in any other way except through their club activities.

After a leisurely lunch at the Maison Blanche, they were the guests of Suzette Fitzgerald Nistler, horticulturist at Mesa Petroleum Inc. After admittance by the security guards into the special garage parking area, the group was issued special number

name tags and enjoyed a guided tour of the facility to view and learn about the beautiful original paintings, imported sculpture, and planters for the numerous plants and flowers. The planters were placed under skylights and special grow-lights to enhance the beauty and growth of the plants.

The second floor was built especially for the company's physical fitness program, supervised by a trained director, and for the use of the company employees and their families.

The park surrounding the building is a colorful and inspirational arrangement of trees, vines, flowering borders, grass and green plants, all glorifying the combination of skilled workers and Mother Nature.

Last, but not least, was the visit to the cafeteria for delicious refreshments and a rest period.

The drive home by way of Claude allowed the group to again view the grandeur of the colorful canyon and Lake Mackenzie area, then back to the peace and quiet of the home community without the noise, hurry and bustle of the city—to members, the "end of a perfect day."

The members congratulate Suzette in her successful work there. She is a credit to her family and the Silverton community. Those who are her former teachers could not help but reflect on the well-known fact that a teacher's "pay" is not all on payday, but the dividends that come years later when students use talents in achieving happiness and self-satisfaction,

and influencing the lives of others in they work they prepare themselves to pursue.

Members attending were Anna Lee Anderson, Iris Burson, Jewell Lyon, Jackie Mercer, Pauline Turner and Jessie Mae Watson.

LOOKING BACK— Continued From Page Three

with Mr. and Mrs. Frank Shaffer . . . Nona Lee Deavenport spent Saturday night with Durene Strickland . . .

December 19, 1929—"Silverton is the uncleanest town I know of anywhere," said Frank P. Bain, acting president, at the Tuesday luncheon of the Lions Club, relative to clean-up measures which the club is fostering at this time . . . With the exception of a courthouse bill, which must await approval of the court before payment, every customer of the West Texas Gas Company in Silverton paid their account in full on or before the tenth of the month, according to Roy Leslie, local manager . . .

Silverton's team, consisting of Eural Vaughan, J. C. Turner and J. D. Strickland, made an excellent showing in the first poultry judging contest for vocational agriculture schools in Amarillo last Friday . . . P. D. Jasper, who won more ribbons at the Briscoe County Fair than any other two exhibitors, has received back from the Panhandle Plains Inc. of Amarillo the three prize-winning Pike's Peak blue squashes that made a journey to the Dallas Fair, South Texas Exposition at Houston and the Cotton Palace at Waco. Mr. Jasper's exhibit of barley, which was the best shown in any of the county entries at the Dallas Fair, was loaned to Hemphill County and carried to Waco and Houston. These two exhibits, grown in Briscoe County, were viewed by more than probably any other product sent from this county . . .

Double birthday party held for R. L. Carter and J. R. Foust . . . Howard Castleberry's ninth birthday is observed . . .

Comings And Goings

W. D., Peggy and Will Rowell have moved from California back to Silverton to make their home. He has been employed by Briscoe Implement.

Berle Fisch underwent surgery at High Plains Baptist Hospital in Amarillo Monday afternoon. Mr. and Mrs. J. L. Self, Miss Anna Lee Anderson, Mr. and Mrs. Louie Kitchens and Mr. and Mrs. J. D. Nance were in Amarillo to be with his family during the surgery.

Mr. and Mrs. Berton Hughes were accompanied by her sister, Mrs. Eula Belle Hall of Memphis, to Henrietta for the weekend. They attended the 100th Anniversary of the First Christian Church. They were joined there by their sister and her husband, Mr. and Mrs. Gerald Gillespie, and their brother and his wife, Mr. and Mrs. R. H. Renfro, all of Vernon. One brother, R. L. Renfro, of Fort Worth was unable to attend. All these five children of the late Mr. and Mrs. R. E. Renfro grew up and were married in this church. It was a pleasant time for seeing friends and renewing memories of days gone by, and seeing how much older everyone was since the last time they had seen one another, approximately 40 to 50 years ago.

HAPPY BIRTHDAY TO . . .

- September 25—Jim Estes, Florence Fitzgerald
- September 26—Aimee Francis, Matthew Davis
- September 27—Leslie Polley, Vivian Hughes, Maebelle Francis

- September 28—Mr. and Mrs. Leon Lavy
- September 29—Mr. and Mrs. Billy Cogdell

LINES FROM Y N D A

Lynda Fogerson
Briscoe County Extension Agent

LIKING YOURSELF

How much do you like yourself? You may say, "That's a dumb question—of course I like myself." Yet many people go through life not liking themselves.

Our attitudes and feelings about ourselves are reflected in our behavior toward others and have a powerful influence on our relationships with friends, family members, teachers, and those we work with.

How we feel about ourselves is called our "self-esteem." Self-esteem is based on all of our life's experiences. Adults carry feelings that were developed from childhood experiences as well as those from adult life.

Insecurity is something everyone experiences to some degree, and its roots are in our past. Parents' and teachers' expectations, if not realistic, can cause a lack of confidence in children. Parents, teachers and peers can build or tear down a child's feelings of self-confidence and self-worth.

Successes build confidence. Every successful experience we have adds to our storehouse of confidence. Challenges successfully met and overcome strengthen our good feelings about ourselves.

Protecting children from situations that may result in failure will not help them develop personal feelings of competence. We need to train and prepare them to be capable of facing

problems and challenges. When they succeed, they need to feel pride in their abilities, and we adults need to express our acceptance of their accomplishments. When they fail, we need to let them know that they are not a personal failure but can try again to do better next time.

Expect the best of people and you'll likely get the best.

NEXT WEEK: "Developing Positive Self-Esteem"

Homemakers Must Request Newsletter

Homemakers who have not already replied to the Extension office that they wish to continue receiving the Extension home economics newsletter, "Lines from Lynda," are reminded to call Lynda Fogerson at 823-2343.

Postage restrictions and state mail regulations require that individuals request to have their name remain on mailing lists from the Extension Office.

Several have indicated that they forgot to make this request earlier in the year and wondered why they no longer received this newsletter.

A phone call with your name and address will allow you to again receive home economics mailings from the Extension Office.

About six percent of all American households now have computers.

America's first extensive hard-surface road was built in Pennsylvania. Completed in 1795, it was known as the Lancaster Turnpike and ran 62 miles.

Burson Is Area Chairman For Cattlemen's Roundup

Johnnie Burson of Silverton has been appointed area chairman for the Cattlemen's Roundup for Crippled Children, according to Jim Alexander of Abilene, CRCC general chairman.

Two hundred fifty chairmen statewide are assisting the Cattlemen's Roundup for Crippled Children fundraiser which benefits the West Texas Rehabilitation Center in Abilene and San Angelo.

Aubrey Stokes, San Angelo attorney, is general co-chairman of this 18th annual event.

"The agricultural community has always believed in the philosophy of neighbor helping neighbor, and the Cattlemen's Roundup is a prime example of that belief," says Shelly V. Smith, WTRC president/executive director.

"Livestock donated by ranchers is collected at a designated point in each community and transported to the auction site," Alexander explains. "The local chairman's job is to make a personal pledge, then ask others to join him in this drive which is anticipated to raise \$300,000 this fall.

Sales of livestock are converted to dollars and the amount helps provide out-patient treatments for the more than 11,000 handicapped children and adults who will be treated this year at the Rehab facilities.

Scheduled CRCC sale dates include Cattle Sale - September 28 at Abilene Auction; Horse Sale - October 3, Abilene Auction; Coleman Sale - October 7; Stephenville Sale - October 7; Junction Sheep & Goat Sale - October 12; San Saba Sale - October 15; and Brownwood Sale - October 28.

The Roundup idea began in Coke County back in 1960 on the late Conda Wylie's Fort Chadbourne ranch. He came to Shelley Smith with the suggestion that 20 top steers be cut from his herd and sold to help defray operational expenses at the Rehab Center. This spontaneous gathering of livestock continues to be a vital part of the Center's annual budget which is generated by donations, gifts and third-party reimbursements.

Since its establishment 34 years ago, WTRC has always aimed toward treating the whole patient rather than just the handicap. Treatment and diagnostic services provided include physical, occupational and speech therapy, audiology, orthotics, psychology, education, social services, and diagnostic clinics. Patients are admitted by referral, and are treated without charge except for braces and hearing aids.

Persons wishing to make a donation of stock or cash should contact the local chairman or call Smith at WTRC-Abilene, 915/692-1633.

Mrs. W. H. Tennison had the misfortune of breaking a hip in a fall at her home Friday night. She was taken to High Plains Baptist Hospital in Amarillo by the Silverton Volunteer Ambulance Service.

Forty Donated Blood Here Last Week

Of the forty persons who donated blood when the Coffee Memorial Blood Center's bloodmobile was here last week, thirty-nine said they would donate blood again in January.

A blood drive was scheduled for January.

If you have any questions about the blood drives, contact Lou Younger.

Appreciation was expressed to the City Hall employees for their assistance and the use of the facility; and to the 4-Hers, Christy Nease, Shannon Weaver, Julie and Braden Towe, Brian and Kami Martin, Justin Delano, Lance Smith, Josh and Jeremiah Brooks, who provided cookies for the blood drive.

Large Channelcat Taken on Trotline

Brent Lavender of Tulia caught a nice 7 1/2 pound channelcat on a trotline using perch for bait on Saturday, September 20. He was fishing on the north side of the lake.

This was the only big fish taken to Cactus Cove Marina for weighing during the past week.

Water temperature at a four-foot depth is now 73° and the depth at the dam is 112 feet.

Methodist Charge Conference Postponed

The Charge Conference of the Silverton United Methodist Church, scheduled to be held Sunday, September 27, has been postponed until December 6, 1987.

The dinner at the church has also been postponed.

This is because the District Superintendent of the Plainview District has been called to El Paso on business.

PTA Seeking To Honor Outstanding School Employees

Silverton PTA is urging everyone to get their nominations in for School Employee of the Month.

There has been very little response to this project, and your participation is needed.

If you know a particular teacher, administrator or other school employee who has made that extra special effort to make the Silverton School the best, please let a PTA member know about it. Just drop a note to Beverly Minyard, Box 532, or call 823-2108.

If you think you have a roach problem . . . During the Carboniferous Period, some 240 million years ago, the soggy swamp forests swarmed with roaches. They left their fossils everywhere. According to "International Wildlife" magazine, there are about 3,500 species of these perky creatures around today. The majority inhabit the tropics, where some grow to whopper size—as long as a human hand!

Who Needs To Know CPR?

Medical personnel and life guards aren't the only people who need to know how to do CPR, or cardiopulmonary resuscitation, says a Texas A&M University Agricultural Extension Service health education specialist.

"The composition of your family, where you live and your lifestyle may make it important that you know CPR," says Dr. Mary Ann Hessner.

In cases of drowning, suffocation, electrocution, automobile accidents, or heart attacks someone trained in CPR can provide proper lifesaving measures until trained professionals take over, she says.

According to the health educator, people who should have CPR training include the following:

- *Parents of young children.
- *People who provide day care for children in their homes.
- *People who live in homes with backyard swimming pools, or a pond where family members swim, and apartment-dwellers who live in complexes where no life guard is on duty at the swimming pool.
- *People who provide care for an elderly parent or relative in their homes.
- *Rural families that live some

distance from medical facilities and families in those areas that have limited ambulance service.

*Individuals who engage in boating, swimming, water sports or higher risk outdoor activities, especially if they are done in remote areas with limited access to medical facilities.

If your family falls in one of these categories, Dr. Heussner suggests taking CPR classes which are offered by local units of the American Red Cross, American Heart Association and other health agencies.

"For a short investment of your time, you'll be better able to handle a medical emergency in your family," emphasizes the specialist.

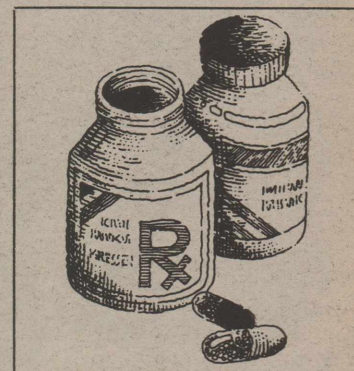

Call them partners: birds called egrets feed on insects stirred up by grazing cattle. In return, the egret warns the cattle of danger by flying away.

Four states have active volcanoes: Washington, California, Alaska, and Hawaii.

The "Beave": Unlike most mammals, a beaver never stops growing. According to "Ranger Rick" magazine, the biggest beaver found in recent times weighed over 66 pounds! But that's puny compared to the beavers that lived 10,000 years ago. Some of them grew to be the size of grizzly bears!

Owls Earn Big Victory Over Amherst

Silverton's varsity Owls romped and stomped all over Payne Field last Friday night, and when the dust had settled fans could see that the scoreboard reflected a 66-20 victory for the home team.

The first score came with 9:09 remaining in the first quarter on a 10-yard run by Neal Edwards. Ryan Smith kicked the points after touchdown, and the Owls held an early 8-0 lead.

Amherst ran three plays and punted, and Edwards carried to the Silverton 25. The Owl offense was unable to make a first down and their punt rolled dead on the Amherst 20.

On first down, Edwards intercepted a Bulldog pass on the Silverton 36, jumping high in the air to pull it down.

Kendall Minyard passed complete to Robbie McWaters for 14 yards, and the Owls got their first down on an offside penalty against the Bulldogs.

Amherst batted down Minyard's next pass which was intended for Jamie Frizzell, Edwards gained a first down on the Bulldog four, and Bradley Brunson carried the touchdown with 4:31 still showing on the first-quarter clock. Smith kicked the PAT, and the Owls led 16-0.

Amherst came passing back and picked up a first down on the Silverton 26 before throwing two incomplete passes and seeing the ball go over on downs at the 21. The 'Dogs stopped the next Owl offensive effort with an interception with 47 seconds remaining in the quarter, scored with 36 seconds remaining, and Smith knocked away the conversion pass after a poor pass from center negated the kicking attempt. The score stood at 16-6 on first down when Silverton fumbled and Amherst recovered on

the Owl 23.

Amherst received a first down on a face-mask violation to the six as the second quarter began. They scored with 8:01 remaining in the first half, kicked the PAT, and trailed 16-14.

Wayne Henderson took the Amherst kickoff to the Silverton 34, Edwards carried to the Amherst 34, and a pass to Frizzell was good for a first down on the 15. Edwards carried the touchdown with 6:58 remaining in the period. Smith kicked the PAT, and the Owls held a 24-14 lead.

On Amherst's next first down play, Henderson intercepted a Bulldog pass on the Amherst 26. The ball went over on downs on the 15. The Owl defense cranked up and played well, and Edwards took the Amherst punt on the Bulldog 28 with 4:00 still on the second-quarter clock.

Brunson, Clay Schott and Edwards combined talents for a first down on the Amherst five, Schott moved the ball to the one, and Henderson scored with 2:48 still showing on the clock. There was no PAT, and the Owls led 30-14.

The 'Dogs punted on fourth down, and Edwards carried the ball to the Silverton 35. Edwards carried for a first down on the Amherst 15, then went to the nine from where he scored on the next play with 21 seconds still remaining before halftime. Smith kicked the extra point, and the Owls were ahead 38-14.

The Owls kicked off to Amherst, and Robbie McWaters threw their ballcarrier for a loss back to the Amherst 13 on first down as the first half ended.

Amherst passed for a first down on the second play of the third quarter, moving to the Silverton 30, but the Owl defense

held and the ball went over to the Owls on the 25. Brunson and Edwards carried to the 29, and Henderson completed a pass play to move the ball to the Amherst 23 and a first down. Edwards carried to the 18, where a flag dropped, and the penalty against Amherst gave the Owls a first down. Schott carried to the one, and Edwards carried the TD. Smith's PAT kick was blocked, and the Owls were on the long end of the 44-14 score.

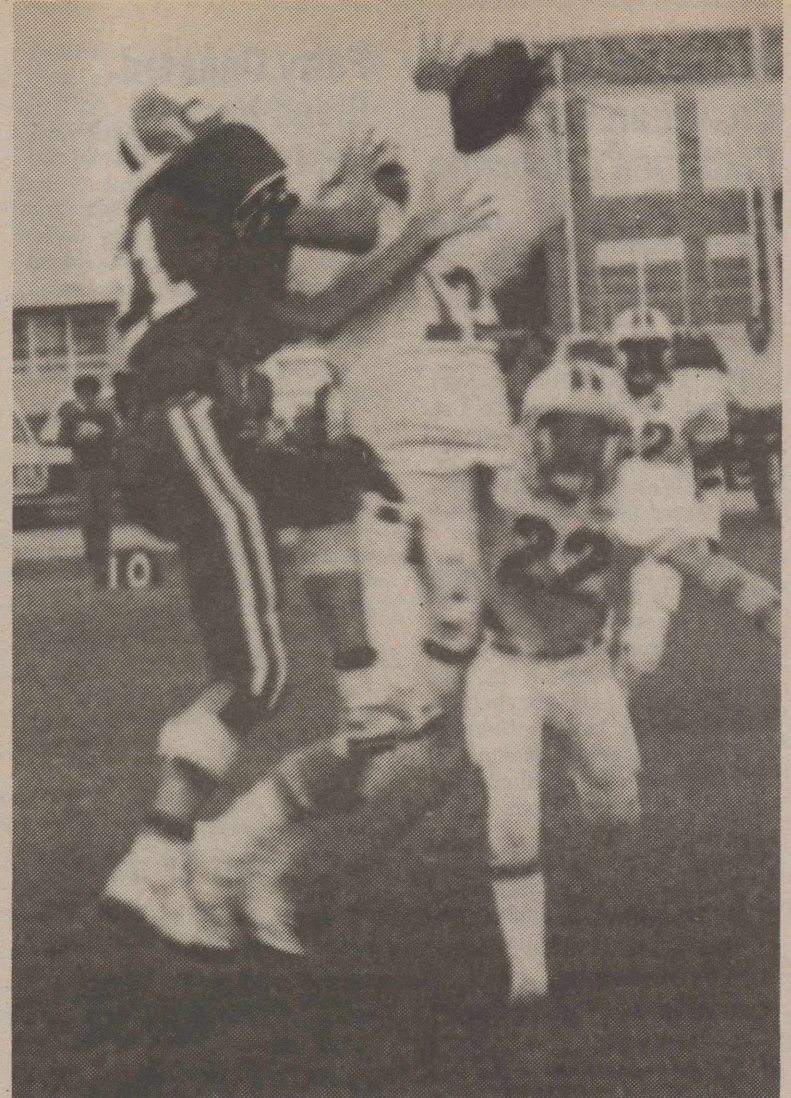

Silverton kicked off, Amherst brought the ball out to their own 30, and after four downs the ball went over to the Owls on the Amherst 35. The Owls weren't able to make a first down on their next series, but Edwards moved the ball to the Bulldog 30.

Amherst came back with a first down after which Edwards prevented a touchdown on the Silverton 31. Amherst made another first down before seeing the ball go over on downs as the fourth quarter began.

Edwards carried from the 20 to the 34, and a first down was made on the Silverton 38. Brunson carried to the Amherst 32, and Edwards moved the ball for a first down on the 23, and then picked up another first-and-15 on the Amherst two. Brunson carried the touchdown with 8:05 remaining in the game and Smith kicked the PAT to give Silverton a 52-14 lead.

Silverton's ensuing kickoff was taken by Amherst all the way for a touchdown. The kick failed, and the Bulldogs narrowed the score to 52-20 with 7:50 still to be played.

Amherst kicked off to the Owls and Edwards took it out to the 32. Brunson and Edwards carried to the 39, and Edwards passed to Frizzell for a first down on the 10. Edwards carried the touch-

Jamie Frizzell went high in the air to haul in this pass during the Silverton-Amherst game here last Friday night.

Briscoe County News Photo

down with 6:27 still to be played, and Smith kicked the extra point. At this time, the score was 60-20.

Amherst ran four plays and saw the ball go over on downs on the Amherst nine, but the Owls lost the ball via the fumble route on first down on the eight.

Amherst ran four plays, and the ball went over on downs on the Bulldog 17 with 3:54 remaining on the clock. Brunson carried to the 13 and Schott scored, ending the game with 3:05 remaining. The 66-20 score 45-ed the Bulldogs, and gave the Owls

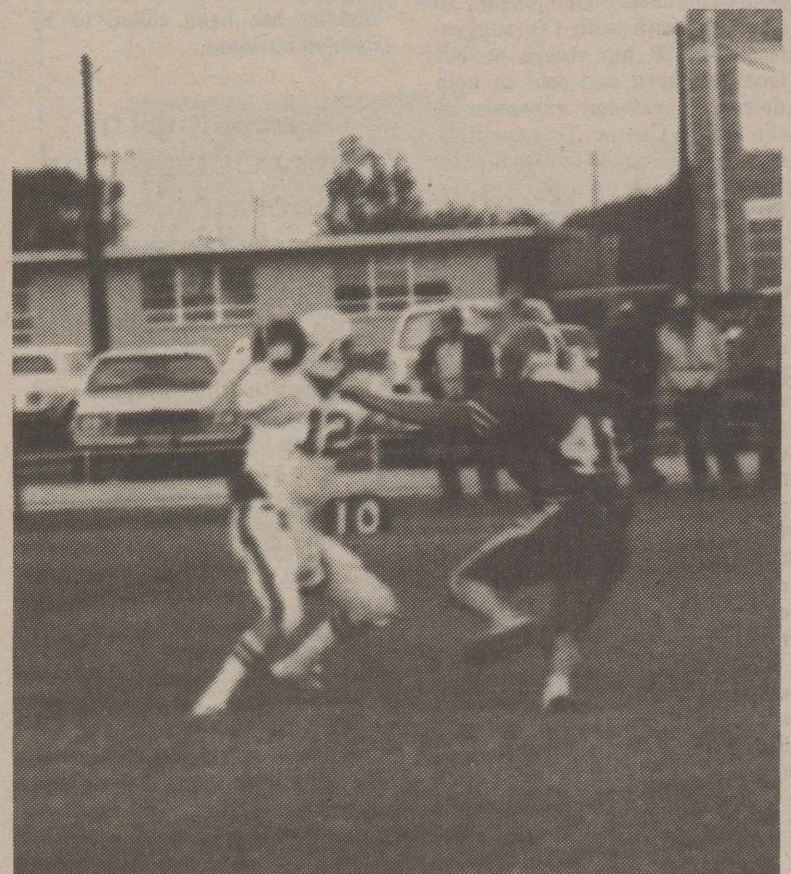

their first district victory of the current campaign.

The Owls go to Smyer Friday night, and game time is 7:30 p.m.

Until last Friday, the Owls had used such a balanced attack that no player ranked among the area's teams in scoring.

Edwards had an excellent game, scoring five times Friday night, which, along with his yardage gained, passing for a touchdown, interception, tackles,

Junior High Owls Earn Safety To Defeat Amherst

The Junior High Owls got off to a rocky beginning in their game at Amherst last Thursday night, but managed to earn a safety in the last minutes of the game to come home with an 8-6 victory.

The Owls had fumbled away their first possession of the ball, but held Amherst to an eight-yard gain on the strength of defense by Brian West.

Brian Martin picked up yardage for the Owls on their next possession, but the ball went over to Amherst. Bryan Breedlove and Langdon Reagan combined talents to throw the ballcarrier for a loss, and Josh Brooks assisted them in creating another loss for Amherst on the next play, but the Bulldogs scored on third down and failed in their extra point try.

The first first down of the evening for the Owls came on a pass from Brooks to Breedlove,

but the first quarter ended as a face-mask violation penalty was stepped off against Silverton.

Brian Martin and Reagan gained enough for a first-and-goal, and Reagan carried the last yard for the touchdown. The try for extra points failed, and the score was knotted at 6-6.

Brian Martin knocked down an Amherst pass on the next series, and forced a punt. Casey Frizzell caught a pass for the Owls and Brian Martin ran six yards to advance the ball again, but the ball went over on downs.

In the third quarter, the teams traded possessions, and in the fourth period Reagan gave the Owls a new opportunity by intercepting the Bulldogs. Brian Martin and Reagan gained some yardage, but the ball went back to Amherst. Reagan recovered a Bulldog miscue, and a first down was picked up by Breedlove on a pass play. The offense was unable to continue, and the ball went back over to Amherst deep in their end of the field. The Bulldogs lost yardage on first down, and on second down, Breedlove brought down the Amherst ballcarrier in the end zone for a two-point safety, this with 20 seconds remaining to be played in the game.

The Owls go to Patton Springs today, with kickoff at 6:00 p.m.

Neal Edwards Is Runner-Up

Neal Edwards was named runner-up to the player of the week by the Amarillo Daily News this week. Shane Bridwell of Miami repeated as player of the week with 362 yards of offense and seven touchdowns.

Edwards rushed 25 times for 232 yards (9.3 yard average) and scored five touchdowns of 10, 10, 9, 9 and 10 yards. He also made six tackles and one interception, and passed for a touchdown.

Ryan Smith received honorable mention as player of the week. He made 15 tackles and helped hold Amherst to 160 total yards of offense. He made six of eight PAT kicks which are worth two points each.

Clay Mercer of Miami, a former Owl, received honorable mention for the second time this season. He caught two passes for 27 yards and made nine tackles as Miami whipped Patton Springs 71-42.

OWLS

Continued From Page 6

etc., made him runner-up to the player of the week.

At this point in the season, Smith has scored the most times, 10, but has only 24 points because most of his scores have been two-pointers. Edwards has scored 42 points; Brunson has 18 to his credit; Henderson, 14; Schott, 12; Frizzell and Bryan Ramsey, six points each.

As of Wednesday of last week, the Owls were leading the six-man defense, having given up only a stingy 153 yards rushing and 144 passing for a total of 297 yards and an average of 148.5 yards per game, very low numbers for six-man football. Lazbuddie was second, having allowed an average of 160.0 yards per game. Jayton ranked third with 211.0 yards per game allowed opponents.

The team gave up 160 yards to Amherst, giving the Owls an average per game of 152.33 yards allowed their opponents.

First County 4-H Capon Show Held Here Monday

Fifteen Briscoe County 4-H members exhibited 22 capons in the first county 4-H Capon Show Monday night at the Show Barn. Show superintendent was Lynn Smith. Judge was Tommy Perkins, Ector County Extension Agent.

Taking top honors were Rickey Hughes, who exhibited the Grand Champion, a 12½ pound bird from the heavy weight class, and Warren Merrell, who showed the Reserve Champion, a 10¾ pound medium weight bird.

Placings in the light weight class were: 1. Molly Brooks; 2. Warren Merrell; 3. Will Sperry; 4. Warren Merrell; 5. Josh Brooks; 6. Jarrett Pigg; 7. Tommy Pinkerton.

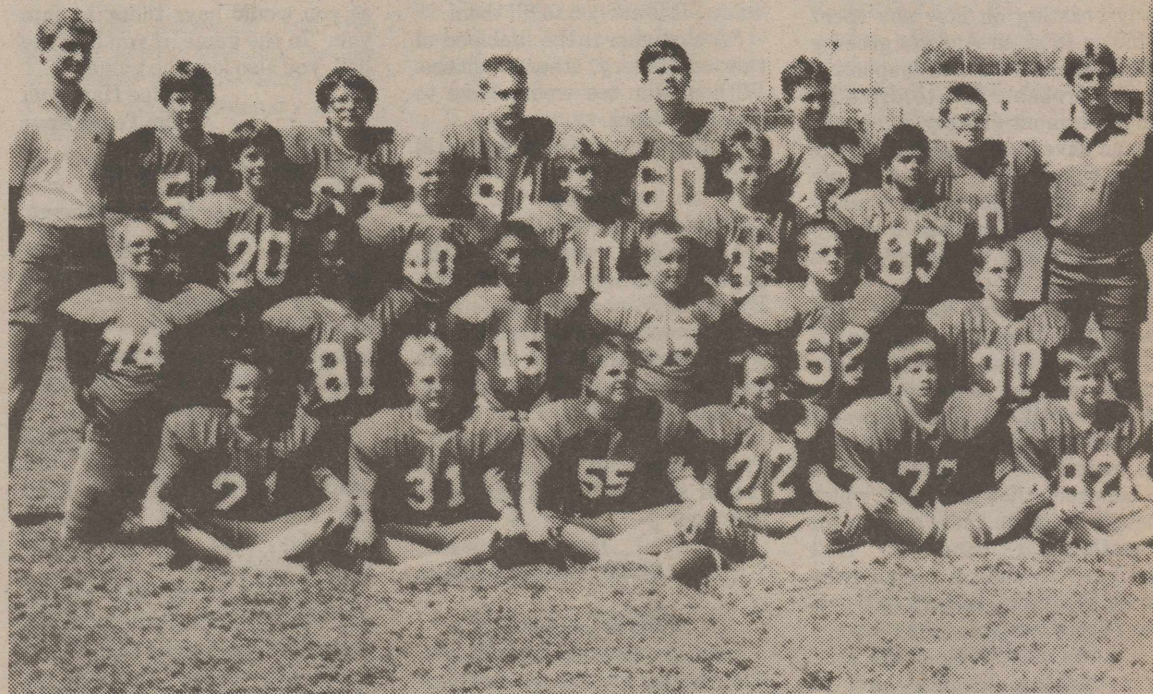

Medium weight placings were: 1. Clay Merrell; 2. Clay Merrell; 3. Jeremiah Brooks; 4. Kristi Smith; 5. Kristi Smith; 6. Jarrett Pigg; 7. P. J. Merrell; 8. George Pigg.

Placings in the heavy weight class were: 1. Rickey Hughes; 2. Danny House; 3. Brianna Sperry; 4. Rickey Hughes; 5. George Pigg; 6. Wil T Bomar; 7. Rickey Hughes.

This was the first year for a 4-H capon project in the county. Janinne Brooks was the project leader.

According to Justice Department statistics, crime rates in the U.S. are falling.

JUNIOR HIGH OWLS—(standing, left to right) Coach Gary Childs, Steven Cavitt, Stan Gamble, Brian West, Bryan Breedlove, Brian Martin, Lance Bradford, Coach Kevin Cleveland; (third row) Josh Brooks, Russ Baird, Jess Brannon, Braden Towe, Frank Ramirez; (second row) Zane Henderson, Lyndell Ivory, Abel Maciel, Matt Francis, Lance Smith, Casey Frizzell; (sitting) Dusty Martin, Jeff Smith, Trent Smith, Lance Holt, Langdon Reagan, Wil T. Bomar.

ALL AROUND THE TOWN—
Continued From Page One

big ad in the Abilene Reporter News picturing an Aspermont lady boasting on how she spent \$250 or so at an Abilene grocery store and saved \$62 in coupons.

She probably had to drive by an Aspermont grocery store who would have been tickled to do the same thing. Sure, she may have saved a few dollars, but I really doubt that she realized a significant savings by buying groceries in Abilene.

I hope she's not on the committee to round up prizes for the Aspermont Fire Department, needs a donation for the Aspermont Little League, wants a donation to get new trash cans on main street in Aspermont, or a hundred other things for which people hit on business owners for donations. I hope she isn't assigned to collect a give-away prize from the Aspermont grocery store owner for the rodeo.

On the other side of the coin, the business owners have a responsibility to see to it that their employees are treating customers with respect. Sour clerks are the very reason that the Mall of Abilene is thriving.

Thought you business owners would like to review the following article, "Where Would We Be Without Customers?"

*A customer is the most important person in any business.

*A customer is not dependent on us. We are dependent on him.

*A customer is not an interruption of our work. He is the purpose of it.

*A customer does us a favor when he comes in. We are not doing him a favor by serving him.

*A customer is part of our business, not an outsider.

*A customer is not just a statistic. He is a flesh-and-blood human being with feelings and emotions like ourselves.

*A customer is deserving of the most courteous and attentive treatment we can give him.

*A customer is a person who comes to us with his needs or his wants. It is our job to fill them.

*A customer is the lifeblood of this and every other business. Without him we would have to close our doors.

(Kim Pease, Rotan Advance)

HONOR

What happened to honor?

I am so glad everyone liked the paper honoring the graduates. By Friday morning the newsstands were sold out. But, when I went to refill them, out of the 130 papers only 42 had been paid for. I realize these boxes are accessible by only dropping 30 cents. This is supposed to work on the "honor system." What happened to honor?

Barbara Jameson,
Motley County Tribune

THE BIG GAME

I am giving you the ball, son, and naming you the quarterback for your team in the Game of Life. I am your coach, so I'll give it to you straight.

There is only one schedule you play. It lasts all of your life, but consists of only one game. It's a long game with no time outs and no substitutions. You play the whole game—all your life.

You have a great backfield. You're calling the signals, but the other three in the backfield with you have great reputations. They are Faith, Hope and Charity.

You'll work behind a truly powerful line: from end to end, it consists of Honesty, Loyalty, Devotion to Duty, Self-Respect, Study, Cleanliness and Good Behavior. The goal posts are the Pearly Gates of Heaven.

God is the referee and the sole official. He makes all the rules and there is no appeal from them. There are 10 rules—you know them as the Ten Commandments

and you play them strictly in accordance with your own religion.

There is also an important ground rule. It is "Do unto others as you would have them do unto you." In the game, if you lose the ball, you also lose the game.

Joe Harrison,
The Texas Spur

BOY SCOUT NEWS

by Scoutmaster Mark Eddleman

At last week's meeting, Mr. Dean showed the boys how to read a topographic map and explained some uses for a compass. This week he will be teaching more map orientation and compass reading.

This weekend we will be going on a camping trip to Palo Duro State Park. We will leave from the Scout Hut at 1:00 p.m. Saturday, and are to return Sunday afternoon.

October 2-3, the Boy Scouts and Cub Scouts will be having a garage sale and bake sale at the community center building on Main Street. Make sure you put it on your calendar and plan to come by. If you have any good stuff that is no longer of use to you, we would be glad to take it off your hands. We will come and pick it up if you will call Mary Ivory, 847-2512, or Mark Eddleman, 823-2297.

Remember, if you didn't do your good deed for the day, donate to a Scout and wipe the blues away.

Last week, Russ Baird, Jeff Smith, Stan Gamble, Lance Holt, Lyndell Ivory, Frankie Ramirez and Lance Smith attended the meeting.

Last week, Mary had a Cub Scout Rally at the PTA meeting and had a good number of young men re-join and some join for the first time. Welcome to the Pack, guys; we hope you have fun. Someday you'll be a Boy Scout and have even more fun!

equivalent to one serving, according to the nutritionist.

"According to recent U. S. Department of Agriculture studies, many young people don't get enough calcium daily," states Dr. Cooksey. "In fact, females over 11 years of age were reported as one group at greatest risk of calcium deficiency, which can lead to osteoporosis in later years."

"If your child drinks milk at breakfast and dinner and eats other dairy foods throughout the day, a sweetened fruit drink at lunch may not interfere with adequate calcium intake," she notes.

When children and teenagers don't drink milk at school or home, the nutritionist suggests that they be offered more dairy products in meals and snacks.

Cheese sandwiches, cheeseburgers, cheese and crackers, string cheese, cheese pizza, flavored yogurts, milk shakes, ice cream and milk-based puddings all add calcium to the child's diet, she explains.

"Giving children calcium supplements in pill form is generally not a good idea," warns Cooksey. "Calcium supplements can have side effects, so you should check with a physician before giving them to your child."

"Dairy foods are the best and most abundant source of calcium in our food supply," says the nutritionist. "In addition, they contain lactose and vitamin D which enhance calcium usage by the body."

One 100-watt incandescent bulb produces more light than two 60-watt bulbs, with 20 percent less energy consumption.

When a plane moves at the speed of sound it is known as Mach 1. The name derives from German physicist Ernst Mach.

The booming sound of a plane passing the sound barrier cannot be heard by the pilot.

Jacksonville, Florida has the largest total area of any city in the U.S. It takes in 460 square miles.

The world's smallest flower is the duckweed, no larger than a tackhead.

The average American household watches TV for seven hours and two minutes a day according to A.C. Nielson reports.

Make It Milk For School Lunches

There's no doubt that children and teenagers need plenty of calcium, but they're now less likely to get it from the small square milk carton that used to be a part of every school lunch.

The availability of fruit drinks in pouches or individual serving size cartons means children don't have to buy milk to go with their sack lunches. In many high schools, students also have the choice of getting a soft drink from a machine.

"The question for parents is whether they think their child is getting enough calcium each day for good health," says Dr. Dymple Cooksey, a nutritionist with the Texas A&M University Agricultural Extension Service.

"Children ages one through 10 need 800 milligrams of calcium a day," she says. "This requirement can be met with three servings of dairy foods as part of the everyday diet."

"Due to increasing bone length and development, adolescents 11 to 18 years old need 1,200 milligrams of calcium, which can be met by eating four servings of dairy foods daily," she adds.

One 8-ounce cup of milk, which is the amount contained in a milk carton served in schools, is one serving. A 1½ ounce piece of cheese or a cup of yogurt is also

The CAF Air Power Demonstration

O.C. Garza, Media Chief, Tourism Division, Texas Dept. of Commerce

I froze when the first bomb shook the ground and sucked my breath away. Overhead the skies filled with Japanese Zeroes as more powerful bombs exploded into fire balls. A low altitude, shot-up B-17 bomber emerges from the smoke and debris trying to outfly the Zeroes. Machine gun fire echoes through the skies as the Zeroes strafe the crippled flying machine. Pearl Harbor comes to life again.

Out of nowhere comes a squadron of German Messerschmitts whose accurate machine guns target an equal number of American Spitfires. Then the greatest fighter of WWII, the P-51 Mustang, takes to the skies followed by German bombers and the famous P-38 Lightning, often called the "fork-tailed devil" by the Germans. As the twin-tailed Lightning shows its twin-engine speed and high speed maneuverability, more explosions shake the earth.

This is my first Air Power Demonstration, the realistic reenactment of famous World War II air battles which are performed annually by the Confederate Air Force at its home airfield in Harlingen, Texas. Needless to say, I was glued to my seat as the air battles continued and as Tennessee Ernie Ford narrated the battle scenes for the audience. As the afternoon passed, I would hear the famous voices of Winston Churchill, Franklin Roosevelt, and Adolph Hitler calling their nations to arms.

To understand the Air Power Demonstration, you have to understand the Confederate Air Force. This is a band of fliers devoted to the preservation of flying aircraft from WWII. And why would we need to save aircraft from WWII you may ask? Because those aircraft changed the world. Without control of the sky and American's ability to create over 300,000 airplanes during the Second

World War, the fate of the world would certainly have been different.

Originally created by former WWII fliers, the origin of the CAF was due to one simple fact - pilots love their airplanes, especially when they were shot full of holes and still managed to get them home.

After the war, this group of CAF "colonels" began scouring the countryside in search of WWII aircraft. They were amazed to find that by 1959, the greatest aerial armada ever produced had been almost completely turned to scrap. Their goal was set: find at least one representative of each great American fighter aircraft, restore these planes and maintain them in flying condition. This was nothing short of a historical preservation effort, promising future generations of Americans a look at a few of the remarkable airplanes of that remarkable period called The War. And above all else, these aircraft could still fly.

By 1963, two years after the CAF was chartered as a non-profit organi-

zation, the collection of American fighters was completed. CAF turned its attention to American bombers. By 1972 this task was completed, and the momentum of the effort had also gathered an almost complete collection of transports, trainers, a combat glider and the only helicopter type of the War. The CAF also built a fine collection of rare fighters, bombers, and transports from the Royal Air Force, the German Luftwaffe, and a fleet of replica aircraft of the Imperial Japanese Navy.

So when the CAF presents its WWII Air Power Demonstration, don't be surprised to see Japanese, German, British, and American planes filling the clear skies and explosions on the ground. And for good cause too, for if it was nothing else, the War was certainly a time to remember.

The CAF Museum in Harlingen is open daily. There are unique vintage aircraft on display including a genuine Japanese Zero, a B-29 bomber, F-82 and other one-of-a-kinds. There is also the world's finest collection of WWII aircraft nose art, a collection of military uniforms from around the world, and authentic publications from WWII.

The CAF WWII Air Power Demonstration will take place Oct. 8-11 at the Harlingen airport. For more information, contact the Confederate Air Force at P.O. Box CAF, Harlingen, 78551 or call 512/425-1057.

Never cut your flowers in the morning. Since all day the leaves manufacture food which is transported around in the form of sugars to feed the plant, cut your flowers in the late afternoon when they are the fullest of sugar, if you want the flowers to last.

TIME-SAVING TIPS

SINKS AHOY!

There are easy ways to keep a sink stain-free. First, wash dirty dishes or place them in the dishwasher as soon as possible. You'll avoid the food build-up in the sink.

If food stains do accumulate, you can remove them without using abrasive cleaners that can scratch your sink. Simply rinse the sink, then wipe it with a solution of 3/4 cup liquid chlorine bleach, such as Clorox liquid bleach to each gallon of warm water and rinse with clear water.

For stubborn stains, allow the bleach solution to remain on the surface for five minutes. Repeat if necessary.

The Middle East has more than half the world's oil—about 398 billion barrels in reserve.

BIBLE DOCTRINE SERIES

"For the grace of God that bringeth salvation hath appeared to all men . . . looking for that blessed hope, and the glorious appearing of the great God and our Savior Jesus Christ"

Titus 2:11, 13

The rapture of the church (the translation of true christians from earth to heaven) is promised by the Word of God. Although some churches do not teach or believe it, nevertheless, we stand on the Bible as our only guide: ". . . and the dead in Christ shall rise first: then we which are alive . . . shall be caught up together with them in the clouds, to meet the Lord in the air . . ." 1 Thess. 4:16, 17. This blessed hope that we look for is not far off, and only those of us that have truly served the Lord in word and deed shall see Him. The Bible declares that not every one that saith Lord, Lord shall enter into the Kingdom of heaven. If our intentions are to see the Lord we must strive now to live for Him. And I say unto you, "he that overcometh, the same shall be clothed in white raiment . . . I will confess his name before my Father." Rev. 3:5
